# CHAPTER 1 - MAYOR'S FOREWORD AND EXECUTIVE SUMMARY

# COMPONENT A: MAYOR'S FOREWORD

#### MAYOR'S FOREWORD

Section 46 of the Municipal Systems Act, Act 32 of 2000, compels local government to prepare for each financial year an Annual Performance Report. The objective of the Annual Performance Report is to provide a credible, reliable, and accurate assessment of the Municipality's progress in achieving its targets and goals as set out in the Integrated Development Plan (IDP) and Service Delivery Budget Implementation Plan (SDBIP) for the financial year under review.

The report outlines our successes and shortcomings as they relate to our legislated mandate as local government and can be regarded as a performance dashboard in the interest of transparency and accountability to the community, stakeholders, consumers, and rate payers. It must also reflect the development and service delivery priorities and the performance targets set by the Municipality for the following financial year; and measures that were or are to be taken to improve performance.

The vision of Matjhabeng Local Municipality is to be a benchmark developmental Municipality in service delivery excellence. Our objective therefore remains to build a Municipality that is efficient, effective, and responsive; that strengthens accountability, promotes corrupt-free operations; accelerates service delivery, and supports the vulnerable. Further, to promote economic and social development and to foster development partnerships and social cohesion. We have been striving to improve service delivery despite the challenges, especially the infrastructure decay and lately water shedding implemented by Bloemwater. Our consistent engagement with residents through Mayoral Imbizos assisted in keeping residents informed about challenges and plans to resolve them. The Minister of Water & Sanitation's intervention on our sewer networks has normalized the situation. In the next financial year, the appointed contractors will repair the damaged pump stations and Wastewater Treatment Plants. We are grateful for this assistance to the community of Matjhabeng.

Several measures that were put in place to ensure a financially viable and service delivery-orientated Municipality started to show positive results. These are driven by the governance vision of the Office of the Executive Mayor as supported by the Council, i.e.

- Building in-house capacity and reducing costly outsourcing.
- Quality service delivery.
- Professionalized service delivery and a de-politicized Administration.
- Reduction in overtime and more productive output during working hours.
- Financial stability and good governance/oversight.
- Consequence management.

I herewith present the Annual Performance Report for the 2022-2023 financial year on behalf of Matjhabeng Local Municipality. Numerous challenges that we encountered during the 2022-2023 financial year are now being addressed even though we are not yet out of the woods. Deliberate sabotaging and vandalism of municipal property and resources remains a challenging, costly factor. The daily challenges with ageing and poor infrastructure, linked with limited financial and human resources, continue to place strain on the ability of Matjhabeng Local Municipality to provide and improve service delivery. Regardless of these challenges, every effort is being made to improve service delivery performance.

Matjhabeng Local Municipality remained resilient – and continues to do so - towards achieving its planned goals to ensure that the community is provided with service delivery.

The municipality is doing everything to attract investors who will create job opportunities. Moving from the concept of mine closure to mine transformation – considering the environmental as well as societal and economic effects of mining – provides new opportunities to fill the economic and governance vacuum of mines closing, easing the traumatic transition for affected communities, and contributing to securing resilient future livelihoods. Matjhabeng Local Municipality is aggressively pursuing new opportunities. In responding to the socio-economic and development challenges facing us, several activities are in progress to attract new investment to our area. We hosted the successful Safety & Security Summit, Economic Summit, and Investment Summit to lay the foundation as we endeavor to improve economic capacity as a municipality.

Our financial situation is not looking good, and this is due to non-payment of municipal services. We are planning to install smart meters starting in areas that are not paying for services in the next financial year, this will ensure that residents can pay in advance for the services they receive. Mayoralimbizos are used to explain to residents the importance of paying for services as a revenue-generatingtool for funding service delivery. Tightening the municipal budget also resulted in a reduced capital development programme in funding the financial year under review and capital investment is now reliant on grant funding.

Other strategies focusing on performance management were also put in place and consequence management was introduced. We need to tirelessly seek and find improved mechanisms to strengthen the accountability and discipline of officials in their daily work, both to each other and to political principals.

Most critical vacant posts were filled in the financial year under review, mostly in the Directorate Infrastructure and Technical Services, to fast-track service delivery of water, electricity, and sewer services. Anti-fraud and corruption measures will be followed up with fraud risk assessments. Service Delivery Fleets such as Tipper Trucks, Compactor Trucks, Cherry Pickers, TLB, Graders, Bakkies, and Fire Engines were purchased during the year under review to improve service delivery. We are going to improve controls to better manage the fleet of the municipality.

The structures of governance at Matjhabeng Local Municipality are intact and functional. Besides the Council and the Mayoral Committee, both of which meet regularly, a functional Audit Committee and Municipal Public Account Committee (MPAC) is in place. The Executive Mayor introduced a Governance Steering Committee on accounting and compliance that complements the work, of the Auditor General and monitors the implementation of recommendations by the Auditor General on a fourth nightly basis. I want to assure the community and stakeholders that Matjhabeng Local Municipality is committed to building a Municipality that is efficient, effective, accountable, and responsive in accelerating service delivery and supporting vulnerable communities by promoting local economic development and social development.

### CLLR T.D. KHALIPHA EXECUTIVE MAYOR

#### COMPONENT B: EXECUTIVE SUMMARY

# 1.1. MUNICIPAL MANAGER'S OVERVIEW

## MUNICIPAL MANAGER'S OVERVIEW

Following the new Political Administration, the Matjhabeng Local Municipality developed and approved a new Integrated Development Plan (IDP) for the next five years (2022 to 2027). Our bold, new vision is to be a benchmark developmental municipality in service delivery excellence".

The Municipality is committed to partnering with communities, despite the prevailing challenges of the day, to create a thriving municipality with a growing economy and improved dignity for all. This Service Delivery and Budget Implementation Plan (SDBIP) guides the implementation of the IDP for the first year of its lifespan. Irrespective of the prevailing economic decline within the municipality, the fundamentals of service delivery must still be achieved as required by the constitutional mandate.

The SDBIP is supported by a robust budget, aligned with our priorities, that offers residents, investors, businesses, and visitors hope. Among the priorities, we intend to refurbish our wastewater treatment plants, and water infrastructure, enhance crime prevention interventions, clean up our public spaces, release more land for economic growth and special economic zones, and develop smart cities through Vision 2050. We care deeply about the most vulnerable residents in our municipality. Hence, the SDBIP includes a significant social package of relief for indigent residents. Community wealth is achieved through sound financial management and the safeguarding of infrastructure, property, and assets. The implementation of our capital budget commitments will ensure that the municipality protects and grows the community's wealth through infrastructure replacement, renewal, and enhancement to ensure resilience and sustainability in Matjhabeng's local municipality.

Delivering on the commitments reflected in the IDP and the SDBIP is critical. I implore all employees of the municipality to be result-driven and focused on outcomes, to embrace collaboration, and to be committed to openness and transparency. This must be done effectively and efficiently within the bounds of the relevant legislation. The municipality has zero tolerance for corruption, fraud, non-compliance, and unethical practices.

The service delivery mechanisms taken by the administration are open to scrutiny and critique and as such public accountability is the order of the day and most welcome. As the Accounting Officer of Matjhabeng Local Municipality, I can confirm that we will do the fundamentals correctly to ensure every resident and visitor to Matjhabeng local municipality has an empowering experience and that we remain accountable.

# 1.2. MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW

#### INTRODUCTION TO BACKGROUND DATA

Matjhabeng Local Municipality is an administrative area in the Lejweleputswa District of the Free State in South Africa, that includes the city of Welkom. The name is a Sesotho word meaning "where nations meet". It is derived from the migrant Labour system where people from various countries like Lesotho, Mozambique, etc. meet to work in the mines of the Goldfields.

The municipality covers an area of 5,155 square kilometers (1,990 sq mi) in the goldfields of the central Free State, north of Bloemfontein and south of Kroonstad. According to the 2011 census, it has a total population of **406 461** people, of which 87,7% are black African. The coloured population makes 2,1%, and 9,6% are white.

Matjhabeng Local Municipality has six major towns which are Allanridge, Hennenman, Odendaalsrus, Ventersburg, Virginia, and Welkom.

In the western part of the municipality, there is a string of mining towns that runs from northwest to southeast: Allanridge with a population of **19 337**, Odendaalsrus with a population of **63 743**, Welkom with a population of **220 209**, Virginia with a population of **67 191**. Further to the east are the agricultural towns of Hennenman with a population of **24 721** and Ventersburg with a population of**11 260**.

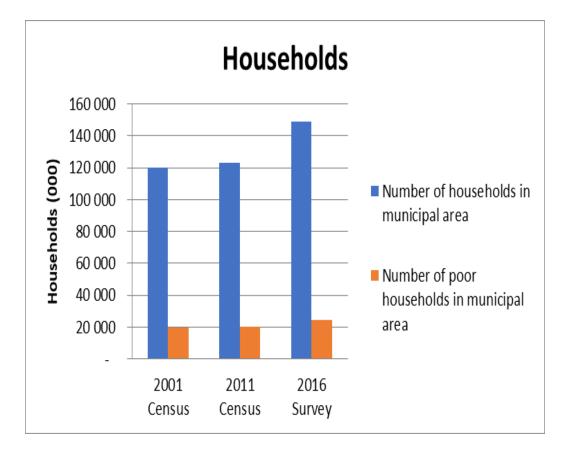

According to the 2016 Community Survey Report, the population increased to **429 113** people, of which 88.9% are black. The coloured population makes up 2.4%, the Indian population makes up 0.3% and 8.5% are white.

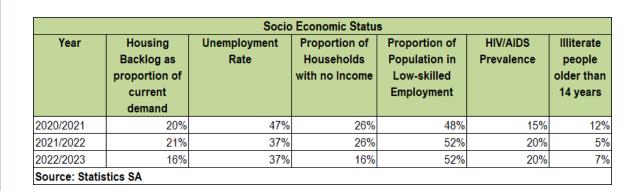

Whilst the population size of the Municipality showed increases during the community survey results, this trend has brought tremendous pressure on the Municipality to deliver more services at increased costs due to the affordability levels of beneficiaries. As a result, more services due to communities become difficult to provide. With increased population size, there is also pressure to create employment and hence the figure for the economically inactive population stood at 42% during the 2011 population census in the Municipality. In other words, we have people who are looking for work but cannot find such work opportunities.

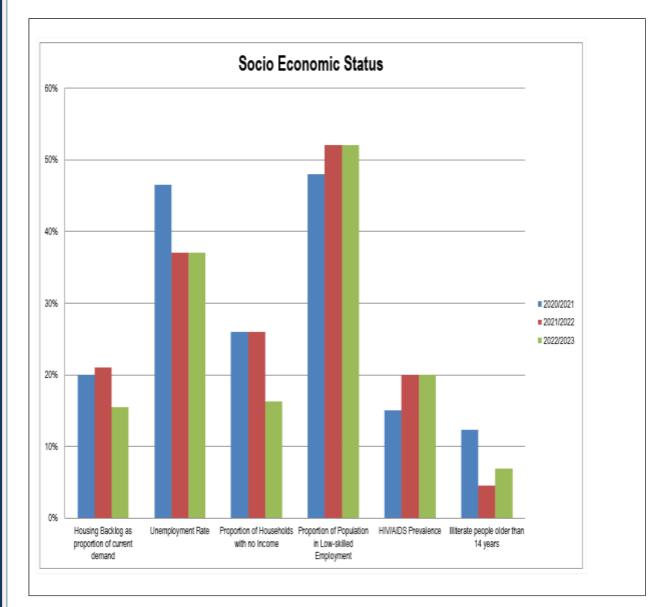

This is further made complex by the reality that people are not educated enough to seize opportunities made available by businesses located in the area. It should therefore become a priority for the Municipality to create menial job opportunities for possible job creation to boost the economy which should effectively absorb some unemployed people in badly affected towns in the Municipality.

This Virginia Gas Project covers over 187 000 Hectors around Welkom, Virginia, and Theunissen.</li> <li>This gas find therefore represents an opportunity for creation of hundreds of jobs in the downstream economies.</li> </ul> |  |  |  |

# COMMENT ON BACKGROUND DATA:

Matjhabeng Local Municipality has two (2) Major Natural Resources – Gold and Natural Gas Reserves. There are several active mines that employ residents of Matjhabeng. New gold mining development is planned in areas within the Municipality.

Given the current employment trends, the Municipality has created an opportunity for investors to locate businesses in less attractive areas to boost the economic situation there. Areas such as Virginia and Odendaalsrus are receiving special attention as they once played an economic role in the economy of the region when mining activities were at their peak.

Matjhabeng Local Municipality held investment summits from 2021 with the sole purpose of marketing the Municipality and encouraging local and foreign direct investment in the municipality. The municipality is open for business and investors with a keen interest in development can approach the Municipality on a variety of issues including land availability agreements, available investment incentives and other opportunities to be offered in the coming special economic zone to allow and enable immediate investment and commitments on industries of interest by investors.

# 1.3. SERVICE DELIVERY OVERVIEW

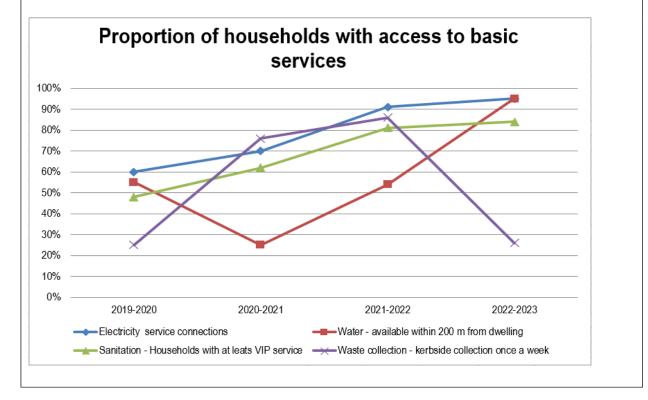

# SERVICE DELIVERY INTRODUCTION

In terms of the legislation, the municipality's mandate is to provide the following basic services to the communities it serves:

- Water
- Sanitation
- Electricity
- Refuse Removal

In addition to these basic services, the Member of the Executive Council in the Province responsible for Corporative Governance and Traditional Affairs can promulgate powers and function to a municipality as envisaged by section 84 of the Local Government: Municipal Structures Act, 117 of 1999.

| Proportion of Households with minimum level of Basic services |     |     |     |     |  |  |  |
|---|-----|-----|-----|-----|--|--|--|
| 2019-2020 2020-2021 2021-2022 2022-202                        |     |     |     |     |  |  |  |
| Electricity service connections                               | 60% | 70% | 91% | 95% |  |  |  |
| Water - available within 200 m from dwelling                  | 55% | 25% | 54% | 95% |  |  |  |
| Sanitation - Households with at leats VIP service             | 48% | 62% | 81% | 84% |  |  |  |
| Waste collection - kerbside collection once a week            | 25% | 76% | 86% | 26% |  |  |  |

#### COMMENT ON ACCESS TO BASIC SERVICES:

We have been constantly faced with continuous sewer blockages, especially in greater Thabong which falls within wards 12, 13, 14, 15, 16, and 17 on the main.

Service delivery is hampered by the following challenges:

- 1.3.1 Ageing Road Infrastructure
- 1.3.2 Aging and vandalism of street lighting infrastructure
- 1.3.3 Availability of residential sites for low- and high-income housing
- 1.3.4 Low economic growth and high unemployment rate particularly among the youth
- 1.3.5 High levels of crime
- 1.3.6 Decaying water infrastructure resulting in high water loss.

Amidst all the challenges, the municipality showed resilience to positively respond deftly in addressing these challenges. A total of 76 service delivery vehicles have been procured and 2 were donated by the Department of Forestry.

# 1.4. FINANCIAL HEALTH OVERVIEW

#### FINANCIAL HEALTH OVERVIEW

The municipality's total revenue for the period under review was projected at R 3 677 668 639, and the actual revenue accrued was R 2 918 295 515, which translates to a total of 79% actual revenue received.

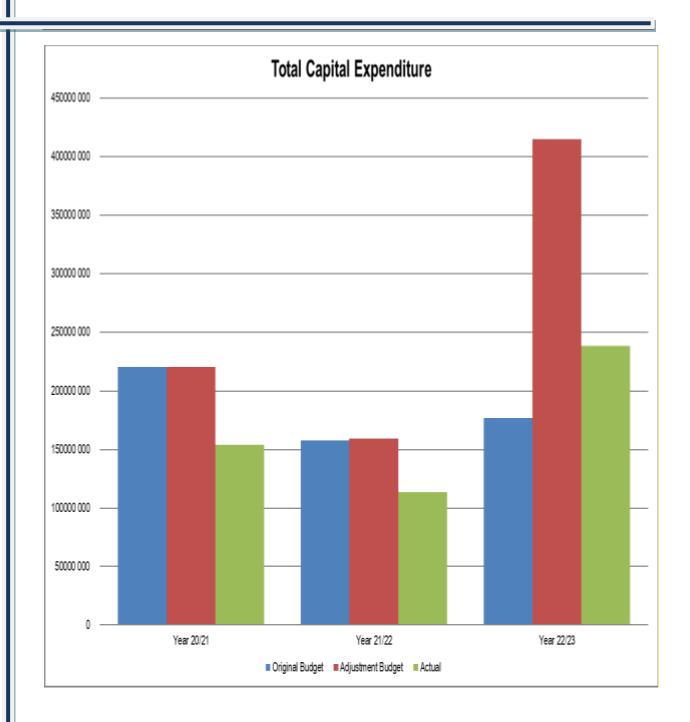

This amount of R 2 918 295 515 includes the grand funding of R 636 814 500, taxes, levies, and tariffs of R 1 823 813 761, and other revenue of R 457 667 254.

The expenditure was budgeted at R 3 581 346 778 and the actual expenditure was R 4 290 332 372, which is an underspending of R 708 985 594.

# 1.5. ORGANISATIONAL DEVELOPMENT OVERVIEW

# ORGANISATIONAL DEVELOPMENT PERFORMANCE

The generic performance management cycle is the cycle of activities that recur in any social system that is serious about improving itself and how it works within the external environment, whether the system is an employee, team, recurring process in the organization, or the organization itself. The cycle clarifies the purpose of the system, its goals in working toward the purpose, and how those goalswill be achieved. As it works to achieve them, it continually evaluates its progress and makes any necessary changes to improve its progress. In an overall organization, the organizational performance management cycle includes three highly integrated phases including:

- □ Performance planning
- □ Performance appraisal
- □ Performance improvement

Significant organizational activities occur within each of the three phases, including:

- □ Strategic planning to clarify the purpose, goals, and strategies to achieve the goals (performance planning).
- □ Adopting the necessary organizational structures as a strategy to achieve the goals (performance planning).
- □ Guiding the necessary organizational behaviours, including the necessary nature of its leadership and management, as a strategy to achieve the goals (performance planning).
- □ Organizational evaluations/diagnoses to monitor progress toward the goals (performance appraisal).
- □ Organizational changes to achieve goals even better (performance improvement).

Each of these significant activities is also a cycle of highly integrated activities. The way that a social system does an organizational cycle depends on its culture, its current life cycle, and the expertise of the leaders and managers in the system. The same is true for an individual, depending on his or her personality, maturity, and expertise in leading and managing oneself. However, the nature of the generic performance management cycle is changing as the world around us is changing. This affects performance management in organizations, teams, and employees.

# 1.6. AUDITOR GENERAL REPORT

AUDITOR GENERAL REPORT: YEAR 2022-2023

AUDIT OF THE FINANCIAL STATEMENTS. The municipality received a qualified audit opinion for the 2022/2023 audit of financial statements, the basis for a qualified opinion is Service Charges and Payables.

AUDIT OF THE ANNUAL PERFORMANCE REPORT: The municipality received an unqualified audit opinion for the 2022/2023 audit of the performance report.

# 1.7. STATUTORY ANNUAL REPORT PROCESS

| No | Activity   | Timeframe            |  |  |  |
|----|--|----------------------|--|--|--|
| 1  | Consideration of next financial year's Budget and IDP process plan. Except for the legislative content, the process plan should confirm in-year reporting formats to ensure that reporting and monitoring feeds seamlessly into the Annual Report process at the end of the Budget/IDP implementation period |                      |  |  |  |
| 2  | Implementation and monitoring of approved Budget and IDP commences (In-<br>year financial reporting).  | July                 |  |  |  |
| 3  | Finalise the 4th quarter Report for previous financial year  |                      |  |  |  |
| 4  | Submit draft year 2022-2023 Annual Report to Internal Audit and Auditor-General  |                      |  |  |  |
| 5  | Audit/Performance committee considers draft Annual Report of municipality and entities (where relevant)  |                      |  |  |  |
| 6  | Mayor tables the unaudited Annual Report   |                      |  |  |  |
| 7  | Municipality submits draft Annual Report including annual financial statements and performance report to Auditor General   |                      |  |  |  |
| 8  | Annual Performance Report as submitted to Auditor General to be provided as input to the IDP Analysis Phase  |                      |  |  |  |
| 9  | Auditor General audits Annual Report including Annual Financial Statements and Performance data  | September<br>October |  |  |  |
| 10 | Municipalities receive and start to address the Auditor General's comments   |                      |  |  |  |
| 11 | Mayor tables Annual Report and audited Financial Statements to Council complete with the Auditor- General's Report   | November             |  |  |  |
| 12 | Audited Annual Report is made public and representation is invited   |                      |  |  |  |
| 13 | Oversight Committee assesses Annual Report   |                      |  |  |  |
| 14 | Council adopts Oversight report  |                      |  |  |  |
| 15 | Oversight report is made public  | December             |  |  |  |
| 16 | Oversight report is submitted to relevant provincial councils  |                      |  |  |  |
| 17 | Commencement of draft Budget/ IDP finalization for next financial year. Annual Report and Oversight Reports to be used as input  | January              |  |  |  |

# COMMENT ON THE ANNUAL REPORT PROCESS:

Previously, the municipality has complied with the set timeframes, and the Annual Report and Annual Financial Statements were submitted by 31 August to AGSA. Commencement of draft budget and IDP for the next financial year started within the prescribed timeframes.

Local government in South Africa is mandated by legislation to develop an Integrated Development Plan (IDP) and a performance management system to direct and ensure the delivery of services to the communities that the municipalities serve. The performance management system is a tool that can monitor, review, and improve the implementation of the IDP. Given that the performance management system and IDP are complementary systems, they must be aligned.

# CHAPTER 2 – GOVERNANCE

# INTRODUCTION TO GOVERNANCE

Governance comprises all the processes of governing, whether by the government of a state, by a market, or by a network over a social system, formal or informal organization, territory or across territories, and whether through the laws, norms, power, or language of an organized society. It relates to "the processes of interaction and decision-making among the actors involved in a collective problem that lead to the creation, reinforcement, or reproduction of social norms and institutions".

# COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

# INTRODUCTION TO POLITICAL AND ADMINISTRATIVE GOVERNANCE

Political Governance in layman's terms, could be described as the political processes that exist in and between formal institutions. A variety of entities (known generically as governing bodies) can govern. The most formal is a government, a body whose sole responsibility and authority is to make binding decisions in a given geopolitical system (such as a state) by establishing laws. Other types ofgoverning include an organization (such as a corporation recognized as a legal entity by a government), a socio-political group (chiefdom, tribe, gang, family, religious denomination, etc.), or another, informal group of people.

Other types of governing include an organization (such as a corporation recognized as a legal entity by a government), a socio-political group (chiefdom, tribe, gang, family, religious denomination, etc.), or another, informal group of people.

# 2.1 POLITICAL GOVERNANCE

# INTRODUCTION TO POLITICAL GOVERNANCE

In business and outsourcing relationships, Governance Frameworks are built into relational contracts that foster long-term collaboration and innovation. Governance is the way rules, norms, and actions are structured, sustained, regulated, and held accountable. The 18 degree of formality depends on the internal rules of a given organization and, externally, with its business partners.

As such, governance may take many forms, driven by many different motivations and with many different results. For instance, a government may operate as a democracy where citizens vote on who should govern and the public good is the goal, while a non-profit organization or a corporation may be governed by a small board of directors and pursue more specific aims. Council is the ultimate authorityand/or decision-maker as per the provisions of the Constitution of the Republic of South Africa and other applicable laws governing the Local Government sector. A typical political decision-making process usually begins with the Administrative Wing of the Municipality making submissions to the Section 80 Committees for further consideration. As part of a decision-making process, section 79 committees also play a critical role in influencing decisions that are made within the council.

These committees were established during the second meeting of the current council in September 2016. Section 80 Committee was established by the Executive Mayor to assist The Office of the Executive Mayor, the committee recommends to the Executive Mayor and ultimately Council takes a resolution on a matter. Depending on the nature of a Council decision, the general public will be consulted for inputs on the matters discussed by the Council and then the Council will finally ratify a matter under discussion. Public consultation assumes different forms, for example, it can be face-to-face meetings with the general public, a platform can be created for the public to make inputs (written or verbal) and it can be through the sittings of the Ward Committees or even through formal stakeholder engagements.

The municipality has a functioning audit committee that provides opinions and recommendations on financial processes and performance. The audit committee was established in the 2021/2022 financial year.

### COUNCILLORS

The municipal council consists of seventy-two members elected by mixed-member proportional representation. Thirty-six councillors are elected by first-past-the-post voting in thirty-six wards, while the remaining thirty-six are chosen from party lists so that the total number of party representatives is proportional to the number of votes received. In the election of 01 November 2021, the African National Congress won a majority of thirty-nine seats in the council. The following table shows the results of the election.

| Party Name  | Total Valid<br>Votes | Total Valid<br>Votes /<br>Quota | Round 1<br>Allocation | Remainder | Ranking of<br>Remainder | Round 2<br>Allocation | Total<br>Party<br>Seats |

Refer to **Appendix A** where a full list of Councilors can be found and **Appendix B** which sets out committees and committee purposes.

# POLITICAL DECISION-TAKING

The council is the ultimate authority and/or decision-maker as per the provisions of the Constitution of the Republic of South Africa and other applicable laws governing the Local Government sector. A typical political decision-making process usually begins with the Administrative Wing of the Municipality making submissions to the Section 80 Committees for further consideration. As part of a decision-making process, section 79 committees also play a critical role in influencing decisions that are made within the council.

# 2.2 ADMINISTRATIVE GOVERNANCE

# INTRODUCTION TO ADMINISTRATIVE GOVERNANCE

South Africa has made great strides in creating mechanisms for citizens to participate on an ongoing basis and not just during elections. This is evident in the policy and legislative framework and the establishment of numerous statutory bodies, structures, and programmes. The 1997 White Paper on Transforming Public Service Delivery (Batho Pele White Paper) focused on ensuring that government is responsive to the needs of its citizens. Legislation such as the Promotion of Access to Information Act of 2000 and the Promotion of Administrative Justice Act of 2000 are designed to enable citizens to access state information and administrative justice. Participatory governance and advisory structures, consultative forums, and grievance mechanisms have been established to enable citizens to participate in and inform governance processes.

Turning these formal structures into dynamic mechanisms with elicit meaningful community engagement remains a challenge. Participatory processes are often run as isolated events without effective feedback mechanisms or are outsourced to consultants, raising questions about their credibility. There is a perception that the state does not always take these structures seriously. In poor communities, limited resources, social inequality, and prevailing power relations can present obstacles to meaningful citizen engagement. The increase in service delivery protests provides visible evidence that the state is struggling to ensure that poor communities feel that they are being heard. Protests are typically prompted by a range of concerns including access to services, the quality of services, and the perceived non-responsiveness of local government.

The priority is therefore to ensure that mechanisms for promoting participation, accountability, and responsiveness are used effectively. The discussion of public service ethos and culture later in this chapter identifies some of the steps that are being taken to improve public sector responsiveness. Attention needs to be given to improving accountability mechanisms for routine day-to-day interactions between citizens and the state, particularly at the point of delivery. This includes enabling citizens to provide direct feedback on the quality of services through citizen-based monitoring and ensuring that frontline public servants and their managers are given adequate authority to address issues as and when they arise. More emphasis needs to be put on engaging citizens in their own spaces rather than only expecting them to use forums and structures established by the state. At the local government level, there is a particular need to ensure that participation in the integrated development processes is deliberative, with citizens being involved in identifying and resolving trade-offs rather than simply developing shopping lists of needs.

Chapter 4 of the Municipal Systems Act obliges a municipality to create the systems, mechanisms, and enabling conditions for meaningful participation of the community in the affairs of the municipality beyond the IDP process, including monitoring and reviewing municipal performance. The Act requires councillors and officials to play a key role in fostering community participation. However, while structures such as ward committees have been created to enable councillors and officials to engage with communities, these have not worked in the manner intended. Interactions are often formulaic and symbolic rather than meaningful and have generally not helped to strengthen links between communities and councillors.

The Municipal Manager is appointed by Council in terms of Section 82 of the Municipal Structures Act, 117 of 1998, and is designated as the Accounting Officer and the Administrative Head. He is also the Chief Information Officer of the municipality and is responsible for managing the Promotion of Access to Information Act, 2 of 2000 requirements. The responsibilities of the Municipal Manager include the management of financial affairs and service delivery in the municipality. The Municipal Manager is assisted by the Executive Directors, who are heads of seven municipal departments. Municipality has structured its departments in a way that each has an Executive Director appointed under Section 56 of the Municipal Systems Act, 32 of 2000, for its core functions. The alignment of these functions is such that they enable a swift attainment of all our strategic and operational targets.

# COMPONENT B: INTERGOVERNMENTAL RELATIONS

# INTRODUCTION TO CO-OPERATIVE GOVERNANCE AND INTERGOVERNMENTAL RELATIONS

Cooperative Governance and Intergovernmental Relations (IGR) are important in that they foster relationships among the three spheres of government within the context of a unitary state, and the mechanisms to manage these relationships as legislated (see the Constitution of the Republic of South Africa of 1996, The Intergovernmental Relations Act, and other applicable laws. For the 2022/2023 financial year, the Municipality participated in several meetings convened as planned within our service delivery and budget implementation plan for purposes aimed at advancing cooperative governance and intergovernmental relations, especially at the levels of both the District Municipality and Provincial Government.

# 2.3 INTERGOVERNMENTAL RELATIONS

# NATIONAL INTERGOVERNMENTAL STRUCTURES

The following intergovernmental structures play an important role in cooperative governance and in shaping policy and resource decisions:

# Extended Cabinet

This is made up of National Cabinet Ministers, extended to Provincial Premiers and the Chairperson of South African Local Government Association. It is the highest cooperative governance mechanism, advising the national cabinet when it finalizes the fiscal; framework and the division of revenue on which the Medium-Term Expenditure and Revenue Framework budgets are based.

#### The President's Coordinating Council

The chair of this forum is the President of the country, and it consists of nine provincial Premiers, the Chairperson of the South African Local Government Association, Executive Mayors of Metros, and the National Ministers responsible for cross-cutting functions such as provincial and local government affairs, public service and administration, and finance. Other Ministers may be invited to participate.

#### The Budget Council and Budget Forum

Established in terms of the Intergovernmental Fiscal Relations Act of 1997. The Budget Council consists of the Minister of Finance and the Members of the Executive Councils responsible for finance in each province. The Budget Forum consists of the members of the Budget Council including the representatives of the South African Local Government Association. It provides a forum for discussing financial matters relating to the local government fiscal framework.

#### MinMec

These are sectoral fora made up of national ministers for concurrent functions and their provincial counterparts. South African Local Government Association represents local government on a number of these fora.

### PROVINCIAL INTERGOVERNMENTAL STRUCTURE

Over and above the provincial structures as stated above in the province, the following are the ones that the municipality is participating actively in:

- Provincial Waste Management Forum.
- Free State Traffic Management Committee.
- Free State Umbrella Fire Protection Association.
- Provincial Fire and Disaster Advisory Forum.
- Cross Border Crime Prevention Forum.
- Provincial Security Managers Forum.
- South African Emergency Services Institute.
- Provincial IDP Managers Forum.
- Provincial Planning Forum and
- Provincial PMS Forum.

# RELATIONSHIPS WITH MUNICIPAL ENTITIES

The municipality does not have a municipal entity.

# DISTRICT INTERGOVERNMENTAL STRUCTURES

At the political level, both the Speaker and the Executive Mayor take part in various fora established to ensure improved inter-governance relations. The public participation forum allows the Speakers in the District to discuss a range of issues, including demarcation, public participation, and governance. The forum has helped to eliminate tensions and disagreements over Municipal outer boundaries as consensus gets reached at this level.

The Executive Mayor attends and participates at the political IGR level with other executive mayors and mayors within the district boundary. Issues raised at this level get escalated by the technical wing of the forum which is constituted by Municipal Managers assisted by staff at a technical level. At a technical level, the office of the Municipal Manager participated in quarterly District IGR meetings. These fora help with service delivery through the sharing of best practices and strategies implemented by other Municipalities.

Other forum participation meetings were for the Back to-Basics meetings which were convened to monitor Back to Basics action plans submitted to the council. Related to the above forum/committee participation, the Municipality participates in the Premier's Coordinating Forum where the province's developmental agenda and coordination are points of emphasis. In summary, the following forum formations are some of the areas where the Municipality participated:

- Provincial Municipal Managers' Forum
- District Energy Forum
- District Political Inter-Governmental Relations Forum District Technical Inter-Governmental Relations
- Forum Provincial Performance Management Systems Forum Provincial and District Risk
- Management Forum
- MECLOGA
- Premier's Coordinating Forum
- District Back to Basics
- Provincial and District Integrated Development Plan Managers' Forum

# COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION

# OVERVIEW OF PUBLIC ACCOUNTABILITY AND PARTICIPATION

The law provides that public representatives must convene ward constituency meetings quarterly to give feedback on the progress and challenges in the Municipality. The Office of the Speaker ensures that ward committees meet and submit reports monthly on issues raised within the wards. The Municipality engages the public via several forum meetings:

IDP/budget representative forum "Ward Constituency meetings and Ward Committee meetings".

The Office of the Speaker was in charge of ensuring that different constituency meetings were convened in the last financial year. The law allowed for a minimum of at least four meetings to be convened in one financial year. As a precondition to applying and implementing the law and to enhance accountability, the Municipality published documents like the Integrated Development Plan, Budget, and the Annual Report at key strategic points for accessibility.

A public participation programme was developed and implemented with assistance from the Office of the Speaker to ensure that both the integrated development plan and budget, as well as the draft annual report, were presented to communities to receive their input. On the main, communities raised issues of concern in their respective areas for consideration by the Municipality and thereby reconsideration of priority service delivery issues for budget purposes.

MSA section 17 (2): requires a municipality to establish and organize its administration to facilitate a culture of accountability amongst its staff. Section 16 (1): states that a municipality must develop a system of municipal governance that compliments formal representative governance with a system of participatory governance. Section 18 (a) - (d): requires a municipality to supply its community with information concerning municipal governance, management, and development.

# 2.4 PUBLIC MEETINGS

# COMMUNICATION, PARTICIPATION AND FORUMS

The public participation programme was championed by the office of the Speaker and has always been the office doing the task. All council meetings were advertised as required by law. Under no circumstance would a council meeting go ahead without such communication being publicized. The second form of communication related to forum meetings is the forms of Integrated Development Plan representative forum as well as the imbizo. The Executive Mayor headed both sets of fora. As an exception, the year under review witnessed quite satisfactory attendance in all meetings.

The next avenue the Municipality utilised to share municipal information has been the website. This option was done as per the compliance mandate and following legislative requirements.

The website was changed to: <u>www.matjhabengmunicipality.co.za</u>. All information needed to be shared with the public was placed on the new website. The other areas used were notice boards of the Municipality. The Municipality, in addition, used the community radio station, Lesedi and Gold FM where the leadership of the Municipality had direct communication with the community on development plans, progress, and challenges. Local publications (Free State Sun and The Weekly) were also used in informing the public on Municipal Programmes for the financial year under review.

# WARD COMMITTEES

The Municipality has 36 Wards, each with a well-functioning Ward Committee. The work of the ward committees did not proceed as planned and reports were not provided as planned. This was a worrying aspect of service delivery when no information could be provided to update the Municipality on challenges that ward committees faced. The office of the Speaker was charged with assessing the performance of all wards in the Municipality as per the SDBIP relating to the office.

Refer to **Appendix E** which contains further details on ward committee governance and **Appendix F** which contains performance data on a ward-by-ward basis.

# COMMENT ON THE EFFECTIVENESS OF THE PUBLIC MEETINGS HELD:

Public meetings are held to solicit more views and priorities from community members who attend these meetings. It provides a good platform where discussions are held, and compromises arereached with regards to the importance of projects within the wards, as well as taking into account available resources. Apart from meeting a legal requirement, as far as consulting the public is concerned, meetings held yielded positive outcomes. The general public was able to give inputs into programmes where such were needed, and these contributed significantly to improving the Council's decisions. For example, the IDP and Budget together with other policies approved have public ownership. As a result of these meetings, management was sensitized on urgent community matters that would not reach offices under normal circumstances.

- Key benefits for the municipality and the public from the above-mentioned meetings;

(i) The Public stays informed on the issues concerning the municipality (such as the low collection rate, projects the municipality will be embarking on, etc.)

(ii) The public gives support to the municipality especially when they know the challenges that the municipality is facing.

# 2.5 IDP PARTICIPATION AND ALIGNMENT

| IDP Participation and Alignment Criteria*                                      |     |  |
|--|-----|--|
| Dese the musicipality have impact automa input and extract indicators?         | No. |  |
| Does the municipality have impact, outcome, input, and output indicators?      | Yes |  |
| Does the IDP have priorities, objectives, KPIs, and development strategies?    | Yes |  |
| Does the IDP have multi-year targets?  | Yes |  |
| Are the above aligned and can they be calculated into a score?                 | Yes |  |
| Does the budget align directly with the KPIs in the strategic plan?            | Yes |  |
| Do the IDP KPIs align to the Section 57 Managers?                              | Yes |  |
| Do the IDP KPIs lead to functional area KPIs as per the SDBIP?                 | Yes |  |
| Do the IDP KPIs align with the provincial KPIs on the 12 Outcomes              | Yes |  |
| Were the indicators communicated to the public?                                | Yes |  |
| Were the four quarter-aligned reports submitted within stipulated time frames? | Yes |  |
| * Section 26 Municipal Systems Act 2000  |     |  |

# COMPONENT D: CORPORATE GOVERNANCE

# OVERVIEW OF CORPORATE GOVERNANCE

The issues of Corporate Governance include the need to ensure that laws are applied and monitored as required. All relevant positions in the Municipality are charged with the responsibility of ensuringthat there is compliance with such laws in the forms of municipal policies and by-laws. In addition, officials are required to observe the application and enforcement of the law. There are other noticeable occupations within the Municipality, that have been established to reinforce application and monitoring of the law.

In the Municipality, we have these positions as they relate to performance monitoring and compliance. Such positions help monitor the implementation of relevant laws but are placed quite lower down the management echelon. These positions include those of officials who deal with Risk Management, Internal Audit, Performance Management & Monitoring and Evaluation.

# 2.6 RISK MANAGEMENT

### **RISK MANAGEMENT**

Risk Management is a management process through which the Municipality identifies, evaluates, and controls significant risks that can result in failure, to attain strategic objectives. The main responsibility of Risk Management is to support the development of an overall Enterprise Risk Management Framework aligned with Municipal Strategy (IDP). A reviewed risk management policy was approved during the Council sitting of 01 December 2022 and was reviewed during the Risk Management Committee held on the 25<sup>th</sup> April 2023.

The following are the responsibilities of a Risk Management Unit.

- 1. Develop, implement, and revise the Municipality's Risk Management policies and procedures.
- 2. Coordinate and facilitate the risk identification and risk assessment processes within the municipality's business units regularly.
- 3. Developing a Risk Management Strategy and Implementation Plan.
- 4. Develop a common risk assessment methodology that is aligned with the institution's objectives at strategic, tactical, and operational levels for approval by the Accounting Officer.
- 5. Assisting Management with risk identification, assessment, and development of response strategies.
- 6. Ensuring that the Municipality's risk registers are compiled and updated regularly.
- 7. Monitor and follow up on the implementation of the response strategies instituted by management.
- 8. Coordinate the Risk Management Committee meetings and serve as secretariat.
- 9. Assisting in the review of the fraud and corruption strategy and implementation
- 10. Participate in the development of the combined assurance plan for the municipality, in conjunction with Internal Audit, Auditor-General, and Management.

The role of the Risk Management Unit improved the situation much better than it was the case a year before. The role is envisaged to improve upon approval of the structure which identified the lack of such a unit as a serious risk to Municipal service performance.

The Risk Management Unit is established, fully functional, and capacitated. All vacant posts within the Risk Management Unit are currently filled, i.e. Manager Risk Management, Senior Risk Officer, and three Risk Officers. The Risk Management Committee is fully functional and sits every quarter.

#### Matjhabeng Local Municipality - Top five risks:

- 1. Sewer spillage from bulk lines in residential areas
- 2. Technical distribution losses (water 56% and electricity 24%)
- 3. Theft and vandalism of the infrastructure
- 4. Long accumulated UIF expenditure
- 5. Illegal occupants invading municipal land

Matjhabeng Local Municipality | CHAPTER 2 – GOVERNANCE 33

# 2.7 ANTI-CORRUPTION AND FRAUD

### FRAUD AND ANTI-CORRUPTION STRATEGY

The Fraud Prevention Strategy seeks to focus attention at the macro strategic level in the firstinstance. It then provides a schema for assessing matters and actions to be addressed at the detailed level. The Municipality needs to have a strategy that is highly prescriptive when dealing with issues of fraud and corruption. Matjhabeng Local Municipality must promote a zero-tolerance approach to Fraud and corruption.

The commitment by all officials is to mitigate fraudulent activities and to report when fraud occurs and should be dealt with thoroughly without leniency. During the year under review, the municipality made efforts to educate employees and community members about issues of fraud and corruption that are affecting the Municipality through Public participation and workshops.

All the Unauthorised, Irregular, Wasteful, and Fruitless Expenditure is being dealt with according to Circular 68 and Section 32 of the Municipal Finance Management Act, 56 of 2003. All processes followed is that the register is completed and tabled to the Assets and Liability Committee which then submits its recommendations to the Municipal Public Accounts Committee for investigations and recommendation to the council. The council will then either condone, authorise, recoup, and/or take legal actions against whoever is liable for the allegations.

The municipality's Audit Committee recommendations for the year 2022/2023 are set out in **Appendix G**.

# 2.8 SUPPLY CHAIN MANAGEMENT

# OVERVIEW SUPPLY CHAIN MANAGEMENT

The municipality ensured that its Supply Chain Management policy was aligned with the Supply Chain Management regulations. The Supply Chain Management policy gets reviewed to consider the revised Preferential Procurement Policy Framework Regulations in each financial year as the budget gets approved. The primary goal of the Municipality's Supply Chain Management system is to find reliable, cost-effective suppliers for the Municipality. It effectively means that acceptable norms and standards of quality, expected service delivery, and technical performance could not be relaxed or compromised while ensuring the promotion of Historically Disadvantaged Individuals in the process.

To address the declining local economy, the Municipality incorporated several local economic development initiatives and projects in the Integrated Development Plan. The Municipality also realized that its Supply Chain Management Policy and practices could play an important role in stimulating local economic growth and development. Policy changes were designed to contribute to the achievement of the Municipality's objectives regarding local economic growth and development. In particular, there is an emphasis on giving 70% of business opportunities to local enterprises to ensure that we sustain local Small and Medium Macro Enterprises.

Referral should be made to the information on long-term contracts which is set out in Appendix H.

### 2.9 BY-LAWS

### COMMENT ON BY-LAWS:

The Building By-Law was published in the Free State Sun Newspaper on the 24<sup>th</sup> November 2022 for public participation, the building by-law was only noted and has not yet been approved by the council. No new by-laws were introduced during the year under review. All municipal by-laws need to be reviewed and those that are not in place need to be developed and approved so that the municipality can be able to govern its area of jurisdiction properly.

# 2.10 WEBSITES

| Municipal Website: Content and Currency of Material   |     |  |  |  |  |
|---|-----|--|--|--|--|
| Documents published on the Municipality's / Entity's Website  |     |  |  |  |  |
| Current annual and adjustments budgets and all budget-related documents   | Yes |  |  |  |  |
| All current budget-related policies   | Yes |  |  |  |  |
| The previous annual report (Year 2021/2022)   | Yes |  |  |  |  |
| The annual report (Year 2021/2022) published/to be published  | Yes |  |  |  |  |
| All current performance agreements required in terms of section 57(1)(b) of the Municipal<br>Systems Act (Year 2022/2023) | Yes |  |  |  |  |
| All quarterly reports tabled in the council in terms of section 52 (d) during Year 2022/2023                              | Yes |  |  |  |  |

#### COMMENT MUNICIPAL WEBSITE CONTENT AND ACCESS:

The municipality has established its website (<u>www.matjhabengmunicipality.co.za</u>), and thus readingly and immediately updates its contents in compliance with the MFMA Act as quoted below; and timelines set out in the Act. Section 75 of the MFMA requires that the municipalities place key documents and information on their website, including the <u>IDP</u>, <u>annual report</u>, <u>the annual budget</u>, <u>adjustments budgets</u>, and budget-related documents and <u>policies</u>.

The website (<u>www.matjhabengmunicipality.co.za</u>) has been configured in compliance to count and report on Visitor counts and has since its inception in November 2022 recorded a total of **15069** online visitors.

# 2.11 PUBLIC SATISFACTION ON MUNICIPAL SERVICES

# PUBLIC SATISFCATION LEVELS

The municipality did not conduct any public satisfactory survey for the year under review, as well as during the prior years

Matjhabeng Local Municipality | CHAPTER 2 – GOVERNANCE 35

#### 2.12 AUDIT COMMITTEE

#### 1. Background

- 1.1 The purpose of the Audit Committee is to exercise oversight over the municipality's:
  - 1.1.1 financial and non-financial performance to the extent that it affects the municipality's exposure to risk and weakens the control environment;
  - 1.1.2 financial reporting process; and
  - 1.1.3 governance, risk management, and internal control processes, and provide independent assurance on the adequacy thereof.
- 1.2 The importance of the Audit Committee can be summarised as follows:
  - 1.2.1 increasing public confidence in the objectivity and fairness of financial and other reporting;
  - 1.2.2 reinforcing the importance and independence of internal and external audit and similar review processes;
  - 1.2.3 providing additional assurance through a process of independent review; and
  - 1.2.4 raising awareness of the need for adequate internal controls, effective performance, and the implementation of audit recommendations and compliance with laws and regulations.
- 1.3 The Terms of Reference for the Audit Committee were compiled in accordance with section 166 of the MFMA and the King IV Report on Corporate Governance and are enshrined in the Audit Committee Charter.

#### 2. Audit Committee Members and Attendance

- 2.1 During the financial year under review, the Audit Committee was fully functional.
- 2.2 During the 2022/23 financial year, six (6) meetings were held, and the attendance of members was as follows:

| Members                          | 18 August<br>2022 | 19 August<br>2022 | 14 November<br>2022 | 24 March<br>2023 | 08 May<br>2023 | 29 June 2023<br>(Virtual) |

| Ms. M. Khuse<br>(Member)         | ✓ []              | ✓ []              |                     | ×                |                | ✓ []                      |
| Mr. P. Van der Merwe<br>(Member) | ×                 | ✓ []              | ×                   |                  |                | ✓ []                      |
| Mr. I. Langa<br>(Member)         | ×                 | ✓ []              |                     | <b>%</b> []      | <b>%</b> []    |                           |

#### Legends:

- ✓ attended the meeting.
- ▲ attendance through the virtual platform
- × apology was received.
- 2.3 The Audit Committee was able to advise the Municipality on the following:
  - The adequacy and effectiveness of governance, risk management, and internal control
  - The quality of management and monthly/quarterly reports submitted in terms of the Act.
  - Performance Management
  - Evaluation of Annual Financial Statements

#### 3. Audit Committee Responsibility

- 3.1 The Audit Committee was established to assist in improving management reporting by overseeing internal and external audit functions, internal controls, the financial reporting process, compliance with accounting policies, legal requirements, internal controls, and other policies within the Municipality.
- 3.2 The Committee interacts with and evaluates the effectiveness of the external and internal audit processes and reviews compliance with the code of ethics.
- 3.3 The Audit Committee compiles reports aligned with its responsibilities arising out of Section 166 of the MFMA and Treasury Regulation 27.1.8 and 27.1.10.
- 3.4 The Audit and Performance Committee adopted formal terms of reference as per the approved Audit Committee Charter and has subsequently regulated its affairs in compliance with the said charter, discharging its responsibilities as contained therein.
- 3.5 The Audit Committee reviewed and/or performed oversight over:

- All the quarterly Interim Financial Statements and unaudited AFS before submission to the AGSA on 31 July 2023;
- Monitoring and implementation of corrective action plans to address AGSA and internal audit findings;
- iii. The appropriateness of the accounting policies, practices, and potential changes;
- iv. The effectiveness of the system of risk management including fraud prevention and anti-corruption strategies;
- v. The process to ensure compliance with relevant laws and regulations;
- vi. In-year monitoring reports on all the Matjhabeng Municipality's operations including the systems of ICT governance;
- vii. The Quarterly PI Reports and the Annual Report before submission to the AGSA and final publication; and
- viii. The plans, work, and reports of the Internal Audit Services and the AGSA.

#### 4. Conclusion

The Audit Committee given the short period in which it has been in operation can confirm the effectiveness and efficiency of the municipality's internal controls as such we shall be able to give an assurance on the fair presentation of the financial statement, validity, accuracy, and completeness of the financial information supporting the figures on the financial statements.

#### 5. Appreciation

The Committee recognises and acknowledges the hard work put in by Matjhabeng Municipality. We believe that Management, under the leadership and guidance of the Municipal Manager will yield the desired level of good governance across the Municipality in the future and that all emerging risks and internal control challenges as reported by assurance providers in their operations during the year under review will be given due care and determination to have them resolved and not become repeat findings.

We wish to express our gratitude to the Council and Matjhabeng Management for their support thus far as well as to the AGSA and Internal Audit Unit for their consistent value-adding contributions. The Audit Committee concurs and accepts the conclusions of the AGSA on the AFS, PI, and Compliance review, and is of the opinion that the audited AFS be accepted and read together with the report of the AGSA.

On behalf of the Committee:

Mr. R.E. Mabunda Chairperson: Audit Committee

# CHAPTER 3 – SERVICE DELIVERY PERFORMANCE (PERFORMANCE REPORT PART I)

#### COMPONENT A: BASIC SERVICES

#### 3.1. WATER PROVISION

#### INTRODUCTION TO WATER PROVISION

The municipality's strategy is to provide water for domestic and industrial use to all the residents in the jurisdiction of Matjhabeng Municipality in line with the National Water Act and the Water Services Act.

Matjhabeng water loss was approximately 15% in 1990. This percentage increased to  $\pm$  44% in 2006 and is currently estimated to be  $\pm$  56% of all water purchased from the Water Service Provider (Bloemwater).

The potable water tariff from the Water Service Provider is R13.32 p/KI for the 2022/2023 financial year. If a water loss of 56% is applied to the tariff, the cost can be increased by 56% as revenue cannot be generated from the lost water. It will then be as if the tariff is R20,78 or since the average monthly account of the Water Service Provider is currently  $\pm$  R55 – R60 million, a reduction in water losses of just 10% will equate to a monthly saving of between R5.5 – R6 million and annually to R66 – R72 million.

The municipal 2022/2023 potable water step tariffs are as follows:

0,00 - 6,00 KI = R 15.92 6,00 - 50,00 KI = R 19.27 Above 50 KI = R 25.53.

The Municipality receives the bulk of its water from the Bloemwater board which is transported by means of pumping from the Balkfontein WTW through bulk water lines to the storage reservoir and distributed through to the internal supply networks until the point of use to the residence. The current daily supply is 142 ML/day from Balkfontein WTW and 65 ML/day from the Virginia WTW.

#### CHALLENGES

# Water losses and the disruption in municipal water supply to consumers are due to the following;

(i) Failing of the water network due to burst pipes, worn-out water lines, dysfunctional valves & hydrants, leaking water connections and other leaking water infrastructure.

(ii) The inability of the maintenance teams to repair these leakages within a reasonable time (24 hours) is due to aged infrastructure and limited resources.

(iii) Metered consumption where indigent consumers use more than 6 KI free water and cannot pay for the consumption over 6 KI.

Matjhabeng Local Municipality | CHAPTER 3 – SERVICE DELIVERY PERFORMANCE 39 (PERFORMANCE REPORT PART I) (iv) Authorized un-metered consumption such as water used for maintenance, service delivery, repairs, firefighting, water used for low-cost housing, communal taps, informal settlement, filling up of tankers, etc.

(v) Illegal un-metered consumption such as water used in unofficial connections, by-passed meters, tampered meters, illegal use of fire hydrants, etc.

(vi) Consumer meter inaccuracies e.g. stuck meters, meters that are under register, wrong meter sizing, meter breakages, inaccessible meters, etc.

(vii) Overflow leakages from storage facilities.

#### Causes (but not limited to) of high-water losses and disruptions in municipal water supply.

(i) The emphasis of capital funding projects was put on development rather than on maintenance – or refurbishment projects.

(ii) Cessation and/or the reduction of capital funds earmarked for the replacement of worn-out water lines lead to a general deterioration of the water network and an increase in water losses and water disruptions.

(iii) Difficulties to prioritise maintaining the old infrastructure and considering new developments infrastructure.

(iv) A moratorium was placed on the filling of vacancies until recently and that resulted in a gradual decline in the number of the workforce responsible for maintaining the water network because people who resigned, passed away, or went on pension were never replaced.

(v) With the closure of the municipal stores, it became a challenge to get sufficient maintenance material to do water pipe repairs in a reasonable time. The tedious procurement processes are also delaying pipe repairs within a reasonable time. To avoid leaving consumers for days without water, water is allowed to run where possible with huge water losses as a result.

(vi) Aging and poorly maintained vehicles, plants, and equipment have a negative impact on water maintenance.

(vii) Poorly implemented water projects and poor workmanship resulted in damage to water infrastructure – thus increasing water losses. The water is often left running for days without reporting it. Examples are disconnection projects leaving leaking meters for days, poorly installed water meters that are leaking, road projects that broke water pipes during construction, extension of the water networks without registering new consumers with the Treasury, etc.

(viii) Water infrastructure theft, theft of air valves, spindles of valves, meter theft, etc. resulting in water loss.

#### MEASURES TO BE TAKEN TO RESPOND TO CHALLENGES

1. Sufficiently resource the Water maintenance sections to enable them to address all received complaints in less than 24 hours and to do planned maintenance like the repairs/reconditioning of valves and hydrants. Capacity must be such that pipe sections can be replaced instead of just adding more clamps to a dilapidated pipe section.

A properly resourced water maintenance team will consist of:

(i) A plumber.

(ii) 3-4 general workers.

(iii) PPE for all workers.

(iv) A light delivery van with a trailer to transport material, tools, and equipment.

(v) A TLB for excavations - especially for large burst pipes, for burst pipes in tar roads, for lifting heavy material and objects like valve slabs, pipes, etc.

(vi) A dewatering pump.

(vii) Access to the material to do the repairs.

(viii) Access to a boilermaker shop where specialized clamps are needed to do repairs.

(ix) Access to a backfilling team with a grab-truck, fresh soil, tar where needed, small equipment, a compactor, etc.

(x) Access to a valve repair team to repair and replace faulty valves or hydrants as soon as they are discovered.

2. Ensure that all areas in Matjhabeng are serviced by water maintenance teams in line with the size of the infrastructure.

3. Open the stores (1 main store, with 2 satellite stores - one in the East and one in the West) - stocked to have material available to do all types of water repairs – secured to limit the probability of theft.

4. Put a well-advertised moratorium on disconnections / illegal activities, etc. to allow the public to correct their accounts while Matjhabeng municipality equips the Branch Water Revenue Protection and Water Loss control to act aggressively on perpetrators after the moratorium expires.

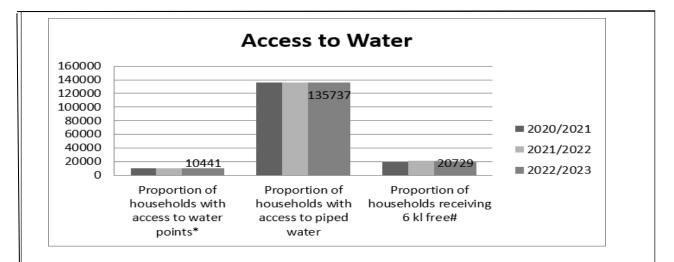

In the meantime: The water department will ensure that all water meters are read monthly and water meters are audited. The department will also introduce water management zones and program the billing system to be in line with these zones to determine water loss per zone and reduce water pressure in areas where the water pressure is above 5 bar.

### 3.2 WASTEWATER (SANITATION) PROVISION

#### INTRODUCTION TO SANITATION PROVISION

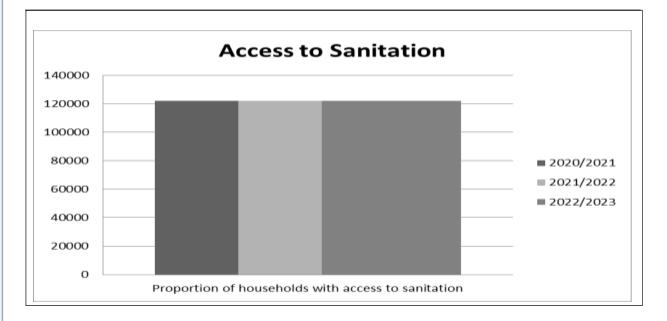

The second generation of Integrated Development Planning in democratic local government was mandated among others to improve levels of sanitation and eradicate the bucket system as a form of sanitation. However, challenges were identified, among others were poor project planning, execution, and reporting. This has led to a particular number of households still not being able to use proper sanitation thus reverting to the old system. Matjhabeng has 11 Wastewater Treatment Works (1 Decommissioned), 57 Pump stations, and 1,501,637 meters of reticulation infrastructure.

More than one-third of the reticulation system is more than 40 years old. Reticulation consists mostly of vitrified clay pipes (prone to root penetration and joint dislocation), and old AC pipes used mainly on rising mains and frequent bursts have been reported. The other challenge that came with the expansion of service has been the capacity of wastewater treatment plants and pump stations. It is also important to note that one of the major challenges is a general decay of infrastructure due to its age, this led to regular sewage spillage due to blockage and pipe brakeage. The municipality is working to have the area declared a national disaster and to get assistance on the issues of sanitation.

The Municipality will put in sanitation plans for this five-year Integrated development planning cycle for the refurbishment of wastewater treatment works to ensure that it provides a clean environment for the people. Our Municipality has consistent challenges of collapsing sewer lines and sewer spillages due to ageing infrastructure. The expectation is that the Municipality plans around the replacement of pump stations throughout the affected areas (almost 4% of households still use buckets as a form of sanitation to the detriment of their livelihoods). These forms of sanitation have long been discarded and we need to fully implement a project for total eradication of this system. There has been a programme to replace asbestos pipes with PVC pipes and the expectation would be to continue replacing them depending on affordability and the acceleration of revenue enhancement strategy to get more resources to enable the implementation of these programmes.

The Regulator has raised concerns about the poor state of wastewater services and the consequential impact on the water resources and required the Municipality to submit detailed corrective plans, The plan included the responsible persons, timelines, and expected improvements as outlined by the Regulator in the Green drop reports. The Regulator has acknowledged the efforts made by the Municipality by increasing internal operational capacity and scientific staff and encouraged the good work that is being done in-house to continue.

#### 3.3 ELECTRICITY

#### INTRODUCTION TO ELECTRICITY

The bulk electrical network and infrastructure are well established around the Matjhabeng Local Municipal (MLM) area. Eskom is the electricity service provider to all mines and all townships in the MLM area and thus there is sufficient bulk infrastructure available to serve the whole area.

The main challenges are however remaining; an aging electrical infrastructure and the inability to increase the Notified Maximum Demands (NMD) to support new development in towns that are in the MLM Licensed Distribution Area. The MLM existing Electrical Infrastructure is on average older than 80 years, which needs to be upgraded and refurbished as a matter of urgency.

However, the change in Governmental subsidization policies has made it very expensive and almost impossible to electrify the previously advantaged areas, rural areas, and these include farms and farming communities which are in desperate need of basic essential services.

Matjhabeng Local Municipality is in the process of developing an Energy Resource Plan to guide and address energy needs and that will be aligned with the national directive. The MLM is striving to support the National Drive to decrease the South African carbon footprint thus moving towards a greeneconomy, energy efficiency, and energy generation technology to boost its capacity.

The eminent National Electricity Crises and Eskom load-shedding have an adverse negative effect on South African residents and the economy. That highlighted how highly reliant communities and the business sectors are on electricity services as a main source of energy.

The National Government has committed to developing measures to promote energy saving, reduce energy costs to the economy, and reduce the negative impact of energy use on the environment.

The statistical information set out in the tables below; illustrates that as a locality we are overly dependent on electricity as a source of energy for lighting, cooking, and heating. The statistics reflect an increase in electricity as a main energy source in that the use of electricity for lighting has since increased as universal access is being reached. In part, this can be attributed to the fact that with the gradual eradication of electrification backlogs through the DMRE household electrification program, thenumber of people in our electricity networks has increased. On the other hand, this emphasizes the lack of usage of alternative sources of energy to fulfil our general energy needs.

As a direct result of the downscaling of mining-related economic activities in the area, the MLM Electrical Infrastructures are currently stolen and vandalized daily through organized crime activities throughout the Municipal Licensing Area. The MLM endeavors to implement proactive preventative actions to mitigate the risk and effect that theft and vandalism of Electrical Infrastructures are having on service delivery to our communities.

Further, illegal connections and electrical meter bypassing by communities result in existing electrical infrastructure being overloaded and damaged beyond repair; robust revenue protection and enhancement processes are currently implemented by the MLM to mitigate this eminent risk.

# 3.4 WASTE MANAGEMENT (THIS SECTION TO INCLUDE: REFUSE COLLECTIONS, WASTE DISPOSAL, STREET CLEANING AND RECYCLING)

#### INTRODUCTION TO WASTE MANAGEMENT

Based on the standards set by the National Environmental Management: Waste Act 59 of 2008 (NEMWA), Matjhabeng Local Municipality (MLM) has derived operational plans to initiate a wardbased waste collection strategy. This is to ensure that every household is serviced in terms of regular waste collection.

Matjhabeng Local Municipality has 36 wards and to maintain a ward-based collection strategy the Municipality has embarked on purchasing an additional fleet in the form of compactor trucks. The success achieved in the waste department includes addressing backlogs within a short turnaround time. Another major success in the Waste Department for the 2022/23 financial year is that an average of 96% collection rate was achieved; According to historical data, this statistic has improved dramatically.

Challenges within the department are insufficient resources (number of compactor trucks and general workers). These challenges have been brought to the attention of the Municipality and will be addressed by filling critical positions and procuring an additional fleet. The Waste Department currently has four landfill sites and 1 waste transfer station, which aids us in disposing of residential and commercial waste in an environmentally responsible manner.

The Matjhabeng Local Municipality has permanent teams whose sole job is to do street cleaning during the day; in addition, the Waste Department has a night shift team that sweeps the CBD streets. We are also going to receive assistance from DESTEA in the form of approximately 50 warm bodies which will assist with daily cleaning. Lejweleputswa District Municipality will also be assisting with 120 warm bodies which will be utilized within the waste management department for additional town cleansing. The Matjhabeng Local Municipality has appointed a service provider to initiate a waste recycling program at the Virginia Transfer Station. The landfill site located in Odendaalsrus has a fully operational waste reclamation center, which is operated by a service provider. Waste pickers at the Odendaalsrus Landfill Site have also been formalised.

The top three priorities for the Waste Department are as follows: The first priority is committing to achieving and maintaining 100% domestic waste collection. Secondly, ensuring the implementation of the appropriate and environmentally responsible waste practices in accordance with the National standards set out by the National Environmental Management: Waste Act. Thirdly, maintaining cleansing activities to ensure that the health of towns and residential communities is well above the national environmental health and waste standards set out by the national government legislation; this includes planning and implementing cleaning campaigns, environmental education, and awareness programmes. With regards to assisting communities that are living in poverty, the MLM has programmes where residents can apply to be classified as indigent, which will grant them access to municipal services such as waste collection free of charge.

#### COMPONENT B: ROAD TRANSPORT

#### INTRODUCTION TO ROAD TRANSPORT

As implemented by the District Municipality, the Municipality's Rural Road Asset Management System (RRAMS) is in progress. From the study, the Municipality has identified roads needing maintenance and upgrading. The RRAMS also developed a Pavement Management System (PMS) that identified road defects and their remediation.

The Municipality used the data acquired to apply for funding to upgrade the current 300km of gravel roads and repair and reseal the tarred roads. The top 3 road service delivery priorities are 1. Repairing of potholes 2. Blading/re-graveling of gravel roads 3. The rehabilitation of tarred roads.

Roads in the municipality remain a concern as raised by a consistent number of people. Challenges range from potholes, resealing of roads, the need for paving, tarred roads, and mostly blading and graveling of streets. Naming and renaming of streets are an issue also needing urgent attention. In 2023/2024, the municipality has planned to patch 15 800m<sup>2</sup> of potholes for all wards in Matjhabeng and blade/re-gravel 60km of roads for all wards in Matjhabeng.

#### 3.5 ROADS

#### INTRODUCTION TO ROADS

The municipality has a well-established road network. Over the years, the main challenge has been maintaining the infrastructure due to budgetary constraints and high end-of-design-life costs escalated by poor maintenance efforts.

Our Municipality Road network consists of the following types of roads, broken down as follows:

#### Central (Welkom Area)

- Tarred roads 684 km
- Brick paved roads 19 km
- Gravel roads 144 km
- Dirt roads 3.24 km (no construction or blading)

#### East (Virginia, Hennenman and Allanridge)

- Tarred roads 333 km
- Gravel roads 73 km
- Dirt roads 83 km (No construction or blading)

#### West (Odendaalsrus and Allanridge)

- Tarred roads 201 km
- Gravel roads 76 km
- Dirt roads 49 km (No construction or blading)

A maximum of the roads in town are surfaced, and most of the roads in the townships are either dirt or gravel. However, the township roads are being upgraded to tarred or paved surfaces through external funding (i.e., Municipal Infrastructure Grant and Public Works funds).

The Municipality has an agreement with the local mines that use our road network to upgrade our specific roads. This process started in the previous financial year, and we are looking to build on it for future developments.

# 3.6 TRANSPORT

#### INTRODUCTION TO TRANSPORT

The public transport system operating in Matjhabeng is privately owned taxis. The rail network that passes through Hennenman and Virginia is a mainline service linking the Municipality with Gauteng, KwaZulu Natal, Eastern Cape, and the Western Cape. However, there is a local railway network mainly servicing mines. The local railway network remains the property of the municipality. Matjhabeng remains the main route of national bus services, however, no bus services are operating locally in Matjhabeng Municipality except for mine workers' dedicated transport.

#### Matjhabeng Local Municipality | CHAPTER 3 – SERVICE DELIVERY PERFORMANCE 105 (PERFORMANCE REPORT PART I)

# CHAPTER 4 – ORGANISATIONAL DEVELOPMENT PERFORMANCE (PERFORMANCE REPORT PART II)

### INTRODUCTION

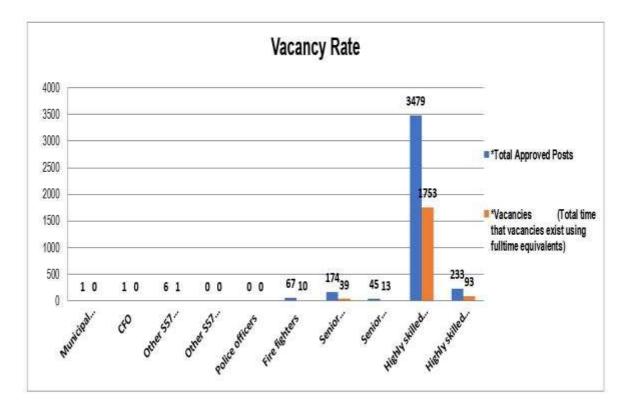

The municipality is embarking on a process of reviewing the organisational structure so that it can meet the current challenges and adhere to the legislative requirements. This process will need numerous engagements with unions, staff, and Councillors after which the Municipal Manager will approve the structure and table it to the council for notification as required by legislation. The review process as started will have to be concluded by the end of June to comply with the new staff regulations that come into effect as of the 1st of July 2022.

## COMMENT ON VACANCIES AND TURNOVER:

The turnover rate is due to resignations as employees feel that they are overworked. In order to retain staff, the structure is currently under review, job descriptions are also being reviewed and the performance management system will also be implemented to motivate and retain staff.

In order to also attract potential candidates, the recruitment processes have also been analysed to find areas of improvement.

The is only one vacant Section 57 post – Executive Director (Infrastructure), the post was re- advertised on 27 July 2023.

## COMPONENT B: MANAGING THE MUNICIPAL WORKFORCE

## INTRODUCTION TO MUNICIPAL WORKFORCE MANAGEMENT

The municipality has engaged the Trade Unions through the Local Labour Forum and agreed on a range of issues regarding the management of the workforce. The Human Resource manual on policies has been tabled in all governance structures. A code of conduct has been approved which guides the conduct of all employees. Employees have been workshopped on all governance policies and the municipality continues to do this occasionally.

Matjhabeng Local Municipality | (PERFORMANCE REPORT PART II) 110

#### COMMENT ON INJURY

The steps taken to reduce incidents or accidents occurrence by far are incident investigation (annexure 1 of incident reporting form to compensation fund), this investigation entails how and when the accident occurred, what were the influencing factors (e.g. negligence, unsafe work environment, unsafe work practices, insufficient/inadequate Safe protective equipment or natural disaster) then remedial actions are formulated to ensure that reoccurrence of a similar incident is prevented. It is worth noting that not all incidents were sufficiently investigated and followed up due to few OHS officials available whilst the municipal staff complement is escalating, therefore the ratio of safety officers against the Matjhabeng staff complement is insufficient. The following are the interventions taken per incident. (Will highlight only 3 of them by far)

#### 1

- The incident of two officials at the Electrical department who got burned while working on a substation in March 2023, got medical attention, recovered, and returned to work.

**STEPS TAKEN:** Annexure 1 was filled, post-incident interviews were conducted, and a return to duty report was generated.

**REMEDIAL ACTION:** Safe working procedures to be formulated, (2) Employees to be inducted/ inserviced on the SOPs (3) Management to ensure the appointment of Health & safety representatives and subsequently establish Health and Safety Committee. The incident of three officials working at Witpan water treatment plant who got held hostage at gunpoint for hours by copper thieves who had managed to bypass security on the 16<sup>th</sup> of May 2023. The employees were not physically harmed, they received post-traumatic therapy, recovered, and returned to duty.

**STEPS TAKEN:** An intervention meeting was held between the affected employees, Chief OHS, Wellness personnel, and Union representatives. After the meeting a walk-through inspection was done on-site (Witpan treatment plant) and a return to duty report was generated.

**REMEDIAL ACTION:** Access control to be strengthened, a backup generator to be serviced and tested regularly to ensure uninterrupted power supply even during load shedding, and employees to be provided with torches specifically head torches to avoid using cellphone flashlights as torches at night.

#### 3

In the incident, eleven officials working at community safety as security personnel were involved in a car accident on their way to report for duty using a municipal minibus driven by one of the officials.
 STEPS TAKEN: A post-incident meeting was held between the affected officials, the Manager in community safety, Wellness personnel, and the Chief OHS. It was established that the vehicle involved was unsafe and even other cars used to transport employees are unsafe.

**REMEDIAL ACTION:** Community safety management to ensure that all vehicles used to fire employees are road-worthy and safe. A pre-trip checklist is to be formulated and all officials are to be informed about the checklist. Management to ensure the appointment of health and safety representatives and the establishment of a Health and Safety committee.

The Municipal Doctor is not available at Matjhabeng Municipality to monitor sick leave. Records of sick leave are kept in leave files.

#### COMMENTS ON SICK-LEAVE

Based on the above table on sick leave it is evident that the following levels have a high rate of sick leave. These percentages can be the cause of Psycho-Social, and work-related issues which lead to financial challenges.

| Employee           | Cause of problem  | Problem Status   | Remedy/                       | Recommendation   |  |  |
|--------------------|---|--|-------------------------------|--|--|--|
| levels             |   |  | Action taken                  |  |  |  |
| MM & Section<br>57 | Based on the table, the sick leave is at a nominal stage. | The status quo is<br>normal as far as<br>sick leave is<br>concerned. | No remedial action is needed. | Encouragement on the<br>maintenance of lower<br>sick leave status (Door<br>to Door Awareness<br>Campaign). |  |  |

| Senior                                  | According to the above  | This is a very  | The employee Wellness team has  | Provide executive   |
|---|---|---|---|---|
| Management<br>Level (1-3)               | table, the sick leave rate is high.   | serious challenge<br>that needs to be<br>taken care of.   | implemented a substance abuse in<br>the workplace awareness campaign<br>with managers and supervisors<br>across various units within the<br>municipality. | coaching services t<br>the senio<br>management<br>delegates.  |
|   | Possible contributing<br>factors: pending DC,<br>Grievances; decision<br>making; Lack of<br>support; Victimization<br>from Unions and<br>Seniors.   |   | Team buildings: Employee<br>Wellness has embarked on a team<br>building program in mitigation.  | It is recommended that<br>this level be advised to<br>attend Management<br>and Leadershit<br>courses that mate<br>empower them with at<br>necessary skills. |
| Highly skilled<br>Supervision (4-<br>5) | This is the next level<br>that needs to be<br>protected from the<br>upper level and<br>employees in general.<br>They tend to be<br>receivers of Managers<br>and senior managers<br>pressing pressure. | This level also<br>needs a serious<br>intervention, if not<br>addressed it will<br>surely impact<br>negatively on<br>production.<br>Furthermore, it will<br>bear more financial<br>implications on the<br>institution<br>(continuous acting). | One-on-one assessment/<br>therapeutic sessions were<br>conducted by social workers.<br>Team building in three directorates<br>was conducted.              | Provide executive<br>coaching services to<br>the senior<br>management<br>delegates.<br>Training on supervision<br>and management.                           |
| Highly Skilled<br>Production (6-<br>12) | Based on the table<br>above, it can be<br>deduced that this level<br>may be the reflection of<br>the negative impact of<br>the high percentage<br>rate of sick leave (level<br>1-4).                  | Employees may be<br>overburdened by<br>the increased<br>workload by their<br>superiors. This<br>causes<br>dissatisfaction<br>amongst employees<br>when certain<br>delegates are<br>nominated for<br>acting in positions.                      | We have embarked on several<br>awareness campaigns, e.g.<br>Financial awareness and Know<br>Your Wellness programmes.                                     | Conduct mo<br>awareness campaigr<br>that address the need<br>of the employees as fa<br>as sick leave<br>concerned.  |
| Skilled (13-15)                         | Sick leave at this level<br>can be caused by the<br>shortage of transport<br>fees to work and lack of<br>promotion.   | Overtime and<br>Acting allowances<br>are the biggest<br>instigators of this<br>challenge.   | Continuous financial awareness<br>and life skills activities were<br>conducted.   | It is recommended th<br>these employees b<br>given a chance to<br>develop in the system.  |

| Lower Skilled | Based on the table          | Overtime and        | Continuous financial awareness  | Conduct more            |

## SUMMARY

## STEPS TAKEN TO ADDRESS SICK LEAVE AND FOLLOW-UP ACTION

- Cases referred to Employee Wellness concerning sick leave were attended by Employee Wellness Social Workers. A psychosocial supportive regime was rendered through the following services:
  - Counseling Therapeutic services to address sick leave-absenteeism
  - Work-life balance skills regime
  - Re-integration to work

#### 2) AWARENESS CAMPAIGNS

The following awareness campaigns were conducted to raise awareness among employees about wellness services including Sick Leave - Absenteeism versus Presenteeism.

- Know your Wellness
- Substance Abuse Roadshow
- Team Building Programme Group Cohesion

#### 3) FUTURE MECHANISMS TO ADDRESS HIGH RATE OF SICK LEAVE

- Ongoing Awareness drives to address Sick Leave to all Matjhabeng employees will take place in collaboration with HR & OHS.
- Formation of a forum comprising Wellness, Personnel, OHS & Labour Union stakeholders to identify the sick leave/leave patterns if they are co-related due to work-related issues, physical, social, and psychological issues.
- Proactive measures are to be encouraged for the Municipality's employees to be referred to Employee Wellness when early identification of a sick leave pattern is noted.

Municipality | (PERFORMANCE REPORT PART II) 119

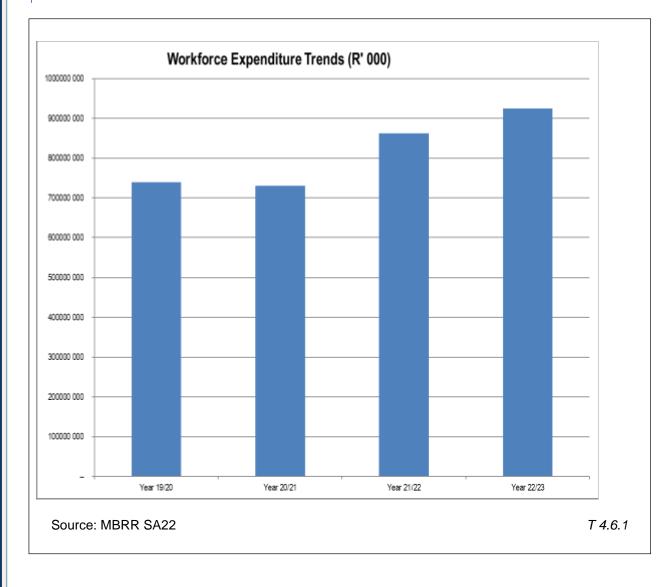

#### COMPONENT D: MANAGING THE WORKFORCE EXPENDITURE

#### INTRODUCTION TO WORKFORCE EXPENDITURE

It's important to ensure that employees are aligned with the municipality's vision. It cuts costs and improves productivity. Vacant posts which are on the approved establishment are being budgeted for. The municipality obtains value for money by being compliant with applicable legislation by alsotracking attendance registers and all overtime worked.

## 4.6 EMPLOYEE EXPENDITURE

Matjhabeng Local Municipality | (PERFORMANCE REPORT PART II) 121

|                    | Employees | appointed to        | posts not app    | roved   |
|--------------------|-----------|---------------------|------------------|---|
| Department         | Level     | Date of appointment | No.<br>appointed | Reason for appointment when no established post exists  |
| Political Office   | 5/4       | 01/06/2023          | 1                | After careful consideration of the need for<br>the coordination of investment in the<br>municipality. This need also emanated<br>from the Investment Summit which called<br>for an appointment of an Investment<br>Coordinator and Facilitator for efficient<br>effective, and sustainable marketing of the<br>municipality to the international<br>community. This led to the appointment of<br>an incumbent whose duties are to market<br>and liaise with the global community. |
| Community Services | 3         | 15/05/2023          | 1                | Due to the growing population and<br>demands of the community of<br>Matjhabeng, the municipal manager<br>deemed it fit to increase the scope of<br>waste management by adding another leg<br>of waste management to cope with the<br>inundated demand for the collection of<br>solid waste. The division was then divided<br>into two, East and West to manage the<br>overwhelming challenge hence the<br>appointment of Manager: Waste<br>Management.                            |
| Infrastructure     | 2         | 03/01/2023          | 2                | The post of Manager: Integrated Engineer<br>was created to design electronic software<br>and help in the reconfiguration of the<br>electricity regime in the municipality. An<br>amended structure to this effect was<br>signed off by the former Municipal<br>Manager in 2022.   |

## DISCLOSURES OF FINANCIAL INTERESTS

Refer to disclosures made by officials and councillors concerning their financial interests as required by PM Regulations 805 of 2006 are set out in **Appendix J**.

## CHAPTER 5 – FINANCIAL PERFORMANCE

#### INTRODUCTION

Chapter 5 contains information regarding financial performance and highlights specific accomplishments. The chapter comprises of four components:

- Component A: Statement of Financial Performance
- Component B: Spending Against Capital Budget
- Component C: Cash Flow Management and Investment
- Component D: Other Financial Matters

## COMPONENT A: STATEMENTS OF FINANCIAL PERFORMANCE

## INTRODUCTION TO FINANCIAL STATEMENTS

Note: Statements of Revenue Collection Performance by vote and by source are included in **Appendix K**.

This component provides an overview of the financial performance of the municipality and focuses on the financial health of the municipality.

## 5.3 ASSET MANAGEMENT

#### INTRODUCTION TO ASSET MANAGEMENT

The municipality has a Finance Department which is responsible for Asset Control. The Finance Department-Asset Control

(a) Shall ensure that complete records of asset items are kept, verified, and balanced regularly,

(b) Shall ensure that all departments are doing annual asset verification. The results of this verification must be reported to the Municipal Manager or Council.

(c) Shall ensure that the Asset Register is balanced annually with the general ledger and the financial statements.

(d) Shall ensure adequate bar codes and equipment to exercise the function relating to asset control are available at all times.

(e) Provide the Auditor-General or his personnel, on request, with financial records relating to assets belonging to the Council as recorded in the Asset Register.

(f) Ensure that all audit queries are resolved promptly.

A municipality may alienate any other capital asset but provided.

(a) The council, in a meeting open to the public, has first determined that the asset is not required to provide a minimum level of basic municipal services, and

(b) The council has considered the fair market value of the asset and the economic and community value to be received in exchange for the asset.

\* MIG is a government grant program designed to fund a reduction in service backlogs, mainly: Water; Sanitation; Roads; Electricity. Expenditure on new, upgraded and renewed infrastructure is set out at Appendix M; note also the calculation of the variation. Variances are calculated by dividing the difference between actual and original/adjustments budget by the actual.

## COMPONENT D: OTHER FINANCIAL MATTERS

GRAP COMPLIANCE

The municipality has successfully complied with the GRAP Standard in 2022/2023.

Matjhabeng Local Municipality | CHAPTER 5 – FINANCIAL PERFORMANCE 140

## CHAPTER 6 – AUDITOR GENERAL AUDIT FINDINGS

# COMPONENT A: AUDITOR-GENERAL OPINION OF FINANCIAL STATEMENTS YEAR 2021/2022

## 6.1 AUDITOR GENERAL REPORTS YEAR 2021/2022 (PREVIOUS YEAR) Report on the audit of the financial statements is a Qualified Opinion

| Auditor-General Report on Financial Performance: Year 2021/2022  |   |  |  |
|--|---|--|--|
| Audit Report Status:   |   |  |  |
| Non-Compliance Issues  | Remedial Action Taken   |  |  |
| The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of non-current assets, current assets, and disclosure items, identified by the auditors in the submitted financial statements were subsequently corrected and the supporting records were provided subsequently, but the uncorrected material misstatements and supporting records that could not be provided resulted in the financial statements receiving a qualified audit opinion. | Monthly GL reviews are conducted, wherein assertions are tested.  |  |  |
| Money owed by the municipality was not always paid within 30 days, as required by section 65(2)(e) of the MFMA.  | Measures are being taken to maximize the collection of<br>revenue (Operation Patala) as well as the monitoring of<br>the payment of suppliers to aid in the 30-day<br>compliance. |  |  |
| An adequate management, accounting, and information system was not<br>in place which recognized expenditure when it was incurred, as required by<br>section 65(2)(b) of the MFMA.  | Monthly GL reviews are conducted, wherein assertions are tested.  |  |  |
| Reasonable steps were not taken to prevent irregular expenditure, as required by section 62(1)(d) of the MFMA. The value of R307 922 701, as disclosed in note 50, is not complete as management was still in the process of quantifying the full extent of the irregular expenditure. The majority of the disclosed irregular expenditure was caused by non-compliance with SCM regulations.  | MPAC is currently underway as scheduled to investigate UIFW matters.  |  |  |
| Reasonable steps were not taken to prevent fruitless and wasteful expenditure amounting to R180 736 297, as disclosed in note 49 to the annual financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the disclosed fruitless and wasteful expenditure was caused by interest paid due to late payment of suppliers.  | MPAC is currently underway as scheduled to investigate UIFW matters.  |  |  |
| Reasonable steps were not taken to prevent unauthorised expenditure<br>amounting to R1 474 880 000, as disclosed in note 48 to the<br>annual financial statements, in contravention of section 62(1)(d) of the<br>MFMA. The majority of the unauthorised expenditure was caused by<br>overspending the approved budget.  | MPAC is currently underway as scheduled to investigate UIFW matters.  |  |  |

Matjhabeng Local Municipality | CHAPTER 6 – AUDITOR GENERAL AUDIT FINDINGS 141

| An effective system of internal control for revenue and debtors was not in place, as required by section 64(2)(f) of the MFMA.   | Have weekly internal audit meetings to discuss revenue challenges and find ways to remedy these challenges.  |
|--|--|
| Sufficient appropriate audit evidence could not be obtained that all<br>contracts and quotations were awarded in accordance with the legislative<br>requirements as bid documents were not submitted. A similar limitation<br>was also reported in the prior year.   | Management has implemented measures to ensure<br>that supporting documentation is available within the<br>required amount of time.<br>The following measures are currently underway:<br>- Document audit of supporting documentation.<br>- Accounting services have been dedicated to assist in<br>ensuring that supporting documentation is provided to<br>the auditors within the required amount of time. |
| Some of the contracts were awarded to providers whose tax matters had not<br>been declared by the South African Revenue Service (Sars) to be in<br>order, in contravention of SCM regulation 43. A similar non-compliance<br>was also reported in the prior year   | Bidder tax compliance status is being checked and printed before awards are made.  |
| The preference point system was not applied to the procurement of goods and services above R30 000 as required by section 2(1)(a) of the Preferential Procurement Policy Framework Act 5 of 2000.  | The preference Points System is being applied for goods or services above R30k, the department has appointed more personnel to ensure that the awards follow a proper SCM process.   |
| Sufficient appropriate audit evidence could not be obtained for commodities designated for local content and production that invitations to tender for procurement stipulated the minimum threshold, such commodities were procured from suppliers who submitted a declaration and who met the prescribed minimum threshold for local production and content as required by the 2017 Preferential Procurement Regulations 8(2) and 8(5). A similar limitation was also reported in the prior year. | Management has implemented measures to ensure<br>that supporting documentation is available within the<br>required amount of time.<br>The following measures are currently underway:<br>- Document audit of supporting documentation.<br>- Accounting services have been dedicated to assist in<br>ensuring that supporting documentation is provided to<br>the auditors within the required amount of time. |
| Some of the unauthorised expenditure incurred by the municipality was<br>not investigated to determine if any person is liable for the expenditure,<br>as required by section 32(2)(a) of the MFMA.  | MPAC is currently underway as scheduled to investigate UIFW matters.   |
| Irregular expenditure incurred by the municipality was not investigated to determine if any person is liable for the expenditure, as required by   | MPAC is currently underway as scheduled to investigate UIFW matters.   |
| section 32(2)(b) of the MFMA.<br>Some of the fruitless and wasteful expenditure incurred by the<br>municipality was not investigated to determine if any person is liable for<br>the expenditure, as required by section 32(2)(b) of the MFMA.   | MPAC is currently underway as scheduled to investigate UIFW matters.   |
| An adequate management, accounting and information system which accounts for assets was not in place, as required by section 63(2)(a) of the MFMA.   | Accounting Services has conducted asset verifications and is updating the registers regularly.   |
| An effective system of internal control for assets was not in place, as required by section 63(2)(c) of the MFMA.  | Accounting Services has conducted asset verifications and is updating the registers regularly.   |

| Auditor-General Report on Service Delivery Performance: Year 2021/2022  |   |  |  |
|---|---|--|--|
| Audit Report Status:  |   |  |  |
| Non-Compliance Issues   | Remedial Action Taken   |  |  |
| The local community was not invited to submit representations in connection with the 2020-21 annual report, as required by section 127(5)(a)(ii) of the MFMA.   | A Public Notice on the adoption of the Annual Report has been published in the Local Newspaper (Free State Sun, The Weekly, and Vista). The Newspapers will be available on 23 February 2023. The Public Notice invites the Local Community to comment on the Annual Report. The Public will have from 23 February to 24 March 2023 to submit their comments to MM. |  |  |
| The council failed to adopt an oversight report<br>containing the council's comments on the 2020-21<br>annual report, as required by section 129(1) of the<br>MFMA.   | MPAC has deployed different managers to be part of MPAC meetings when<br>evaluating the Annual Report to evaluate the AR on time and submit the<br>Oversight Report within the legislated timeframes.   |  |  |
| The oversight report adopted by the council on the 2020-21 annual report was not made public, as required by section 129(3) of the MFMA.  | MPAC has deployed different managers to be part of MPAC meetings when<br>evaluating the Annual Report to evaluate the AR on time and submit the<br>Oversight Report within the legislated timeframes.   |  |  |
| The performance management system and related<br>controls were inadequate due to the significant<br>internal control deficiencies identified resulting in<br>usefulness and reliability findings on indicators and<br>targets, as required by municipal planning and<br>performance management regulation 7(1). | The PMDS Policy Framework was reviewed and submitted to the council on 28 March 2023 for noting. PMDS Policy Framework will be sent back to council on the 29 August 2023 for approval.   |  |  |

AGSA procedures performed in 2021/2022 did not examine whether the actions taken by the municipality enabled service delivery.

# COMPONENT B: AUDITOR-GENERAL OPINION OF FINANCIAL STATEMENTS YEAR 2022/2023

#### 6.2 AUDITOR GENERAL REPORT YEAR 2022/2023

Report of the auditor-general to the Free State Provincial Legislature and the council on the Matjhabeng Local Municipality

#### Report on the audit of the financial statements

#### Qualified opinion

- I have audited the financial statements of the Matjhabeng Local Municipality set out on pages xx to xx, which comprise the statement of financial position as at 30 June 2023, statement of financial performance, statement of changes in net assets, cash flow statement and the statement of comparison of budget and actual amounts for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.
- 2. In my opinion, except for the effects and possible effects of the matters described in the basis for qualified opinion section of this auditor's report, the financial statements present fairly, in all material respects, the financial position of the Matjhabeng Local Municipality as at 30 June 2023, and its financial performance and cash flows for the year then ended in accordance with the South African Standards of Generally Recognised Accounting Practice (GRAP) and the requirements of the Municipal Finance Management Act 56 of 2003 (MFMA) and the Division of Revenue Act 5 of 2022 (Dora).

#### Basis for qualified opinion

#### Service charges

3. I was unable to obtain sufficient appropriate audit evidence for the sale of electricity and sale of water included in service charges in note 18 to the financial statements due to the status of the accounting records. I was unable to confirm the sale of electricity and sale of water by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to the sale of electricity and sale of water included in service charges, stated at R1 119 943 891 (2022: R1 091 621 490) in note 18 to the financial statements.

#### Payables from exchange transactions

4. The municipality did not correctly account for trade payables in accordance with GRAP 1, *Presentation of financial statements* due to the municipality not recording the supplier's invoices in the accounting records of the municipality for the corresponding period. Consequently, the corresponding figure of trade payables disclosed in note 13 to the financial statements was understated by R49 167 522. Additionally, there was also an impact on the accumulated deficit.

#### Context for opinion

I conducted my audit in accordance with the International Standards on Auditing (ISAs). My
responsibilities under those standards are further described in the responsibilities of the
auditor-general for the audit of the financial statements section of my report.

- 6. I am independent of the municipality in accordance with the International Ethics Standards Board for Accountants' International code of ethics for professional accountants (including International Independence Standards) (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
- I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

#### Material uncertainty relating to going concern

- 8. I draw attention to the matter below. My opinion is not modified in respect of this matter.
- 9. Note 45 to the financial statements indicates that the municipality incurred a net loss of R1 115 679 647 during the year ended 30 June 2023 and, as of that date, the municipality's total liabilities exceed its total assets by R4 197 678 664 whilst the total current assets cover only 21% of its total current liabilities. In addition, the municipality owed Eskom for R5 630 675 806 (2022: R4 763 669 846) and Bloem Water for R5 436 424 698 (2022: R4 897 035 157). These events or conditions, along with other matters as set forth in note 45, indicate that a material uncertainty exists that may cast significant doubt on the municipality's ability to continue as a going concern.

#### Emphasis of matters

10. I draw attention to the matters below. My opinion is not modified in respect of these matters.

#### Restatement of corresponding figures

 As disclosed in note 44 to the financial statements, the corresponding figures for 30 June 2022 were restated as a result of errors in the financial statements of the municipality at, and for the year ended, 30 June 2023.

#### Material impairment

 As disclosed in notes 5 and 6 to the financial statements, receivables from exchange transactions and receivables from non-exchange transactions were impaired by R4 495 085 681 (2022: R3 766 745 685) and R677 315 986 (2022: R557 408 294).

#### Material losses

13. As disclosed in note 34 to the financial statements, material electricity losses of R89 357 033 (2022: R127 890 866) were incurred due to the status/condition and age of the network, weather conditions, and load on the system as well as non-technical losses such as theft and vandalism. In addition, material water losses of R239 831 884 (2022: R323 991 257) were incurred due to metering inefficiencies, ageing pipeline infrastructure, burst water pipes, leakages and unmetered connections.

#### Underspending and withholding of conditional grants

14. As disclosed in note 15 to the financial statements, the municipality materially underspent the conditional grants by R118 957 275 (2022: R191 001 126). As disclosed in note 26 to the financial statements, the National Treasury withheld R75 100 000 (2022: R25 000 000) equitable share from the municipality due to an arrangement with the National Treasury for repayment of unspent conditional grants.

#### Material uncertainty relating to claims against the municipality

15. With reference to note 41 to the financial statements, the municipality is the defendant in various claims against the municipality. The municipality is opposing these claims. The ultimate outcome of these matters could not be determined and no provision for any liabilities that may result was made in the financial statements.

#### Unauthorised expenditure

 As disclosed in note 47 to the financial statements, the municipality incurred unauthorised expenditure of R1 067 576 615 (2022: R1 474 880 001), due to overspending of the budget.

#### Fruitless and wasteful expenditure

 As disclosed in note 48 to the financial statements, the municipality incurred fruitless and wasteful expenditure of R339 841 917 (2022: R180 736 298), mainly due to interest and penalties on late payments to suppliers.

#### Irregular expenditure

 As disclosed in note 49 to the financial statements, the municipality incurred irregular expenditure of R146 754 378 (2022: R336 297 196), mainly due to non-compliance with supply chain management regulations (SCM).

#### Other matter

19. I draw attention to the matter below. My opinion is not modified in respect of this matter.

#### Unaudited disclosure notes

20. In terms of section 125(2)(e) of the MFMA, the particulars of non-compliance with the MFMA should be disclosed in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and accordingly, I do not express an opinion on it.

#### Responsibilities of the accounting officer for the financial statements

21. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the Standards of GRAP and the requirements of the MFMA and Dora; and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

\_\_\_\_\_Matjhabeng Local Municipality | CHAPTER 6 – AUDITOR GENERAL AUDIT FINDINGS \_\_\_\_\_146

22. In preparing the financial statements, the accounting officer is responsible for assessing the municipality's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipality or to cease operations or has no realistic alternative but to do so.

#### Responsibilities of the auditor-general for the audit of the financial statements

- 23. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
- 24. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

- 25. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objectives for the selected key performance area (KPA) presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.
- 26. I selected the following KPA presented in the annual performance report for the year ended 30 June 2023 for auditing. I selected a KPA that measures the municipality's performance on its primary mandated functions and that are of significant national, community or public interest.

| КРА            | Page numbers | Purpose  |
|----------------|--------------|--|
| Basic services | xx           | Supporting the delivery of municipal services to the right quality and standard. |

- 27. I evaluated the reported performance information for the selected KPA against the criteria developed from the performance management and reporting framework, as defined in the general notice. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users on the municipality's planning and delivery on its mandate and objectives.
- 28. I performed procedures to test whether:
  - the indicators used for planning and reporting on performance can be linked directly to the municipality's mandate and the achievement of its planned objectives.

- the indicators are well defined and verifiable to ensure that they are easy to understand and apply consistently and that I can confirm the methods and processes to be used for measuring achievements.
- the targets can be linked directly to the achievement of the indicators and are specific, time bound and measurable to ensure that it is easy to understand what should be delivered and by when, the required level of performance as well as how performance will be evaluated.
- the indicators and targets reported on in the annual performance report are the same as what was committed to in the approved initial or revised planning documents.
- the reported performance information is presented in the annual performance report in the prescribed manner.
- there is adequate supporting evidence for the achievements reported and for the measures taken to improve performance.
- I performed the procedures for the purpose of reporting material findings only; and not to express an assurance opinion.
- I did not identify any material findings on the reported performance information for the KPA.

#### Other matter

31. I draw attention to the matter below.

Achievement of planned targets

- 32. The annual performance report includes information on reported achievements against planned targets and provides explanations for over-and underachievement.
- 33. The municipality plays a key role in delivering services to South Africans. The annual performance report includes the following service delivery achievements against planned targets:

| Key service delivery indicator not achieved  | Planned<br>target | Reported<br>achievement |
|--|-------------------|-------------------------|
| Sewer networks and Wastewater Treatment Works developmenta projects)   | l and mainte      | nance (PMU              |
| Targets achieved: 53.33%   |                   |                         |
| Budget spent: 91,33%   |                   |                         |
| Percentage refurbishment work completed on Kutlwanong,<br>Wastewater Treatment Works by the 31st of December 2022.<br>(multi-year project) | 100%              | 79%                     |
| Percentage refurbishment work completed on Theronia final effluent pipeline. (multi-year project)  | 63%               | 0%                      |

| Key service delivery indicator not achieved   | Planned<br>target | Reported<br>achievement |
|---|-------------------|-------------------------|
| Percentage refurbishment work completed on Thabong Wastewater<br>Treatment Works. (multiyear project)   | 100%              | 98%                     |
| Percentage refurbishment work completed on Phomolong,<br>Wastewater Treatment Works. (multiyear project)  | 25%               | 0%                      |
| Percentage works completed on the refurbishment and upgrading<br>of 2 sewer pumpstations and rising main in Virginia and Meloding<br>by the 30th of June 2023. (multi-year project)         | 100%              | 66%                     |
| Percentage works completed on installation of sanitation to 617 stands in Thabong X15 and Bronville by 30th of June 2023. (Multi-<br>year project)  | 100%              | 77%                     |

#### Report on compliance with legislation

- 34. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the municipality's compliance with legislation.
- 35. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.
- 36. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the municipality, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.
- 37. The material findings on compliance with the selected legislative requirements, presented per compliance theme, are as follows:

#### Annual financial statements

38. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of non-current assets, current assets and disclosure items identified by the auditors in the submitted financial statements were subsequently corrected, but the uncorrected material misstatements resulted in the financial statements receiving a qualified audit opinion.

#### Expenditure management

 Money owed by the municipality was not always paid within 30 days, as required by section 65(2)(e) of the MFMA.

- 40. Reasonable steps were not taken to prevent irregular expenditure amounting to R146 754 378 as disclosed in note 49 to the annual financial statements, as required by section 62(1)(d) of the MFMA. The majority of the irregular expenditure was caused by non-compliance with the SCM regulations.
- 41. Reasonable steps were not taken to prevent fruitless and wasteful expenditure amounting to R339 841 917, as disclosed in note 48 to the annual financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the disclosed fruitless and wasteful expenditure was caused by interest charged on overdue accounts.
- 42. Reasonable steps were not taken to prevent unauthorised expenditure amounting to R1 067 576 615, as disclosed in note 47 to the annual financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the unauthorised expenditure was caused by overspending of the approved budget.

#### Revenue management

 An effective system of internal control for revenue and debtors was not in place, as required by section 64(2)(f) of the MFMA.

#### Asset management

 An effective system of internal control for assets (including an asset register) was not in place, as required by section 63(2)(c) of the MFMA.

#### Strategic planning and performance management

45. The integrated development plan (IDP) did not reflect the key performance indicators and targets, as required by sections 26(i) of the Municipal Systems Act 32 of 2000 (MSA) and municipal planning and performance management regulation 2(1)(e).

#### Procurement and contract management

- 46. Some of the contracts were awarded to providers whose tax matters had not been declared by the South African Revenue Service to be in order, in contravention of SCM regulation 43. A similar non-compliance was also reported in the prior year.
- 47. Sufficient appropriate audit evidence could not be obtained that contracts were awarded to suppliers based on preference points that were allocated and calculated in accordance with the requirements of section 2(1)(a) of the Preferential Procurement Policy Framework Act 5 of 2000 (PPPFA) and its regulations. A similar non-compliance was also reported in the prior year.
- 48. Sufficient appropriate audit evidence could not be obtained that invitations to tender for procurement of commodities designated for local content and production, stipulated the minimum threshold for local production and content as required by the 2017 Preferential Procurement Regulations 8(2). A similar limitation was also reported in the prior year.

#### **Consequence management**

- 49. Some of the unauthorised expenditure incurred by the municipality were not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(a) of the MFMA.
- Irregular expenditure incurred by the municipality were not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(b) of the MFMA.

#### Other information in the annual report

- 51. The accounting officer is responsible for the other information included in the annual report. The other information referred to does not include the financial statements, the auditor's report and the selected KPA presented in the annual performance report that have been specifically reported on in this auditor's report.
- 52. My opinion on the financial statements, the report on the annual performance report and the report on compliance with legislation, do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.
- 53. My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the financial statements and the selected KPA presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
- 54. I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

#### Internal control deficiencies

- 55. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.
- 56. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for the qualified opinion and the material findings on compliance with legislation included in this report.
- 57. Management did not implement daily and monthly processing and reconciling of transactions to ensure that trade payables, service chagres, unauthorised and irregular expenditure were accurately updated on a regular basis.
- 58. Management did not implement adequate controls to ensure that records were accurate and complete resulting in material corrections to the financial statements.

59. Management did not implement appropriate controls to timeously identify non-compliance in applicable laws and regulations resulting in recurring material non-compliance findings. There was an inadequate implementation of investigation by leadership on the transgressions of laws and regulations.

#### Material irregularities

60. In accordance with the PAA and the Material Irregularity Regulations, I have a responsibility to report on material irregularities identified during the audit and on the status of material irregularities as previously reported in the auditor's report.

#### Material irregularities identified during the audit

61. The material irregularities identified are as follows:

#### Pollution of water resource not prevented - Witpan Wastewater Treatment Works

- 62. The Witpan wastewater treatment works has totally collapsed and has not been operating effectively. This resulted in continued spilling and discharge of raw/untreated sewage into the adjacent environment, including the groundwater, Sand river and its extended watercourse. The municipality did not take reasonable measures to prevent pollution or degradation of the environment and water resources from occurring, continuing or recurring, as required by section 28(1) of the National Environmental Management Act 107 of 1998 (NEMA) and section 19(1) of the National Water Act 36 of 1998 (NWA). The discharge of raw/untreated sewage into the environment is likely to cause substantial harm to the communities exposed to, and dependent on, the contaminated water resources.
- 63. The accounting officer was notified of the material irregularity on 13 February 2023 and was invited to make a written submission on the actions taken and that will be taken to address the matter. The accounting officer did not take appropriate action to resolve the material irregularity. I am in the process of referring the material irregularity for investigation to a public body as provided for in section 5(1A) of the PAA.

#### Status of previously reported material irregularities

#### Late payment of employee taxes

- 64. The municipality did not pay over money deducted from employees within seven days after the end of the month during which the amounts were deducted or withheld from employees in respect of their liability for normal tax, as required by section 2(1) of the fourth schedule of the Income Tax Act 58 of 1962. The late payment resulted in a material financial loss for the municipality due to interest of R650 640 and penalties of R1 881 783 incurred for the period 1 April 2019 to 30 June 2020.
- 65. The accounting officer was notified of this material irregularity on 15 April 2021. The accounting officer did not take appropriate action to address the material irregularity as adequate steps were not taken to prevent further losses. I recommend that the accounting officer should take the following actions to address the material irregularity, which should be implemented by 14 July 2023:

 Appropriate action should be taken to develop and to commence with the implementation of a financial recovery plan as approved by council, to address the financial problems of the municipality that are preventing it from paying Sars within seven days, as required by section 2(1) of the Fourth Schedule of the Income Tax Act. The financial plan should include realistic timeframes and milestones to be achieved and include, as a minimum, strategies to:

 (a) enhance the existing Revenue enhancement and debt collection plan with the intention to increase revenue; and

(b) efficiently manage the available resources of the municipality to optimise and reduce costs by eliminating wastage whilst obtaining value in respect of all costs incurred.

- 66. The accounting officer has not adequately implemented the above recommendations. I notified the accounting officer on 9 November 2023 of the following remedial actions to address the material irregularity, which must be implemented by 9 April 2024 with a progress report after two months:
  - Appropriate action must be taken to formalise and commence with the implementation of the financial recovery plan. The financial recovery plan must be approved by Council and must address the financial problems of the municipality that are preventing it from paying SARS within seven (7) days, as required by Section 2(1) of the Fourth Schedule of the Income Tax Act 58 of 1962. The financial recovery plan must include realistic timeframes and milestones to be achieved.

67. I will follow up on the implementation of the remedial action after the due date.

#### Eskom not paid within 30 days

- 68. The accounting officer did not take all reasonable steps to ensure that amounts due to Eskom or the bulk purchase of electricity were paid within 30 days of receiving the relevant invoice or statement, as required by section 65(2)(e) of the MFMA. As a result of the late payment, the municipality incurred interest of R255 516 913 for the financial year ended 30 June 2019. The interest incurred is likely to result in a material financial loss for the municipality due to the liability to pay the interest to Eskom.
- 69. The accounting officer was notified of the material irregularity on 4 May 2020. The accounting officer did not take appropriate action to address the material irregularity. I recommend that the accounting officer should take the following actions to address the material irregularity, which should be implemented by 30 June 2024 with progress reports every 2 months:
  - (a) Appropriate action should be taken to commence with implementation of the financial plan to address the financial problems of the municipality that are preventing it from paying Eskom within 30 days, as required by MFMA section 65(2)(e). The financial plan should include realistic timeframes and milestones to be achieved and include as a minimum strategies to:
    - Increase revenue;
    - Increase the collection of revenue;

- Efficiently manage the available resources of the municipality by accurate budgeting, budget management and cost cutting;
- Reduce electricity distribution losses; and
- Negotiate a reasonable payment arrangement with Eskom and properly budget for the amounts to be paid.

70. I will follow up on the implementation of the remedial action after the due date.

#### Payment for attenuation dam not constructed at Nyakallong storm water system phase 1

- 71. On 12 April 2017, the municipality awarded a contract of R13 744 408 for the construction of the Nyakallong storm water system to a contractor. Two variation orders amounting to R3 268 705 were approved in 2017 and 2019. Payments estimated at R7 214 719 were made for an attenuation dam after the consulting engineer certified it had been completed. However, during a site visit, the auditors confirmed that the project was incomplete, the attenuation dam had not been constructed, the contractor had abandoned the project site and the work performed was not of the required quality. This contravened section 65(2)(a) of the MFMA, as an effective system of expenditure control for the approval and payment of funds was not maintained. The overpayments made on the project are likely to result in a material financial loss for the municipality, if not recovered.
- 72. The accounting officer was notified of the material irregularity on 5 May 2020. The accounting officer could not provide sufficient and appropriate evidence of the actions that had been taken in response to being notified of the material irregularity. On 9 June 2021, I referred the material irregularity to the Directorate for Priority Crime Investigation (the Hawks) for investigation, as provided for in section 5(1A) of the PAA. The current progress with the investigation is that three individuals were arrested and appeared in court. The investigation is ongoing.

#### Pollution of water resource not prevented – Henneman Wastewater Treatment Works

- 73. The Henneman wastewater treatment works has totally collapsed and has not been operating effectively. This resulted in continued spilling and discharge of raw/untreated sewage into the adjacent environment, including the groundwater, Rietspruit and its extended watercourse. The municipality did not take reasonable measures to prevent pollution or degradation of the environment and water resource from occurring, continuing or recurring, as required by section 28(1) of the NEMA and section 19(1) of the NWA. The discharge of raw/untreated sewage into the environment is likely to cause substantial harm to the communities exposed to, and dependent on, the contaminated water resources.
- 74. The accounting officer was notified of the material irregularity on 7 December 2022 and was invited to make a written submission on the actions taken and that will be taken to address the matter. The accounting officer did not take appropriate action to resolve the material irregularity. I am in the process of referring the material irregularity for investigation to a public body as provided for in section 5(1A) of the PAA.

#### Pollution of water resource not prevented - Phomolong Wastewater Treatment Works

75. The Phomolong wastewater treatment works has totally collapsed and has not been operating effectively. This resulted in continued spilling and discharge of raw/untreated sewage into the adjacent environment, including the groundwater, Slootspruit, and its extended watercourse. The municipality did not take reasonable measures to prevent pollution or degradation of the environment and water resource from occurring, continuing or recurring, as required by section 28(1) of the NEMA and section 19(1) of the NWA. The discharge of raw/untreated sewage into the environment is likely to cause substantial harm to the communities exposed to, and dependent on, the contaminated water resources.

76. The accounting officer was notified of the material irregularity on 7 December 2022 and was invited to make a written submission on the actions taken and that will be taken to address the matter. The accounting officer did not take appropriate action to resolve the material irregularity. I am in the process of referring the material irregularity for investigation to a public body as provided for in section 5(1A) of the PAA.

#### Other reports

- 77. In addition to the investigations relating to material irregularities, I draw attention to the following engagements conducted by various parties. These reports did not form part of my opinion on the financial statements or my findings on the reported performance information or compliance with legislation.
- 78. There was an ongoing investigation by the Directorate for Priority Crime Investigation (DPCI) into the allegation of payroll fraud as the IP address of the official was compromised and unauthorised access was obtained, which resulted in the alteration of the banking details of various employees. The investigation covers the specific incident that occurred on 22 January 2020. The outcome was unknown at the date of this auditor's report as the investigation was in progress.
- 79. There was an ongoing investigation by the DPCI into the allegation that a contractor claimed and was paid for goods and services not delivered. The last payment occurred on 3 August 2018. The outcome was unknown at the date of this auditor's report as the investigation was in progress.
- 80. There was an ongoing investigation by the South African Police Service (SAPS) into the allegation of unauthorised amendments to the supplier's banking details on the municipality's accounting system. The investigation covers the specific incident that occurred on 13 May 2016. The outcome was unknown at the date of this auditor's report as the investigation was in progress.
- 81. There was an ongoing investigation by the AGSA into procurement and contract management that the executive mayor requested the AGSA to perform. The outcome was unknown at the date of this auditor's report as the investigation was in progress.

82. There was an ongoing investigation into allegations of forgery of a signature of a municipal official that resulted in a payment being made without a service having been rendered to the municipality. This investigation is being conducted by the South African Police Service (SAPS) and covers a specific incident that occurred on 11 November 2015. The outcome was unknown at the date of this auditor's report as the investigation was in progress.

Auditor - General

Bloemfontein

30 January 2024

Matjhabeng Local Municipality | CHAPTER 6 – AUDITOR GENERAL AUDIT FINDINGS 157

### Annexure to the auditor's report

- 1. The annexure includes the following:
- the auditor-general's responsibility for the audit
- the selected legislative requirements for compliance testing.

#### Auditor-general's responsibility for the audit

#### Professional judgement and professional scepticism

 As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for the selected key performance area and on the municipality's compliance with selected requirements in key legislation

#### **Financial statements**

- In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made
- conclude on the appropriateness of the use of the going concern basis of accounting in the
  preparation of the financial statements. I also conclude, based on the audit evidence obtained,
  whether a material uncertainty exists relating to events or conditions that may cast significant
  doubt on the ability of the municipality to continue as a going concern. If I conclude that a
  material uncertainty exists, I am required to draw attention in my auditor's report to the related
  disclosures in the financial statements about the material uncertainty or, if such disclosures are
  inadequate, to modify my opinion on the financial statements. My conclusions are based on the
  information available to me at the date of this auditor's report. However, future events or
  conditions may cause a municipality to cease operating as a going concern
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation

#### Communication with those charged with governance

- 4. I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit
- 5. I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied

## Compliance with legislation - selected legislative requirements

### 6. The selected legislative requirements are as follows:

| Legislation   | Sections or regulations   |
|---|---|
| Municipal Finance Management Act 56 of 2003   | Section 1 - Paragraphs (a), (b) & (d) of the definition: irregular expenditure,<br>Section 1 - Definition: service delivery and budget implementation plan,<br>Sections 11(1), 13(2), 14(1), 14(2)(a), 14(2)(b), 15, 24(2)(c)(iv), 29(1),<br>Sections 29(2)(b), 32(2), 32(2)(a), 32(2)(a)(i), 32(2)(a)(ii), 32(2)(b),<br>Sections 32(6)(a), 32(7), 53(1)(c)(ii), 54(1)(c), 62(1)(d), 62(1)(f)(i),<br>Sections 62(1)(f)(ii), 62(1)(f)(iii), 63(1)(a), 63(2)(a), 63(2)(c), 64(2)(b),<br>Sections 64(2)(c), 64(2)(e), 64(2)(f), 64(2)(g), 65(2)(a), 65(2)(b), 65(2)(e),<br>Sections 72(1)(a)(iii), 112(1)(j), 116(2)(b), 116(2)(c)(ii), 117, 122(1),<br>Sections 122(2), 126(1)(a), 126(1)(b), 127(2), 127(5)(a)(i), 127(5)(a)(ii),<br>Sections 129(1), 129(3), 133(1)(a), 133(1)(c)(ii), 133(1)(c)(ii), 170,<br>Sections 171(4)(a), 171(4)(b) |
| MFMA: Municipal Budget and Reporting Regulations,<br>2009   | Regulations 71(1), 71(2), 72  |
| MFMA: Municipal Investment Regulations, 2005  | Regulations 3(1)(a), 3(3), 6, 7, 12(2), 12(3)   |
| MFMA: Municipal Regulations on Financial Misconduct<br>Procedures and Criminal Proceedings, 2014                                  | Regulations 5(4), 6(8)(a), 6(8)(b), 10(1)   |
| MFMA: Municipal Supply Chain Management<br>Regulations, 2017  | Regulations 5, 12(1)(c), 12(3), 13(b), 13(c), 13(c)(i), 16(a), 17(1)(a)<br>Regulations 17(1)(b), 17(1)(c), 19(a), 21(b), 22(1)(b)(i), 22(2), 27(2)(a)<br>Regulations 27(2)(e), 28(1)(a)(i), 28(1)(a)(ii), 29(1)(a), 29(1)(b)<br>Regulations 29(5)(a)(ii), 29(5)(b)(ii), 32, 36(1), 36(1)(a), 38(1)(c)<br>Regulations 38(1)(d)(ii), 38(1)(e), 38(1)(g)(i), 38(1)(g)(ii), 38(1)(g)(iii), 43<br>Regulations 44, 46(2)(e), 46(2)(f)   |
| Municipal Systems Act 32 of 2000  | Sections 25(1), 26(a), 26(c), 26(h), 26(i), 29(1)(b)(ii), 29(3)(b), 34(a), 34(b)<br>Sections 38(a), 41(1)(a), 41(1)(b), 41(1)(c)(ii), 42, 43(2), 56(a), 57(2)(a)<br>Sections 57(4B), 57(6)(a), 66(1)(a), 66(1)(b), 67(1)(d), 74(1), 93J(1), 96(b)   |

# GLOSSARY

| Accessibility        | Explore whether the intended beneficiaries are able to access services or        |
|----------------------|--|
| indicators           | outputs.   |
| Accountability       | Documents used by executive authorities to give "full and regular" reports on    |
| documents            | the matters under their control to Parliament and provincial legislatures as     |
| abounionto           | prescribed by the Constitution. This includes plans, budgets, in-year and        |
|                      | Annual Reports.  |
| Activities           | The processes or actions that use a range of inputs to produce the desired       |
| Activities           | outputs and ultimately outcomes. In essence, activities describe "what we        |
|                      | do".   |
| Adequacy indicators  | The quantity of input or output relative to the need or demand.                  |
| Annual Report        | A report is to be prepared and submitted annually based on the regulations       |
|                      | set out in Section 121 of the Municipal Finance Management Act. Such a report    |
|                      | must include annual financial statements as submitted to and approved            |
|                      | by the Auditor-General.  |
| Approved Budget      | The annual financial statements of a municipality as audited by the Auditor      |
|                      | General and approved by the council or a provincial or national executive.       |
| Baseline             | The current level of performance that a municipality aims to improve when        |
| Duconno              | setting performance targets. The baseline relates to the level of performance    |
|                      | recorded in a year prior to the planning period.                                 |
| Basic municipal      | A municipal service is necessary to ensure an acceptable and reasonable          |
| service              | quality of life for citizens within that particular area. If not provided it may |
| 3014100              | endanger the public health and safety or the environment.                        |
| Budget year          | The financial year for which an annual budget is to be approved – means a        |
| Duuger yeu           | year ending on 30 June.  |
| Cost indicators      | The overall cost or expenditure of producing a specified quantity of outputs.    |
| Distribution         | The distribution of capacity to deliver services.                                |
| indicators           |  |
| Financial Statements | Includes at least a statement of financial position, statement of financial      |
|                      | performance, cash-flow statement, notes to these statements, and any other       |
|                      | statements that may be prescribed.   |
| General Key          | After consultation with MECs for local government, the Minister may prescribe    |
| performance          | general key performance indicators that are appropriate and applicable to local  |
| indicators           | government generally.  |
|                      |  |
| Impact               | The results of achieving specific outcomes, such as reducing poverty and         |
|                      | creating jobs.   |
| Inputs               | All the resources that contribute to the production and delivery of outputs.     |
|                      | Inputs are "what we use to do the work". They include finances, personnel,       |
|                      | equipment, and buildings.  |
| Integrated           | Set out municipal goals and development plans.                                   |
| Development Plan     |  |
| (IDP)                |  |
|                      |  |
|                      | I  |

| Notional Var        | Service delivery & infrastructure   |
|---------------------|---|
| National Key        | Economic development  |
| performance areas   | Municipal transformation and institutional development                            |
|                     | Financial viability and management  |
|                     | Good governance and community participation                                       |
| •                   | The medium-term results for specific beneficiaries that are the consequence       |
|                     | of achieving specific outputs. Outcomes should relate clearly to an institution's |
|                     | strategic goals and objectives set out in its plans. Outcomes are "what we wish   |
|                     | to achieve".  |
|                     |   |
| Outputs             | The final products, or goods and services produced for delivery. Outputs may      |
|                     | be defined as "what we produce or deliver". An output is a concrete               |
|                     | achievement (i.e. a product such as a passport, an action such as a               |
|                     | presentation or immunization, or a service such as processing an application)     |
|                     | that contributes to the achievement of a Key Result Area.                         |
|                     | Indicators should be specified to measure performance in relation to input,       |
|                     | activities, outputs, outcomes and impacts. An indicator is a type of information  |
|                     | used to gauge the extent to   |
|                     | which an output has been achieved (policy developed, presentation delivered,      |
|                     | service rendered)   |
| Performance         | Generic term for non-financial information about municipal services and           |
|                     | activities. Can also be used interchangeably with performance measure.            |
|                     |   |
|                     |   |
| Performance         | The minimum acceptable level of performance or the level of performance that      |
| Standards:          | is generally accepted. Standards are informed by legislative requirements and     |
|                     | service-level agreements. Performance standards are mutually agreed criteria      |
|                     | to describe how well work must be done in terms of quantity and/or quality and    |
|                     | timeliness, to clarify the outputs and related activities of a job by describing  |
|                     | what the required result should be. In this EPMDS performance standards are       |
|                     | divided into indicators and the time factor.                                      |
| Performance         | The level of performance that municipalities and its employees strive to          |
|                     | achieve. Performance Targets relate to current baselines and express aspecific    |
| _                   | level of performance that a municipality aims to achieve within a given time      |
|                     | period.   |
|                     |   |
| Service Delivery    | Detailed plan approved by the mayor for implementing the municipality's           |
| Budget              | delivery of services; including projections of the revenue collected and          |
| Implementation Plan | operational and capital expenditure by vote for each month. Service delivery      |
|                     | targets and performance indicators must also be included.                         |
| Veter               | One of the main accompanie into which a hudget of a municipality is divided for   |
|                     | One of the main segments into which a budget of a municipality is divided for     |
|                     | appropriation of money for the different departments or functional areas of the   |
|                     | municipality. The Vote specifies the total amount that is appropriated for the    |
|                     | purpose of a specific department or functional area.                              |
|                     | Section 1 of the MFMA defines a "vote" as:  |
|                     | a) one of the main segments into which a budget of a municipality is divided      |

Matjhabeng Local Municipality | GLOSSARY 162

for the appropriation of money for the different departments or functional areas of the municipality; and b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned

| MIG   | Municipal Infrastructure Grant (Previously CMIP) |

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

## Accounting officer's Responsibilities and Approval

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the annual financial statements and was given unrestricted access to all financial records and related data.

The annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgments and estimates.

The accounting officer acknowledges that he is ultimately responsible for the system of internal financial control established by the municipality and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk oferror or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or error.

The accounting officer has reviewed the municipality's cash flow forecast for the year to 30 June 2024 and, in the light of this review and the current financial position, he is satisfied that the municipality has or has access to adequate resources to continue in sperational existence for the foreseeable future.

The annual financial statements set out on page 4 to 92, which have been prepared on the going concern basis, were approved by the accounting officer on 30 November 2023 and were signed on its behalf by:

Adv. LMR/Ngoqo Accounting Officer

## Statement of Comparison of Budget and Actual Amounts

## Budget on Accrual Basis

#### Variance of above 10% between the budgeted amount and the actual are due to the following:

Note 1 – Increased measures actual readings instead of making use of estimates resulted in less service charges than budgeted for.

Note 2 – Financial constraints to the public resulted in less events that necessitated the rental of facilities and equipment than budgeted for.

Note 3 – Item not being part of the core mandate of the municipality resulted in it not budgeted for.

Note 4 – No asset sales, reduction in funerals as well as reduced disconnection fees owing to increased public awareness on the importance of paying municipal services resulted in less other income than budgeted for.

Note 5 – Increase in overdue customer accounts as well as the reduction of provisions estimate resulted in more income received than what was anticipated.

Note 6 - Positive financial results resulted in more dividends being distributed to the municipality than what was anticipated.

Note 7 – Effectively use of DORA allocations resulted in allocations being awarded to the municipality than what was budgeted for.

Note 8 – Unanticipated donations received resulted in a variation from the budget.

Note 9 – Decrease traffic officials' resulted in less traffic fines being issued than what was budgeted for. (Traffic officers positions are vacant.)

Note 10 - The application of upper limits thresholds resulted in less remuneration for councillors than what was budgeted for.

Note 11 - Increase in assets acquired during the year resulted in more depreciation than what was anticipated.

Note 12 – Increase vandalisms resulted in unanticipated impairment.

Note 13 - Financial constraints resulted in more finance costs being incurred than what was budgeted for.

Note 14 – Unfavourable economic factors resulted in the increase in debtors being unable to meet their obligations resulted in more debt impairment than what was anticipated.

Note 15 – Ageing infrastructure resulted in increased leaks owing to increased losses which resulted in more bulk purchases than what was anticipated.

Note 16 – Application of insourcing with the aim to decrease in reliance on external parties which resulted in less contracted services than what was budgeted for.

Note 17 – Misallignment of budgeted amounts on line items.

Note 18 – Ineffective budgeting resulted in the item not being appropriately budgeted for.

Note 19 - Repositioning of budget to other items resulted in less inventories than budgeted for.

Note 20 - Increase in debt being impaired resulted in less consumer debtors than what was anticipated

Note 21 - Project delays resulted in more cash and cash equivalents being held at year-end than anticipated.

Note 22 - Favourable market conditions resulted in an anticipated increase in the fair value.

Note 23 - Increase in asset base owing to additions resulted in a higher value of property, plant and equipment than

## Matjhabeng Local Municipality (Registration number FS 184)

| Figures in Rand         |                             |                      |              | basis                              | actual                                    |           |

anticipated.

Note 24- Economic downturn resulted in fewer customers acquiring properties which necessitated deposits than what was budgeted for.

Note 25- Increase measures in project management resulted in consequences being implemented to non-performing contractors which resulted in project delays, thus increasing unspent conditional grants.

(Registration number FS 184 ) Annual Financial Statements for the year ended 30 June 2023

## **Accounting Policies**

#### 1. Significant accounting polices

The principal accounting policies applied in the preparation of these annual financial statements are set out below.

#### 1.1 Basis of preparations

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act (Act 56 of 2003).

These annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention as the basis of measurement, unless specified otherwise.

In the absence of an issued and effective Standard of GRAP, accounting policies for material transactions, events or conditions were developed in accordance with paragraphs 8, 10 and 11 of GRAP 3 as read with Directive 5.

Assets, liabilities, revenues and expenses were not offset, except where offsetting is either required or permitted by a Standard of GRAP.

These accounting policies are consistent with the previous period.

#### 1.2 Presentation currency

These annual financial statements are presented in South African Rand, which is the functional currency of the municipality and are rounded to the nearest South African Rand.

#### 1.3 Going concern assumption

These annual financial statements have been prepared based on the expectation that the municipality will continue to operate as a going concern for at least the next 12 months.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

## **Accounting Policies**

### 1.4 Significant judgements and sources of estimation uncertainty

In preparing the annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the annual financial statements and related disclosures. Use of available information and the application of judgment is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the annual financial statements.

## Significant judgments include:

In the process of applying its accounting policies, and in preparing the annual financial statements, management is required to make various judgments, including estimates and assumptions, that may affect the determination of the reporting framework, affect amounts represented in the annual financial statements and as well as related disclosures. Use of available information and the application of judgment is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the annual financial statements. Significant judgments include:

Other significant judgments, sources of estimation uncertainty and/or relating information, have been disclosed in the relating notes.

#### Trade receivables / Held to maturity investments and/or loans and receivables

The municipality assesses its trade receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in surplus or deficit, the municipality makes judgments as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

The impairment for trade receivables is calculated on a portfolio basis, based on historical loss ratios, adjusted for national and industry-specific economic conditions and other indicators present at the reporting date that correlate with defaults on the portfolio.

### Allowance for slow moving, damaged and obsolete stock

An allowance for stock to write stock down to the lower of cost or net realisable value.

### Fair value estimation

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the municipality for similar financial instruments.

The municipality used the prime interest rate at year end to discount future cash flows.

### Impairment testing

The recoverable amounts of cash-generating units and individual assets have been determined based on the higher of valuein-use calculations and fair values less costs to sell. These calculations require the use of estimates and assumptions. It is reasonably possible that the assumption may change which may then impact our estimations and may then require a material adjustment to the carrying value of tangible assets.

The municipality reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. Assets are grouped at the lowest level for which identifiable cash flows are largely independent of cash flows of other assets and liabilities. If there are indications that impairment may have occurred, estimates are prepared of expected future cash flows for each group of assets. Expected future cash flows used to determine the value of tangible assets are inherently uncertain and could materially change over time.

### Provisions

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions are included in note 17 - Provisions.

(Registration number FS 184)

Annual Financial Statements for the year ended 30 June 2023

## **1.4** Significant judgements and sources of estimation uncertainty (continued)

#### Useful lives of waste and water network and other assets

The municipality's management determines the estimated useful lives and related depreciation charges for the waste water and water networks. This estimate is based on industry norm. Management will increase the depreciation charge where useful lives are less than previously estimated useful lives.

#### **Employee Benefits Obligation**

The present value of the post-retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) include the discount rate. Any changes in these assumptions will impact on the carrying amount of post-retirement obligations.

The municipality determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the municipality considers the interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability.

Other key assumptions for pension obligations are based on current market conditions. Additional information is disclosed in Note 16.

#### **Provision for Impairment of Receivables**

On consumer receivables an impairment loss is recognised in surplus and deficit when there is objective evidence that it is impaired.

#### 1.5 Investment property

Investment property is property (land or a building - or part of a building - or both) held to earn rentals or for capital appreciation or both, rather than for:

- use in the production or supply of goods or services or for
- administrative purposes, or
- sale in the ordinary course of operations.

Owner-occupied property is property held for use in the production or supply of goods or services or for administrative purposes.

Investment property is recognised as an asset when, it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the municipality, and the cost or fair value of the investment property can be measured reliably.

Investment property is initially recognised at cost. Transaction costs are included in the initial measurement.

Where investment property is acquired through a non-exchange transaction, its cost is its fair value as at the date of acquisition.

Costs include costs incurred initially and costs incurred subsequently to add to, or to replace a part of, or service a property. If a replacement part is recognised in the carrying amount of the investment property, the carrying amount of the replaced part is derecognised.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

## **Accounting Policies**

## 1.5 Investment property (continued)

### Fair value

Subsequent to initial measurement investment property is measured at fair value.

The fair value of investment property reflects market conditions at the reporting date.

A gain or loss arising from a change in fair value is included in net surplus or deficit for the period in which it arises.

Once the entity becomes able to measure reliably the fair value of an investment property under construction that has previously been measured at cost, it measures that property at its fair value. Once construction of that property is complete, it is presumed that fair value can be measured reliably. If this is not the case, the property is accounted for using the cost model in accordance with the accounting policy on Property, plant and equipment.

Investment property is derecognised on disposal or when the investment property is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal.

Gains or losses arising from the retirement or disposal of investment property is the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in surplus or deficit in the period of retirement or disposal.

Compensation from third parties for investment property that was impaired, lost or given up is recognised in surplus or deficit when the compensation becomes receivable

### 1.6 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the item will flow to the municipality; and
- the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located is also included in the cost of property, plant and equipment, where the entity is obligated to incur such expenditure, and where the obligation arises as a result of acquiring the asset or using it for purposes other than the production of inventories.

Recognition of costs in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by management.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

## **Accounting Policies**

## 1.6 Property, plant and equipment (continued)

Major inspection costs which are a condition of continuing use of an item of property, plant and equipment and which meet the recognition criteria above are included as a replacement in the cost of the item of property, plant and equipment. Any remaining inspection costs from the previous inspection are derecognised.

## Subsequent Measurement :

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

Property, plant and equipment are depreciated on the straight line basis over their expected useful lives to their estimated residual value.

The useful lives of items of property, plant and equipment have been assessed as follows:

| Item                           | Depreciation method | Average useful life |
|--------------------------------|---------------------|---------------------|
| Land                           | Straight-line       | Indefinite          |
| Buildings                      | Straight-line       | 2 - 50 years        |
| Transport assets               | Straight-line       | 4 - 15 years        |
| Infrastructure                 | Straight-line       | 3 - 100 years       |
| Other movable assets           | Straight-line       | 2 - 20 years        |
| Landfill rehabilitation assets | Straight-line       | 8 - 20 years        |

The residual value, and the useful life and depreciation method of each asset are reviewed at the end of each reporting date. If the expectations differ from previous estimates, the change is accounted for as a change in accounting estimate.

Reviewing the useful life of an asset on an annual basis does not require the entity to amend the previous estimate unless expectations differ from the previous estimate.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

Depreciation commences when the asset is ready for its intended use and ceases when the asset is derecognised

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

The municipality separately discloses expenditure to repair and maintain property, plant and equipment in the notes to the financial statements (see note 11).

### 1.7 Site restoration and dismantling cost

The municipality has an obligation to dismantle, remove and restore items of property, plant and equipment. Such obligations are referred to as 'decommissioning, restoration and similar liabilities'. The cost of an item of property, plant and equipment includes the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which a municipality incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

## **Accounting Policies**

#### 1.7 Site restoration and dismantling cost (continued)

If the related asset is measured using the cost model:

- (a) subject to (b), changes in the liability are added to, or deducted from, the cost of the related asset in the current period;
- (b) if a decrease in the liability exceeds the carrying amount of the asset, the excess is recognised immediately in surplus or deficit; and
- (c) if the adjustment results in an addition to the cost of an asset, the municipality considers whether this is an indication that the new carrying amount of the asset may not be fully recoverable. If it is such an indication, the asset is tested for impairment by estimating its recoverable amount or recoverable service amount, and any impairment loss is recognised in accordance with the accounting policy on impairment of cash-generating assets and/or impairment of non-cash-generating assets.

#### 1.8 Heritage assets

Heritage assets are assets that have a cultural, environmental, historical, natural, scientific, technological or artistic significance and are held indefinitely for the benefit of present and future generations.

#### Recognition

The municipality recognises a heritage asset as an asset if it is probable that future economic benefits or service potential associated with the asset will flow to the municipality, and the cost or fair value of the asset can be measured reliably.

#### Initial measurement

Heritage assets are measured at cost.

Where a heritage asset is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition.

#### Subsequent measurement

After recognition as an asset, a class of heritage assets is carried at its cost less any accumulated impairment losses.

#### Impairment

The municipality assesses at each reporting date whether there is an indication that it may be impaired. If any such indication exists, the municipality estimates the recoverable amount or the recoverable service amount of the heritage asset.

#### Derecognition

The municipality derecognises heritage asset on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of a heritage asset is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the heritage asset, such difference is recognised in surplus or deficit when the heritage asset is derecognised.

#### 1.9 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or a residual interest of another entity.

A financial asset is:

- cash;
  - a residual interest of another entity; or
  - a contractual right to:
    - receive cash or another financial asset from another entity; or
    - exchange financial assets or financial liabilities with another entity under conditions that are potentially favourable to the entity.

A financial liability is any liability that is a contractual obligation to:

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

## **Accounting Policies**

## 1.9 Financial instruments (continued)

- deliver cash or another financial asset to another entity; or
- exchange financial assets or financial liabilities under conditions that are potentially unfavourable to the entity.

Financial instruments at fair value comprise financial assets or financial liabilities that are:

- combined instruments that are designated at fair value;
  - instruments held for trading. A financial instrument is held for trading if:
    - it is acquired or incurred principally for the purpose of selling or repurchasing it in the near-term; or
    - on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short term profit-taking;

- non-derivative financial assets or financial liabilities with fixed or determinable payments that are designated at fair value at initial recognition; and

- financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.

### Classification

The entity has the following types of financial assets (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

#### Class

Other financial assets Other receivables Receivables from non-exchange transactions Receivables from exchange transactions Cash and cash equivalents **Category** Financial asset measured at fair value Financial asset measured at amortised cost Financial asset measured at amortised cost Financial asset measured at amortised cost Financial asset measured at amortised cost

The entity has the following types of financial liabilities (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

### Class

Payables from exchange transactions Consumer deposits Unspent conditional grants Category

Financial liability measured at amortised cost Financial liability measured at amortised cost Financial liability measured at amortised cost

#### Initial recognition

The municipality recognises a financial asset or a financial liability in its statement of financial position when the municipality becomes a party to the contractual provisions of the instrument.

The municipality recognises financial assets using trade date accounting.

### Initial measurement of financial assets and financial liabilities

The municipality measures a financial asset and financial liability initially at its fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

## **Accounting Policies**

## **1.9** Financial instruments (continued)

#### Subsequent measurement of financial assets and financial liabilities

The municipality measures all financial assets and financial liabilities after initial recognition using the following categories:

- Financial instruments at fair value.
- Financial instruments at amortised cost.

All financial assets measured at amortised cost are subject to an impairment review.

#### Fair value measurement considerations

The best evidence of fair value is quoted prices in an active market. If the market for a financial instrument is not active, the municipality establishes fair value by using a valuation technique. The objective of using a valuation technique is to establish what the transaction price would have been on the measurement date in an arm's length exchange motivated by normal operating considerations. Valuation techniques include using recent arm's length market transactions between knowledgeable, willing parties, if available, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis and option pricing models.

If there is a valuation technique commonly used by market participants to price the instrument and that technique has been demonstrated to provide reliable estimates of prices obtained in actual market transactions, the entity uses that technique. The chosen valuation technique makes maximum use of market inputs and relies as little as possible on entity-specific inputs.

It incorporates all factors that market participants would consider in setting a price and is consistent with accepted economic methodologies for pricing financial instruments. Periodically, an municipality calibrates the valuation technique and tests it for validity using prices from any observable current market transactions in the same instrument (i.e. without modification or repackaging) or based on any available observable market data.

The fair value of a financial liability with a demand feature (e.g. a demand deposit) is not less than the amount payable on demand, discounted from the first date that the amount could be required to be paid.

### Reclassification

The municipality does not reclassify a financial instrument while it is issued or held unless it is:

- combined instrument that is required to be measured at fair value; or
- an investment in a residual interest that meets the requirements for reclassification.

If fair value can no longer be measured reliably for an investment in a residual interest measured at fair value, the municipality reclassifies the investment from fair value to cost. The carrying amount at the date that fair value is no longer available becomes the cost.

If a reliable measure becomes available for an investment in a residual interest for which a measure was previously not available, and the instrument would have been required to be measured at fair value, the entity reclassifies the instrument from cost to fair value.

#### Gains and losses

For financial assets and financial liabilities measured at amortised cost or cost, a gain or loss is recognised in surplus or deficit when the financial asset or financial liability is derecognised or impaired, or through the amortisation process.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

## **Accounting Policies**

## 1.9 Financial instruments (continued)

## Derecognition

## Financial assets

The municipality derecognises financial assets using trade date accounting.

The municipality derecognises a financial asset only when:

- the contractual rights to the cash flows from the financial asset expire, are settled or waived;
- the municipality transfers to another party substantially all of the risks and rewards of ownership of the financial asset; or
- the municipality, despite having retained some significant risks and rewards of ownership of the financial asset, has
  transferred control of the asset to another party and the other party has the practical ability to sell the asset in its
  entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose
  additional restrictions on the transfer. In this case, the municipality :
  - derecognise the asset; and
  - recognise separately any rights and obligations created or retained in the transfer.

The carrying amounts of the transferred asset are allocated between the rights or obligations retained and those transferred on the basis of their relative fair values at the transfer date. Newly created rights and obligations are measured at their fair values at that date. Any difference between the consideration received and the amounts recognised and derecognised is recognised in surplus or deficit in the period of the transfer.

If the municipality transfers a financial asset in a transfer that qualifies for derecognition in its entirety and retains the right to service the financial asset for a fee, it recognises either a servicing asset or a servicing liability for that servicing contract. If the fee to be received is not expected to compensate the entity adequately for performing the servicing, a servicing liability for the servicing obligation is recognised at its fair value. If the fee to be received is expected to be more than adequate compensation for the servicing, a servicing asset is recognised for the servicing right at an amount determined on the basis of an allocation of the carrying amount of the larger financial asset.

If, as a result of a transfer, a financial asset is derecognised in its entirety but the transfer results in the entity obtaining a new financial asset or assuming a new financial liability, or a servicing liability, the entity recognise the new financial asset, financial liability or servicing liability at fair value.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received is recognised in surplus or deficit.

If the transferred asset is part of a larger financial asset and the part transferred qualifies for derecognition in its entirety, the previous carrying amount of the larger financial asset is allocated between the part that continues to be recognised and the part that is derecognised, based on the relative fair values of those parts, on the date of the transfer. For this purpose, a retained servicing asset is treated as a part that continues to be recognised. The difference between the carrying amount allocated to the part derecognised and the sum of the consideration received for the part derecognised is recognised in surplus or deficit.

If a transfer does not result in derecognition because the municipality has retained substantially all the risks and rewards of ownership of the transferred asset, the municipality continues to recognise the transferred asset in its entirety and recognise a financial liability for the consideration received. In subsequent periods, the municipality recognises any revenue on the transferred asset and any expense incurred on the financial liability. Neither the asset, and the associated liability nor the revenue, and the associated expenses are offset.

### Financial liabilities

The muncipality removes a financial liability (or a part of a financial liability) from its statement of financial position when it is extinguished — i.e. when the obligation specified in the contract is discharged, cancelled, expires or waived.

An exchange between an existing borrower and lender of debt instruments with substantially different terms is accounted for as having extinguished the original financial liability and a new financial liability is recognised. Similarly, a substantial modification of the terms of an existing financial liability or a part of it is accounted for as having extinguished the original financial liability and having recognised a new financial liability.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

## **Accounting Policies**

## 1.9 Financial instruments (continued)

The difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in surplus or deficit. Any liabilities that are waived, forgiven or assumed by another entity by way of a non-exchange transaction are accounted for in accordance with the Standard of GRAP on Revenue from Non-exchange Transactions (Taxes and Transfers).

### 1.10 Tax

### Value Added Tax (VAT)

The municipality accounts for VAT on a cash basis. The municipality is liable to account for VAT at a standard rate of 15% effective from 1 April 2018 in terms of section 7(1)(a) of the VAT Act in respect of supply of goods and services, except where the supplies are specifically zero rated in terms of section 11, exempted in terms of section 12 of the VAT Act or are scoped out for VAT purposes. The municipality account for VAT on a monthly basis.

### 1.11 Inventories

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their costs are their fair value as at the date of acquisition.

Subsequently inventories are measured at the lower of cost and net realisable value.

Inventories are measured at the lower of cost and current replacement cost where they are held for;

- distribution at no charge or for a nominal charge; or
- consumption in the production process of goods to be distributed at no charge or for a nominal charge.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution.

Current replacement cost is the cost the municipality incurs to acquire the asset on the reporting date.

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

The cost of inventories of items that are not ordinarily interchangeable and goods or services produced and segregated for specific projects is assigned using specific identification of the individual costs.

The cost of inventories is assigned using the first-in, first-out (FIFO) formula. The same cost formula is used for all inventories having a similar nature and use to the municipality.

### 1.12 Cash and cash equivalents

Cash and cash equivalents comprise bank balances, cash on hand and deposits held at call with banks net of bank overdrafts.

### 1.13 Impairment of cash-generating assets

Cash-generating assets are assets used with the objective of generating a commercial return. Commercial return means that positive cash flows are expected to be significantly higher than the cost of the asset.

### Identification

The municipality assesses at each reporting date whether there is any indication that a cash-generating asset may be impaired. If any such indication exists, the municipality estimates the recoverable amount of the asset.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

## **Accounting Policies**

#### 1.13 Impairment of cash-generating assets (continued)

#### Recognition and measurement (individual asset)

If the recoverable amount of a cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

Any impairment loss of a revalued cash-generating asset is treated as a revaluation decrease.

When the amount estimated for an impairment loss is greater than the carrying amount of the cash-generating asset to which it relates, the municipality recognises a liability only to the extent that is a requirement in the Standard of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

#### Cash-generating units

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the municipality determines the recoverable amount of the cash-generating unit to which the asset belongs (the asset's cash-generating unit).

If an active market exists for the output produced by an asset or group of assets, that asset or group of assets is identified as a cash-generating unit, even if some or all of the output is used internally. If the cash inflows generated by any asset or cash-generating unit are affected by internal transfer pricing, the municipality use management's best estimate of future price(s) that could be achieved in arm's length transactions in estimating:

- the future cash inflows used to determine the asset's or cash-generating unit's value in use; and
- the future cash outflows used to determine the value in use of any other assets or cash-generating units that are affected by the internal transfer pricing.

Cash-generating units are identified consistently from period to period for the same asset or types of assets, unless a change is justified.

The carrying amount of a cash-generating unit is determined on a basis consistent with the way the recoverable amount of the cash-generating unit is determined.

An impairment loss is recognised for a cash-generating unit if the recoverable amount of the unit is less than the carrying amount of the unit. The impairment is allocated to reduce the carrying amount of the cash-generating assets of the unit on a pro rata basis, based on the carrying amount of each asset in the unit. These reductions in carrying amounts are treated as impairment losses on individual assets.

In allocating an impairment loss, the entity does not reduce the carrying amount of an asset below the highest of:

- its fair value less costs to sell (if determinable);
- its value in use (if determinable); and
- zero.

The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other cash-generating assets of the unit.

Where a non-cash-generating asset contributes to a cash-generating unit, a proportion of the carrying amount of that noncash-generating asset is allocated to the carrying amount of the cash-generating unit prior to estimation of the recoverable amount of the cash-generating unit.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

## **Accounting Policies**

#### 1.13 Impairment of cash-generating assets (continued)

#### Reversal of impairment loss

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a cash-generating asset may no longer exist or may have decreased. If any such indication exists, the entity estimates the recoverable amount of that asset.

An impairment loss recognised in prior periods for a cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a cash-generating asset is recognised immediately in surplus or deficit.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

A reversal of an impairment loss for a cash-generating unit is allocated to the cash-generating assets of the unit pro rata with the carrying amounts of those assets. These increases in carrying amounts are treated as reversals of impairment losses for individual assets. No part of the amount of such a reversal is allocated to a non-cash-generating asset contributing service potential to a cash-generating unit.

In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset is not increased above the lower of:

- its recoverable amount (if determinable); and
- the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior periods.

The amount of the reversal of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit.

### Redesignation

The redesignation of assets from a cash-generating asset to a non-cash-generating asset or from a non-cash-generating asset to a cash-generating asset only occur when there is clear evidence that such a redesignation is appropriate.

#### 1.14 Impairment of non-cash-generating assets

Cash-generating assets are those assets held by the municipality with the primary objective of generating a commercial return. When an asset is deployed in a manner consistent with that adopted by a profit-orientated entity, it generates a commercial return.

Non-cash-generating assets are assets other than cash-generating assets.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

A cash-generating unit is the smallest identifiable group of assets managed with the objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Depreciation (Amortisation) is the systematic allocation of the depreciable amount of an asset over its useful life.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

### **Accounting Policies**

### 1.14 Impairment of non-cash-generating assets (continued)

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use.

Useful life is either:

- the period of time over which an asset is expected to be used by the municipality; or
- the number of production or similar units expected to be obtained from the asset by the municipality.

#### **Recognition and measurement**

If the recoverable service amount of a non-cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

Any impairment loss of a revalued non-cash-generating asset is treated as a revaluation decrease.

When the amount estimated for an impairment loss is greater than the carrying amount of the non-cash-generating asset to which it relates, the municipality recognises a liability only to the extent that is a requirement in the Standards of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

#### Reversal of an impairment loss

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a non-cash-generating asset may no longer exist or may have decreased. If any such indication exists, the municipality estimates the recoverable service amount of that asset.

An impairment loss recognised in prior periods for a non-cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable service amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable service amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a non-cash-generating asset is recognised immediately in surplus or deficit.

Any reversal of an impairment loss of a revalued non-cash-generating asset is treated as a revaluation increase.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

#### 1.15 Employee benefits

Employee benefits are all forms of consideration given by an entity in exchange for service rendered by employees.

A qualifying insurance policy is an insurance policy issued by an insurer that is not a related party (as defined in the Standard of GRAP on Related Party Disclosures) of the reporting entity, if the proceeds of the policy can be used only to pay or fund employee benefits under a defined benefit plan and are not available to the reporting entity's own creditors (even in liquidation) and cannot be paid to the reporting entity, unless either:

- the proceeds represent surplus assets that are not needed for the policy to meet all the related employee benefit obligations; or
- the proceeds are returned to the reporting entity to reimburse it for employee benefits already paid.

Termination benefits are employee benefits payable as a result of either:

an entity's decision to terminate an employee's employment before the normal retirement date; or

(Registration number FS 184)

Annual Financial Statements for the year ended 30 June 2023

### **Accounting Policies**

### 1.15 Employee benefits (continued)

• an employee's decision to accept voluntary redundancy in exchange for those benefits.

Other long-term employee benefits are employee benefits (other than post-employment benefits and termination benefits) that are not due to be settled within twelve months after the end of the period in which the employees render the related service.

Vested employee benefits are employee benefits that are not conditional on future employment.

Composite social security programmes are established by legislation and operate as multi-employer plans to provide postemployment benefits as well as to provide benefits that are not consideration in exchange for service rendered by employees.

A constructive obligation is an obligation that derives from an entity's actions where by an established pattern of past practice, published policies or a sufficiently specific current statement, the entity has indicated to other parties that it will accept certain responsibilities and as a result, the entity has created a valid expectation on the part of those other parties that it will discharge those responsibilities.

### Short-term employee benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are due to be settled within twelve months after the end of the period in which the employees render the related service.

Short-term employee benefits include items such as:

- wages, salaries and social security contributions;
- short-term compensated absences (such as paid annual leave and paid sick leave) where the compensation for the
  absences is due to be settled within twelve months after the end of the reporting period in which the employees
  render the related employee service;
- bonus, incentive and performance related payments payable within twelve months after the end of the reporting
  period in which the employees render the related service; and
- non-monetary benefits (for example, medical care, and free or subsidised goods or services such as housing, cars and cellphones) for current employees.

When an employee has rendered service to the entity during a reporting period, the entity recognises the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service:

- as a liability (accrued expense), after deducting any amount already paid. If the amount already paid exceeds the undiscounted amount of the benefits, the entity recognises that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs. The entity measures the expected cost of accumulating compensated absences as the additional amount that the entity expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The entity recognises the expected cost of bonus, incentive and performance related payments when the entity has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. A present obligation exists when the entity has no realistic alternative but to make the payments.

### Post-employment benefits

Post-employment benefits are employee benefits (other than termination benefits) which are payable after the completion of employment.

Post-employment benefit plans are formal or informal arrangements under which an entity provides post-employment benefits for one or more employees.

Multi-employer plans are defined contribution plans (other than state plans and composite social security programmes) or defined benefit plans (other than state plans) that pool the assets contributed by various entities that are not under common control and use those assets to provide benefits to employees of more than one entity, on the basis that contribution and benefit levels are determined without regard to the identity of the entity that employs the employees concerned.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

### **Accounting Policies**

### 1.15 Employee benefits (continued)

### Other Long term employee benefits

The municipality has an obligation to provide long service benefits to all of its employees. According to the rules of the long service benefit scheme, which the municipality instituted and operates, an employee (who is on the current conditions of service), is entitled to a cash allowance, calculated in terms of the rules of the scheme, after 10, 15, 20, 25 and 30 years of continued service. The municipality's liability is based on an actuarial valuation. The projected unit credit method has been used to value the liabilities. Actuarial gains and losses on the long benefits are accounted for through the statement of financial performance.

### 1.16 Provisions and contingencies

Provisions are recognised when:

- the municipality has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the municipality settles the obligation.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

Where discounting is used, the carrying amount of a provision increases in each period to reflect the passage of time. This increase is recognised as an interest expense.

A provision is used only for expenditures for which the provision was originally recognised.

Provisions are not recognised for future operating deficit.

### A Contingent Liability is:

- a possible obligation that arises from past events, and whose existence will be confirmed only by the occurrence and nonoccurrence of one or more uncertain future events not wholly within the control of the entity; or

- a present obligation that arises from past events but is not recognised because:

(i) it is not probable that an outflow of resources embodying economic benefits or services potential will be required to settle the obligation; or

(ii) the amount of the obligation cannot be measured with sufficient reliability.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 44.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

### Accounting Policies

### 1.16 Provisions and contingencies (continued)

### Decommissioning, restoration and similar liability

Changes in the measurement of an existing decommissioning, restoration and similar liability that result from changes in the estimated timing or amount of the outflow of resources embodying economic benefits or service potential required to settle the obligation, or a change in the discount rate, is accounted for as follows:

- changes in the liability alter the revaluation surplus or deficit previously recognised on that asset, so that:
   a decrease in the liability is credited directly to revaluation surplus in net assets, except that it is recognised in surplus or deficit to the extent that it reverses a revaluation deficit on the asset that was previously recognised in surplus or deficit; and
  - an increase in the liability is recognised in surplus or deficit, except that it is debited directly to revaluation surplus in net assets to the extent of any credit balance existing in the revaluation surplus in respect of that asset;

The adjusted depreciable amount of the asset is depreciated over its useful life. Therefore, once the related asset has reached the end of its useful life, all subsequent changes in the liability is recognised in surplus or deficit as they occur. This applies under both the cost model and the revaluation model.

The periodic unwinding of the discount is recognised in surplus or deficit as a finance cost as it occurs.

### 1.17 Commitments

Items are classified as commitments when an entity has committed itself to future transactions that will normally result in the outflow of cash.

Disclosures are required in respect of unrecognised contractual commitments.

Commitments for which disclosure is necessary to achieve a fair presentation should be disclosed in a note to the financial statements, if both the following criteria are met:

- Contracts should be non-cancellable or only cancellable at significant cost (for example, contracts for computer or building maintenance services); and
- Contracts should relate to something other than the routine, steady, state business of the entity therefore salary commitments relating to employment contracts or social security benefit commitments are excluded.

### 1.18 Revenue from exchange transactions

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

An exchange transaction is one in which the municipality receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of goods, services or use of assets) to the other party in exchange.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

### Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

### **Accounting Policies**

### 1.18 Revenue from exchange transactions (continued)

#### Rendering of services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the reporting date. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality;
- the stage of completion of the transaction at the reporting date can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

When services are performed by an indeterminate number of acts over a specified time frame, revenue is recognised on a straight-line basis over the specified time frame unless there is evidence that some other method better represents the stage of completion. When a specific act is much more significant than any other acts, the recognition of revenue is postponed until the significant act is executed.

When the outcome of the transaction involving the rendering of services cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that are recoverable.

Service revenue is recognised by reference to the stage of completion of the transaction at the reporting date. Stage of completion is determined by .

### Interest, royalties and dividends

Revenue arising from the use by others of entity assets yielding interest, royalties and dividends or similar distributions is recognised when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably..

Interest on outstanding customer receivables is calculated when the receivable is more than 30 days at prime rate plus 1% and recognised in surplus or deficit on the time proportionate basis.

Dividends or similar distributions are recognised, in surplus or deficit, when the municipality's right to receive payment has been established.

Service fees included in the price of the product are recognised as revenue over the period during which the service is performed.

#### 1.19 Revenue from non-exchange transactions

Revenue comprises gross inflows of economic benefits or service potential received and receivable by a municipality, which represents an increase in net assets, other than increases relating to contributions from owners.

Control of an asset arise when the municipality can use or otherwise benefit from the asset in pursuit of its objectives and can exclude or otherwise regulate the access of others to that benefit.

Exchange transactions are transactions in which one entity receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of cash, goods, services, or use of assets) to another entity in exchange.

Expenses paid through the tax system are amounts that are available to beneficiaries regardless of whether or not they pay taxes.

Fines are economic benefits or service potential received or receivable by entities, as determined by a court or other law enforcement body, as a consequence of the breach of laws or regulations.

Non-exchange transactions are transactions that are not exchange transactions. In a non-exchange transaction, a municipality either receives value from another municipality without directly giving approximately equal value in exchange, or gives value to another municipality without directly receiving approximately equal value in exchange.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

### **Accounting Policies**

#### 1.19 Revenue from non-exchange transactions (continued)

Stipulations on transferred assets are terms in laws or regulation, or a binding arrangement, imposed upon the use of a transferred asset by entities external to the reporting municipality.

Tax expenditures are preferential provisions of the tax law that provide certain taxpayers with concessions that are not available to others.

The taxable event is the event that the government, legislature or other authority has determined will be subject to taxation.

Taxes are economic benefits or service potential compulsorily paid or payable to entities, in accordance with laws and or regulations, established to provide revenue to government. Taxes do not include fines or other penalties imposed for breaches of the law.

#### Recognition

An inflow of resources from a non-exchange transaction recognised as an asset is recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow.

As the municipality satisfies a present obligation recognised as a liability in respect of an inflow of resources from a nonexchange transaction recognised as an asset, it reduces the carrying amount of the liability recognised and recognises an amount of revenue equal to that reduction.

#### Measurement

Revenue from a non-exchange transaction is measured at the amount of the increase in net assets recognised by the municipality.

When, as a result of a non-exchange transaction, the municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability is recognised as revenue.

#### Taxes

The municipality recognises an asset in respect of taxes when the taxable event occurs and the asset recognition criteria are met.

Resources arising from taxes satisfy the definition of an asset when the municipality controls the resources as a result of a past event (the taxable event) and expects to receive future economic benefits or service potential from those resources. Resources arising from taxes satisfy the criteria for recognition as an asset when it is probable that the inflow of resources will occur and their fair value can be reliably measured. The degree of probability attached to the inflow of resources is determined on the basis of evidence available at the time of initial recognition, which includes, but is not limited to, disclosure of the taxable event by the taxpayer.

The municipality analyses the taxation laws to determine what the taxable events are for the various taxes levied.

The taxable event for property tax is the passing of the date on which the tax is levied, or the period for which the tax is levied, if the tax is levied on a periodic basis.

Taxation revenue is determined at a gross amount. It is not reduced for expenses paid through the tax system.

#### Fines, penalties and forfeits

Fines are recognised as revenue when the receivable meets the definition of an asset and satisfies the criteria for recognition as an asset.

Assets arising from fines are measured at the best estimate of the inflow of resources to the municipality.

Where the municipality collects fines in the capacity of an agent, the fine will not be revenue of the collecting entity.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

### **Accounting Policies**

### 1.19 Revenue from non-exchange transactions (continued)

### Public contributions and donations

Revenue from public contributions is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment when such items of property, plant and equipment are brought into use.

Donations are recognised on a cash receipt basis or where the donation is in a form of property, plant and equipment, when such items of property, plant and equipment ar eavailable for use.

### 1.20 Investment income

Investment income is recognised on a time-proportionate basis using the effective interest method.

### 1.21 Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

### 1.22 Unauthorised expenditure

Unauthorised expenditure means:

- overspending of a vote or a main division within a vote; and
- expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

### 1.23 Fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

### 1.24 Irregular expenditure

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the economic entity's supply chain management policy.

Irregular expenditure is accounted for in line with all relating requirements, including, but not limited to, ruling Legislation, Regulations, Frameworks, Circulars, Instruction Notes, Practice Notes, Guidelines etc (as applicable).

### 1.25 Segment information

Reportable segments are the actual segments which are reported on in the segment report. They are the segments identified above or alternatively an aggregation of two or more of those segments where the aggregation criteria are met.

A measure of assets and liabilities for each reportable segment has not been disclosed due to the fact that such amounts are not regularly provided to management for decision making purposes.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

### **Accounting Policies**

### 1.25 Segment information (continued)

### Measurement

The amount of each segment item reported is the measure reported to management for the purposes of making decisions about allocating resources to the segment and assessing its performance. Adjustments and eliminations made in preparing the entity's financial statements and allocations of revenues and expenses are included in determining reported segment surplus or deficit only if they are included in the measure of the segment's surplus or deficit that is used by management. Similarly, only those assets and liabilities that are included in the measures of the segment's assets and segment's liabilities that are used by management are reported for that segment. If amounts are allocated to reported segment surplus or deficit, assets or liabilities, those amounts are allocated on a reasonable basis.

If management uses only one measure of a segment's surplus or deficit, the segment's assets or the segment's liabilities in assessing segment performance and deciding how to allocate resources, segment surplus or deficit, assets and liabilities are reported in terms of that measure. If management uses more than one measure of a segment's surplus or deficit, the segment's assets or the segment's liabilities, the reported measures are those that management believes are determined in accordance with the measurement principles most consistent with those used in measuring the corresponding amounts in the entity's financial statements.

### 1.26 Budget information

Municipality are typically subject to budgetary limits in the form of appropriations or budget authorisations (or equivalent), which is given effect through authorising legislation, appropriation or similar.

General purpose financial reporting by municipality shall provide information on whether resources were obtained and used in accordance with the legally adopted budget.

The approved budget is prepared on a cash basis and presented by economic classification linked to performance outcome objectives.

The approved budget covers the fiscal period from 01/07/2022 to 30/06/2023.

The budget for the economic entity includes all the entities approved budgets under its control.

The annual financial statements and the budget are on the same basis of accounting therefore a comparison with the budgeted amounts for the reporting period have been included in the Statement of comparison of budget and actual amounts.

### 1.27 Related parties

Close members of the family of a person are considered to be those family members who may be expected to influence, or be influenced by, that management in their dealings with the municipality.

Only transactions with related parties not at arm's length or not in the ordinary course of business are disclosed.

Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The municipality is exempt from disclosure requirements in relation to related party transactions if that transaction occurs within normal supplier and/or client/recipient relationships on terms and conditions no more or less favourable than those which it is reasonable to expect the municipality to have adopted if dealing with that individual entity or person in the same circumstances and terms and conditions are within the normal operating parameters established by that reporting entity's legal mandate.

Where the municipality is exempt from the disclosures in accordance with the above, the municipality discloses narrative information about the nature of the transactions and the related outstanding balances, to enable users of the entity's financial statements to understand the effect of related party transactions on its annual financial statements.

### 1.28 Consumer deposits

Consumer deposits are subsequently recorded in accordance with accounting policy of trade and other payables.

### **Accounting Policies**

### 1.29 Unspent Conditional grants and receipts

Revenue received from conditional grants, donations and funding are recognised as revenue to the extent that the municipality has complied with any criteria, conditions or obligations embodied in the agreement. To the extent that the criteria, conditions or obligations have not been met a liability is recognised.

|---------|----|------|

2022

2023

### 2. New standards and interpretations

### 2.1 Standards and interpretations effective and adopted in the current year

In the current year, the municipality has adopted the following standards and interpretations that are effective for the current financial year and that are relevant to its operations:

### **Guideline on Accounting for Landfill Sites**

The guidance will improve comparability and provide the necessary information to the users fo the financial statements to hold entities accountable and for decision making.

The municipality adopted the guideline for the first time in the 2022/23 annual financial statements. It is unlikely that the standard will have a material impact in the municipality's annual financial statements.

## GRAP 25 (as revised): Employee Benefits and iGRAP 7 (as revised): Limit on defined benefit asset, minimum funding requirements and their interaction

The amendments to GRAP 25 are extensive and mostly affect the accounting for defined benefit plans.

The municipality adopted the guideline for the first time in the 2022/23 annual financial statements. It is unlikely that the standard will have a material impact in the municipality's annual financial statements.

### iGRAP 21: The Effect of Past Decisions on Materiality

This interpretation explains the nature of past materiality decisions and their potential effects on current and subsequent reporting periods.

The municipality adopted the guideline for the first time in the 2022/23 annual financial statements. It is unlikely that the standard will have a material impact in the municipality's annual financial statements.

#### GRAP 2020: Improvements to the standards of GRAP 2020

The guidance will improve comparability and provide the necessary information to the users fo the financial statements to hold entities accountable and for decision making.

The municipality adopted the guideline for the first time in the 2022/23 annual financial statements. It is unlikely that the standard will have a material impact in the municipality's annual financial statements

### GRAP 1 (amended): Presentation of Financial Statements

The amendments clarify that:

- information should not be obscured by aggregating or by providing immaterial information;

- materiality considerations apply to all parts of the financial statements; and

- even when a Standard of GRAP requires a specific disclosure, materiality considerations apply

The municipality adopted the guideline for the first time in the 2022/23 annual financial statements. It is unlikely that the standard will have a material impact in the municipality's annual financial statements.

### 2.2 Standards and interpretations issued, but not yet effective

The municipality has not applied the following standards and interpretations, which have been published and are mandatory for the municipality's accounting periods beginning on or after 1 July 2023 or later periods:

### Guideline: Guideline on the Application of Materiality to Financial Statements

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

## Notes to the Annual Financial Statements

### 2. New standards and interpretations (continued)

The objective of this guideline: The objective of this Guideline is to provide guidance that will assist entities to apply the concept of materiality when preparing financial statements in accordance with Standards of GRAP. The Guideline aims to assist entities in achieving the overall financial reporting objective. The Guideline outlines a process that may be considered by entities when applying materiality to the preparation of financial statements. The process was developed based on concepts outlined in Discussion Paper 9 on Materiality – Reducing Complexity and Improving Reporting, while also clarifying existing principles from the Conceptual Framework for General Purpose Financial Reporting and other relevant Standards of GRAP. The Guideline includes examples and case studies to illustrate how an entity may apply the principles in the Guideline, based on specific facts presented.

It covers: Definition and characteristics of materiality, Role of materiality in the financial statements, Identifying the users of financial statements and their information needs, Assessing whether information is material, Applying materiality in preparing the financial statements, and Appendixes with References to the Conceptual Framework for General Purpose Financial Reporting and the Standards of GRAP & References to pronouncements used in the Guideline.

The guideline is encouraged to be used by entities.

The municipality expects to adopt the guideline for the first time in the 2098/2099 annual financial statements.

It is unlikely that the standard will have a material impact on the municipality's annual financial statements.

### GRAP 104 (as revised): Financial Instruments

Following the global financial crisis, a number of concerns were raised about the accounting for financial instruments. This included that (a) information on credit losses and defaults on financial assets was received too late to enable proper decision-making, (b) using fair value in certain instances was inappropriate, and (c) some of the existing accounting requirements were seen as too rules based. As a result, the International Accounting Standards Board® amended its existing Standards to deal with these issues. The IASB issued IFRS® Standard on Financial Instruments (IFRS 9) in 2009 to address many of the concerns raised. Revisions were also made to IAS® on Financial Instruments: Presentation and the IFRS Standard® on Financial Instruments: Disclosures. The IPSASB issued revised International Public Sector Accounting Standards in June 2018 so as to align them with the equivalent IFRS Standards.

The revisions better align the Standards of GRAP with recent international developments. The amendments result in better information available to make decisions about financial assets and their recoverability, and more transparent information on financial liabilities.

The most significant changes to the Standard affect:

- Financial guarantee contracts issued
  - Loan commitments issued
  - Classification of financial assets
  - Ÿ Amortised cost of financial assets
  - Ÿ Impairment of financial assets
  - Disclosures

The effective date of the revisions is not yet set by the Minister of Finance.

The municipality expects to adopt the revisions for the first time when the Minister sets the effective date for the revisions.

It is unlikely that the standard will have a material impact on the municipality's annual financial statements.

### 3. Cash and cash equivalents

Cash and cash equivalents consist of:

| Short-term deposits       | 114,442,659<br><b>125.689.425</b> | 129,368,024<br><b>198.250.543</b> |

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

### Notes to the Annual Financial Statements

### Figures in Rand

2022

2023

### 6. Receivables from non-exchange transactions (continued)

#### Statutory receivables general information

#### Transaction(s) arising from statute

Property Rates are levied in terms of the Local Government Municipal Property Rates Act No.6 of 2004 (MPRA), approved Property Rates Policy and by-laws.

#### Determination of transaction amount

Rates are levied in accordance with the Act (MPRA), abased on the market value of all rateable property contained in the municipality's valuation roll and supplementary valuation roll.

The municipality differentiates between various categories of property and owners of property. Some categories of property and categories of owners are granted relief from rates. The municipality however does not grant relief in respect of payments for rates to any category of owners or properties, or to owners of properties on an individual basis.

### Interest or other charges levied/charged

Interest accrues from 30 days on unpaid accounts. Interest is levied at a rate of prime rate plus 1%.

### Basis used to assess and test whether a statutory receivable is impaired

The municipality asses whether statutory receivables are impaired at the end of every reporting date, in line with Grap 104.

The following factors were considered in determining the impairment:

- Aging of the outstanding debt.
- Whether or not any payment was received during the year.
- Whether the account is active or inactive.
- Whether the account is that of an owner or a tenant

### Discount rate applied to the estimated future cash flows

#### Statutory receivables past due but not impaired

Statutory receivables which are less than 3 months past due are not considered to be impaired. At 30 June 2023, - (2022: -) were past due but not impaired.

The ageing of amounts past due but not impaired is as follows:

#### Reconciliation of provision for impairment for statutory receivables

| Provision for impairment             | (1,116,245,618) (894,299,456)                              |
|--------------------------------------|--|
| Amounts written off as uncollectible | 224,710,987 216,523,349                                    |
| Amounts written off as uncollectible | 224,710,987 216,523,349<br>(5,252,984,944) (4,361,450,313) |

#### Receivables from non-exchange transactions pledged as security

None of the receivables from non-exchange transactions were pledged as security.

#### Credit quality of receivables from non-exchange transactions

The credit quality of other receivables from non-exchange transactions that are neither past nor due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rates:

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

### Notes to the Annual Financial Statements

### Figures in Rand

2022

2023

#### 6. Receivables from non-exchange transactions (continued)

### Receivables from non-exchange transactions past due but not impaired

At 30 June 2023, receivables from non-exchange transactions of R76 378 072 (2022: R72 792 389) were past due but not impaired.

#### Fair value of receivables from non-exchange transactions

The carrying value of the receivables from non-exchange transactions recorded at amortised cost approximate their fair values.

#### Receivables from non-exchange transactions impaired:

As of 30 June 2023, receivables from non-exchange transactions of R 897 480 353 (2022: R799 834 408) were impaired and provided for.

|                 |      |      |

### 9. Other financial assets (continued)

### Financial assets at fair value

### Fair value hierarchy of financial assets at fair value

For financial assets recognised at fair value, disclosure is required of a fair value hierarchy which reflects the significance of the inputs used to make the measurements. The fair value hierarchy have the following levels:

Level 1 represents those assets which are measured using unadjusted quoted prices in active markets for identical assets.

Level 2 applies inputs other than quoted prices that are observable for the assets either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 applies inputs which are not based on observable market data.

| Level 2                   |         |         |
|---------------------------|---------|---------|
| Class 1 (Unlisted shares) | 474,015 | 415,803 |

### **Renegotiated terms**

None of the financial assets that are fully performing have been renegotiated in the last year.

2023

2022

### 10. Investment property (continued)

The effective date of the revaluations was 30 June 2023. Fair value determinations were performed by UNIQUECO Properties Pty Ltd. Mr L Nel, who is a registered Professional Property Valuer with the South African Council for the Property Valuer's Profession (registration number 4464/2) and has the appropriate experience in performing valuations of investment properties, was the valuer used to perform the valuations. The valuation for the land portion was based on adapted comparable sales and on replacement costs for for the improvements.

These assumptions are based on current market conditions.

### Maintenance of investment property

| The following maintenance costs were incurred:<br>Preventative Maintenance incurred on |   |         |
|--|---|---------|
| Repairs and maintenance  | - | 140,937 |
| Amounts recognised in surplus or deficit   |   |         |

Rental revenue from investment property

20,824,594 19,885,345

### 14. Consumer deposits

| Electricity and water | 42,223,988 | 36,911,286 |
|-----------------------|------------|------------|
| Key deposits          | 1,254,165  | 1,023,617  |
|                       | 43,478,153 | 37,934,903 |

Guarantees held in lieu of electricity and water deposits amounted to R6 067 965 (2021: R6 067 965).

Deposits are paid by consumers on application for new electricity and water connections. The deposits are repaid when the electricity and water connections are terminated. In cases where consumers default on their accounts, the municipality can utilise the deposit as payment for the outstanding account balance.

Deposits are paid by lessees on application for new rental properties of the municipality.

No interest is paid to consumers on deposits held.

The carrying value of consumer deposits approximates their fair values.

### 15. Unspent conditional grants and receipts

### Unspent conditional grants and receipts comprises of:

| Unspent conditional grants and receipts                   |             |             |
|---|-------------|-------------|

2023

2022

### 16. Employee benefit obligations (continued)

### Changes in the fair value of plan assets are as follows:

### Post-retirement medical aid plan

The municipality has a post-employment medical aid fund for its pensioners. The post-retirement medical aid is in accordance with Resolution 8 of the South African Local Government Bargaining Council (SALGBC), signed on 17 January 2003, which states that an employee who retires from employment and who immediately prior to his or her retirement, enjoys the benefits of subsidy of his or her medical aid contributions by his or her employer, will continue to receive a subsidy calculated as follows:

- If the employee is 55 years or older on 1 July 2003, his or her subsidy from the employer as at the date of retirement will be 60% to a maximum amount of the norms of the cost of his or her medical aid scheme contributions as at the date immediately prior to the date of his or her retirement; or

- If the employee is 50 years or older on 1 July 2003, his or her subsidy will be 60% to a maximum amount of the norms of the cost of his or her medical aid scheme contributions as at the day immediately prior to the date of his or her retirement.

The municipality makes monthly contributions for the healthcare arrangements to the following medical aid schemes:

- Bonitas
- Hosmed
- Discovery
- Key-Health
- LA Health
- Samwumed

#### Long Service benefits

The municipality's liability for long service benefits relating to vested leave benefits to which employees may become entitled upon completion of five years of service and every five years thereafter. These leave benefits are in accordance with paragraph 11 of South African Government Bargaining Council (SALGBC) collective agreement on conditions of service for the Free State division of SALGA which was signed on July 2010.

In accordance with South African Local Government Bargaining Council (SALGBC) issued circular 1 of 2011 (issued 27 June 2011) with an effective date of 1 March 2011), specific bonuses are payable to employees for long service. Bonuses are payable in the following scale:

| Years of service completed | Percentage of annual salary as<br>bonus | - Additional Leave days |
|----------------------------|---|-------------------------|
| > 5 Years                  | 2%                                      | - 5 days                |
| > 10 Years                 | 3%                                      | - 10 days               |
| > 15 Years                 | 4%                                      | - 15 days               |
| > 20 Years                 | 5%                                      | - 15 days               |
| > 24 - 45 Years            | 6%                                      | - 15 days               |

### Key assumptions used

Assumptions used at the reporting date:

| CPI (Medical aid)                         | 7.71 %   | 7.30 %   |
|---|----------|----------|
| CPI (Long service award)                  | 5.38 %   | 6.76 %   |
| Discount rate (Medical aid)               | 13.70 %  | 12.27 %  |
| Discount rate (Long service award)        | 10.73 %  | 10.93 %  |
| Medical aid inflation rate (Medical aid)  | 9.21 %   | 8.80 %   |
| Net discount rate (Long service award)    | 4.09 %   | 2.94 %   |
| Net discount rate (Medical aid)           | 4.11 %   | 3.19 %   |
| Salary increase rate (Long service award) | 6.38 %   | 7.76 %   |
| Continuation percentage                   | 100.00 % | 100.00 % |

The basis used to determine the overall expected rate of return on assets, including the effect of the major categories of plan assets, is as follows:

### Other assumptions

The effect of one percentage increase/decrease in the net discount rate is as follows for the 2023 financial year:

|   |               |               | -             |                                       | One<br>percentage                     |
|---|---------------|---------------|---------------|---------------------------------------|---------------------------------------|
| Employer's accrued liability (Long service awards)  |               |               | ро            | oint increase                         | ooint<br>decrease<br>53,594,909       |
| Current service cost (Long service awards)<br>Interest cost (Long service awards)<br>Employer's accrued liability (Medical aid) |               |               |               | 5,314,926<br>6,243,079<br>341,602,725 | 4,649,900<br>5,563,462<br>438,958,561 |
| Current service cost (Medical aid)<br>Interest cost (Medical aid)   |               |               |               | 21,027,236<br>49,501,057              | - ) )                                 |
| Amounts for the current and previous four years an  | e as follows: |               |               |                                       |                                       |

#### Defined contribution plan

The municipality makes provision for post-retirement benefits to all employees and councilors, who belong to different contribution plans which are administered by various pension funds, provident and annuity funds. These plans are subject to the Pension Fund Act, 1995 (Act No. 24 of 1956) and include defined contribution plans. The municipality is under no obligation to cover any unfunded benefits. The only obligation of the municipality is to make the specific contributions.

The following are the multi-employer funds and are defined contribution plans:

- South African Local Authorities Pension Fund (SALA)

- Free State Municipal Pension Fund (FSMPF)
- Municipal councilors Pension Fund (MCPF)

Sufficient information was not available to use defined benefit accounting for the fund and it was accounted for as a defined

2023

2022

#### 16. Employee benefit obligations (continued)

- The assets of each fund are held in one portfolio and are not notionally allocated to each of the participating employers; - One set of financial statements is compiled for all the funds are not for each participating employer; and

- The same rate of contribution applies to all participating employers and no regard is paid to differences in membership distribution of the participating employers.

This is in line with the exemption in GRAP 25 paragraph 31 which state that where information is required for proper defined benefit accounting is not available in respect of the multi-employer and state plan; these should be accounted for as defined contribution plans.

The amount recognised as an expense for defined contribution plans is

(27,083,880) 39,755,630

Included in defined contribution plan information above, is the following plan(s) which is (are) a Multi-Employer Funds and is (are) a Defined Benefit Plans, but due to the fact that sufficient information is not available to enable the municipality to account for the plan(s) as a defined benefit plan(s). The municipality accounted for this (these) plan(s) as a defined contribution plan(s):

(Registration number FS 184)

#### Rehabilitation of landfill sites

The provision for rehabilitation of landfill sites relates to the legal obligation to rehabilitate landfill sites to a condition whereby it complies to the permit requirements issued in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002).

Management has included the best estimated amount as the actual amount is uncertain. The payment of total closure and rehabilitation dates are uncertain.

The provision has been determined by an independent firm of consultants through investigation to determine the best estimated rehabilitation cost for the waste disposal sites at the end of its useful lives.

The municipality has five active landfill sites, as per the asset register:

| Landfill                    | Estimated remaining useful lives |
|-----------------------------|----------------------------------|
| Allanridge                  | 2 years (2022: 3 years)          |

| Virginia (Transfer station) | 5 years (2022: 6 years)          |
| Bronville (Welkom)          | 0 years (2022: 0 years)          |

#### **Restructuring provision**

A brief description of the nature of the obligation and the expected timing of any resulting outflows of economic benefits or service potential.

An indication of the uncertainties about the amount or timing of those outflows. Where necessary to provide adequate information, an entity shall disclose the major assumptions made concerning future events, as addressed in paragraph .61.

The amount of any expected reimbursement, stating the amount of any asset that has been recognised for that expected reimbursement.

# Valuations

| - 7,325,161,003  |
|------------------|
| - 4,251,842,120  |
| - 5,096,270,000  |
| - 21,555,865,255 |
|                  |

Valuations on land and buildings are performed every four years in line with the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA). The last general valuation came into effect on 1 July 2021. Supplementary valuations are processed on an annual basis to take into account changes in individual property values due to alterations and subdivisions.

A firm was appointed perform the general valuation and the new valuation roll was implemented on 1 July 2021 for the financial period 2022 to 2027.

Rates are levied in accordance with the Act (MPRA), as an amount in the rand based on the market value of all rateable property contained in the municipality's valuation roll and supplementary valuation roll.

As allowed for in the Act (MPRA), the municipality has chosen to differentiate between various categories of property and categories of owners of property. Some categories of property and categories of owners are granted relief from rates. The municipality however does not grant relief in respect of payments for rates to any category of owners or properties, or to owners of properties on an individual basis

The first R75,000 of the valuation of residential property is exempted from property rates. Interest shall accrue 30 days from date of account on unpaid accounts. Interest us leveled at a rate of prime plus 1%.

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

# Notes to the Annual Financial Statements

| Figures in Rand | 2023 | 2022 |
|-----------------|------|------|
|                 |      |      |

# 34. Bulk purchases (continued)

# **Electricity losses**

| Units purchased (Kw/H)<br>Units sold (Kw/H) | 376,168,220<br>(286,811,187) | 437,362,652<br>(331,171,702) |
|---|------------------------------|------------------------------|
| Total loss                                  | 89,357,033                   | 106,190,950                  |
| Rand value of loss:<br>Non-technical losses | 89,357,033                   | 127,890,866                  |
| Percentage Loss:<br>Non-technical losses    | 24 %                         | 24 %                         |

These losses are the result of technical losses caused by the nature of electricity and the manner of its distribution, via the network, status / condition and age of the network, weather conditions and load on the system as well as non technical losses, e.g. theft and vandalism.

# Water losses

| Units purchased (KI)<br>Units sold (KI) | 41,473,651<br>(22,903,626) | 48,469,518<br>(21,814,540) |
|---|----------------------------|----------------------------|
| Total                                   | 18,570,025                 | 26,654,978                 |
| Rand value of loss:                     |                            |                            |
| Non-technical losses                    | 239,831,884                | 323,991,257                |
| Percentage Loss:                        |                            |                            |
| Non-technical losses                    | 45 %                       | 55 %                       |

These losses are predominantly due to metering inefficiencies, unmetered connections, aging pipeline infrastructure, burst pipes, old reticulation networks and other leakages which are by nature regarded as normal production losses.

# 42. Risk management

#### Financial risk management

This note presents information about the municipality's exposure to each of the financial risks below and the municipality's objectives, policies and processes for measuring and managing financial risks. The Council has overall responsibility for the establishment and oversight of the municipality's risk management framework.

# Liquidity risk

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

#### Credit risk

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

Trade receivables comprise a widespread customer base. Management evaluated credit risk relating to customers on an ongoing basis. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the board. The utilisation of credit limits is regularly monitored. Sales to retail customers are settled in cash or using major credit cards. Credit guarantee insurance is purchased when deemed appropriate.

Financial assets exposed to credit risk at year end were as follows:

| Financial instrument                       | 2023          | 2022          |
|--|---------------|---------------|
| Other financial assets                     | 474,015       | 415,803       |
| Other receivables                          | 30,052,992    | 34,596,206    |
| Receivables from non-exchange transactions | 296,597,861   | 268,344,476   |
| Receivables from exchange transactions     | 1,125,218,880 | 1,010,104,274 |
| Cash and cash equivalents                  | 125,689,425   | 198,250,543   |

# 43. Related parties

| Relationships             |                  |
|---------------------------|------------------|
| Members of key management | Refer to note 28 |
| Members of council        | Refer to note 29 |

During the financial year, there were no members of key management with related party transactions.

Key management and councilors receive and pay for services on the same terms and conditions as other rate payers, these transactions are recorded at arm's length.

#### 45. Going concern

Management made an assessment on Matjhabeng Local Municipality's ability to continue as a going concern and whether this set of Financial Statement should be prepared on the going concern basis. Based on the assessment management identified following conditions that may cast significant doubt on MLM's ability to continue as a going concern:

#### Solvency assessment

We draw attention to the fact that at 30 June 2023:

The municipality had an accumulated deficit of R4 197 678 664 (2022: R3 087 238 135) The municipality's total liabilities exceed its total assets by R4 197 678 664 (2022: R3 087 238 135).The municipality had a deficit of R1 115 679 647 (2022: R1 166 788 274)

#### Liquidity assessment

Based on the current assets and current liabilities values on the statement of financial position we calculated the following ratios to asses liquidity of the municipality:

Current ratio: (0,21:1) Total current assets cover only 21% of the total current liabilities. Acid ratio: (0,20:1) Quick assets covers only 20% of the current liabilities. Cash ratio: (0,01:1) Cash and cash equivalent can only cover 1% of current asset if they become due. Creditors days: It takes MLM an average 930 days to pay off its creditors.

In addition to above the municipality owed Eskom R5 630 675 806 (2022: R4 763 669 846) and Bloem Water R5 436 424 698 (2022: R4 897 035 157) these accounts are long overdue.

Debtors' impairment increased from R894 299 456 at 30 June 2022 to R1 116 245 618 at 30 June 2023.

Notwithstanding the above negative indicators there is an assurance that municipal activities will continue to meet its statutory obligation for the foreseeable future based on the following:

- The municipality will continue to have the power to levy rates in following financial period.

- In the current year the municipality has managed to acquire a huge number of new fleet that is expected to improve service delivery.

- The municipality is in the process of implementing revenue enhancement programs, these revenue enhancement programs "Operation Patala" will include a specific recovery of arrear amounts from clients.

- The DORA allocation for the grants to be received in the 2023/2024:

- Equitable share: R 685 410 000

- EPWP: R3 661 000

- LGFMG : R3 100 000
- INEP: R30 823 000

- The municipality has an improved working capital management manifested by reduction of third-party balances by consistent payments of third parties.

# 46. Events after the reporting date

The following adjusting events were identified at the time of preparing and submitting the annual financial statement

# Debt write-off

In a council meeting held 25 July 2023, council meeting resolved to write-off the following amounts:

1. Municipal debt and indigent debt amounting R300 235 953

2. Registered Public Benefit Organizations debt amounting to R14 584 028

(Registration number FS 184) Annual Financial Statements for the year ended 30 June 2023

# 47. Unauthorised expenditure

| 2,492,276,126 2,277,614,175   |
|-------------------------------|
| (852,914,664) (2,561,799,400) |
| 1,067,576,615 1,474,880,001   |
| 2,277,614,175 3,364,533,574   |
|                               |

A report was served before council on the 30th May 2023 and it was approved that unathorised expenditure to the value of R852 914 664 relating to 2021/2022 and 2020/2021 financial years be written-off.

The line item was restated, refer to prior period error note 44 for more details on the error.

## The over expenditure incurred by municipal departments during the year is attributable to the following categories:

| Non-cash<br>Cash                       | 824,920,351 745,281,377<br>242,656,263 729,598,623 |
|--|--|
|  | 1,067,576,614 1,474,880,000                        |
| 48. Fruitless and wasteful expenditure |  |
| Opening balance                        | 313,298,103 519,966,508                            |
| Fruitless and wasteful expenditure     | 339,841,917 180,736,298                            |
| Less: Amount written off - current     | (313,298,104) (387,404,703)                        |
| Closing balance                        | 339,841,916 313,298,103                            |

Fruitless and wasteful expenditure includes interest levied for late payment of creditors.

A report was served before council on the 29th of June 2023 and it was approved that fruitless and wasteful expenditure to the value of R313 298 103 relating to 2021/2022 and 2020/2021 financial years be written-off

The fruitless and wasteful expenditure was investigated during the financial period by MPAC and determined to be irrecoverable and no criminal or disciplinary actions were taken.

The line item was restated, refer to prior period error note 44 for more details on the error.

# 49. Irregular expenditure

| Opening balance as previously reported                 | 1,682,690,409 1,346,393,213 |  |

# 50. Additional disclosure in terms of Municipal Finance Management Act (continued)

#### Fraud investigations

The municipality conducted the following fraud investigations for the prior financial year:

- Case number: 527/05/2016
- Case number: 451/02/2016
- Case number: 116/08/2017
- Case number: 406/01/2020

#### As at 30 June 2023 the following cases were still under investigation:

#### Case number: 451/02/2016 - Fraud by service provider

The service provider Tiro Ya Nnete Trading and projects was given official orders no. 0001047515 and 0001047593 on the 9th and 19th November 2015 for the supply and delivery of tar for an amount of R154,080.58 respectively, however the services were never rendered to the municipality despite having received payment on the 11th of November 2015 for order no. 0001047515. After a thorough investigation it was found that the service provider forged the signature of Mr. Ewan Eloff on the invoice he submitted at Supply Chain in order to receive payment fraudulently. He later came clear with his actions admitting to the fraud he had committed. The case was reported to Mr. Bokvel Pieterse to investigate and open a criminal case where necessary. It was recommended that all orders issued to this service provider be cancelled and any fraudulent payment done to be recovered from him. The Department of Public Safety and Transport would investigate the matter and open possible criminal cases. It was also recommended that the supplier be permanently removed from the Service Providers database of Matjhabeng.

#### Case number: 527/05/2016 - Bank details amendments

On the 13th of May 2016 payments were made to suppliers - Circle Tooling, Free State Sun and Ricmisa Trading for a total of R787,779.91. Contrary to the normal payment process, the final payment report pulls through different banking details although the payments were captured correctly on the system (Solar). After a thorough investigation it was found that there is no audit trail on cash focus to indicate that the banking details were changed or amended on ABSA cash focus. Correct banking details also appear on the IF80 report derived from Solar. It was therefore concluded that the changes could have occurred on the Z drive. Therefore it seems the payments were directed to the incorrect payees. The IT department was contacted for investigation but no information could be obtained. This case is still under investigation with the Thabong SAPS branch.

#### Case number: 116/08/2017 - Illegal sale of erven

During the 2017/18 financial year the Municipal Housing Department discovered that there was a growing number of individuals alleging to have purchased sites from the municipality without council having approved sale of such erven. The municipality launched an investigation to discover that the matter was prevalent and may be intentionally perpetuated by municipal staff. Upon discovery a case was opened with South African Police Services. The case is still under investigation.

# Case number: 406/01/2020 - Payroll fraud

On 22 January 2020, 69 bank account numbers of various Matjhabeng Local Municipality employees had been changed to 16 different bank account numbers without consent. Although the bank accounts on the payslips had been verified as correct, the account numbers on the payroll system were altered. After a thorough investigation it appeared that the IPaddress of the Senior Clerk: Salaries was compromised and unauthorised access had been obtained, which resulted in the alteration of the banking details of various employees. The issue was immediately escalated to the Chief Financial Officer and in turn to the Acting Municipal Manager at that time. A total of R3,508,268.52 had been fraudulently diverted to other individuals. A case has been opened and is still under investigation by the Hawks.

#### 51. Segment information

#### General information

#### Identification of segments

The municipality is organised and reports to management on the basis of three major functional areas: primary, secondary and tertiary educational services. The segments were organised around the type of service delivered and the target market. Management uses these same segments for determining strategic objectives. Segments were aggregated for reporting purposes.

Information reported about these segments is used by management as a basis for evaluating the segments' performances and for making decisions about the allocation of resources. The disclosure of information about these segments is also considered appropriate for external reporting purposes.

#### Aggregated segments

The municipality operates throughout the Free State Province in 6 towns. Segments were aggregated on the basis of services delivered.
