Chapter 3: Spatial Planning

Chapter 4: Institutional Transformation and Organisational Development

Chapter 5: Good Governance & Public Participation

Chapter 6: Financial Viability and Sustainability

Chapter 7: Envision the future of Nyandeni

FOREWORD BY THE MAYOR

- Libode Transport Hub has been completed providing access to transport facilities
- Construction of Libode Landfill Site and Ngqeleni Transfer station has been completed
- Libode and Ngqeleni Internal Roads funded by Office of the Premier (OTP) through Small Towns revitalization (STR);
- Libode and Ngqeleni Internal Roads funded by Municipal Infrastructure Grant (MIG);
- Ngqeleni Municipal Offices are nearing completion
- Upgrading of R61 between Mthatha and Ntlaza
- Instalation of high mast lights in both towns
- The development of retail both in Libode and Ngqeleni
- Two state of the art Libraries have been contracted and are in operation at Ngqeleni and Libode
- Construction of Early Childhood Development Centres
- Construction of Community Halls
- Beautification and cleaning of towns to ensure healthy environment
- Improvement on stakeholder relations including working relations with ratepayers
- Construction of energy infrastructure and electrification of households in collaboration with ESKOM and Department of Energy
- Support to agrarian development
- Promotion and marketing of Nyandeni as a tourism destination
- Maintained unqualified audit opinion for unterrupted five years

The following projects are at a planning stage

- Libode Precinct Plan funded by NT through Neighbourhood Development Fund (NDF);
- Upgrade to Surfacing T301/DR08301 (Linking Libode and Ngqeleni) planning and designs completed and funded by OTP through STR, project requires funding for construction to an amount over R150 million;

- Nyandeni Office Park revived through NDF with assistance by NT;
- Construct Public and Inclusive Economic Infrastructure (Transport facilities, community halls) through MIG funding;
- Upgrading of N2 road between Dans Lodge and Tsolo junction
- Pre planning , design and development of Ngqeleni town
- Animal Feed Production Plant

Council has identified the following priorities for 2022-2027

- 1. Fast-tract the Revenue enhancement and strive for financial sustainability
- 2. Animal Feed Production Plan and its value chain
- 3. Develop Trade and Investment Strategy and host Conference for investment
- 4. Provision of Bulk Infrastructure (Water, Sanitation & Electricity)
- Upgrading of electricity substations in collaboration with ESKOM & Department of Mineral and Energy
- 6. The municiapality has committed to gradually increase maintenance budget to ensure that meaningfull maintencance
- Construction of T301 road linking Libode and Ngqeleni tows and strategic mobility routes
- 8. Intensify our efforts on food security and agrarian reform programmes
- 9. Waste collection, cleaning and beautifications of towns
- 10. Repair of street lights,
- 11. fixing of potholes and maintenance of access roads
- 12. Land reform, resolution of land claims and Land Use Management
- 13. Coastal and Tourism development
- 14. Implementation of RAFI Partnership and other agricultural initiatives
- 15. Support SMART RURAL Village initiative
- 16. SMME and Cooperatives development
- 17. Development of Light industrial development zone (DLIDZ)
- 18. Deepen Public Participation and democracy
- 19. Construction of Early Childhood Development Facilities
- 20. Property Transfer and Registration
- 21. Safety and Enforcement of By-Laws
- 22. Improve network connectivity and reliability
- 23. Development of Libode Investment Plan

Key enablers to support the implementation of the municipal council development priorities

- The municipal council has established Resource Mobilisation Committee supported by Ambassadors to promote trade and investment
- The municipal council will host Conference for investment
- Formalise partnership and collaboration with ECSECC to accelerate research, planning and project packaging

T MATIKA MCUBE MAYOR

OVERVIEW BY THE MUNICIPAL MANAGER

In august 2021 council adopted IDP and Budget Process Plan guide development of the IDP and prepration of the annual budget. This aligned with the with the district development ONE Plan transformation areas, namely;-

- (a) **People Development and Demographics** The number of people, people's income profile (poverty), their location and density, their place of work and their migration patterns.
- (b) **Economic Positioning** The primary economic sectors, the contribution areas in the province and region and their contribution to job creation and poverty alleviation.
- (c) Spatial Restructuring and Environmental Sustainability The creation of a sustainable spatial development pattern and of integrated sustainable human settlements, the location of environmentally sensitive areas and the method followed to preserve such areas and to use them for economic development through agriculture, oceans economy, tourism, mining and forestry
- (d) **Infrastructure Engineering** The enabling component to ignite the area's economic development
- (e) **Integrated Services Provisioning** The status and location of backlogs in service provision to the people

The level of implementation will depend on the collaborations with other spheres of government and State Owned Entities. Council has resolved strengthen municipal planning and research capabilities

Council hosted its IDP Strategic Planning, 2022, as part of developing a five year Integrated Development Plan. The IDP identifies development strategic thrust for Nyandeni for the next five years.

One of the focus areas in achieving the municipal strategic development thrust is good governance. In this regard, a municipality will finalise development of Good Governance Framework to ensure rule law is observed and due processes are followed. The municipal council has also committed to build a professional administration capable of supporting implementation of the municipal strategic thrust.

MUNICPAL MANAGER ZAMA MASUMPA

SECTION A EXECUTIVE SUMMARY

INTRODUCTION

Defining the Integrated Development Planning

The Municipal Systems Act defines IDP as

(a) "...the principal strategic planning instrument which guides and informs all planning and development, and all decisions with regard to planning, management and development in the municipality"
 (b) "Binds the municipality in the exercise of its executive authority..."

The Nyandeni Local Municipality falls within the OR Tambo District Municipality, which is situated in the eastern part of the Transkei region of the Eastern Cape Province. Nyandeni consists of the two former magisterial districts of Libode and Ngqeleni.

The Municipality is bordered to the south-west by the King Sabata Dalindyebo Municipality, to the north by the Mhlontlo Municipality, to the east by the Ntabankulu, Ingquza Hill and Port St Johns Municipalities. The Indian Ocean forms the southern boundary of the municipal area.

- According to Statistics South Africa, Nyandeni's total population has grown from 290 391 people in 2011 to 309 702 people in 2016 (See Table 2 and Figure 3). This population of 309 702 people represent 21% of the district's total population
- Between 2011 and 2016, Nyandeni local municipality grew at the same rate (6.6%) as that of the province as a whole
- In 2016, the municipality had more female (165 899) than male (143 803), however male population has grown faster at 7.1% than their female counterpart at 6.2%.
- Life expectancy is high for female than for male. Figure 2 shows that more female than male reach the age of 75

The Nyandeni Local Municipality is committed towards ensuring a brighter future for all inhabitants in the region and its investment strategies aim to enhance competitiveness and encourage sustainable growth that is inclusive. A stimulus should be created for the local economy to grow, compete and create more jobs. It is all about competitiveness, about enterprises thriving in competitive markets and locations with the aim to create sustainable employment at the local level. The main approach to do so is:

- To ensure that an environment and opportunities for more labour-absorbing economic activities is established;
- To ensure that the fruits of growth are shared in such a way that poverty is largely eliminated; and
- To ensure that severe inequalities that still plague South Africa are considerably reduced.

Organizational structure, systems, processes and personnel capacity

How are we structured?

Political & Council Structures

- Mayor
- Speaker
- Executive Committee
- 64 Councillors

Administrative Structures

- Office of Municipal Manager
- Corporate Services
- Budget and Treasury Office
- Community Services

•	32 Wards & 320 Ward
	Committees Members
•	9 Standing Committees
•	Municipal Public Accounts
	Committee
•	Ethics and Members Interest
	Committee
•	Public Participation and Petition
	Committee
•	Office of the Chief-whip
•	Women Caucus
	2 Traditional Leadership

- 2 Traditional Leadership
- Audit Committee

•	Infrastructure Department
•	Planning and Development
	-

At the political level, the organization is based upon a strong programme management model and a politically orientated governance approach, combined with competencies in community based engagement, development and stakeholder mobilization. This is complimented by the leadership and executive management structures primarily at a political level. These structures are used to make decisions and inform high level planning for the achievement of desired objectives of Nyandeni Local Municipality.

The Municipal Manager reports to the Mayor and Council and is selected by this body. Since this body selects the Municipal Manager, he/she is obliged to support and execute the decisions of this body. In addition, the Municipal Manager is an integral link between the political and administrative structures.

Administrative Structures

Nyandeni Local Municipality structure is hierarchical based on functional silos represented by five departments which are supposed to be in aligned to the four core focus areas of the Municipality. The Nyandeni Local Municipality organizational structure is divided into five functional departments as follows:

- a) Office of the Municipal Manager
- b) Corporate Services;
- c) Budget and Treasury Office;
- d) Community Services;
- e) Infrastructure Department and
- f) Planning and Development

Each Department represents a functional area of work and is further divided into sub-functional components. The functions are arranged in accordance with National Five Key Performance Areas to ensure alignment and integration. This integration demands a value chain response from each department in terms of its deliverables.

The municipal administration has also established management committees to support the work of the Management Committee,

- 1. ICT Governance Committee
- 2. Risk Management Committee
- 3. EPWP
- 4. Loss Control Committee
- 5. Contract Management Committee
- 6. Fleet Management Committee
- 7. Skills Development and Employment Equity Committee
- 8. Employee and Wellness Committee

LEGISLATIVE FRAMEWORK AND POLICY ENVIRONMENT

The Constitution of the Republic of South Africa, 1996, provides the primary overarching framework within the Local Government planning must be understood. The Constitution gives Local Government a mandate to;

- Provide democratic and accountable government for all communities
- Ensure provision of services to communities in a sustainable manner
- Promote social and economic development
- Promote a safe and healthy environment; and
- Encourage the involvement of communities and community organizations in the matters of Local Government

Municipal Finance Management Act. No 56 0f 2003

Section 21 of MFMA requires the mayor to coordinate the process for preparing the annual budget and developing the Integrated Development Plan. The IDP and budget must be one process Section 21 of the Local Government: Municipal Finance Management Act states that the Mayor must table a schedule of key deadlines for various budget activities 10 months before the start of the new financial year. The accounting officer is tasked by section 68 of the MFMA with assisting the mayor in performing the budgetary functions.

- Establish effective and affordable public transport
- Produce sufficient energy at competitive prices, ensuring access for the poor
- Ensure that all people have access to clean running water in their homes
- Avail high-speed broadband internet available to all tat competitive prices

- Realise food trade surplus, with one-third produced by small-scale farmers or households
- Expand the social security system to cover all working people and provide social protection for the poor and other groups in need, such as children and disabled persons
- Play a role towars a developmental, capable and ethical state that treats citizens with dignity
- Ensure that all people live safely, with an independent and fair criminal justice system
- Broaden social cohesion and unity by making use of the talents and resources of all South Africans, while taking firm steps to redress the inequality of the past
- Play leading role in continental development, economic integration and human rights

STAT OF THE NATION ADDRESS, 2022

BACK TO BASICS LOCAL GOVERNMENT STRATEGY

The Back to Basics Local Government Strategy was introduced to stakeholders on 18 September 2015 and have the following pillars;

N0	BACK TO BASICS PILLARS	LG KPA	Role of the municipality
1.	Put people first	Good Governance and Public Participation	Implement community engagement plans targeting hotspots and potential hotspots areas
			Municipalities to implement responsive and accountable processes with communities Ward Committees must be functional and councillors must and report back to their communities at least quarterly Utilise Community Development Workers, Ward Committees, Ward Councillors to communicate projects earmarked for implementation Municipalities must communicate their plans to deal with backlogs Municipalities to monitor and act on complaints, petitions and other feedback
2.	Delivering Basic Services	Service Delivery and Infrastructure Planning	Municipalities must delivery basic services

N0	BACK TO BASICS PILLARS	LG KPA	Role of the municipality
			Municipalities must ensure that services such as cutting of grass patching of potholes, working robots, street lights and constant refuse removal are provided
			Council to ensure proper maintenance and immediate addressing of outages or maintenance issues to ensure continuity of service provision
3.	Good Governance	Good Governance and Public Participation	Municipalities will ensure transparency, accountability and regular engagements with communities All municipal council structures must functional and meet regularly Council meeting to seat at least quarterly All Council Committees must sit and process items for council decisions Clear delineation of roles and responsibilities between key leadership structures Functional oversight committees must be in place
4.	Sound Financial Management	Financial Viability and Management	All municipalities must have functional financial management system which includes rigorous internal controls Cut wasteful expenditure and implement cost containment measures Supply chain management structures and controls must be in place according to regulations and with appropriate oversight All budget to be cash backed Ensure that post audit action plans are addressed Act decisively against fraud and corruption Conduct campaigns against illegal connections, cable theft, manhole covers Conduct campaign on culture of payment for services led by councillors
5.	Building Capacity	Institutional Transformation and Development	councillors all municipalities enforce competency standards for managers and appoint persons

N0	BACK TO BASICS PILLARS	LG KPA	Role of the municipality	
			with the requisite skills,	
			expertise and qualifications	
			All staff to sign performance	
			agreements	
			Implement and manager	
			performance management	
			system	
			Municipal management to	
			conduct regular engagement	
			with labour	

EASTERN CAPE MEDIUM TERM STRATEGIC PRIORITY AREAS

Priority 1 – Promoting quality education and skills development

Priority 2- Better health care for all

Priority 3 - Stimulating rural development, land reform and food security

Priority 4 - Transforming the economy to create jobs and sustainable livelihoods

Priority 5 – Intensifying the fight against crime and corruption

Priority 6 – Integrated human settlement and building cohesive communities

Priority 7 – Strengthening the developmental state and good governance

SPLUMA

The Spatial Planning and Land Use Management Act, 2013 (SPLUMA) was assented to by the President of the Republic of South Africa on 5 August 2013. SPLUMA is a framework act for all spatial planning and land use management legislation in South Africa. It seeks to promote consistency and uniformity in procedures and decision-making in this field. The other objects include addressing historical spatial imbalances and the integration of the principles of sustainable development into land use and planning regulatory tools and legislative instruments

OVERVIEW OF THE IDP PROCESS

Each municipality, within a prescribed period must develop and adopt a process set out in writing to guide the planning, drafting, adoption and review of its Integrated Development Plan in terms of section 29 of the Municipal Systems Act.

The municipality must through appropriate mechanisms, processes and procedures established in terms of section 17 of the municipal systems Act, consult the local community before adopting the process plan.

Status of the Integrated Development Plan

The Integrated Development Plan is a strategic planning instrument that guides and informs all planning, budgeting, management and decision-making in a municipality. The IDP gives impetus to the implementation of the government programme of action.

Matters considered during the Development Process

- Eastern Cape Government Medium Term Strategic Framework
- Municipal Standard Chartered of accounts (mSCOA)
- Matters emanating from council strategic planning
- Comments emanating from IDP and Budget Public Hearings
- Comments emanating from the Mayoral Outreaches
- National Treasury Division of Revenue Act Allocations for 2022
- Sector Plans
- MEC Comments for 2020/2021 IDP Assessment
- Auditor General's 2020-2021 Audit Opinion

ADOPTION OF THE IDP/PMS AND BUDGET PROCESS PLAN FOR 2022-2022

In accordance with section 21(b) of the Local Government: Municipal Finance Management Act No. 56 of 2003 the IDP and Annual Budget Process Plan for the financial year 2022/2023 was tabled and adopted by Council on 27 August 2021 with Council Resolution No. 2911/27/08/2021

The Council has fully complied and adhered to the adopted Key schedules of deadlines

TABLING OF DRAFT IDP AND BUDGET FOR 2022/2023 FINANCIAL YEAR

The Draft IDP and budget for 2022/2027 were tabled to Council on 30 March 2022 and related budget policies and adopted as Council documents these documents were also published for comments, inspection and representations in the Regional and Local News Paper.

Notice was also placed on the Municipal Website (www.nyandenilm.gov.za) as well as all municipal Libraries for easy access by communities

ADOPTION OF THE IDP AND ANNUAL BUDGET FOR 2022-2023

The municipal council adopted the IDP on 31 May 2022 with Council Resolution No. 2993/ 31-05-2022 and annual budget approved with council resolution No. 2994/31-05-2022

SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN

PUBLIC CONSULTATIONS

IDP and Budget Public Hearings were conducted on 19 May 2022 in 7 clusters. The IDP Representative forum was held on 26 May 2022 to solicit inputs from various stakeholders

PUBLICATION AND SUBMISSION

The approved Annual Budget, IDP and tariffs published

ISSUES EMANATING FROM THE IDP STRATEGIC PLANNING

Basic Infrastructure and Planning

Ref No	ACTIVITY	RESPONSIBLE AGENCY	TIMEFRAME
1.	Convene Economic and Infrastructure Cluster and Ward Councillors Forum to further discuss and process the Eskom and ORTAMBO DM Electrification and Water and Sanitation Projects respectively	Infrastructure Department	April 2022
2.	Identify key priority programmes (Catalyst programmes) and invest resources in collaboration with the DDM ORT Hub. Develop concrete business plan and project packaging for all Catalyst Projects	Office of the Municipal Manager	2022

SECTION B: SITUATION ANALYSIS

CHAPTER 1: INTRODUCTION TO NYANDENI LOCAL MUNICIPALITY

INTRODUCTION

2. Demography

"Demographics" is a shortened term for "population characteristics". It includes population groups, age and location. Distributions of values within a demographic variable, and across households, as well as trends over time are of interest. In this section, an overview is provided of the demography of Nyandeni Local Municipality.

Population

Introduction

In order to form a clear picture of the socio-economic conditions of an area, it is crucial to analyse the size, spatial distribution, composition and growth patterns of the population with changes in its magnitudes and possible future patterns, trends and propensities.

The demography of an area provides vital information for policy-makers. The data used in this section is from the 2016 Community Survey published by Statistics South Africa. The analysis and results of this section could be used by Nyandeni local municipality for promoting optimal resource allocation in order to reduce poverty and vulnerability among marginalised people in municipality.

Demographic results from the 2016 Community Survey

The findings from the 2016 community survey are critical for decision- making not only in the public sector but also in the private sector. Population size and characteristics can influence the location of businesses and services to satisfy the needs of the target population.

	2	2011 census			2016 Community Survey				
	Male	Female	Total		Male	Female	Total		
O.R. Tambo	630 090	734 856	1 364 943		679 882	777 502	1 457 384		
Ngquza Hill	128 973	149 505	278 481		142 829	160 549	303 379		
Port St Johns	71 481	84 654	156 135		77 077	89 701	166 779		
Nyandeni	134 241	156 150	290 391		143 803	165 899	309 702		
Mhlontlo	87 438	100 788	188 226		88 911	100 264	189 176		
KSD	207 951	243 759	451 710		227 261	261 088	488 349		
Eastern Cape	3 089 703	3 472 353	6 562 053		3 327 495	3 669 481	6 996 976		

The total population in Nyandeni local municipality has increased by 6.6% from 290 391 people in 2011 to 309 702 people in 2016

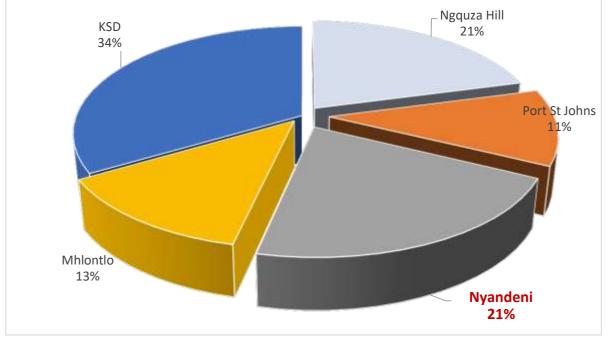

The following findings are derived from the demographics of Nyandeni local municipality:

- According to Statistics South Africa, Nyandeni's total population has grown from 290 391 people in 2011 to 309 702 people in 2016 (See Table 2 and Figure 3). This population of 309 702 people represent 21% of the district's total population (See Figure 1).
- Between 2011 and 2016, Nyandeni local municipality grew at the same rate (6.6%) as that of the province as a whole (See Table 3).
- In 2016, the municipality had more female (165 899) than male (143 803), however male population has grown faster at 7.1% than their female counterpart at 6.2%. This pattern is the same across

O.R. Tambo district (See Table 3).

- Life expectancy is high for female than for male. Figure 2 shows that more female than male reach the age of 75
- Between 2011 and 2016, the population growth was high in KSD at 8.1% and low Mhlontlo at 0.5%. In Mhlontlo, the female population declined by 0.5% (See Table 3).

How the population of O.R. Tambo is distributed among the local municipalities (2016 Community Survey)

Source: Statistics South Africa, 2016 Community Survey

Overall, demographic development outcomes have an impact on other population variables such as migration, settlement, fertility, mortality and morbidity rates. These variables give insight into the living standards of the population and an indication of what policy options to be undertaken according to the structure of the socio-economic context.

2011 and 2016	O.R.T ambo	Ngquza Hill	Port St Johns	Nyandeni	Mhlontlo	KSD	EC
Male	7.9%	10.7%	7.8%	7.1%	1.7%	9.3%	7.7%
Female	5.8%	7.4%	6.0%	6.2%	-0.5%	7.1%	5.7%
Total	6.8%	8.9%	6.8%	6.6%	0.5%	8.1%	6.6%

Source: Statistics South Africa (2011 Census and 2016 Community Survey) Table 3

Age pyramid of Nyandeni local municipality

The age pyramid of Nyandeni local municipality shows that more female than male reach the age of 75 years.

In general, a population with a larger percentage of young, reproductive age individuals will grow more rapidly than a population with more older, non-reproductive individuals. This is the case for Nyandeni, a municipality populated largely with very young people.

Age pyramid of Nyandeni local municipality: 2016

Source: Statistics South Africa, 2016 Community Survey

Figure 2

Figure 2 displays the age pyramid of Nyandeni. It shows how large is the population between the age zero and nineteen. It is important for Nyandeni local municipality to monitor closely its population patterns and trends, as a rapidly growing population may need to be followed by faster investment in household, health and other essential infrastructure to ensure that a favourable socio-economic environment is maintained. In addition, investigating the dynamics of a population is vital in attaining the precise viewpoint of those who are likely to be affected by any prospective policy, project or development.

81% of the Nyandeni population is young below the age of 35

Source: Statistics South Africa, 2016 Community Survey

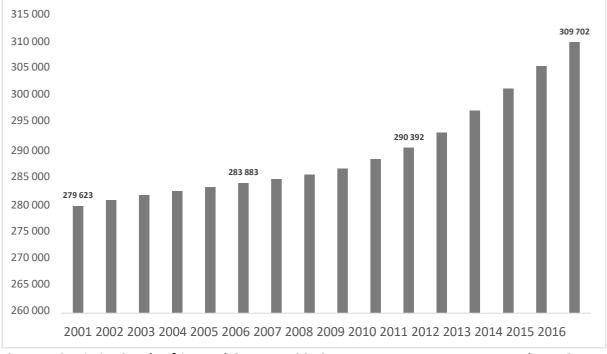

The demographic analysis of Nyandeni reveals in Table 4 that the population is young, with over 80% of the total population being below the age of 35. This implies that expenditure on social infrastructure such as schools, health care facilities and recreational centers are crucial. It was also shown in Table 3 that between 2011 and 2016, Nyandeni's population grew by 6.6%. With 80% of people being below the age 35, there is a possibility of further population growth. Thus, the government of Nyandeni must prioritize youth and direct their resources toward addressing their needs in terms of infrastructure and job opportunities. Since some of these youth depend on poor people who solely dependent on government grants, the government of Nyandeni should develop a youth strategy that considers youth as an asset rather than a liability.

A young and growing population

Demographic changes that a society experiences may lead to a window of opportunity or higher economic growth, with a greater supply of labour and lower dependency ratios as the working age population rises in proportion to the number of young and elderly people.

The NDP aims to maximise the benefits of this 'demographic dividend'. More rapid improvements in health and education, spatial transformation, skills development and greater employment opportunities are all needed for a region, such as Nyandeni, to take advantage of his demographic opportunity.

Figure 3 provides demographic trends for Nyandeni local municipality. Between the last census in 2011 and the latest community survey in 2016, population growth in Nyandeni has been very impressive. This, in turn, has an impact on resource allocation, the consumption of goods and services and human capital development, which influences factors such as education, employment, income distribution and the physical well-being of a population.

A Growing Population in Nyandeni Local Municipality

Source: Statistics South Africa and Quantec, 2016

Most of household in Nyandeni are headed by female. For every 10 households in OR Tambo, 6 are headed by female (See Table 5).

	Number		%	Grand Total

Table 5

Observation

This section highlighted two important facts about Nyandeni local municipality. Firstly, its high growing population could contribute to high demand for goods and services. Secondly, its strategic location in the coastal area could cause the municipality to play a significant role in the blue economy. The next section presents the economic developments and prospects of the municipality.

2.5 **Population by ward level**

There are 31 wards in the Nyandeni Local Municipality. The population distribution of the Nyandeni Local Municipality is relatively equally distributed across all wards. The following is a map from the demarcation board of the latest layout of all the wards in the Nyandeni Local Municipality.

Source: Demarcation Board

The ward with the highest population is ward 11 with a total number of 13 243 people, or 4.6% of the total population in Nyandeni Local Municipality. The ward with the lowest number of people is ward 27 with 6 598 people currently in that ward. The percentage share in population by the different wards range between 2.3% and 4.6% with the average share being 3.2%.

1.6 Number of Households by population group

If the number of households is growing at a faster rate than that of the population it means that the households sizes is also decreasing and vice versa.

Definition A household is a group of people who live together, and who provide themselves jointly with food and/or other essentials for living, or a single person who lives alone. An individual is considered part of a household if he spends at least four nights a week within the household. This measure categorises a household according to the population group to which the household head belongs.

There were 55 112 households in Nyandeni Local Municipality in 2001 and 61 647 in 2011. That equates to an average annual growth rate of 1.13% over time.

TABLE 2. Number Of Households by Nyandeni Local Municipality Relative To Other Regions, 2001 and 2011 [Numbers And Percentage Growth]

Region	2001	2011	AAGR 2001-2011
Ngquza Hill Local Municipality	51 160	56 212	0.95%
Port St Johns Local Municipality	29 560	31 715	0.71%

Source: Stats SA Population census 2001 & 2011

The level of the average annual growth in population (and the age composition of the population) places different demands on the need for health, education and safety services.

The average household size in 2001 was approximately 4.8 individuals per household as compared to the 4.6 persons per household in 2011. With faster growth in the number of households, compared to the growth in population, in Nyandeni Local Municipality, marginal demand for housing and basic services compared to that of health, education and safety services may be relatively higher.

TABLE 3. NUMBER OF HOUSEHOLDS BY POPULATION GROUP IN NYANDENI LOCAL MUNICIPALITY, 2001AND 2011 [NUMBER AND PERCENTAGE GROWTH]

Year	African	Other	Total
Number of ho	useholds:		
2001	54 923	189	55 112
2011	61 228	419	61 647
Average annua	al growth rate	e:	
2001 - 2011	1.09%	8.29%	1.13%
Source: Stats SA Po	oulation census 2	001 & 2011	

Stats SA Population census 2001 & 20

The growth in the number of households for the African population is on average 1.09% per annum for the period 2001 - 2011, which translates to an increase of 6 305 households over the period. The average annual growth in the number of all the other population groups is 8.29% although it only amounts to 230 households according to the Census figures.

3. Development

Indicators of development are used to estimate the level of development of the Nyandeni Local Municipality relative to the rest of South Africa in terms of Human Development Index (HDI), Gini Coefficient (income inequality), poverty and education. Nyandeni Local Municipality should be a point of departure in the compilation of all policies that aspire towards a better life for all in the region.

3.1 Human Development Index (HDI)

Definition The Human Development Index (HDI) is a composite relative index used to compare human development across population groups or regions. HDI is the combination of three basic dimensions of human development

- A long and healthy life
- Knowledge
- A decent standard of living

A long and healthy life is typically measured using life expectancy at birth. Knowledge is typically measured using adult literacy and / or the combination of enrolment in primary, secondary and tertiary schools. A decent standard of living is typically measured using GDP per capita.

The HDI can assume a maximum value of 1, indicating a very high level of human development. It has a minimum value of 0, indicating no human development.

It is estimated that in 2011 Nyandeni Local Municipality had an HDI of 0.40. This is significantly lower than the Eastern Cape which has an HDI of 0.53 and South Africa with its 0.59.

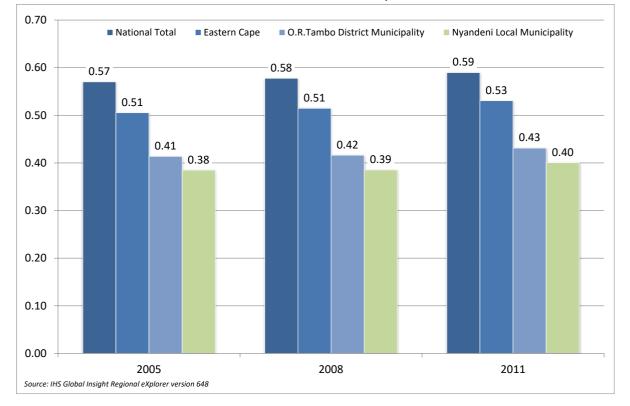

CHART 1. HUMAN DEVELOPMENT INDEX BY REGIONS - 2005, 2008 AND 2011

The HDI has been increasing in South Africa, Eastern Cape, O.R. Tambo District Municipality and the Nyandeni Local Municipality since 2005. An explanation might be that education and health conditions have improved and a general increase in income is seen.

3.2 Gini Coefficient

Definition The Gini coefficient is a summary statistic of income inequality, which varies from 0 to 1. If the Gini Coefficient is equal to zero it means that income is distributed in a perfectly equal manner, indicating a low variance between high and low income earners in the population. If the Gini coefficient is equal to one, income is completely inequitable, with one individual in the population earning income, whilst everyone else earns nothing.

In practice this coefficient is likely to lie in a range between 0.25 and 0.70.

In 2011, income inequality in Nyandeni Local Municipality at 0.53 was lower than that of the provincial and national level which was at 0.61 and 0.63 respectively.

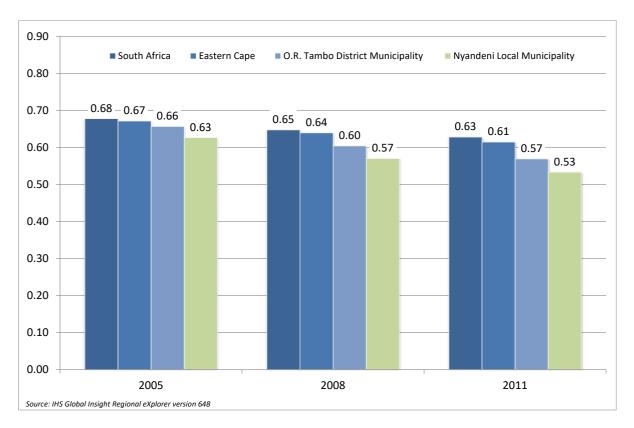

TABLE 4. GINI COEFFICIENT OF NYANDENI LOCAL MUNICIPALITY RELATIVE TO OTHER REGIONS, 2005 - 2011

Year	South Africa	Eastern Cape	O.R. Tambo District Municipality	Nyandeni Local Municipality
2005	0.68	0.67	0.66	0.63
2006	0.67	0.66	0.64	0.61
2007	0.66	0.65	0.62	0.59
2008	0.65	0.64	0.60	0.57
2009	0.64	0.63	0.59	0.55
2010	0.63	0.62	0.58	0.54
2011	0.63	0.61	0.57	0.53

Source: IHS Global Insight Regional eXplorer version 648

Over time an improvement is noted on all regional levels were the Gini Coefficient declined reflecting a more equal distribution of income. This also might be due to social welfare and grants, community services employment and a more accessible economic environment conducive to economic growth and development.

CHART 2. GINI COEFFICIENT OF NYANDENI LOCAL MUNICIPALITY RELATIVE TO OTHER REGIONS,2005, 2008 AND 2011

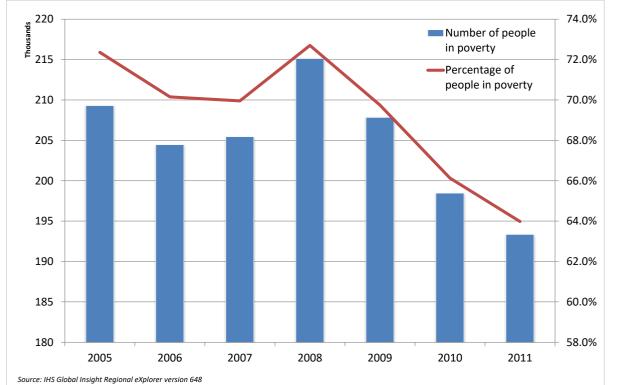

3.2 Poverty

Definition A household is considered to be subject to poverty if the individuals therein earn a combined income less than the poverty income threshold. The poverty income level is defined as the minimum monthly income needed to sustain a household and varies according to household size, the larger the household the larger the income required to keep its members out of poverty. The poverty income used by IHS Global Insight - within the context of this assessment - is based on the Bureau of Market Research's Minimum Living Level. Currently the poverty minimum amount of income for a household of 4 people is R2 544 per month.

In 2011, there were 193 355 people living in poverty across Nyandeni Local Municipality – down by 2.6% from 198 463 in 2010. In 2011, the number of Nyandeni Local Municipality's inhabitants that were living in poverty accounted for 64.0% of the total population of Nyandeni Local Municipality. The number of people living in poverty in the Nyandeni Local Municipality declined by an average annual rate of 1.3% from 2005 to 2011.

On a national basis 37.7% of the total population was living in poverty, while more than half the population of the O.R. Tambo District Municipality is living in poverty

TABLE 5. PERCENTAGE OF PEOPLE LIVING IN POVERTY INNYANDENI LOCAL MUNICIPALITY RELATIVE
TO OTHER REGIONS, 2005 - 2011 [PERCENTAGE]

Year	South Africa	Eastern Cape	O.R. Tambo District Municipality	Nyandeni Local Municipality

2011	37.7%	46.8%	58.9%	64.0%

Source: IHS Global Insight Regional eXplorer version 648

3.3 Poverty Gap

Definition The Poverty Gap measures the difference between each poor household's income and the poverty line - measuring the depth of poverty of all poor households combined. In other words, the Poverty Gap indicates how much extra all of the poor households combined would have to earn each year to rise up to the poverty income.

The Poverty Gap deals with a major shortcoming of the poverty rate, which does not give any indication of the depth of poverty.

A shortcoming of the poverty rate as an indicator of poverty is that it does not give any indication of the depth of poverty i.e. how far the poor households are below the poverty income level. In contrast, the poverty gap proves useful in that it measures the difference between each poor household's income and the poverty line. It thus measures the depth of poverty of each poor household. The aggregate poverty gap is calculated by summing the poverty gaps of each poor household. It is thus equivalent to the total amount by which the incomes of poor households need to be raised each year to bring all households up to the poverty line and hence out of poverty.

It is estimated that the poverty gap in Nyandeni Local Municipality amounted to R535 million in 2011. Although the poverty gap has increased in nominal terms from R433 billion in 2005, in real terms this has come down when we include the effects of inflation.

TABLE 6.	TOTAL POVERTY GAP - NYANDENI LOCAL MUNICIPALITY AND OTHER LOCAL MUNICIPALITIES,

In terms of the various local municipalities in O.R. Tambo District Municipality, the largest poverty gap exists in King SabataDalindyebo equaling R689 million. The smallest poverty gap exists in the Port St Johns Local Municipality with R284 Million. Take note that the population size should be taken into account when comparing the poverty gap in different local municipalities.

3.4 Education

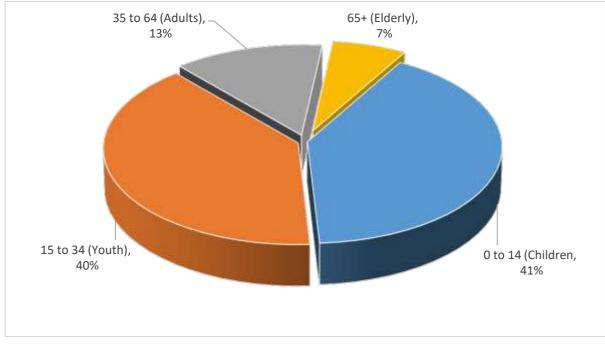

Introduction

Education is an important indicator of development due to its correlation with human capabilities, productivity and, ultimately, income. The level of educational attainment is used as an indicator of the skill levels of the population, with the higher educational attainment levels being associated with greater opportunities for higher earnings, better social circumstances and the potential investment attraction.

Young population aged 0–34 years constitutes 81% of **Nyandeni's total population** The Nyandeni population is made up of 41% children under the age of 14 years. The youth aged between 14 and 34 years also account for 40% of the total population (See Figure 4). In total, the young population aged 0–34 years constitutes 81% of Nyandeni's total population.

The dynamics of this youth cohort will increasingly drive economic development of the municipality in terms of opportunities for education,

work and social services. Put differently, these are the people who drive the "*demand side of education*" in the municipality.

About 80% of Nyandeni population fall between 0-34 years of age

Source: Statistics South Africa, 2016 Community Survey

The local municipality need to have a strategy on how to build this young dynamic population. For every 10 people in Nyandeni, 8 are aged between 0-34 years. Education should therefore be listed among the top priorities in the municipality.

	0 to 14 (Children	15 to 34 (Youth)	35 to 64 (Adults)	65+ (Elderly)	Grand Total

Table 7 shows the number of people in Nyandeni with higher education and TVET. According to the 2016 Stats SA community survey, only 4 240 people or 1.4% of the total population had higher education and 2 046 people or 0.7% with TVET (formerly FET colleges). Of the 2 046 people, 256 did management, 238 engineering, 196 electrical infrastructure construction and 116 information technology (See Table 8).

Table 7

Field of TVET and field of higher education

Table 7 revealed that Nyandeni had 4 240 people with higher education. Table 9 provides the field of higher educational institution. Of these 4 240 people, 428 were in the field of business, 290 in health, 268 in public management and the bulk of 1 647 in the field of education.

Education shapes how people experience the social, political and economic conditions in society. Consequently, education is central to how we respond to the quest for human development and flourishing. The basic purpose of education is to provide children, youth and adults with a socialising

experience that enables self-knowledge and develops personal and social attributes to engage with, change and contribute meaningfully to society.

Source: Statistics South Africa (2016 Community Survey)

Table 10

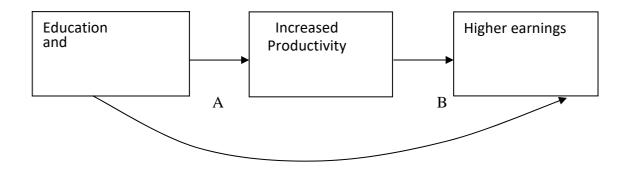

Table 10 shows the highest level of education attained by people in Nyandeni local municipality. The community survey released by Stats SA reveals that in 2016, O.R. Tambo had 273 093 people with no schooling of which 93 957 people were in KSD and 56 523 people in Nyandeni.

In line with the millennium development goals, the government of Nyandeni local municipality should take measures to eradicate education backlog,

especially for the people with no schooling. Education is the best investment that a parent can provide to his children, because it yields better and long term return.

Monetary return on education

Diagram 1: Monetary return on education and the human capital theory

Education and training should be regarded as an investment and not just a mere consumption services because education and training provide more than immediate benefits such as subjective satisfaction and status but a long term monetary rewards through higher earnings and better life style.

According to the human capital theory, the monetary return on education and training is the net return which is derived at by taking into accounts both the costs and the benefits of education and training.

The reason for this illustration here is that when workers are productive the economy grows and when the economy grows more jobs will be available, and when people find jobs more tax revenue goes to the government while its expenditure on social welfare declines. Thus less budget is spent on fighting poverty and creating jobs through government programs such as the Accelerated Shared Growth and Initiative South Africa (ASGI-SA); the

Broad Based Black Economic Empowerment (BBBEE); Small, Micro and Medium Enterprises (SMMEs) and Co-operations (Coops).

The promotion of these programs will then be on the individual to take active steps to be innovative and flexible to take up challenges. Government will therefore concentrate more effort in investing in both economic and social infrastructure.

Conclusion

This section emphasises on the role of education as an important indicator of development. This is due to its correlation with human capabilities, productivity and, ultimately, income. Therefore, education is to be regarded as an investment and not just a mere consumption services. The large number of people with no education should be eradicated in the municipality.

3.9 **Population Density**

Definition Population density measures the concentration of people in a region by dividing the population of the region by the area size of that region. The output of this is the number of people per kilometer squared and can be broken down according to population group.

In 2011, there were 117.28 persons per square kilometer living in the Nyandeni Local Municipality. Compared to the other local municipalities, it seems to be on similar level than Ngquza Hill and Port St Johns local municipalities, as well as to the O.R. Tambo District Municipality.

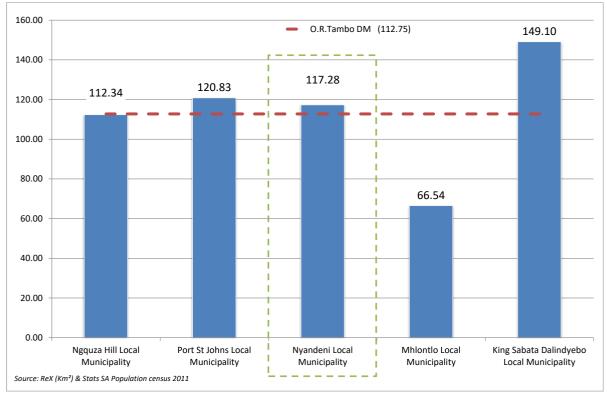

CHART 4. POPULATION DENSITY BY LOCAL MUNICIPALITY, 2011 [NUMBER OF PEOPLE]

3.10 Crime

The state of crime in South Africa has been the topic of many media articles and papers in the past years. Most people would acknowledge that the country has a crime problem, but very little research has been done on the relative level of

crime. The media tends to publish sensational, exaggerated case studies and ignores the progress and positive side of combating crime.

3.10.1 IHS Global Insight composite crime index

The IHS Global Insight composite crime index is compiled using official data from the SAPS which is reported in 27 crime categories ranging from murder to crime injuries. These 27 categories are divided into two groups according to the nature of the crime—violent crimes and property crimes. Two methods are then used to derive weights for each category of crime:

- (a) Length-of-sentence approach and
- (b) Cost-of-crime approach.
- **Definition** The crime index is a composite weighted index of crime. This variable provides a comparative time series of the change in the level of crime. The higher the index number, the higher the level of crime in the selected year and region. However, a single figure by itself is meaningless unless compared with a figure from either another year or another region.

Although crime is on average very high in South Africa, O.R Tambo District Municipality has the second lowest crime rate in the Eastern Cape and the Nyandeni Local Municipality is very much on the same level. The IHS Global Insight Crime Index below represents the violent crime, Property crime and the overall crime index in the Nyandeni Local Municipality.

TABLE 7. CRIME INDICES OVER TIME IN NYANDENI LOCAL MUNICIPALITY, 2005/06 – 2011/12 FINANCIAL
YEARS

Year	Violent Crime Index	Property Crime Index	Overall Crime Index
2005/2006	71.64	38.89	68.90
2006/2007	56.43	39.68	55.03
2007/2008	59.89	38.66	58.12
2008/2009	51.50	37.89	50.37

2010/2011	61.47	51.40	60.63
2011/2012	55.18	47.12	54.50

Source: IHS Global Insight Regional eXplorer version 648

For the period 2005 – 2008 overall crime in Nyandeni Local Municipality decreased at an annual average rate of 9.9%. Violent crime follows the same pattern at an average annual decrease of 10.4%, while property crimes decreased at an average annual rate of 0.9% in the Nyandeni Local Municipality from 2005 to 2008.

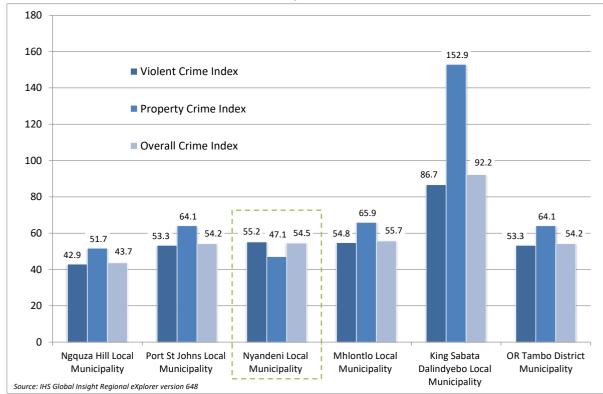

CHART 5. CRIME INDEX BY LOCAL MUNICIPALITY, 2011/2012 FINANCIAL YEAR

It is clear that the local municipality where the economy is more advanced is also more prone to crime. A proof of this is seen in the King Sabata Dalindyebo Local Municipality where the property crime is above average.

The change on an annual basis is very volatile due to the size of the population of the municipalities. A small increase in the actual number of crime incidents might reflect as large percentage increase. This trend is true for all the local municipalities.

INTEGRATED COMMUNITY SAFETY PLAN

To address the escalation of Violent Crimes in Nyandeni municipal Jurisdiction especially in Libode and Ngqeleni Towns, which is adversely affecting and impacting communities and business the municipaluity in collaboration with ORTAMBO District Municipality Department of Home Affairs and the Department of Safety and Liasion has developed a Community Safety Plan. Clear strategies has been developed and will be reviewed quarterly through the Community Safety Forum.

INTEGRATED COMMUNITY SAFETY FORUM

The Integrated Community Safety Forum is in place and functional it is comprised of the following Departments;

- South African Polices Services | Department of Safety and Liaison | Department of Justice | Department of Social Development | ORTTAMBO District Municipality | Traditional Leaders | NGO\s | Department of Roads and Transport and Department of Social Development.
- The Community Safety Forum is convened Quarterly to discuss

4. **EMPLOYMENT TRENDS**

4. Introduction

The labour market is a major source of interest to policy makers because levels of employment and unemployment have far-reaching social, economic and political implications. Sector employment can either be analysed in terms formal employment and informal employment or by primary, secondary and tertiary sectors.

Productive employment remains the key mechanism through which individuals and households can sustainably escape poverty. Unfortunately, employment is relatively scarce in Nyandeni. In an effort to increase jobs, economic opportunity and growth, the municipality will be required to capitalise on its relative comparative advantages while simultaneously considering interventions which encourage an economic structure which is more labour intensive to fully utilise the growing unskilled/ semi-skilled labour. More broadly, greater incentives for the private sector to grow the economy are an option to explore.

4.1 Formal and informal employment

Table 16 shows that in 2015, there were in total 21 754 people employed in Nyandeni's economy. Of these, 14 919 people (69%) were employed in the formal sector and 6 835 people (31%) in the informal sector.

Looking at the skills of the 14 919 people employed in the formal sector, 27% were skilled, 41% semi-skilled and 32% low/unskilled. The Government of Nyandeni should pay much attention on unskilled labour and those in the informal sector.

The informal sector is characterized by short-term employment opportunities, little or no prospect of internal promotion, and wages are determined by market forces. In terms of jobs, it consists primarily of low or unskilled jobs, whether they are blue-collar (manual labour), white-collar (filing clerks), or service jobs (waiters). These jobs are also characterized by low skill levels, low earnings, easy entry, job impermanence, and low returns to education or experience.

Generally, the primary sector is dominated by unskilled labour, while the tertiary industry, particularly Finance, insurance, real estate and business services has a bigger share of highly skilled employees. The construction; transport, storage and communication; and wholesale and retail trade, catering and accommodation sectors have a significant share of informal labour.

Employment, 2015 (Total number of people employed)

Source: Quantec, 2016

Table 16

The skills gap in Nyandeni municipality indicates the need for training and development centres, especially for the young people who account for over 40% of the population. As shown in the Table 16, in 2015, about three quarter of the employed people are either unskilled or semi-skilled. The Department of Education will play a major role in Nyandeni. Given limited resources, Government needs to re-allocate resource in the development of human capital so that the economy can have more skilled people to occupy strategic positions in the municipality. Developing human capital will ensure that the skills gap is bridged and more people are becoming efficient and effective in uplifting the economy.

The development of human capital has a chain reaction. When people are trained and developed, they will be employed in the formal sectors, and pay taxes that can be used to fund other activities. As more effort is invested in human capital in the short-term, the long run economy of the municipality will become promising for future development because people will use their acquired skills in the economy. "Knowledge economy" is leading regions driven by innovation; whereby unskilled people are less needed. Hence Government interventions are critical. Some of these interventions should include the following:

- Reduce unskilled labour and increase skilled or highly skilled labour through training and education of workers,
- Upgrade training facilities with the latest technology;
- Introduce domestic policies that discourage the outflow of highly skilled workers (brain drain),
- Ensure labour equity is reached; and previously disadvantaged workers (Africans, women and youth) are trained; and they are fully participating in the main stream labour marker. This will help to bridge the skill gap.

Once these labour interventions are implemented, the positive impact will be felt in the long run, not only to the individual workers, but also to the economy as whole. Thus, highly skilled workforce will contribute to improved productivity, leading to economic growth.

Compensation of employee

What are the wages and salaries earned by employed people in Nyandeni? Table 17 shows the amount paid to workers in the form of compensation of employees. The real compensation of employee for the 21 754 people employed in Nyandeni's economy amounted to R1 512 million in 2015 of which, about 96% is paid in the formal sector and 4% in the informal sector. Nyandeni's compensation of employee in the formal sector was estimated at R1 460 in 2015 of which

- 3% was paid to skilled workers;
- 35% to the semi-skilled workers, and
- 12% to low/unskilled workers.

Compensation of employee (R million constant 2010 prices)

Employment trends in Nyandeni

The Eastern Cape vision 2030 developed by the EC Planning Commission highlights education and job creation as key building blocks for the long term development of South Africa. The report establishes the following set

of priorities as pivotal for the development of the Eastern Cape: (1) An improvement in education and provide skill needed by employer; (2) Job creation; (3) A more effective drive to transform and develop our rural regions to boost the economic performance of the province as a whole. Jobs must also be created in rural areas; and (4) A commitment to improving the functionality and efficiency of the public sector to ensure key priorities and desired outcomes are achieved.

Figure 13 shows how employment in Nyandeni stagnated between 1993 and 2000 and how jobs were created between2003 to 2008. The speed in employment growth was disrupted by the 2008 and 2009 recession. But since 2013, employment in the municipality has again start increasing.

Age Distribution, community survey 2016

Source: Statistics South Africa, 2016 Community Survey

Table 18

Looking at the age structure of the municipality, from Table 18, it is clear that 41% of Nyandeni population is below the age of 14; and 40% of total population is youth between 15 and 34 years of age. In total, more than 80% of the population in Nyandeni is below the age of 35. Therefore, employment in Nyandeni should focus on the young people.

In order to absorb the younger generation into the labour force, measures should be put in place to help them enter the labour market through creation of industries that attract young people, such as IT. The younger generation continue to face unemployment problem because the majority of them enter the labour market for the first time without any work experience or skills.

Sector employment in Nyandeni

Which sector employs people in Nyandeni? Figure 19 shows that government sector which includes community services sector employs about 48% of total employment in Nyandeni. This means that should Government sector be close in Nyandeni, almost half of workers in Nyandeni will be without work.

Industry	O.R.Tambo	Ngquza Hill	Port St Johns	Nyandeni	Mhlontlo	KSD
Primary sector	6023	1589	469	627	1956	1382

Sector employment, 2015 (Total number of people employed)

Source: Quantec, 2016

Table 19

Unfortunately, the valued added sectors (primary and secondary sectors where most jobs creation are expected from) only contributes 15% to total employment.

- The primary sector employs for 3%,
- The secondary sector employs 12%, and
- The tertiary sector employs 85%.

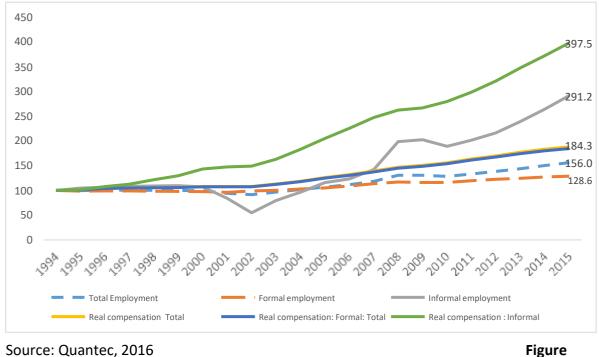

Government and trade are the largest employers in Nyandeni

An additional consideration is to investigate the earnings potential of prioritised growth sectors, to ensure that increased employment also equal an increase in standards of living. One of the challenges for policymaking, as it relates to labour, is to improve the balance between supply and demand across the various labour markets. This requires growing the supply of skills, through a range of interventions related to improving education outcomes. Women remain relatively disadvantaged within the labour market, which should be carefully considered by policy makers, given the important role women play in stabilising a family unit, which could impact on broader social ills. High youth unemployment requires an improvement in the employability of youth, policy makers will need to strengthen current skills development initiatives.

Nyandeni employment index

Figure 15 presents employment and compensation of employee indices for Nyandeni municipality, using 1994 as the base year. It shows that the informal sector has outperformed the formal sector. Real compensation of employee in the informal sector grew by 297 index points, and its corresponding employment in the informal sector, by 192 index points. Formal employment grew the least by 28 index points compared to 297 index points in the informal sector.

Nyandeni employment and compensation of employee indices (1994 = 100)

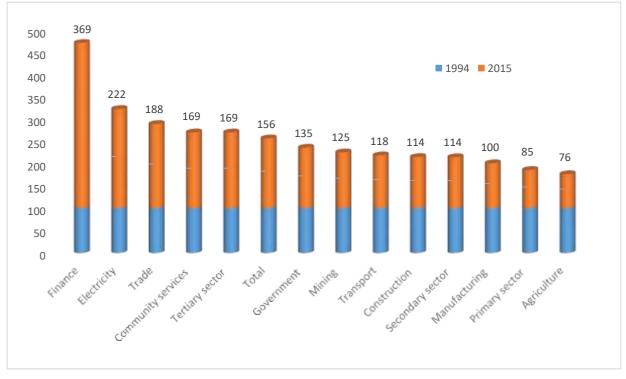

Source: Quantec, 2016 15

Looking at individual sector employment, Figure 16 shows that between 1994 and 2015, Finance sector grew the most by 269 index points followed by electricity sector which grew by 122 index points.

Finance sector employs highly skilled workers. High growth in this sector may lead to skill mismatch because the municipality is rural and overpopulated by unskilled labour.

Although Agriculture is regarded as a key sector in the municipality, the sector declined by 24 index point. In fact, the whole primary sector declined 15 index points. This means that Agriculture sector is shedding jobs in the municipality.

Manufacturing is a small sector with negligible contribution to total employment. Employment in the sector stagnated at zero index point while the overall growth for the secondary sector only grew by 14 index points. This implies that manufacturing sector in Nyandeni is not creating jobs.

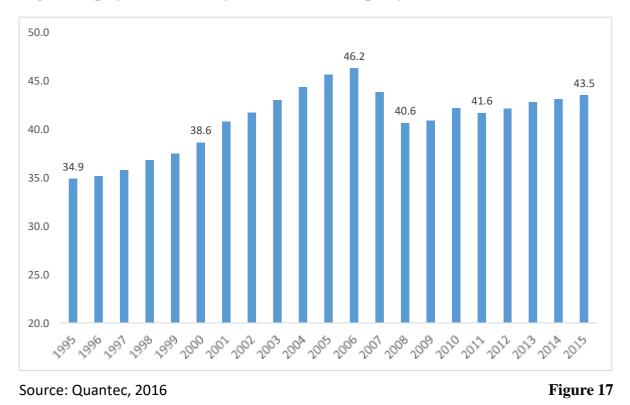

Sector employment index: 1994 = 100

Source: Quantec, 2016

Figure 16

Unemployment trends in Nyandeni

Looking at the level of unemployment in Nyandeni, Figure 17 below shows how the official unemployment rate dropped dramatically from 46.2% in 2006 to 40.6% in 2008. But due to the great recession, many companies retrenched workers and since then, unemployment in Nyandeni climbed again to high level of 43.5% in 2015.

High unemployment rate in Nyandeni local municipality

5. Household Infrastructure

A figure representing household infrastructure is essential and very useful in economic planning and social development. Measuring household infrastructure involves the measurement of the following four indicators; access to running water, access to proper sanitation, access to refuse removal and access to electricity. A house is considered serviced if it has access to all four of these basic services. If not, the household is commonly known as forming part of the 'backlog'. However, what defines access to a given service (and how to accurately measure that specific definition over time) gives rise to some distinct problems. IHS Global Insight has therefore developed a unique model to capture the number of households and their level of access to the four basic services i.e. sanitation, water, electricity and refuse removal.

The following sections provide an overview of the household infrastructure that existed in Nyandeni Local Municipality between 2005 and 2011.

5.1 Households by Dwelling Type

Definition This time series categorises households according to the type of dwelling unit that they occupy, using the Stats SA definition of a household and a dwelling unit. A household is a group of persons who live together and provide themselves jointly with food and/or other essentials for living, or a single person who lives alone". A dwelling unit, which is a known as a housing unit, is a unit of accommodation for a household, which may consist of one structure, or more than one structure or, part of a structure.

Dwelling units are distributed into 3 categories:

- 1. **Formal Dwellings:** structures built according to approved plans, e.g. houses on a separate stand, flats or apartments, townhouses, rooms in backyards or flatlet elsewhere.
- 2. **Traditional dwellings:** Traditional dwellings made of clay, mud, reeds or other locally available material.
- 3. **Informal Dwellings:** shacks or shanties in informal settlements, serviced stands or proclaimed townships or shacks in the backyards of other dwelling types.
- 4. Other Dwelling Units: tents, ships, caravans etc.

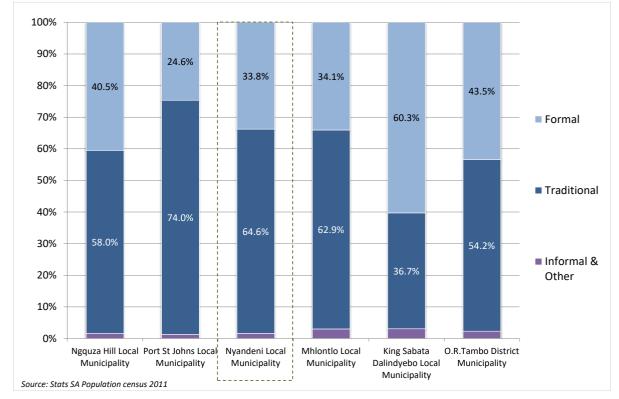

CHART 6. PERCENTAGE OF HOUSEHOLDS BY DWELLING TYPE - LOCAL MUNICIPALITIES, 2011

In 2011, the Nyandeni Local Municipality had 33.8% or 20 820 formal dwelling units, and 39 815 traditional dwelling units which translates to 64.6% of the total dwelling units in Nyandeni Local Municipality. Nyandeni Local Municipality only has 397 informal dwellings units. When comparing the Nyandeni Local Municipality with the other local municipalities within the O.R. Tambo District Municipality, it is seen that the Nyandeni Local Municipality has the second highest number of dwelling units. The King SabataDalindyebo Local Municipality has the highest number of dwelling units.

TABLE 8. NUMBER OF HOUSEHOLDS BY DWELLING TYPE – LOCAL MUNICIPALITIES, 2011

5. ACCESS TO GOODS AND BASIC SERVICES

5. Introduction

Access to basic services is not a privilege but a right. Given persistent inequalities and social divisions in the province and in Nyandeni local municipality in particular, delays in obtaining services, lower levels of service and relatively high levels of disconnection in poor communities, perpetuate undignified living conditions.

Nyandeni local municipality is characterised by a population spread over large distances, high incidents of poverty, a relatively underdeveloped economic base, low levels of skills development and low levels of access to basic services and infrastructure. In other part of the country, such challenges have led to mass protests.

The high incidence of mass protests in South Africa in response to the inadequate service delivery in recent years can be explained by recourse to the social theory of relative deprivation. "Relative deprivation" refers to a situation where a demographic segment of the population is deprived of some goods or services to which they perceive they are entitled, while

another segment of the population enjoys such goods or services. The backdrop for the mass action is social deprivation and lack of basic services, which still negatively impact the majority of individuals and communities in South Africa and prevent their escaping from the poverty trap. Government is not the only institution to blame for basic service backlog. Household institution has also a major role to play in terms of maintaining infrastructure provided by government.

The community has a role to play. Communities and individuals must be active agents for their development, rather than perpetual passive agents, on the receiving end of governmental or institutional aid. This shift to a more proactive development approach should not only ameliorate the basic living conditions of the poor, but also empower them equally as active stakeholders and responsible individuals within engaged communities.

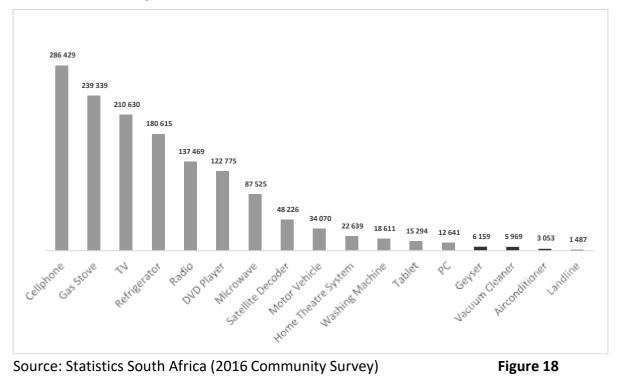

This section use the 2016 community survey to assess access to basic service in Nyandeni. The analysis covers topics such as access to water, sanitation, shelter, energy and access to refuse removal. It includes other topics such as access to goods.

5.2 HOUSEHOLDS WITH ACCESS TO GOODS

Ownership of household's goods is crucially important in measuring the standard of living for the household. The ownership of some household goods such as cell phone, electric stove, TV, fridge, washing machine, DSTV, motor vehicle as well as computer, have seen significant increases in 2016 as compared to in 2011.

The 2016 Community Survey reveals that few households have access to a landline. This good has been substituted by cell phone which is seen in Figure 18 as *the good* accessed by most households.

Access to Goods: Nyandeni, 2016

More than three quarter of households across the province have access to a cell phone. Access to communication and information technology plays an increasingly important role in living standards and access to opportunities.

5.3 ACCESS TO SHELTER

Adoption of Housing Sector Plan

The Housing Sector Plan has been reviewed and adopted by Council on 27 June 2019. It is a five year strategic plan to achieve the strategic goals of sustainable human settlement

Housing needs register

Housing register has been developed and is updated annually. To date 38 323 forms and questioners have been captured in the housing needs register. According to Statistics South Africa there is total of 48 187 shortage of housing across all segments of the market.

It is worth noting that Ward 12 has the most backlog of 2330 followed by Ward 25 with a backlog of 2013

Informal Settlement

According to Housing Sector Plan three informal settlement exist in the municipality, namely, Nomzamo informal Settlement with 50 informal households, Eziteneni Informani Settlement has 30 households and Ngqeleni Informal Settlement with 21 households, both Nomzamo and Eziteni Informal Settlement are in the process of beinf formalised

Blocked Projects

According to Housing Sector Plan Mampondomiseni phase 1 and phase 2 located in Ward 17 and Nyandeni 233 are are blocked projects. Numerious attempts have been made with the Department of Human Settlement to resolve the but with no success.

Land Claims

Land claims remains one of the most significant barriers to socio-economic development and it has its impact on the many catalyst projects for the municipality and the district at large. There is critical and urgent need to address the issues of land owners.

Claimant Name	Property Description	Rural
Private Claim	Mafini Location	Rural
Buthongweni Location	Erf 1. Ngqeleni Commonage	Rural
	Erft 2.Ngqeeleni Commonage	Rural
	Erf 3. Ngqeleni Commonage	Rural
Private Claim	Nolokoza Village	Rural
Community Claim	Erf 90 Libode Commonage	Urban

The following land claims are outstanding in the Nyandeni area

Migration and its implications

The Integrated Urban Development Framework 2016 is set to change the state of housing in the Republic of South Africa, which is:

• Housing demand is greater than the pace of formal housing delivery and land released. This is because of increased urbanisation and changing demographics (smaller households and migration patterns).

• The concentration of poverty in large urban areas is growing although rural areas are relatively more deprived.

• The lack of well-located land and high property prices mean that residential areas continue to be segregated based on race, social status or class, and housing remains unaffordable to many

South Africans. The Housing Development Agency has acquired land but much of it falls outside the major urbanisation pressure points.

• The proliferation of marginalised and disconnected settlements (on the periphery of cities), with no integration with mobility interventions, makes access to socio-economic opportunities difficult, especially for low-income households that mostly live on the periphery of cities.

• There is a lack of sufficient social and rental housing for the lower end of the market, especially on well-located land with good access to socio-economic opportunities

Land invasion control mechanism

The municipality has developed and adopted Land Invasion policy to regulate and control land invasions in the municipal jurisdiction. Furthermore, the By-Law on Undeveloped Sites has been Gazetted. This will provide legal instrument to enforce By-Laws when there is illegal occupation of municipal land

Housing entails more than bricks and mortar. The right to adequate housing is one of the most important of all basic human rights. Section 26(1) of the Constitution stipulates that everyone shall have the right of access to adequate housing. Accessibility means that the State must create conducive conditions for all its citizens, irrespective of their economic status, to access affordable housing. To ensure accessibility is achieved, the government has implemented several programmes within the National Housing Subsidy Scheme. Few examples includes: Rural Housing Subsidy; Disaster Intervention programme; Project -Linked Subsidy; Consolidation

Subsidy; Hostel Redevelopment Programme; Right-Sizing Subsidy; Institutional Subsidy; Individual Subsidy; Relocation Subsidy; Discount Benefit Scheme; Social Housing Programme; People's Housing Process; Rapid Land Release Programme, etc.

According to the 2016 Community Survey, about 65% of the population in Nyandeni live in traditional dwelling, huts or structures made of traditional material; and 34% of population stay in formal dwellings, which includes flats or apartment in a block of flats (See Table 24).

Access to shelter	Households	%

Source: Statistics South Africa (2016 Community Survey)

Table 25

Since the majority of the population stay in traditional dwelling, the solution of RDP is a blessing for those who have accessed them. However, there is simply not enough money and resources available to quickly provide everyone who needs a house with a full RDP house.

From a shack to an 'RDP' house: In the absence of any alternative, households have not much choice but to occupy informal settlements. There is an urgent need for the South African government to expand the number of alternative ways for the poor to access basic shelters. Table 26 shows that 4% of the population in Nyandeni stays in a RDP house as a main dwelling. This is compared to 8% in the KSD.

Households with RDP or government subsidised dwelling as the main dwelling; 2016

KSD	36 817	8%

Source: Statistics South Africa (2016 Community Survey)

Table 26

The next sub-sections use definitions provided by the Department of Co- operative Governance and Traditional Affairs (Cogta) to differentiate between;

- High level of service,
- Basic level of service,
- below basic also referred to as backlog, and
- Indigent households receiving Free Basic levels of services.

Access to service is provided under these four categories. As indicated earlier, the data used in this sub-section is from Statistics South Africa's 2016 community survey.

5.5 ACCESS TO WATER

Water is the main important commodity for life. The provision of water services, particularly piped water, is a critical priority for national government, given how water provision impacts the quality of life and investment potential of a region.

Access to Water refers to the number of households receiving basic level of water supply. Results from the 2016 community surveys shown in Table 27 confirms the views of people in Nyandeni as access to save and reliable water supply (in Table 20) was perceived by almost half of the population as the main challenge currently facing the district. Evidence from Table 27 give more light on the inadequacy of supplying potable water to Nyandeni community.

- Higher level of service includes piped water inside dwelling. This category is still a luxury in Nyandeni as only 1 146 people or less than 1% of the population fall into this category.
- Basic level of service includes piped water inside yard and piped water within 200m. In
 Nyandeni 3% of the population have piped water inside yard.
- Below basic level constitutes a backlogs and includes, piped water further than 200m, springs, rain water tanks, dam/pool/stagnant water and water vendors. The Table 27 demonstrates clearly that more than half of the population fall within this category.
- Number of indigent households receiving Free Basic Water refers to an amount of water determined by government that should be provided free to poor households to meet basic needs, currently set at 6kl per month per household.

Supplier of the main source of drinking water, 2016

Source: Statistics South Africa (2016 Community Survey)

Table 28

Where do people in Nyandeni get their drinking water? Is the local municipality providing water to all its citizen? Table 28 shows that the majority of the people in the municipality are relying of natural flowing water. About 70% of the population in Nyandeni get their drinking water from flowing or stream water. For every 10 people in Nyandeni, only 2 get drinking water provided by the municipality.

The issues of water interruption and long distances to access water are among them. Table 29 shows that 17 549 people in Nyandeni had water interruption that lasted more than 14 days in total over a three month period.

	Less than 2 days in total over a three month period	2 to 7 days in total over a three month period	8 to 14 days in total over a three month period	More than a 14 days in total over a three month period	Do not know	Unspecified	Total

Table 29

As indicated earlier, water is the main important commodity for life.Water interruption can cause health problems. To avoid such, people seeks alternative water sources during interruptions (See Table 30).

In Nyandeni, the following alternative water sources are used:

- River and stream: 16 165 people
- Rain water tank: 13 251 people
- Borehole: 2 957 people

	O.R. Tambo	Ngquza Hill	Port St Johns	Nyandeni	Mhlontlo	KSD

Table 30

Not only water interruption is a challenge in Nyandeni, but also long distances to get to the main source of drinking water. In Table 31, we see that 8% of the population in Nyandeni are traveling more than 1km to get to the main source of drinking water. This can be time consuming to most households where children needs to sacrifice their time to study in order to get water. Households with elderly people will be affected if they very old to walk long distances.

Table 31

The role of the government of Nyandeni is to ensure that all citizens in the municipality have equitable access to effective, economical and sustainable water supply and sanitation services.

5.6 ACCESS TO SANITATION

Access to sanitation refers to the number of households having access to basic level of sanitation.

- Higher level of service includes, flush toilet connected to sewerage system.
- Basic level of service includes flush toilet with septic tank and PIT latrine with ventilation.
- Below basic level constitutes a backlog and includes chemical toilets, pit latrine without ventilation, bucket latrine and no sanitation facility.

One single characteristic of the sanitation in Nyandeni is that toilet facilities are not located inside the dwelling. Table 32 shows that 95% of the population in Nyandeni uses toilets located in the yard.

Table 32

The Medical field has acknowledged that access to efficient and hygienic sanitation services contributes towards a clean and healthy environment, reduces the spread of communicable diseases and provides dignity to communities. Access to sanitation services is measured by households' access to flush/chemical toilets versus pit or bucket systems of sanitation.

5.7 ACCESS TO ENERGY

Access to electricity refers to the number of households connected to grid network.

- Higher level of service includes connection to the grid.
- Basic level of service includes 10 Amp connection.
- Below Basic electrical supply constitutes a backlog and includes households using any of the following: Gas; Paraffin; Wood; and Coal.
- Total number of indigent households receiving FBE refers to the amount of electricity determined by government that should be provided free to poor households to meet basic needs, currently set at 50kW permonth per household.

How do households in Nyandeni access electricity? The Table below shows that 81% of the population in Nyandeni use "in-house prepaid meter". Very few uses generator, solar and battery as a source of energy.

Table 33

The type of energy source used by households and businesses has an impact on the costs of either the household or business, carbonemissions, safety, and the security of energy supply. To households, energy provides warmth for their shelter, fuel for cooking and lighting. Access to electricity impacts the potential for business development, the types of viable industries that can be undertaken in an area, and investment opportunities.

Who supply electricity to households in Nyandeni? The Table below shows that Eskom prepaid is the main supplier used by 84% of the population in the municipality.

Household electricity Supplier

Source: Statistics South Africa (2016 Community Survey)

Table 34

Households (%) who had interruption in electricity in the past 3 months

Electricity interruption institutions in different ways. It can affect the production process of factories that have not planned for alternative sources of energy. This will reduce production output in that industry and if prolonged, it will affect economic growth.

Energy sector is one of the biggest constraints to economic growth in the country. It holds potential for boosting the economy with a number of spin- offs across sectors. The renewable energy sector is such a sector that has significant potential spin-offs in technology development, manufacturing, operation and maintenance. The value chain of the sector also makes linkages to many traditional key sectors such as manufacturing and construction.

5.8 ACCESS TO REFUSE REMOVAL

Access to refuse removal refers to the number of households receiving refuse removal service at least once a week.

- Higher level of service includes removal by local authorities/private company at least once a week.
- Basic level of service includes a communal skip.
- The backlog or below a basic service for refuse removal includes, removal by local authority/private company less often, communal refuse dump, own refuse dump, no rubbish disposal and other.
- Indigent households benefiting from refuse removal services is defined as the most appropriate level of waste removal service provided based on site specific circumstances. Such a basic level of service, be it in an urban or rural set-up, is attained when a municipality provides or facilitates waste removal through: On-site appropriate and regularly supervised disposal (applicable mainly to remote rural areas with low density settlements and farms supervised by the waste management officer); Community transfer to central collection point (medium density settlements); Organised transfer to central collection points and/or Kerbside collection (high density settlements).

From the Table 35 below, 80% of the population in Nyandeni use their own refuse dump and 10% of the population do not have rubbish disposal, hence they dump of leave their rubbish anywhere. This method is not hygienic and communities should not be encouraged to use it.

Table 35

INTEGRATED WASTE MANAGEMENT

Schedule 5B of the Constitution of South Africa (Act 108 of 1996) outlines the roles, responsibilities and powers for management of waste and Nyandeni Local Municipality should adopt such powers. This adoption and rollout of these powers should be used in line with Section 24 of the Republic of South Africa. The statutory obligation of local government in terms of waste management further enshrined in a number of laws including the Municipal Systems Act (Act No. 32 of2000), and also the National Environmental Management Waste Act, Act 58 of 2008 among others.

Generally, the increasing of waste generated by communities, lack of access to waste services and poor management there of lead to pollution and associated health impact as well as environmental degradation. Ineffective waste management practices can affect the health and wellbeing of communities and this can be further exacerbated by the increased illegal dumping and littering. Other problem areas that contribute towards littering, illegal dumping, lack of waste minimization as well as lack of knowledge by the citizens on opportunities towards waste management.

SUMMARY OF IWMP

ADOPTION OF THE IWMP

The Municipality has adopted its Integrated Waste Management Plan on 12 December 2012 with (CR No. 918-12/2012). The IWMP take stock of the situational analysis and identifies objectives, strategies and action plans to intervene decisively in managing Integrated Waste Management Plan. IWMP is currently under review process. Public consultations have been conducted to solicit community and stakeholder inputs.

The IWMP is developed in line with Government Policy as set out in the National Waste Management Strategy and the National Environment Management: Waste Act, 59 of 2008 (hereafter, Waste Act). The IWMP"s should provide the Local Municipalities with an instrument with which to manage waste and prevent pollution, with particular emphasis on sorting, separation, reduction, recycling, re-use, as well as the cradle-to-grave approach, thereby achieving high levels of sustainability with waste management.

Waste Management Forum has been established to coordinate waste related programes The total budget allocation for implementation of IWMP is R 2 million

WASTE COLLECTION AND STORAGE

The Libode Landfill site has been granted a waste licence by the Department of Economic Development, Environmental Affairs and Tourism (DEDEAT). The municipality has the obligation to respond to the licence conditions. Libode Landfill site is currently under construction and expected to completed before the end of October 2019

In Ngqeleni area a transfer station feed into Libode Main Landfill site has been completed. Given the geographical area of the Nyandeni municipality, formal refuse collection is restricted to rural areas henceforth the gazetted municipal By-law (Gazetted No. 2351 of 19 May 2010) address issues of waste collection in urban areas

Polluter pays principle - The Polluter Pays Principle is a principle where the polluting party pays for the impact caused to the environment. With respect to waste management, this generally refers to the requirement for a waste generator to pay for appropriate disposal of the waste.

Waste hierarchy - The waste hierarchy refers to the "3 R"s" reduce, reuse and recycle, which classify waste management strategies according to their desirability in terms of waste minimization. The waste hierarchy remains the cornerstone of most Waste avoidance and reduction waste minimization strategies. The aim of the waste hierarchy is to extract the maximum practical benefits from products and to generate the minimum amount of waste.

Sustainable development requires that the generation of waste is avoided, or where it cannot be avoided, that it is reduced, re-used, recycled or recovered and only as last resort treated and safely dispose of.

The cradle-to-grave approach in waste management

Cradle to grave is used in reference to a municipality 's perspective on the environmental impact created by their products or activities from the beginning of its life cycle to its end or disposal.

Free Basic Refuse Removal Policy

The National Policy on Free Basic Refuse Removal (FBRR) services paves the way for municipalities in South Africa to provide FBRR services within their areas of jurisdiction.

Strategic Plans and tools

Integrated Waste Management Plan, Environmental Bylaws, Landfill operational plan, Waste Recovery Facilities Operational Plans

Situational Analysis on waste Management

Integrated Waste Management Plan

The municipal IWMP is intended for use as a sector plan within the Nyandeni LM coming IDP revision, where it is to inform municipal planning and budgeting around waste management within the LM. Intentions are to ensure that waste management planning within the LM is sustainable, practical, implementable and acceptable to all key role players and parties expected to implement the plan.

Currently the municipality is reviewing its Integrated Waste Management Plan (IWMP) as per NEMWA and it is anticipated that IWMP will be adopted by the council by the beginning of the next financial year and further taken to the MEC for approval.

Waste Management Facilities

The municipality has three waste management facility, the Landfill and Waste Material Recovery facility (both in Libode) and one Waste Transfer Station in Ngqeleni. Landfill site is complete; however its operational plan is still on development processes. With regards to waste by-laws, currently the department is developing its by-laws. For both landfill site operations and development of waste by-laws, the municipality has appointed a service provider to compile those. Also the municipality has submitted application form for registration of the MRF to DEDEAT; the application was accompanied by its operational plan.

a) Landfill site

Nyandeni local municipality landfill site has been constructed through the intervention small town revitalization fund from office of the premier. Construction is completed and is waiting for the completion of the landfill operational and maintenance plan (service provider has been appointed).

The landfill site was licensed in 2012 and for 10 years, the license is due for review processes which shall be started after the first five years of the license. Implications are that in 2022 the license expires; secondly

the processes of review and renewal shall include annual reports to be submitted to DEDEAT comprising the state of the landfill and its operations.

b) Material Recovery Facility and Waste Transfer Station

The MRF is not yet authorized for operation however the application with its operational plan has been submitted. Both MRF and WTS will be operated by Tulsas Park as a services provider for regional recycling. Memorandum of Understanding between Nyandeni Im, O.R Tambo and Tulsas Park was signed and it is available. For human resource, advertisement has been forwarded to the council to come with personnel that will be responsible for operations of these two facilities.

Staff

See the attached organogram under the human resource component on the IDP

Waste collection and storage

The municipality is collecting waste daily in Peri-urban areas, CBD and in some commercial businesses in both towns. Collected waste is stored temporarily in 60m³ skip bins in a Peri-urban area, in 80L bins in the CBD and plastics are distributed to households on a weekly basis. The municipality is not responsible collecting the medical waste hence the department of health has appointed Campus.

Plastics are provided to tariffs payers differ from place to place i.e commercial business are not paying same amount as households' amount. Collection of skip bins based on the schedule developed for skip loader operations.

Waste Management Fleet

- 2X Skip loader truck
- 1x Compactor truck
- 1x Mini Excavator

Awareness and advocacy programs and projects

Environmental officer together with awareness campaigners are conducting the following programs;

- School awareness campaign on waste and environmental management aspect
- Community advocacy programs on environmental matters.
- Eradication of illegal dumping sites
- Green Wednesday initiative
- Good Green Deeds program "#Thuma Mina Campaign"
- Peri-Urban Cokisa project
- Festive season "Siyacoca" intervention project
- Supporting two recycling projects

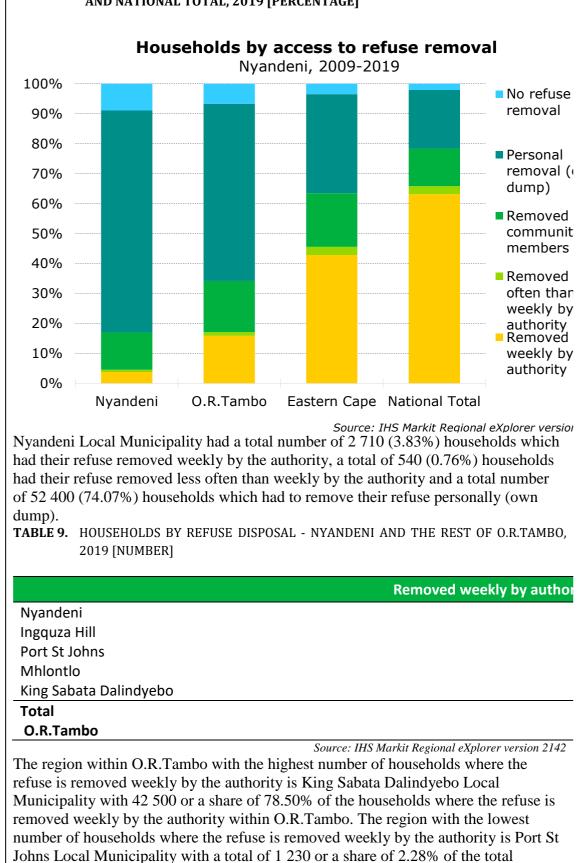

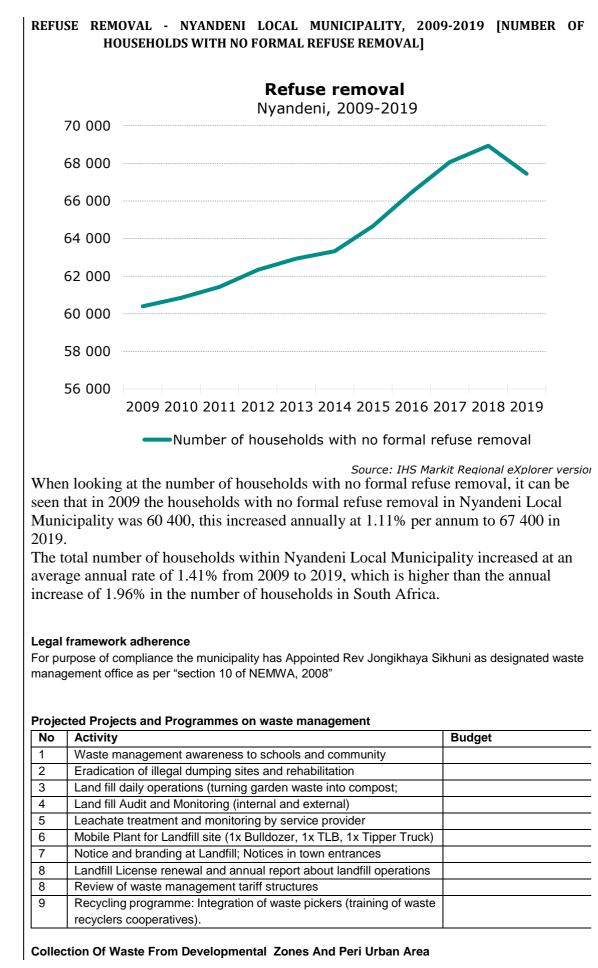

CHART 7. HOUSEHOLDS BY REFUSE DISPOSAL - NYANDENI, O.R.TAMBO, EASTERN CAPE AND NATIONAL TOTAL, 2019 [PERCENTAGE]

households where the refuse is removed weekly by the authority within the district

municipality.

The Municipality has provided refuse collection of waste in the following developmental zones and Peri Urban Areas of Ntlaza, Corana, Kopshop Junction, Ziphunzana and Thabo Mbeki areas. Mfenetyisi, community awareness programe are on-going to raise levels of awareness about keeping our town clean. Various programs are being implemented including enforcement of municipal By-Laws

The municipality is in a process of developing an Trade Effluent Policy to guide decision making

Challenges and Priority Programmes

Challenge	Intervention/Projects
Shortage of Compactor refuse removal truck	Purchase one additional compactor truck
removal truck	
Shortage of skip loader truck	
Enforcement of Municipal By-	Training of Peace Officers on Environmental Management
laws	inspectorate
Illegal dumping	Conduct community awareness campaigns to all wards
Reporting to Waste Information	A refuse collection register has been developed for collection of data
System	on waste tonnages
Mngazi	
Kopshop & Canzibe	
Mfenetyisi	

For purposes of compliance the municipality has appointed Rev Jongi Khaya Sikhuni as its designated Waste Management Officer

6 Environmental, Social And Economic Sustainability

State of the environment

Within the context of sustainable development the term environment encompasses the social, economic, biophysical and political spheres. Section 24 of the Constitution of the Republic of South Africa (RSA, 1996) legally mandates the government to ensure the people of South Africa is not harmed by the environment and the environment is protected against abuse. The Constitution also provides for co-operative government thus sharing both the responsibility and obligatory legislative provisions across the different spheres of government in terms of environmental management and conservation.

The White Paper on Environmental Management Policy (DEAT, 1997a) refers to the conditions and influences under which any individual or thing exists, lives or develops. Culture, economic considerations, social systems, politics and value systems determine the interaction between people and the environment, the use of natural resources, and the values and meanings that people attach to life forms, ecological systems, physical and cultural landscapes and places. People are part of the environment and are at the centre of concerns for its sustainability (DEAT, 1997a).

Environmental management and governance therefore comprise a system of tools which include principles, policies, legislation, regulation and practice. Each of these has a spatial element, i.e. occurs at global, regional, national, provincial, local, and/or neighbourhood scales. In turn, each of these elements have components for which government, non-government organisations or civil society would be responsible for-

a) Ensuring environmental quality, protection and promotion of integrated environmental management;

- b) Ensuring biodiversity, conservation and coastal zone management; and
- c) Monitoring services rendered by the Wildlife Services (ECWS) and other parastatals

More specifically, like all municipalities, Nyandeni has a responsibility for environmental management and governance. Our IDP provides a platform through which this commitment can be clearly illustrated in a binding municipal development document. Critically therefore it addresses environmental issues through the Integrated Development Plan. The municipality thus understands that IDPs are the master plan for local development, and thus the manner in which the environment is addressed in such a plan is a measure of the role and responsibility the municipality accepts for environmental management. The

Municipality further understands that crucial evaluative questions are used to measure the extent of commitment to environmental management.

- Does the IDP show an understanding of the policy and legislative framework surrounding the environment?
- Does the IDP show an understanding of the implications of the above policy and legislative framework for the municipality and their day-to-day operations?
- Does the IDP provide a structure and mechanisms for the responsibility and accountability of environmental issues?
- Does the IDP provide Localised Strategic Environmental Guidelines for the development of strategies?
- Is there an Integrated Environmental Program?
- Is there an Integrated Waste Management Plan?
- Have any projects related to the following been identified?
 - i. Sanitation and water
 - ii. Energy
 - iii. Integrated land and human settlement planning
 - iv. Environmental health
 - v. Integrated pollution and waste management
 - vi. Biodiversity and sensitive areas
 - vii. Parks and open spaces
 - viii. Community based natural resource management
- Throughout the IDP, has the environment considered in a holistic manner, or does it merely relate to conservation or 'green' issues?
- •

6.1 Biodiversity UPDATE

Biological diversity, often shortened to 'biodiversity', is the variety of life on earth. It takes into account the differences in structure, function, and genetic make-up between living organisms and the ecological complexes in which they occur (Wilson, 1988). This variability occurs at the genetic, species and ecosystem levels (Gaston and Spicer, 1998). Biodiversity is important in assessing the state of the environment, because:

- a) It is closely linked to human well-being. For example, 10 of the world's 25 top-selling drugs are derived from biological resources (UNDP, UNEP, World Bank and WRI, 2000).
- b) Eighty percent of South Africa's population depends on wild plants and animals for medicines, and traditional medicinal plants in the Eastern Cape Province are valued at R27 million annually (Dold and Cocks, 2002).
- c) It provides environmental services such as maintaining river catchments and wetlands for sustainable water production, regulating and controlling floods, maintaining fertile soils, absorbing pollutants from the atmosphere and water bodies, and pollinating crops (Millennium Ecosystem Assessment, 2003).
- d) It provides baseline breeding and seed stocks for crop, livestock and wildlife production and is therefore essential in ensuring that the world's population has secure access to food (Millennium Ecosystem Assessment, 2003).
- e) Many species are threatened by extinction, and the status of our biodiversity is therefore an important reflection of a municipality's environmental track record.
- f) Biodiversity is linked to poverty and health, and this is especially true for a poor province such as Eastern Cape. Poor people depend heavily on biodiversity and have a stake in its conservation, but also have a potentially large impact on biodiversity because of their reliance on natural resources (Koziell and Saunders, 2001).

6.2 Climate

The climate varies according to the distance from the ocean. Coastal areas enjoy mild temperate conditions ranging between 14 and 23 degrees Celsius, while the inland areas experience slightly more extreme conditions with temperatures of 5 to 35 degrees Celsius. Inland mountain areas experience winter snows and summer rainfalls.

More specifically, Nyandeni Local Municipality experiences a large subtropical climate with the more elevated regions characterized by high temperatures and below the escarpment along the coast are the wettest areas within the municipality. t

Climate Change Strategy and Sustainable Development COP 17

The municipal area is considered generally a high average rainfall area estimated to be above 700mm per annum. Minimum temperatures range from 8.9 degrees Celsius in the high lying north – West to 15.3 degrees Celsius along the coast with the maximum estimated at 22.8 degrees Celsius along the coast to 23.8 inland. The municipality has a generally steeped topography.

In recognition of the Constitutional obligation, Nyandeni Local Municipality support the environmental management function through the National Environmental Management Act (NEMA), 1998 (Act No.107 of 1998).Healthy, functioning ecosystems are globally recognized as critical in mitigation and as the first line of defense against climate change impacts. Development therefore has to enhance natural ecosystems, and protect biodiversity.

Based on this, the Municipality have implemented projects (Libode Eco-Park enhancing biodiversity of the area, Eradication of Alien Invasive plants (Lantana) against water scarcity. The municipality have taken note of the climate change response strategy objectives by prioritisation of mitigation interventions that have potential positive job creation, as some form of response to the challenge of environmental degradation whilst addressing environmental conservation and protection.

Projects That Address Environmental Challenges (Water Affairs)

Nyandeni Local Municipality have embarked in numerous projects (e.g Waste transfer Station that gives effect to National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) and the establishment of its parks and beautification of open spaces which is guided by the climate change response principles entrenched in the South African Constitution.

The Nyandeni economy is dependent on primary sectors such as agriculture. The relationship of such industrial opportunities, with climate-dependent resources, needs to be considered and integrated in development planning, as the resources define the production possibilities for the economy as a whole. The strategy was developed and the responses outlined are aligned with the ORTDM Vulnerability Assessment which states that our region is increasingly recognized as one of the areas in South Africa that will be hardest hit by climate change & represents significant opportunities for adaptation and building local community resilience against extreme hazards and adverse climate change impacts due to its natural biodiversity and ecosystems resource base. The NDP's vision for the future, which includes access to affordable food, safe, and affordable and reliable water and energy services, cannot be based on an economic model or assumptions of infinite availability of these and other resources.

The reality is that there is limited water and fertile land resources, and there has been steady degradation of the environment and associated ecosystem resilience.

The climate change response strategy aimed to:-

Ensure that the municipality is consistent with national priorities, including poverty alleviation, access to basic amenities including infrastructure development, job creation, rural development, foreign investment, human resource development and improved health, leading to sustainable economic growth;
 Ensure alignment with the need to consistently use locally available resources;

• Ensure compliance with international obligations;

• Recognize that climate change is a cross cutting issue that demands integration across the work programmes of other departments and stakeholders, and across many sectors of industry, business and the community;

• Focus on those areas that promote sustainable development;

• Promote programmes that will build capacity, raise awareness and improve education in climate change issues;

• Encourage programmes that will harness existing national technological competencies;

• Review the strategy constantly in the light of national priorities and international trends;

• Recognize that South Africa's emissions, Provincial and Local emissions will continue to increase as development is realized.

• Ensure that Nyandeni Local municipality IDP prioritizes building climate resilience through planning human settlements and urban development; provision of municipal infrastructure and services; water and energy demand management; and local disaster response, amongst others.

Situational Analysis

The municipality conducting school and community based awareness that talks to climate change issues and promotion of sustainable use of natural resources. The municipality is also involved in energy efficiency practice i.e. Eco-Park are using solar energy for lights instead of using electricity. **Strategic interventions**

In Agriculture: Develop Disaster Risk Reduction Strategy and Instruments for the agricultural sector in 2022. Climate change will add to the agricultural sector's current pressures, namely land degradation, population increases, growing demand for agricultural resources, and the loss of agricultural land to development. There are, however, opportunities for new irrigation technologies and tilling and manure applications, among other techniques, to overcome some of the expected effects.

In Human Settlement: The priorities include the development of Guidelines for Climate Change Resilience, through updates of SDF.

Projected Projects and Programmes on Climate Change

No	Activity	Budget
1	Bylaw development on Climate change matters	
2	Nyandeni Climate Change Adaptation Response Plan	

6.3 Land (topography)

These moderate climatic conditions mentioned above provide favourable conditions for agricultural development which currently predominate the local livelihood. However, it must also be stated though that, the agricultural potential of the area can be hindered by the steep nature of the terrain. Almost half the total land area is covered by scenic steep slopes with approximately 54.74% gently gradient slopes and 45.26% steep gradient. This topography poses various challenges for development and provision of infrastructure and general building processes. For instance, in a housing project additional investment would have to be made to cushion geotechnical challenges and yet another additional funding to reinforce foundations and provide more building material compared to a flat surface. This also poses a number of other challenges in terms of land capability.

6.4 The land capability

The land capability is determined by the collective effects of soil, terrain and climate features. It indicates the most intensive long term and sustainable use of land in rain – fed agriculture and sometimes highlights the permanent limitations associated with different land use classes. Land capability is therefore a more general term and conservation oriented than simply land suitability.

There is a strong correlation between the vegetation types and land capability. Land is classified into what is called land classes. Land class VI and VII have severe limitations that makes them unsuitable for cultivation and that restricts their use largely to grazing, woodland or wildlife. These limitations include mainly;

- Very steep slopes
- Erosion
- Shallow soil and
- (d) Slopes.

They therefore comprise mainly Thicket Vegetation, Eastern Thorn Bushveld and Moist Upland Grassland. These classes constitute a significantly proportion of the total land areas estimated at 75.4%, see Chart 19 below.

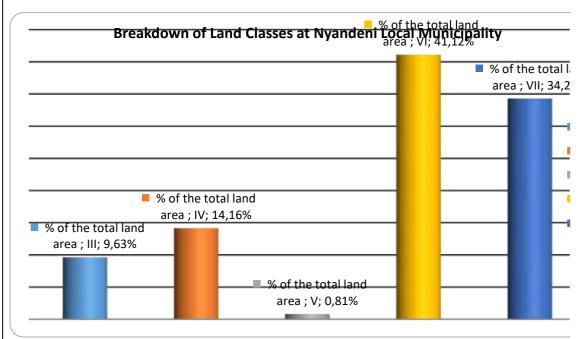

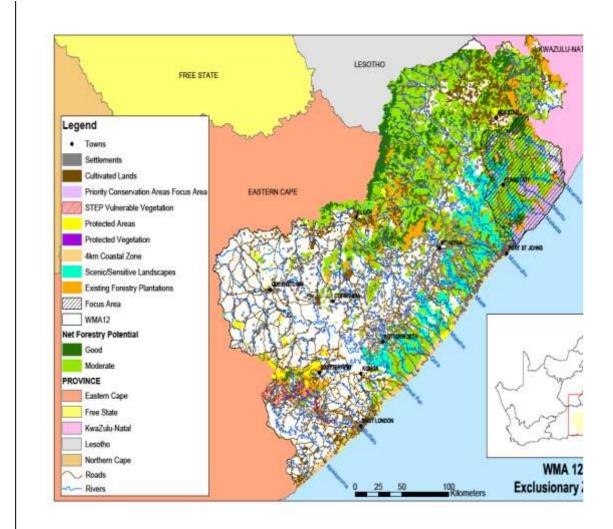

Chart 1: Breakdown of land classes at Nyandeni Local Municipality

Source: Nyandeni Spatial Development Framework (draft)(2010)

Nyandeni Local Municipality constitutes part of what is referred to as Waster Area Management Number 12 which is considered to be biophysically suitable for commercial forestry. In terms of the strategic environmental analysis conducted by the Department of Water Affairs (2006) the area from Keiskamma River to Umzimvubu River has the highest forestry potential with mostly likely, very low hydrological impact due to its relatively high rainfall and low levels of economic activity taking place. For forestry development, the area has a very low water requirement. It must be stated though that in terms of this SEA study, Nyandeni's area is considered of moderate potential compared to the far eastern side of the Pondoland from Port St Johns towards Msikaba at Ngquza Hill Local Municipality. See the map below.

A closer analysis of the map will reveal that a significant land area within the municipality in terms of this study can be considered of environmental sensitive nature.

А

6.5 AIR QUALITY MANAGEMENT

ORTAMBO District Municipality is responsible air quality mananagement for the entire District area. Accordingly, the district municipality is in a process of developing a district wide air quality management plan. The municipality will integrate the strategies into its development plan

6.6 Vegetation and environmental sensitivity

Along the steep slopes of the periphery of Nyandeni Local Municipality, there is mainly Thicket (30.4%) with the exception of the coastal line where there is Coastal Bushveld and Grasslands (5.32%). The interior comprises mainly of the Eastern Thorn Bushveld (33.45%) with Moist Upland Grassland (28.12%) in the northern interior and approximately 30.40% being Valley Thicket.

Overview of the vegetation within Nyandeni Local Municipal area

Vegetation type	Area (Ha)	% of the total Area
Afromontane Forest	4.127.37	1.67%
Coastal Bushveld/Grassland	13.124.46	5.32%
Coastal Forest	2.475.55	1.00%
Coastal Grassland	92.43	0.04%
Dune Thicket	0.71	0.00%
Eastern Thorn Bushveld	82.523.02	33.45%

Moist Upland Grassland	69. 369.32	28.12%
Valley Thicket	74.999.90	30.40%

Nyandeni has a huge potential for tourism along the 20km coastal belt which stretches from Mthatha Estuary in the south west to Mnenu Estuary in the north east. This high tourism potential area is very important for eco – tourism destination. The area already has a number of forests, areas designated for nature conservation, estuaries, wildlife etc. Hluleka Game Reserve remains an area with high tourism potential and can be used to anchor tourism development especially if a cross – boundary nature reserve could be established between Nyandeni, Mhlontlo and Ngquza Hill Local Municipalities. The municipality would have to ensure that a good balance is managed between up scaling these areas with tourism potential into viable commercial tourism ventures and the environmental sensitive and marine protected areas. Rarely the municipal area provides access to coastal dune forests which are rapidly being eroded by residential and commercial agricultural development in other areas. This group of vegetation is crucial due to its high species diversity which may be home to medicinally useful plants, aesthetics, soil binding and soil erosion prevention characteristics. These types of vegetation also tend to be habitat for wildlife and serve a very important purpose of tourism and education.

Included in the state of the municipal environment are its wetlands. There are two types of wetlands found within Nyandeni municipal area. These are Coastal Wetlands that are influenced by tides that contains water that shows appreciable salinity and there are Inland Wetlands including fresh water areas; these can be likened to a basin which is filled with soil that has impervious layer such that it retains water. Wetlands are an important part of the environment and thus key for long term development planning. They offer a multitude of advantages to the environment viz; (a) replenishes ground water levels, (b) controlling stream flow velocity thus flood control, (c) provide grazing land for live stock and wildlife, (d) serve as wildlife habitat and above all (e) provide fresh water.

In Nyandeni Local Municipality the majority of land area is covered in unimproved grassland, this is a total of 50% of the total area. Cultivated: temporary - semi-commercial/subsistence dry land covers 17.6% of the total area in the Nyandeni Local Municipality, while 11.9% is degraded: unimproved grassland.

Total Area km ²	Degraded area	Percentage degraded
2474.02	378.11	15%

RECYCLING AND ENVIRONMENTAL MANAGEMENT

As integral part of implementing Environmental Friendly Practices, Nyandeni has facilitated establishment of three recycling projects, two in Libode and one in Ngqeleni. However, there is a need to support these projects with proper infrastructure including proper Building.

PRIORITY PROJECTS FOR 2020-23

- Unti-litter campaign
- Greening and Beautification
- Expansion of Recycling programme
- Conduct waste management Awareness Campaign in all wards

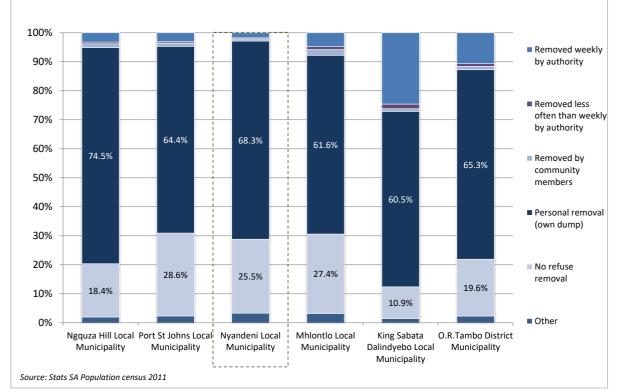

CHART 8. PERCENTAGE OF HOUSEHOLDS BY REFUSE DISPOSAL BY LOCAL MUNICIPALITY, 2011

In 2011, 68.3% of all the households in the Nyandeni Local Municipality were responsible for personal refuse removal. A total number of 15 731 households (25.5%) did not have any refuse removal.

TABLE 10. NUMBER OF HOUSEHOLDS BY REFUSE DISPOSAL BY LOCAL MUNICIPALITIES, 2011

7. Income and Expenditure

In a growing economy with increasing factors of production, household income is spent to purchase goods and services, therefore the income and expenditure of households is a major indicator of several economic trends and is a good indicator of growth and the propensity to consume.

7.1 Number of Households by income category

It was estimated that 86.0% of all households in Nyandeni Local Municipality were classified as living on R38 200 or less per annum in 2011. A total of 10 574 households or 17.2% of the total households have no income.

TABLE 11. TOTAL NUMBER OF HOUSEHOLDS PER INCOME CATEGORY BY NYANDENI LOCAL MUNICIPALITYRELATIVE TO OTHER REGIONS, 2011 [NUMBERS]

2011	South Africa	Eastern Cape	O.R. Tambo District Municipality	Nyandeni Local Municipality

Source: Stats SA Population census 2011

The total number of households without any income in Nyandeni Local Municipality is at a concerning 17.2%. Dependency on subsistence farming could be a substitute for income as a means of survival as subsistence farming is not reported or understood as income by households and is therefore not reported. When a high percentage of households earn no income it may place an increased burden on state to provide health, education and safety.

The graph below portrays the number of households per income category - for 2001 versus 2011. The number of households earning more than R38 200 per annum has increased significantly - in 2001, 4.2% of households were earning more than R38 200 per annum, while in 2011 this percentage increased to 14.0%. The income brackets do not take inflation into account and "inflation creep" occurs. This implies that - over time - movement of households "up" the brackets is natural, even if they are not earning any more in real terms.

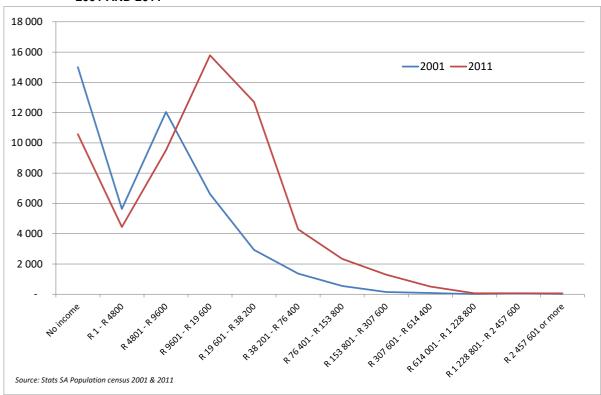

CHART 9. NUMBER OF TOTAL HOUSEHOLDS PER INCOME BRACKET, NYANDENI LOCAL MUNICIPALITY, 2001 AND 2011

7.2 Annual per household income

Definition Per household personal income is the annual total personal income of an area divided by the total number of households within the area and presented by the population group of the head of each household. Annual total personal income is the total personal income for all households in the region summed together.

In 2001, the average household income for Nyandeni Local Municipality was R16 800 and it increased at an average annual rate of 7.4% to R34 254 in 2011.

Source: State SA Deputation concue 2001 8, 2011			

Source: Stats SA Population census 2001 & 2011

In 2011, the O.R. Tambo District Municipality had a household income of R44 533, which increased at an average annual growth rate of 16.3% from 2001. The Eastern Cape Province's household income grew at an average annual rate of 16.12% and South Africa as a whole with 15.85% average annually.

7.3 Annual total Personal Income

Personal Income is a broader concept than labour remuneration discussed in the economics section above. It includes profits, income from property, net current transfers and net social benefits.

Definition Annual total personal income is the total personal income for all households in the region summed together. Income is presented in units of rand million. The definition of "income" is the same as used in the income brackets variable, and also includes income tax. Annual total personal income is presented in current prices – this means that inflation has not been taken into account.

It is estimated that total personal income in Nyandeni Local Municipality amounted to R2.1 billion in 2011. This increased at an average annual rate of 9.0% since 2001 when the total personal income was estimated at R919 million.

TABLE 13. ANNUAL TOTAL PERSONAL INCOME IN NYANDENI LOCAL MUNICIPALITY RELATIVE TO OTHER REGIONS[CURRENT PRICES, R MILLIONS]

Source: Stats SA Population census 2001 & 2011

Comparing Nyandeni Local Municipality with the other municipalities' it is seen that the municipality is performing average at an average annual growth rate. The only municipality that stands out with the lowest average annual growth rate of all the local municipalities was the Port St John Local Municipality with an increase of only 6.1% annually over the period.

7.4 Annual Per Capita Income

Per capita income is often used as a measure of wealth particularly when comparing different economies or population groups - and rising per capita income usually alludes to possible increase in demand for consumption.

Definition Per capita income refers to the income per person and is calculated by dividing the total personal income per annum equally among the population.

In 2011, the per capita income amounted to R7 969 in Nyandeni Local Municipality

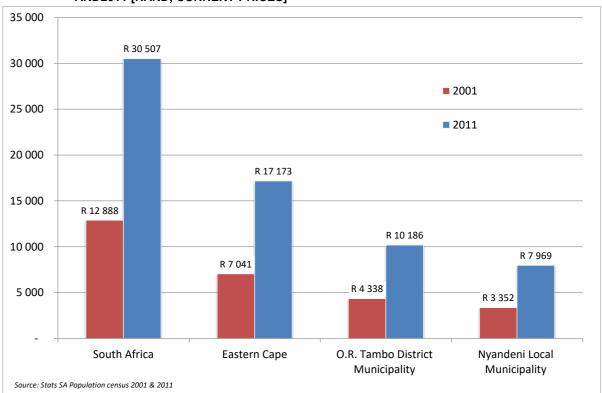

CHART 10. PER CAPITA INCOME IN NYANDENI LOCAL MUNICIPALITY RELATIVE TO OTHER REGIONS, 2001 AND2011 [RAND, CURRENT PRICES]

The per capita income for South Africa in 2011 amounted to R30 507, which is an average increase of 9% per year from 2001. The Eastern Cape Province has a per capita income of R17 173 and had an average annual growth rate of 9.3%.

7.5 Household Goods

Ownership of a cellphone, television, refrigerator and computer has increased considerably between Census 2001 and Census 2011. However, the demand for radios and landline telephones has decreased owing to a rise in the popularity of cellphones.¹

Only 32% of the people in South Africa had access to a cell phone in 2001 compared to the 89% in 2011. Households with access to computers increased from 9% in 2001 to 21% in 2011 in South Africa. 75% of the households in South Africa owned a TV in 2011 while only 54% of households had a TV in 2001. Only 69% of the households in South Africa have a refrigerator, even though 82% of the households have electricity connections. The percentage of households using landline telephones and radios have decreased since 2001. South Africa seems to embrace technology at it becomes more accessible.

While Nyandeni Local Municipality seems to follow the national trend it does not exhibit the same level of absorption when compared to South Africa.

1Statistics South Africa

Access to	Yes	No	% Yes
Cell phone	49349	12298	80.1%

TABLE 14. ACCESS TO HOUSEHOLD GOODS IN NYANDENI LOCAL MUNICIPALITY, 2011

Source: Stats SA Population census 2011

It is evident that the majority of households (80.1%) have access to Cell phones. About 50% of households have access to electric/gas stove, radio or television. Although only 2.9% of households have access to computers, 16.9% have access to the internet.

7.6 Formal Retail sales

Definition Annual retails trade sales by product type measure the total retail spend, distributed across spending categories, by all households within the region. The outputs are presented in units rand thousands. This measure represents consumption from the supply side (retail) perspective of the economy. Two important implications are thus:

- Only goods that are **sold by a shop** are counted as a sale. This measure therefore does not give an accurate account of *all* consumption in a region, particularly subsistence and inter-household transfer consumption.
- The sale is registered at the place of the sale, and not at the place of the household buying the good.

Formal retail trade in Nyandeni Local Municipality amounted to R463 million in 2011, which is 10% of the total formal retail sales within the O.R. Tambo District Municipality.

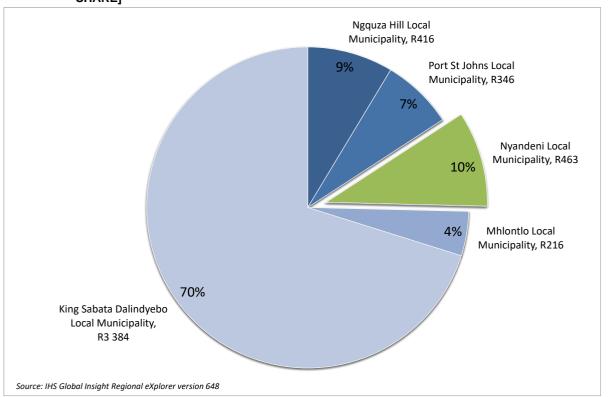

CHART 11. ANNUAL FORMAL RETAIL TRADE SALES BY LOCAL MUNICIPALITY, 2011 [PERCENTAGE SHARE]

The majority of formal retail sales occur in the King Sabata Dalindyebo Local Municipality and amounts to R3.4 billion (70.1%), while the least – only R216 million (4.5%) is sold in the Mhlontlo Local Municipality.

7.7 Index of Buying Power

Definition The Index of Buying Power (IBP) is a measure of a region's general capacity to absorb products and services. This measure is useful when comparing two regions in terms of their capacity to buy products. This general capacity depends on three factors:

- The size of the population.
- The ability of the population to spend, which is measured by total income.

• The willingness of the population to spend, which is measured by total retail sales. The index values range from 0 to 1 (with the national equal to 1) and can be interpreted as the percentage of national buying power attributable to the specific region.

TABLE 15. INDEX OF BUYING POWER PER REGION,2011

	National		O.R.Tambo	Nyandeni
Variable	Total	Eastern Cape	DM	LM
Develation		6.072.400		
Population	50 252 369	6 873 100	1 407 374	302 201
Population - share of national total	100.0%	13.7%	2.8%	0.6%
Income (Rmill)	1 965 067	179 764	21 018	3 612
Income - share of national total	100.0%	9.1%	1.1%	0.2%
Retail (Rmill)	617 815	51 408	4 825	463
Retail - share of national total	100.0%	8.3%	0.8%	0.1%
Index	1.000	0.094	0.012	0.002

The Index of buying power suggests that only 0.2% of the national buying power is attributable to the Nyandeni Local Municipality, while 1.2% is attributable to the O.R. Tambo District Municipality.

8. Economy

4.1 Introduction

South Africa remains a dual economy with one of the highest inequality rates in the world, perpetuating poverty, inequality and exclusion. This situation is likely to be aggravated by the current fragile economy, low growth rate, and tight fiscal conditions.

This section presents a brief snapshot of Nyandeni's economy. It looks at the structure and performance of the economy, its features, and dynamics and investment trends in Nyandeni. The analysis deals with the size of Nyandeni economy; its performance and trends since 1994; the itemsthat households in Nyandeni spend their money on. Household expenditure and its impact on economic growth is examined. In this section, Nyandeni economic sector analysis makes reference to selected key sectors which are major contributors to the economic activity of the municipality and drivers of Nyandeni economic growth. It also focus on the comparative advantage of Nyandeni local economy and looks at the extent to which the

economy of Nyandeni need to be diversified. The section starts with a world and domestic economic overview

4.2 World economic outlook and domestic economic overview

South African economy is relatively small and accounts for less than 1 per cent of global GDP. For a small open economy such as South Africa, which is dependent on foreign trade and attracting foreign savings to prop up domestic investment, the country will not be immune to external shocks such as the impact of the global financial crisis-induced economic slowdown.

The economic environment remains challenging both internationally and domestically. Weak growth in key emerging and developing economies such as China and Brazil may not be offset by the modest improvement in growth recorded in advanced economies (most notably the United States and Euro Zone). Furthermore, the risks to an already subdued economic outlook are firmly tilted towards the downside.

Domestic constraints such as electricity shortages, the twin fiscal and current account deficits and continued labour market concerns exacerbate the global pressures on the national economy. South Africa's economic growth forecasts for the 2016 to 2018 have been revised down, and risks remain to the downside.

Government continues to prioritise raising investment; improving labour relations, certainty and policy coordination; and making it easier to do business so that the South African economy is better placed to grow more rapidly in future. Expanded partnerships with business, labour and civil society to realise the objectives of the National Development Plan will be a key feature over the medium term. Nyandeni's economic developments and prospects are presents next.

4.3 Economic analysis of Nyandeni local municipality

4.3.1 Size of Nyandeni economy

According to Quantec regional data (2016), the estimated size of the Nyandeni local municipality economy in terms of total output was R5 972 million in 2015 and the break down is summarised below (See Table 11):

- The Intermediate Consumption Expenditure (ICE), that is the input cost to produce goods and services at constant 2010 prices, was estimated at R2 862 million
- The Gross Value Added (GVA) for all industries (difference between output and input) at constant 2010 prices was R3 110 million
- Quantec estimated the real compensation of employees in Nyandeni (constant 2010 prices) at R1 721 million. This is the amount received by workers in terms of wages and salaries.
- The Gross Operating Surplus was estimated at R1 371 million.

	Real Gross value added at basic prices, R millions constant 2010 prices	Real Compensation of employees, R millions constant 2010 prices	Real Gross operating surplus, R millions constant 2010 prices	Real Output at basic prices, R millions constant 2010 prices
O.R.Tambo	20 299	11 603	8 283	38 935
Ngquza Hill	2 739	1 578	1 107	5 218

Eastern Cape	210 006	118 940	86 590	467 799

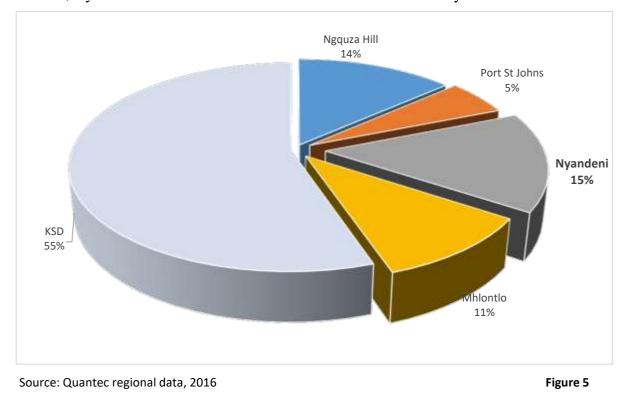

Selected key economic indicators from the National Accounts, 2015

Source: Quantec regional data, 2016

Table 11

Table 11 shows that KSD local municipality had the highest contribution to the District economy, followed by Nyandeni, Ngquza Hill, Nhlonto and Port St Johns.

According to Quantec regional data, in 2015, Nyandeni contributed 15% to O.R. Tambo district grow value added (See Figure 5).

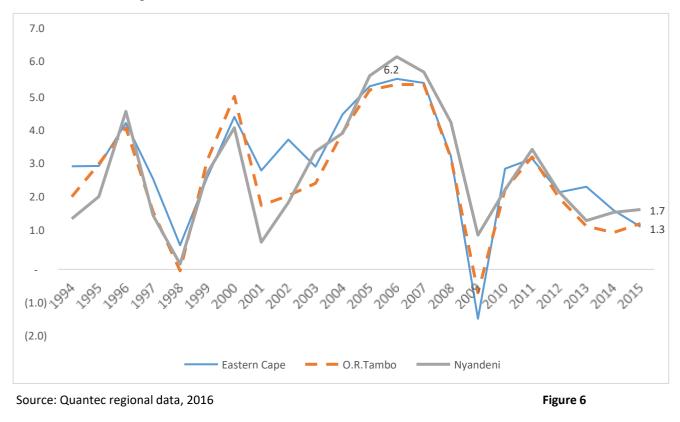

In 2015, Nyandeni contributed 8.6% to O.R. Tambo district economy

4.3.2 Nyandeni economic performance and trends: (1994-2015)

Looking at the percentage changes in real gross value added of the District, Figure 5 shows that Nyandeni local municipality followed a similar pattern as that of the O.R. Tambo district. The municipality was not much affected by the 2008/2009 economic meltdown compared to the province and other local municipalities in the province.

In 2015, Nyandeni gross value added grew by 1.7% compared to 5.7% attained a decade age in 2005 (See Figure 6). The economic prospect of the municipality is difficult to predict. Looking at the provincial growth trajectory, the Eastern Cape economy remain fragile and unsustainable, hence It is anticipated that grow in Nyandeni will average below 2% until 2018.

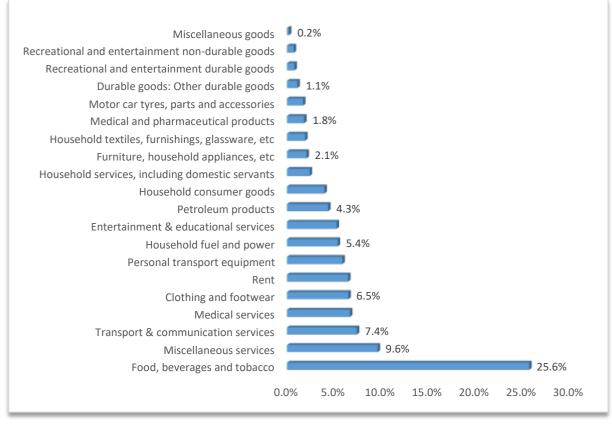

Growth rate in real gross value added: 1994-2015

5.3.3. On what items do households in Nyandeni local municipality spend their money?

Consumption is vital to South Africa's economy. According to the South African Institute of Race Relations (SAIRR), household consumption expenditure contributes about 60% to the GDP. Therefore, analysis of consumer behaviour and spending power in the country is important as it reveals how the economy depends on consumption expenditure.

Looking at final consumption expenditure by households, Figure 8 shows that households in Nyandeni spend a quarter of their income on food. This is in line with a study conducted by SAIRR. According to SAIRR (2015) the single biggest item of household expenditure is food, beverages, and tobacco, followed by transport and then housing. On average, South Africans spent 25.3% of their money on Food, beverages, and tobacco, with transport at 18.8%, while Housing, water, electricity, gas, and other fuels

took up 14.6% of household expenditure. Other notable expenditure are: Health (7.8%); Recreation, entertainment, and culture (4.2%); Furnishings, household equipment, and routine maintenance (6.0%); Hotels, cafés, and restaurants (2.6%); Education (3.4%) and Clothing and footwear (4.8%).

On what items do people in Nyandeni spend their money on? (Final consumption expenditure by household, 2015)

Source: Quantec regional data, 2016

Figure 7

Comparing expenditure for low income (poor) households and highincome (rich) households, SAIRR (2015) report shows that lower income households are likely to allocate 21.4% of expenditure on housing, versus 33.1% for higher income earners; Food: 33.5% vs 10.8%; Miscellaneous 9.2% vs 15.2%; Other 25.8% vs 23.0%; Transport 10.2% vs 17.8%. In Nyandeni, Transport and telecommunication is the third largest expenditure item.

As households become richer, they are more likely to spend on items such as insurance, savings, and medical care. It is striking that 25.4% of the

expenditure of the richest category of households goes to income tax as opposed to 0.8% of that of the poorest households. Poor households devote more of their expenditure to goods such as food and alcohol than rich households.

5.3.4 Household expenditure and its impact on local economic growth

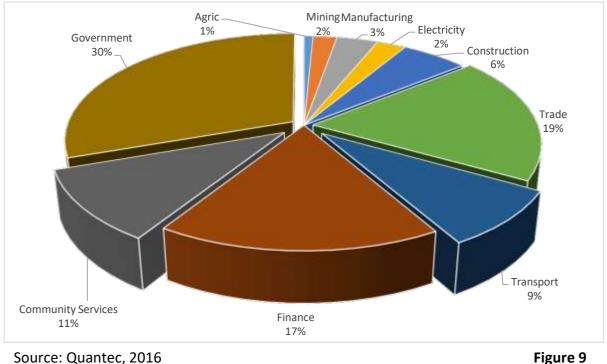

The slower economic growth in Nyandeni in 2015 could largely be attributed to low household spending together with a moderation in employment growth, particularly in the private sector, along with a decline in the real private sector wage rate weighed on real disposable income and therefore consumer spending.

The macroeconomic environment in Nyandeni is expected to remain challenging for consumer spending. The hike in the interest rate in July last year continues to weigh on disposable income. Furthermore, the higher interest, higher inflation and slow employment growth constrain significantly consumer spending in the municipality. Also, a further depreciation in the Rand/Dollar exchange rate may offset the gains from the lower oil price and erode disposable income of the few elite who use private vehicle for transportation.

5.3.4. Sector Analysis

This section analyses Nyandeni economic sector and makes reference to selected key sectors which are major contributors to the economic activity of the municipality and drivers of Nyandeni economic growth.

Figure 9 shows that Government sector (30%) is the main contributor to Nyandeni economy. This is followed by Trade sector (19%) and Finance sector (17%). However, contribution by productive sectors such as agriculture and manufacturing is very negligible. Table 12 provides a detailed breakdown of sub-sectors GVA in Nyandeni and how these subsectors grew since 1995 to 2015. Table 13 shows a detailed breakdown of sub-sectors compensation of employees. These two tables give a full picture of the sectors that contribute most to the economy of Nyandeni and the wages and salaries paid in each sub-sector.

Sectors contribution to GVA: Nyandeni, 2015

Source: Quantec, 2016

5.3.4.1. Agri-processing, apriority for Nyandeni LM

The Eastern Cape vision 2030 has identified agriculture-led growth and agricultural value chains as "clear-cut priorities for accelerated industrialization". Nyandeni's prioritisation of this sector will allow the municipality to benefit from growth opportunities in the region and beyond. Despite its relatively small direct contribution to GDP, the agricultural sector has been a mainstay of the Nyandeni's economy and driver of economic development in this rural municipality. In rural, it is easy to focus on agriculture as a primary sector to will allow the majority of the people to

participate in the economy. An inclusive growth strategy through agriculture is presented below.

5.3.4.2. Inclusive growth in Nyandeni should focus agriculture and manufacturing

Economic growth should as a final outcome cause an improvement in the overall quality of life as measured by different socio-economic development indicators if the growth is inclusive. On the other hand, socio-economic improvements also benefit economic growth. Local government policies directly aimed at these improvements become agents of economic growth by creating conditions favourable to economic development. High potential sectors are identified so that government resources can be prioritised towards interventions in a small number of opportunities rather than spread across the board.

The economic contribution of primary agriculture is supported by various value chains: its linkages extend to agri-processing producers as intermediate inputs in the production of consumer goods and as backward linkages to its suppliers within the manufacturing and services sector. Increasing farmer participation in the full agriculture value chain via beneficiation of agricultural produce could stimulate inclusive growth and employment creation.

Key policy implications identified should include the benefits of having manufacturing as a growth sector is important. Particularly one with an export-orientation, ability to develop and transmit modern technology and capacity to create employment opportunities. In commodity production the agricultural value chain remains an important sector in which the region has a clear comparative advantage. Whilst real growth potential is currently dominated by agricultural produce and food value chain, there is still a need to add to existing value, and diversify the sector.

N	Iya	nde	ni Compe	ensatior	of	employees:	Se	ctor Trends 1995 - 2015

Source: Quantec regional data, 2016

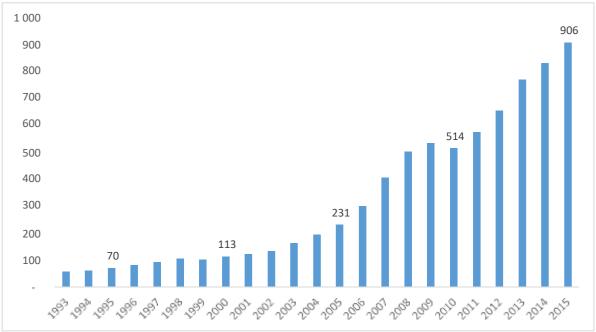

Table 13

The sources of and constraints to high sustainable growth are closely linked to the sector composition of economic growth and the productivity- enhancing distribution of resources among industries. Outside of the broad services sector, agriculture and its associated processing industries, as well as building and construction, stand out for their revealed comparative advantage in Nyandeni. In Table

5.3.6. Investment trends in Nyandeni

Total Fixed Capital Formation is used as a measure of investment within an economy, and is comprised of government capital formation, private capital formation and public capital formation.

Investment in an area can be measured in terms of Gross Domestic Fixed Investment (GDFI) and/or Fixed Capital Stock (FCS). The total fixed investment provides an indication of investment within the economy into machinery, equipment, building and land.

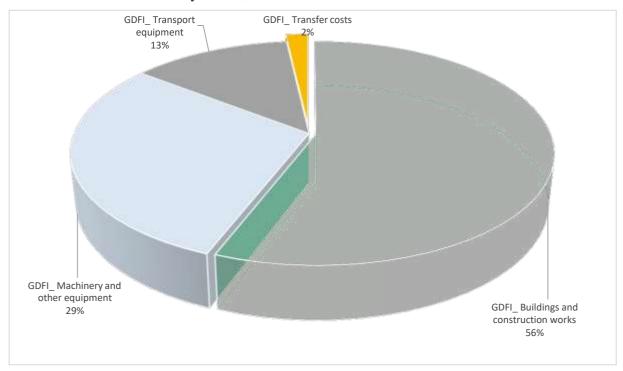

GDFI: Gross fixed capital formation (R million), 2016

Source: Quantec regional data, 2016

Figure 10

Figure 10 provides investment trends in Nyandeni since 1993 to 2015. According to Quantec regional data, the total nominal Gross Domestic Fixed Investment in Nyandeni has almost double every five years. In 2015, Nyandeni's Gross Domestic Fixed Investment amounted to R906 million, representing 16% of O.R.

Tambo district total investment. More than half (56%) of Nyandeni's Gross Domestic Fixed Investment is in buildings and construction works (See Figure 11).

Investment distribution in Nyandeni, 2015

Source: Quantec regional data, 2016

Due to lack of economic opportunities in Nyandeni municipality, entrepreneurs seem averse towards investing in corporations based in this municipality. Lack of infrastructure such as good roads, telecommunication systems, health care facilities,... do not motivate skilled labour and businesses to migrate in the district. Also poor infrastructure, in particular poor road networks, unreliable energy supply and insufficient

telecommunication facilities create high transaction costs and cause serious obstacles to operate effectively business in the area.

5.3.7 Comparative advantage of Nyandeni local economy

The municipality prides itself with its 20 km stretch coastline Mthatha Mouth to Mnenu, including 772 ha Hluleka Nature Reserve with six unperturbed and active beaches amongst which Mthatha Mouth and Mdumbu are internationally recognised. The Municipality shares part of the 6 day day hiking trail that traverses to and fro KSD to Port St Johns local Municipalities

Nyandeni Local Municipality's close proximity to the O.R. Tambo's economic hub Mthatha makes it an opportune municipality for expansion and future development. Nyandeni possess vast arable land allowing for economic development initiatives

The Municipality benefits from the R61 upgrade from Mthatha to Port St. Johns and the the N2 Toll road Corridor which is underway. Within the development Corridor stretching along R61 from Mthatha to Ntlaza lies a potential for a corridor development with a higher intensity of land use alongside. This it due to the proximity of three nodal elements of Ntlaza Junction, Libode and Mthatha (N2 Toll Road)

Mobility Routes: N2 R61, DR18030 road from R61 to Mthatha Mouth via Ngqeleni these routes carry passing traffic and provide access between local areas in Nyandeni and centres further afield.

It currently has eight (8) active Rural Service Centres) which have potential to grow as commercial nodes

The location quotient is an indication of the comparative advantage of an economy. It is used to identify those local industries that are producing more than is needed for local use and selling outside the region (exporting) and those that are not meeting local needs and are a source of consumption leakage (importing). Table 14 show the local municipalities' location quotients relative to the district (O.R. Tambo) municipality.

O.R. Port St Ngquza Mhlontlo KSD Tambo Hill Johns Nyandeni Total 1 1 1 1 1 Primary sector 1.72 2.39 0.44 1.58 1.28 -Agriculture 1.54 1.13 0.54 3.49 0.49 -Mining 2.43 2.19 1.09 0.39 _ 1.63 Secondary sector 1.01 1.06 1.09 1.08 0.95 -Manufacturing 1.11 0.78 0.83 1.58 0.93 -Electricity 0.58 0.73 1.30 0.54 1.15 _ Construction 1.08 1.42 1.25 0.86 0.90 -Tertiary sector -0.99 0.98 0.98 0.96 1.02 Trade _ 1.00 0.78 0.97 0.93 1.04 Transport 0.77 1.00 1.20 0.83 1.04 -Finance 0.91 88.0 0.69 1.15 0.65 General government 1.04 1.19 0.98 1.07 0.96 _ Community services 1.06 1.05 0.92 1.18 1.18 1 1 1 Total 1 1

Local Municipality's location quotient relative to District Municipality (O.R. Tambo)

Table 14

When interpreting the data, a location quotient greater than 1.0 indicates that the local economy is self-sufficient, and may even be exporting the good or service of that particular industry. On the other hand, a location quotient less than 1.0 suggests that the region is not self-sufficient and might rely on imports the good or service.

According to Quantec regional data (2016), Table 14 shows that Nyandeni's comparative advantage relative to the District is in mining, electricity, construction, transport and community services. Nyandeni's disadvantages relative to the District are in Agriculture, Manufacturing, Trade, Finance and General government.

While location quotients can help you better understand your local economy, you should not rely solely on them for decision-making purposes. Users should keep the following in mind: The location quotient assumes that local productivity (output per worker) is the same as national productivity. One interpretation of a "high" location quotient might be that a particular industry is exporting.

5.3.8 Diversification of Nyandeni local economy

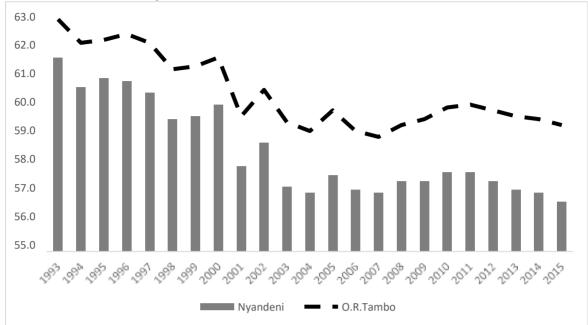

The Tress Index measures the level of concentration or diversification in an economy. An index score of zero represents a much diversified economy, while a number closer to 100 indicates a high level of concentration. The economy of Nyandeni appears to be slightly more concentrated on few industry as it is the case for the District as a whole.

Tress maex over	TO moustnes				
	1995	2000	2005	2010	2015
O.R.Tambo	62.2	61.6	59.8	59.9	59.3

Source: Quantec	, 2016				Table 15

Tress index over 10 industries

Source: Quantec, 2016

According to Quantec Regional data (2016), the level of concentration in the District has gradually decreasing. This is an indication the District is gradually diversifying its industries (See Figure 12).

Tress index trend for Nyandeni and O.R. Tambo: 1993 to 2015

Source: Quantec, 2016 Figure 12

5.4 Conclusion

This section has analysed the economy Nyandeni. It showed that economic activities are concentrated solely in the tertiary sector. GVA contributions by value-add or productive sectors, such as agriculture and manufacturing, are very insignificant.

10 Social Infrastructure

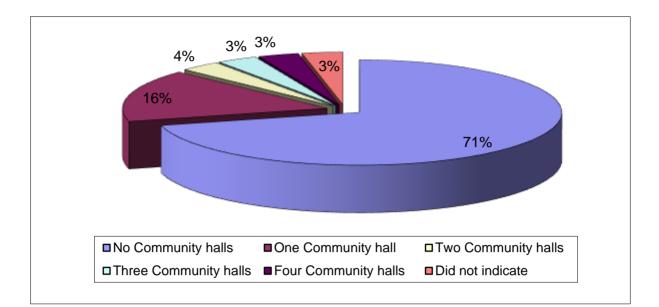

Social infrastructure is a subset of the infrastructure sector and typically includes assets that accommodate social services. Examples of social infrastructure assets include schools, universities, hospitals, prisons, libraries, community halls and community housing. Social infrastructure does not typically extend to the provision of social services, such as the provision of teachers at a school or custodial services at a prison.

COMMUNITY HALLS

(a) Average number of community halls in the various wards

(b)

One other aspect investigated through this study was that of community halls, their distribution, funders, personnel and security. The respondents were asked to indicate how many community halls they had in their wards. Their responses are shown in Figure 5 and illustrate that community halls are not very common in these communities. Actually, of all the wards that partook of this study, 22 (or 71%) of them do not have any community halls at all. Sixteen percent (5 wards) of the wards have one community hall each and these are wards 1; 11; 19, 20 and 31. As also illustrated in Figure 5, there are two wards (3%) with 3 and 4 community halls each and these are wards 6 and 21, respectively. Ward 17 did not indicate if there is a community hall or not in that particular ward whereas ward 24 has 2 community halls. In total, there are 14 Community Halls in the entire municipality.

The following community halls were constructed by various funders in the following wards,01,06, 07,11,19,20,21,24 and 31.

PROPOSED PLANS

Build at least two Community Hall per annum including maintainance

LIBRARY SERVICES

The municipality has a Service Level Agreement (SLA) with Department of Sports, Recreation and Arts & Culture (DSRAC) to manage public libraries. There are 02 official public libraries (Libode ward 07 and Ngqeleni Town ward 21). There are 03 modular libraries established by DSRAC at Ward 04, 14, 20 and 25 The municipality took a decision to establish and support school/community libraries, to that effect the municipality is operating with 07 community/ school libraries (Ward 04, 11, 14,18,19,24 and 31).

10.1 Educational services

EARLY CHILDHOOD DEVELOPMENT

Include Prioritisation of SOPA

The municipality took a decision to contribute to the cognitive development of the child by making a provision of the child care facility, where a child will be developed emotionally, cognitively, morally, physical and social from birth to school going age.

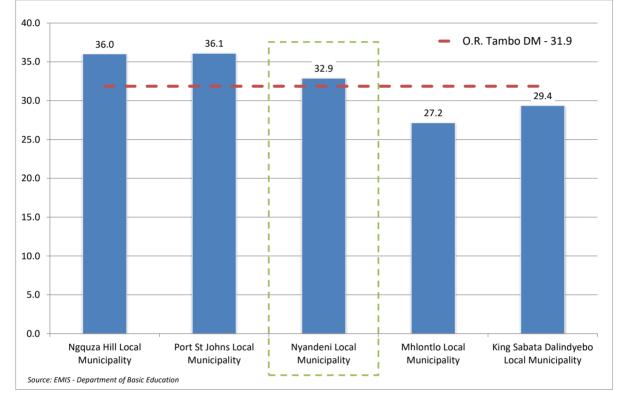

Number of ECDCs per ward	Frequency	Total number of ECDCs	Wards	Number of villages
00	1	00	20	18
01	2	02	17; 19	19
02	0	00		00
03	4	12	7; 9; 22; 23	23
04	7	28	1; 3; 4; 5; 15; 25; 30	66
05	4	20	10; 11; 12; 31	24
06	2	12	18; 24	21

Distribution of ECDCs between different wards in the municipality (N=31)

Number of ECDCs per ward	Frequency	Total number of ECDCs	Wards	Number of villages
07	4	28	8; 26; 27; 29	54
08	1	08	16	10
09	0	00		00
10	3	30	2; 6; 21	36
11	2	22	13; 28	19
12	1	12	14	10
TOTAL	31	174	31	300

To date the municipality has constructed 8 early childhood centres in the following wards 02, 04, 07, 10, 21, 25,26 28. Additional 2 ECDC's will be constructed in the 2014/2015 financial year

In order to sustain growth in the number of learners, educators are necessary. In Nyandeni Local Municipality there is a total number of 3 251 educators/teachers which is equal to 33 learners to one educator, which is inline with the district municipality (32 learners per educator). Comparing that to the other local municipalities the Mhlontlo Local Municipality has the lowest ratio of 27 learners to one educator.

10.2 Healthcare facilities

- **Definition** A healthcare facility is, in general, any location at which medicine is practiced regularly. Medical facilities range from small clinics and doctor's offices to emergency medical centres and large hospitals with elaborate emergency rooms and trauma centres. The healthcare facilities is summed in to categories:
 - **Private facilities** all facilities that is for-profit this includes private hospitals and private clinics. The not-for profit facilities also forms part of the private facilities, but is only non-medical sites.

Public facilities – this includes general provincial facilities, provincial emergency services and any other department facilities

There is a total of 8252 healthcare facilities in South Africa, 6575 is in the hands of the government and 1677 in the private sector. The following summarizes the number of health facilities in the O.R. Tambo District Municipality and the Nyandeni Local Municipality.

				, -
	Number of health facilities		Facilities per 1	00,000 people
Туре	O.R. Tambo DM	Nyandeni LM	O.R. Tambo DM	Nyandeni LM
Private facilities	5	1	0.4	0.3
Public facilities	193	65	14.1	22.4
Total	198	66	14.5	22.7

TABLE 16. NUMBER OF HEALTH FACILITIES IN NYANDENI LOCAL MUNICIPALITY, 2011

Source: Health Information Systems Programme (HISP)

The Nyandeni Local Municipality has 33.7% of the total public facilities in the O.R. Tambo District Municipality. In the O.R. Tambo District Municipality there is a total of 14.5 healthcare facilities for every 100,00 people, while in Nyandeni Local Municipality a total of 22.7 healthcare facilities are available for every 100,000 people.

TABLE 17. NUMBER OF HEALTH FACILITIES IN NYANDENI LOCAL MUNICIPALITY BY TYPE OF FACILITY, 2011

Туре	O.R. Tambo District Municipality	Nyandeni Local Municipality
Clinic	139	46
Community Health Centre	10	3
Correctional Centre	4	2
Crisis Centre	1	1
District Hospital	9	4
EMS Station	9	3
Mobile Service	14	6
Non-medical Site	3	-
Private Hospital	1	-
Provincial Tertiary Hospital	2	-
Psychiatry Service	3	1
Regional Hospital	1	-
Specialised Orthopaedic Hospital	1	-
Specialised TB Hospital	1	-
Total	198	66

Source: Health Information Systems Programme (HISP)

The above table is a breakdown of the type of healthcare facilities in the Nyandeni Local Municipality. The majority of health facilities are in the form of a clinic - 46 facilities or 69.7% of the total facilities in Nyandeni Local Municipality.

The number and quality of medical facilities in a country or region is one common measure of that area's prosperity and quality of life.

CHAPTER 3: THE SPATIAL DEVELOPMENT FRAMEWORK

Preparation and Adoption

The 2018-2023 Spatial Development Framework was crafted and adopted by Council on **27 June 2019** as key component of the integrated development plan. It is five a year horizon plan that guide and inform spatial planning processes and key decisions. A thorough consultative and stakeholder consultation was held during the process of formulating the SDF.

The formulation of a Spatial Development Framework Plan is a legal requirement, which every Municipality must adhere to as part of their Integrated Development Planning process (IDP). Refer: Section 26 (e) of the Municipal Systems Act (Act 32 of 2000).

3.1 Purpose of Spatial Development Framework

The purpose of formulating a Spatial Development Framework Plan for Nyandeni is to provide the municipality and other development agencies with a tool to assist them in making development decisions, which ensures that land in Nyandeni is used and managed appropriately and that sustainable development decisions and practices are implemented.

The Spatial Development Framework essentially creates a map "picture" of what the Nyandeni area will look like in the future in accordance with the Municipality's vision and objectives, developed during the IDP process.

In so doing the purpose of the plan is to provide a spatial policy framework:

- 1. To direct development agencies in decision making which directly or indirectly impacts on the Municipal area.
- 2. To direct private and public investment to areas in that would ensure the most sustainable return of investment.
- 3. To guide development in a spatially efficient way, ensuring linkage and alignment to regional and national development policies and programmes.
- 4. Which in response to locally specific trends and dynamics in Nyandeni, directs investment to areas of greatest potential and to target areas of greatest need to alleviate poverty and promote economic growth.
- 5. This proposes strategic options to improve linkages within Nyandeni and beyond its boundaries to stimulate effective and sustainable integrated development.

3.2 Legal Framework for the SDF

National Development Plan 2016 to 2030

The National Development Plan (NDP) is a plan geared towards poverty elimination and inequality reduction by the year 2030, by unleashing the energies of all South Africa citizens to grow the economy, build capacities and enhance the capability of the state and its leaders.

The National Development Plan (NDP), supported by the New Growth Path and other relevant programs, provides a platform to look beyond the current constraints to the transformation imperatives over the next 20 to 30 years.

The Key Spatial Directive Chapters of the National Development Plan:-

Chapter 5 of the National Development Plan (NDP) focuses on environmental sustainability and resilience through an equitable transition to a low-carbon economy, which will also have implications on the way, the spatial planning and development in South Africa is approached.

Chapter 6 sets out specific targets and goals towards establishing a more inclusive rural economy through integrated rural development. The focus here is on increased investment in new agricultural technologies, research and the development of adaptation strategies for the protection of rural livelihoods and expansion of commercial agriculture.

Chapter 8, which focuses on the country's spatial planning system, requires that: all municipal and provincial Spatial Development Frameworks (SDFs) are translated into 'spatial contracts that are binding across national, provincial and local governments'; the current planning system should 'actively support the development of plans that cross municipal and even provincial boundaries', especially to deal with biodiversity protection, climate-change adaptation, tourism and transportation; and every municipality should have an 'explicit spatial restructuring strategy' which must include the identification of 'priority precincts for spatial restructuring'.

Spatial Planning and land use Management Act no. 16 of 2013

Chapter 4; Part A to E of SPLUMA outlines requirements of SDF's at National, Provincial and at Municipal level with various sections providing prescription for each sphere of government with regard to the SDF preparation and content, section 12 of SPLUMA specifically requires that all spheres of government compile SDF's for their areas of jurisdiction; Part E provides for the preparation and content of a Municipal SDF. Part E defines the status of a SDF.

The NLM SDF will serve as a strategy to interpret and represent the Spatial Development Vision of the municipality. The vision must be designed to enable sustainable development throughout the municipality while the planning process will address the challenge to balance imperatives of economic efficient, social and environmental integrity. Furthermore, SPLUMA section 20 provides that Municipal SDF's, must be prepared as part of a municipality's Integrated Economic Development Plan in accordance with section 26 (e) of the Local Government Municipal Systems Act No. 32 of 2000 (MSA).

The SDF must give effect to the development principles contained in the Spatial Planning & Land Use Management Act No. 16 of 2013 including:

- 1. Spatial Justice
- 2. Spatial Sustainability
- 3. Efficiency
- 4. Spatial Resilience; and
- 5. Good Administration

The Spatial planning and land-use management Act no.16 of 2013 as part of effective landuse management, requires municipalities to set up municipal planning tribunals and to develop wall to wall land use schemes by 2020. To this Nyandeni local municipality has an adopted SPLUMA By-law and has appointed and authorised official and appeals authority in terms of SPLUMA and completed the categorisation of applications that will be dealt with by the authorised official and by the district planning tribunal. Nyandeni local municipality has opted to form part of the district planning tribunal which was established in 2018 and is currently operational. During the 2018-19 financial year the district planning tribunal has convened atleast 4 times. The composition of the tribunal is made up of district municipality officials, Nyandeni officials, mhlontlo officials, COGTA officials, Department of Environment and public works officials. The municipality has further initiated a process of formulating a comprehensive land use management scheme. In an effort to ensure proper and informed spatial planning the local municipality has established a G.I.S unit within the Development planning department. G.I.S technology will assist the municipality with effective land use management and ensure a properly aligned billing system. The municipality also recognises the need to deal with unresolved land claims swiftly which are usually delayed as a result of land boundary disputes. The municipality has therefore embarked on a process of conducting a thorough land audit of all land parcels within the boundaries of Nyandeni local municipality. The municipality is currently in a process of hold public engagements with the communities and interested and affected stakeholders as part of compling a comprehensive land audit process. Once public participation process has been completed the draft audit report will be sent to the rate payers association, land claims commission, deeds registry and department of public works. The municipality is anticipating to complete the land audit process by the 31st September 2019.

District Policy Alignment

An assessment of the proposals contained in the District Municipality Spatial Development Framework plans was carried out in order to ascertain the nature of district spatial policy, areas of potential, key development issues, the alignment between districts and the nature of spatial structuring elements being used for land use management and development management.

OR Tambo District Municipality Spatial Development Framework (2018)

The SDF identified several key development issues for the district including:

- 1. Improved access and linkages in terms of the main modes of transport is critical for ensuring tourist access and access for the movement of produced and processed goods;
- 2. The 148 km of coastline is one of the most scenic and undisturbed and can be regarded as some of the prime assets of the District;
- 3. Urban centres are all located on main transport routes with Mthatha situated centrally at the intersection of a number of routes;
- 4. Informal coastal issues are noted and the legal process to deal with and such developments have been slow, visible action is required;
- 5. Housing demand is clearly an urban/peri-urban based issue;
- 6. Population concentration is the western part of the district is the highest;
- 7. Extremely high unemployment rate;

SPATIAL VISION

The Spatial Vision aims to guide spatial development within the Municipal and provide the Municipality with a direction for its spatial growth. The following vision was developed as a spatial vision as part of the Spatial development Framework process:-

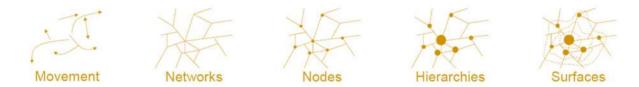

"By 2035, the Nyandeni Local Municipality will be developed as a self-sustaining municipality that promotes quality human settlements, sustainable environments and ecosystems and the livelihoods of its residents, through effective service delivery and infrastructure development."

3.3 Nyandeni Development Nodes

In order to plan efficiently, there needs to be a focus on investing resources in areas of opportunity in order to create maximum impact, there needs to be certain structuring elements to give guidance to develop and spatial planning. For the Nyandeni's Municipality Spatial Development Framework there are four Spatial Structuring Elements that can guide spatial development and decision-making in the town and these elements include: -

- 1. Nodes,
- 2. Corridors
- 3. Urban Edge,
- 4. Settlement Edges

Nodes' are generally described as *"areas of mixed use development, usually having a higher intensity of activities involving retail, transportation, office, industry and residential land uses."*

These are the places where most interaction takes place between people and organisations, enabling most efficient transactions and exchange of goods and services. Nodes are usually located at interchanges to provide maximum access and usually act as catalysts for new growth and development.

Nodes are those places where people and transportation routes congregate. The goal of the municipality is to have a "compact, transit-orientated, pedestrian-friendly area where high concentrations of residential, employment, retail and other uses" are located. Nodes area generally located where two or more transit routes intersect.

Major nodes area places where there is a perceived area of continuous activity surrounded by a building density that supports it, whereas minor nodes are areas where activity and density are anticipated to increase over time

The table below provides a summary of the nodal regions within the Nyandeni Municipality which is aligned to the Provincial and District SDF:-

	Primary Node	Secondary Node	Tertiary Node	Rural Service Centre	Tourism/ Coastal Node	Future Metro Region
Libode	1.					2.
Ngqeleni	3.					
Ntlaza Junction		4.				
Corona			1.			
Canzibe		1.				
Nyandeni				2.		
Kop Shop				3.		
Marubeni			4.			
Ngongweni				5.		
Entshiuni Junction				1.		
Mthatha Mouth					2.	
Coffee Bay					3.	
Presley Bay					4.	
Lwandile					5.	
Hluleka					6.	

3.4 Development Corridors

A "Development Corridor" *is normally used to symbolise the area where important economic activities are to be encouraged along a particular transport route*. There is often difficulty in stakeholder perceptions regarding the term 'corridor' and the purpose of such planning tool. It is proposed that the use of the term 'transport route' be adopted in future because it places emphasis on the transportation activity, which is critical for economic clusters to grow in both urban and rural environments;

The types of corridors have been identified within the municipality:-

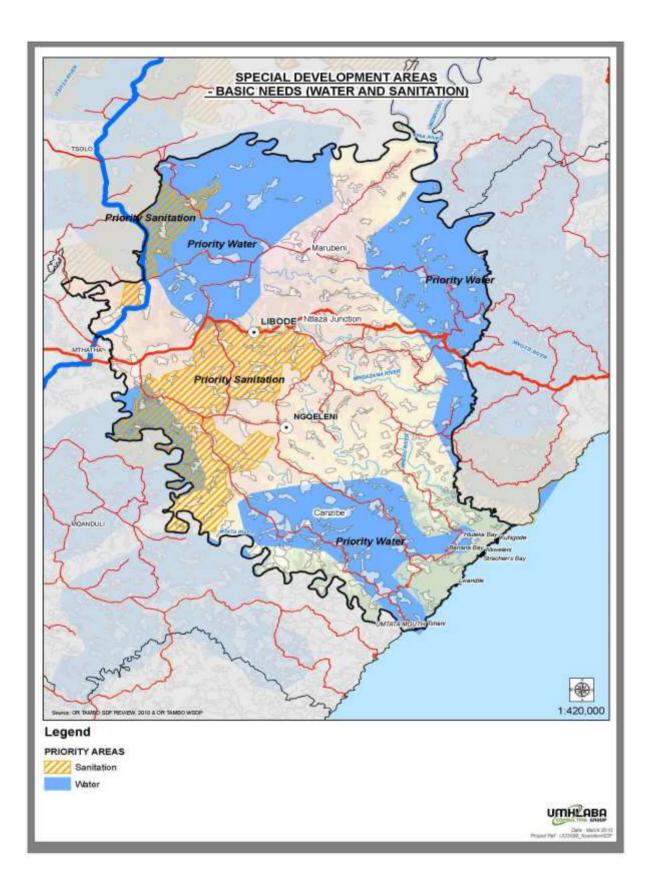

1. Primary Corridor

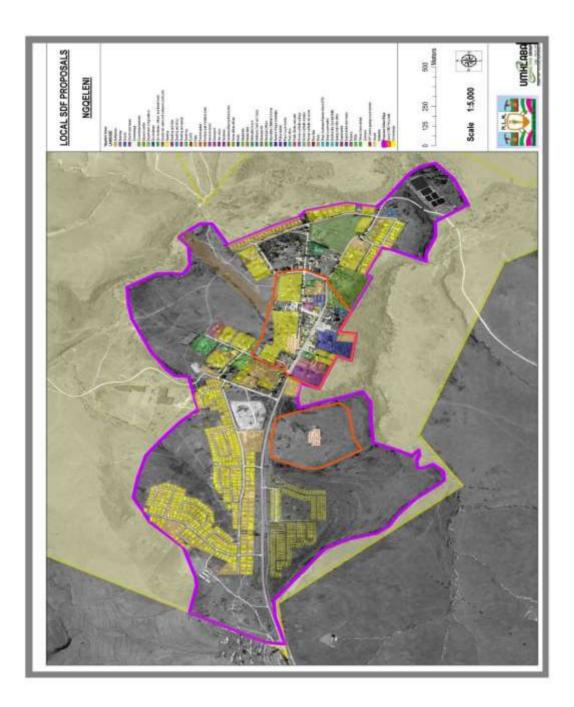

- 2. Secondary Corridor
- 3. Tertiary Corridor
- 4. Tourism Corridor

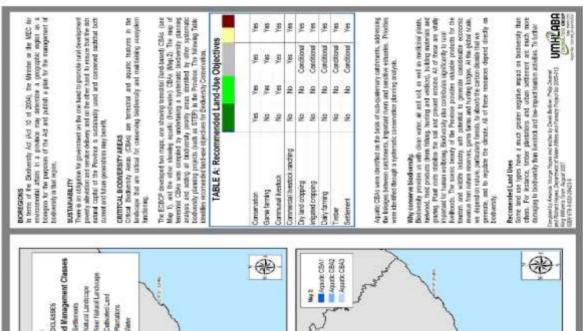

What is important to understand, is that the corridor needs not take the form of a continuous integrated band of activity. At points of highest access along the central spine, development will be more intense and of a higher order while at locations of lower access, lower intensity development or even part of a natural open space network may be found.

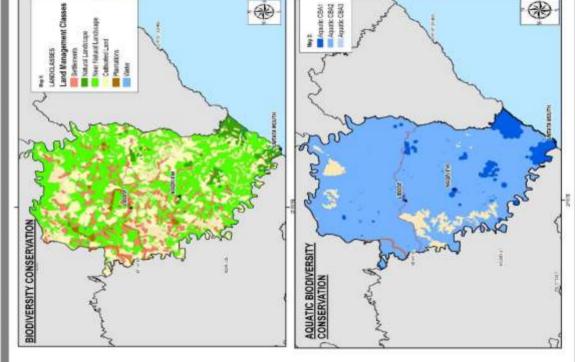

Corridor Type	Route Name
Primary Corridor	East – West Corridor (R61/ Proposed N2 Toll Route)
Economic Corridor	North - South Corridor (N2)
	North – South Linkage (Nyandeni to Ngqeleni)
Secondary Corridor	West – East Linkage (Nyandeni to Marubeni)
Development Corridor	North – South-East Linkage (Corona to Kop Shop)
	East – West Linkage (Ngqeleni to Kop Shop)
Tertiary Corridor	North -South Linkage (Kop Shop to Entshiuni Junction)
Linkage Corridor	North – South Linkage (Ngqeleni to Wild Coast Meander
Tourism Corridor	East – West Corridor (Wild Coast Meander)

SPATIAL DEVELOPMENT FRAMEWORK IMPLEMENTATON

Ngqeleni Nodal Precinct identifies the following development priorities

- 1. Construction of a Tourism Information Centre to cater for the needs of tourist travelling through the town
- 2. Tourism Sector Plans
- 3. Resources (Skilled Professional)
- 4. Preparation of Business Plans
- 5. Detail Urban design guidelines
- 6. Tourism and Direction Signage
- 7. Redevelopment of Taxi Rank with facilities
- 8. Upgrading of water supply

Development Priorities – Mthatha Mouth/Mdumbi

- 1. Detail Urban design guidelines
- 2. Application for funding for township establishment
- 3. Tourism and Direction Signage
- 4. Marketing and investment opportunities
- 5. Upgrading of the main access road
- 6. Upgrading of water supply
- 7. Upgrading of sanitation
- 8. Development of Hotel/Lodge
- 9. Development of Caravan Park'
- 10. Development of two resort areas

Development Priorities – Lwandile/Presley Bay Node

- 1. Upgrading of the main access road
- 2. Tourism signage and marketing
- 3. Township Establishment
- 4. Upgrade of water supply
- 5. Upgrade of sanitation
- 6. Development of Hotel/lodge
- 7. Development of two resort area
- 8. Development of Caravan Park

	STRENGTHS		WEAKNESSES	OPF	PORTUNITIES		THREATS
1.	Ntlaza Junction situated at a transport interchange.	1.	High dependency rate on the local government sector. Low levels of employment and income, which results in limited buying power.	1.	Densification of residential areas is encouraged.	1.	Predominant residential component, instead of a more business orientated centre.
1.	Libode regarded as the economic hub of Nyandeni Local Municipality.	1.	No legislation in place to control development.	1.	Ntlaza Junction prioritized for education facilities, primary health care facilities, businesses and other social facilities.	1.	No projects to upgrade roads and stormwater in Libode.
1.	Vacant land within the town of Libode is available for development.	1.	Infrastructure backlog.	1.	Road access to and from Ntlaza Junction prioritized for maintenance.	1.	Water shortages in Libode, particularly in dry seasons.
1.	Favourably located on R61 en- route to the National N2 Road and the coast.	1.	Existing gravel roads, with no formal stormwater infrastructure.	1.	R61 identified as a 'Primary Activity Corridor' with the potential of being developed as a 'development corridor'.	1.	Illegal dumping of refuse by the Municipality at the unlicensed waste disposal site.
1.	Proposal by SANRAL to upgrade interchanges along the R61 into Libode.	1.	Water demand is higher than the existing supply of water in Libode.	1.	Relatively high youthful population which reduces the dependency ratio.	1.	No formal taxi embayments along the R61 at Ntlaza Junction.
1.	Proposal to construct a Waste Water Treatments Works for Libode.	1.	No formalised waterborne sewerage infrastructure.	1.	Opportunity to provide land tenure to those settled	1.	Rainwater tanks are main supply of water at

	1.	Poor sanitation services may cause water pollution.	at Ntlaza Junction.	Ntlaza Junction.
Electricity supplied by Eskom and is currently being upgraded to increase the supply.	1.	Little opportunities for employment poses a threat to development.	 Opportunity to prevent haphazard development at Ntlaza Junction. 	1. Non-existent refuse removal service at Ntlaza Junction, which is an environmental hazard.

INFRASTRUCTURE FRAMEWORK

1. Upgrading of the R61

- 1. Interchange at the eastern access road into Libode
- 2. Overpass at the currently closed off access near the NLM offices, including pedestrian ramps and public transport bays
- 3. Relocation of the western intersection to Libode with the introduction of auxiliary turning lanes
- 4. Pedestrian bridge at the school along the R61- Libode
- 5. Central median island along the R61- Ntlaza junction
- 6. The introduction of a roundabout at the hospital with the relocation of the access to the hospital off the side road at Ntlaza junction
- 7. The formalization and redevelopment of the public transport facilities along the R61 in the vicinity of the Ntlaza junction
- 8. Rationalization of intersections at the Ntlaza junction

Public Transport Facility in Libode

- 1. Surfacing and demarcation of the rank
- 2. Formalization of the informal trading areas
- 3. Provision of adequate shelters for both informal traders and commuters
- 4. Dedicated wash bays
- 5. Ablution and office facilities
- 6. Adequate municipal services such as water, sewerage, electricity, refuse removal, etc

BASIC SERVICE DELIVERY AND INFRASTRUCTURE DEVELOPMENT

INFRASTRUCTURE SERVICES DRAFT SITUATIONAL ANALYSIS 2022 2023

INTRODUCTION

Infrastructure Development & Services (IDS) Directorate has 2 units namely;

- Project Management Unit (PMU)
- Roads Maintenance Unit (RMU).

FUNCTION	DEFINITION	RESPONSIBLE UNIT
Municipal Roads	Construction & maintenance of municipal roads which includes; access roads, internal streets & non-motorized walk ways in build-up areas.	PMU & PMU
Storm water	Provision & management of systems to deal with storm water in built-up areas	PMU & RMU
Municipal Public Transport	Provision of infrastructure e.g Transport Facilities	PMU
Household Electrification	To provide electricity to households and for matters connected therewith	PMU
Street lighting	Provision and maintenance of street lighting and high masts	RMU
Municipal Public Works	Provision of communities facilities other than schools and clinics	PMU
Occupational Health & Safety	Monitor Compliance of Health and Safety Environment amongst infrastructure projects	PMU
Institutional Social Development (ISD)	Coordinate social facilitation and community participation in the implementation of all infrastructure projects	PMU

EPWP	Coordinate and institute EPWP as provided in the	PMU
	EPWP National framework.	

1. PROJECT MANAGEMENT UNIT

PMU is responsible for the implementation of capital infrastructure projects using different grants, coordination of Expanded Public Works Program (**EPWP**), Institutional Social Development **(ISD**) and Occupational, Health & Safety (**OHS**). PMU is capacitated in terms of the following personnel

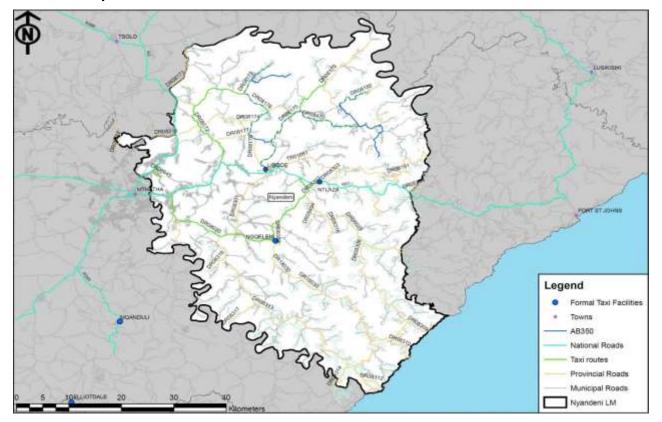

- 1x PMU Manager,
- 2x PMU Technicians,
- 1 x Electrical Technician,
- 1x ISD officer
- 1x ISD Clerk
- 1x Financial Accountant.

Nyandeni Local Municipality (NLM) is a rural Municipality that entirely relies on conditional grants in order to deliver services to its communities. NLM is receiving MIG, INEP & EPWP for implementing infrastructure capital projects such as construction of roads & storm water, public community facilities, sport facilities, LED facilities, household electrification etc.

These grants are received through the establishment of PMU sub directorate which is working under a three-year capital plan that is abstracted from the IDP of which its budget is also reflected in the IDP (*See project list of the three-year Capital Plan*). It is important to note that the municipality has been achieving 100% in the expenditure of all grants for the past two Financial Years, as a result the Municipality has received additional funding of 15M from COGTA to be spent on MIG projects towards the end of 2020/2021 Financial Year. The Municipality spent 100% of that amount by end of the said year.

An Infrastructure Master Plan (IMP) was developed around 2015 clearly analyzing the existing infrastructure per village in each ward and recommendation of manual designs for infrastructure maintenance. There is also Capital Infrastructure Implementation Policy for the implementation of all capital projects which is reviewed annually.

It has been discovered that NLM spend much of the municipal funds on maintenance and rehabilitation of the gravel roads as most of our roads get damaged during rain seasons due to the bad terrain. NLM Council decided to implement low volume surfaced roads which are more durable than gravel roads. The cost for constructing low volume surfaced roads is high and limit the number of km.

Public Transport Routes and Facilities

There is still need for the review Local Integrated Transport Plan (LITP) and align with OR Tambo Integrated Transport Plan (ITP). NLM registered transport facilities NLM and one is ready for implementation Marubeni Transport Facilities. NLM has not focus only on road network; they also look implement other projects that has potential to boost the economy of Nyandeni. These project include:

- Construction of both Libode and Ngqeleni Transport hubs.
- Construction of Ngqeleni new Municipal offices.
- Construction 4 Community hall at ward 28, 3, 6 and 17.

The information is being shared in various ways such as attending Economic & Infrastructure IGR forum which is reporting to the Institutional IGR forum.

Key Projects in the Project Implementation Plan 2022/2023 Financial

PROJECT NAME	WARD	PROJECT STATUS IN 2022/2023 -2023/2024
Sofia Low Volume Surfaced Access Road		Retention
Dontsa to Mangwaneni Low Volume Surfaced Access Road		Retention
Langakazi Low Volume Surfaced Access Road		Retention
Ntshazini to Ncanzibe Low Volume Surfaced Access Road		Construction
Tholeni Low Volume Surfaced Access Roads		Construction
Mdini to Mcwili Access Road		Construction
Mbange Access Road		Construction
Biduza to Sundwana Access Road		To commence

		To commence

SWOT ANALYSIS

		STRENGTHS	WEAKNESSES
ROADS		 Projects are completed on time, on budget and on Schedule. Good expenditure on conditional grants. Good participation of all communities involved on the current projects and relevant stakeholders 	 Poor performance of hired service providers. Limited budget. Bad terrain High cost for low volume surfaced roads
	OPPORTUNITIES	Strengths- Opportunity strategy (SO)	Weakness – Opportunity strategy (WO)
	 Economic growth Enhanced rural development Enhanced community safety 	 Capitalize on low volume roads that will in turn attract investors To spend conditional grant in right projects in order to enhance rural development. Involvement from public safety may enhance community safety. 	 qualified personae. To source more investors to fund our projects. Involve experienced consultants
	THREATS	Strengths- Threats Strategy (ST)	Weakness Threats Strategy (WT)

 New demand of internal roads. Communities selling borrow pit material. Community unrests Mpindweni Access Road Subpoena from SAHRC 	 Completion of all main access roads so there will be focus on new demand of internal roads. Negotiations between municipality authorities and the communities for community not to sell material that will also benefit them. Having good participating of community would reduce community unrests. There is Stormwater Plan in place. 	 To start planning for new internal roads. Ensure that the communities are aware of municipality budget constraints. Make the communities aware that the gravel terrain are not durable as material can be easily washed away during rainy days. Limited budget to attend to Stormwater
Flooding		

ELECTRICITY

NLM is not a licensed distributor of electricity; ESKOM is the licensed distributor of electricity in the whole area of NLM. There is an ambition for the Municipality to become a licensed distributor for urban areas so as to increase municipal revenue.

NLM is receiving Integrated National Electrification Programme (INEP) grant under Schedule 5 of Division of Revenue Act for household electrification. There are four electrification projects that are being implemented by NLM for 2021/22 financial year (Mafini Hiltop (Ward 16), Mnyameni- Njimaza (Ward 19). Mandileni – Ludaka (Ward 17) and Nkanunu A/A (Ward 20).

According to the records NLM has completed electrifying the historical backlog and is now busy electrifying new villages and extensions. The estimated number of backlogs is 8992 h/h, in this number 3380h/h is under Eskom area and 4175h/h under Nyandeni area.

These backlogs were requested from the ward councilors. The inaccuracy of backlogs information supplied by the ward councilors and communities causes NLM to be unable to request funding and report household numbers correctly to DMRE & Eskom.

It also limit the municipality to accurately budget, report and request funding from DMRE for the next financial years however an accurate customer base will be collected from site (Pre-Marketing). This project is targeted to be completed before the end of this financial year.

Pre-Marketing enables the municipality to request informed funding from DMRE, simultaneously check availability of supply with the supply authority (Eskom), and roll out preengineering tasks for construction in outer financial years.

When Pre-Marketing Study is completed the information will be captured by utilizing Trimble Juno 5B handheld devices. The customers will be separated into connection types so at a higher level the municipality will have an indication of the costs up front prior to pre-engineering.

The customer types will be allocated as follows:

- Type 1: Infill connection (Connection to existing LV infrastructure \ Pole Box utilizing -Airdac)
- 2. Type 2A: Extension Connection (Extension of LV infrastructure and house connection)
- 3. Type 2B: Extension Connection (Upgrade of existing Transformer, extension of LV infrastructure and house connection)
- 4. Type 3: New Connection (New SI Connection requiring a new transformer, MV infrastructure, LV infrastructure and house connection).

Ward	Village Name	No. of H/H
5	Bomvini	205
5	Gebane	145
6	Cibeni	70
6	Mngazi	96
6	Ntsonyini	135
6	Mgwenyane to Ntsonyini MV Line	6km

26	Ntsilini – Zixambuzi	184
28	Sidanda	110
28	Sizindeni	110
Various	Nyandeni Rural Electrification Projects Infill	300
	TOTAL	1598 & 6km

List of Villages for household electrification 2022/2023fy in the business plan

Solar Panels: Due to availability of informal settlement houses in the municipality especial in Libode, the non-grid electrification has been applied for to the Department of Mineral Resources and Energy to supply the Solar panel, as it will take some time to build or construct the required infrastructure to electrify these informal settlements in Libode. Nyandeni Local Municipality became one of the municipalities in the Eastern Cape to provide the communities with the Solar System (non-grid electrification).

COMMUNITY STREET LIGHTING

Nyandeni Local Municipality is responsible for community street lighting to ensure safety to communities. The existing infrastructure street lights in towns owned by ESKOM. The Municipality only installed street lights on existing ESKOM infrastructure. Eskom supply bundled air deck cable from the transformer to kiosks and straight to the consumer. This result into poor maintenance of network and safety measures are not taken into consideration Municipality is maintaining the existing street lights and install additional where necessary. Both towns are still in need of major streetlight refurbishment..

There are number of High Mast around settlements and there is still number of communities requesting high mast due to high rate of crime.

HOUSEHOLD	STRENGTHS	WEAKNESSES
ELECTRICFICATION	• Electrification project performing	Reliance on grant
	well	Scattered settlement patterns
	Good expenditure on conditional	• Paying of retentions in the current

	maintenance	motorist
	Adequate street lights	

	 Immediate availability of material for Street light and high mast light maintenance. Limited Personnel
OPPORTUNITIES	THREATS
Underground cabling	High ESKOM bills
 Alternative energy for street lights and high mast (Using Solar Generated Lights) Re-Allocate street light from closer to the road in Ngqeleni Town 	Effect of climate change

INSTITUTIONAL AND SOCIAL DEVELOPMENT (ISD)

As indicated above ISD section is a subunit under PMU. ISD section has been developed to advance community participation in the delivery of infrastructure services and to promote community participation in development programmes in order to ensure that they are sustainable projects.

Experience has shown that projects are rushed to ensure that expenditure is made and this compromises the quality of the project. Social facilitation, which is key to quality projects, is unfortunately often seen as a waste of time. It is important to put ISD in the centre of development, to ensure that government funds are used effectively and create value for money. It has been noticed that not involving communities in all phases of the project cycle can lead to negative impacts such as:

- Unsustainable projects
- Poor quality of services delivered
- Projects that are not wanted or needed
- Disempowered communities
- Vandalism of infrastructure

NLM has ISD Policy and is reviewed annually, NLM is encouraging communities to be the centre of their own development. Therefore, it is important to consider them at the heart of project implementation. ISD unit always ensures that communities know about the ins and outs of a project; community structures are established; meetings are held with communities and their decisions taken into consideration; communities are informed of progress of projects; employment is managed properly in order to benefit local communities.

The use of borrow pit or mining resources is still a problem with regards to project implementation phase in the project life cycle. The Village Authorities (Chiefs & Headman's) are still not eager to release the quarry without Contractor paying certain fee to them. During consultation meetings officials do make them aware of the fact that municipality does not pay for the quarry. Therefore, Municipality still needs to intervene on that as this is one of the factors that cause delays in the project.

SWOT ANALYSIS

	STRENGTHS	WEAKNESSES		
COMMUNITY INVOLVEMENT (PSC)	 Commitment and visibility of PSC on the project especially on social issues. 	 Involvement of employed people on the project to be PSC members. They're always not there to assist when there are issues to be attended to because they are still at their workplaces. 		
LABOUR	More work opportunities	Criteria of recruiting the		
EMPLOYMENT	created during project implementation	labour and issue of rotation still an issue.		
BORROWPIT	Traditional Leadership is	• Traditional Authorities tend		
	part of the Municipal Council	to overrule on the issue of borrow pit		
COMMUNITY	OPPORTUNITIES	THREATS		
COMMUNITY INVOLVEMENT (PSC)	OPPORTUNITIES • Municipality have people on the ground to rely on their absence when there are issues.	THREATS • Non active members of PSC which causes gap (Employed members)		

BORROWPIT	Community riots and project						
	• Municipality will be able to	delays due to issue of borrow pit.					
	save if not paying for borrow pit						

OCCUPATIONAL HEALTH & SAFETY

NLM has a full time Construction Health and Safety and safety officer responsible for contractor's health and safety compliance to all running projects.

		compliance.
		Community unrests

EXPANDED PUBLIC WORKS PROGRAM (EPWP)

NLM is receiving EPWP Grant, the purpose of the grant is to co-ordinate and institute EPWP as provided in the EPWP National framework. Due to insufficient funds the municipality is implementing only two projects under incentive grant, **Paving Sidewalks & Siyacoca (solid waste).** The only sector that is not funded under this programme as per EPWP guidelines is social which is budgeted under equitable share.

The number beneficiaries that benefited in 2021/2022 financial year is 110 beneficiaries. The new daily rate for general workers and skilled labour is R180 and R210 respectively. Programme duration as compared to previous years has been reduced as a result of increased daily rates.

NLM The total surfaced road network for Nyandeni local Municipality with Libode and Ngqeleni Town is 7.2km and sidewalks have been constructed for the entire length. We intend to construct for another 7.2km but on the other side or the road.

There are projects registered & approved on MIG MIS for non-motorized paths, NLM is in discussion with Department of Public works (DPW) for implementation of VUK'UPHILE Program as to train local SMMEs.

Currently NLM do not have transport for the programme for moving materials from premises to site. EPWP unit intend to budget for 4 Ton drop side truck in coming financial of 2022/2023.

ROAD MAINTENANCE UNIT SITUATIONAL ANALYSIS 2021-2022

Road Maintenance Unit have three sub Sections:

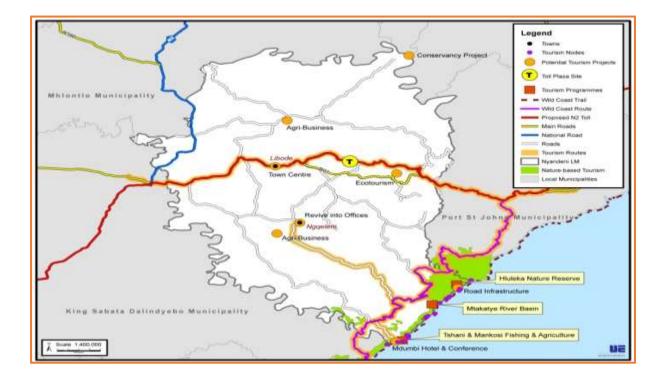

- Roads and Storm water
- Mechanical
- Community Street Lights

ROADS AND STORM WATER

Rural Road Asset Management System (RRAMS) indicates that the total length of Access Road for Nyandeni Municipal area of jurisdiction is 1 603.5km .The total length of surfaced roads is 15 km as per the municipal base line, the total length for National Roads is 19.93 km, and total length for Provincial Roads is 569.51km

ROAD CLASSIFICATION								
Category	Surfaced (km)	Unsurfaced (km)	Total (km)					
National Roads	19.93	-	19.93					
Provincial Roads	79.54	589.77	569.51					
Municipal Roads	7.22	1603.49	1610.71					
Total	106.69	2093.4	2200.15					

RRAMS indicated that Nyandeni Local Municipality has a huge roads backlog especially on Class 4, 5 and 6, which is the Public Municipal Roads and Non-motorized Access Ways. The total km for municipal roads class 5 is 1 603.5km, which is 90% of Class 5, are backlogs.

Maintenance unit is depend on the Equitable Share in order to deliver services to its communities to maintained 32 Wards using Roads Maintenance Plan that is abstracted from the IDP. The Roads Maintenance is capacitated in terms of personnel as follows:

- 1x RMU Manager,
- 1x Roads Technician,
- 1x Electrical Technician,
- 1x Mechanical Technician,
- 1x Foreman
- 1x Site Agent,
- 1X Electrical Artisan,
- 1x Mechanic Artisan,
- 1x Admin Plant,
- 15x Plant Operators and
- 2 x General Assistance

Rehabilitation Programmes is implementing about 43.5km per financial and Implemented through the method of outsourced rehabilitation project to contractors through the panel of plant hire service provider for the period of 3 years to assist the rehabilitation project.

The Nyandeni Local Municipality area of jurisdiction comprises of two areas: Inland and the coastal belt. These areas have two notable distinct weather patterns as per seasonal changes especially in the wet season, disrupting transport services and access to health Centres and School some due to bad terrain. They both are in mountainous areas with a relatively high average rainfall. Such indicators were:

- Notable increases in temperatures;
- Notable precipitation on the coastal areas;
- Heavy rainfalls;
- Destructive storms;
- Shorter return period for floods; and
- Between very wet periods, longer dry spells and increased likelihood.

As mentioned above Nyandeni LM is made up of inland and coastal belt, which attracts major tourists. The roads leading to these destinations areas are gravel, which requires heavy maintenance as they are in rainy areas. Due to climate change, most of the rivers along the coast are widening during heavy rains, which results to flooding and erosion.

Heavy rains has affected Nyandeni Local Municipality between November 2021 & January 2022 causing flooding, washed away roads and collapsing of culverts/ bridge structures, which resulted to poor access roads leading to the community amenities. These heavy rains has negatively affected community livelihoods, people are struggling to commute and access economic hubs. These damages resulted in community unrest due to damaged roads, taxi associations are complaining and enforcing road repairs and maintenance.

Immediately after re-opening in January 2022, the Infrastructure Development Directorate received a huge number of complaints regarding roads that were damaged by heavy floods. A decision was made to request all ward councilors to submit their damaged roads. Roads Maintenance Unit officials conducted assessment for all the roads that were reported to verify scope of works required.

The following is a list of all negatively affected roads as reported and assessed:-

List of Disaster Roads – Ngqeleni Wards

Name of roads	Ward Cllr	Ward No.	Site findings	Scope required	Machine type required
1. Ngqeleni to Bantini A/R	Cllr Yehana	21	 Road needs routine maintenance for 3 km. GWC is available on the road. Ruts forming. 	 Wet blading for 3 km Tipping for 1 km Rehabilitation of earthmeter drains & side v-drains 	 10m³ tipper trucks X 3 Excavator X 1 Grader X 1 Grid roller X 1 15 000l water cart X 1
2. Mngazana A/R	Cllr Yehana	21	 Eroded section of the road, 1.5km Protruded stones. MECHANICAL UNIT

Nyandeni Municipality has purchased two full set of roads machines. All machines are operating internally to fast track backlogs. Municipality is undertaking a flexible routine roads maintenance schedule for all access roads. All machines are operational; the in-house machinery perform mainly: Preventative maintenance, Ad hoc maintenance & Routine road maintenance with plant hire reinforcing the machinery deficit to enhance delivery and performance. Patch gravelling, dry blading and wet blading are methodologies used by maintenance team to maintain the infrastructure whilst the outsourced is rehabilitation that contributes to longevity of the roads.

The Municipality is on process to procure service provider that will be responsible for both repairing and maintaining plant so as to fast track repairing processes to avoid delays on service delivery. The plan is appoint mechanical service provider for the period of 3 Years

Existing Nyandeni Local Municipal In-House Plant

TYPE OF	CONDITION	TYPE OF MACHINE	CONDITION
MACHINE			

4X GRADERS	1 Grader is on disposal list 3 Graders are working	3 X EXCAVATORS	 Excavator is small for light earthworks Excavator on Repairs Excavator working When the excavators are idling there is shortage of operators, one operator is not working due to Covid protocols.

2 X DUMP TRUCKS	1 working and 1 on repairs	1 X LOWBED	Working
2 X WATER TRUCKS	Both trucks are working	CHIP SPREADER	Working

SWOT ANALYSIS

ROADS & STORMWATER	STRENGTHS	WEAKNESSES
	• Set of machines for roads	Limited resources:
	maintenance	✓ Funding
	Road maintenance budget	✓ Human resource
	•	Aging infrastructure
		✓ Roads and
		stormwater
		infrastructure
		Backlog in the
		maintenance and
		construction of roads
		and storm water
		 Poor and slow
		response too
		communities

	OPPORTUNITIES	THREATS
Re-habilitation	 OPPORTUNITIES Roads to Tourism destination- Economic growth Sustainable work opportunities Community Skills development STRENGTHS Projects are completed on time within budget Good participation of all communities involved on the current projects and relevant stakeholders. 	 THREATS Limited funding Increasing population and migration leads to increased demand for roads and storm water infrastructure Community unrest WEAKNESSES Lack of capacity/ performance to complete projects by some contractors Shortage of maintenance funds/ limited leading to expensive maintenance effected during rehabilitation stage Bad Terrain
	OPPORTUNITIES Enhanced rural development Enhanced community safety Economic growth 	 THREATS Community unrests Limited funding to address historical backlog Communities/ headmen are selling the borrow pit material

OVERALL KEY CHALLENGES AND POSSIBLE INTERVENTIONS

.

Challenges
Eskom substation is fully loaded to connect more villages in Mafini Substation. This resulted into changing project names and community unrests
Non classified electrification backlogs which limits NLM to applied more funding and to roll out pre-engineering tasks for construction in outer financial years.
EPWP contracts expires before the end of the project Use of EPWP contract workers for repairs and maintenance of surfaced roads is not assisting the municipality
Huge road & Stormwater maintenance backlogs
Dilapidated Stormwater minor structures and bridges
Roads affected by the recent flooding and storms
Turnaround time to repair machine breakdowns

CHAPTER 4: INSTITUTIOANAL TRANSFORMATION AND ORGANISATIONAL DEVELOPMENT

.

The central feature of this chaper is to ensuring that an organization has the right number of people, the right kind of the people, in the right places, at the right time doing things that are economically most useful for the municipality. This is called Human Resource Plan

Location of Departments

Nyandeni Main Municipal Offices are based in Libode approximately 30km from Mthatha, with a Satellite Office based in Ngqeleni town. All departments are located in one central area in Libode (Main Offices). Both the administrative and political seats are based in Libode Town. Council Meetings are held in Libode.

Satellite Office functions

Satellite Office renders the following functions and services

- Revenue management
- Administration and customer care services
- Registering Authority for motor vehicle registration
- Pound management and Cemetery services
- Refuse removal
- Librarty Services

Each function has a Supervisor responsible for management and supervision of day to day monitoring and report directly to the Manager Responsible for each Function.

Expansion of Municipal Offices in Ngqeleni

The municipality has adopted a phase-in approach in expanding Ngeleni Offices this approach is informed by limited resources in funding the project. It will be implemented at scale and pace taking into account affordability and cost. the construction on Ngqeleni Offices is expected to practically completed by 30 June 2020. Ngqeleni Offices allocation plan is currently being developed.

The municipality has also taken a decision to establish Youth Office in Ngqeleni. The office is intended to support youth development programes

Nyandeni Local Municipality is an integral component of Provincial and National Government and consequently has a critical role in the development and execution of local government strategy and strategic objectives. Overall, Nyandeni Local Municipality possesses the competency and capability to translate many of Government's vision and related legislation and policy into a blueprint framework through its Integrated Development Plan document.

4.1 Organisational overview

The institutional capability of Nyandeni Local Municipality is informed by overall organizational functioning, the interventions of management to engage in organizational leadership, development and management of organizational systems and processes to promote effective operations and service delivery through optimum use of resources. It is intended to inform Nyandeni Local Municipality's organizational strategy to enhance service delivery to key customers/stakeholders.

Nyandeni Local Municipality is represented by two components in terms of its organization and service delivery outcomes. These are the political structures represented by the politically elected councilors and the administrative structure represented by the Municipal Manager, the management team and municipality employees.

4.2 Organizational competency status

Nyandeni Local Municipality posses the required competencies amongst staff as well as the required number of staff to perform its core functions. However, there exists an urgent need to redesign the organizational structure to ensure that the appropriate numbers of staff are placed on an organizational structure that is aligned to the organizational strategy and key strategic objectives. There is a need for a significant increase to core local government professionals, management, technical and functional posts as well as the enhancing the levels of competence to enable Nyandeni Local Municipality to develop and enhance the necessary institutional capacity and capability to deliver on its strategic objectives.

4.3 Functions assigned to the municipality that are being performed or not performed

Section 156 of the Constitution1 provides for the powers and functions of municipalities and states that a municipality has executive authority in respect of, and has the right to administer:

- a) the local government matters listed in Part B of Schedule 4 and Part B of Schedule 5; and
- b) Any other matter assigned to it by national or provincial legislation.

As indicated above a municipality may make and administer by-laws for the effective administration of the matters which it has the right to administer.

Specific functions and the way that the responsibilities for these functions are allocated to the 3 different spheres of government are detailed in Schedules 4 and 5 of the constitution. Schedules 4B and 5B identifies those functions allocated to local government.

These Schedules read together with section 84 of the Local Government: Municipal Systems Act provide further for the distinction between those services which can be delivered by district municipalities and those which can be run by the local municipalities.

The Nyandeni Municipality has been allocated powers and functions in terms of the Constitution and the Municipal Structures Act no 117 of 1998. Accordingly, Nyandeni has been granted executive authority over its area of jurisdiction.

Section 85 of the Structures Act provides further that the MEC for local government in a province may, adjust the division of functions and powers between a district and a local municipality as set out in section 84 by allocating, within a prescribed policy framework, any of those functions or powers vested-

- a) in the local municipality, to the district municipality; or
- b) in the district municipality (excluding a function or power referred to in section 84 (1) (a), (b), (c), (d), (l), (o) or (p), to the local municipality.

Provincial Notice No. 23 of 2003 dated 5 May 2003 deals with the adjustment of functions and powers between district and local municipalities in terms of section 85(1) of the Structures Act.

The notice provides as follows:

- 1. that O.R. Tambo District Municipality performs the following local functions in respect of Nyandeni Local Municipality:
- 1. Municipal planning;
- 2. that NLM performs the following district functions in its local area:
 - a. 84(1)(e) Solid waste disposal sites, in so far as it relates to (i) the determination of a waste disposal strategy;

- (ii) the regulation of waste disposal;
- (iii) the establishment, operation and control of waste disposal sites, bulk waste transfer facilities and waste disposal facilities for more than one local municipality in the district
- b. 84(1) (I) the establishment, conduct and control of cemeteries and crematoria serving the area of a major proportion of municipalities in the district.
- c. 84(1) (n) Municipal public works relating to any of the above functions or any other functions assigned to the district municipality.

The table below illustrates the powers and functions that the Nyandeni Local Municipality is authorized to perform in terms of Part B of Schedules 4 and 5 of the Constitution.

Par	t B of Schedule 4	Part	B of Schedule 5
1.	Air pollution	16.	16.Beaches and amusement facilities

4.4 Effectiveness of the legislative function

The administration, as appropriately delegated, has a responsibility to support the Council in exercising its powers and functions, including drafting of by-laws for approval by Council. By laws are developed annually as need arises

4.5 System of delegation within the municipality

Council delegates where appropriate the responsibility to exercise legislative and executive authority to the relevant structures of the municipality. A delegation framework and register has been developed and approved by council on the 30 November 2019 with Council Resolution No. 2660/30/11/2018

4.6 Extent of service delivery by the municipality

Nyandeni Local Municipality is enhancing its service delivery by executing the following:

- Developing a performance culture at all levels of the organization which is able to clearly indicate a tangible influence on the key stakeholders within the municipality's area of jurisdiction in terms of poverty reduction and enhancement of the quality of life through the development and execution of an effective sustainable economic development and a job creation strategy;
- The efficient use of networks and internal human resources through the delivery of outcomes as opposed to engaging in significant planning and talk without outcomes to show for effort;
- Improving governance throughout the organization through controls, accuracy, punctuality, knowledge, professionalism and work ethic;

- •Building a team-based organization that is people-oriented with a strong focus upon *Batho Pele*, with a general respect and a passion to deliver a quality service to all stakeholders. This includes developing a strong collective culture in terms of Nyandeni Local Municipality organizational building;
- •Integrity: ethics, honesty, non-corruptive behavior;
- •Innovation to face challenges and offer new solutions through a high intensity and work ethic;
- •A commitment to its constituents, the majority of whom are poor and unemployed who live within the boundaries of the municipality's area of jurisdiction.

4.7 4.7 Organizational structures, systems, processes and personnel capacity

4.8 Organizational structures, systems, processes and personnel capacity

4.7.1 Organizational Structures

REVIEW AND ADOPTION OF THE ORGANIZATIONAL STRUCTURE

The organizational structure was reviewed and approved by Council on 28 May 2021 with Council Resolution no...2776/28/05/2021

The approved Organizational structure has a total number of **340** positions, **1** post not budgeted for and **317** filled post and **21** vacant posts as at **May 2021**.

The Organizational structure is fully aligned with the IDP which is five year plan (2017-2022) reviewed annually and Vision 2030 which is long term plan and is a key institutional factor that determines the institutional capacity and capability of the municipality in order for it to deliver on its vision, mission and strategic objectives.

Our organizational structure and design has been strongly influenced by the development and optimization of competencies and capability. This will positively impact on the capacity requirements for Nyandeni Local Municipality to deliver on its key outputs. The diagram below shows how the Nyandeni Local Municipality is structured in terms of the different levels of government and the structures within the Municipality.

Nyandeni Local Municipality

Political Structures

- Executive Committee
- 63 Councilors
- 32 Wards

Council Standing Committees

- Infrastructure Development
- Corporate Services
- Budget & Treasury
- Human Settlement and Rural
 Development
- Local Economic Development

Administrative Structures

- Municipal Manager
- Corporate Services
- Budget and Treasury Office
- Community Services
- Planning and Development
- Infrastructure Development

- Community Service and Public
 Safety
- Special Programmes and Social Services
- Municipal Planning, IGR and Research

Political Structures

At the political level, the organization is based upon a strong programme management model and a politically orientated governance approach, combined with competencies in community based engagement, development and stakeholder mobilization. This is complimented by the leadership and executive management structures primarily at a political level. These structures are used to make decisions and inform high level planning for the achievement of desired objectives of Nyandeni Local Municipality.

Section 79 Committees

- Municipal Public Accounts Committee (MPAC)
- Ethics and Members Interest Committee
- Public Participation and Petitions Committee
- Women's Caucus

Statutory Committees

- Performance and Audit Committee
- Risk Management Committee
- ICT Governance Committee
- IDP and Budget Steering Committee
- Financial Misconduct Board
- Audit Committee

Administrative Structures

Nyandeni Local Municipality structure is hierarchical based on functional silos represented by five departments which are supposed to be in aligned to the four core focus areas of the Municipality. The Nyandeni Local Municipality organizational structure is divided into five functional departments as follows:

- Office of the Municipal Manager
- Corporate Services;
- Budget and Treasury Office;
- Community Services;
- Planning and Development; and
- Infrastructure Development

Each Department represents a functional area of work and is further divided into sub-functional components. The five key focus areas attempt to create integration. This integration demands a value chain response from each department in terms of its deliverables.

4.7.2 HR Strategy, Systems, processes and personnel capacity

The following systems, structure and process exist within the Nyandeni Local Municipality:

4.7.2.1 Systems

- Formal budget monitoring and control systems in place. Thus, budget control and management of operating expenditure is enhance;
- Impact assessment and benefits realization from the introduction of financial system; and
- Adequate management information systems and reporting tools.
- HR Plan that is aligned to the organizational goals

4.7.2.2 Local Labour Forum

Local Labour Forum is functional and convenes on a quarterly basis to address labour related issues as well as implementation of Bargaining Council Agreement. It is constituted by Union and Employer representatives. In the last financial it had convened 8 times

Key responsibilities of the Labour

- Conflict moderating Forum
- It serves as a forum for bargaining

OFFICE OF THE MUNICIPAL MANAGER

Office of the Municipal Manager performs the following focus areas

- Legal Services
- Internal Audit
- Council Affairs
- Communication
- Risk Management
- Municipal Planning
- Intergovernmental Relations
- Special Programmes and Social Services
- Public Participation
- Monitoring and Evaluation

COMMUNICATION

The Internal Communication Unit is headed by Manager Communications and is supported by the Communication Officer and Clerk. The unit has played an important role in the branding of the work performed by Nyandeni Local Municipality. The branding is an important vehicle to create awareness about Nyandeni Local

Municipality amongst the communities. In addition, the core function of the Unit is to ensure effective communication to all stakeholders.

Key Functions

- Responsible for developing communications strategy
- Municipal branding
- Media liaison
- Presidential Hotline and complaints management system
- Public Participation

LEGAL SERVICES

This unit provides critical support in the management and administration of legal matters that affects the municipality. It is also responsible for contract management, development, and review of municipal bylaws. Furthermore, the unit is responsible for the development and review of effective systems of delegation

MUNICIPAL BYLAWS

The following By-laws have been reviewed and developed in the current year

- By-law for the Hire and Use of Community Halls, Arts and Culture facilities
- Credit Control and Debt Collection By-Law
- Credit Management By-Law
- Funeral Undertakers By-laws
- By-law relating to Nuisances
- By-Laws relating to the removal of refuse
- Cemetary By-Laws
- Library and Information services By-Laws
- Parking Grounds By-Laws
- Pound By-Laws
- Pubic Spaces By-Laws
- Waste Management By-Laws
- Liquor Trading By-Law
- Undeveloped Sites By-Laws
- Rates By-Law

COUNCIL AFFAIRS

Council Affairs provides administrative support to the Standing Committees, Section 79 Committees, Executive Committee and Council play a pivotal role in ensuring that these structures achieve their mandate.

MUNICIPAL PLANNING

Responsible for coordination of Integrated Development Planning, Annual Budget process plan, Intergovernmental Relations and institutional performance management

4.8 CORPORATE SERVICES

Nyandeni Local Municipality will continue to develop the necessary institutional capacity and organizational culture required to mobilize the workforce towards the necessary performance levels. The Human Resources function is geared up in executing the necessary Human Resources processes, systems and policies that will ensure effective institutional development of Nyandeni Local Municipality. Human Resources Development, transformation, mobilization and the need to create a motivated, competent and effective workforce is the responsibility of all levels of organizational leadership and management.

The support functions of the Corporate Services Department include the following:

- Human Resources Management
- Human Resources Development
- Integrated Employee Wellness (OHS, EAP & HIV/AIDS)
- Employment Equity
- Information Communication Technology
- Records Management
- Facilities Management
- Customer Care

The Corporate Services Department is also responsible for Support Services Function which range from Switchboard Services, Office Accommodation, facilities management; office automation and Registry/Archives Management. The Support Services Function is in a position to support with the necessary levels of capacity, competence, technology and resources.

Work Place Skills Plan

The WSP is prepared and submitted to Local Government SETA on an annual basis The municipality needs to create a skilled workforce to ensure a sustainable economic development and redress the pool of unskilled workers.

The municipality seek to ensure that as many staff members as possible from the officer level at BTO to top management level for all departments obtain the Municipal Minimum Competency Training which is required in terms MFMA section 83,107 and 119- Gazette 29967 of 15 June 2007.

Skills development of employees, Councillors is one of the NLM's priorities. NLM annually develops WSP which sets out training needs for staff, Councillors as well as unemployed. WSP is submitted annually on or before 30/04'

HRD programmes such as learnerships, in-service training, internship, skills programmes and bursaries initiated.

Employment Equity Plan

The municipality developed a new Employment Equity starting from the 01 July 2021 – 30 June 2024 plan which was presented to the committee and submitted to the Acting Municipal Manager for approval.

Employment equity plan in line with the Employment Equity Policy reviewed without changes and adopted by Council on May 2021

Department of Employment and Labour conducted a DG Review in 2019 of the EE Plan as per Sec 44 of the Employment Equity Act. Our EE plan was approved to have complied with the provision of the Act, as a result the Employment Equity Plan for the period of 01 October 2019-30 September 2021 was approved.

The Department of Employment and Labour had recommended that the municipality should focus on gender and race equity on occupational levels. Employment Equity Plan is in place and implemented. Employment Equity Report is submitted online to the Department of Labour annually.

Workforce profile snapshot date 01/06/2021

,

Occupational Levels		М	ale		Female			Foreign Nationals		Total		
	Α	С	I	w	А	С	Ι	w	Male	Female		
Top management	0	0	0	0	1	0	0	0	0	0	1	
Senior management	5	0	0	0	1	0	0	0	0	0	6	
Professionally qualified and experienced specialists and mid- management	10	0	0	0	6	0	0	0	0	0	16	
Skilled technical and academically qualified workers, junior management, supervisors, foremen, and superintendents	40	0	0	0	22	0	0	0	0	0	62	
Semi-skilled and discretionary decision making	85	0	0	0	71	1	0	0	0	0	157	
Unskilled and defined decision making	33	0	0	0	42	0	0	0	0	0	75	
TOTAL PERMANENT	173	0	0	0	143	1	0	0	0	0	317	
GRAND TOTAL	173	0	0	0	143	1	0	0	0	0	317	

The Skills Development and Employment Equity Committee has been established and convene quarterly. In terms of the Eastern Cape Socio Economic Consultative Council (ECSECC) Demographics 2011 (Race), it shows a high percentage of Africans (98.86%) and low percentages of Whites (0.57%), Coloureds (0.48%) and Indians (0.09%). Currently the workforce is made up of Africans at 99.64%. The Nyandeni Employment Equity Plan caters for other races but they do not apply which is why they are not represented.

This therefore means that the Municipality still needs to appoint more Black Females and Coloureds.

The number of female employees in the workforce profile shows a low percentage of

44 % compared to that one of male employees which shows 56%. The workforce of Nyandeni Municipality is dominated by males. In terms of ECSECC Demographics 2011 (Gender) Females dominates at 52.50% and Males are at 47.50%. There is still a need to appoint more female employees in order to reach 52.50%. The Employment Equity Plan must address this need in the vacant posts that still need to be filled.

According the latest report, the council should pay specific attention to race and gender

JOB EVALUATION PROCESS

- Job evaluation is the process of assessing Skills ,Knowledge, Experience and Influence required in performing duties in the municipality using the TASK system with the aim of developing fair basis for making pay decisions.
- All posts in the organogram have job descriptions. The municipality is part of the O.R. Tambo District Job Evaluation Unit that is responsible for the evaluation of all Job Descriptions. Planning process for the implementation of job evaluation will be informed by Job evaluation outcomes.

PERFORMANCE MANAGEMENT SYSTEM, MONITORING AND EVALUTION

Performance Management Policy and Procedure Manual

Performance Management Policy has been reviewed the changes and it was approved by Council in the May 2021

Annual Performance Agreements

The Municipal Manager and 6 Senior Managers have signed Performance Agreements for 2020/2021 financial year.

Annual Performance Assessments

Individual performance management assessment is currently implemented at top management Level. Middle management employees have signed work plans for the 2021-22 financial year

The performance assessment reviews for the Municipal Manager and Senior Managers for 2019/2020 were conducted on the 28 July 2021.

The Mid - year individual assessment reviews for the Municipal Manager and Senior Managers are conducted annually.

Quarterly Performance Assessments are conducted to review the work done against the pre-determined objectives and targets. All compliance reports are submitted on time to relevant authorities, these reports includes MFMA S52 (d) reports, s71, s 72 and s121 reports

Government in its Policy Framework for Government-Wide Monitoring and Evaluation System notes that the government major challenge is to become more effective therefore, M & E processes can assist the public sector in evaluating its performance and identifying the factors, which contribute to its service delivery outcome.

The monitoring involves collecting, analysis, and reporting data on inputs, activities, outputs, outcomes and impacts as well as external factors, in a way that supports effective management. But most critically, the monitoring aims to provide managers, decision makers and other stakeholders with regular feedback on progress in implementation and results and early indicators of problems that need to be corrected. It usually reports on actual performance against what was planned or expected.

In accordance with the above framework, the municipality has established Monitoring and Evaluation Unit in the Office of the Municipal Manager. The unit is charged with the responsibility to track progress in the implementation of the approved SDBIP, identify deviation and suggest corrective measures. The unit will go a long way in ensuring that in year monitoring is effective

EMPLOYEE HEALTH AND WELLNESS

Employee Assistant Program deals with life skill empowerment, change management, substance abuse, disability and incapacity. The municipality complies with the requirements of Occupational Health and Safety, Compensation of Occupational Injuries Disease Acts to provide health and safety to employees, Councilors and customers.

Key programmes includes, health screenings, observations of national health days, and awareness campaigns on health. The municipality has establishes a Wellness Advisory Committee which is comprised of members from different departments within the Municipality.

The municipality submits Return of Earnings online annually on or before 31 May

HIV/AIDS IN THE WORKPLACE

Awareness raising done though World AIDS Day commemoration, candle light memorials, workplace educational sessions, aerobics and sport. This is used as a marketing tool for the programme with the goal of involving all NLM employees.

HUMAN RESOURCES PLANNING

The Human Resource Plan has been reviewed and adopted by Council on 30 May 2019 with Council Resolution No. 2695/30/5/2019, it is a five year plan aligned with the IDP Strategic Goals and reviewed annually Human Resource (HR) planning is the process of ensuring that an organization has the right number of people, the right kind of the people, in the right places, at the right time doing things that are economically most useful for the municipality.

The HR Plan also deals with demands such as those posed by the implementation of the Skills Development Act, other Labour Legislations including programmes and policies related to the HIV and AIDS epidemic. At the forefront of the implementation plan it will be the departmental managers and human resource personnel that must provide professional support and development of personnel in this municipality.

Nyandeni Local Municipality has developed this HR plan in order to plan and align its human capital with strategic organizational goals as outlined in the 5 – year Integrated Development Plan. The following approach has been used:-

The main objectives of the plan are-

- To ensure appropriate utilization of available personnel;
- To attract and retain scarce skills;
- To standardize HR procedures to be followed when an employee exit the municipality;
- To ensure that all employees and unemployed have the required competency levels
- To create an Environment that promotes employee health and wellbeing

Approach and methodology

The following approach has been used:-

- Overview of the municipality and its strategic direction;
- Scanning of both internal and external environments in as far as they affect human resource provisioning;

- Profiling of the current workforce;
- Identification of gaps in all our HR functions; and
- Development of an action plan to close the identified gaps

In accordance with the municipal development strategy and priorities for the next five years and the development trajectory which is aligned with National and Provincial Development Plans, Vision 2030 the following critical skills have been identified and have been included in the Human Resource Plan approved by Council n 30 May 2019

- 1. Urban & Regional Planner
- 2. Civil Engineering Technologist
- 3. Construction Project Manager
- 4. Architectural professional
- 5. Mechanical Engineering
- 6. Horticulture
- 7. Health & Safety Compliance Risk Officer
- 8. Civil Engineering Technician
- 9. Chief Information Officer
- 10. GIS Specialist
- 11. Environmental Specialist
- 12. Building Technician Supervisor
- 13. Economics

14. Developmental Planning

SUCCESSION PLANNING

,

Succession planning policy is in place, its purpose is to provide a step by step of compiling a succession plan document. Reasons for having a succession plan are to ensure the continuity of suitably trained staff in key positions for the future.

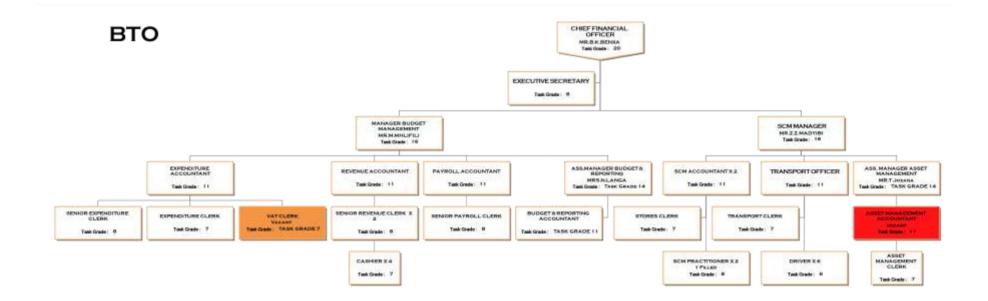

To ensure that someone is always available to fulfill any particular job in the municipal service and ensure that more than one employee in each department is able to do any particular job. As part of succession planning strategic officials who are holding key positions have been trained on CPMD, furthermore, bursaries are being provided particularly on critical skills. The Human Resource Plan indicates when key posts would affected in terms of expiry of contracts and what plan is in place to address the risk.

CODE OF CONDUCT FOR COUNCILLORS AND MUNICIPAL OFFICIALS

`

All Councillors and municipal officials sign code of conduct when they join the municipality. Annually declaration of interest and disclosure forms are signed by both officials and councillors, Annually the Office of the Auditor General conducted audit on whether councillors or municipal officials and/or relatives have conducted business with the municipality, the outcome of the audit forms part of the annual audit report and made public.

INFORMATION COMMUNICATION TECHNOLOGY

The unit is responsible for the planning and maintenance of ICT infrastructure in accordance with the required standards of good governance and maintenance of the municipal website to ensure that municipal activities are communicated both internally and externally, end user support and coordination of the ICT Governance Committee. The unit has rolled out a data network and voice network which connects the three main sites in Libode and Ngqeleni using the current technology.

ICT GOVERNANCE

ICT Governance is defines as 'specifying the decision rights and accountability framework to encourage desirable behaviour in the use of IT. The complexity and difficulty of explaining IT governance is one of the most serious barriers to improvement.

ICT governance is about who makes decisions while management is about making and implementing the decisions. Effective ICT governance for the Municipality will answer three questions:

- What decisions must be made
- Who should make these decisions
- How are they made and monitored

I.C.T. governance framework was approved on the 31st of May 2016 which its aim is to institutionalise the I.C.T. governance as an integral part of corporate governance within the municipality in a uniform and coordinated manner.

The municipality has developed an ICT Enterprise Architecture (EA) which defines how the municipality will meet future business problems using Information Communication and Technology (ICT). An EA translates the municipality vision, the organisational structure and behaviour including its information systems into a strategic roadmap. The objective of EA is to maximise investment returns, improve performance and embrace emerging technologies that support business by focusing on the following aspects:

- enable changes to the business strategy with quick-response changes in enabling processes and technology solutions;
- reduces redundancy, hence lower total cost of ownership; and
- achieves economies of scale by sharing services

ICT GOVERNANCE COMMITTEE

The ICT Governance Committee has been established and is functional with the full support of the municipal management. The committee is chaired Mr. Maphanga Thembelani who is an Independent Chairperson and possess the required ICT expertise and experience, this is to ensure credibility, objectivity and integrity of the Committee. The main responsibilities of the Committee are as follows.

The ICT Steering Committee is responsible to:

- Take action to ensure that the ICT projects are delivered within the agreed budget and timeframe.
- Oversee development, approval and implementation of ICT Strategic objective
- Make recommendations on ICT related projects
- Advise the management and council on all ICT related matters

The following ICT Governance policies were developed, reviewed and adopted by council on 27 June 2019 in terms of section 11 (2) of the Municipal Systems Act 32 of 2000

	1. ICT Governance Framework
	2. ICT Network Security Policy
	3. Acquisition of Computer Equipment Policy
Approved polies	4. ICT User Account Management Policy
	5. ICT Facilities and Environmental Controls Policy

6.	Internet, Email and Intranet Usage Policy
7.	Acceptable Use of ICT Resources Policy
8.	ICT Change Management Policies and Procedures
9.	ICT Risk Management Policy
10.	ICT capacity planning and availability management
11.	Incident and problem management
12.	ICT asset management
13.	Change control management
14.	ICT vendor and SLA management
15.	Business and ICT continuity
	Data backup and restore
	Bring your own device
18.	Telephone management policy

Internal Municipal Network

Currently our municipality has upgraded the network connectivity within its own existing buildings through Vodacom business network connectivity. Our network connectivity is using microwave link which ensure reliable and fast network connection with fewer downtime as compared to other network connection types. There is also a fibre network link that was installed to connect main building and traffic services building.

Disaster recovery

The municipality has purchased a data back-up software that automates data back-up in our laptops and desktops to ensure that our municipal data is backed-up. Currently the municipality has implemented (procured) an offsite data backup that ensures that our municipal data is being backed up in a secondary storage that will enable the municipality to recover the data in case of any natural disaster or man-made disaster that may occur.

The municipality considered the need to store copies of key documents, data and systems away from the main office. The remote site is at Ngqeleni Unit, it is utilised in the event of a disaster. The municipality appointed Resilient Servers and Networks to install and configure server mirroring from Libode to Ngqeleni, including supply of a server cabinet and power strip. This site replicates data from the main office

BROADBAND

The status of ICT in our municipality indicate a need for an integrated broadband network, which will provide voice and high-speed data connectivity services to address many of the challenges experienced by local Government, local business and citizens of the municipality. Our community will enjoy the benefit of using a broadband through USAASA which is Department of Communication's agency responsible to rollout broadband to our communities. This broadband rollout it's a national project that the current government is currently implementing nationally which Nyandeni local municipality will benefit from it.

SWOT Analysis

STRENGTHS	WEAKNESS				
1. High levels of staff commitment	1. Slow networks and internet				
2. Good relations with stakeholders	2. Poor environmental controls				
3. Strong commitment from the municipality to support ICT initiatives	3. Inadequate ICT policies and standards				
4. Dedicated server room	4.Poor network management				
5. ICT Steering committee	5.Insufficient ICT budget to meet ICT requirements				
6. Shared service agreement with the district	6.Insufficient budget for training ICT staff				
OPPORTUNITIES	THREATS				
1.New technology can enhance municipality operations	1. Increasingly sophisticated security risks and threats				
2.Using ICT to enhance revenue base	2. More stringent audits focusing on controls				
3. Speeding up ICT services	3. Focus on ICT by Auditor General				
3. Speeding up ICT services					

4. Departments make decisions which may impact ICT without consulting ICT
5. Constantly changing of ICT technologies

RECORDS MANAGEMENT AND ARCHIVING

Archiving and Document Management is regulated by the Promotion of Access to Information Act (PAIA) and National Archives and Record Service of South Africa and the Records Management Policy and Procedure Manual and as such it deals with overall document management of the institution. The impending need for proper document management has necessitated that Nyandeni Local Municipality integrate its systems to ensure that there is compliance with the relevant Acts and that we properly document institutional information assets. The current implementation of Electronic Document Management Systems (EDMS) bears testimony to the fact that the institution is going with times with regards to contemporal issues around archiving. The municipality is using a three phased approach on implementing EDMS and currently phase one has been implemented. The department is in the process of disposing old document to provide space for archiving the required documents.

5.1 Budget and Treasury Office

The MFMA prescribes that the CFO heads the BTO and that competent finance officials must support the CFO in his role. The competencies of municipal officials assigned to the budget and treasury office must meet the minimum prescribed financial competency levels.

Key delegated functions

Budget Planning

The role of the CFO is to assist the accounting officer with budget preparation and budget implementation amongst other financial management duties in terms of section 81 (1) of the MFMA

5.1 Community Services

The Community Services Department plays a key role in the delivery of a broad spectrum of Social Services to the Nyandeni Local Municipality. Some of the core functions of this Department include the following:

- a) Safety and Security;
- b) Parks and public spaces
- c) Cleansing;
- d) Refusal Removal and Solid Waste Disposal;
- e) Early Childhood Development
- f) Traffic and Parking; and

The organizational structure is aligned to support the effective delivery of the mandate in terms of the Integrated Development Plan. Additional project, programme and technical skills are required if Nyandeni Local Municipality is to add to the quality and service levels offered to the community.

5.1 Infrastructure Development

Infrastructure Department is the foundation upon which the infrastructure of the entire Nyandeni Local Municipality is sustained and managed. It is responsible for the key areas as follows:

- a) Built Infrastructure provision and maintenance
- b) Engineering services
- c) Electricity;(maintenance of street lights, high mast provision and electrification of households)
- d) Roads and transport services (motorized and non- motorized transport)
- e) Public Amenities;

- f) Storm water management
- g) Transport Planning
- h) Construction and project management

Institutional and Social Development

In line with norms and standards the municipality has established the Institutional and Social Development Office and appointed ISD Officer. The purpose of the Unit is to conduct social facilitation and public participation before the commencement of the projects. The aim is to mitigate potential community protests and misunderstanding that could impact the projects negatively.

KPA 5: GOOD GOVERNANCE AND PUBLIC PARTICIPATION

Council has resolved to develop a Good Governance Framework that encapsulate the following governance issues

- Synergy and alignment in the manner that the municipality executes its Constitutional obligations;
- Decision making that is not only consistent with statutory and policy requirements, but also upholds Constitutional principles and the values of the Nyandeni Local Municipality,

Accordingly, the objectives of the framework will be to

- to outline the processes to be followed in decision making;
- to document roles and responsibilities of political and administrative structures, the relationships within these structures, office bearers, managers and officials; and
- to outline the authority of office bearers and managers.

Key principle of good governance is the establishment of ethical leadership within the institution by doing the following

- The need to clearly define the roles and responsibilities of leadership and individual leaders in the organization
- The embedding within the leadership of an ethical culture based on the vision and values of the institution and the Constitutional principles

The King III report defines good governance as follows:

"Good corporate governance is essentially about effective, responsible leadership. Responsible leadership is characterised by the ethical values of responsibility, accountability, fairness and transparency".

Council ascribes to the following principles of Good Governance

Principles	Detail								
Openness and Transparency	Decision should be taken and enforced in accordance with								
	legislation and law								
	There should be access to information by public								
Rule of Law	Council should abide by the rule of law								
Innovation and openness to change	Council should embrace new and efficient solutions								
Ethical Conduct	Public good to be placed before individual interest								
	There should be effective measures to combat corruption								
Competency and capacity	Competency of those who delivery governance to be continuously								
	strengthen to improve output								
Sustainability and long term orientation	Needs of future generations have to be considered in policies								

Sound financial management	Prudence to observed in financial management
	Planning and Budgeting to done in consultation with citizens
	Risk to be properly estimated and managed
	Charges should not exceed to cost of services
Accountability	Decision makers must take responsibility for their decisions
	There should be effective remedies for maladministration, including
	consequence management

5.1 Political governance

- Nyandeni Local Municipality is a Collective Executive System combined with a ward participatory system and has Eight Standing Committees which are chaired by Political Heads. The Political and administrative seat is situated in Libode
- Council meetings are opened to the public
- Ordinary Council meetings are convened as per the Council Adopted Calendar. In terms of the Good Governance Framework Council Speaker.
- Special Council meetings are convened only when important issues arise that requires urgent and immediate attention
- Council has 32 wards as per the demarcation.

Governance Structures

Structure	Function					
Council	Pass policies, Annual budget, IDP and tariffs					
Executive Committee	To identify the needs of the community Review and evaluate those needs in order of priority Recommend to the municipal council strategies, programmes and services to address priority needs Recommend or determine best methods, including partnership and other approaches to deliver those strategies, programmes and services					
Standing Committees	Defined in terms of section. 80 of the Structures Act as Committees to assist Executive Committee or Executive Mayor					
Municipal Public Accounts Committee	 Appointed in terms of section. 79 of the Municipal Structures Act: section.79 (1) A Council may establish one or more committees necessary for the effective and efficient performance of any of its functions or the exercise of any of its powers. To consider and evaluate the content of the annual report and to make recommendations to Council when adopting an oversight report on annual report To examine the financial statements and audit report of the municipality To promote good governance, transparency and accountability on the use of municipal resources To perform any other functions assigned to it through a resolution of council within its area of responsibility 					
Audit Committee	It is appointed in terms of section 166 of the MFMA

5.1.2 Municipal Public Accounts Committee

- a. Municipal Public Accounts Committee was established in terms of section 79 of the Local Government: Municipal Structures Act, its main purpose is to perform and exercise oversight over the executive functionaries of council and to ensure good governance in the municipality
- b. Council has determined functions of the committee and agreed on the terms of reference
- c. The Position of MPAC Chairperson has been designated a fulltime position and comprised of 8 members including opposition parties

Functions of MPAC

- a. To consider and evaluate the content of the annual report and to make recommendations to Council when adopting an oversight report on annual report, Mid-year performance assessment report and IDP Process Planning
- b. To examine the financial statements and audit report of the municipality
- c. To promote good governance, transparency and accountability on the use of municipal resources
- d. To perform any other functions assigned to it through a resolution of council within its area of responsibility

5.1.3 Participation of Traditional Leaders in Council

Two Traditioanal Leaders are participating in Council **Management Structures**

The Accounting Officer has establish the following management structures

- Management Committee (MANCO)
- ICT Governance Committee
- Risk Management Committee
- Local Labour Forum
- Occupational Health and Safety Committee

5.2 Community and Public Participation

THE VOICE OF PEOPLE IN NYANDENI

This section records the voice of people in Nyandeni in terms of:

- 2 the difficulties that the local municipality is facing presently;
- 2 the extent to which the municipality is trying to resolve the problem;
- how people in the municipality rate the services that they receive; and the importance of services provided by the municipality.

A question was introduced in the Community Survey 2016 that asked households what they considered to be the main problem or difficulty they were facing in their municipality presently. In addition to collecting data about the actual services and the quality of services that households have access to, asking households what they perceive as their main challenge or difficulty provides policymakers and planners with key data on how households understand or feel about their environment and the services in their municipality.

As can be seen, perceived challenges in municipalities differ vastly by municipalities and the analysis of these challenges is key to understanding and delivering services accordingly in the respective

province and municipalities (People's views on how municipalities are trying to resolve the problem are provided in Annexures 6 and 7).

5.2 Difficulties facing the municipality presently and the extent to which the municipality is trying to resolve the problem

According to the community survey conducted by Stats SA (2016), thetop five challenges (in Table 20) that Nyandeni municipality is facing presently are as follows:

- **E** Lack of safe and reliable water supply (47% of the population)
- Inadequate housing (17% of the population)
- 2 Lack of employment opportunity (10% of the population)
- Inadequate road (8% of the population)
- 2 Lack of reliable electricity supply (5% of the population)

In O.R. Tambo district, people's views about the top five challenges facing the District were as follows:

- 2 Lack of safe and reliable water supply (44% of the population)
- Inadequate housing (17% of the population)
- 2 Lack of employment opportunity (9% of the population)
- Inadequate road (9% of the population)
- 2 Lack of reliable electricity supply (8% of the population)

Access to save and reliable water supply is perceived by almost half of the population as the main challenge currently facing the district. This challenge should reflect in the IDP of the district (and of Nyandeni local municipality) as top priority, or else, it will be an indication that the municipality is targeting wrong challenges.

The extent to which local municipalities are trying to resolve problem faced by people in the municipality

Source: Statistics South Africa (2016 Community Survey)

People response to the extent to which Nyandeni is trying to resolve the problems faced by the municipality is as follows:

- 45% of the population in Nyandeni strongly disagree that the municipality is trying to resolve the problem;
- Another 32% of the population in Nyandeni disagree that the municipality is trying to resolve the problem;
- Only 12% of the population in Nyandeni are in agreement that the municipality is trying to resolve the problem;
- There is a small portion of the population (8%) that are neutral: they neither agree nor disagree; and
- Only 1% of the population in Nyandeni strongly agree that the municipality is trying to resolve the current problems.

Annexures 6 and 7 provide the responses for other local municipalities in the province.

5.3 Rating the overall quality of services provided by the local municipality

Table 22 shows that of the 309 702 people living in Nyandeni, more than half (53%) are of the opinion that the quality of public clinic is good while 14% thing that the quality of public clinic is poor.

	Good	Average	Poor	No access	Do not use	Unspecified	Total

Table 23

An attempt was made to record the voice of people in Nyandeni. Four issues were raised:

- Firstly, the difficulties that the local municipality is facing presently. Access to save and reliable water supply was perceived by almost half of the population as the main challenge currently facing the district.
- Secondly, the extent to which the municipality is trying to resolve the problem. 45% of the population in Nyandeni strongly disagree that the municipality is trying to resolve the problem
- Thirdly, how people in the municipality rate the services that they receive. More than half (53%) of the population in Nyandeni are of the opinion that the quality of public clinic is good.
- Lastly, 76% of people in Nyandeni said that education is a very important instrument to uplift the living standard of people.

	FUNCTIONAL AREA:	Public Participation						
Curre	Current constraints (pain points)		Constraint level (Input/ Process/ Output)	Constaint Category (Strategy/Structure/ Process/System/ Resources)	Priority (Low/Medium/High)	Impact (Low/ Medium/ High)		
1	Inadequate and infrequent communication tools to communicate directly with customers	SM - Operations	Process	Strategy	High	High		
2	Community feedback is sourced from reactive methods such petitions	SM - Operations	Process	System	High	High		
3	Poor analysis of information from petitions, village and ward committee meetings etc	SM - Operations	Process	System	High	High		
4	Poor tracking of complaints received	SM - Operations	Output	System	High	High		
5	Over reliance on Ward committees to communitate with customers		Input and Output	Strategy	High	High		
6	No real time information to update communities on project implementation	SM - Operations	Output	System	High	High		
7	Inconsistent reviw of municipal programmes - (Customer Perception surveys not done consistently)	SM - Operations	Output	Strategy and System	High	High		
8	No mechanisms to review and ascertain that council resolutions are communicated to communities	SM - Operations	Output	Strategy and System	High	High		

In deepening democracy at local level, Citizen Participation and empowerment is at the centre of the government strategy, to this extend. More than 1 million has been allocated for undertaking public participatin programmes in all wards, civil society education programmes will be conducted quarterly covering the following topics, roles and responsibilities of citizens in a developmental state, public accountability by politicians and officials and Municipal Finance Management.

5.2.1 Public Participation Plan and Policy

Public Participation Plan and Policy has been reviewed and adopted by Council on 27 June 2019 and it is a five plan. The Public Participation Plan encapsulates the following key issues

- Procedures, systems, process, structures in the public participation process
- Public Participation methods and mechanisms

The public participation mechanism includes the following

In the previous financial year the municipality noted the increase in service delivery protests and

Mayoral Imbizos, these are mayoral public participation meetings conducted by the Executive Committee to provide feedback on municipal performance assessment. For this review, the first Imbizo was conducted on 17-20 November 2020 to solicit community inputs on the 2020/21 IDP. The Community and Stakeholder inputs have been taken into account and incorporated into the Three Year Capital Plan. The Imbizos were conducting using a HYBRID Model wich is combination of virtual platform, radio and engagement with specific groups such areas Rate Payers

IDP and Budget Public Hearings to be updated in the final document

5.2.2. Ward Committee System

32 Ward Committees (each comprising of 10 members) have been established in terms of section 73 of the Local Government: Municipal Structures Act. Ward Committees have participated in the IDP development process and preparation of the annual budget for 2017-2022. In this regard, ward priorities have been considered and incorporated into the five year Integrated Development Plan

Ward Councilors is functional, it is serves as a network to share information, resolve common service delivery challenges, serves as performance monitoring and evaluation platform.

Challenges

- Reports from ward committees does not reflect problematic areas at ward level so that the municipality is able to intervene, as a consequence the municipality has been experiencing sporadic service delivery protests
- Community satisfaction surveys not conducted regularly to ascertain the level of satisfaction or dissatisfaction thereof

SUPPORT FOR WARD COMMITTEES FUNCTIONING

- Allocated cell phones to all Ward Committee Members
- R 1500 stipend paid monthly to 32 Ward Administrators
- R 1500 stipend paid monthly to 320 ward committee members (proposed)
- The municipality is further responsible for Ward Committee transport cost
- The municipality is further assisting Ward Committees with wards office management
- All ward committees have been trained on ward governance

FUNCTIONALITY OF WARD COMMITTEES

Ward Committee Meetings are convened monthly to consider community issues. Village meetings guided by Back to Basics priority prorammes. Ward General Meetings are convened quarterly.

Services delivery issues arising from the above mentioned meetings are then escalated to Council through various Council Committees for consideration and resolutions

As part of the Municipal Support program, the ORTAMBO District municipality has supported Nyandeni municipality with the training of ward committees in the area of report writing and governance.

WARD BASED PLANS

The Ward based plans were developed in all 32 Wards in the Nyandeni Municipal jurisdiction. Prioritiy programmes have been included in the IDP and It will be implemented at scale and pace taking into account affordability and cost. However, it should be indicated that due to change in circumstances these Ward Based Plan should be reviewed. The District Municipality has indicated that it will be support in the development of Ward Based Plans given the changes occasioned by demarcation processes.

IMPLEMENTATION OF THE INTEGRATED SERVICE DELIVERY MODEL

War Rooms have been established in all 32 wards. The ORTAMBO Municipality is currently exploring ways to strengthen and support the Integrated Service Delivery Model. However, operational weaknesses have identified will clear strategies developed to address weaknesses

Stakeholder mobilization and engagments

The municipality has developed a stakeholder register, this is to ensure sure that stakeholders actively participate in areas of interest and where they could make meaningful contribution. To this end, Office of the Mayor has developed a program with includes meetings with Rate Payers, Organised Labour, youth organisations, business sector. Annually, a Stakeholder Indaba is convened to discuss various developmental programmes such as the economy and job creation

F5.2.3 Community Development Workers

Community Development workers performance monitoring

28 CDW's has been appointed in various wards with the exception of the following wards , Ward, 8, 14, 22, 26, and 29. CDW Coordinator is responsible for coordinating the work of all CDW's and report to COGTA Monthly reports are submitted to the CDW Coordinator, who then compile a consolidated monthly report for submission to the municipality and the Department of Local Government and Traditional Affairs (DLGTA). Reported cases are registered in the case register and referred to the relevant department. When a case has been resolved and concluded, a complainant is being informed about the resolution of that specific case. Quarterly performance reviews are conduced through a round table excersise

Achievements

A memorandum of understanding has been signed with the Department of Local Government and Traditional Affairs to strengthen working relations and to ensure effective inter-governmental planning and delivery coordination and to improve the quality of democratic participation in decision making processes. CDW are part of the Ward Based War Rooms Committees

Interventions

Nyandeni municipal leadership has committed to promoting sound and good governance culture within the organisation. The main focus areas identified for good governance interventions in this term includes but not limited

- Training of new ward committees to improve their effectiveness in advancing goals of public participation
- Implementation of the Masiphathisane Integrated Service Delivery Model In all 32 wards
- Provision of dedicated administrative support to CDWs and councillors to aid their role as link between council and communities
- Establishment of sound mechanisms and systems to discourage corruption and ensure functional internal audit
- Continuous engagement with sector departments to improve intergovernmental relations and especially their participation in the implementation of this IDP
- Mobilization and coordination of existing resource capacity to enhance our scale of service delivery and economic growth through such initiatives as establishment of PPPs and participation in district wide initiatives including the realisation of commitments made at the recent Economic Growth Summit held by ORTDM and the recent Investment Conference

DEVELOPMENT FORUMS TO SUPPORT PUBLIC PARTICIPATION EFFORT

The following forums have been incporporated into the IGR Cluster system

FORUM	RESPONSIBLE KPA
Roads forum	Basic Service Delivery
Community Safety and Transport	Basic Service Delivery
LED Forum	LED
Housing Forum	Basic Service Delivery
HIV/Aids/Forum	Good Governance
Municipal Coastal Committee	LED

5.2.4 INTERGOVERNMENTAL RELATIONS

ADOPTION OF NYANDENI IGR FORUM TERMS OF REFERENCE

Terms of Reference have been adopted and serve as the guidelines in managing IGR Forum affairs. Technical IGR Forum is in place, its main mandate is to prepare and make recommendations to Political IGR Forum which is chaired by the Mayor or a delegated person.

NYANDENI IGR CLUSTER ESTABLISHMENT

In accordance with the Eastern Cape Provincial guidelines the following clusters have to be established to coordinate and facilitate development in the Nyandeni Municipal Area

Cluster	КРА	Key Departments
Governance and Administration	 Municipal Transformation and Organizational Development Integrated Development Planning Municipal Finance Viability and Management Good Governance and Public Participation Basic Service Delivery Performance Management System 	 Nyandeni Local Municipality Department of Local Government & Traditional Affairs Provincial Treasury and Planning Office of the Premier OR Tambo DM ECSECC SALGA
Social Transformaton Cluster	Comprehensive Health Care Education Special Programmes Social Safety Net Safety and Security Victim Empowerment Food Security and Nutrition Sport and Recreation	 Nyandeni Local Municipality Department of Social Development Department of Health Department of Home Affairs Department of Sports, Recreation, Arts & Culture SASSA
Economic Growth and Infrastructure Cluster	Local Economic Development Roads Infrastructure Second Economy Interventions Water Resource Management Electricity Environmental Management	 Nyandeni Local Municipality DEDEA Department of Environmental Affairs Department of Agriculture Department of Roads and Transport Department of Water Affair Department of Water Affairs and Forestry Eskom Telkom Department of Energy

Theses clusters are also indicative of the core organizational competencies required to support the attainment of the Integrated Development Plan. Our Integrated Development Plan matches our resources and capabilities in order to deliver on our mandate.

Challenges

- Reduced budget allocation for 2020/2021 particularly on energy provision, human settlement
- Non alignment of programs with Government Medium Term Strategic Framework, State of the Province Address
- Information provided is not always adequate to help strategic decision making in unlocking and accelerating service delivery, this can be attributed to the lack of training on IGR
- Fragmented approach in coordination of programmes
- Sub-forum are convened but does not systematically feed into the IGR

5.2.5 COMPLAINTS AND PETITION MANAGEMENT SYSTEM

The municipality has established a complaints and petition management Fsystem that clarifies a business process from receiving complains until it is resolved and closed. These petitions and complains are processed through various council committees including Public Participaton and Petitions Committee, Executive Committee and Council.

The ORTAMBO District Municipality through its IGR and Municipal Support Directorate is supporting the municipality in resolving some of the complaints particularly on health. water and sanitation. To this end a petition register has been developed and is updated regularly.

As part of building smart rural municipality and emabracing technology the municipality has developed ICT Enterprise Architector which identifies amongst other things ICT requirements including a solution to managemet petitions

Institutional arrangement

The Presidential Hotline and Complains Management System are housed in the Office of the Municipal Manager of which the Council Speaker is the political champion. 2 users have been trained and are responsible for day to day capturing and management of complaints and petitions.

5.2.6 SUPPORT TO SPECIAL PROGRAMMES

5.2.6.1 The Special Programmes Unit

The Special Programmes Unit is located in the Office of the Mayor and is currently has a compliment of 3 staff members and is headed by Senior Manager at the level of Section 57 Manager. The Unit is responsible for policy formulation and coordination

In the main the unit is responsible for mainstreaming of programmes for designated groups, coordination and mobilisation of various sectors, monitoring and evaluation and capacity building

5.2.6.2 Liaison and Networking

In this review we express the commitment to strengthen relations with stakeholders and facilitate cooperation. Achievement

- Ward Based structures for youth, disable and women's structures have been established
- Women Caucus Established and conferred MSA section 79 Status inter alia, the Committee Chairperson was elected by Council on 29 May 2014

Special Programmes includes HIV and Aids, Children, Youth, Women, Physically challenged and Military Veterans Association.

Key programmes includes

- ✓ Hosting of Annual Mayoral Tournament
- ✓ Observing Annual Youth Month Programmes, including Solomon Mahlangu Lecture
- ✓ Observing of National calendar days
- ✓ Support to HIV and Aids related programmes

- ✓ Mainstreaming Local Economic Development programmes
- ✓ Hosting of Annual Miss Nyandeni to promote youth talent
- ✓ Support to vulnerable youth in school as well campaign against drug abuse

5.2.7 SOCIAL COHESION

The hosting of Annual Mayoral Tournament wherein 32 wards are participating facilitates Ubuntu and coming together of various villages. Young people are kept busy and thus have less time to embark on distractive activities.

Annually the Municipality in partnership with business community, hosts Human Right Road Race (marathon) to mark Human Rights Day. These programs enjoy the interest and participation of citizens across social and class spectrum with an ultimately view of promoting nation building. Furhermore the following programmes are hosted

- Annual Rugby tournament
- Inciyo traditional event

5.2.8 INTER MUNICIPAL RELATIONS

Firstly, Nyandeni local Municipality views Inter-Municipal Relations as a strategic approach in accelerating service delivery, building capacity and improving municipal planning. Nyandeni Local Municipality has established inter Municipal Relations Forum with King Sabata Dalinyebo municipality in the areas of Waste Management, Public Transport and Safety, Spatial Planning and Land Use Management. Terms of Reference have been developed.

Furthermore, the municipality is currently engaging PSJ Municipality with the view to collaborate in the area of Tourism and Coastal management. The Ocean Economy agenda demands that collaboration efforts are strengthened.

5.2.8 COMMUNICATIONS

The Municipality has a functional Communications Unit headed by Manager Communications, supported by Communications Officer and a Clerk. A Communication Forum is functional, amongst other things, it is charged with the responsibility to produce a quarterly news magazine, branding and marketing, Conduct Community Education awareness campaign in all wards to essentially educate people about the concept of a 'developmental local government", roles and responsibilities of citizenry in the affairs of local government Communication Strategy has been adopted

The advent of Covid-19 has forced us to rapidly embrace technology for purposes of communications. The

Communication Policy has been reviewed and approved by Council on 27 June 2019

5.2.9 MUNICIPAL BYLAWS

The various municipal By-Laws have been adopted by Councol and accordingly Gazetted in the Eastern Cape Provincial Gazette Date 24 June 2019 Gazette No. 4259 to regulate relations between and the broader community

5.3.1 FUNCTIONALITY OF THE AUDIT, RISK AND PERFORMANCE COMMITTEE

Section 166 of the MFMA requires each municipality to have an audit committee. The audit committee is an independent body which must amongst other things advise the municipal council, the political office-bearers, the accounting officer and the management staff of the municipality on matters relating to internal financial control and internal audits, risk management and performance management.

The Audit, Riks and Performance Committee is comprised of the following members and will serve for a period of three year from the date of appointment

NAME	DESIGNATION	APPOINTMENT DATE
Mr. G.Labane	Member responsible for Internal	January 2019
	Audit and Risk	
Ms. N. Ntshanga	Responsible for Finance	January 2019
	Management	
Mr. M. Mbenenge	Resposible for Perfomance	January 2019
	Information	
Mr. S Ntapane	Responsbible Legal Matters	January 2020

Key programmes.

- Monitoring implementation of the auditor general recommendations
- Monitoring implementation of the commitments made with the regards to clean audit
- They provide support to Municipal Public Account Committee (MPAC)
- Provide recommendations to council based on the reports analysed and ensuring implementation of recommendations
- Monitor and evaluate adherence to internal controls processes and procedures
- Play meaningful advisory role to management

The following documents has been approved by Audit Committee and Council

- I. Internal Audit Charter
- II. Audit and Performance Committee Charter
- III. Internal Audit Plan approved
- IV. Framework to regulate Audit Performance

5.3.2 INTERNATIONAL AUDIT UNIT

The municipality has a fully functional Internal Audit Unit and is comprised of the following Manager Internal Audit, 2 x Internal Audit Officers ,Secretary and 1 intern. All the posts are filled

Key Programmes approved by the Audit Committee

- ✓ Development of the internal audit strategy
- ✓ Preparation of the annual audit plan
- ✓ Quarterly reports to the audit committee detailing performance against the annual internal audit plan
- ✓ Facilitate the identification, analysis and rating of risk by management
- ✓ Provide support to Audit Committee

5.4 RISK MANAGEMENT

The Municipality performs Risk Management functions to ensure compliance with legislation, policies, abide or ensure that strategic objectives are achieved, including fraud prevention. Although risk management is in place, there is a need to conduct continuous awareness campaigns to all levels in the organization to ensure greater participation and ownership by all stakeholders, particularly, the municipal workforce.

Pillar	Principle
Control Environment	Demonstrate integrity and ethical values
	Exercise Oversight Responsivities
	Establishes Structure, authority and responsibilities
	Demonstrates commitment to competence
	Enforces accountability
Risk Assessment	Specifies suitable objectives
	Identifies and analyzes risk
	Assesses fraud risk
	Identifies and analyzes significant change
Control Activities	Selects and develops control activities
	Selects and develops general controls over
	technology
	Deploys through policies and procedures
Information & Communication	Uses relevant information
	Communicates internally
	Communicates externally
Monitoring	Conducts ongoing and/or separate evaluations
	Evaluates and communicates deficiencies

The municipality ascribe to the following COSO ERM 2013 Framework principles

RISK MANAGEMENT COMMITTEE

To ensure credibility and integrity council took a decision to have an independent chairperson, Mr. Bongani Mbewu has been appointed as the Risk Management Committee for a period of three years from the date of appointment.

Risk Programmes approved for effective Risk Management are

- a. The Municipal Risk Profile and Risk Register has been compiled
- b. Risk Management Framework approved by Council on 27 June 2019
- c. Risk Management Policy approved by Council on 27 June 2019

5.5 FRAUD PREVENTION

The South African Media, particularly print media, has created a "narrative" that local government is the most corrupt sphere of government. In its position paper titled "Tackling The Scourge of the Corruption-Perception,

Local Government and the People' on Anti- Corruption South African Local Government Association assert that "Whatever local government's protestations of innocence may be, it must learn that as is the case in law, the perceptions about how it deals with corruption is as important as the reality of measures to combat corruption within the sector. Intolerance to corruption must not only be a mantra, it must be seen to be done'

Fraud Risk Management Policy, the fraud Risk Management Policy was adopted by council on 27 June 2019

Objectives summarised

- The Fraud Risk Management Policy of the NLM supports and fosters a culture of Zero Tolerance towards fraud and other acts of dishonesty. In addition, all fraud will be investigated and followed up by the application of all remedies available within the full extent of the law and the implementation of appropriate prevention and detection controls.
- These prevention controls includes the existing financial and other controls and checking mechanisms as prescribed in the systems, policies, procedures, rules and regulations of the NLM.
- The efficient application of the Municipal Management Finance Act ("MFMA") and instructions contained in the NLM policies and procedures, circulars and manuals is one of the most important duties to be applied by every employee in the execution of their daily tasks.
- Whistling Blowing Policy

Priority programmes

- Conduct fraud awareness campaign both internally and externally
- Clarify consequence management process, where there is wrong doing
- Develop Fraud Risk Register
- •

5.5 Legal Services and Contract Management

The Municipality has functional legal services unit headed by an admitted attorney which is responsible for providing legal advice for both political and administrative functionaries, litigation in general, initiating legal proceeding on behalf of the municipality and defending cases against the municipality, drafting legal documents and responsible for labour disciplinary matters. The municipality has an effective legal management system and a litigation register which is audited annually.

Over the past three years the litigation has significantly been reduced litigation cases to 14 outstanding litigation cases as at March 2021. Consistent with the legislation the litigation register is disclosed in the Annual Financial Statements

The updated litigations report is submitted to Council on quarterly Basis

Whistle Blowing Policy and its objectives (this policy was approved by council on 27 June 2019

- To provide guidance for which whistle blowers may in responsible manner disclosure information regarding unlawful or irregular conduct by Councilors, Officials of the Municipality and Service Providers and to provide for the protection of whistle blowers who make a disclosure.
- To provides protection of whistle blowers for disclosures made without malice and in good faith, in defined circumstances in terms of the Protected Disclosure Act, Act 26 of 2000,
- To encourage whistle blowers to raise matters of concern responsibly through the procedures laid down in this policy documents.
- To provide for feedback to the whistle blower following a protected disclosure
- To present means for redress if a whistle blower is dissatisfied with the response of the Municipality to a protected disclosure

KPA: FINANCIAL VIABILITY AND MANAGEMENT

The objective of the Financial Viability and Management is to secure sound and sustainable management of the financial affairs of the municipality and to comply with the accounting norms and standards.

National Treasury Municipal revenue budget and expenditure review of 2021 expressly states that "municipal councils, mayors and municipal managers are responsible for ensuring that available revenues are collected, that resources are allocated appropriately, and that procurement and service delivery processes are economical, efficient, effective and equitable".

6.1 Financial Policies

Adoption process

The following financial policies were reviewed and adopted by Council on 28 May 2021

Sector Plan	Detail
IDP and Budget Policy	This policy sets out the budgeting principles, which Nyandeni Local Municipality will follow in preparing each annual budget, as well as the Integrated Development Planning process through which the municipality will prepare a strategic development plan, for a five-year period.
Virement Policy	This policy aims to provide guidelines to senior management in the use of virements as a mechanism in their day-to-day management of their budgets and to allow flexibility in the use of budgeted funds to enable management to act on occasions such as disasters, unforeseen expenditure or savings, etc. as they arise to accelerate service delivery in a financially responsible manner.
Rates Policy	To ensure that property rating in Nyandeni Municipality is carried out in a fair, consistent, considerate and controlled manner, this rate policy is developed in accordance with the provisions of the Local Government: Municipal Property Rates Act, (Act 6 of 2004).
Supply Chain Management Policy	Ensure Supply Chain Management Policy that is fair, equitable, transparent, competitive and cost effective;
	(c) complies with
	(I) the Regulations; and
	(ii) any minimum norm and standards that may be prescribed in terms of section 168 of the Act;
	(d) is consistent with other applicable legislation;
Fixed Asset Management Policy	This document is provided to assist management and employees of Nyandeni Municipality to implement and maintain consistent, effective and efficient fixed asset management principles.
	The objective of this document is aimed at:
	□ Safeguarding the fixed assets of the Nyandeni Municipality to

Page 281 of 510

Sector Plan	Detail
	ensure effective use of existing resources
	Emphasizing a culture of accountability over fixed assets owned
	by the Nyandeni Municipality.
	Ensuring that effective controls are communicated to
	management and staff through clear and comprehensive written
	documentation.
	Providing a formal set of procedures to ensure that the
	Nyandeni Municipality's fixed asset policies are achieved and
	are in compliance with the Municipal Finance Management Act
	(MFMA) and National Treasury, GRAP and Accounting
	Standards Board directions, instructions, principals and
	Guidelines.
Banking and Investment Policy(cash management)	The policy is aimed at gaining the optimal return on investment, without incurring undue risks, during those periods when cash revenues are not needed for capital or operational purposes
Fleet Management Policy	To co-ordinate the management of council transport by means of control measures which are applicable to all political officer bearers, departments, divisions and sections of the Council's operation
	To prescribe requirements relating to the utilization and maintenance of such transport by employees and political office bearers
Tariff Policy	Guide setting and implementation of tariff
Credit Control and Debt Collection Policy	Guide credit control implementation in line with the MFMA
Indigent Policy	Provision of basis services to communities in a sustainable manner within the financial and administrative capacity of the Council
	To provide guidelines and procedures for the subsidization of basic service charges to indigent households
Insurance Policy	To safeguard municipal assets and minimize risks where the will be a need of replacement due to natural courses
Nyandeni Rates By Law	Gazetted on 24 June 2019 with Government Gazette no, 4259
Credit Control and Debt Collection By Law	Gazetted on 24 June 2019 with Government Gazette no, 4259
Credit Management By Law	Gazetted on 24 June 2019 with Government Gazette no, 4259

Explanatory Notes

The budgeted cash flow statement is the first measurement in determining if the budget is funded. It shows the expected level of cash in-flow versus cash out-flow that is likely to result from the implementation of the budget. The cash flow of the municipality shows that the municipality will be able to meet its obligations in 2021/22 financial year.

Explanatory notes:

The municipality has budgeted both operating and capital grants as per the Division of Revenue Act. The municipality has budgeted for the following operating grants: - Equitable share; INEP; EPWP; FMG; MIG and Library Subsidies.

Capital grants: - Municipal Infrastructure Grant

The municipality did not receive grant from the District Municipality in 2020/21 and there is no budget in 2021/22 and in the next coming two years.

MUNICIPAL GRAP COMPLIANT ASSET REGISTER

Nyandeni Local Municipality have complied with GRAP 17 in compiling the GRAP Asset Register since 2013/14 financial year. All assets are barcoded and included in the Asset Register.

FINANCIAL RECOVERY PLAN IN PLACE TO ADDRESS CASH FLOW PROBLEMS

Financial recovery has been developed and adopted by Council, inter alia, progress reports are compiled as part of MFMA S71, and 52d report

BANK ACCOUNTS FOR CONDITIONAL GRANTS

The municipality has opened Call Accounts for all conditional grants.

All the reports for conditional grants submitted by regulated time to both National and Provincial Treasury and other relevant stakeholders.

EXPENDITURES:

REPAIRS & MAINTENANCE

The municipality have a Repairs and Maintenance Plan in place and the budget is as follows for the two previous years:-

Year	Repairs & Maintenance	Percentage
2019/20	R20 091 000	5.5%
2020/21	R25 541 000	6%
2021/22	R21 864 000	6%

The municipality note the 8% norm as per MFMA Circulars; however, 8% could not be met due to budget constraints.

Capital Budget spending patterns for previous years:

Year	Capital Budget	Actual Spending	Percentage
2017/18	R109 951 000	R84 351 000	77%
2018/19	R118 969 000	R108 691 717	91%
2019/20	R113 146 000	R 86 952 232	77%

For the projects that are funded by MIG, the municipality spent 77% in 2019/20 financial year of the overall budget. The municipality submitted an application for approval of the rollover to National Treasury which was not approved but during 2020/21 financial year received an additional funding of R15 million.

CREDITORS

Creditors are paid within 30 days on receipt of an invoice.

2019-20 RATIOS

Current Ratio

The municipality had a current ratio of 7,3, which demonstrated that the municipality is in a healthy financial state, where its current assets were almost 7 times the value of the current liabilities. The municipality had a favourable working capital.

Acid Test Ratio

The municipality had an acid test ratio of 6.27, which demonstrated that the municipality had assets that could be quickly turned into cash to settle short term obligations. The municipality had an inventory of R373 600 at year end which is not that much material hence the Acid Test Ratio is equal to the Current Ratio.

Working Capital Ratio

The municipality had a favourable working capital of R118 359 319, however the rate of current assets to total assets was 20%, which means 80% of assets were long term in nature. This is however a small change as compared to previous year where the percentage was 83%.

Financing to Capital expenditure Ratio

The municipality had a ratio of 0%, as there were no long term loans at year end.

Gross Debtors to Annual Revenue Ratio

The municipality had a ratio of 63%. The municipality had a balance of R 19,224 million of long outstanding debtors. The collection rate is low; the situation is expected to improve after the implementation of credit control policy and collection initiatives.

Gross debtor days Ratio

The average number of day the debtors are due was 670 days. This demonstrates that the majority of municipal debtors are older than 365 days, thus are potentially bad.

Net debtors to annual revenue Ratio

The municipality had a ratio of 29%. The collection rate is low, so 71% of debtors were provided for impairment at year end. The situation is expected to improve after the implementation of credit control policy and collection initiatives.

Net debtor days Ratio

The average number of days the debtors after provision for impairment was 105 days; there has been an increase as compared to 89 days in previous year, was due to the fact that the municipality did not write off some of its debtors in the current year.

Receivables turnover Ratio

The municipality had a ratio of 218%. This means that the municipality is billing far more that what it is receiving from customers.

Debts written off as a percentage of total expenditure Ratio:

There were no debts written off during the year under review.

Debtors' impairment Ratio:

The ratio was 155%. This demonstrates that a majority of debtors are not recoverable and as such have to be provided for impairments. The main contributing factor is the debt from both households and business accounts. The municipality is in the process of implementing and enforcing the credit control and debt collection policy which will reduce the instance of billing indigent debtors.

Debt Ratio

The debt ratio is 4.7%, which means the municipality's assets far exceed the liabilities. Therefore there are no going concern issues for the municipality.

Debt / net asset position ratio

The debt ratio is 2147%, which means the municipality's assets far exceed the liabilities. Therefore there are no going concern issues for the municipality.

Non-current liabilities to revenue Ratio

The ratio is 1.6%. The long term liabilities of R 5 120 061 is far less than the revenue of R 317 269 726, which means the municipality has sufficient funds to meet its long term liabilities.

Total debt to annual operating revenue Ratio

The ratio is 8.7%; this means the revenue sources are sufficient to cover the total debts.

Debt to cash Ratio

The ratio is 4.46%; this means the revenue sources are sufficient to cover the total debts.

Total investments to total assets Ratio

The ratio is 15% of total assets are investments, which symbolizes the favourable financial position of the municipality. This also demonstrates a moderate level of liquidity.

Consultancy Ratio

The total amount spent on consultants was R2 730 669 which is 1.1% of the total expenditure cost of R 243 314 468. There has been no material change in terms of percentage when compared to the previous year. The municipality continued to generate its own internal capacity during the year. This is the indicator that the municipality is not overly reliant on consultants.

Fruitless & Wasteful Expenditure Ratio

The municipality incurred penalty interest on late payment of overdue accounts amounting to R4 389. This equated to 0.00% of total expenditure balance of R 0 which resulted from the R4 389 written-off by the council.

Irregular Expenditure Ratio

The municipality incurred irregular expenditure amounting to R 29 278 525 during the current year. This equated to 87% of the total expenditure balance of R 33 610 873. The balance includes both current year expenditure as well as current year expenditure relating to previous years. There is an increase of 0% as compared to previous years. Irregular expenditure was as a result of non-compliance with procurement requirements in current year and previous financial years. Irregular expenditure off by the Council.

Unauthorized expenditure Ratio

The municipality did not incur any unauthorised expenditure during the current year under review.

Unspent grants Ratio

The municipality had an amount of R16 million unspent conditional grant in relation to Municipal Infrastructure Grant that was not fully spent at year end.

FINANCIAL RATIOS (2018-19 Financial Statements)

Current Ratio

The municipality had a current ratio of 3.75, which demonstrated that the municipality is in a healthy financial state, where its current assets were almost double the value of the current liabilities. The municipality had a favourable working capital.

Acid Test Ratio

The municipality had an acid test ratio of 3.75, which demonstrated that the municipality had assets that could be quickly turned into cash to settle short term obligations. The municipality had an inventory of R253 475 at year end which is not that much material hence the Acid Test Ratio is equal to the Current Ratio.

Working Capital Ratio

The municipality had a favourable working capital of R142 273 793, however the rate of current assets to total assets was 20%, which means 80% of assets were long term in nature. This is however a small change as compared to previous year where the percentage was 83%.

Financing to Capital expenditure Ratio

The municipality had a ratio of 0%, as there were no long term loans at year end.

Gross Debtors to Annual Revenue Ratio

The municipality had a ratio of 184%. The municipality had a balance of R 11 million of long outstanding debtors. The collection rate is low; the situation is expected to improve after the implementation of credit control policy and collection initiatives.

Gross debtor days Ratio

The average number of day the debtors are due was 670 days. This demonstrates that the majority of municipal debtors are older than 365 days, thus are potentially bad.

Net debtors to annual revenue Ratio

The municipality had a ratio of 41%. The collection rate is low, so 30% of debtors were provided for impairment at year end. The situation is expected to improve after the implementation of credit control policy and collection initiatives.

Net debtor days Ratio

The average number of days the debtors after provision for impairment was 145 days; there has been an increase as compared to 53 days in previous year, was due to the fact that the municipality did not write off some of its debtors in the current year.

Receivables turnover Ratio

The municipality had a ratio of 100%. This means that the municipality is billing far more that what it is receiving from customers.

Debts written off as a percentage of total expenditure Ratio:

There were no debts written off during the year under review.

Debtors' impairment Ratio:

The ratio was 192%. This demonstrates that a majority of debtors are not recoverable and as such have to be provided for impairments. The main contributing factor is the debt from both households and business accounts. The municipality is in the process of implementing and enforcing the credit control and debt collection policy which will reduce the instance of billing indigent debtors.

Debt Ratio

The debt ratio is 8.29%, which means the municipality's assets far exceed the liabilities. Therefore there are no going concern issues for the municipality.

Debt / net asset position ratio

The debt ratio is 1206%, which means the municipality's assets far exceed the liabilities. Therefore there are no going concern issues for the municipality.

Non-current liabilities to revenue Ratio

The ratio is 1.74%. The long term liabilities of R6,1million is far less than the revenue of R 354,5 million, which means the municipality has sufficient funds to meet its long term liabilities.

Total debt to annual operating revenue Ratio

The ratio is 16.3%; this means the revenue sources are sufficient to cover the total debts.

Debt to cash Ratio

The ratio is 4.5%; this means the revenue sources are sufficient to cover the total debts.

Total investments to total assets Ratio

The ratio is 22% of total assets are investments, which symbolizes the favourable financial position of the municipality. This also demonstrates a moderate level of liquidity.

Consultancy Ratio

The total amount spent on consultants was R23,7 million which is 8.32% of the total expenditure cost of R 285.7 million. There has been no material change in terms of percentage when compared to the previous year. The municipality continued to generate its own internal capacity during the year. This is the indicator that the municipality is not overly reliant on consultants.

Fruitless & Wasteful Expenditure Ratio

The municipality incurred penalty interest on late payment of overdue accounts amounting to R2 926. This equated to 0.00% of total expenditure balance of R0 of which R2 926 was written-off by the Council.

Irregular Expenditure Ratio

The municipality incurred irregular expenditure amounting to R 61 095 403 during the current year. This equated to 101% of the total expenditure balance of R4 332 348. The balance includes both current year expenditure as well as current year expenditure relating to previous years. There is a decrease of 34% as compared to previous years. Irregular expenditure was as a result of non-compliance with procurement requirements in current year and previous financial years.

Unauthorized expenditure Ratio

The municipality did not incur any unauthorised expenditure during the current year under review.

Unspent grants Ratio

The municipality had no unspent grant, all the grants were fully spent.

REVENUE MANAGEMENT

LOANS

The municipality does not have loans and did not have for past three years.

The municipality has adopted an integrated revenue enhancement strategy that is under implementation.

ALIGNMENT

The SDBIP is aligned with the Goals and associated Objectives, and the Municipal Budget. (See attached SDBIP as Annexure 1)

SYSTEMS OF INTERNAL CONTROLS

Systems of Internal Controls are in place and includes the following:

- 1. Financial management system
- 2. Segregation of duties
- 3. Payables
- 4. Procurement Section
- 5. Stores
- 6. Disposal of Assets
- 7. Debtors
- 8. Property rates
- 9. Banking and Receipting
- 10. Petty cash
- 11. Safes and strong rooms
- 12. Inventory
- 13. Pay Roll
- 14. Investment Register
- 15. Bank Reconciliation

- 16. Leave Management
- 17. Information, Communication Technology
- 18. Unauthorised, irregular, fruitless and wasteful expenditure

SUPPLY CHAIN MANAGEMENT SYSTEM

Supply Chain Management Policy

Section 112 of the MFMA prescribes that the each municipality must have a supply chain management policy is fair, equitable, transparent, competitive and cost effective and complies with a prescribed regulatory framework for municipal supply chain management

Nyandeni Municipality has adopted a Supply Chain Management Policy as contemplated in the aforementioned legislative provisions and its regulations. The SCM System is responsible for the following key components

Demand management, acquisition management, Logistics management and disposal management

The Supply Chain Management Unit

Nyandeni Local Municipality has a functional Supply Chain Management Unit which is directly accountable to the Chief Financial Officer as prescribed by the MFMA and supported by the approved SCM Policy. The Unit is composed of the following staff compliment

SCM Manager, two SCM Officers, two SCM Practitioners and Stores Clerk

Supply Chain Management Bid Committees

The municipality has a functional Bid Committees which are appointed by the Accounting Officer Quarterly and have been trained on SCM

Bid Specification Committee

Bid Evaluation Committee

Bid Adjudication Committee

Training of SCM Staff on Competency levels

Currently SCM Staff is undergoing training with the University of Fort Hare. Bid Committee are trained two times a year to familiarise them with the reforms introduced by National Treasury.

SUPPLY CHAIN MANAGEMENT TURNAROUND TIME

In line with the SCM policy the average turnaround time for projects above R200 000 is 45 working days while the 7 days quotation is 10 working days.

Contract Management

Contract Management System is in place and composed of the Contract Management Register which encapsulate the following features

Date of the goods and services advertised

Appointed details of appointed service providers

Contract price and related details

Payment incurred versus awarded prices

Service Level Agreement signed between the municipality and agencies appointed

IMPLEMENTATION OF THE GENERAL VALUATION ROLL

The Municipality approved a General Valuation Roll in the Council that was held on the 27th of June 2018. That General Valuation Roll was due for implementation on the 1st of July 2018, which indeed it was implemented. Currently, the municipality is in a process of executing the updating of the supplementary valuation roll which will be finalised by 30 June 2021 and be effective in 1st July 2021.

The Municipality have the Valuation Roll and updated supplementary valuation roll, which was implemented in 2017/2018. Valuer for development of a Valuation Roll was appointed which was effective from 1 July 2018 as determined by the Minister by Notice in the Gazette for submission of project plan to MEC by municipality: Date of submission 31/03/2017 Section 81 (1B) (a).

Project plan for conducting valuation roll in terms of section 81 (1b) (a) of the local government: municipal property rates amendment act, 2014. (act no. 29 of 2014) adopted by the Council on the 26 April 2017, Council Resolution No. 2500/26-04-2017.

The Valuation Roll is published in the municipality website.

The municipality does promulgate the notice in terms of section 49 for public inspection of valuation roll. The Gazette number will be available once General Valuation Roll is available.

FINANCIAL REPORTING

mSCOA

The Council adopted SCOA Gazette on the 02 July 2014 with Council Resolution No. 2081/02-07-2014.

The implementation plan adopted by the Council on the 11th December 2014 with Council Resolution No. 2223/11-12-2014.

MSCOA Governance

SCOA Steering Committee; Implementation Team , Project Sponsor, Project Manager and Project Champion appointment was approved by the Council on the 25th January 2016 with Council Resolution No. 2380/25-01-2016.

Budget, IDP, AFS, Monthly and quarterly data strings are extracted directly from the financial system and uploaded successfully to LG data portal.

MFMA PRESCRIPTS

The municipality compiled and submitted the following reports by regulated time:-

Section 71

Section 52d

Section 72 and

Yearly Reports

FREE BASIC SERVICES

The municipality review the indigent register annually and the process of review has started.

Nyandeni Local Municipality has a functional Free Basic Services Unit, which is directly accountable to the Strategic Manager.

The Unit is composed of the following staff compliment:-

Free Basic Services Officer, FBS clerks and 2 Field Workers.

Governance of Free Basic Services

The municipality has established Indigent Steering Committees in 32 Wards, which serves as advisory bodies in decision-making process as well as dispute resolution platforms. The Indigent Steering Committees are chaired by Ward Councillors and convened quarterly. The council is the ultimate decision making body. The Indigent Policy has been reviewed and adopted by Council on May 2021.

1. PLANNING THE FUTURE OF NYANDENI LOCAL MUNICIPALITY

Vision

Drives sustainable socio-economic development through efficient and innovative delivery of services

Mission

Nyandeni will achieve her vision through a capable institution that:

- provides basic services to all her people
- creates an enabling environment for inclusive economic growth and development; through investments attraction;
- provides efficient integration and coordination of the delivery of infrastructure services

Council values

The King III report defines good governance as following:

"Good corporate governance is essentially about effective, responsible leadership. Responsible leadership is characterised by the ethical values of responsibility, accountability, fairness and transparency. Section 195 of the Constitution of the RSA, 1996 states that public administration must be govern by the democratic values and principles enshrined in the Constitution, including

- High standard of professional ethics must be promoted and maintained
- Efficient, economic and effective use of resources must be promoted
- Public administration must be development oriented

In line with the Constitution the municipality has adopted the following values, inter alia, in a process of developing service standard charter to give meaning and effect to these values

- a) **Diligence** (self-driven public representative and management team, commitment to serving the people, assertive in representing the interests of Nyandeni inhabitants)
- b) **Promptness** (responding to matters of public and citizens interests within reasonable time including acknowledging and keeping people informed of all municipal processes)
- c) **Integrity** (transparency, honesty, good democratic ethics, impartial on matters of public good and interest and building a public service that transcends political and social boundaries)
- d) **Accountability** (responsible, taking ownership, discipline, efficient and implanting a culture of a demand driven development paradigm)
- e) **Participative** (building a reciprocal relationship between management and all internal stakeholders, between council and administration, between labour and organizational leadership, and between the municipality and its citizens and social formations)
- f) **Responsive** (building a customer friendly municipal environment, ensuring a proactive, flexible, creative and quality conscious service delivery environment)
- g) **Considerate** (implanting a culture of compassionate, caring and emotional intelligent municipal environment that prioritizes its inhabitants, employees and councillors)

Strategic goals of the municipality

a) To ensure sound governance practices within Nyandeni local municipality

- a. Improving and strengthening intergovernmental relations
- b. Collaborative planning
- c. Fostering strategic partnerships
- d. By ensuring good corporate practices
- e. Effective municipal leadership and management
- f. Wise resource management
- g. Seamless programme management
- h. Ensuring a stable political environment
- i. Broadening and deepening local democracy through ward committees and beyond
- j. Ensure local accountability through continuous reporting system, local imbizos etc
- k. Implanting a culture of people centred people driven development
- ١.
- b) To provide sustainable services to all inhabitants of the municipality through
 - a. Physical infrastructure provision
 - b. Community and social services
 - c. Effective local economic development planning
 - d. Spatial development planning
 - e. Effective intergovernmental collaboration
 - f. Providing support to business development
 - g. Strategic sector planning and development

6.1 **Products and services as outlined in the powers and functions**

a) Physical infrastructure

- a. Municipal buildings
- b. Plant and equipment
- c. Community facilities [halls etc]
- d. Access roads
- e. Storm water
- f. Walkways, transport halts etc
- g. Dams (for grazing and to catalyze agriculture and farming)

h. Bulk infrastructure

b) Social services

- a. Primary health care
- b. Library services
- c. Social amenities
- d. Public safety
- e. Early childhood development
- f. Skills development

c) Environmental management

- a. Environmental health management services
- b. Environmental safety management
- c. Pollution control and management
- d. Environmental planning
- e. Environmental monitoring and compliance

d) Economic services

- a. Local economic development planning
- b. Tourism planning
- c. Land use management planning and zoning schemes
- d. Spatial planning
- e. Agriculture planning
- f. Transport planning
- g. Tourism planning
- h. Business regulations

Within the spirit and context of sound intergovernmental relations, Nyandeni Local Municipality accept and therefore locates its current and future strategic areas of focus within the broad national and provincial planning frameworks in terms of development and growth priorities for the Eastern Cape and nationally. As these broad frameworks embody the qualitative aspects of the national transformation trajectory, they thus inform and underpin our development priorities and strategic direction. Accordingly, the municipality crafted itself a macro-strategy as alluded to earlier and as detailed below.

Medium term macro institutional strategy

Recognizing the numerous and huge challenges it faces, the fact that solutions can potentially be in conflict with or complement each other, as stated above, the municipality conceptualized a medium term macro institutional strategy. The objective of this strategy is to equip leadership and management with a guide on decision making when there are conflicting strategic options. The macro/ overarching strategy will also provide a basis for the allocation of scarce resources. In addition, the macro strategy/overarching strategy will serve as a basis to rally collective energies of all employees and councilors in terms of the strategic direction the municipality is taking. This macro strategy was deduced from myriad institutional deficiencies, advances as well as development challenges. It is presented in the form of a diagram to illustratively communicate the dialectical inextricable interconnectedness of the components.

The diagram summarizes the medium term overarching institutional strategy of the municipality. Municipal objectives and their supporting strategies have been formulated in line with this macro strategy.

VISION 2030 DEVELOPMENT PLAN

Nyandeni Local Municipality has adopted a long term plan envisioning the future herewith refered as VISION 2030.

The overall purpose of Nyandeni LM Vision 2030 Development Plan is to articulate the key long-term development priorities of the Nyandeni LM between 2017 and 2030 and beyond. It outlines various strategic priorities and interventions to achieve the related desired district related outcomes linked to the National Development Plan (NDP) and the Provincial Development Plan (PDP) Vision 2030.

The priorities and interventions were informed by various national and provincial policies, such as the National Development Plan (2012), the Eastern Cape Provincial Development Plan (2014), the Eastern Cape Infrastructure Plan (2016), Provincial Economic Development Strategy, etc. It also builds on and complements the Nyandeni LM IDP (2017 – 2022).

Alongside these 5 Goals, the Nyandeni LM Vision 2030 Development Plan, also includes the following 5 pillars:

Pillar One: A significant improvement in the provision of public infrastructure and public services (and a great increase in supporting livelihoods in doing so)

Since the public sector presently dominates the NLM socio-economy it makes strategic sense to try to get better social value from public spending in the District. Better quality public services are a critical enabler of socio-economic development. There is also scope to significantly expand employment through public works and local procurement (particularly locally produced food for school nutrition programmes).

Since the public sector presently dominates the NLM socio-economy it makes strategic sense to try to get better social value from public spending in the District. Better quality public services are a critical enabler of socio-economic development. There is also scope to significantly expand employment through public works and local procurement (particularly locally produced food for school nutrition programmes).

Social infrastructure:

Future priorities are:

- Complete VIP toilet provision programme
- Eskom to complete household electrification programme
- Maintenance of existing and new stand-alone village water schemes
- Reticulation from two new Mthatha bulk water corridors into the new NLM urban development zone
- Municipal waste services to be delivered in new zone and other tourism and transport nodes.

Health:

Future priorities are:

- Programmes to improve child nutrition (early childhood development)
- Implementation of NHI upgrading.

Education and training:

Future priorities are:

- Improve the quality of education in NLM and reduce classroom backlogs.
- KSD TVET campus at Libode to provide skills, particularly for infrastructure, construction and maintenance and modern farming practices (Itsiya Youth Farming Initiative). Ideally the Libode campus should be extended and a full range of relevant curricula should be offered (in view of the very youthful population of NLM)
- Development partnerships between Libode TVET campus and, for example, SANRAL, War on Leaks, Youth Farming Initiatives, etc
- Mobilise resources for Libode TVET expansion and upgrading through relevant SETAs, mining companies etc
- NARYSEC should also be scaled-up in NLM
- Focus on improving the skills pipeline for growth sectors and major projects and specifically SETA resource mobilization and curriculum development.

Pillar Two: A well-managed urban development process in which urban nodes are linked by a good quality road and transport network

NLM is urbanizing in an unplanned and haphazard way. Socio-economic development will be enhanced through the creation of competitive towns. These must be well connected by good roads to each other and the rest of SA.

Future priorities are:

- Strong urban planning of Libode-Ngqeleni-Mthatha "urban development zone" is required. This requires joined up planning by NLM, KSD and ORTDM.
- Continued focus of public investment in this area, and ensuring that it becomes a competitive and investment attractive area.
- Municipality must acquire more well-located land that can be made available for investors (see section below on property development).

Road and transport network:

Future priorities are:

- Construction of two main planned roads (R61/N2 and Meander)
- Ensure that the Meander road links to coastal resorts (such as Hluleka)
- Upgrade roads in the new emerging urbanization zone.
- Maintain priority road network (preventative)
- Use employment-intensive methods as much as possible
- Use transport nodes to develop commercial precincts (taxi ranks, hawkers facilities, shops etc)
- Recognise the potential of Mthatha Airport cargo facilities for future NLM development.

Pillar Three: Well protected environmental assets

Various environmental issues threaten socio-economic development, and in particular tourism development and agricultural development.

The environmental issues to be addressed include:

- Land degradationⁱ caused by livestock over-grazing (estimated at 30% in NLM), indicating the need for land rehabilitation projects (and fencing)
- Human settlement encroachment on agricultural land.
- Untreated sewage flowing into rivers (such as Mthatha river)
- Illegal building on the Wild Coast. DEDEAT's Wild Coast Nature Conservation Plan and the nodal development approach need to be strictly enforced.
- Absence of solid waste disposal and recycling systems

Pillar Four: A growing, innovative/responsive and inclusive economy (increasing value-added from ICT/knowledge services, smallholder agriculture, tourism, property development and SMME's/co-ops etc)

The public sector cannot develop NLM by itself. There is a need to grow the enterprise (SMME) sector. All the other strategic objectives are enablers of business growth. There is also a need for specific interventions to grow particular business sectors.

Agriculture:

NLM has the potential to grow the value of production by the farming sector. This is for a number of reasons:

- Good rainfall (700 mm/year), sufficient for rain-fed arable farming.
- 160,000 ha of communal grazing land (unimproved and 30% degraded) and large existing herds of cattle, sheep and goats. There is potential for growth based on more intensive systems, managed pastures and feedlots.
- 40,000 ha of communal arable land.
- Estimated 21,000 ha of *isitiya*.
- 70% of NLM households engage in unpaid farming activity: at Itsiya and on communal lands. Food
 production (meat, maize, vegs, fruit etc) is happening, but with low productivity. There is potential to
 grow high-value crops on itsiya (such as berries) with irrigation from roof-water tanks. Logistics systems
 would need to be devised for aggregation into large-scale supplies.
- A significant proportion of households grow and sell (illegal) cannabis. Household income from this source could increase by many times with controlled legalisation and international market access.
- High potential cultivation zones, such as at Mhlanga (west of Marubeni) and Malungeni (west of Ngqeleni) are well-located for access to large Mthatha food markets and future business opportunities associated with the Wild Coast SEZ and air cargo facilities at Mthatha airport.
- Future partnerships between NLM farmers and commercial entities being planned by DRDAR.
- Opportunities for local production to supply school nutrition programme.
- Niche opportunities, such as indigenous medicinal plants at Hluleka and essential oils.

However, the farming sector faces a number of challenges, such as:

- Past interventions by DRDAR, AsgiSA, Ntinga etc have not created sustainable and profitable agricultural production.
- Large-scale irrigation from river water is limited by small areas of arable land next to perennial rivers.
- Communal land tenure hinders investment by private capital.
- Small farmers have inadequate access to farming knowledge and skills; water infrastructure; fencing; mechanization; inputs (such as seedlings); finance and markets

The future priority is therefore to realise the potentials of the municipality through addressing the various challenges.

A detailed prospectus for partners and investors should be prepared around agricultural development opportunities in NLM, including Isitiya Youth Development Programme. This should be a broad-based programme to unlock the potentials listed and involve a wide-range of partners.

NLM needs better agricultural interventions that can create and support profitable smallholder enterprises (through, for example, CPPP's, contract farming arrangements/outgrower schemes, and collection/aggregation systems).

Forestry:

Large areas of NLM have moderate and good potential for forestry. There is already 7000 ha of indigenous forest and 3000 ha of plantation forest

Community forestry initiatives are being pursued by Hans Merensky near Qumbu and near Lusikisiki (by Sappi). ECRDA is involved. These companies could be interested in similar projects in NLM.

There are two main issues with community forestry. Firstly, the economic return to communities are fairly small (long-term and small, particularly when there are hundreds of household beneficiaries). Secondly, afforestation takes land away from other land uses (such as grazing and arable farming) that may offer better economic returns.

Future community forestry projects should therefore be approached with due caution.

Community forestry projects demonstrate that CPPP's can work. CPPP's should be more prevalent in more employment-intensive sectors.

Commerce and manufacturing:

NLM has a commercial sector, with shops in the two towns, six rural service centres/transport nodes and some villages. The manufacturing sector is extremely small. Future priorities are:

- Commercial property developments (see section below)
- Upgrade of Transido complexes
- Attraction of new incubators
- Explore potential of light industry development (e.g. on new N2 Libode-Mthatha corridor).

Tourism:

NLM has considerable tourism development potential based on the eastern coastal escarpment and 20 km of Wild Coast.

Priority for tourism development include:

- Wild Coast Meander linked to new N2 at PSJ
- Access roads from Meander to tourism nodes (Hluleka NR and Mdumbi etc)
- Investment attraction to tourism nodes
- Mdumbi hotel project
- Mlengana Mountain ecotourism project
- Ntlangano Conservancy project
- Possible new hiking trail from Mlengana Mountain to Ntlangano

Property development:

There are many opportunities for private property development in NLM.

Future priorities are:

- Resolve land claims speedily (with assistance from the Land Claims Commission)
- NLM to do a state land audit and get access to state land for property development.
- NLM to acquire communal land for development. DRDLR can assist with this.
- Identify and prioritise land to be titled for private investment (such as coastal tourism nodes; transport nodes; along development corridors and possibly high-potential agricultural zones). This will be in preparation for the proposed ORTD Land and Economic Investment Summit planned for early 2018.

Start-ups, small/micro enterprises and co-operatives (SMME's):

Small enterprises are found in all the sectors reviewed above, with great variation in incomes and formality. Future priorities are:

- Use e-connecting and e-learning to form local groups of people that share development interests, and are experimenting with the possible.
- Techniques of ABCD should be more widely known and practised
- Virtual and physical (combined) enterprise incubators should be more ubiquitous than at present.

Pillar Five: An efficient and effective public sector with improved ability to give economic governance leadership

Public sector institutions need to be strengthened to support the achievement of the other strategic objectives. To achieve its developmental mandate the public sector must have strong leadership and much improved management capabilities. NDP and ECPDP have proposals on how this can be achieved. Economic governance leadership in NLM should have:

- A well-informed about the economic issues facing NLM
- A good understanding of the needs of stakeholders
- A clear development vision and agenda
- An ability to communicate these persuasively to relevant stakeholders.
- An ability to leverage resources from state sector departments and state-owned entities (such as IDC and PIC).

The strategy hinges on three dialectically inextricable intertwined components. These are:

- a) Consolidate institutional stability and robustness
- b) Accelerated quality and sustainable service delivery
- c) Local economic growth and quality of life

These key components should, and do overlap, in terms of timing. However there is also some sequence in terms of focus. The initial focus being on building a formidable municipal organisation; thus consolidate institutional stability and robustness which will, as it is being consolidated, be able to contribute towards improving living environments. The municipality will commit resources to ensure such institutional efficacy leads to sound financial management, effective revenue generation and ultimately financial viability. In terms of governance, although the municipality has managed to establish a functional intergovernmental relations cluster system at both political and administrative levels, its impact in terms ensuring effective integrated development planning and management and establishment institutional cohesion between the municipality and all other critical role partners is still to be realised. The aim is to lobby all other local municipalities within the OR Tambo District to institutionalize an intergovernmental regime that emphasized a district – wide municipal support system.

- a) To support all municipalities in **financial administration** in order for them to be financially sustainable.
- b) To support all municipalities on **human resources** related issues for the purposes of sound management systems and a stable environment in terms of their labour force.
- c) To support all municipalities in **administration** for the purpose of effective operations of Council activities.
- d) To support and assist all municipalities on **technical** issues in order for them to manage their projects and to handle the technical aspects thereof.
- e) To support and assist all municipalities in developing and reviewing their Integrated Development Plans (IDPs) and the establishment of Performance Management Framework which embeds a district-wide enjoinment

These programmes should in the main be an outcome of shared institutional knowledge and cross – municipal – referencing in which outsourcing of certain support functions is the last resort. The ultimate vision is establishment of a shared services centre towards a seamless district institutional regime. The Nyandeni Local Municipality is not oblivious to the fact that current intergovernmental relations within OR Tambo District are experiencing serious challenges.

Over and above this approach towards effective intergovernmental relations, the municipality will strengthen its advocacy and lobbying capacity towards ensuring improvement of IRG. The strategic focus of such a system should be the following key objectives. The other crucial element within this component is systematically building public confidence and a reciprocal relationship between the municipality and its citizenry including all stakeholders within its jurisdiction.

This will lead to an institutional service delivery efficacy where sustainable and quality service delivery should lead to development of a law abiding, citizenry with high moral values. This stable economic and political environment will also lead to improved livelihoods characterized by a healthy and skilled citizenry with high moral values enjoying employment in a robust employment creating economy which will in turn lead to better payment for services, better participation in the activities of the municipality, improved accountability by public representatives and municipal administration to the community. This will lead to a municipality that is characterized by improved financial viability, good governance, and qualitative public participation. Such a municipality should be able to deliver services, regulate citizens and businesses, facilitate development, and provide effective support to all Ward Committees and other organs of development to deepen democracy and thus high levels of political stability.

All of this will have to happen in a context of, and reinforce effective intergovernmental relationships. This positive feedback loop will deliver the vision of the municipality. The reversal of the positive feedback loop, anticipated

above, is a real possibility. If the municipality fails to consolidate itself as a robust institution, it will not be able to accelerate service delivery, it will not be able to create the required environment for local economic growth, and it will not be able to contribute towards improving living environments. In turn, livelihoods will not improve, leading to high levels of unemployment with a generally unhealthy and unskilled citizenry with low moral values living in poverty and a lawless local environment. This will in turn erode the legitimacy of the Nyandeni Local Municipality as government. The institution will be characterized by citizen apathy, high levels of non-payment for services, and deteriorating standards of governance. Corruption, in this context, will be inherent and possibly high labour turn – over. Leadership will therefore have to strive to ensure that the feedback loop is not reversed. Difficult choices will have to be made and unpopular strategies will be implemented, where necessary, in support of the positive feedback loop.

In line with this line of strategic thinking, the strategic planning workshop developed a municipal scorecard as presented below.

2. Strategic scorecard

The municipal strategic scorecard has been developed, aligned and incorporated into the IDP process. For purposes of this strategic plan, it has not been reviewed. What has been done is a high – level assessment against the national outcomes and the conclusion is that to a greater extent the scorecard covers all essential components that should lead to the municipality achieving these national outcomes.

7.1 National outcomes

For easy reference under listed are the national outcomes alluded to above;

- a) A responsive, accountable, effective and efficient local government system
- b) A developmental oriented public service and inclusive citizenry
- c) Decent employment through inclusive economic growth
- d) An efficient, competitive and responsive economic infrastructure network
- e) Vibrant, equitable and sustainable rural communities and food security
- f) Improve the quality of basic education
- g) Improve health and life expectancy
- h) All people in South Africa are and feel safe
- i) Sustainable human settlements and improved quality of household life
- j) A skilled capable workforce to support inclusive growth

7.2 Provincial priorities

The high-level assessment of the scorecard was also administered against the provincial objectives to check the extent of confluence with the municipal strategic scorecard. For easy reference, these are listed below;

i. Provincial strategic objectives

- a) Poverty eradication,
- b) Agrarian transformation,
- c) Diversification of manufacturing and tourism,
- d) Massive infrastructure development,
- e) Human resource development and
- f) Public sector transformation.
 - ii. Provincial targets (indicators)

ALIGNMENT WITH NATIONAL AND PROVINCIAL PRIORITIES AND PROGRAMME OF ACTION

Firstly, The IDP has been aligned with Province of the Eastern Cape MTSF Priorities as outlined by the Premier during his State of the Province address Secondly, we have taken into account The Medium Term Strategic Framework which has been translated into practical programmes Thirdly,

1.6 OFFICE OF THE PREMIER-

• To date OTP have completed four (4) projects, two (2) are currently on construction and one (1) Project is on planning as part of the STR intervention projects which started in 2017 and will end in March 2022.

• Already R 60.4 million have been spent by OTP in Nyandeni LM to improve service delivery while ensuring that the two towns of Ngqeleni and Libode are revitalized and integrated.

• More than 151 jobs were created through the STR projects.

• 10 SMME's and 19 local suppliers benefitted from business opportunities created through the STR projects and more will benefit.

• Project No.1: Electrification of Libode and Ngqeleni – completed in November 2017 on time at a cost of 6 million

Project No. 2 Libode Internal Street completed in May 2018 at cost of R 22 393 000

• Project No.3 Ngqeleni Internal Streets completed in February 2019 at cost of R 15 500 000 (variation amount- R 3 235 593)-

Project No.4 Libode Transport Hub construction on progress at cost of 17 million (contract seeded due to poor performance)

- Project No.5. Libode Infill Site, project stopped due to community protests (cost: R 10 700 000)
- Project No.6 Construction of T301

7.7 Department of Agriculture. Forestry and Fisheries

The Department of Agriculture, Forestry and Fisheries has DAFF invited expression of interest from all communities who want to be included in Small Scale Fisheries herewith referred as "SSF" sector, the objective of the programs are

- Create a sustainable, equitable, small-scale fishing sector
- Secure the well-being and livelihood of small-scale fishing communities
- Maintain the health of marine ecosystems

• Uplift fishing communities by providing appropriate support mechanisms, education and training, infrastructure and participatory management practices.

Communities and Government co-manages near-shore marine living resources

• Takes fundamental human rights, MLRA principles and international obligations into account

• Give due regard to promoting interests of women, disabled and child-headed households

In Nyandeni the following communities responded to the call for expression of interest

- a. Hluleka
- b. Mamolweni
- c. Lwandile

d. Mngcibe

e. Tshani-Mankosi
