CHAPTER 1 – MAYOR'S FOREWORD AND EXECUTIVE SUMMARY

COMPONENT A: EXECUTIVE MAYOR'S FOREWORD

Some say change is a pain but for its change is the introduction of the new opportunities."

The period in which we table this annual report is characterized by "change" in a form of global economic recession, high interest rate affect markets, youth unemployment, loadshedding, high crime rate by climate change.

Local government in a sphere of government is not spared from these challenges and most importantly they happen in its space.

Provision of basic services remains our commitment as a municipality drawing it from the Supreme Law of the country, i.e. the Constitution of Republic of south Africa, Act No 108 Of 1996. Section 152 (1) (a) & (e) prescribes that, "the object of local government is — to provide democratic and accountable government for local communities and community organizations in the matters of local government".

While appreciating provisions of other legislations governing local government it is worth referring to provisions of section 121 (2) (a) (b) (c) of the Local Government: Municipal Finance Management act, Act No 56 of 2003 which stipulated that; the purpose of an annual report is to provide s record of the activities of the municipality during the financial year to which the report relates to provide a report on performance against the budget of the municipality for the financial year, and to promote accountability to the local community for the decisions made throughout the year by the municipality.

The final budget and integrated development plan were adopted outside the prescripts of legislation, and this was a result of robust engagements coupled with other alignment issues that were later on attended. This was on the 30 June 2022 and the relevant communication with the MEC's office was done.

Load shedding has had a negative impact on our budget in that it heavily affected our revenue as it is the main source. This prompted us to look into new revenue streams to ensure that we keep the municipality afloat financially. One of the measures is to cut on expenditure for both unauthorized and fruitless expenditure by ensuring that our Municipal Public Accounts Committee (MPAC) sits regularly and attend to these issues.

We have identified the provision of water as an important revenue stream and our program of installing meters is directed towards an improvement in this regard. We can report that there is a vast improvement in our water loss management which can be attributed to a concerted effort by the team responsible for water services. Awaiting the period under review we have managed to replace almost 500 water meters, replaced AC pipes to UPVC of almost 432 meters and drastically reduce our water loss by almost 52%.

Our Audit Action Plan for the year under review will based on 2022-2023 outcome which we were planning to improve on to a much better unqualified, but we need to mention that there will be a lot of issues raised in terms of the Information, Communications and Technology (ITC) System which raised serious challenges. While an appropriate response is already being prepared through our Audit Steering Committee, there is still hope for improvement.

Municipal fleet, machinery and equipment remains a challenge for us to improve the quality services that we are providing. As we did in the previous financial year we will be buying in affordable batches throughout the year until we back on our feet

Let us take this opportunity to thank all role players in municipal business and affairs for your contributions for thus are the reason why we exist. It democratic system of governance will not be real without you and we urge you to continue participating in our planning, budgeting and feedback sessions.

I Thank you

M E MOKATSANE

COMPONENT B: EXECUTIVE SUMMARY

1.1 MUNICIPAL MANAGER'S OVERVIEW

It is my pleasure to present to you the overview of the 2022/2023 Annual Report providing a brief outline on the operations of Moqhaka Local Municipality during the financial year. The year came with its inevitable challenges, however also the positives and achievements that must be noted. Financial constraints, inadequate operational resources, and to some extent staff-shortages can be highlighted as the main challenges that had to be overcome during daily operations. However, the municipality adopted a constructive attitude and remained resolute in delivering services to the best of our ability considering the confines faced.

As the point of departure and being the main planning tool for the municipality, the Integrated Development Plan (IDP) forms the backbone and foundation for the municipal operations and budgeting. In accordance with legislative requirements Council adopted its five (5) year Integrated Development Plan (IDP) for the period 2022-2027 at its meeting held in June 2022. The first review of the IDP (2023-2024) was subsequently considered by Council in June 2023, along with the Service Delivery Budget Implementation Plan (SDBIP). This document was compiled bearing in mind strategic planning targets of the municipality and includes inputs from members of the community and various stakeholders in line with requirements of the Municipal Systems Act. The IDP inter alia covers areas such as the municipal vision and mission, assessment of existing level of development, Council's development priorities and objectives, the status of Local Economic Development, Council Development Strategies aligned to National and Provincial Sector Plans, Council's operational strategies, financial plan including budget projections, Disaster Management Plan and Key Performance Indicators as core components.

The municipal audit opinion for 2022/23 financial period has decline and this was somehow affected by financial system that was hacked towards the end of financial period and therefore the AFS we drafted under huge amount of pressure. The appointment of the Municipal Manager after the position has been vacant for some time contributes positively towards achieving this goal and supports administrative stability within the institution. Filling of the vacant senior management positions is regarded as high priority to ensure that the top administrative structure function as required, and provide the necessary leadership, stability and strategic guidance within the relevant Departments.

Adequate revenue collection provides the foundation for sustainable and quality services to the community of Moghaka and budget targets cannot be achieved if actual income is not in line with requirements. It is however

the unfortunate reality that the high unemployment rate, limited economic growth, and increased cost of living makes it more and more difficult for people to honour their financial commitments. Another factor to take into consideration is the high indigence rate within the municipality. All considered it can be summarised that the municipality had to cope within an extremely adverse environment for financial sustainability. This constraint has in turn made it increasingly difficult for the municipality to balance its finances amongst its various obligations as evident in the difficulty experienced to fully comply with the Eskom payment arrangement. As was the case in previous financial years it is still a major limitation to collect revenue from areas predominantly receiving Eskom electricity supply, this being evident in the low collection rates of Viljoenskroon and Steynsrus. Notwithstanding the above and in line with its mandate the municipality focused all available resources towards efficiently addressing operational and routine maintenance requirements.

Providing quality and sustainable services to the people of Moqhaka remains top priority for the municipality and in this regard the most challenging has been Water & Sanitation services and in particular addressing the continued sewer spillages as well as the refurbishment of the Sewer Purification Plant. Service delivery challenges are however not only confined to this Section and in general all Sections are experiencing challenges predominantly as a result of capacity constraints both in terms of equipment such as availability of fleet and materials etc., as well as vacancies in key positions. To address these challenges, the acquisition of vehicles and advertisement of critical vacancies in service delivery Sections were prioritized. The municipality managed to procure 8 x LDVs that were allocated to the most critical services, however there is a need for the urgent acquisition of adequate fleet to ensure that services can be rendered effectively in all Departments.

Increased levels of load shedding from Eskom has resulted in serious challenges for the municipality mainly with regards to water provision, this is due to the fact that the reservoir levels could not be maintained as required. The municipality consulted with Eskom and permission was granted for the municipality to do its own switching and the critical water provision infrastructure to be excluded from load shedding.

We recognise the importance of each and every consumer within our municipality and it is priority that the service delivery needs as well as associated complaints be addressed as promptly and efficiently as possible. In this spirit a meeting was held with the largest consumers which are predominantly industrial with the purpose to forge valued relations, share information, present challenges as well as communicate unresolved issues requiring attention. Individual meetings were then conducted with those companies who had unresolved complaints and the few matters not yet resolved are in process of being attended to. Further meetings will also be scheduled with other stakeholders to promote fruitful relations across the board. In addition to the above the municipality is privileged and proud to be part of the Ignite & Revive initiative that resulted in Kroonstad receiving the award for South Africa's Town of the Year initiative. The dedication and hard work from all involved are evident in the success achieved, and trusted that it will grow from strength to strength.

I wish to express my sincere appreciation and thank the community of Moqhaka for the positive contributions received and also again emphasise Moqhaka Municipality's commitment towards putting the people and their concerns first in ensuring constant contact with communities through effective public participation platforms. The communities are encouraged to actively participate at these platforms and provide the inputs so much needed for the municipality to effectively address their needs.

I also express my sincere gratitude and recognition towards the Honourable Executive Mayor and all members of Council for the leadership and support received, and further also towards the entire management team and all employees for their dedication and hard work throughout the year.

Thank you,

IS. MOKGATLE

ACTING MUNICIPAL MANAGER

1.2 MUNICIPAL FUNCTIONS, POPULATION & ENVIRONMENTAL OVERVIEW

INTRODUCTION

The area of jurisdiction of the Moqhaka Local Municipality is situated in the southern part of the Fezile Dabi District Municipality. The former Kroonstad, Steynsrus and Viljoenskroon Transitional Local Councils and sections of the Riemland, Kroonkop and Koepel Transitional Rural Councils are included in the Moqhaka Local Municipality.

The general tendency of migration from rural to urban areas is also occurring in the area, as is the case in the rest of the Free State Province. The majority of the rural population is active within the agricultural sector. Regarding the population distribution (see Table 1), the area is largely urbanized (78% urban and 22% rural). In comparison to the other municipalities within the Fezile Dabi District, it appears as if Moqhaka is significantly less urbanised. However, the large rural population of the concerned region is attributed to the fact that the population of the Vierfontein and Renovaal villages as well as the Vaal Reefs hostel complex and informal settlement (see Table 6) is included in the rural population of Moqhaka.

The Greater Kroonstad is the centre of a large agriculture community that plays an important role in the economy of the district. Industrial activities subsequently contribute significantly to the district's economy. The Department of Correctional Services and the School of Engineer's Military bases are situated in the town. Kroonstad has of late become a distinguished holiday destination due to the ultra-modern and popular holiday resort of Kroonpark, adjacent to the Vals River. The urban area is situated adjacent the N1 National Road and located adjacent one of the largest and most important four-way railway junctions in South Africa.

The Viljoenskroon/Rammulotsi urban area is located within an area of extreme agricultural significance. The urban area plays a significant role in providing residential opportunities to the adjacent Goldfields and mining activities in the North West Province. The provincial roads P15/1 and P15/2 from Kroonstad to Klerksdorp in the North West Province extend through the area from north to south. The Steynsrus/Matlwangtlwang urban area is situated approximately 50km east of Kroonstad, 140km west of Bethlehem. The major link road between Bethlehem and Kroonstad stretches adjacent to the urban area. The area is located in an area of agricultural significance and mainly provides services in this regard to the surrounding rural areas. More specialised services are rendered by Kroonstad as a large service centre in close proximity. The accessibility of the town, due to the main road and railway line, further influences growth in the area.

In addition to the existing formal urban areas, several residential areas and proclaimed town areas are situated in Moqhaka with reference to Renovaal, Vierfontein and the Vaal Reefs hostel complex and settlement. Renovaal was established during 1974 adjacent the Vaal River with the intention to provide residence in the proximity of the gold mining activities in the North West Province. The town was also later marketed as a leisure residential area with recreation potential adjacent the Renoster and Vaal Rivers. Development of the town is, however, extremely latent and only the proposed first phase of the town was established. According to Proclamation No. 167 of 1975, the concerned area represented by General Plan SG No. 459/1974, was proclaimed a township under the name Renovaal.

Figure 1: Moqhaka

In addition to the existing formal urban areas, several residential areas and proclaimed town areas are situated in Moqhaka with reference to Renovaal, Vierfontein and the Vaal Reefs hostel complex and settlement. Renovaal was established during 1974 adjacent the Vaal River with the intention to provide residence in the proximity of the gold mining activities in the North West Province. The town was also later marketed as a leisure residential area with recreation potential adjacent the Renoster and Vaal Rivers. Development of the town is, however, extremely latent and only the proposed first phase of the town was established. According to Proclamation No. 167 of 1975, the concerned area represented by General Plan SG No. 459/1974, was proclaimed a township under the name Renovaal.

Vierfontein (referred to as "Vierfontein South") is also a proclaimed town. The area was initially developed to provide residence for workers at the adjacent mine and electricity power station and was owned by Eskom. After mining activities ceased and the power station discontinued, a township establishment was done to formalize the existing town area during 1993. According to Proclamation No. 35 of 1995 (Provincial Gazette of 24 February 1995), the concerned area represented by General Plan SG No. 786/1993, was proclaimed a township under the name Vierfontein. The individual properties were sold and the majority of the inhabitants of Vierfontein are retired residents with a limited number of inhabitants that are employed in Viljoenskroon.

To the north of the town Vierfontein, a sectional title scheme was established that is referred to as "Vierfontein North". As in the case of Vierfontein, this sectional title scheme also developed to provide residence for workers at the Vierfontein mine and power station, but most of the current inhabitants are also retired. The area was developed by the Dutch Reformed Church who was the initial property owner of the concerned farms. The concerned farms are currently the property of Vierfontein Developers Group Scheme who is also the current home owner's association.

The Vaal Reefs hostel complex subsequently exists adjacent the Vaal River and in close proximity of Viljoenskroon. The hostels were developed by AngloGold who is the property owner of the concerned farms and provide residence to mine workers of the company. Although mining activities ceased on the Free State side of the Vaal River, the complex still exists and provides housing to approximately 9 000 residents. An informal settlement subsequently developed adjacent the Vaal Reefs hostels, consisting of approximately 720 residents.

Apart from the dominant role agriculture plays in the region, no other significant economic activity exists. The Moqhaka area, like the rest of the Fezile Dabi District, is not considered as a primary tourist destination, although the area is increasingly becoming a favourite weekend destination. The hunting and guesthouse industries displayed an exceedingly rapid growth the past few years. Recreation areas and facilities are predominantly

confined to the urban areas. The Kroonpark recreation and holiday resort in Kroonstad attracts interest throughout the region.

The Vaal River borders Moqhaka to the west. The Vals and Renoster Rivers drain through the area towards the Vaal River. These rivers play a significant role in providing the raw water supply to Kroonstad, Steynsrus and Viljoenskroon respectively. The topography of the area is particularly homogeneous with no prominent features and the area is characterised by extremely moderate slopes. The western areas, in the vicinity of Viljoenskroon,

1.3 SERVICE DELIVERY OVERVIEW

SERVICE DELIVERY OVERVIEW

Service delivery in Moqhaka Local Municipalities encompasses the provision of basic services such as water, electricity, sanitation and waste management. These services are crucial for the well-being and development of communities.

KEY SERVICES

1. Water and Sanitation

Access to clean drinking water and proper sanitation facilities is a priority. Challenges include aging infrastructure, water scarcity and financial constraints. Efforts are being made to improve water quality and expand access to informal settlements.

2. ELECTRICITY

Moqhaka Municipality is responsible for distributing electricity to households and businesses. Issues such as loadshedding, theft of infrastructure and maintenance of aging networks are common.

3. WASTE MANAGEMENT

Effective waste collection and disposal are essential to public health and environmental sustainability. Recycling initiatives and proper landfill site management are in place. Financial and logistical challenges often hamper efficient waste management.

4. ROADS

Maintaining and developing road infrastructure in our municipality is vital for economic activity and connectivity. On going projects focus on road maintenance, construction and improving the condition of our roads.

Moqhaka Local Municipality like other municipalities in South Africa struggles with limited budget, impacting on the ability to deliver services. Aging infrastructure require significant investment for upgrades and maintenance.

Moqhaka Municipality has experienced an increase in the demand for housing in recent years. The provision of additional houses would imply the need to upgrade and expand bulk infrastructure to accommodate additional developments. Hence, it is anticipated that there will be an increase in capital infrastructure expenditure for the provision of bulk infrastructure and servicing of new stands over the next five financial years.

Various service delivery targets have been set in the municipality's IDP to ensure that access to basic services is realised in line with the National Government's target dates. Free basic services are provided to indigent households according to the municipality's Indigent Policy. These includes 10kl of water, 50kWh electricity, free sanitation and refuse removal per month.

The following projects are currently under design, construction and others have been completed during the 2022/23 financial year:

- ✓ Rammulotsi: Construction of 0.83km paved road from 4274 4218 and 0.33km from 4756 4902 with V-drain storm water (MIS:338433). (Construction).
- ✓ Construction of 4km water pipeline at 11th Avenue and repair sluice gate at Bloemhoek dam (Construction)
- ✓ Maokeng Selection Park: Upgrading of roads 1.34km with storm water (MIS:373417) the project was completed in August 2022.
- ✓ Rammultosi (Northleigh): Construction of 1km storm water and channeling of viei area (MIS:373437) (Construction)
- ✓ Maokeng/Nyakallong: Upgrading of Community and Sports Facility Phase 2 (MIS:371233)
 (Construction)
- ✓ Maokeng (Constantia): Construction of sewer pipeline at Caswell Koekoe Street (MIS:373419).

 Completed in June 2023.
- ✓ Maokeng (Phomolong): Upgrading of 2.8km water network infrastructure (MIS:373418)(Construction)
- ✓ Maokeng Selection Park: Upgrading of roads 1.34km with storm water (MIS:373417) Completed August 2022/2023
- ✓ Rammultosi (Northleigh): Construction of 1km storm water and channeling of vlei area (MIS:373437) (Construction)
- ✓ Maokeng: Installation of 8 High mast Lights (MIS:373162)
- ✓ Maokeng/Nyakallong: Upgrading of Community and Sports Facility Phase 2 (MIS:371233) (Design)
- ✓ Maokeng (Constantia): Construction of sewer pipeline at Caswell Koekoe Street (MIS:373419) (Design)
- ✓ Maokeng (Phomolong): Upgrading of 2.8km water network infrastructure (MIS:373418) (Design)
- ✓ Rammulotsi: Development and fencing of new landfill site Phase 2 (MIS:412457) (construction)

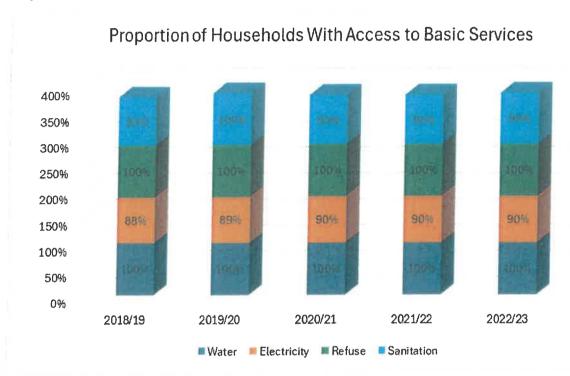

COMMENT ON ACCESS TO BASIC MUNICIPAL SERVICES

The municipality has set targets for achieving the national outcomes for basic services in the 2022 - 27 approved Integrated Development Plan (IDP). By the end of 2022/23 financial year, 100% of the households in the municipal area had access to piped water within 200m from their dwelling. With regard to access to basic sanitation, 99% of households had access to basic sanitation, and 100% of households received a weekly refuse removal service. Hundred percent (100%) of the households located in the Municipality's area of jurisdiction have access to electricity, namely: Kroonstad, Maokeng, Viljoenskroon and Steynsrus.

There is a 10.4% backlog of access to electricity in the Eskom distribution area, namely: Rammulotsi and Matlwangtlwang.

The figure below shows the progress made with regard to service delivery in the 2022/23 financial year.

Graph 1: Access to services

1.4 FINANCIAL OVERVIEW

The municipality submitted its Annual Financial Statements to the Auditor-General of South Africa very late due to the Finance System been hacked. The municipality reviewed all the existing finance related policies. The cash position of the municipality slightly improved when compared to the 2021/22 financial year. Due to the municipality's decline in collection rates, not all creditors were paid within 30 days as required by the MFMA. The municipality made arrangements to honour its loan commitments towards the end of the 2022/23 financial year.

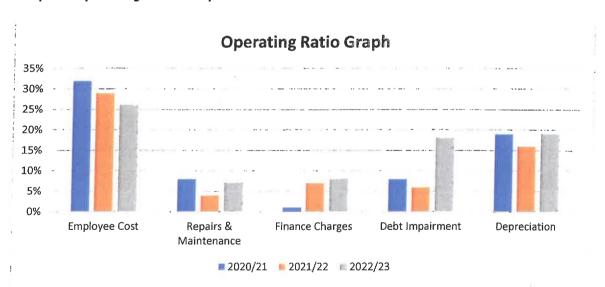

Table 1: Financial Overview

|-----------------------|---------|------------------|---------|--|
| Detail | 2020/21 | 2021/22 | 2022/23 | |
| | % | % | | |
| Employee Cost | 32% | 29% | 26% | |
| Repairs & Maintenance | 8% | 4% | 7% | |
| Finance Charges | 1% | 7% | 8% | |
| Debt Impairment | 8% | 6% | 18% | |
| Depreciation | 19% | 16% | 19% | |

Graph 2: Operating Ratio Graph

COMMENT ON OPERATING RATIOS

Employee cost represents 26% of the total expenditure. This is in line with the accepted norm as required by MFMA Circular No. 71. The employee cost bill is still high and it has increased by R32 million from 2021/22 to 2022/23. The decline of 3% as indicated above was due to increase of total operating expenditure which is the base used to calculate the ration.

Repairs & Maintenance ratio is still within the acceptable norm of 8% as per MFMA Circular No 71 but this acceptable practice won't be realised in the near future due to cash flow constrains to replace the capital assets.

The **Finance Charges** ration norm is between 6% to 8% of the operational expenditure and for the past two financial period there is sharp increase of 7% due to high interest cost charged by Eskom.

Debt impairment for 2022/23 has increased by 12% due to increase of R191 million on debtors write-off.

Depreciation acceptable norm is between 5% to 15% and is assessed on the basis of the revenue raised. This shows that the municipality is not operate within the acceptable norm due to rapidly aging capital assets

Table 3: Total Capital Expenditure

| Total Capital Expenditure | | | |
|---------------------------|---------|---------|---------|
| | | | R'000 |
| Detail | 2020/21 | 2021/22 | 2022/23 |
| Original Budget | 84 344 | 63 934 | 55 884 |
| Adjustment Budget | 76 503 | 63 934 | 57 004 |
| Actual | 51 879 | 80 618 | 67 439 |

COMMENT ON CAPITAL SPENDING

The municipality spent the funding in line with the capital budget requirements, despite some challenges which affected the municipality's ability to spend 100% of the allocated budget.

1.5 ORGANISATIONAL DEVELOPMENT OVERVIEW

The effective provision of predictable good quality and sustainable public services hinges on the capacity and effective functioning of the structures or institutional arrangements adopted by the government institution under consideration. Moghaka Local Municipality recognises the importance of human resource management and development in the quest to meet the service delivery demands and the growth and development objectives in within its jurisdiction. The Municipality acknowledges that without an effective institutional form, well developed and relevant skills, knowledge, and experience public services cannot be delivered effectively. The current organisational structure of the municipality has a total number of 1 892 positions. By end of financial year, the municipality had a total of 831 employees and a vacancy rate of 56.1%. The high vacancy rate is due to

The current organisational structure of the municipality has a total number of 1 892 positions. By end of financial year, the municipality had a total of 831 employees and a vacancy rate of 56,1%. The high vacancy rate is due to the review of the organisational structure that resulted in addition of new positions for council support services.

The turnover rate stood at 3,4%. The municipality rate of turnover was due to different types of terminations e.g. Death, dismissals, retirement, end of contracts, abscondment and resignations whilst certain departmental vacancies could not be filled due to the lack of plant and equipment.

Appointments within the municipality are made taking into consideration the implementation of the Employment Equity Plan and Employment Equity Act 55 of 1998. According to the demographic profile of the municipality, African employees constitute 91% of the workforce, Coloured 2.8% and Whites 6.1%.

The Municipality ensures compliance with its policies, collective agreements and relevant legislation with regard to –

- Organisational design
- Recruitment, selection and appointment;
- Labour relations;
- Employment Equity;
- HIV/AIDS;

- · Training and development;
- Occupational health and safety;
- Main and Divisional collective agreements

1.6 AUDITOR GENERAL REPORT

AUDITOR-GENERAL REPORT: 2022/23

The Auditor General Report for 2022/23 financial year is fully detailed out in Chapter 6 of the Annual Report.

Table 4: Total Capital Expenditure

| Financial Year | Audit Opinion |
|----------------|---------------------------|
| 2019/20 | Qualified Audit Opinion |
| 2020/21 | Qualified Audit Opinion |
| 2021/22 | Unqualified Audit Opinion |
| 2022/23 | Qualified Audit Opinion |

Please see Chapter 6 – Auditor-General Audit Finding – Component A and B for the Audit Report of the current and the previous financial year.

1.7 STATUTORY ANNUAL REPORT PROCESS

According to Legislation, the Annual Report of a municipality must be tabled in the Municipal Council on or before 31 January each year. In order to enhance Councils oversight function, the municipality should submit their Annual Reports as soon as possible after the financial year-end ideally this ought to be the end of August. Both the draft Annual Financial Statements and the Annual Report were submitted by the end of August to the Auditor-General. Management is currently developing processes and systems in order to ensure that the remaining sections be in place for the 2022/23 Annual Report process. It is expected that the entire process should be concluded by the end of December.

The anticipated process for the creation, submission, review and approval of the 2022/23 Annual Report is set out in the table below.

Table 5: Statutory Annual Report Process

| No. | Activity | Timeframe | |
|-----|--|---|--|
| 1 | Consideration of next financial year's Budget and IDP process plan. Except for the legislative content, the process plan should confirm in-year reporting formats to ensure that reporting and monitoring feeds seamlessly into the Annual Report process at the end of the Budget/IDP implementation period | | |
| 2 | Implementation and monitoring of approved Budget and IDP commences (In-year financial reporting). | | |
| 3 | Finalise the 4th quarter Report for previous financial year | | |
| 4 | Submit draft Annual Report to Internal Audit and Auditor-General | | |
| 5 | Municipal entities submit draft annual reports to Municipal Manager | 1 | |
| 6 | Audit/Performance committee considers draft Annual Report of municipality and entities (where relevant) | | |
| 8 | Executive Mayor tables the unaudited Annual Report | 1 | |
| 9 | Municipality submits draft Annual Report including consolidated annual financial statements and performance report to Auditor General | August | |
| 10 | Annual Performance Report as submitted to Auditor General to be provided as input to the IDP Analysis Phase | | |
| 11 | Auditor General audits Annual Report including consolidated Annual Financial Statements and Performance data | solidated Annual Financial Statements and Performance data September - November | |
| 12 | Municipalities receive and start to address the Auditor General's comments | | |
| 13 | Executive Mayor tables Annual Report and audited Financial Statements to Council complete with the Auditor- General's Report | January-March | |
| 14 | Audited Annual Report is made public and representation is invited | 1 | |
| 15 | Oversight Committee assesses Annual Report | 1 | |
| 16 | Council adopts Oversight report | | |
| 17 | Oversight report is made public March/Ap | | |
| 18 | Oversight report is submitted to relevant provincial councils | | |
| 19 | Commencement of draft Budget/ IDP finalisation for next financial year. Annual Report and Oversight Reports to be used as input | February/March | |

COMMENT ON THE ANNUAL REPORT PROCESS

The municipality has been able to meet the deadlines as per MFMA Circular No. 63 issued by the National Treasury in September 2012. The Annual Report 2022/23 is aligned to the format and guidelines issued by the National Treasury. Moqhaka Municipality always adheres to the timelines of the compilation of the unaudited Annual Report.

The municipality appreciates the importance of alignment between the IDP, Budget and Performance Management System and the process to ensure proper alignment is continuously being reviewed and implemented.

CHAPTER 2 – GOVERNANCE

COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

2.1 POLITICAL GOVERNANCE

INTRODUCTION TO POLITICAL GOVERNANCE

Moghaka Municipality through the 2022/23 financial year participated in a number of Intergovernmental Forums. This ensures that the Municipality is kept up to date on key developments in strategic areas of its responsibilities.

Through active participation in these forums and the available platform created the Municipality exchanges ideas and interact with other spheres of government.

COUNCILLORS

The municipality has 44 Councillors, 22 are Ward Councillors and 22 PR Councillors. A full list of Councillors can be found (including committee allocations and attendance at council meetings) in **Appendix A**. Further, note that **Appendix B** sets out committees and committee purposes.

2.2 ADMINISTRATIVE GOVERNANCE

INTRODUCTION TO ADMINISTRATIVE GOVERNANCE

Local Government carries a legislated mandate, which is to server the interest of public through equitable service provision. Local Government may be described as that sphere of government close to its constituents and involved in rendering a wide range of services that materially affect the lives of the inhabitants residing within its area of jurisdiction.

Each municipality must ensure that it administers its affairs to strive to achieve as set out in the Constitution of the Republic of South Africa.

The constitutional mandate of Local Governments in South Africa, which are to:

- Provide democratic and accountable governments for local communities.
- Ensure the provision of services to the communities in a sustainable manner,
- Promote social and economic development,
- Promote a safe and healthy environment, and
- Encourage the involvement of communities and community organisations in matters of Local Government.

The above is inter alia achieved through effective administrative governance, which in short can be described as the administrative activities concerned with governing and in accordance with the administrative and legislative requirements to give effect to policies and objectives.

TOP ADMINISTRATIVE STRUCTURE

2.3 INTRODUCTION TO COOPERATIVE GOVERNANCE AND INTERGOVERNMENTAL RELATIONS

Moqhaka Municipality through the 2022/23 financial year participated in a number of Intergovernmental Forums. This ensures that the Municipality is kept up to date on key developments in strategic areas of its responsibilities.

Through active participation in these forums and the available platform created the Municipality exchanges ideas and interact with other spheres of government.

2.4 INTERGOVERNMENTAL RELATIONS

NATIONAL INTERGOVERNMENTAL STRUCTURES

The Municipality inter alia participated in the following National Structures:

SALGA CIGFARO Institute of Traffic Officers (ITLMPO SA)

Participation in these structures ensures that the municipality is on board with the developments regarding all relevant issues presented in accordance with the different areas of expertise of the various platforms

PROVINCIAL INTERGOVERNMENTAL STRUCTURE

The municipality inter alia participated in the following forums:

- Premier's Coordinating Forum (PCF)
- MECLOGA.
- SALGA Working Groups
- IDP Managers Forum
- PMS Forum
- Inter-Governmental Relations Forum
- Technical Inter-Governmental Forum (DWS/DOE etc.)

The municipality did participate in these structures, and this has promoted good inter-governmental relations, best practices and information sharing amongst stakeholders.

DISTRICT INTERGOVERNMENTAL STRUCTURES

The municipality participated in District Intergovernmental Structures such as the District Energy Forum (DEF) etc. which is specifically focused on the relevant service delivery aspects of the relevant service.

This provides a platform for interaction with other Municipalities as well as Sector Departments involved and improves intergovernmental relations between all spheres involved during these engagements.

The Acting Municipal Manager also attended the weekly COVID-19 meeting that was conducted through virtual platform by the District Municipality. The purpose of this meeting was to give report on all aspects of service delivery and also the preventative measures implemented by the municipality and the consequent impact of the virus in the municipality.

2.5. OVERVIEW OF PUBLIC ACCOUNTABILITY AND PARTICIPATION

The municipality improved on the responsibilities mentioned above as indicated in the 2022/23 IDP by:

- Providing feedback to different communities on issues people raised during the first round of public engagements.
- Providing progress report on funded projects implemented in the different Wards.
- Providing opportunity for communities to making input to the 2022/23 IDP process.
- Providing Ward Committee an opportunity to prioritise inputs received from the different wards.
- Encouraging Ward Councillors and Ward Committees to do further consultation about community's service delivery priorities.
- Encouraging communities, Stakeholders and individual members of society to make use of the opportunity to do submission regarding the IDP review and budget of the municipality.

The staff is allocated wards to work with and report on their activities. There are also members of ward committees responsible for different sections in their wards. These measures have helped as members of community reports issues related to service delivery at their earliest occurrence.

2.6 PUBLIC MEETINGS

KEY PURPOSES OF WARD COMMITTEES

- Create formal unbiased communication channels and co-operative partnerships between the Municipality and the community within a ward.
- Ensure contact between the Municipality and the community through the relevant feedback mechanisms.
- Act as an advisory body on council policies and matters affecting communities in the ward as requested.

- Make recommendations on matters affecting the ward to the ward councillor.
- Serve as a constructive mobilizing agent for positive community action

COMMUNICATION, PARTICIPATION AND FORUMS

The municipality uses loud hailing, print media, posters, as well as physical delivery of invitation such as IDP and Budget Roadshow which are on semester interval. These meetings are inclusive of representative from Safety, Business, NGO'S, CBO's and all other Stakeholders.

Table 6: Public Meetings

| | Public Meetings | | | | | |
|--|------------------------|---|--|--|--------------------------------|---|
| Nature And Purpose Of Meeting | Date of events | Number of Participating Municipal Councillors | Number of Participating Municipal Administrators | Number of Community members attending | Issue addressed (Yes/No) | Dates and manner of feedback given to community |

| Community Meeting (Phomolong Sports Ground) | 04 May 2023 | 1 | 1 | 66 | Yes | N/A |

COMMENT ON THE EFFECTIVENESS OF PUBLIC MEETINGS HELD

Public Meeting are sitting as Scheduled. Ward Councillors are always availing themselves for the meetings. Service delivery issues are being discussed in respective wards by the Ward Councillor together with Community in respective wards. Community members are attending the Public meetings even though the attendance at times is not satisfactory. The Public meetings are effective because Community members are getting the opportunity to discuss service delivery issues that are affecting them.

2.7 IDP PARTICIPATION AND ALIGNMENT

Table 7: IDP Participation and Alignment Criteria

| IDP Participation and Alignment Criteria* | Yes/No |
|---|--------|
| Does the municipality have impact, outcome, input, output indicators? | Yes |
| Does the IDP have priorities, objectives, KPIs, development strategies? | Yes |
| Does the IDP have multi-year targets? | Yes |
| Are the above aligned and can they calculate into a score? | Yes |

| IDP Participation and Alignment Criteria* | Yes/No |
|--|--------|
| Does the budget align directly to the KPIs in the strategic plan? | Yes |
| Do the IDP KPIs align directly to the Section 57 Managers | Yes |
| Do the IDP KPIs lead to functional area KPIs as per the SDBIP? | Yes |
| Do the IDP KPIs align with the provincial KPIs on the 12 Outcomes | Yes |
| Were the indicators communicated to the public? | Yes |
| Were the four quarter aligned reports submitted within stipulated periods? | Yes |
| *Section 26 Municipal Systems Act 2000 | |

2.8 OVERVIEW OF CORPORATE GOVERNANCE

The municipality endeavours to comply with the regulatory frameworks and best practices regarding corporate governance.

This includes the establishment of a risk management function, internal audit unit and independent audit committee and the implementation of fraud and anti-corruption policies and measures.

| No | Governance Structures | Functional? (Yes/ No/ Partial) |
|----|---|--------------------------------|
| 1 | Audit and Performance Committee | Yes |
| 2 | Risk Management Committee | Yes |
| 3 | Audit Steering Committee | Yes |
| 4 | Internal Audit | Yes |
| 5 | Risk Management | Yes |
| 4 | MPAC | Yes |
| 5 | Finance Portfolio Committee | Yes |
| 6 | IDP Portfolio Committee | Yes |
| 7 | Technical Services Portfolio Committee | Yes |
| 8 | LED Portfolio Committee | Yes |
| 9 | Corporate Support Service Portfolio Committee | Yes |
| 10 | Public Safety Portfolio Committee | Yes |
| 11 | Human Settlement & Spatial Planning Portfolio Committee | Yes |
| 12 | Performance Monitoring & Evaluation Portfolio Committee | Yes |
| 13 | Community Services Portfolio Committee | Yes |
| 14 | Local Labour Forum | Yes |
| 15 | Employment Equity Committee | Partial |
| 16 | ICT Steering Committee | Partial |
| 17 | IDP Steering Committee | Partial |
| 18 | Spatial Intergovernmental Steering Committee | Partial |

2.6 RISK MANAGEMENT

Risk Management assist the organization to identify potential risks and threats which can affect the municipality from achieving its objectives.

Risk management assist in implementation of KPI targets as to track the progress made in as far as achieving targets.

Risk management is also embedded into day and day activities.

KEY RISKS

- ✓ Vacancy of Section 56 Managers
- ✓ Lack of proper back-up equipment and software
- ✓ Non eradication and implementation of disaster recovery site and disaster recovery plan.
- ✓ Inadequate cash flow
- ✓ Payments not made within 30 days.

2.7 ANTI-CORRUPTION AND FRAUD

FRAUD

The municipality has reviewed and approved the following strategic documents for fraud:

Fraud Management Policy Fraud Management Strategy Whistle Blowing Policy The municipality has effective Risk Management Committee which is chaired by independent chairperson and the committee sits quarterly.

The municipality has effective Audit Committee which sits quarterly, matters relating to risk management and fraud are standing items in their meetings.

2.8 SUPPLY CHAIN MANAGEMENT

SUPPLY CHAIN MANAGEMENT POLICY TO COMPLY WITH PRESCRIBED FRAMEWORK

Section 112. (1) of the supply chain management policy of a municipality or municipal entity must be fair, equitable, transparent, competitive and cost- effective and comply with a prescribe regulatory framework for municipal supply chain management.

REVIEW OF SCM POLICY

Moqhaka Local Municipality adopted its Supply Chain Management Policy on the 27 February 2007. This was in compliance with Section 111 of the Municipal Finance Management Act (Act No. 56 of 2003).

In compliance with Regulation 3, of reviewing, adoption and amendment of Supply Chain Management Policy, the process of reviewing the Supply Chain Management Policy was completed and approved on 28 June 2022. Both the Political leadership and the management of the municipality have been workshopped on the Policy.

SUPPLY CHAIN MANAGEMENT UNIT

SCM Reg.3 states the following

- Each Municipality must establish a Supply Chain Management Unit to implement its supply chain management policy;
- An SCM Unit must, where possible, operate under the direct supervision of the Chief Financial Officer or an
 official to whom this duty has been delegated in terms of Section 82 of the act.

The Supply Chain Management unit is under the direct supervision of the CFO. There is an organisational structure in place to allow for the establishment of the unit.

However, the structure developed does not allow for the proper establishment of all the elements of supply chain. The Supply Chain Management Unit in terms of the legislation is responsible for the following prescribed functions:

- Demand management;
- Acquisition management;
- Disposal management;
- Logistics management;
- Performance management; and
- Risk Management

ESTABLISHMENT AN ANNUAL PROCUREMENT PLAN

Section 10.2 of the MLM SCM Policy: The Supply chain management shall after consultation with the SDBIP of the municipality, compile a schedule of capital projects in respect of each financial year. The schedule of capital projects must be for a financial year and be reviewed when the IDP is reviewed. During consultations between SCM and all other departments, all reasonable efforts shall be made to determine:

- a. The desired date and time at which a specific project must be awarded;
- b. The desired date and time when the implementation or delivery of goods and services must take place;
- c. The place where delivery must be effected;
- d. The quantity and quality of any goods to be supplied; and
- e. any other relevant matter.

The Range of SCM Threshold is as follows:

PURCHASE VALUE

Petty Cash Up to R2 000 [VAT included]

REQUIRED PROCESS

one (1 verbal quotation from the list of suppliers on the municipal data base Approved by the Head of Department R2001 to R30 000.00 [VAT included]

At least three (3) formal written price quotations (on a rotational basis from the list of suppliers on the municipal data base)

R30 001 to R200 000 [VAT included] Competitive Bidding

At least three (3) formal written price quotations (which will be obtained by the Request for Quotations (RFQ's) seven (7) days advertisements

Over R200 000 [VAT included]

Competitive Bidding Process

Bid Committees

The following bid committees are established to allow for the smooth implementation of the competitive bidding process:

- Bid Specification Committee;
- Bid Evaluation Committee; and
- Bid Adjudication Committee

Members of all bid committees were appointed by the Accounting Officer, (procurement above R200, 000) are dealt with by all three (3) bid committees.

SCM PERSONNEL

There are currently five (5) full time officials employed in the Supply Chain Unit and Six (6) full time officials are at Logistics.

CHALLENGES

- SCM Structure were reviewed to address staff shortages.
- SCM Functions are not yet centralised due to staff shortages.

REPORTING

- All Monthly and Quarterly SCM Reports are submitted on time to Provincial and National Offices for compliance Purposes.
- The municipality only do business with suppliers who is registered on the Central Supplier Database (CSD).

39

The following table provides a view in terms of the deviations that were incurred during the 2022/23 financial year;

| Deviation | Total Paris | | | 1999 | DEVIATIONS SUMMARY | DEVIATIONS SUMMARY | 100 | | |
|-----------|-------------|----------|--------------------------|-------------------------|--|--------------------|--------------|-----------|---|
| No. | Category | Category | Requesting Department | Sub Department | Service Provider | Reference | Amount | Date | Description of Services and/or products required |
| 70 | Hiring | ш | Technical Services | Water and Sanitation | Thibi Projects | SPV-25976 | R 443 800,00 | 18-Jul-22 | Due to the urgent situation of water interruptions caused by the high lift pump which was flooded with water during the replacement of a bulk meter and pipeline in Viljoenskroon water plant. The situation caused the community to be without water for weeks and this contravenes the Water Service Act. Three quotations were attached |
| 03 | Hiring | D | Technical Services | Roads and Stormwater | Wilson & Sons Trucking CC | SPV-28878 | R 234 600,00 | 18-Jul-22 | and the cheapest one selected. No grader was available at the service providers on the panel. The municipality had to hire a grader top prevent serious accidents that cause injury to the community. Three quotations were attached and the cheapest |
| m | Hiring | D . | Technical Services | Roads and Stormwater | Wilson & Sons Trucking CC | SPV-39652 | R 259 440,00 | 18-Jul-22 | one selected. No grader was available at the service providers on the panel. The roads were inaccessible after the heavy rain. This is huge danger to the community. Three quotations were attached and the cheapest |
| 2 | Hiring | ш | Technical Services | Water and Sanitation | Uwandle Lwandlie Trading and Projects | SPV-38553 | R 201365,00 | 18-Jul-22 | Roads needed to be graded due to heavy rains. It was getting dangerous for the community as water was flooding in their homes. Some artificial to schools and grave sites also required grading. Three quotations were attached and the cheapest one |
| 93 | Anti-Virus | D | Corporate Services | ਹ | Netsec | SPV-26265 | R 416 132,67 | 02-Aug-22 | selected. The anti-virus has expired prematurely. The initial calculation of the anti-virus period included the 3 months trail we were provided by MALWAREBYTES when we tested the software. This has unfortunately fallen short with one month. We therefore urgently need to renew our anti-virus software licence, to prevent any evaluity or data local. |

| සි | Accommod ation | - | Corporate Services | Human Resources | Size Khaya | SPV-36353 | R 36 000,000 | 04-Aug-22 | The urgency of the matter was such that the Provincial Government nominated/seconded the Acting Municipal Manager for appointment. It follows from this urgent appointment that the Acting Municipal Manager had to be accommodated in Kroonstad on a short notice. The usual procedure is that employees be accommodated in Kroonpark. This procedure could however not be followed in this instance because of bookings done in Kroonpark, such as for the "Bokkieweek" where the whole of Kroonpark was booked for more than a week. The accommodation in Kroonpark was not suitable for the Acting Municipal Manager also taking into account his physical height. The suitable accommodation was then arranged on the urgent basis as indicated above, for the Acting Municipal Manager in 1ze Khaya Guest Lodge. You are kindly requested to effect payment for the duration of the Acting Municipal Manager's stay at 1ze Khaya Guest Lodge. |

2.10 WEBSITE

A municipal website http://www.moqhaka.gov.za/ is a key communication mechanism in terms of service offering, information sharing and public participation and should be an integral part of a municipality's communication infrastructure and strategy. It serves as a tool for community participation, improves stakeholder involvement and facilitates stakeholder monitoring and evaluation of municipal performance. Section 75 of the MFMA requires that the municipalities place key documents and information on their website, including the IDP, the Annual Budget, Adjustments Budgets and budget related documents and Policies.

Below is a website checklist to indicate the compliance to Section 75 of the MFMA:

Table 10: Municipal Website: Content and Currency of Material

| Municipal Website: Content and Currency of Material | 2021/22 | 2022/23 |
|--|----------|-------------|
| Documents published on the Municipality's / Entity's Website | Yes / No | Yes / No |
| Current annual and adjustments budgets and all budget-related documents | Yes | Yes |
| All current budget-related policies | Yes | Yes |
| The previous annual report | Yes | Yes |
| The annual report (2022/23) published/to be published | Yes | Yes (Draft) |
| All current performance agreements required in terms of section 57(1)(b) of the Municipal Systems Act (2022/23) and resulting scorecards | Yes | Yes |

| All long-term borrowing contracts | No | No |
| All supply chain management contracts above a prescribed value (give value) for 2022/23 | Yes | Yes |
| An information statement containing a list of assets over a prescribed value that have been disposed of in terms of section 14 (2) or (4) during Year. | No | No |
| Contracts agreed in 2022/23 to which subsection (1) of section 33 apply, subject to subsection (3) of that section | No | NO |
| Public-private partnership agreements referred to in section 120 | N/A | N/A |
| All quarterly reports tabled in the council in terms of section 52 (d) | Yes | No |

COMMENT ON MUNICIPAL WEBSITE CONTENT AND ACCESS

The municipality's website is managed and maintained by the ICT Section. The content management and updating of the website is done by internal ICT staff.

2.11 PUBLIC SATISFACTION ON MUNICIPAL SERVICES

Although no official surveys were undertaken by the municipality the inputs from the community on service delivery issues were received through platforms such as the IDP and budget public participation processes.

These platforms were successful in communicating with the public on key issues of inter alia service delivery and were noted accordingly.

Table 11: Satisfaction Surveys undertaken

CHAPTER 3 – SERVICE DELIVERY PERFORMANCE (PERFORMANCE REPORT PART I)

INTRODUCTION

The purpose of this chapter of the report is to provide information on service delivery on a service-by-service in line with the approved Integrated Development Plan (IDP) and Service Delivery and the Budget Implementation Plan (SDBIP) of the municipality for the 2022/23 financial year. This chapter therefore aims to demonstrate what has been achieved and what remains outstanding as initially planned in terms of the Municipality's IDP.

COMPONENT A: BASIC SERVICES

For the year under review, the Municipality continues to make significant strides in extending access to basic services such as water; wastewater (sanitation); electricity; solid waste management; roads, storm water and housing services, to its communities. Various service delivery targets have been set in the municipality's IDP to ensure that access to basic services is realised in line with the National Government's target dates. Free basic services are provided to indigent households according to the municipality's Indigent Policy. These includes 10kl of water, 50kWh electricity, free sanitation and refuse removal per month.

Strategic objectives are set out in planning and budgeting tools such as IDP and SDBIP in order to properly plan and achieve targets. Priority areas regarding basic service delivery are as follows:

- Access to water.
- Water loss,
- Water quality,
- Access to sanitation,
- Access to electricity,
- Energy efficiency,
- Access to refuse removal,
- Access to municipal surfaced roads,
- Storm water management.

The Municipality achieves the provision of basic services through the integrated planning, development and management of infrastructure assets as indicated below:

1. Water and waste water services

- Water purification plants,
- Water storage dams,
- Water reservoirs,
- Water and sewage reticulation networks,
- Sewerage treatment plants,
- Water and sewer pump stations.

2. Electricity

- Electricity distribution,
- Electricity network maintenance and upgrading,
- Electricity consumption care and metering,
- Public lighting.

3. Solid waste management

- Refuse removal,
- Street cleansing,
- Management of public ablution facilities,
- Management and maintenance of landfill sites.

4. Roads, storm water, railways and public works

- Roads design, construction
- Maintenance of paved roads
- Maintenance of gravel roads,
- Maintenance of storm water drainage system,
- Construction of new storm water drainage systems,
- Railway sidings and maintenance and safety permit applications,

Bridges and culverts.

3.1. WATER PROVISION

INTRODUCTION TO WATER PROVISION

Municipalities have a Constitutional responsibility for providing sustainable and viable water services to the communities within their areas of jurisdiction. Moqhaka local municipality is both a Water Services Authority (WSA) and a Water Services Provider (WSP). According to the Water Services Act No. 108 of 1997, Water Services Authority means any municipality, including a district or rural council responsible for ensuring access to water services. The WSA is both the owner of the works and is the elected representative of the customers. The Water Services Provider (WSP) means a person or organization that provides water services to the consumers or to another water services institution.

Water supplied by water services providers intended to be used for drinking or domestic purposes (potable water) must be of a quality consistent with SANS 241(Specifications for Drinking Water), as may be amended from time to time.

Basic water supply facility is:

The infrastructure necessary to supply 25 litres of potables of water per person per day supplied within 200 metres of a household and a minimum flow of 10 litres per minute (in the case of communal water points) or 6000 litres of potable water supplied per formal connection per month (in case of yard or house connections).

The top three priorities for water provision are:

- 1. Sufficient water supply for communities.
- 2. Connections to individual stands with provision for indigents.
- 3. Provision of water within legal requirements (Drinking water standard SANS 241 standards).

The challenge in water supply remains the balance between the available raw water and demand from the community. Although we have three dams and one weir in the Vals River with an off channel storage dam in Kroonstad and off channel storage dam in Steynsrus. The Renoster River in Viljoenskroon is utilised to augment the water from the Vaal River when required, however we still have a challenge when flow in the river is minimal as in the case of a drought or even low rainfall during certain times of the year.

The municipality through DWS funding has construction 4 km pipeline on the 11th Avenue Brentpark which is 90% completion to ensure continuous and reliable water supply for Brentpark, under the same projects the is replacement of sluice gate at Bloemhoek Dam.

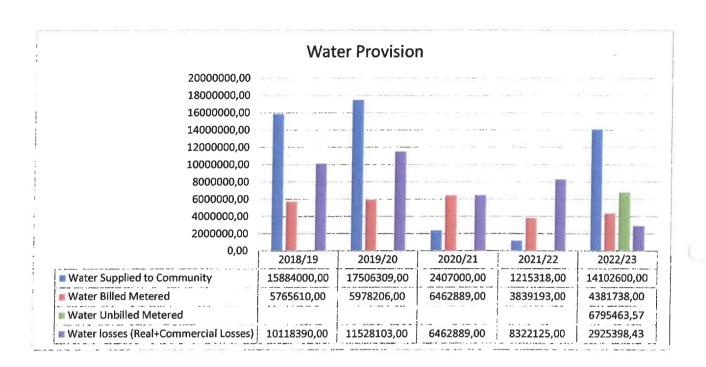

Municipality through MIG is currently implementing water supply projects for Phomolong to ensure consistent water supply in the area.

Municipality refurbished Kroonstad activated sludge plant to ensure compliance with the discharge effluent under phase 1.

Phase 2 of the BNR plant is currently under refurbishment with DWS RBIG funding.

Municipality is complying with drinking water standards and sans241 as set by the Department of water and sanitation regulations.

All formal areas of Moqhaka available for occupation are provided with water networks for pre-installed connections and consumers moving onto unconnected stands are connected on application

Graph 2: Total use of water

COMMENT ON WATER USE BY SECTOR:

Water demand currently exceeds the supply in both Steynsrus as well as Viljoenskroon due to the following:

- 1.In Steynsrus the raw water supply from the Vals River is affected by the fact that the seasonal flow in the river is unreliable and the limited raw water storage capacity in the off channel storage dam cannot keep up with the demand that originated from the installation of waterborne toilets in Matlwangtlwang.
- 2. In Viljoenskroon the placement of residents in the Northleigh is placing pressure on the water supply as the treatment works can only provide a limited volume of water thus placing the supply under pressure and impacting on supply and pressure. Because of these some high lying areas are without water during certain periods of the day the municipality is completed a pressure tower project to address the water demand in high laying areas, however raw water source is still a challenge as a results the municipality is unable to fill the pressure tower.

The Municipality is currently on tender process for upsizing of raw water pumps, equipping of boreholes and package plants for augmentation of water supply to the tower, the project will address the water challenges in high laying areas.

3. In Kroonstad the Raw water source is not a problem, the only challenge is that the is no 48hr storage in case of water interruptions caused by pipe burst or power outage.

COMMENT ON WATER SERVICES PERFORMANCE OVERALL:

The Municipality is continuously replacing faulty and leaking water meters through repairs and maintenance budget in an effort to eliminate water losses and to enhance revenue.

Replacement of 4km AC pipeline to HDPE pipeline in Brentpark 11th Avenue and repair of sluice gate in Bloemhoek dam.

The municipality is continuously replacing of Asbestos pipe with UPVC to reduce the water loss, through operation and maintenance budget.

3.2 WASTEWATER (SANITATION) PROVISION

INTRODUCTION TO SANITATION PROVISION

MLM residents enjoy 99% sanitation service coverage and 100% water service provision. In alignment with the National Policy and Emergency Housing Service Guidelines, the municipality met the minimum level of service for sanitation. These is included in the provision of a basic sanitation infrastructure facility necessary to provide a sanitation service which is safe, reliable, private, protected from the weather, ventilated, keeps smells to the minimum. It is easy to keep clean, minimises the risk of the spread of sanitation-related diseases by facilitating the appropriate control of disease-carrying flies and pests, and enables safe and appropriate treatment and/or removal of human waste and wastewater in an environmentally sound manner.

Sanitation needs are determined via the consumer base on the ground. Blockages and spillages are monitored, and future needs are based on results. Further inputs from the community and political offices are compared with departmentally identified issues and included in the IDP as needed. National government targets are also included in future planning.

The top three priorities with regards to sanitation are:

- 1. Access to sanitation for all
- 2. Connections to individual stands
- 3. Reduction of spillages

MLM has taken great efforts towards the reduction of spillages, through the replacement of several collapsed sewer pipelines and refurbishment/upgrading of sewer pump stations. The municipality has completed phase 1 refurbishment Kroonstad activated sludge plant funded by WSIG (DWS) in 2022/23 financial year, the is the collapsed pipeline that is connecting to the pump station will be replacement under phase 2 refurbishment of Kroonstad BNR project. Again, through DWS WISG funding the municipality completed the refurbishment

projects of Wastewater Treatment Works Activated sludge plant. The Municipality is currently implementing the replacement of 1075m of collapsed sewer line in Caswell Koe Koe funded by MIG which 90% completion. Efforts have been made to source funding for phase 2 refurbishment of Kroonstad BNR WWTP which is currently under refurbishment to ensure compliance for discharge effluent.

COMMENT ON SANITATION SERVICES PERFORMANCE OVERALL

The biggest challenge about sanitation is frequent sewer spillages as a result of foreign objects thrown into the sewer network, collapsed sewer pipes, and malfunctioning sewer pump stations. These spillages pose health risks to the surrounding communities of Moghaka and also pollutes the water resources.

In order to eliminate the backlog related to access to sanitation in formal areas of Moqhaka, a project funded and implemented by Rand Water Foundation for the past three financial years for the installation of on-site dry sanitation toilets in Rammulotsi and Matlwangtlwang. This type of sanitation technology is especially suitable in areas that experiences water shortages such as Steynsrus. The municipality has appointed a consultant to perform full assessment in order to source funding for upgrading of WWTP to the latest technology and also accommodates new developments.

3.3 ELECTRICITY

INTRODUCTION TO ELECTRICITY

The Municipality as a Service Authority within its area of jurisdiction has a Legislative Mandate to provide services in a safe and healthy environment. The Electricity section is also responsible for the operation, maintenance, extension, and upgrading of the infrastructure. In so doing it promotes and catalysis the economic development within the area. Service provision is mainly the development, extension, and maintenance of infrastructure. However, the municipality has an infrastructural base that is in a state of decay, with a large percentage of aged and outdated technology. The backlogs in terms of maintenance and upgrading are colossal and the available resources are simply not adequate for the task.

CORE RESPONSIBILITIES

- Providing quality and uninterrupted supply of electricity to all domestic, business, industrial and rural consumers within its area of distribution.
- Maintaining the electricity distribution network to adhere to the prescribed standards.
- Upgrading of the electricity distribution network to accommodate population growth as well as business and industrial development.
- Monitoring the electricity consumption of consumers by means of effective metering and visual inspections to minimize electricity losses.
- Maintaining all public lighting and traffic lighting.
- Providing accurate feedback to the monitoring authority National Energy Regulator South Africa (NERSA)
 pertaining to the quality of service and quality of supply to adhere to license conditions.

During the 2022/23 financial year, the Electricity Section has addressed various challenges mainly relating to the high and medium voltage supply, reticulation, public lighting, and house connections. Due to insufficient resources such as budget, personnel, vehicles, and equipment such as vehicles, etc., the routine maintenance of the existing infrastructure is neglected which is a major concern. Note must be taken that with the scarce resources available the following objectives were achieved:

- Replacement of faulty meters,
- New electricity connections,
- Attending to general daily complaints,
- Maintenance of public lighting.
- Maintenance and repairs to low, medium, and high voltage network

COMMENT ON ELECTRICITY SERVICES PERFORMANCE OVERALL

The Electricity Section consists of three (3) Divisions namely Distribution, Consumption Care, and Administration/Technical Support. One hundred and sixty-five (165) positions are on the organizational structure of this Section although only 28% of the positions are currently filled.

The operation of the Electricity Section is entirely dependent on the annual operating budget allocation, with electricity sales as the main source of income.

Projects such as the installation of high mast lights are funded by the Municipal Infrastructure Grant (MIG). Electrification projects and bulk upgrades such as the high voltage 66kV overhead line project (from Main- to South Substation) are funded by the Department of Mineral Resources and Energy (DMRE). The Municipality did receive funding of R1,500,000.00 from DMRE for the Electrification of Maokeng Extension 10 for the 2021/22 financial year. The materials were bought in the 2021/22 financial year and due to a shortfall, the project was completed on 14 December 2023 with own funding that was refunded by DMRE.

| DESCRIPTION | QUANTITY | | | |
|----------------|-----------|--------------|--|--|
| Area | High mast | Streetlight | | |
| Brentpark | 5 | 245 | | |
| Maokeng | 73 | 1469 | | |
| Kroonstad | 1 | 4054 | | |
| Viljoenskroon | 3 | 490 | | |
| Rammulotsi | 37 | 15 | | |
| Steynsrus | 1 | 198 | | |
| Matlwangtlwang | 14 | 0 | | |
| Total | 134 | 6471 | | |
| Traffic Lights | | 20 crossings | | |

Meters go faulty daily due to weather conditions, tampering, etc. The frequency of bypassing/replacing these meters is very high. Inspections are done daily (on request of the Finance section, tipoff from the community, and random spot checks). A fine system is used for tampered meters. In total 1 534 meters were inspected/repaired/replaced. The high maintenance cost of electronic energy meters may affect the income of the Municipality negatively.

Constraints:

- A serious shortage of vehicles (Mechanical problems with vehicles and standing time involved. The average age of the vehicles is more than 20 years).
- A serious shortage of staff. Overworking of staff due to staff shortages, in turn, negatively impacts the health of employees.
- A serious shortage of materials (including minimum stock items at Stores) and equipment.
- Lengthy processing time of requisitions and vouchers, and non-availability of funds to purchase materials and pay service providers.
- Vandalism, theft, and attempted theft of cable and transformers, in addition, the damage to the network extends much further than only the portion of cable or equipment that was damaged and, in some cases, requires specialized repairs.
- Aged and outdated infrastructure.
- A backlog of replacement of faulty/tampered meters and new installations (assistance of Service Providers reduced the backlog).
- Insufficient funding for capital projects.
- Insufficient funding for general maintenance and repairs.
- High-risk working environment and conditions.
- Risk of service disruptions due to aged and outdated infrastructure.
- Risk of losing grant funding due to slow procurement processes.

The above-mentioned constraints all influenced service delivery negatively due to additional workload, unproductive standing time, the long waiting period for spares and equipment, and limited preventative maintenance hence unnecessary and unavoidable damage to the infrastructure.

The municipality only maintains the electricity services in the municipality's area of responsibility for which the municipality holds the license. All households (including the ESKOM distribution area) that have access to electricity are 34 644 (25 797 Municipal area).

3.4 WASTE MANAGEMENT

INTRODUCTION TO WASTE MANAGEMENT

The Solid Waste Management mandate is derived from Chapter 2, Section 24 of the Constitution of the Republic of South Africa, 1996 (Act 108 of 1996). The National Environmental Management: Waste Act (NEMWA), 2008 (Act 59 of 2008) is the core legislative guide for the delivering a quality Solid Waste Management service. The Section is comprised of the following divisions; Refuse Removal, Street Cleansing, Public Toilets and Landfill sites.

VISION

To create a better environment, activate cooperation between the municipality and the community towards better solid waste management, protection and sustainability of the environmental and natural resources, and contribute to improve the quality of life.

MISSION

Optimal use of resources, building capacity to contribute into sustainable development, development of policies to improve the level of services by addressing the challenges of solid waste management, and promote community awareness and partnerships.

COMMENT ON THE OVERALL PERFORMANCE OF WASTE MANAGEMENT SERVICES

Due to continuous breakdowns and shortage of vehicles, the service of hired refuse compactor trucks has been extended to Viljoenskroon. Two (2) refuse compactor trucks have been hired. The 2 hired trucks in Viljoenskroon have proved that if the municipality can procure its own vehicles for refuse removal there would be a drastic reduction of overtime. As hiring of vehicles is not a solution, finances have been put aside for the procurement of refuse compactor trucks in the 2022/23 financial year. With the assistance of the Acting Chief Financial Officer, 2 trucks have already been procured in the current financial year.

The municipality can pride itself that it manages to do refuse removal on daily basis but that is not sufficient. There must be enough refuse compactor trucks to remove the refuse within the shortest time on daily basis. The refuse that is left in the streets for the whole day becomes a favourable place for vectors and contributes to the illnesses caused by filthy environment.

The serious shortage of vehicles causes the refuse removal section to have very high overtime. This is a serious challenge as it leads to burnout on employees. The only unit that does not have overtime is Steynsrus. The Unit Manages to finish the day's work within normal working hours. We are still experiencing challenges with the use of non-compliant refuse receptacles, mainly in Matlwangtlwang and Rammolutsi.

MISA Innovative Solid Waste Management Project

The Municipal Infrastructure Support Agency (MISA): Innovative Solid Waste Management Project is a project that ran for four (4) months in the municipality starting in December 2022. Moqhaka Municipality was one (1) of the 4 municipalities that were identified to benefit from the project. KhaboKedi Waste Management was the

appointed Project Implementor. About four hundred beneficiaries were appointed to benefit from the project. Together with the beneficiaries, there were also Small, Medium and Micro Enterprise (SMME) businesses that were appointed. 2 SMMEs were appointed per town, 1 to remove illegal dumping and the other to remove waste and recyclables collected by the beneficiaries.

Each Ward had around seventeen beneficiaries and amongst the beneficiaries, there were Public, Information, Education and Relations (PIER) groups. The work of the groups was to do awareness in the areas that were going to be cleaned or were cleaned. These beneficiaries did a sterling job when their contracts were still in place. Figure: 2 below shows the PIER Educators in action.

Figure 4: PIER Educators doing Awareness Education at different premises.

The areas where very serious challenges were experienced are the collection of waste and the removal of illegal dumping by the SMMEs. This caused challenges because the SMMEs were allowed to only work 2 days a week for 4 hours a day while the beneficiaries were working five (5) days a week, which was later reduced to 4 days. This meant that the beneficiaries collected waste which would stand in the streets for days before being removed. This ended up being an opportunity for the community to empty the bags standing in the streets and taking the bags for themselves.

Cleaning of Towns

This is a project that ran for a period of three (3) months starting in January 2023 through the Department of Economic, Small Business Development, Tourism and Environmental Affairs. Steynsrus is the town that was identified and participated in the project. Twenty (20) beneficiaries were appointed for the project.

Street Cleansing

The Street Cleansing section is doing well with the limited staff they have. The only challenge is the street refuse receptacles that are frequently getting stolen. Where a plan has been made to secure the receptacles it becomes a challenge to empty and clean them.

LANDFILL SITES

Consultants have been appointed for the relocation of the Kroonstad Landfill Site. The relocation will follow all the required legal processes. A service provider has also been appointed for the fencing of the Kroonstad landfill site. The fact that it will be decommissioned means that it must be left in a secure state to avoid illegal use of it. The decommissioning will be a process; it might take longer that the envisaged time.

The new landfill site will be operational soon, before the end of 2023. The rehabilitation of the old landfill has already started. Figure 1 below shows progress at the new landfill site in Viljoenskroon.

Figure 2: Pictures showing progress at the new landfill site in Viljoenskroon

The permit of the Steynsrus landfill site has successfully been converted to licence with the help of the Department of Water and Sanitation, Department of Forestry, Fisheries and the Environment (DFFE) Local Support and DESTEA.

ILLEGAL DUMPING

Illegal dumping remains a continuous challenge in the entire municipality. A service provider has been appointed to assist with the removal of illegal dumping spots. It is disappointing that the spots that have been recently cleaned got polluted with illegal dumping within a few days of being cleaned. The "No Illegal Dumping" board are continuously being planted but get vandalized and stolen by the community.

Figure 3 below shows illegal dumping being remove.

3.5 HOUSING

INTRODUCTION TO HOUSING

The National Housing Needs Register (NHNR) has registered about 18 627 housing needs for Moqhaka Municipality. NHNR is a central database that offers households the opportunity to register their need for adequate shelter by providing information about their current living conditions, household composition & to indicate the type of housing assistance they require from government. Previously Municipalities used waiting lists to capture the housing demand and Moqhaka Municipality's housing waiting list goes as far back as 2006. The waiting lists were successfully exported into the National Housing Needs Register as the single recognized database for registered needs countrywide. There have not been significant strides made to decrease this housing need, particularly in the Kroonstad/Maokeng town.

The Census Statistics is another set of data that can be used for planning purposes. It should be noted that the 2021 Census was concluded in 2022, however, not published. This data will also provide close to accurate

statistical information in as far as the housing need is concerned (using the number of informal dwellings/traditional dwellings/backyard dwelling and other).

The trend has also been that the household size is shrinking this could cause an increase in the housing backlog/need within the municipality.

The Moqhaka Municipality is in a process of being Accredited to Level 1 by the National Department of Human Settlements. Currently the municipality is dependent on housing or top structure allocations made annually by the Free State MEC for Human Settlements. These allocations are funded and administered by the Free State Department of Human Settlements through a conditional grant called the Human Settlements Development Grant (HSDG).

Moqhaka Local Municipality is at pre-assessment phase, conducted by National and Provincial official, this also included self-assessment by the municipality. The main aim of this process is to provide a transparent and uniform basis for MECs responsible for Human Settlements to make decisions as to whether a municipality applying for accreditation meets the qualifying criteria as outlined in the National Accreditation Framework of 2017.

Table 35: Households - Access to basic housing

OVERALL PERFORMANCE OF HOUSIING FUNCTION

The Section managed to achieve a lot of set targets in the year under review 2022/23 through the following developmental activities.

TITLE DEEDS RESTORATION PROGRAMME

The Title Deeds programme performed well as compared to the previous financial years. This gesture is aimed at restoring the dignity, through land and property ownership to the previously disadvantaged communities.

Number of Title Deeds Issued

| QUARTER (2022/23) | NUMBER OF TITLE DEEDS ISSUED |
|------------------------------------|------------------------------|
| Quarter 1: July – September 2022 | 903 |
| Quarter 2: October – December 2022 | 446 |
| Quarter 3: January – March 2023 | 208 |
| Quarter 4: April – June 2023 | 0 |
| TOTAL | 1 557 |

In trying to redress the injustices of the past, the Municipality has ensured the accelerated issuing-out of title deeds in the reporting period and the commitment is anticipated to be sustained in the ensuing reporting periods.

The following number of title deeds were issued out as part of promoting security of tenure:

The section through its consumer education programmes specifically targeted at title deeds and the processes involved continues to raise awareness around succession issues in the case where the registered title deed's rightful owner is late, the families most of the time fails to conclude the estate of the late (to which the title is registered). By implication, the title would not be issued to the surviving family members.

Informal Settlements Upgrading

The MLM, with the assistance of the Free State Department of Human Settlements and the Housing Development Agency (HDA), identified and recognised 7 informal settlements (Brickfield and Marabastad is combined on the

tale) within the municipal area of jurisdiction, and developed an informal settlement upgrading programme (refer to table below). The latter recommended that these settlements be relocated as they are located in areas that are unsuitable for the development of human settlements.

| INFORMAL SETTLEMENTS | NO OF HOUSEHOLD | FARM/TOWNSHIP |
|---|-----------------|--------------------------|
| Brickfields/Marabastad informal Settlement | 227 | Maokeng/Kroonstad |
| Block A informal Settlement | 44 | Matlwangtlwang/Steynsrus |
| Block B informal Settlement | 99 | Matlwangtlwang/Steynsrus |
| Block C informal Settlement | 22 | Matlwangtlwang/Steynsrus |
| Block D informal Settlement | 25 | Matlwangtlwang/Steynsrus |
| Block E informal Settlement | 15 | Matlwangtlwang/Steynsrus |
| Total | 432 | |

Informal Settlements in Moghaka

The two towns that requires upgrading are Matlwangtlwang in Steynsrus that consist of 205 households and Brickfield and Marabastad consisting of 227 households.

There is a clear plan underway of creating sites in Matlwangtlwang for the upgrading of informal settlements, through consolidation, rezoning and subdivision of erf 1396 and erf 3358 Matlwangtlwang, respectively. The prospective project is envisaged to yield about 103 sites which will potentially absorb all the three (3) informal settlements in the area.

ALLOCATION OF SITES

In the main, lack of bulk infrastructure (in most areas) and reticulation has been the biggest impediment to enable the Municipality to allocate sites. The provision of top structures across different housing programmes (BNG, Military Veterans, Social and Rental Housing) remains the competency of the Provincial Department of Human Settlements through Human Settlements Development Grant (HSDG). The implementation of the mentioned housing programme by the Department has been few and far between.

The Free State Provincial Department of Human Settlements is responsible for the servicing of Maokeng Ext 10 and 13 with a total of 5126 residential sites utilising the Human Settlements Development Grant.

Additional areas were identified in Kroonstad town, Viljoenskroon and Steynsrus for those who can afford to build for themselves to purchase the erf/erven. The municipality is responsible for the servicing of identified planned and pegged areas:

| Area | Number of Sites Available Planned and Pegged | Number of Sites Installed with Water and Sewer | Number of Sites Allocated | Outstanding Sites | Challenges |
|-------------------------|---|--|------------------------------|----------------------|--|
| ELANDIA | 200 | 50 | 50 | 150 | 24 Sites installed with water 126, sites no water and sewer installed |
| TUINHOF | 109 | 20 | 20 | 89 | 89 sites, no water and sewer installed |
| HEUWILSIG | 167 | 0 | 0 | 167 | Insufficient Bulk infrastructure. 167 no water and sewer installed |
| VILJOENSKROON (TOWN) | 109 | 0 | 0 | 109 | 109 sites, no water and sewer installed |

Matwangtlwang/Steynsrus has major challenge of water supply mainly from the source. This has an implication in the development of the town and consequently the economic development of the town. There are 831 sites where township establishment is completed, however, the installation cannot take place due to the challenge sighted above. This also poses a challenge on allocation of sites for professionals. There is a high demand of sites for professionals that can unlock revenue for the Municipality.

MUNICIPAL ACCREDITATION PROGRAMME

Moqhaka Local Municipality is one of the five (5) municipalities identified in the Free State to apply for level 1 accreditation. The Accreditation Business plan (ABP) for Moqhaka has been prepared and approved by Council in December 2018. The pre-assessment process is an advanced stage and supporting documents (POE) are ready for submission. The vacancies that exist in the Housing Section were filled. The organogram of the Housing section is depicted in the ABP.

Between the financial years 2021/22 and 2022/23 a total amount of R 3 447 303.10 has been transferred to Moqhaka LM through the Municipal Accreditation Support Programme.

The Municipality has made great strides in demonstrating commitment to this programme.

The following activities has unfolded in the period of the past four (4) years:

- Municipality was instrumental in the concluding a comprehensive Accreditation Business Plan (ABP) with clear recommendations, endorsed by Council (30 January 2019);
- The Free State Provincial Department of Human Settlements (FSHS), through the Housing Development Agency procured computer equipment (desktops, laptops) as part of the gaps identified in the ABP;
- Establishment of a fully-fledged Housing section through appointment (in 2021) of staff (Clerks, Data Capturers);
- Compilation of the Housing Sector Plan by the HDA and FSHS, adopted by council;
- FSHS intensified capacity building of the new appointees and existing staff with short courses and trainings/workshops (such as, NHNR, HSS, Housing Policy, Training the Trainer Programme for Consumer Education, Basic Computer Skills Training).
- Establishment of the Accreditation Steering Committee appointed by the Municipal Manager comprising of Acting Directors.

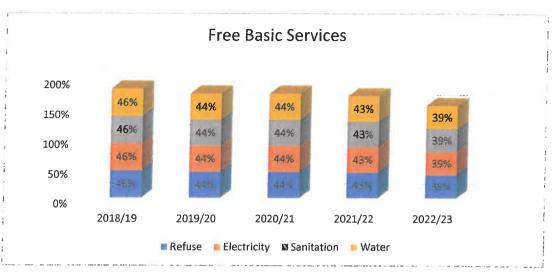

The National Department of Human Settlement, SALGA, and Provincial Department of Human Settlements has planned to externally assess the Municipality in the current financial year (2023/24). The appointment of the Municipal Manager and consequently Senior Managers has provided the Department of Human Settlements with confidence that the Municipality will reach a point of stability.

3.6 FREE BASIC SERVICES AND INDIGENT SUPPORT

INTRODUCTION TO FREE BASIC SERVICES AND INDIGENT SUPPORT

The municipality provides 10kl of water per household per month, free sanitation and refuse removal as well 50 kWh units of electricity per indigent household per month. There is also Property Rates exemption for properties with a valuation of R200 000 and lower.

The policy on the indigent households extends to the child headed families and any other households with circumstances that may be approved in terms of the policy to try alleviate the poverty the households find themselves in.

COMMENT ON FREE BASIC SERVICES AND INDIGENT SUPPORT:

The municipality allocates free basic water to indigent households only. All households qualifying for the Indigents Subsidy Scheme should be on prepaid electricity meters. If not, the electricity meter gets changed from a conventional meter to prepaid at no cost to the household. Indigents consuming more water than the subsidy allocates should have their electricity meters blocked or supply restricted. Properties with a higher municipal property valuation than subsidized value, are expected to pay for the excess charge/billing in property rates & taxes. The number of registered indigent households at 30 June 2023 was 13 310.

Graph 7: Registered Indigents

COMPONENT B: ROAD TRANSPORT

INTRODUCTION TO ROAD TRANSPORT

Moghaka Local Municipality's roads consist of a total length of 581km.

Moqhaka Local Municipality's roads network consist of the following:

SURFACE TYPES

Flexible pavement: A flexible pavement yields "elastically" to traffic loading. It is constructed with a bituminous-treated surface or relatively thin surface of hot-mix asphalt over one or more unbound base courses resting on a subgrade. (Black-Top roads). The total length of flexible pavement roads amounts to 257km

Gravel road: An unpaved road is a type of road surfaced with gravel that has been brought to the site from a quarry. They are common in less developed towns, and in the rural area. Total length of gravel roads amounts to 278km

Blocked pavement: Block paving also known as brick paving is a commonly used decorative method of creating a pavement. These blocks are used also in road surfacing. The bricks are typically made of concrete or clay though other composite materials are also used. Total length of block paved roads amounts to 46km.

Table 41: Kilometre Roads in Moqhaka

3.7 ROADS

INTRODUCTION TO ROADS

The Roads and Storm Water Section is responsible for the maintenance of a total length of 582 km roads in the Moqhaka Local Municipality's area. These roads include gravel roads, brick-paved roads, and tarred roads. The Roads and Storm Water Section is specifically responsible for the maintenance of 278km of gravel roads with limited yellow machines and Tipper trucks. The Section is also responsible for the maintenance of 257 km of tarred roads with only three patch teams, which must also assist with the transport of water to the community. The Section must also maintain 46.4km paving bricks roads without any qualified person appointed.

The Roads and Storm Water Section is also responsible for the maintenance of all storm water systems, which includes cleaning storm water channels in Vlei areas, storm water pipes and concrete V-drains. The municipality maintains 6.286km of railway lines.

COMMENT ON THE PERFORMANCE OF ROADS OVERALL

The Roads and Stormwater section has performed to it best ability in the financial year, having reached its set target under the circumstances we had of not having all the tools of trade more the yellow and white fleet and operating under stuffed, 54 out 152 personnel.

Maintenance work was properly planned, supervised and quality control measures were implemented with proper record keeping. The Road Section concentrated the road maintenance on main routes, roads around schools, roads around churches and businesses. The Roads Section also ensure all roads are accessible for vehicles in all three towns.

The Road Section assisted the community on a weekly basis with road maintenance where funerals and weddings took place.

All roads were visually inspected, and a visual assessment was done for each road according to the Technical Methods for Highways (TMH) engineering guidelines, reviewed by a Consultant Engineers appointed on a GIS system by the RRAMS project which was funded by the District Municipality. This inspection results were used for planning of road maintenance and a Road Maintenance plan was submitted with the IDP to Council.

Capital projects are planned from information accessed from IDP and RRAMS. For any Capital projects planned for the financial year, the business plans are submitted to Provincial or National Sector Departments to apply for funding to implement projects.

The Roads Section hired out the equipment as and when needed to improve service delivery. The Road maintenance teams also worked overtime to catch up with backlogs.

3.8 TRANSPORT

The municipality does not perform this function.

3.9 WASTE WATER (STORMWATER DRAINAGE)

INTRODUCTION TO STORMWATER DRAINAGE

The Municipal storm water network consists of the following types of storm water systems.

- 1) Underground storm water pipes
- 2) Open concrete V-channels
- 3) Open soil storm water channels

Maintenance was done on all types of storm water system, but challenges are shortage of funds and equipment to address the backlogs.

COMMENT ON PERFORMANCE OF STORMWATER DRAINAGE OVERALL

The Technical Department did maintain the storm water network, but there are still some areas which needs urgent upgrades. Business plans will be compiled and sent through for funds application for the National and Provincial Sector Departments.

COMPONENT C: PLANNING AND DEVELOPMENT

INTRODUCTION TO PLANNING AND DEVELOPMENT

This component includes Planning and Local Economic Development.

3.10 PLANNING

INTRODUCTION TO PLANNING

The planning landscape in South Africa changed during 2013 with the promulgation of the Spatial Planning and Land Use Management Act, 2013 (No 16 of 2013), also referred to as SPLUMA. In terms of this Act Local Governments became and forthwith were the authority of first instance and all development application must be considered on local level by the Municipal Planning Tribunal and Authorised Official, whereas in the past this type of applications was considered by the provincial authorities. The Act was, however, only made effective with effect from 01 July 2015. No applications could, however, be received and/or considered before the Municipality's by-laws on Planning were in place. These by-laws were promulgated in the Provincial Gazette of 27 November 2015 and since then the new era of planning started in Moghaka.

The Spatial Planning Department is striving to ensure that the long-term planning of the Municipality caters for the development of the town along the five SPLUMA development principles mentioned in Section 7 of SPLUMA, viz spatial justice, spatial sustainability, efficiency, spatial resilience and good administration. This ensures that the Municipality not only grows in population, but also develops an economy that can sustain the growth in numbers.

The six top priorities of the Spatial Planning Department are to -

- (i) compile and maintain a Spatial Development Framework (SDF), which encapsulates the long-term spatial vision of the Municipality.
- (ii) compile and maintain a Land Use Scheme (LUS), which governs the use of each parcel of land situated in the jurisdiction area of the Municipality.
- (iii) attend to all land use and development applications to ensure development and growth is not neglected.
- (iv) attend to building plans on a continuous basis to ensure the continuous growth and development of the Municipality.
- (v) to attend to outdoor advertisement to ensure the aesthetic outdoor space of the municipality is properly managed and maintained; and

(vi) develop an Integrated Transport Plan, which will bring the harmonious integration between the land use planning and the transport system.

Both the SDF and LUS has been compiled, public participated, approved by Council and subsequently promulgated on 06 December 2019. The SDF also gets reviewed on an annual basis during the Budget and IDP public participation process. In terms of the third priority, the term of office of the Municipal Planning Tribunal (MPT) ended during July 2021 and the name of new members were only promulgated during July 2022, as the previous Council did not want to appoint members before the municipal elections which took place during November 2021. Since the appointment of the new MPT 3 (three) meetings was held during which a total of 11 (eleven) land use applications have been considered. This priority is receiving the necessary attention.

In respect of the fourth priority, the Department struggled and did not perform as expected, as the Building Section was functioning with new appointments and processes and procedures were revisited to ensure a better and more efficient service can be delivered. This priority, however, bettered every quarter and will reach its goals during the next year.

Regarding the fifth priority, the outdoor advertising by-laws was finalised during the financial year and new tariffs were approved for outdoor advertising during the budget approval. The Spatial Development and Human Settlements Portfolio Committee during the last quarter of the financial year, however, requested that the by-laws not be public participated yet and it be returned to the Committee for changes they want to affect. As soon as promulgated the by-laws will ensure an enhanced stream of revenue from outdoor advertising in the new financial year. Lastly, the Integrated Transport Plan has been investigated and identified as a priority for the new financial year and the necessary budget allocation was done for this to commence in the new financial year.

COMMENT ON THE PERFORMANCE OF PHYSICAL PLANNING OVERALL:

In terms of capital projects, the Spatial Planning Department only had two major project and two smaller projects during the 2022/23 financial year. The major capital projects were –

- (i) to obtain GIS software to enable the GIS Office to update the current GIS, to obtain a module to handle land use applications (legislative requirement) and to rollout the GIS system to the rest of the Municipality; and
- (ii) to obtain furniture for the offices of the Spatial Planning Department.
 In respect of (I) above, it can be mentioned that the account of the suppliers (ESRI) who must provide the GIS software have not yet been settled and thus the project goals were not reached. In respect of (ii) above desks, chairs and visitor chairs were procured and the goals in respect of this project were reached.

The two smaller projects were -

- (iii) the extension of the fence on the western side of the office building and the moving of the vehicle gate closer to the front to safeguard the air-conditioners of the front two offices (these were stolen a month after the Department moved into the building; and
- (iv) the installation of air-conditioners for the front two offices.

In respect of (iii) above the project was successfully undertaken, but only close to the end of the financial year. This made it impossible to start with the project mentioned in (iv) above and this will only commence during the next financial year.

3.11 LOCAL ECONOMIC DEVELOPMENT

INTRODUCTION TO ECONOMIC DEVELOPMENT

Moqhaka Local Municipality understand that the issue of job creation is a key priority for Local Economic Development (LED). However, LED is everybody's business; government, local businesses and other stakeholders are encouraged to come together to revitalise township economies, and to invest in factories, workshops, technical hubs and locally owned retail operations in townships, whether large or small.

The driving force behind job creation must be the realisation that interventions at local level need not only be small-scale but also high-value economic activities in townships must also be encouraged.

Although under review, Our LED Strategy notes the extent of poverty and unemployment in this municipality is the reason why different approaches to LED become significant bearing in mind our agricultural typology. The Strategy recognises the unique characteristics of Moqhaka and informs the targeted interventions that need to be done.

Some of these interventions include but not limited tourism development and initiatives and Rural Enterprise Development (TREP) to assist our SMME's to register their businesses to ensure that they meet requirements to access funding and other support services.

JOB OPPORTUNITIES:

Municipalities are created to provide a democratic and accountable government for local communities, to ensure the provision of services to communities in a sustainable manner and to promote social and economic development.

In the promotion of social and economic development, local council must always create a conducive environment through the provision the infrastructure and basic services that support a favourable investment climate. Without this investment, deepening unemployment and poverty may follow.

The questions must then follow as to whether we did enough to create a conducive environment and if so, how many job are created as a result thereof? Moqhaka, like many other minimal ties in the Free State faces the triple challenge of unemployment, poverty, and inequality. The spatial profile of this council displays an economy with a largely retailers that are performing well.

Tourism and Agriculture are also considered as the mainstay sectors and largest contributors to the investment and employment. The services sector and retail trade have not shown any growth over the past couple of years with many retails closing.

TOURISM

Tourism remains a key driver of South Africa's national economy and contributes to job creation. The industry is a major contributor to the South African economy and employment of citizens. The sector contributes about 9% to the country's gross domestic product (GDP) and local authorities must work hard to create conductive environment for this sector to thrive.

In Moqhaka tourism development fits within the Local Economic Development (LED) function. All tourism support activities are undertaken under LED – and hence in our input, we make the point that we work hard to create an environment conducive for tourism development and cannot separate our understanding of LED from understanding tourism development.

We also acknowledge that tourism, apart from Agriculture and Agro processing have the potential to make an impact on developing rural economies (e.g.: through eco-tourism and culture-based industries).

Some examples of how we create a conducive environment for Tourism development include the following:

- Promotion of the physical attractiveness and aesthetics of the locality (beautification of the area through adopt a circle policy)
- Provision and maintenance of tourist attractions and other public amenities such maintenance of visitor information services and the provision of basic services (e.g., water, sanitation and electricity)
- The production tourism marketing materials.
- Provision and maintenance of public infrastructure (e.g., roads and signage)
- The regulatory environment: by laws; database of Tourism offerings; land-use planning and zoning.
- Promoting partnerships between the public and private Sector.
- Development of tourism strategy and sector plans

TOURISM EVENTS

Tourism events have become an integral part of the industry. Event tourism provides travellers and visitors with unique and memorable experiences and brings significant economic and social benefits to the host destination. The year under review saw a few events been staged in Moqhaka, e.g., Ignite and Revive Festival, Biker's rally/ Pit-bull Rally and Bokkie Week

IGNITE AND REVIVE FESTIVAL 2022.

The Ignite and Revive festival was held in Kroonstad from 21 to 23 October 2022 at Trio High School. It was a festival filled with lots of entertainment for every individual whose heart wanted entertainment following Covid -19 pandemic. The event displayed different kinds of markets, tea gardens, agricultural exhibitions, and variety of exquisite as well as-quality food stalls.

Above: Ignite and Revive festival 2022 at Trio High School

PITBULL RALLY

Following the departure of the Bikers Rally at Kroon Park, the new Bikers rally emerged for the first time. The Pit-bull Rally as they are called, closed a whole created by the Bikers Rally. The Pit-bull Rally was held in Kroonstad from 2-4 September 2022 and will be an annual event. The rally was screaming with guitar riffs and talented musos as they flood through the amphitheatre with the latest 2022 music and motorcycle festival.

BOKKIE WEEK

Bokkie week is an event calendar organised to promote sports exclusively for Afrikaners' culture. It was held from 4 to 8 July 2022 in Kroonstad. Afrikaners students from all walks of life held a five-day event and participate in rugby, netball, hockey, crickets and golf just to name but a few.

Above: Afrikaners students from all walks of life held a five-day event and participate in rugby, netball, hockey, crickets, and golf.

KWÊLA'S TOWN OF THE YEAR COMPETITION

Kroonstad, the administrative business hub of Moqhaka Local Municipality was among the three top cleanest town in the free State province. This followed Kwêla and Kyknet competitions. Kroonstad was voted the cleanest town and won R1m worth of advertisements.

Above: Promotion of the physical attractiveness and aesthetics of the locality (beautification of the area through adopt a circle policy)

TRIP ADVISOR.

TripAdvisor is one of the best places to find what experts say about places that one is going to book, sleep, or camp for a holiday. This is platform where people express their experience of tourism activities and experiences at large, be it camping, fishing, or any other activity.

Tourism Section begun working with individuals with passion to travel and write their experience as they travel. This platform (TripAdvisor) gives a Travellers' Choice award to accommodations, attractions and restaurants that consistently earn great reviews from travellers and are ranked within the top 10% of properties on TripAdvisor. For more of the reviews, individual can visit TripAdvisor to find more on Moghaka.

JOB CREATION THROUGH TOURISM

(Promotion of the physical attractiveness and aesthetics of the locality (beautification of the area through adopt a circle policy)

NATIONAL MAIZE PRODUCERS ORGRANISATION 2023 (NAMPO)

NAMPO is an agricultural show that begun in small scale in the 1960s. The event grew bigger and bigger and was fully established by Grain SA in 1974 in NAMPO Park at Botha Ville. The 2023 instalment of NAMPO welcomed 81 945 daily visitors from 16 to 19 May 2023. As if that was not enough, the show

included 823 exhibitors, closed to 200 aeroplanes and 75 helicopters that were parked at Nampo Park during the show.

Although this event takes place yearly in Botha Ville it has a huge economic impact to the surrounding places such as Viljoenskroon, Welkom, Potchefstroom and Kroonstad just to name but a few places. The total number of daily visitors also means huge economic injections to many towns including Viljoenskroon and Kroonstad. The R76 road towards Kroonstad becomes busy, the petrol stations also become busy. The accommodation businesses such as hotels and guest houses also benefit.

COMMENT ON LOCAL ECONOMIC DEVELOPMENT PERFORMANCE OVERALL:

Our view of the development priorities considering the state of our economy and the economy of the country in general is that we outline these might not be within the limited municipal capital budget. They are in their nature capital projects and needs to roll out in phases and linked to both District Development Model and the Vaal Mega City Special Economic Zone Plan. These are aimed at attracting tourist while adding value to human settlement and economic development.

- 1. Development of Waterpark.
- 2. Application of level 1 accreditation.
- 3. Implementation of the Feasibility Study for the Kroonstad Airport.
- 4. Development of light/commercial park adjacent to the N1 corridor.
- 5. Harnessing the potential of the railway infrastructure.

The establishment of Directorate of LED and Planning is premised on the understanding that we need to mobilise primary sectors like small business agriculture and tourism to try and safe existing job and industries while developing plans for the overall municipal economic development.

The directorate has performed well in this period under reviews despite shortage of staff, vehicles and the permanent head.

COMPONENT D: COMMUNITY & SOCIAL SERVICES

INTRODUCTION TO COMMUNITY AND SOCIAL SERVICES

The municipality only have the Civic Theatre. The Civic Theatre is a community based Arts and Culture venue that promotes arts in its diversity in order to enhance social cohesion through cross cultural activities to advance tolerance and celebrate heritage.

3.12 CIVIC THEATRE, ARTS AND CULTURE

Moqhaka Civic Theatre is here to grease the wheels, to promote and support start-ups and emerging new artistry while also celebrating the been-ups, veteran artists who will host their activities in this venue from time to time. Integrating artists' practices into civic theatre participation can make people feel more welcome, make meetings more enjoyable, create a more level playing field, create safe spaces for those who have historically been excluded or disenfranchised, and help sustain engagement over long planning processes.

The theatre allows artists to collaborate with agencies and residents to raise awareness of underfunded municipal programs, amplify their value, and mobilize for budget increases. The Civic Theatre was built between 1973 and 1976, with an official opening on June 12, 1976, during South Africa's Youth Uprising. It has a 688-seat Auditorium and a Multipurpose Hall (Allen-Rau-ten-Bach-hall) with a seating capacity of +-300 people (including tables). The upper-level entertainment hall with balcony could accommodate +-30 people for boardroom meetings and mini-functions. Its main goals are to promote arts and culture, music, drama/theatre, poetry, and language in schools and communities; to form partnerships with government departments and non-governmental organizations; and to improve social cohesion through the arts and culture activities; as well as creating vibrancy within our locality to advance Tourism and creating vibrancy within our locality to advance Tourism.

CIVIC THEATRE, ARTS AND CULTURE PERFORMANCE OVERALL

There were no capital projects done in the year under review.

3.13 PARKS AND CEMETERIES

INTRODUCTION TO PARKS AND CEMETERIES

Park maintenance: The main goal of this section within Biodiversity Parks Sports Arts and Culture is to develop quality parks by providing sustainable park infrastructure that relies on efficient park management systems that include all the work required to keep public parks and open spaces safe and clean in order to serve community needs, establish quality of life, and contribute to the community's economic and environmental well-being. As part of its central administrative functions, the parks and cemetery section maintain open spaces, parks, and provides land use management policies.

The development and maintenance of parks and open spaces is guided by the municipality's policies and procedures developed to address the needs of various government regulations, acts, and policies, as well as international agreements to which the Republic of South Africa is a signatory, such as the United Nations Convention to Combat Desertification (UNCCD), the United Nations Framework Convention on Climate Change and the Kyoto Protocol, the Copenhagen Accord, and the Cancun Agreements. Park maintenance includes planting shrubs, flowers, and trees, as well as pruning, irrigation, mowing, and infrastructure upkeep.

SERVICE STATISTICS FOR PARKS AND CEMETERIES

COMMENT ON PARKS AND CEMETERIES PERFORMANCE OVERALL

This division was successful in identifying potential park development sites and developing landscape plans for those areas. The designs for two Parks per town were completed. The first business plan for the park in Northleigh was submitted to Municipal Infrastructure Grant (MIG) and approved for the 2024/25 financial year for the development of the park.

3.14 SPECIAL PROGRAMMES

INTRODUCTION TO SPECIAL PROGRAMMES

The special programs are core functions and/or duties performed as an intervention mechanism to assist the municipality in order to address the immediate social ills. These are executed by responsible officers in the Office of the Executive Mayor in line with the mission of the municipal systems act as a measure to directly reach out to the community. Various skills development programs were provided in partnership with various stakeholders. Number of plenary meetings were held to facilitate smooth execution of the special programmes which materialised.

Service statistics for special programmes:

| Number of programmes on youth participated in/held: | 12 |
|--|----|
| Number of programmes on women participated in/held: | 1 |
| Number of programmes on disabled participated in/held: | 0 |
| Number of programmes on children participated in/held: | 3 |
| Number of programmes on HIV/AIDS participated in/held: | 0 |

COMMENTS ON THE PERFORMANCE OF SPECIAL PROGRAMMES OVERALL

Coordination, and widespread consultation with various stakeholders, are some but few of hiccups which in some instances derailed normative processes. Municipal Systems Act served as a guiding tool and legislative framework in the provision of the services. Intergovernmental relations were explored with various government department convening some additional programmes to assist the Special Programmes. Approximately twelve Youth programmes were executed, one on which dealt with women in particular, three spoke to children in schools and no programmes were convened on HIV/AIDS and Disability. Portfolio of evidence in a form of pictures and attendance registers is available upon request. Capacity building programmes are necessary to the Officers of the Special Programmes to ensure further effectiveness.

COMPONENT E: ENVIRONMENTAL PROTECTION

INTRODUCTION TO ENVIRONMENTAL PROTECTION

The National Environmental Management Act (NEMA) has undergone extensive changes and amendments in recent years and continues to do so. The purpose of its change is to provide for cooperative, environmental governance by establishing principles for environmental decision-making, institutions to promote cooperative governance, and procedures for co-ordinating environmental functions performed by organs of state; and to provide for matters related to it.

However, these changes have an impact on all aspects of environmental management. Most aspects of environmental management are dispersed across the Community and Social Services and Technical Services Directorates. This makes dealing with Environmental Management issues more difficult. It would have been simpler if the Municipality had a Department of Environmental Management. In trying to address the Environmental Management issues, the Solid Waste Management Section is dealing with illegal dumping, refuse removal and management and maintenance of landfill sites. This presents additional challenges due to the communities' unwillingness to cooperate, insufficient refuse removal vehicles and lack of personnel with the appropriate skills for managing and maintaining the landfill sites. This can be resolved by purchasing enough vehicles to remove illegal dumping sites, appointing skilled personnel to do the correct jobs and appointing a specialized Law Enforcement team that will only deal with Environmental Management issues.

The Kroonstad landfill site is using the South African Waste Information Centre's (SAWIC) estimations to report the tonnages to SAWIC. The Viljoenskroon and Steynsrus landfills are not yet reporting to SAWIC due to shortage of staff for Steynsrus and Viljoenskroon will only start reporting when the new landfill is operational.

Waste Pickers and private recyclers are another component of Environmental Protection that needs to be addressed. These must also be monitored to see to it that their activities are in line with NEMA and pose no

threat to the environment. Personnel with appropriate qualifications and expertise need to be appointed for this to be implemented.

3.15 POLLUTION CONTROL

The Municipality does not perform the above functions

3.16 BIO-DIVERSITY; LANDSCAPE (INCL. OPEN SPACES); AND OTHER (EG. COASTAL PROTECTION)

The key areas:

- Monitoring and controlling of invasive species.
- ✓ Monitoring programs and projects in line with the protection of the ecosystems and to consider biodiversity in all aspects of planning at local level.
- ✓ Environmental conservation including Biodiversity management and awareness.
- ✓ Arboriculture program.

SPRAYING OF WEED KILLER

AFTER

CELEBRATING ARBOUR MONTH IN STEYNSRUS

COMPONENT F: HEALTH

This component includes clinics; ambulance services; and health inspections. The Municipality does not perform the above function.

COMPONENT G: PUBLIC SAFETY

This component includes security services, traffic management, fire services and disaster management.

3.17 SECURITY SERVICES

INTRODUCTION TO SECURITY AND SAFETY

Security Services' mandate is derived from Minimum Information Security Standards as approved by cabinet in 1996 and National Strategic Intelligence Act 39 of 1994. The unit has got seven elements of security programme to implement. The whole security ideology is dependant much on the protection of Municipal assets and its employees.

- Security Administration
- Information Security
- Personnel Security
- Communication Security
- Business Continuity Planning
- Physical Security

VISION

To be a united, non-racial, transparent, responsive development and efficient municipality that renders sustainable services, so as to improve the quality of life in the community.

MISSION

Working effectively with all stakeholders to serve the people of Moqhaka Municipality through:

Ensuring a safe, secure and healthy environment.

VALUES

As a division we have committed ourselves to set standards and values. These standards and values are the foundation by which we deliver our services and interact with one another on a personal and professional level.

Respect for the individual, employees and the public, First rate public service; and Organizational excellence; and integrity.

Each of us must be committed to ensure that these values and standards are practiced daily and that they provide the framework and principles by which we function as a department. Nothing less will be acceptable.

ETHICS

As Security Services our fundament duties are to protect employees, Councillor's, Council property and to serve the community safeguard lives and property protect the peaceful against violence and disorder; and to respect the constitutional rights of all persons as to liberty, equality and justice.

We will keep our private lives unsullied as an example to all maintain courageous calm I the face of danger, scorn, or ridicule; develop restraint and remain constantly mindful of the welfare of others. Honest in thought and deed, both in personal and professional interaction, we will serve as an example in obeying the laws of the

land and the department's regulations. Whatever confidential matters are confided upon us within our official capacity will kept ever secret unless revelation is necessary in the performance of duty.

We will never act officiously or permit personal feeling, prejudices, animosities, or friendships to influence our decisions. With no compromise for crime and with relentless prosecution of criminals, we will enforce the law courteously and appropriately without fear of favour, malice or ill will, never employing unnecessary force or violence, and never accepting gratuities.

We recognize the badge of our office as a symbol of public faith and accept it as public trusts to be held so long as we true to the ethics of the department. We will constantly strive to achieve these objectives and ideals.

PRIORITIES

Ensuring a safe, healthy and secure environment an enshrined in the Constitution

GOAL

Actively assist the SAPS in the reduction of crime levels in Moghaka Municipal jurisdiction

BY-LAWS

The By-laws for Moqhaka Local Municipality were published in the Provincial Gazette, No 117 Free State Province on Friday, 13 March 2015. The Admission of Guilt is with the Senior Magistrate for approval.

COMMENT ON THE PERFORMANCE OF SECURITY SERVICES OVERALL:

Physical Security service provider to be appointed, currently service provider (ISIDINGO SECURITY SERVICES) is appointed on a month-to-month basis.

Alarms system, monitoring and reaction service provider to be appointed, currently service provider (CSS) is appointed on a month-to-month basis.

There are three (3) permanent security officers in Steynsrus, two (2) in Viljoenskroon, 15 (Fifteen) in Kroonstad.

Shortage of manpower affects the general performance of physical security and other programs of importance

The staff compliment of 20 security officers for the whole Moqhaka is utilized to render a cost-effective service to the best of their ability with the resources available.

Achievements

Ten (10) additional cameras were installed at the main building.

Entrance to Municipals Manager's and Director's offices electronically and physically secured to ensure high level protection of their presence.

Security company namely, CTI retrieved several copper cables of the Moqhaka Municipality and arrests have been made

The Security policy is drafted to address all seven elements of Security in all state organs, which will culminate to the introduction of directives and security plan.

We managed to successfully source Z204 forms and declaration of secrecy forms from State Security Agency for the purpose of Vetting of critical positions and Supply Chain Management in particular.

Participate during the hosting Netball Trophy at Dr Reginald Cingo Secondary School.

Successfully participated during the Imbizo convened by South African Police Service in our precinct.

Participate during the planning of South African Sports and Recreation Events Act.

PTZ camera at the building was replaced and is in working condition

3.18 TRAFFIC SERVICES

To provide an effective and efficient traffic management service to the community of Moqhaka Local Municipality aimed specifically at reducing the number of road traffic accidents, injuries and fatalities on all roads within the area of jurisdiction of the municipality in collaboration with other law enforcement agencies.

To actively promote road safety, traffic order and mobility by maintaining a committed and goals directed law enforcement programme and traffic control which is coupled to an intensive public information and road safety awareness programme.

COMMENT ON TRAFFIC SERVICE PERFORMANCE OVERALL

- ✓ Four Traffic Wardens were sent to be trained as Traffic Officers at the Matjhabeng Traffic Training College and completed by end of July 2023.
- ✓ Seven Traffic Officers attended Road Incident Management System Training. Traffic Management issued a total of 10 461 fines.
- ✓ Except from their normal duties 250 roadblocks and by law operations were conducted of which some included the South African Police Service, Provincial Traffic, Provincial Transport Unit, Provincial Weigh Bridge, Department of Home Affairs and Fezile Dabi Health Inspectors.
- ✓ Several Road Safety Awareness Campaigns were held.
- ✓ Traffic control were done at local accidents as well as some on the N1, provincial and national roads. Traffic Management did traffic control at 194 accident scenes for the period under review.
- ✓ Traffic Management escorted fun walks, funerals, matric farewells and marches.
- ✓ Several Warrants of Arrest were executed due to the Offender Tracking System used during operations.
- ✓ Several fraudulent license discs were detected and confiscated due to the scanning device used during operations.
- ✓ Phase 1 of the vehicle pound was approved which will ensure the safety of impounded vehicles.
- ✓ Road markings within Kroonstad, Viljoenskroon and Steynsrus were done as well as the replacing and erecting of traffic signs.

3.19 FIRE SERVICES

INTRODUCTION TO FIRE SERVICES

Fire Services in the Republic of South Africa and in particular in Moqhaka is regulated in terms of National Legislation. The top priorities as defined in the Fire Brigade Services Act, Act 99 of 1987, are as follows:

- (a) preventing the outbreak or spread of fire.
- (b) fighting or extinguishing fire
- (c) the protection of life or property against fire or other threatening danger
- (d) the rescue of life or property from fire or other danger.

FIRE BRIGADE COMPONENTS

There are two components of Fire Service which are Operations as well as Fire Safety and Training

OPERATIONS

Fire and Rescue Services is a uniformed discipline that is on call 24/7, 366 days of a year. Activities such as firefighting, fire suppression, rescue operations and HAZMAT operations happens in all weather conditions, during daylight hours and hours of darkness. The discipline operates on a shift system to accomplish this. In our municipality, the shift system is a 12-hour rotating system. A shift consists of a Station Officer in charge of the shift. Crews, on average are six (6) operational members per shift. Shifts change at 07h00 and 19h00.

Public Information, Education and Relation and is attended to by operational personnel.

All these services above have been attended to with minimal resources and they can be done optimally if vehicles and equipment can be procured. The availability of resources can boost the quality-of-service delivery.

Fire Safety and Training

This section is responsible for the focusing:
Monitoring compliance of Municipal By-Laws
Building Standard Regulation (approval of building plans)
Hydrants inspections and maintenance
Commercial Buildings

Schools

Municipal and Government buildings
Fuel Depo (National Key Points) visit – inspections and advice
Issuing of flammable certificate and annual renewal

TRAINING

Currently we do not have capacity to offer the service, as it requires accreditation

The Fire Prevention is basically enforcing the South African National Standard (SANS) compliance. It requires dedicated staff for the service and the currently the position is vacant since May 2022, there is only dedicated person who is seconded to assist with compliance

COMMENT ON FIRE SERVICE PERFORMANCE OVERALL

In the year under review Fire and Rescue Services could only be partially achieved. The reason being that due to a lack of infrastructure in other units, vehicles and equipment and adequate human resources. The requests for responses to emergencies had to be done from fire station in Kroonstad. The outskirt towns of Steynsrus/Matlwangtlwang (45 kilometres from Kroonstad) and Viljoenskroon/Rammulotsi (65 kilometres from Kroonstad) has no infrastructure, vehicles and equipment nor manpower for fire services operations. A further setback on service delivery is the time it requires a fire engine and crew to reach the outskirt towns. This time lapse could be as high as sixty (60) minutes. These extended time responses frustrate the community to whom the service is delivered and fire crews, on many occasions, had to bear the brunt of the community.

This situation worsened by limited resources and inadequate manpower at the Fire Service. The only reputable Fire Engine we have at the Fire Station was involved in multiple accidents and had to be taken in for repairs leaving the service with the option of renting a fire appliance from a reputable company to try and overcome this obstacle in service delivery. But not everything is doom and gloom.

Preventing the outbreak or spread of fire is seen as the priority of the Fire Service. To accomplish this priority Fire Safety is of the utmost importance. Fire Safety excelled in the performance of Fire Safety inspections and enforcement of the National Building Regulations. Fire Safety inspections and re-inspections, and Flammable Liquids inspections were done daily. Building construction plans were thoroughly and with precision scrutinized for Fire Safety compliance. The execution of inspections at building sites, existing buildings, structures and premises is to provide protection of life and property against fire or other threatening danger. Inspections performed at premises where flammable substances are stored, handled and or used are carried out to limit as far as possible fire and other threatening danger

Due to lack of fleet, there is no designated vehicle for hydrant inspections, and it is an awful and disturbing condition, it is hampering on service delivery and resulted in minimal hydrants maintenance.

Fire and Rescue Services do not have a fully operational Training section, but Community awareness programmes were done, lectures and demonstrations were provided to many a schools ranging from crèches, pre-primary, primary and high schools visit the Fire Service. Fire Safety lectures and evacuation drills were conducted at businesses throughout the year.

The Fire Service also participates in community programmes together with the South African Police Services (SAPS).

The Fire Service participate in forums such as GOCOC where role players such as South African Police Services (SAPS), South African Defence Force (SANDF), Provincial Traffic Services, Local Traffic Services, Department of Justice and other non-governmental organizations are present.

Fire Service also forms an integral part of the Joint Operational Centre (JOC) where all fuel depots and National Key Points (NKP) are represented.

Major incidents

09 August 2022

Motor vehicle accident (MVA) on Vredefort Road +/- 40Km from Kroonstad, a bakkie was towing another vehicle and collided head-on with a small hatchback. Three people lost their lives and two were taken to hospital. The Jaws of life was used to take the bodies out upon arrival of the pathologies, and the road was cleaned to avoid secondary incident. The Acting Chief Fire Officer realised that the incident happed on the same spot where a vehicle was burned and fire people lost their lives on the 31/07/2022. He then contacted the Provincial Traffic learning that both incident the vehicles were navigating potholes and was later fixed.

20 August 2023

Structural Fire – MR. PRICE Retail Store at 18 President Street – CBD

On arrival of the Manager was already at the scene and the shop was full of dark smoke and introduction of oxygen the windows blew off, the fire had started from the kitchen to the front of the storeroom and five adjacent shops and building were not affected from the intervention.

22 November 2022 House fire at 7027 Constantia Maokeng – suspected cause was electrical fault

14 December 2022 Vehicle Fire at Crown Aluminium Factory at Station Street, the vehicle burned inside the shop

15 December 2022

A truck collided with a Volkswagen Sedan, a driver died on scene and the Jaws of Life was used to extricate the driver. The incident happed +/-10 Km Viljoenskroon Rd

A huge space partitioned for three shops was extinguished it started in the middle Food shop and was confined to that space that suspected cause was electrical faults.

Awareness Campaign

29 July 2022

Voorwaarts Primary School

Demonstration by Fire Fighters on how the (Jaws of Life) it's operated during the accident incident to Rescue patients out of the vehicles when their trapped.

29 September 2022 Boiteko Primary School

Demonstration to educators (31) and learners (633) at Boiteko Primary school on how to use the Fire Extinguisher

<u>Dr Sello Primary School – Rammulotsi/Viljoensroon - 04/11/2022</u>

Educators were taught how to use the extinguisher and practical was done to 30 Educators in total.

Demonstration to 1300 learners on how the fire brigade works and demonstrated the JAWS OF LIFE and other

FIRE AND RESCUE EQUIPMENT

April 2023

Easter Festive Season Road Safety Awareness 04 – 06 /04/2023

To educate and create awareness to all road users regarding the safe usage of the roads. Distribution of awareness pamphlets, deliberating with road users

Stakeholders attended Department of Police, Roads and Transport in partnership with Department of Health, SAPS, Moghaka Fire and Rescue, Shell Ultra City.

21 April 2023

Fire Awareness Day at Be-Human Middelwater Farm

The second annual Free State Provincial Integrated Fire Management Awareness Day. The event hosted by Cogta -Free State Provincial Disaster Management in partnership with Department of Agriculture, Land and Reformed Rural Development, Department of Forestry, Fisheries & the Environmental, Free State Umbrella Fire Protection Association, Working on Fire, Mangaung Municipality, Disaster Management Training and Education Centre (DMTEC) University of the Free State, ESKOM, South African Weather Service and SALGA.

The purpose was to increase awareness and promote proactive wildfire risk management by providing the private and the public landowners access to product, services, and information.

03 May 2023 Joint Operation

The Joint Operation aimed to ensure a safe and friendly environment in Kroonstad. Stakeholder SAPS, Moqhaka Traffic. Moqhaka Fire and Rescue, Moqhaka Electricity Section, Fezile Dabi Municipal Health Services, DESTEA and Home Affairs. The shop in town inspected Fire Safety compliance, meter box not bridged, counterfeited goods, Muthi shops without licence and the bottle stores. Visible policing and patrols, Moqhaka Traffic control traffic and stop and search vehicle passing the area of operation.

01 -06 June 2023 Child Protection Week

To create awareness to the school children their right and responsibilities. Educating in case of emergency what they need to do. Creating Fire awareness not to start the open fire and distributing pamphlets as well.

The following schools were visited

| Date | School |
|--------------|--------------------------|
| 31 May 2023 | Phuleng Primary School |
| 01 June 2023 | Moepeng Primary School |
| 02 June 2023 | Relebohile Primary Schoo |
| 05 June 2023 | Lovedale Primary School |
| 06 June 2023 | Matsepe Primary School |

Fire Safety:

Since the retirement of Fire Safety Officer from the 31^{st of} May 2022, Station Officer MS Lekhetsoane has been seconded to assist for Fire Safety and Training. Station Officer Lekhetsoane is permanently moved from Operational duties to Fire Safety and Training with effect from the 1^{st of} May 2023.

Below are the services provided during the period under review.

Fire Safety Income:

Approval of building plans:

R 2 811.38+ R 4 829.00

Issuing of flammable liquids certificate:

R 2 060.00+ R 6 132.00

ACHIEVEMENTS AND ACKNOWLEDGEMENTS

1 Public Information, Education and Relations (PIER) Programme promotional material

Promotional material, to increase awareness and develop positive perceptions of emergency services.

Pamphlets – highlighting the dangers of cooking oil fires, greasing fires, oven cooking, deep- and pan-frying dangers, gas fires, paraffin fires, veld fires and other domestic holders and how best to arrest small fires before getting big.

2. Banners and Gazebo

3. A tradition has been developed at Fire and Rescue Services to honour and bid farewell to our long serving fire fighters who are retiring and have served the service with dignity and honesty.

- 4. For 2022-2023 financial year Fire and Rescue Services managed to procure full Protective clothing (Bunker Gears) and Station uniform, and a bakkie- utility van to be used at Grass fires by using Transversal contracts, through National Treasury. The exercise was safe and fruitful.
- 5. We managed to develop and promote one of the enthusiastic general workers to a Junior firefighter after obtaining relevant qualifications.

- 6. Fire and Rescue Station has been renovated and elevated to an acceptable habitable environment through internal funding. More development in this area is envisaged.
- 7. Communication/telephone challenge for the Control room due to load shedding outbreak has been alleviated by obtaining a Cell phone for the Control room operations.
- 8. Repainting and branding of a Fire Tanker the donated water tanker was branded into representing Fire Services.

Challenges

In adequate Fire fighting vehicles.

Coverage of Municipal area- due to the vastness of the Municipality, turnaround time in rendering services is dismal.

Capacity building of employees- no developmental programs are in place for employees in this ever-changing profession.

Meetings and activities attended by Fire and Rescue Services

3.20 DISASTER MANAGEMENT & OTHER

INTRODUCTION TO DISASTER MANAGEMENT

The mandate of Disaster management emanates from the Disaster Management Act no 57 of 2002 and the Disaster Management Act amendment act No 16 of 2015.

The act provides for the following:

An integrated and co-ordinated disaster management policy that focuses on preventing or reducing the risk of disasters, mitigating the severity of disasters, emergency preparedness, rapid and effective response to disasters and post-disaster recovery and rehabilitation; The establishment and functioning of national, provincial and municipal disaster management centres; Disaster management volunteers; and matters incidental thereto.

3.22.1 Comments on Disaster Management Overall Performance

Household Incidents

The Disaster Management verified reported household incidents and recommended the implementation of response interventions. The incidents attended are flash flooding, storm and flooding along the Vaal River.

Storm Disaster

Moqhaka municipality was hit by a storm and heavy rains in November 2022 in Viljoenskroon and Matlwangtlwang. 22 houses were affected by the storm. A storm damage assessment was conducted in Tsheke and Phahameng sections that were mostly affected. A team of 10 disaster management volunteers was activated to do the damages of the houses and populate aggregated losses of various households. The team of volunteers assisted in rebuilding of affected houses.

Energy crisis early warning

An energy early warning presentation was compiled and presented. The porpose of the early warning was to provide bacground, challenges, risks and solutions available for the municipality to implement as a result of worsening situation of load shedding of Eskom. The early warning further recommended a declaration of a local energy disaster. A national disaster was subsequently declared on the 9th February 2023

Renovation of Disaster Management Centre

The Disaster Management Centre Building maintenance is done as and when requires. Processes were put underway to maintain the building by Fixing of cracks on the building, Installation of shower facilities, Unblocking of roofing drainage system, Lamination of windows and installation of three air conditioners. Offices have been partitioned and so far, there are 15 offices including 2 boardrooms.

Disaster Management Joc

In January 2023 two disasters were declared. The energy / Electricity and flood disasters. The activation of the Disaster Management Joint Operation Centre (JOC) was subsequently done.

Sectors forming part of JOC are as follows :Moqhaka Municipality, Disaster Management Centre, Traffic, Security, OHS, Mayor's Office, Communication, Fezile Dabi Environmental Health, Department of Health, Department of Social Development, South African Defence Force (SANDF),South African Police Services (SAPS),Department of Education, Department of Labour, Department of Correctional Services, Department of Police, Roads and Transport Farmers, Business Chamber, CPF, , Municipal Labour Unions, Department of Home Affairs, NGO.S and CBO'S.

Disaster management plan

Two stakeholder consultation sessions were held for the review the Disaster Management Plan. Robust discussions and engagement were heightened, and the consultation culminated in a review of the disaster management plan. A disaster management plan compliant new National Disaster Management centre is being realigned and will be distributed in the second quarter of the new financial year.

Emergency Call Centre

A disaster emergency call centre has been commissioned. Procurement of Desktop computers have been done. The outstanding interventions to operationalise the call centre is procurement of phones and appointment of required personnel.

Awareness Campaigns

Community awareness programmes are done with various sectors ranging from schools to sector departments as well as both organised and informal sector businesses.

Assets exposed after storm damage

Completion of a damaged shack

Repairing of shacks

Flooded road in Viljoenskroon

Flood eroded stand in Snake Park

Flood Zone areas in Kroonstad

COMMENT ON DISASTER MANAGEMENT PERFORMANCE OVERALL

The disaster management centre managed to deliver its full mandate with limited staff complement and resources. The centre managed to comply with all financial prescripts and did not get even one auditor general query. All IGR matters were complied with including legislated compliance meetings.

Moqhaka Disaster management centre is currently used as a peer review model by both SALGA and other Municipalities. It implemented COVID regulations successfully without queries.

COMPONENT H: SPORT AND RECREATION

This component includes community parks; sports fields; sports halls; stadiums; swimming pools; and camp sites.

3.21 SPORT AND RECREATION

INTRODUCTION TO SPORT AND RECREATION

As a means of promoting social cohesion and nation building among the people of Moqhaka Local Municipality through culture, sports, and information services. We must never lose sight of the main goal, especially when it comes to sports and recreation. Sports provide us with many benefits, the most important of which is competition. Sports such as football, baseball, and basketball, among others, necessitate specific skills in order to be mastered. They also teach many life lessons and values to the next generation of athletes. Sports can teach children leadership, goal setting, discipline, and sportsmanship. As a result, participation in sports is essential for all individuals in various communities, including the Moqhaka community

Sports are recreational activities in which the primary goal is participation, with the associated goals of improved physical fitness, fun, and social involvement. Sports are typically perceived as less stressful on the participants, both physically and mentally. In the recreational sphere, there are lower expectations for both performance and commitment to the sport. In theory, there is a clear distinction between purely recreational activities and competitive sports, where the emphasis will be on achieving success and developing physical skills through rigorous training. Competitive sports involve much more than just contests, such as building bridges between communities and countries.

COMMENT ON SPORT AND RECREATION PERFORMANCE OVERALL

The upgrading of Nyakallong Sport Facility Phase 2 started in the fourth quarter. The roof of the main building was repaired and painted. The roof of the pump room was removed and new branderings were installed. At the swimming pool of Nyakallong the old fibre glass was removed, and the surface was sandblasted. Paving around the pool was removed and reconstructed.

INTRODUCTION TO KROONPARK

Kroonpark was established and built as a recreational facility to serve the people of the Free State and beyond. Since its establishment, Kroonpark has hosted different people form all walks of life, and hosted different types of events including not limited to Bikers Rally, Bokkie Week just to name but a few.

The core function of resort is to provide accommodation, leisure facilities to tourists and carters for conferences.

Kroonpark hosted 14,344-day visitors from 01 July 2022 till 30 June 2023, and that excludes chalet visitor and campers and visitor that has attended all events hosted in the resort for the year.

The following renovation was successfully completed in this financial year 2022/2023:

Replacement of forty- nine chalets thatch roof (grass roofs) with concrete tile roof.

Replacement of analog TV system to digital TV system (Open view)

Replacement of ablution no1 thatch roofs (grass roofs) with corrugate iron roof.

The next project will be renovations of the interior part of fourteen four sleeper chalets (replacing of old building cupboards, floor tilling and renovating of entire bathrooms).

The resort successfully hosted the 1st Annual Pitbull Bikers Rally from 2 to 3 September 2022 and

1st Annual Gentleman's Bikers Rally from 31 March to 2 April 2023 that has brought between 1500 to 2000 bikers to Kroonstad for those two weekends.

The project of creating a new modern waterpark in Kroonpark will start in July 2023. The building of this waterpark that will attract more visitors/tourist and will increase the revenue of the resort.

The resort will be hosting 350 athletes from the Bokkie Sport Week from 3 to 8 July and 2nd Annual Pit-bull Bikers Rally from 1 to 3 September 2023 that will bring between 2000 to 3000 bike enthusiasts to Kroonstad for that weekend.

OVERALL PERFOMANCE KROONPARK RESORT

The buildings below were renovated. One ablution block and chalets in the financial year under review.

RENOVATIONS OF CHALETS

COMPONENT I: CORPORATE POLICY OFFICES AND OTHER SERVICES

This component includes Corporate Policy Offices, Financial Services, Human Resource Services, ICT Services, and Property Services.

This component includes Executive Office (Mayor; Councillors; and Municipal Manager).

INTRODUCTION TO OFFICE OF THE EXECUTIVE MAYOR

The Office of the Executive Mayor gives support the Executive Mayor to carry out the Executive Powers delegated by Council. It enhances the carrying out of the mandate to, amongst many, identify the needs of the Municipality, and prioritize them accordingly. It also assists the Executive Mayor to monitor the work of Municipality Administration, as well as expenditure incurred by the Municipality and prepares the Timetable for the Executive Mayor to consult with Stakeholders within the Municipality, as well as Programmes.

COMMENT ON THE OVERALL PERFORMANCE OFFICE OF THE EXECUTIVE MAYOR

Against the stringent budget, the performance of the Office of the Executive Mayor is fair. There are programmes that could not be implemented. However, there are some milestones that were achieved. The Executive Mayor met twice with SMME Stakeholders to resolve problems relating to Business undertaken in the Municipality.

INTRODUCTION TO OFFICE OF THE SPEAKER

The community participation is the pillar of the democratic values the office has to uphold.

The service delivery priorities were:

- 1. Water & Sanitation
- 2. Access road
- 3. Electricity

The Office held the awareness campaigns on using water sparingly and the danger on the flooding. The awareness on the usage of the sewage system as the foreign object are damaging the infrastructure

The targets can be attained as the systems of reporting are adhered to. In every council meeting progress on the IDP is discussed, if any interventionary measures are needed the necessary action is being taken in order that the set target has to be achieved.

INTRODUCTION TO THE OFFICE OF THE MUNICIPAL MANAGER

The main focus for the Office of the Municipal Manager is and has always been service delivery to the community of Moghaka.

This can only be achieved through efficient administrative governance and oversight in order to optimise the available resources and also adhere to regulations, policies, procedures etc., not only in terms of good financial management but also inter alia infrastructure management & maintenance, asset management, housing, community services but to name a few.

Monitoring by the office is achieved amongst other through structures such as the Senior Management Meetings, Broad Management Meetings as well as the Audit Steering Committee meeting which are standing arrangements.

These meetings serve as a platform for effective communication and feedback on issues raised with the main purpose of always improving in all aspects of the municipality's mandate

COMMENT ON THE OVERALL PERFORMANCE OF THE OFFICE OF THE MUNICIPAL MANAGER

The office of the Municipal Manager is responsible for the performance of the entire institution while appreciating the fact that Internal Audit, IDP, Performance Management, Risk Management and some parts of Good Governance are specifically listed in this office.

To address the challenges of various services, more specifically for maintenance of infrastructure for basic services, equipment and heavy machinery has been identified as a cause and there has been provision made of R8,973,769.00 in the current capital budget.

Improvement of our information and communications is one area that has been prioritised more specially to improve efficiency and ensure effective communication and functioning. Availing a budget in this regard is to ensure that the municipality is able to conduct its business in an effective way in this 5G era.

Provision of basic services i.e. water, sanitation, electricity and refuse removal is top priority of our municipality and we have made available sufficient budget to ensure that these services are rendered without, or with minimal disruptions. Water and electricity losses will be priority focus in this budget year to ensure that these losses translate into a saving.

To ensure compliance with Section 165(2)(a) of the Local Government Municipal Finance Management Act we have developed a risk-based audit plan to improve on our audit and overall performance. We are working very closely with the Auditor General to ensure improvement in our audit outcome.

Compilation and annual review of our Integrated Development Plan is one of the key responsibilities of the office of the Municipal Manager. This strategic plan forms the basis from which all other plans are compiled.

The Service Delivery and Budget Implementation Plan which can be defined as the Municipal operational and performance reporting plans are drawn from the IDP. We need to report that the IDP Assessment Report is one of the tools that assist us in developing plans for better services to our people

3.23 FINANCIAL SERVICES

INTRODUCTION TO FINANCIAL SERVICES

Debt recovery is still a serious concern for the Municipality. The municipality struggles to collect 100% of what is billed on monthly basis. The arrears are barely serviced with the assistance from the appointed Debt Collection service providers. Write-offs have been implemented on irrecoverable inactive accounts older than 3 years, indigent accounts written off, but cut offs are not performed as per the approved Council policy.

Table 95: Debt Recovery

Average collection on billing for 2022/23 is above 65% and collection on billing includes arrears and needs to be 100% or more, as that will enhance revenue. Arrears must also be collected to fund the provision of services, pay salaries and creditors. The 43% of the cash collected is spent on salaries and other 43% is spent on creditors.

3.24 HUMAN RESOURCE SERVICES

INTRODUCTION TO HUMAN RESOURCE SERVICES

Human Resources is one of the supporting functions within Corporate Support Services Department, its main functions are as follows: Leave Administration, Recruitment, Benefits, Terminations, Labour Relations, Skills Development, Employment Equity, Occupational Health & Safety and Employee Wellness.

HUMAN RESOURCES ADMINISTRATION

Effort to ensure effective and accountable administration of personnel records and information have been a priority to ensure that human resources contribute effectively to achieving better audit opinion.

HR POLICIES

The municipality had its human resources policies reviewed to ensure that they are current and are in line with legislation and contribute to good governance. The reviewed policies were adopted by council in December 2020 and currently on review.

TRAINING AND DEVELOPMENT

The municipality approved Workplace Skills Plan, which is both, funded by the municipality and the LGSETA through grants received to ensure capacity building of both internal and unemployed learners. Implementation of the 2022/23 WSP has been met with challenges which included a delay on appointment of panel of training providers, which had a negative effect on implementation of planned training interventions and under expenditure. A total of 67 officials and 19 Councillors have been trained in 2022/23 financial year.

EMPLOYEE WELLNESS PROGRAM

The municipality values wellness of staff as a mechanism for the achievement of municipal strategic goals and provide such services to employees as and when requested and managers recommending such services for employees as part of the managerial referrals. Although the access to the wellness service is voluntary, the municipality annually plan to implement awareness activities with the aim of promoting utilization of wellness services by staff members.

ORGANIZATIONAL DEVELOPMENT

The municipality reviewed the staff establishment for political offices by aligning it with Municipal Staff regulations as promulgated by the Minister during September 2021. The process of ensuring equal pay for work of equal value will be addressed the process of job evaluation which is coordinated at a district level by the job evaluation committee as established through SALGA processes.

OCCUPATIONAL HEALTH AND SAFETY

The municipality has a functional occupational health and safety structure in line with Occupational Health and Safety Act. Legal appointments in terms of OHSA have been made and health and safety representatives meetings take place regularly. Although health and safety are a joint effort between management and employees, management continues to capacitate/train health and safety representatives. Internal Auditing of contractor on health and safety systems is implemented and on-site project health and safety inspections are conducted.

HR PERFORMANCE HIGHLIGHTS

- ✓ Appointment of the Municipal Manager
- ✓ Approval of the Employment Equity Plan
- ✓ Implementation and timeous submission of WSP, ATR and PIVOTAL Plan 2022/2023 to LGSETA
- ✓ Timeous submission of Employment Equity Report to Department of Labour
- ✓ Roll-out of the employee wellness service program and implementation of 23 wellness activities
- ✓ Successful training of 53 SHE representatives
- ✓ Functional local labour forum leading to sound labour relations within the municipality
- ✓ Functional occupational health and safety committees

SERVICE STATISTICS FOR HUMAN RESOURCE SERVICES

The municipality is currently standing with a total staff component 831 employees as at end June 2023.

During the financial year 2022/2023 the municipality filled a total number of 12 positions, all appointments was for external candidates. A total of 28 terminations were recorded due to different types of terminations e.g. Death, dismissals, retirement, end of contracts, abscondment and resignations.

A total number of 4 training interventions were implemented with 67 employees being trained.

A total of 23 wellness activities were implemented on the following pillars of wellness:

Physical Wellness

: nine activities

2. Emotional Wellness

: nine activities

3. Social Wellness

: two activities

4. Financial Wellness

: two activities

5. Spiritual Wellness

: one activity

Other main service statistics are included in Chapter 4 of the Annual Report.

No Capital projects within the HR Section for 2022/2023 financial year therefore, no capital items were procured. Operational expenditure was R 1485 000(85%).

3.25 INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES

INTRODUCTION TO INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES

Information and Communications Technology (ICT) plays an integral role within Moqhaka Local Municipality. The support is run in-house by a team of six full-time employees. The core functions include:

- Maintenance of communication (Wireless connectivity, Telephony, Internet, etc.) services to all offices/sites.
- Maintenance of all ICT equipment/infrastructure daily.
- Facilitation of acquisition and utilization of hardware and software.

We continually strive to remain abreast with the latest technologies, this all to deliver quality services that are sustainable and equitable.

COMMENT ON ICT SERVICE PERFORMANCE OVERALL

The ICT department is currently planning and busy with the following projects:

Local Area Network

All municipal buildings are inter-connected thereby allowing seamless connectivity. There are only two (02) sites which still need to be connected.

Wide Area Network Installation

Moqhaka is running a Multiprotocol Label Switching (MPLS) via Vodacom. This allows all our three town to connect concurrently.

VoIP roll-out project

We are now fully running on VoIP. This means our telephones are no longer primarily running on the old analogue lines.

3.26 LEGAL AND COUNCIL SUPPORT SERVICES

INTRODUCTION TO COUNCIL SUPPORT DERVICES

Effective committee services were provided to the council and the various portfolio committees. Tracking of the execution of council resolutions is done effectively and efficiently in ensuring quality service delivery.

COMMENT ON LEGAL AND COUNCIL SUPPORT SERVICE PERFORMANCE OVERALL

No capital projects were undertaken for the year under review.

COMPONENT J: MISCELLANEOUS

No additional functions to report.

COMPONENT K: ORGANISATIONAL PERFOMANCE SCORECARD

Performance Management is a process, which measures the implementation of the organisation's strategy. It is also a management tool to plan, monitor, and measure and review performance indicators to ensure efficiency, effectiveness and the impact of service delivery by the municipality.

At Local Government level, performance management is institutionalized through the legislative requirements on the performance management process for Local Government. Performance management provides the mechanism to measure whether targets to meet its strategic goals, set by the organisation and its employees, are met.

The Constitution of S.A (1996), Section 152, dealing with the objectives of Local Government paves the way for performance management with the requirements for an "accountable government". The democratic values and principles in terms of Section 195 (1) are also linked with the concept of Performance Management, with reference to the principles of inter alia:

- the promotion of efficient, economic and effective use of resources,
- accountable public administration
- to be transparent by providing information,
- to be responsive to the needs of the community,
- and to facilitate a culture of public service and accountability amongst staff.

The Municipal Systems Act (MSA), 2000 requires municipalities to establish a performance management system. Further, the MSA and the Municipal Finance Management Act (MFMA) requires the Integrated Development Plan (IDP) to be aligned to the municipal budget and to be monitored for the performance of the budget against the IDP via the Service Delivery and the Budget Implementation Plan (SDBIP).

In addition, Regulation 7(1) of the Local Government: Municipal Planning and Performance Management Regulations, 2001 states that "A Municipality's Performance Management System entails a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organised and managed, including determining the roles of the different role players." Section 57 makes the employment of the Municipal Manager and Managers directly accountable to him subject to a separate performance agreement concluded annually before the end of July each year. Section 67 regards the monitoring, measuring and evaluating of performance of staff as a platform to develop human resources and to hold municipal staff accountable to serve the public efficiently and effectively. Performance Management, therefore, is not only relevant to the

organisation as a whole, but also to the individuals employed in the organization as well as the external service providers and the Municipal Entities.

In September 2021 the Local Government Staff Regulations were promulgated. The staff regulations require that Performance Management be cascaded to all employees in Municipalities. The implementation of Staff Regulations on Performance management has been extended to 1 July 2023.

CHAPTER 4 – ORGANISATIONAL DEVELOPMENT PERFORMANCE (PERFORMANCE REPORT PART II)

INTRODUCTION

The municipality is aiming at maximising the potential of staff and their contribution to service delivery and organisational performance. Human resources are the primary investment for the municipality and the municipality endeavour to maintain its investment in its staff.

To ensure effectiveness and efficiency within the organisation, the Municipality annually develops a Workplace Skills Plan, after conducting a training needs analysis. The necessary training is then provided depending on available financial resources.

Employees are also provided with all the necessary tools including, but not limited to, ICT tools, furniture, and machinery. Necessary policies, systems, procedures, and mechanisms are put in place to ensure organizational development. These include, but are not limited to, recruitment, selection, training, discipline, and the retention of staff. Employees are developed as far as possible to assist them to function effectively as human beings and to reach their full potential.

COMPONENT A: INTRODUCTION TO THE MUNICIPAL PERSONNEL

During the financial year 2022/2023 appointments on critical and compliance positions were made by the municipality. e.g. Municipal Manager, Manager Records, OHS Practitioner, Pump Station Operators...etc.

Position of the Municipal Manager was filled in May 2023. The position of the CFO, Director Corporate Support Services, Director Planning & LED and Director Community and Social Services has been vacant for a period of fourteen (14) months, positions have been advertised and recruitment process is currently unfolding.

- During the 2022/2023 financial year a total number of 12 positions were filled externally.
- Turnover is mainly as a result of terminations e.g. Death, Dismissals, Resignations, Retirements, Abscondment and ending of contracts.

| | • | | T 4.1.3 |

COMMENT ON VACANCIES AND TURNOVER:

During the financial year 2022/2023 appointments on critical and compliance positions were made by the municipality. e.g. Municipal Manager, Manager Records, OHS Practitioner, Pump Station Operators...etc.

Position of the Municipal Manager was filled in May 2023. The position of the CFO, Director Corporate Support Services, Director Planning & LED and Director Community and Social Services has been vacant for a period of fourteen (14) months, positions have been advertised and recruitment process is currently unfolding.

- During the 2022/2023 financial year a total number of 12 positions were filled externally.
- Turnover is mainly as a result of terminations e.g. Death, Dismissals, Resignations, Retirements, Abscondment and ending of contracts.

COMPONENT B: MANAGING THE MUNICIPAL WORKFORCE

INTRODUCTION TO MUNICIPAL WORKFORCE MANAGEMENT

Management finalised the process of reviewing the staff establishment for political offices and the staff establishment has been approved. Job Evaluation Policy and Placement Policy have been reviewed and approved by council.

The municipality strives to achieve its IDP goals achieve by ensuring on-time human resources provisioning following a rigorous recruitment process. Employees are valued as assets of the municipality and processes are in place to ensure capacity building of staff in support of their career aspirations.

Training and development opportunities are available for staff in the form of short courses and long-term interventions in the form of skills programmes with accredited institutions of higher learning. An Employment Equity Plan has been developed and implemented. Employment Equity annual reports on the implementation of the plan are sent to the Department of Labour as required by Employment Equity Act. A variety of policies were developed and implemented as indicated in Section 4.2 on policies.

4.2 POLICIES

Table 111: HR Policies and Plans

| 30 | Other: | | | |

COMMENT ON WORKFORCE POLICY DEVELOPMENT:

Management finalised the process of reviewing the Job Evaluation Policy and Placement Policy. The following policies are currently under review for alignment with municipal staff regulations:

- 1. Introduction and definitions
- 2. Normative framework of human resources management
- 3. Organisational design, approving and changing the organisational structure, creating and abolishing posts and the staff establishment
- 4. Recruitment, selection, appointment, promotion, demotion and transfer
- 5. Relocation policy
- 6. Labour relations
- 7. Employment equity

- 8. Employee remuneration
- 9. Allowances
- 10. Vehicle allowance policy
- 11. Acting allowance policy
- 12. Legal aid to employees and cession of action
- 13. Working hours and attendance
- 14. Leave
- 15. Employee wellness programme policy
- 16. HIV/aids policy
- 17. Private work
- 18. Training and development
- 19. Internship and experiential training policy
- 20. Career opportunities and succession planning
- 21. Confidentiality of information
- 22. Overtime
- 23. Theft / loss procedure
- 24. Membership of professional societies
- 25. Substance abuse (alcohol and drugs)

4.3 INJURIES, SICKNESS AND SUSPENSIONS

Table 112: Number and Cost of Injuries on Duty

| Type of injury | Injury Leave Taken | Employees using injury leave | Proportion employees using sick leave | Average Injury Leave per employee | Total Estimated Cost |
|---------------------------------------|--------------------------|---------------------------------------|--|--|----------------------------|
| | Days | No. | % | Days | R'000 |
| Required basic medical attention only | 19 | 8 | 42% | 4 | 19 258 |
| Temporary total disablement | 19 | 2 | 11% | 4 | 11206 |
| Permanent disablement | 0 / | 0 | | 0 | |
| Fatal | 0 | 0 | | 0 | |
| Total | 38 | 1.0 | 26% | 8 | 30 464 |
| · | | | | | T 4.3.1 |

COMMENT ON INJURY AND SICK LEAVE:

I.OD'S were less in 2022/23 as compared to 2021/22 Therefore, medical costs were lessor than the previous year. The injury on duty leave was utilised accordingly as loss time injury in the 2022/23. The normal process of reporting injuries to Dol, the progress report and final medical reports is an ongoing process until the injured personnel has fully recovered. Therefore, the resumption forms for all the recovered employees have been submitted to Dol.

Table 113: Number and Period of Suspensions

| Position | Disciplinary Action Taken on Ca Nature of Alleged Misconduct and Rand value of any loss to the municipality | Disciplinary action taken | Date Finalised | |
|-----------------|--|---------------------------|------------------------------|--|
| General Worker | Assault, insubordination, failure to obey lawful and reasonable instruction and disruption of services | Yes | 16 November 2023 | |
| Electrician | Performing private work and rude behaviour | Yes | Resigned November 2022 | |
| Meter Inspector | Performing private work and rude behaviour | Yes | Resigned January 2024 | |

|----------|---------------------------------|---|-------------------|
| | | NONE | |

COMMENT ON SUSPENSIONS AND CASES OF FINANCIAL MISCONDUCT

There were no cases on financial misconduct.

4.4 PERFORMANCE REWARDS

COMMENTS ON PERFORMANCE REWARDS

In terms of regulation 8 of the Local Government: Municipal Performance Regulations for Municipal Managers and Managers Directly Accountable to Municipal Managers, 2006 R.805 a performance bonus based on the affordability, may be paid to the employee, after -(1) the annual report for the financial year under review has been tabled and adopted by the municipal council; (2) an evaluation of performance in accordance with the provision of regulation 23; and (3) approval of such evaluation by the municipal council as a reward for outstanding performance.

Director's positions have been vacant during the year under review and different officials were appointed to act as Directors on rotational basis. The individual Performance Management System has not yet been cascaded down to the second reporting line of managers. Currently no performance bonus system exists to pay bonus to non-section 57 employees. This will be put in place once the organisation achieves the necessary performance management maturity level.

Table 115 Performance Rewards by Gender

COMMENT ON PERFORMANCE REWARDS

In terms of regulation 8 of the Local Government: Municipal Performance Regulations for Municipal Managers and Managers Directly Accountable to Municipal Managers, 2006 a performance bonus based on the affordability, may be paid to the employee, after -(1) the annual report for the financial year under review has been tabled and adopted by the municipal council; (2) an evaluation of performance in accordance with the provision of regulation 23; and (3) approval of such evaluation by the municipal council as a reward for outstanding performance.

Director's positions have been vacant during the year under review and different officials were appointed to act as Directors on rotational basis. The individual Performance Management System has not yet been cascaded down to the second reporting line of managers. Currently no performance bonus system exists to pay bonus to non-section 57 employees. This will be put in place once the organisation achieves the necessary performance management maturity level.

COMPONENT C: CAPACITATING THE MUNICIPAL WORKFORCE

Section 68(1) of the MSA states that a municipality must develop its human resource capacity to a level that enables it to perform its functions and exercise its powers in an economical, effective, efficient and accountable way. For this purpose, the human resource capacity of a Municipality must comply with the Skills

Development Act (SDA), 1998 (Act No. 81 of 1998), and the Skills Development Levies Act, 20 1999 (Act No. 28 of 1999).

INTRODUCTION TO WORKFORCE CAPACITY DEVELOPMENT

The WSP 2022/2023 and annual implementation plan 2022/2023 was submitted to LGSETA on 30 April 2022. With submission of the report and implementation plan thereof the Municipality received reimbursement of 20% of total levies paid to SARS from LGSETA.

Training programmes were not effectively implemented as planned due to the delay experienced with regard to appointment of panel of training providers.

IMPROVEMENTS MADE IN TERMS OF CAPACITY BUILDING BY THE MUNICIPALITY

- The municipality received 20% of the mandatory grant from LGSETA after submission of WSP & ATR 2022/2023.
- With the mandatory grant received from LGSETA and the municipal budget a total number of 67 employees were trained on the following courses:

| • | Health and safety representative | : 55 |
|---|--|------|
| • | Performance Management Training (Councilors) | : 19 |
| _ | NACONAL DEL COLON | |

Municipal Financial Management Programme : 11

FETC: Road Traffic Law Enforcement
 04

CHALLENGES FACING CAPACITY DEVELOPMENT IN THE MUNICIPALITY

- Financial affordability of the municipality
- Slow implementation of the Workplace Skills Plan (WSP) is still a challenge
- Assessment of the (ROI) value of training in the municipality.
- Finalisation of skills audit process

4.5 SKILLS DEVELOPMENT AND TRAINING

Table 116: Skills Matrix

The Skills Development Act, Act 97 of 1998, requires that employers should submit their WSP, ATR and PIVOTAL on or before 30 April each year. To ensure compliance with the Act, the municipality plan the relevant and effective training interventions on the WSP, so that employees can receive skills that are relevant to their needs and will assist them to perform their duties in an effective and efficient manner. The training interventions in the WSP are planned in a manner that they address the municipality's priorities planned in the IDP, and the relevant regulations and legislation. A total number of 58 employees received training during the year in review. Training was planned for 76 employees, however, only 58 attended.

The municipal internal budget together with a rollover of the LGSETA mandatory grant was allocated for implementing employees' skills development initiatives in line with the approved Workplace Skills Plan. Total expenditure for the year amounted to R 203 824.00. Due to the delay experienced regarding appointment of panel of training providers implementation of training initiatives was negatively affected resulting in under expenditure for the year under-review. A concerted effort has been made to ensure that both the relevant employees and financial management interns are trained to be compliant with the MFMA Competency Regulations.

COMPONENT D: MANAGING THE WORKFORCE EXPENDITURE

INTRODUCTION TO WORKFORCE EXPENDITURE

Workforce expenditure forms part of the municipal operational expenditure budget and managed by each directorate with the support of our Finance Directorate. It involves salaries, contributions to medical aids, pension funds, housing scheme, UIF, group life insurance, travelling, and cell-phone allowances.

All the expenditure incurred should be in line with the approved budget. When the staff establishment is approved, provision is made in the budget for all the posts which can be filled and the time frames in respect thereof. No unfunded posts may be filled. The municipality ensures that it recruits employees that are capable of effectively rendering the service towards achieving its strategic goals.

4.6 EMPLOYEE EXPENDITURE

COMMENT ON WORKFORCE EXPENDITURE

The success or failure of a municipality depends on the quality of its political leadership, sound governance of its finances, the strength of its institutions and the calibre of staff working for the municipality.

Although sound financial governance is perceived to be most important, without proper personnel management, municipalities are likely to have trouble. This has become increasingly evident in a number of large municipalities that have recently found themselves in precarious financial situations and is certainly true of many smaller municipalities. An analysis of municipal finances suggests that personnel issues lie at the heart of many of the financial problems experienced by municipalities.

At an aggregate level, about 30 per cent of the total municipal operating budget is spent on the remuneration of personnel.

Municipalities are required to carry out quality services in an effective, efficient and financially sound manner by supporting the principles of ensuring cost-effective and affordable service delivery. Accountability and transparency are, therefore, important when managing workforce expenditure. If the Municipality wants to be effective, it is important to ensure that the Municipality plan properly. To ensure that the Municipality adhere to legislation, only approved and budgeted posts on the structure are advertised. The training and development of internal staff are aimed at ensuring that they are able to perform their duties better.

COMMENT ON UPGRADED POSTS AND THOSE THAT ARE AT VARIANCE WITH NORMAL PRACTICE:

There was no upgrade of positions due to delays in unfolding of the job evaluation process for the financial year 2022/23. Some variances are legacy issues that occurred because of previous amalgamation.

CHAPTER 5 – FINANCIAL PERFORMANCE

INTRODUCTION

The municipality is highly dependent on the generation of its own revenue. The municipality had an actual ratio of 67% of own revenue generated during the financial year, and the 33% comprising of government grants and subsidies. This puts a lot of financial pressure on municipality in terms of collecting the outstanding debt to fund operations.

The total assets of the municipality amount to R2.7 billion with current assets amounting to R616 million and non-current assets amounting to R2.1 billion. The current assets mainly comprised of cash and cash equivalents, Inventories, Investments, receivable from exchange transactions, receivables from non-exchange transactions and VAT receivable.

The chapter comprises of the following three components:

- Component A: Statement of Financial Performance
- Component B: Spending Against Capital Budget
- Component C: Other Financial Matters

COMPONENT A: STATEMENTS OF FINANCIAL PERFORMANCE

INTRODUCTION TO FINANCIAL STATEMENTS

The financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention, unless specified otherwise. The Financial Statements have been prepared in accordance with the Municipal Finance Management Act, 2003 (Act 56 of 2003) (MFMA) and effective standards of Generally Recognised Accounting Practices (GRAP), including any interpretations and directives issued by the Accounting Standards Board (ASB) in accordance with Section 122 (3) of the MFMA.

Note: Statements of Revenue Collection Performance by vote and by source are included at Appendix K.

5.1 STATEMENTS OF FINANCIAL PERFORMANCE

INTRODUCTION TO FINANCIAL STATEMENTS

The following sections provide an overview of the financial results of the Municipality for the year under review per economic classification compared to the prior year audited results, the original and final adjustments budget.

COMMENT ON FINANCIAL PERFORMANCE

The financial performance of the municipality is under severe stress and rendering the municipality non-functional. The collection rate keeps sinking further and further due to poor implementation of policies, hacking of the financial system and unsatisfied account payers.

| Repairs and Maintenance Expenditure 2022/23 | | | 99 520 | 79% |

COMMENT ON REPAIR AND MAINTENANCE EXPENDITURE:

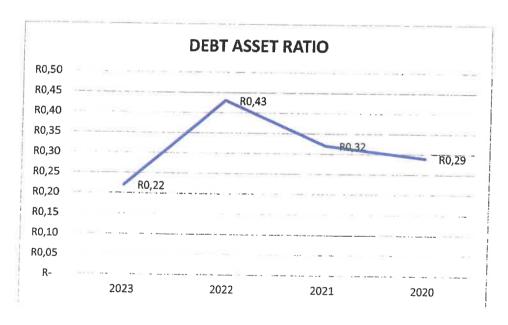

The majority of the Repairs and maintenance expenditure for the 2022/23 has been reclassified to contracted services and materials as a result of the municipal Standard Chart of Accounts classification requirements which came into effect on the 01 July 2017.

The majority of these repairs' maintenance work carried out relates to the sewer and water infrastructure which continues to collapse and burnt time and again.

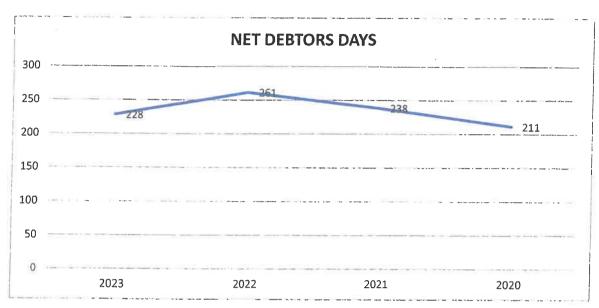

Figure 11: Ratio: Net Debtors Days

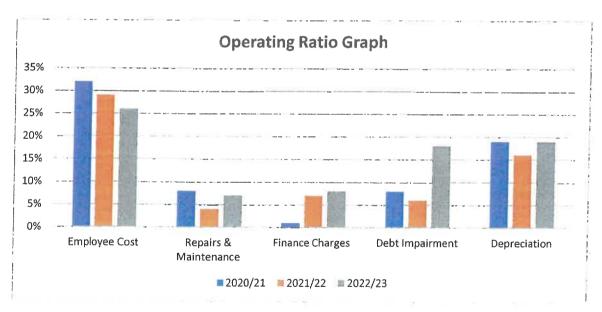

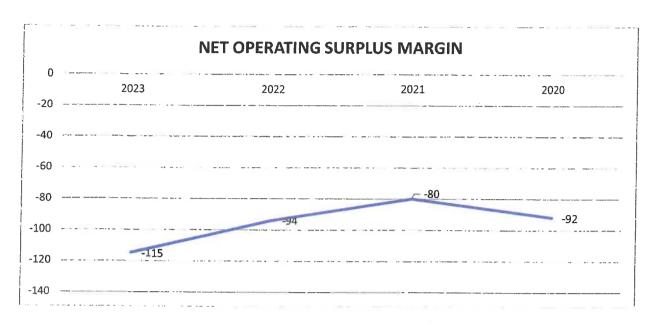

Figure 12: Operating Ratio

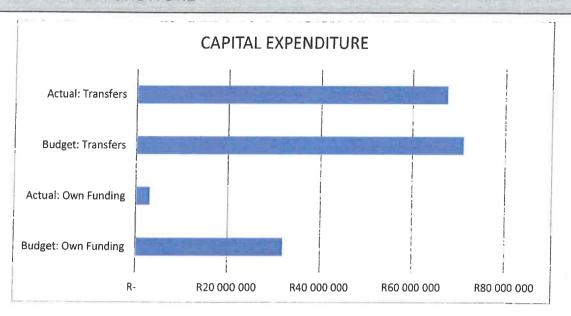

Graph 136: Net Operating Surplus Margin

COMPONENT B: SPENDING AGAINST CAPITAL BUDGET

INTRODUCTION TO SPENDING AGAINST CAPITAL BUDGET

Capital expenditure relates mainly to construction projects that will have value lasting over many years. Capital expenditure is funded from grants, borrowings and operating expenditures and surpluses. Component B deals with capital spending indicating where the funding comes from and whether Municipalities are able to spend the available funding as planned. In this component, it is important to indicate the different sources of funding as well as how these funds are spent. Highlight the five largest projects and indicate what portion of the capital budget they use. In the introduction briefly refer to these key aspects of capital expenditure (usually relating to new works and renewal projects) and to **Appendices M** (relating to the new works and renewal programmes), **N** (relating to the full programme of full capital projects, and **O** (relating to the alignment of projects to wards).

5.8 BASIC SERVICE AND INFRASTRUCTURE BACKLOGS - OVERVIEW

INTRODUCTION TO BASIC SERVICE AND INFRASTRUCTURE BACKLOGS

The municipality has set targets for achieving the national outcomes for basic services in the 2022-2027 approved Integrated Development Plan (IDP). By the end of 2022/23 financial year, 100% of the households in the municipal area had access to piped water within 200m from their dwelling. With regard to access to basic sanitation, 99% of households had access to basic sanitation, and 100% of households received a weekly refuse removal service. Hundred percent (100%) of the households located in the Municipality's area of jurisdiction have access to electricity, namely: Kroonstad, Maokeng, Viljoenskroon and Steynsrus.

COMMENT ON BACKLOG

Service delivery backlogs in Moqhaka Local Municipality like many others in South Africa often involve delays and challenges in providing essential services such as water, sanitation, electricity and waste management. Moqhaka Municipality has worked hard over the years to ensure that backlogs are at minimum level as seen in Table 129.

COMPONENT C: CASH FLOW MANAGEMENT AND INVESTMENTS

INTRODUCTION TO CASH FLOW MANAGEMENT AND INVESTMENTS

The proper management of cash resources is paramount in ensuring viability and sustainable growth and development. The collective objectives of the cash and investment management is to ensure availability at all times of adequate liquid resources for operational purposes and investment in assets and maintaining optimal balance between available cash and cash investments. The municipality did not maintain significant investments due to pressing operational requirements and an effort to maintain creditors' payment within 30 days and addressing the long-term liabilities.

5.9 CASH FLOW

5.10 BORROWING AND INVESTMENTS

INTRODUCTION TO BORROWING AND INVESTMENTS

This long-term borrowing is attributable to the Development bank of South Africa (DBSA), The municipality has made arrangements to servicing this debt as per the agreement.

Graph 14: Actual Borrowings

COMMENT ON BORROWING AND INVESTMENTS:

The municipality's investments were made in line with the municipal investment regulations GNR 308 01 April 2005. This mainly relates to grants funding which were kept in the call account until needed to defray project costs/expenditure.

5.11 PUBLIC PRIVATE PARTNERSHIPS

The municipality did not enter into any Public Private Partnerships during the 2022/23 financial year.

COMPONENT D: OTHER FINANCIAL MATTERS

5.12 SUPPLY CHAIN MANAGEMENT

COMMENTS ON SUPPLY CHAIN MANAGEMENT

The municipality's implementation of the supply chain unit is progressing slowly due to significant shortage of staff. Two of the existing supply chain officials have attained the required MFMA competency levels.

The municipality continues to make effort to revise the organogram of supply chain and employ independent and reputable officials within the SCM Unit.

The following tenders was awarded during the 2022/23 financial year.

| NO | NAME OF PROJECT | TENDER NO | LOCAL | REPORTED TO DTI | BSC | CLOSING DATE |

5.13 GRAP COMPLIANCE

COMMENTS ON GRAP COMPLIANCE

GRAP is the acronym for Generally Recognized Accounting Practice, and it provides the rules by which municipalities are required to maintain their financial accounts. Successful GRAP compliance will ensure that municipal accounts are comparable and more informative for the municipality. It will also ensure that the municipality is more accountable to its citizens and other stakeholders. Information on GRAP compliance is needed to enable National Treasury to assess the pace of progress and consider the implications.

The municipality complies with the requirements of all GRAP standards, which are effective and applicable to its environment. On a yearly basis, the Accounting Standard Board issues new/updated/revised standards, which are implemented accordingly by the municipality.

| RAP STANDARDS |

CHAPTER 6 – AUDITOR GENERAL AUDIT FINDINGS

INTRODUCTION

The following table outlines the municipality's performance in the Audit outcomes from prior year to current financial year.

Refer to the Annual Financial Statements set out in Volume II and the timescale for the audit of these accounts and the audit of performance and the production of reports on these matters by the Auditor General as set out in this Chapter.

| Non-Compliance Issues | Remedial Action Taken | |
| and (c). A similar non-compliance was also reported in the prior year. | | |
| Sufficient appropriate audit evidence could not be obtained that written quotations were accepted from prospective providers who were on the list of accredited providers and who met the listing requirements as prescribed by the SCM policy, in contravention of SCM regulations 16(b) | - | |
| Sufficient appropriate audit evidence could not be obtained that contracts were extended or modified with the approval of a properly delegated official as required by SCM regulation 5. | | |
| Consequence Management The municipality did not include all instances of fruitless and wasteful expenditure incurred in the notes to the financial statements, as required by section 125(2)(d) of the MFMA | Action Plan still to be developed by management but the corrective measures have been implemented to prevent reoccurrence. The detailed corrective measure will be outlined in the audit action plan. | |
| As disclosed in note 47 to the financial statements, the municipality incurred irregular expenditure of R97 477 869 (2022: RI 20 483 256), due to noncompliance with supply chain management (SCM) requirements. | | |

| Status of audit report**: | |
|---|---|
| Non-Compliance Issues | Remedial Action Taken |
| An achievement of 21% was reported against a target of 30%. However, the audit evidence showed the actual achievement to be 34%. Consequently, the actual achievement against the target was lower than reported. | Action Plan developed by management but the corrective measures have been implemented to prevent reoccurrence. The detailed corrective measure will be outlined in the audit action plan. |

COMPONENT B: AUDITOR-GENERAL OPINION 2022/23 (CURRENT YEAR)

6.2 AUDITOR GENERAL REPORT 2022/23

Report of the auditor-general to the Free State Provincial Legislature and the council on the Moqhaka Local Municipality

Report on the audit of the financial statements

Qualified opinion

I have audited the financial statements of the Moqhaka Local Municipality set out on pages 376 to 471, which comprise the statement of financial position as at 30 June 2023, statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget and actual amounts for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.

In my opinion, except for the effects of the matters described in the basis for qualified opinion section of this auditor's report, the financial statements present fairly, in all material respects, the financial position of the Moqhaka Local Municipality as at 30 June 2023, and its financial performance and cash flows for the year then ended in accordance with the South African Standards of Generally Recognised Practice (GRAP) and the requirements of the Municipal Finance Management Act 56 of 2003 (MFMA) and the Division of Revenue Act 05 of 2022 (Dora).

Basis for qualified opinion

arvice charges

The municipality did not recognise revenue from service charges in accordance with GRAP 9, Revenue from exchange transactions as some consumers were not billed for service charges during the year. Consequently, service charges disclosed in note 21 to the financial statements were understated by R169 553 924 and receivables from exchange transactions disclosed in note 6 to the financial statements were understated by the same amount. Additionally, there was an impact on the deficit for the year and accumulated surplus.

Property, plant and equipment

The municipality did not correctly account for the impairment loss on assets in accordance with GRAP 26, Impairment of cash-generating assets as the municipality did not assess the physical condition of its infrastructure assets in all instances. Consequently, impairment loss on assets disclosed in note 44 to the financial statements was understated by R49 557 496 and property plant and equipment disclosed in note 12 to the financial statements was overstated by the same amount. Additionally, there was an impact on the deficit for the year and accumulated surplus.

Inventories

The municipality did not correctly account for inventories in accordance with iGRAP 18, Recognition and derecognition of land, as the municipality incorrectly recognised owner-occupied vacant land not held for re-sale as inventory. Consequently, inventories disclosed in note 4 to the financial statements were overstated by R19 442 549 and property, plant and equipment disclosed in note 12 to the financial statements were understated by the same amount. In addition, the municipality did not implement adequate systems to record consumable inventory stock on hand in accordance with GRAP 12, Inventory as not all inventory stock items could be physically verified. Consequently, inventories were overstated by R23 450 312 and consumables stores included as part of general expenditure disclosed in note 42 to the financial statements were overstated by the same amount. Additionally, there was an impact on the deficit for the year and accumulated surplus.

Provisions

The municipality did not correctly classify the rehabilitation of landfill sites and rehabilitation cost of quarries included as part of provisions in note 17 to the financial statements in accordance with GRAP 1, *Presentation of financial statements* as the municipality incorrectly recognised the rehabilitation costs for the landfill sites and a quarry that reached the end of its useful life as a non-current liability. Consequently, the non-current portion of the rehabilitation of landfill sites and the rehabilitation cost of quarries included as part of note 17 to the financial statements was overstated by R68 889 630 and R7 875 223 respectively and the current portion of the rehabilitation of landfill sites and the rehabilitation cost of quarries was understated by the same amounts.

Repairs and maintenance

The municipality did not correctly classify repairs and maintenance in accordance with GRAP 1, *Presentation of financial statements* as the municipality incorrectly recorded general expenditure and contracted services as repairs and maintenance. Consequently, repairs and maintenance as disclosed in note 36 to the financial statements was overstated by R20 846 435, general expenditure disclosed in note 42 to the financial statements was understated by R354 719 and contracted services disclosed in note 41 to the financial statements was understated by R20 491 715.

Distribution losses

The municipality did not correctly account for the water distribution losses as required by section 125(2)(d)(i) of the MFMA as material differences were identified between the water distribution losses calculations and the consumption billed according to service charges. Consequently, water distribution losses disclosed in note 53 to the financial statements were understated by R36 206 561.

Fruitless and wasteful expenditure

The municipality did not include all instances of fruitless and wasteful expenditure incurred in the notes to the financial statements, as required by section 125(2)(d) of the MFMA. This was due to payments made on infrastructure projects that could not be verified. Consequently, I was unable to determine the full extent of the understatement of fruitless and wasteful expenditure as stated at R61 001 447 in note 48 to the financial statements, as it was impracticable to do so.

Context for opinion

- I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the responsibilities of the auditor-general for the audit of the financial statements section of my report.
- I am independent of the municipality in accordance with the International Ethics Standards Board for Accountants' International code of ethics for professional accountants (including International Independence Standards) (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
- I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Material uncertainty relating to going concern

I draw attention to the matter below. My opinion is not modified in respect of this matter.

Note 55 to the financial statements indicates that the municipality incurred a net loss of R372 523 214 during the year ended 30 June 2023 and, as of that date, the municipality's current liabilities exceeded its current assets by R1 210 622 032. In addition, the payables from exchange transactions for periods longer than 30 days amounted to R1 035 790 696 as at 30 June 2023, which was long overdue. These events or conditions, along with other matters as set forth in note 55, indicate that a material uncertainty exists that may cast significant doubt on the municipality's ability to continue as a going concern.

Emphasis of matters

I draw attention to the matters below. My opinion is not modified in respect of these matters.

Unauthorised expenditure

As disclosed in note 49 to the financial statements, unauthorised expenditure of R359 021 522 (2022: R104 156 372) was incurred due to the overspending of the budget.

Irregular expenditure

As disclosed in note 47 to the financial statements, the municipality incurred irregular expenditure of R97 477 869 (2022: R120 483 256), due to non-compliance with supply chain management (SCM) requirements.

Material losses

As disclosed in note 53 to the financial statements, material electricity distribution losses of R84 159 822 (2022: R75 705 534) were incurred by the municipality, which represents 17,18% (2022: 16,24%) of total electricity purchased, mainly due to line losses, tampering and theft.

Material impairments

As disclosed in notes 6 and 7 to the financial statements, receivables from exchange transactions and receivables from non-exchange transactions were impaired by R775 800 835 (2022: R656 751 410) and R44 918 166 (2022: R33 016 327) respectively.

As disclosed in note 53 to the financial statements, material losses of R138 713 763 was incurred as a result of a write-off of irrecoverable receivables from exchange transactions and receivables from non-exchange transactions

Material uncertainty relating to claims against the municipality

With reference to note 58 to the financial statements, the municipality is the defendant in various claims against the municipality. The municipality is opposing the claims. The ultimate outcome of the matters could not be determined and no provision for any liabilities that may result was made in the financial statements.

Restatement of corresponding figures

As disclosed in note 51 to the financial statements, the corresponding figures for 30 June 2022 were restated as a result of errors in the financial statements of the municipality, and for the year ended, 30 June 2023.

Other matters

I draw attention to the matters below. My opinion is not modified in respect of these matters.

Unaudited disclosure notes

In terms of section 125(2)(e) of the MFMA, the particulars of non-compliance with the MFMA should be disclosed in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion on it.

Reponsibilities of the accounting officer for the financial statements

The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the Standards of GRAP and the requirements of the MFMA and Dora, and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the accounting officer is responsible for assessing the municipality's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipality or to cease operations or has no realistic alternative but to do so.

Responsibilities of the auditor-general for the audit of the financial statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objectives for the selected key performance area (KPA) presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.

I selected the following KPA presented in the annual performance report for the year ended 30 June 2023 for auditing. I selected the KPA that measures the municipality's performance on its primary mandated functions and that is of significant national, community or public interest.

| КРА | Page numbers | Purpose |
|------------------------|-----------------|---|
| Basic service delivery | 64 - 263 | To provide and maintain basic services (i.e. water, sanitation, electricity, roads, waste management) to the community of the municipality. |

I evaluated the reported performance information for the selected KPA against the criteria developed from the performance management and reporting framework, as defined in the general notice. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users on the municipality's planning and delivery on its mandate and objectives.

I performed procedures to test whether:

- the indicators used for planning and reporting on performance can be linked directly to the municipality's mandate and the achievement of its planned objectives
- the indicators are well defined to ensure that they are easy to understand and can be applied consistently, as well as verifiable so that I can confirm the methods and processes to be used for measuring achievements
- the targets can be linked directly to the achievement of the indicators and are specific, time bound and measurable to ensure that it is easy to understand what should be delivered and by when, the required level of performance as well as how performance will be evaluated
- the indicators and targets reported on in the annual performance report are the same as those committed to in the approved initial or revised planning documents
- the reported performance information is presented in the annual performance report in the prescribed manner
- there is adequate supporting evidence for the achievements reported and measures taken to improve performance.

The material findings on the usefulness and reliability of the reported performance information for the selected KPA are as follows.

Basic service delivery

Percentage reduction in water losses in the municipal distribution area

An achievement of 21% was reported against a target of 30%. However, the audit evidence showed the actual achievement to be 34%. Consequently, the actual achievement against the target was lower than reported.

Other matters

I draw attention to the matters below.

Achievement of planned targets

The annual performance report includes information on reported achievements against planned targets and provides measures taken to improve performance. This information should be considered in the context of the material findings on the reported performance information.

Material misstatements

I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were in the reported performance information for basic service delivery. Management did not correct the misstatements and I reported material findings in this regard.

Report on compliance with legislation

In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the municipality's compliance with legislation.

I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.

Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the municipality, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.

The material findings on compliance with the selected legislative requirements, presented per compliance theme, are as follows:

Annual financial statements

The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of non current liabilities, revenue, expenditure, cash flow statement and disclosure items identified by the auditors in the submitted financial statements were subsequently corrected and the supporting records were provided subsequently, but the uncorrected material misstatements and supporting records that could not be provided resulted in the financial statements receiving a qualified audit opinion.

The annual financial statements were not submitted to the Auditor-General for auditing, within two months after the end of the financial year, as required by section 126(1)(a) of the MFMA.

Expenditure management

Money owed by the municipality was not always paid within 30 days as required by section 65(2)(e) of the MFMA

Reasonable steps were not taken to prevent irregular expenditure amounting to R97 477 869 as disclosed in note 47 to the annual financial statements, as required by section 62(1)(d) of the MFMA. The majority of the disclosed irregular expenditure was caused by non-compliance with SCM legislation.

Reasonable steps were not taken to prevent fruitless and wasteful expenditure, as required by section 62(1)(d) of the MFMA. The full extent of the fruitless and wasteful expenditure could not be quantified as indicated in the basis for qualification paragraph. The majority of the disclosed fruitless and wasteful expenditure was caused by interest and penalties levied due to the late payments to suppliers.

Reasonable steps were not taken to prevent unauthorised expenditure amounting to R359 021 522, as disclosed in note 49 to the annual financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the unauthorised expenditure was caused by the overspending of the budget.

Procurement and contract management

Some of the goods and services with a transaction value of below R200 000 were procured without obtaining the required price quotations, in contravention of SCM regulation 17(1)(a) and (c). A similar non-compliance was also reported in the prior year.

Sufficient appropriate audit evidence could not be obtained that written quotations were accepted from prospective providers who were on the list of accredited providers and who met the listing requirements as prescribed by the SCM policy, in contravention of SCM regulations 16(b) and 17(1)(b).

Some of the goods and services of a transaction value above R200 000 were procured without inviting competitive bids, as required by SCM regulation 19(a). Deviations were approved by the accounting officer even though it was not impractical to invite competitive bids, in contravention of SCM regulation 36(1).

Sufficient appropriate audit evidence could not be obtained that contracts were extended or modified with the approval of a properly delegated official as required by SCM regulation 5. The limitations were identified in the procurement processes for the following key projects:

- Maokeng/Nyakallong: Upgrading of community and sports facility.
- Maokeng (Constantia): Construction of sewer pipeline Caswell at Caswell Koekoe street.

Sufficient appropriate audit evidence could not be obtained that the performance of contractors or providers was monitored on a monthly basis as required by section 116(2) of the MFMA. A similar limitation was also reported in the prior year. The limitations were identified in the procurement processes for the following key projects:

- Maokeng/Nyakallong: Upgrading of community and sports facility.
- Maokeng (Constantia): Construction of sewer pipeline Caswell at Caswell Koekoe street.

Sufficient appropriate audit evidence could not be obtained that contract performance and monitoring measures were in place to ensure effective contract management as required by section 116(2)(c)(ii) of the MFMA. A similar limitation was also reported in the prior year. The limitations were identified in the procurement processes for the key projects:

- Maokeng/Nyakallong: Upgrading of community and sports facility.
- Maokeng (Constantia): Construction of sewer pipeline Caswell at Caswell Koekoe Street

Consequence management

Unauthorised expenditure incurred by the municipality was not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(a) of the MFMA.

Irregular expenditure incurred by the municipality were not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(b) of the MFMA.

Fruitless and wasteful expenditure incurred by the municipality was not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(b) of the MFMA.

Utilisation of conditional grant

- I was unable to obtain sufficient appropriate audit evidence that the municipal infrastructure grant was spent for its intended purposes in accordance with the applicable grant framework, as required by section 16(1) of the Dora.
- Performance in respect of programmes funded by the municipal infrastructure grant was not evaluated within two months after the end of the financial year, as required by section 12(5) of the Dora.
- Performance in respect of programmes funded by the regional bulk infrastructure grant was not evaluated within two months after the end of the financial year, as required by section 12(5) of the Dora.
- Performance in respect of programmes funded by the water services infrastructure grant was not evaluated within two months after the end of the financial year, as required by section 12(5) of the Dora.

Other information in the annual report

- The accounting officer is responsible for the other information included in the annual report. The other information referred to does not include the financial statements, the auditor's report and the selected KPA presented in the annual performance report that have been specifically reported on in this auditor's report.
- My opinion on the financial statements, the report on the audit of the annual performance report and the report on compliance with legislation do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.
- My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the financial statements and the selected KPA presented in the annual performance report or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
- I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to

communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and reissue an amended report as appropriate. However, if it is corrected this will not be necessary.

Internal control deficiencies

I considered internal control relevant to my audit of financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.

The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for the qualified of opinion and the material findings on the annual performance report and the material findings on compliance with legislation included in this report.

Instability in senior management positions, including the position of municipal manager and chief financial officer resulted in management not implementing adequate oversight controls or implementing effective consequence management. As a result, misstatements were not prevented or detected and corrected, which resulted in the modification of the auditors' opinion, the findings reported on performance information and non-compliance with laws and regulations.

The leadership's lack of accountability for sound financial management had a negative impact on the municipality's financial sustainability, overspending of the budget, irregular and fruitless and wasteful expenditure not being prevented.

Consequence management was not effective as the council did not investigate all instances of unauthorised, irregular and fruitless and wasteful expenditure to determine whether any person was liable for the expenditure.

Material irregularities

In accordance with the PAA and the Material Irregularity Regulations, I have a responsibility to report on material irregularities identified during the audit and on the status of material irregularities as previously reported in the auditor's report.

Material irregularities identified during the audit

The material irregularities identified are as follows:

Annual financial statements not submitted for auditing (2022/2023)

The annual financial statements for the year ending 30 June 2023 were not submitted to the Auditor-General for auditing within two months after the end of the financial year (31 August 2023), as required by section 126(1)(a) of the MFMA. The non-submission of the annual financial statements for auditing, and the subsequent non-tabling of the annual report, is likely to result in substantial harm to the municipality, as there is a lack of accountability and transparency for the fiscal and financial affairs of the municipality. This is due to the legislative processes that follow after the submission of the annual financial statements relating to the financial year ending 30 June 2023 being delayed or not implemented.

The accounting officer was notified of this material irregularity on 8 November 2023 and invited to make a written submission on the actions taken and that will be taken to address the matter. The accounting officer submitted the annual financial statements for auditing on 29 February 2024.

Therefore, the material irregularity has been resolved.

State of previously reported material irregularities

Eskom not paid within prescribed period

The accounting officer did not take all reasonable steps to ensure that amounts due to Eskom or the bulk purchase of electricity were paid within the prescribed period after receiving the relevant invoice or statement, as required by section 65(2)(e) of the MFMA. As a result of the late payment, the municipality incurred interest of R17 815 284 for the financial year ended 30 June 2022. The interest incurred is likely to result in a material financial loss for the municipality due to the liability to pay the interest to Eskom.

The accounting officer was notified of the material irregularity on 28 November 2022. The accounting officer did not take appropriate action to address the material irregularity. I recommend that the accounting officer should take the following actions to address the material irregularity, which should be implemented by 30 June 2024 with progress reports every 2 months:

- (a) Appropriate action should be taken to commence with implementation of the financial plan to address the financial problems of the municipality that are preventing it from paying Eskom within 30 days, as required by MFMA section 65(2)(e). The financial plan should include realistic timeframes and milestones to be achieved and include as a minimum strategy to:
 - Increase revenue.
 - Increase the collection of revenue.
 - Efficiently manage the available resources of the municipality by accurate budgeting, budget management and cost cutting; and

 Negotiate a reasonable payment arrangement with Eskom and properly budget for the amounts to be paid.

I will follow up on the implementation of the recommendations after the due date.

Pollution of water resource not prevented - Kroonstad wastewater treatment works

The Kroonstad wastewater treatment works has not been operating effectively and in need of maintenance and repair work. This resulted in continued spilling and discharge of raw/untreated sewage into the adjacent environment, including the groundwater, Vals River and its extended watercourse. The municipality did not take reasonable measures to prevent pollution or degradation of the environment and water resource from occurring, continuing, or recurring, as required by section 28(1) of the National Environmental Management Act 107 of 1998 (NEMA) and section 19(1) of the National Water Act 36 of 1998 (NWA). The discharge of raw/untreated sewage into the environment is likely to cause substantial harm to the communities exposed to, and dependent on, the contaminated water resources.

The accounting officer was notified of the material irregularity on 31 October 2022. The accounting officer did not take appropriate action to resolve the material irregularity. On 27 February 2024 I referred the material irregularity to the Department of Water and Sanitation for investigation as provided for in section 5(1A) of the PAA.

Pollution of water resource not prevented - Viljoenskroon wastewater treatment works

The Viljoenskroon wastewater treatment works has not been operating effectively and in need of maintenance and repair work. This resulted in continued spilling and discharge of raw/untreated sewage into the adjacent environment, including the groundwater, Olifantsdrift River and its extended watercourse. The municipality did not take reasonable measures to prevent pollution or degradation of the environment and water resource from occurring, continuing, or recurring, as required by section 28(1) of the NEMA and section 19(1) of the NWA. The discharge of raw/untreated sewage into the environment is likely to cause substantial harm to the communities exposed to, and dependent on, the contaminated water resources.

The accounting officer was notified of the material irregularity on 31 October 2022. The accounting officer did not take appropriate action to resolve the material irregularity. On 27 February 2024 I referred the material irregularity to the Department of Water and Sanitation for investigation as provided for in section 5(1A) of the PAA.

Other reports

In addition to the investigations relating to material irregularities, I draw attention to the following engagements conducted by various parties. These reports did not form part of my opinion on the

financial statements or my findings on the reported performance information or compliance with legislation.

During 2022-23, the Council initiated a forensic investigation into allegations of collusion during the appointment processes of a prepaid electricity vendor and its financial impact between 1 November 2019 and 1 October 2022 that could result in financial losses to the municipality. At the date of this report, the investigation was still in progress and a final report was not available.

The directorate for Priority Crime Investigation investigated four cases of fraud and corruption in the municipality. At the date of the report, for one of these cases, a final proclamation was published for the investigation into a physical security services contract at the municipality for the period 1 January 2019 to date, and for the others, the particulars of any investigations were not provided.

The directorate for Priority Crime Investigation investigated a case in which one of the accused is now deceased and charges against three other accused were provisionally withdrawn since 1 October 2021. At the date of this report, the investigation into the irregular award of a protection and security service was still in progress.

Bloemfontein

17 April 2024

Qualitoe- General

Auditing to build public confidence

Annexure to the auditor's report

1. The annexure includes the following:

The auditor-general's responsibility for the audit

The selected legislative requirements for compliance testing

Auditor-general's responsibility for the audit

Professional judgement and professional scepticism

2. As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected development priorities and on the municipality's compliance with selected requirements in key legislation

Financial statements

- 3. In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made
- conclude on the appropriateness of the use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the municipality to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's

report. However, future events or conditions may cause a municipality to cease operating as a going concern

evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation

Communication with those charged with governance

- 4. I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit
- 5. I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied

Compliance with legislation - selected legislative requirements

The selected legislative requirements are as follows:

| Legislations | Sections or regulations | |
|---|--|--|
| Municipal Finance Management Act 56 of 2003 | Section 1 - Paragraph (a), (b) & (d) of the definition: irregular expenditure, Section 1 - Definition: service delivery and budget implementation plan, Sections 11(1), 13(2), 14(1), 14(2)(a), 14(2)(b), 15, 24(2)(c)(iv), 29(1), Sections 29(2)(b), 32(2), 32(2)(a), 32(2)(a)(i), 32(2)(a)(ii), 32(2)(b), Sections 32(6)(a), 32(7), 53(1)(c)(ii), 54(1)(c), 62(1)(d), 62(1)(f)(i), Sections 62(1)(f)(ii), 62(1)(f)(iii), 63(1)(a), 63(2)(a), 63(2)(c), 64(2)(b), Sections 64(2)(c), 64(2)(e), 64(2)(f), 64(2)(g), 65(2)(a), 65(2)(b), 65(2)(e), Sections 72(1)(a)(ii), 112(1)(j), 116(2)(b), 116(2)(c)(ii), 117, 122(1), Sections 122(2), 126(1)(a), 126(1)(b), 127(2), 127(5)(a)(i), 127(5)(a)(ii), Sections 129(1), 129(3), 133(1)(a), 133(1)(c)(i), 133(1)(c)(ii), 170, | |

COMMENTS ON AUDITOR-GENERAL'S OPINION YEAR 2022/23:

The municipality received a qualified audit opinion during the 2022/23 financial year's audit outcomes. The municipality strives to efficiently administer its financial resources, so as to ensure that it renders appropriate services to its local community. Despite the challenges of non-by a number of consumers to whom services have been rendered. The municipality values the audit process and as a result, we ensure that issues raised by the AGSA are timeously attended to and corrected so as to ensure continuous and improved service delivery to the community of Moghaka Local Municipality.

Some of the technical issues as contained in the report, the municipality plans to get the necessary support to have such issues addressed and ensure that it does not recur on the upcoming audit.

COMMENTS ON MFMA SECTION 71 RESPONSIBILITIES:

Section 71 of the MFMA requires municipalities to return a series of financial performance data to the National Treasury at specified intervals throughout the year. The Chief Financial Officer states that these data sets have been returned according to the reporting requirements.

GIOSSAIY

GLOSSARY

| Accessibility indicators | Explore whether the intended beneficiaries are able to access services or outputs. |
|--------------------------------------|--|
| Accountability documents | Documents used by executive authorities to give "full and regular" reports on the matters under their control to Parliament and provincial legislatures as prescribed by the Constitution. This includes plans, budgets, in-year and Annual Reports. |
| Activities | The processes or actions that use a range of inputs to produce the desired outputs and ultimately outcomes. In essence, activities describe "what we do". |
| Adequacy indicators | The quantity of input or output relative to the need or demand. |
| Annual Report | A report to be prepared and submitted annually based on the regulations set out in Section 121 of the Municipal Finance Management Act. Such a report must include annual financial statements as submitted to and approved by the Auditor-General. |
| Approved Budget | The annual financial statements of a municipality as audited by the Auditor General and approved by council or a provincial or national executive. |
| Baseline | Current level of performance that a municipality aims to improve when setting performance targets. The baseline relates to the level of performance recorded in a year prior to the planning period. |
| Basic municipal service | A municipal service that is necessary to ensure an acceptable and reasonable quality of life to citizens within that particular area. If not provided it may endanger the public health and safety or the environment. |
| Budget year | The financial year for which an annual budget is to be approved – means a year ending on 30 June. |
| Cost indicators | The overall cost or expenditure of producing a specified quantity of outputs. |
| Distribution indicators | The distribution of capacity to deliver services. |
| Financial Statements | Includes at least a statement of financial position, statement of financial performance, cash-flow statement, notes to these statements and any other statements that may be prescribed. |
| General Key performance indicators | After consultation with MECs for local government, the Minister may prescribe general key performance indicators that are appropriate and applicable to local government generally. |
| Impact | The results of achieving specific outcomes, such as reducing poverty and creating jobs. |
| Inputs | All the resources that contribute to the production and delivery of outputs. Inputs are "what we use to do the work". They include finances, personnel, equipment and buildings. |
| Integrated Development Plan (IDP) | Set out municipal goals and development plans. |
| National Key performance areas | Service delivery & infrastructure Economic development Municipal transformation and institutional development Financial viability and management Good governance and community participation |
| Outcomes | The medium-term results for specific beneficiaries that are the consequence of achieving specific outputs. Outcomes should relate clearly to an institution's strategic goals and objectives set out in its plans. Outcomes are "what we wish to achieve". |
| Outputs | The final products, or goods and services produced for delivery. Outputs may be defined as "what we produce or deliver". An output is a concrete achievement (i.e. a product such as a passport, an action such as a presentation or immunization, or a service such as processing an application) that contributes to the achievement of a Key Result Area. |

HOSSAM

| Performance Indicator | Indicators should be specified to measure performance in relation to input, activities, outputs, outcomes and impacts. An indicator is a type of information used to gauge the extent to which an output has been achieved (policy developed, presentation delivered, service rendered) |
|--|---|
| Performance Information | Generic term for non-financial information about municipal services and activities. Can also be used interchangeably with performance measure. |
| Performance Standards: | The minimum acceptable level of performance or the level of performance that is generally accepted. Standards are informed by legislative requirements and service-level agreements. Performance standards are mutually agreed criteria to describe how well work must be done in terms of quantity and/or quality and timeliness, to clarify the outputs and related activities of a job by describing what the required result should be. In this EPMDS performance standards are divided into indicators and the time factor. |
| Performance Targets: | The level of performance that municipalities and its employees strive to achieve. Performance Targets relate to current baselines and express a specific level of performance that a municipality aims to achieve within a given time period. |
| Service Delivery Budget Implementation Plan | Detailed plan approved by the mayor for implementing the municipality's delivery of services; including projections of the revenue collected and operational and capital expenditure by vote for each month. Service delivery targets and performance indicators must also be included. |
| Vote: | One of the main segments into which a budget of a municipality is divided for appropriation of money for the different departments or functional areas of the municipality. The Vote specifies the total amount that is appropriated for the purpose of a specific department or functional area. Section 1 of the MFMA defines a "vote" as: a) one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned |

APPENDIX G – RECOMMENDATIONS OF THE MUNICIPAL AUDIT COMMITTEE 2022/23

| Date of Committee | Municipal Audit Committee Recomm Committee recommendations during 2022/23 | Recommendations adopted (enter Yes) If not adopted (provide |
|----------------------|--|--|
| | Internal audit report for third quarter: It is our view that by addressing the weaknesses/root causes, the system of internal control will be enhanced to provide reasonable assurance that risks are adequately managed and business objectives will be achieved. | Yes explanation) |
| | Audit Action plan 2021/22: The Committee noted the progress on the Audit Action Plan with concern, the committee urged management to attend ot the audit action plan and work on resolving the findings before AGSA starts on their 2023 audit. The audit committee advise council to monitor the implementation of AGSA action plan to ensure achievement of clean audit and good governance. | Yes |
| | Draft Audit Committee Charter: The Committee recommends the Draft Audit Committee Charter for 2022/23 to Council for approval | Yes |
| 22-Jul-22 | Section 71 Report - June 2022: The Committee recommended that management should ensure variances above 10% should be supplemented by narration of the movements. | Yes |
| | Draft Annual Budget 2022/23: The Committee recommended that management should present the Draft Budget to the Committee before submission to Council for the Committee to make its inputs on it. The recommended that management should ensure that narrations are included for all variances above 10% | No. Due to challenges with the system |
| | UIFW Registers: The Committee recommended that management should finalize the UIFW reduction strategy and submit to the Committee the UIFW registers for the Committee to monitor management's implementation of its reduction strategy. Management should develop a UIFW reduction policy to determine the process to be followed in dealing with past, current and future UIFWs. | Yes |

| | Municipal Audit Committee Recomm | nendations |
|--------------------------|---|---|
| Date of Committee | Committee recommendations during 2022/23 | Recommendations adopted (enter Yes) If not adopted (provide explanation) |
| | AFS Plan: The Committee recommended that management stick to the deadlines stipulated on the approved AFS and timely communicate any challenges that might be experienced in meeting the deadlines. | Yes |
| | Draft Annual Financial Statements 2021/22: The Committee recommended that Management address all the review comments made by Internal Audit, Provincial Treasury as well as FS SALGA before submission to AGSA. On the meeting held on the 30th of August 2022 the | Yes |
| 25 and 30 August 2022 | Committee recommended the amended Draft Annual Financial Statements for submission. | |
| | Draft Annual Performance Report 2021/22: The Committee requested management to make the changes proposed by Internal Audit on the Draft Performance Report. | Yes |
| | On the meeting held on the 30th of August 2022, the Committee recommended the amended Draft Annual Performance Report 2021/22 for submission. | |
| | Internal Audit Report for Fourth Quarter: Management should address the identified weaknesses/root causes, to enhance the system of internal control and provide reasonable assurance that risks are adequately managed. | Yes |
| 04-Nov-22 | Human Resources Management Report for Third and Fourth Quarter: The Committee Recommends that: The Senior Management positions be filled as the productivity of the managers acting in the Director positions is affected when they are to perform both functions for too long. Internal controls be implemented and monitored to reduce overtime as this also impacts on the municipality's cashflow as well as the employee's wellness. The sick leave be monitored and controls be implemented to ensure that the sick leave is not being abused. | No, positions have not be filled. Positions were re-advertised to ensure compliance with the new Staff Regulations. |

Annual Financial Statements for the year ended 30 June 2023

Accounting Officer's Responsibilities and Approval

The accounting officer is required by the Municipal Finance Management Act, 2003 (Act no. 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the annual financial statements and was given unrestricted access to all financial records and related data.

The annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The accounting officer acknowledges that she is ultimately responsible for the system of internal financial control established by the municipality and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit.

The accounting officer has reviewed the municipality's cash flow forecast for the year to 30 June 2024 and, in the light of this review and the current financial position, she is satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

I certify that the salaries, allowances and benefits of cors as disclosed in note 35 of these annual financial statements, are within the upper limits of the framework envisaged in Section 219 of the Constitution of South Africa, 1996 (Act no. 108 of 1996) read with the Remuneration of Public Officer Bearers Act, 1998 (Act no. 20 of 1998) and the Minister of Provincial and Local Government's determination in accordance with this Act.

The annual financial statements set out on page 6 to 84, which have been prepared on the going concern basis, were approved by the accounting officer on 29 February 2024 and were signed by:

Tehabalala, PH Accounting Officer

Sheberla!

Annual Financial Statements for the year ended 30 June 2023

Accounting Officer's Report

The accounting officer submits her report for the year ended .

1. Review of activities

Main business and operations

Moqhaka is a local municipality performing functions as set out in the Constitution of South Africa, 1996 (Act no. 108 of 1996) and operates in the Moqhaka Municipal area.

Net deficit of the municipality was R 372 523 214 (2022: deficit R 191 395 954).

2. Going concern

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

The analysis of the going concern is clearly depicted in note 55.

3. Subsequent events

The accounting officer is not aware of any matter or circumstance arising since the end of the financial year that could have an impact on the annual financial statements, except for matters as outlined in note 57.

4. Accounting Officers' interest in contracts

The accounting officer's did not have any interest in contracts during the financial year.

5. Accounting policies

The financial statements have been prepared in accordance with the effective Standards of Generally Recognised Accounting Practices (GRAP), including any interpretations and directives issued by the Accounting Standards Board and in accordance with section 122 (3) of the Municipal Financial Management Act, (Act No. 56 of 2003).

6. Accounting Officer

The accounting officer of the municipality during the year and to the date of this report is as follows:

Name Tshabalala, PH Nationality South African

7. Auditors

Auditor General of South Africa will continue in office for the next financial period.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

| Figures in Rand | Note(s) | 2023 | 2022 |
|-----------------|---------|------|------|
|-----------------|---------|------|------|

1. Significant accounting policies

The principal accounting policies applied in the preparation of these annual financial statements are set out below.

1.1 Basis of preparations

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act, 2003 (Act no. 56 of 2003).

These annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention as the basis of measurement, unless specified otherwise.

These annual financial statements comply with all the requirements of the Standards of Generally Recognised Accounting Practice.

A summary of the significant accounting policies, which have been consistently applied in the preparation of these annual financial statements, are disclosed below.

These accounting policies are consistent with the previous period.

1.2 Presentation currency

These annual financial statements are presented in South African Rand, which is the functional currency of the municipality, and have been rounded off to the nearest Rand.

1.3 Significant judgements and sources of estimation uncertainty

In preparing the annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the annual financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the annual financial statements. Significant judgements include:

Other significant judgements, sources of estimation uncertainty and/or relating information, have been disclosed in the relating notes.

Services and rates debtors

The municipality assesses its trade receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in surplus or deficit, the municipality makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

The impairment for trade receivables is calculated on a portfolio basis, based on historical loss ratios, adjusted for national and industry-specific economic conditions and other indicators present at the reporting date that correlate with defaults on the portfolio. These annual loss ratios are applied to loan balances in the portfolio and scaled to the estimated loss emergence period.

Allowance for slow moving, damaged and obsolete stock

An allowance for stock to write stock down to the lower of cost or net realisable value. Management have made estimates of the selling price and direct cost to sell on certain inventory items.write down is included in the statement of financial performance in the year in which it arose.

Fair value estimation

The fair value of investment properties is determined with reference to market conditions as at year end. This valuation was performed by a registered professional valuer.

Provisions

Provisions were raised and management determined an estimate based on the best information available at the time of making the judgement and estimate of the financial effect.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.3 Significant judgements and sources of estimation uncertainty (continued)

Useful lives and residual values

The municipality's management determines the estimated useful lives and related depreciation / amortisation charges for the property, plant and equipment as well as intangible assets. The municipality re-assess the useful lives and the residual values if material of the individual asset. This estimate is based on industry norms and future plans of the municipality communicated through its strategic planning processes.

If material, management will change the depreciation consideration of the condition and actual use charge where useful lives are more / less than previously estimated.

Post-retirement benefits

The present value of the post-retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) include the discount rate. Any changes in these assumptions will impact on the carrying amount of post-retirement obligations.

The municipality determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the municipality considers the interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability.

Other key assumptions for pension obligations are based on current market conditions.

Effective interest rate

The municipality used the prime interest rate to discount future cash flows.

Allowance for doubtful debts

The municipality uses an appropriate interest rate, taking into account guidance provided in the accounting standards, and applying professional judgement to the specific circumstances, to discount future cash flows.

Appropriate adjustments have been made to compensate for the effect of deferred settlement terms that materially impact on the fair value of the financial instruments, revenue and expenses at initial recognition. The adjustments require a degree of estimation around the discount rate and periods used.

Bad debts

All financial assets measured at amortised cost, or cost, are subject to an impairment review in accordance with paragraphs .57 to .64.of GRAP 104

A financial asset or a group of financial assets is impaired and impairment losses are incurred if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a "loss event") and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Objective evidence that a financial asset or group of assets is impaired includes observable data that comes to the attention of the holder of the asset about the following loss events:

- a) significant financial difficulty of the issuer or obligor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- the lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;
- it is probable that the borrower will enter sequestration or other financial reorganisation;
- e) the disappearance of an active market for that financial asset because of financial difficulties; or

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.3 Significant judgements and sources of estimation uncertainty (continued)

- f) observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group, including:
 - i. adverse changes in the payment status of borrowers in the group (e.g. an increased number of delayed payments); or
 - ii. national or local economic conditions that correlate with defaults on the assets in the group (e.g. an increase in the unemployment rate in the geographical area of the borrowers, or adverse changes in market conditions that affect the borrowers in the group).

An entity first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant (see paragraph .58). If an entity determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

1.4 Investment property

Investment property is property (land or a building - or part of a building - or both) held to earn rentals or for capital appreciation or both, rather than for:

- use in the production or supply of goods or services or for
- · administrative purposes, or
- sale in the ordinary course of operations.

Owner-occupied property is property held for use in the production or supply of goods or services or for administrative purposes.

Investment property is recognised as an asset when, it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the municipality, and the cost or fair value of the investment property can be measured reliably.

Investment property is initially recognised at cost. Transaction costs are included in the initial measurement.

Where investment property is acquired through a non-exchange transaction, its cost is its fair value as at the date of acquisition.

Costs include costs incurred initially and costs incurred subsequently to add to, or to replace a part of, or service a property. If a replacement part is recognised in the carrying amount of the investment property, the carrying amount of the replaced part is derecognised.

Fair value

Subsequent to initial measurement investment property is measured at fair value.

The fair value of investment property reflects market conditions at the reporting date.

A gain or loss arising from a change in fair value is included in net surplus or deficit for the period in which it arises.

If the entity determines that the fair value of an investment property under construction is not reliably determinable but expects the fair value of the property to be reliably measurable when construction is complete, it measures that investment property under construction at cost until either its fair value becomes reliably determinable or construction is completed (whichever is earlier). If the entity determines that the fair value of an investment property (other than an investment property under construction) is not reliably determinable on a continuing basis, the entity measures that investment property using the cost model (as per the accounting policy on Property, plant and equipment). The residual value of the investment property is then assumed to be zero. The entity applies the cost model (as per the accounting policy on Property, plant and equipment) until disposal of the investment property.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.4 Investment property (continued)

Once the entity becomes able to measure reliably the fair value of an investment property under construction that has previously been measured at cost, it measures that property at its fair value. Once construction of that property is complete, it is presumed that fair value can be measured reliably. If this is not the case, the property is accounted for using the cost model in accordance with the accounting policy on Property, plant and equipment.

Derecognition

The gain or loss arising from derecognition of an item of investment property is included in surplus or deficit when the item is derecognised.

Compensation from third parties for investment property that was impaired, lost or given up is recognised in surplus or deficit when the compensation becomes receivable.

Property interests held under operating leases are classified and accounted for as investment property in the following circumstances:

· When the municipality leases out the property and receives rental income.

When classification is difficult, the criteria used to distinguish investment property from owner-occupied property and from property held for sale in the ordinary course of operations, including the nature or type of properties classified as held for strategic purposes, are as follows:

- Determining any cash generations independent from other assets.
- Purpose of holding the asset, whether generally held to earn rental income or for capital appreciation.

The municipality separately discloses expenditure to repair and maintain investment property in the notes to the annual financial statements (see note 36).

The municipality discloses relevant information relating to assets under construction or development, in the notes to the annual financial statements (see note 11).

1.5 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the item will flow to the municipality; and
- the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost.

The cost of an item of property, plant and equipment shall be recognised as an asset if, and only if:

It is probable that future economic benefits or service potential associated with the item will flow to the entity, and the cost or fair value of the item can be measured reliably

Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.5 Property, plant and equipment (continued)

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located is also included in the cost of property, plant and equipment, where the entity is obligated to incur such expenditure, and where the obligation arises as a result of acquiring the asset or using it for purposes other than the production of inventories.

Recognition of costs in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Items such as spare parts, standby equipment and servicing equipment are recognised when they meet the definition of property, plant and equipment.

Major inspection costs which are a condition of continuing use of an item of property, plant and equipment and which meet the recognition criteria above are included as a replacement in the cost of the item of property, plant and equipment. Any remaining inspection costs from the previous inspection are derecognised.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

An entity applies GRAP 12 to the costs of obligations for dismantling, removing and restoring the site on which an item is located that are incurred during a particular period as a consequence of having used the item to produce inventories during that period. The obligations for costs accounted for in accordance with GRAP 12 or this Standard are recognised and measured in accordance with the Standard of GRAP on Provisions, Contingent Liabilities and Contingent Assets

Property, plant and equipment are depreciated on the straight-line basis over their expected useful lives to their estimated residual value.

The useful lives of items of property, plant and equipment have been assessed as follows:

| Item | Depreciation method | Average useful life |
|-----------------------------|---------------------|---------------------|
| Land | Straight-line | Indefinite |
| Buildings | Straight-line | 25 - 30 years |
| Building Fixtures | Straight-line | 3 - 5 years |
| Plant and machinery | Straight-line | 2 - 40 years |
| Furniture and fixtures | Straight-line | 3 - 15 years |
| Motor vehicles | Straight-line | 5 - 15 years |
| Office equipment | Straight-line | 3 - 15 years |
| IT equipment | Straight-line | 3 - 10 years |
| Infrastructure | Straight-line | 5 - 100 years |
| Community | Straight-line | 15 - 30 years |
| Quarries | Straight-line | 15 - 20 years |
| Landfill sites | Straight-line | 15 - 80 years |
| Finance leases - 3G cards | Straight-line | Contract Term |
| Finance leases - Cellphones | Straight-line | Contract Term |
| Solid waste | Straight-line | 5 - 55 years |
| Waste water network | Straight-line | 5 - 100 years |

The depreciable amount of an asset is allocated on a systematic basis over its useful life.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation method used reflects the pattern in which the asset's future economic benefits or service potential are expected to be consumed by the municipality. The depreciation method applied to an asset is reviewed at least at each reporting date and, if there has been a significant change in the expected pattern of consumption of the future economic benefits or service potential embodied in the asset, the method is changed to reflect the changed pattern. Such a change is accounted for as a change in an accounting estimate.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.5 Property, plant and equipment (continued)

The municipality assesses at each reporting date whether there is any indication that the municipality expectations about the residual value and the useful life of an asset have changed since the preceding reporting date. If any such indication exists, the municipality revises the expected useful life and/or residual value accordingly. The change is accounted for as a change in an - ounting estimate.

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

Assets which the municipality holds for rentals to others and subsequently routinely sell as part of the ordinary course of activities, are transferred to inventories when the rentals end and the assets are available-for-sale. Proceeds from sales of these assets are recognised as revenue. All cash flows on these assets are included in cash flows from operating activities in the cash flow statement.

The municipality separately discloses expenditure to repair and maintain property, plant and equipment in the notes to the financial statements (see note 36).

The municipality discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note 12).

Impairment

The municipality assess at each reporting date whether there is an indication that it may be impaired. If any such indication exists, the municipality estimates the recoverable amount or the recoverable service amount of the property, plant and equipment.

Transfer

Transfers from property, plant, and equipment assets are only made when the particular asset no longer meets the definition of a property, plant, and equipment.

Transfers to property, plant, and equipment are only made when the asset meets the definition of a property, plant, and equipment.

1.6 Site restoration and dismantling cost

The municipality has an obligation to dismantle, remove and restore items of property, plant and equipment. Such obligations are referred to as 'decommissioning, restoration and similar liabilities'. The cost of an item of property, plant and equipment includes the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which a municipality incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

If the related asset is measured using the cost model:

- (a) subject to (b), changes in the liability are added to, or deducted from, the cost of the related asset in the current period;
- (b) if a decrease in the liability exceeds the carrying amount of the asset, the excess is recognised immediately in surplus or deficit; and
- (c) if the adjustment results in an addition to the cost of an asset, the municipality considers whether this is an indication that the new carrying amount of the asset may not be fully recoverable. If it is such an indication, the asset is tested for impairment by estimating its recoverable amount or recoverable service amount, and any impairment loss is recognised in accordance with the accounting policy on impairment of cash-generating assets and/or impairment of non-cash-generating assets.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.6 Site restoration and dismantling cost (continued)

If the related asset is measured using the revaluation model:

- (a) changes in the liability alter the revaluation surplus or deficit previously recognised on that asset, so that:
- a decrease in the liability (subject to (b)) is credited to revaluation surplus in net assets, except that it is recognised in surplus or deficit to the extent that it reverses a revaluation deficit on the asset that was previously recognised in surplus or deficit
- an increase in the liability is recognised in surplus or deficit, except that it is debited to the revaluation surplus to the
 extent of any credit balance existing in the revaluation surplus in respect of that asset.
- (b) in the event that a decrease in the liability exceeds the carrying amount that would have been recognised had the asset been carried under the cost model, the excess is recognised immediately in surplus or deficit; and
- (c) a change in the liability is an indication that the asset may have to be revalued in order to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period. Any such revaluation is taken into account in determining the amounts to be taken to surplus or deficit or net assets under (a). If a revaluation is necessary, all assets of that class are revalued.

1.7 Heritage assets

Assets are resources controlled by an municipality as a result of past events and from which future economic benefits or service potential are expected to flow to the municipality.

Carrying amount is the amount at which an asset is recognised after deducting accumulated impairment losses.

Class of heritage assets means a grouping of heritage assets of a similar nature or function in an municipality's operations that is shown as a single item for the purpose of disclosure in the annual financial statements.

Cost is the amount of cash or cash equivalents paid or the fair value of the other consideration given to acquire an asset at the time of its acquisition or construction or, where applicable, the amount attributed to that asset when initially recognised in accordance with the specific requirements of other Standards of GRAP.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Heritage assets are assets that have a cultural, environmental, historical, natural, scientific, technological or artistic significance and are held indefinitely for the benefit of present and future generations.

An impairment loss of a cash-generating asset is the amount by which the carrying amount of an asset exceeds its recoverable amount.

An impairment loss of a non-cash-generating asset is the amount by which the carrying amount of an asset exceeds its recoverable service amount.

An inalienable item is an asset that an municipality is required by law or otherwise to retain indefinitely and cannot be disposed of without consent

Recoverable amount is the higher of a cash-generating asset's net selling price and its value in use.

Value in use of a cash-generating asset is the present value of the future cash flows expected to be derived from an asset or cash-generating unit.

The municipality separately discloses expenditure to repair and maintain heritage assets in the notes to the financial statements (see note 36).

The municipality discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note 9).

Where a heritage asset is acquired through a non-exchange transaction, its cost shall be measured at its fair value as at the date of acquisition.

Revaluations shall be made with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the reporting date.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.7 Heritage assets (continued)

If a heritage asset is revalued, the entire class of heritage assets to which that asset belongs shall be revalued. If the heritage asset's carrying amount is decreased as a result of a revaluation, the decrease shall be recognised in surplus or deficit. However, the decrease shall be debited directly in net assets to the extent of any credit balance existing in the revaluation surplus in respect of that heritage asset. The decrease recognised directly in net assets reduces the amount accumulated in net assets under the heading revaluation surplus.

There is a presumption that fair value can be measured reliably for a heritage asset. However, that presumption can be rebutted when market-determined prices or values are not available and alternative estimates of fair value are determined to be

clearly unreliable. In such a case, the heritage asset shall be measured using the cost model. The carrying amount of the heritage asset shall be its revalued amount at the date of the last revaluation less any subsequent accumulated impairment losses.

After recognition as an asset, a class of heritage assets shall be carried at its cost less any accumulated impairment losses.

Recognition

The municipality recognises a heritage asset as an asset if it is probable that future economic benefits or service potential associated with the asset will flow to the municipality, and the cost or fair value of the asset can be measured reliably.

Initial measurement

Heritage assets are measured at cost.

Where a heritage asset is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition.

Subsequent measurement

After recognition as an asset, a class of heritage assets is carried at its cost less any accumulated impairment losses.

If a heritage asset's carrying amount is increased as a result of a revaluation, the increase is credited directly to a revaluation surplus. However, the increase is recognised in surplus or deficit to the extent that it reverses a revaluation decrease of the same heritage asset previously recognised in surplus or deficit.

If a heritage asset's carrying amount is decreased as a result of a revaluation, the decrease is recognised in surplus or deficit. However, the decrease is debited directly to a revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that heritage asset.

Impairment

The municipality assesses at each reporting date whether there is an indication that it may be impaired. If any such indication exists, the municipality estimates the recoverable amount or the recoverable service amount of the heritage asset.

Transfers

Transfers from heritage assets are only made when the particular asset no longer meets the definition of a heritage asset.

Transfers to heritage assets are only made when the asset meets the definition of a heritage asset.

Derecognition

The municipality derecognises heritage asset on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of a heritage asset is included in surplus or deficit when the item is derecognised (unless the Standard of GRAP on leases requires otherwise on a sale and leaseback).

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.8 Intangible assets

An asset is identifiable if it either:

- is separable, i.e. is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, identifiable assets or liability, regardless of whether the entity intends to do so; or
- arises from binding arrangements (including rights from contracts), regardless of whether those rights are transferable or separable from the municipality or from other rights and obligations.

A binding arrangement describes an arrangement that confers similar rights and obligations on the parties to it as if it were in the form of a contract.

An intangible asset is recognised when:

- it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality; and
- the cost or fair value of the asset can be measured reliably.

The municipality assesses the probability of expected future economic benefits or service potential using reasonable and supportable assumptions that represent management's best estimate of the set of economic conditions that will exist over the useful life of the asset.

Where an intangible asset is acquired through a non-exchange transaction, its initial cost at the date of acquisition is measured at its fair value as at that date.

Expenditure on research (or on the research phase of an internal project) is recognised as an expense when it is incurred.

An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- it is technically feasible to complete the asset so that it will be available for use or sale.
- there is an intention to complete and use or sell it.
- there is an ability to use or sell it.
- it will generate probable future economic benefits or service potential.
- there are available technical, financial and other resources to complete the development and to use or sell the asset.
- · the expenditure attributable to the asset during its development can be measured reliably.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight-line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets.

Internally generated goodwill is not recognised as an intangible asset.

Amortisation is provided to write down the intangible assets, on a straight-line basis, to their residual values as follows:

| Item | Depreciation method | Average useful life |
|---|--------------------------------|-------------------------|
| Computer software, internally generated Computer software | Straight-line Straight-line | 20 years 3 - 5 years |

The municipality discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note 10).

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.8 Intangible assets (continued)

Residual value

The residual value of an intangible asset with a finite useful life shall be assumed to be zero unless there is a commitment by a third party to acquire the asset at the end of its useful life; or there is an active market for the asset and:

- (i) residual value can be determined by reference to that market; and
- (ii) it is probable that such a market will exist at the end of the asset's useful life.

Intangible assets are derecognised:

- on disposal: or
- when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of intangible assets is included in surplus or deficit when the asset is derecognised (unless the Standard of GRAP on leases requires otherwise on a sale and leaseback).

1.9 Financial instruments

A financial asset is:

- cash:
- a residual interest of another entity; or
- · a contractual right to:
- receive cash or another financial asset from another entity; or
- exchange financial assets or financial liabilities with another entity under conditions that are potentially favourable to the entity.

Classification

The entity has the following types of financial assets (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Class

Receivables from exchange transactions Receivables from non-exchange transactions Other financial assets Investments Cash and Cash equivalents

Category

Financial asset measured at amortised cost Financial asset measured at amortised cost Financial asset measured at fair value Financial asset measured at amortised cost Financial asset measured at amortised cost

The entity has the following types of financial liabilities (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Class

Borrowings
Payables from exchange transactions

Category

Financial liability measured at amortised cost Financial liability measured at amortised cost

Initial recognition

The entity recognises a financial asset or a financial liability in its statement of financial position when the entity becomes a party to the contractual provisions of the instrument.

The entity recognises financial assets using trade date accounting.

Initial measurement of financial assets and financial liabilities

The entity measures a financial asset and financial liability initially at its fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

The entity measures a financial asset and financial liability initially at its fair value if subsequently measured at fair value.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.9 Financial instruments (continued)

Subsequent measurement of financial assets and financial liabilities

The entity measures all financial assets and financial liabilities after initial recognition using the following categories:

- · Financial instruments at fair value.
- Financial instruments at amortised cost.

All financial assets measured at amortised cost, are subject to an impairment review.

Fair value measurement considerations

The best evidence of fair value is quoted prices in an active market. If the market for a financial instrument is not active, the entity establishes fair value by using a valuation technique. The objective of using a valuation technique is to establish what the transaction price would have been on the measurement date in an arm's length exchange motivated by normal operating considerations. Valuation techniques include using recent arm's length market transactions between knowledgeable, willing parties, if available, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis and option pricing models. If there is a valuation technique commonly used by market participants to price the instrument and that technique has been demonstrated to provide reliable estimates of prices obtained in actual market transactions, the entity uses that technique. The chosen valuation technique makes maximum use of market inputs and relies as little as possible on entity-specific inputs. It incorporates all factors that market participants would consider in setting a price and is consistent with accepted economic methodologies for pricing financial instruments. Periodically, a municipality calibrates the valuation technique and tests it for validity using prices from any observable current market transactions in the same instrument (i.e. without modification or repackaging) or based on any available observable market data.

Gains and losses

A gain or loss arising from a change in the fair value of a financial asset or financial liability measured at fair value is recognised in surplus or deficit.

For financial assets and financial liabilities measured at amortised cost, a gain or loss is recognised in surplus or deficit when the financial asset or financial liability is derecognised or impaired, or through the amortisation process.

Impairment and uncollectability of financial assets

The entity assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired.

Financial assets measured at amortised cost:

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced directly OR through the use of an allowance account. The amount of the loss is recognised in surplus or deficit.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed directly OR by adjusting an allowance account. The reversal does not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in surplus or deficit.

Derecognition

Financial assets

The entity derecognises financial assets using trade date accounting.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.9 Financial instruments (continued)

The carrying amounts of the transferred asset are allocated between the rights or obligations retained and those transferred on the basis of their relative fair values at the transfer date. Newly created rights and obligations are measured at their fair values at that date. Any difference between the consideration received and the amounts recognised and derecognised is recognised in surplus or deficit in the period of the transfer.

If the entity transfers a financial asset in a transfer that qualifies for derecognition in its entirety and retains the right to service the financial asset for a fee, it recognise either a servicing asset or a servicing liability for that servicing contract. If the fee to be received is not expected to compensate the entity adequately for performing the servicing, a servicing liability for the servicing obligation is recognised at its fair value. If the fee to be received is expected to be more than adequate compensation for the servicing, a servicing asset is recognised for the servicing right at an amount determined on the basis of an allocation of the carrying amount of the larger financial asset.

If, as a result of a transfer, a financial asset is derecognised in its entirety but the transfer results in the entity obtaining a new financial asset or assuming a new financial liability, or a servicing liability, the entity recognise the new financial asset, financial liability or servicing liability at fair value.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received is recognised in surplus or deficit.

If the transferred asset is part of a larger financial asset and the part transferred qualifies for derecognition in its entirety, the previous carrying amount of the larger financial asset is allocated between the part that continues to be recognised and the part that is derecognised, based on the relative fair values of those parts, on the date of the transfer. For this purpose, a retained servicing asset is treated as a part that continues to be recognised. The difference between the carrying amount allocated to the part derecognised and the sum of the consideration received for the part derecognised is recognised in surplus or deficit.

If a transfer does not result in derecognition because the entity has retained substantially all the risks and rewards of ownership of the transferred asset, the entity continues to recognise the transferred asset in its entirety and recognise a financial liability for the consideration received. In subsequent periods, the entity recognises any revenue on the transferred asset and any expense incurred on the financial liability. Neither the asset, and the associated liability nor the revenue, and the associated expenses are offset.

Financial liabilities

The entity removes a financial liability (or a part of a financial liability) from its statement of financial position when it is extinguished — i.e. when the obligation specified in the contract is discharged, cancelled, expires or waived.

An exchange between an existing borrower and lender of debt instruments with substantially different terms is accounted for as having extinguished the original financial liability and a new financial liability is recognised. Similarly, a substantial modification of the terms of an existing financial liability or a part of it is accounted for as having extinguished the original financial liability and having recognised a new financial liability.

The difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in surplus or deficit. Any liabilities that are waived, forgiven or assumed by another entity by way of a non-exchange transaction are accounted for in accordance with the Standard of GRAP on Revenue from Non-exchange Transactions (Taxes and Transfers).

Presentation

Interest relating to a financial instrument or a component that is a financial liability is recognised as revenue or expense in surplus or deficit.

Dividends or similar distributions relating to a financial instrument or a component that is a financial liability is recognised as revenue or expense in surplus or deficit.

Losses and gains relating to a financial instrument or a component that is a financial liability is recognised as revenue or expense in surplus or deficit.

A financial asset and a financial liability are only offset and the net amount presented in the statement of financial position when the entity currently has a legally enforceable right to set off the recognised amounts and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.9 Financial instruments (continued)

In accounting for a transfer of a financial asset that does not qualify for derecognition, the entity does not offset the transferred asset and the associated liability.

1.10 Tax

Value Added Tax (VAT)

VAT comprises current and non-current VAT (deferred VAT). VAT is accounted for on an accrual basis, but the VAT declarations to the South African Revenue Services (SARS) are made on a payment basis in terms of section 15 of the Value-Added Tax Act 89 of 1991 (VAT Act). On a payment basis, the municipality must declare output tax when the recipient makes payment according to a taxable supply made to the recipient by the municipality. The municipality is liable to account for VAT at the standard rate of 15% in terms of section 7(1)(a) of the VAT Act in respect or response to a taxable supply of goods or services. Where the supplies are specifically zero-rated in terms of section 11, exempted in terms of section 12 of the VAT Act or are scoped out for VAT purposes, no output tax is declared to the SARS. The municipality can deduct input tax on qualifying VAT expenditure in terms of section 16 of the VAT Act also on the payment basis when they make payments to suppliers and the VAT expenditure is incurred in the course or furtherance of a taxable activity.

A VAT asset is recognised to the extent that the municipality will be able to deduct the net input tax in future VAT declarations to the SARS. VAT assets are reviewed at each reporting date and are adjusted based on the probability that the VAT asset can be realised in future VAT declarations to the SARS. The VAT asset will be reduced to the extent that it is no longer probable that the VAT asset will be realised. A VAT liability is recognised to the extent that the municipality will be obligated to declare a nett output tax in future VAT declarations to the SARS.

The municipality assesses at each reporting date whether there is an indication that its output tax amount payable to the SARS is impaired. If any such indication exists, the municipality estimates the output tax payable amount based on observable data indicating a measurable decrease in the estimated future cash flows expected from its customers.

The VAT is offset in the statement of financial position because offsetting reflects the substance of the transaction as VAT is declared to the SARS on a net basis.

VAT is recognised using the VAT rates enacted or substantially enacted at the financial position date and considering any VAT payable or receivable adjustment in the past years.

1.11 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

When a lease includes both land and buildings elements, the entity assesses the classification of each element separately.

Finance leases - lessor

The municipality recognises finance lease receivables as assets on the statement of financial position. Such assets are presented as a receivable at an amount equal to the net investment in the lease,

Finance revenue is recognised based on a pattern reflecting a constant periodic rate of return on the municipality's net investment in the finance lease.

Finance leases - lessee

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the .

Minimum lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of on the remaining balance of the liability.

Any contingent rents are expensed in the period in which they are incurred.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.11 Leases (continued)

Operating leases - lessor

Operating lease revenue is recognised as revenue on a straight-line basis over the lease term.

Initial direct costs incurred in negotiating and arranging operating leases are added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease revenue.

The aggregate cost of incentives is recognised as a reduction of rental revenue over the lease term on a straight-line basis.

The aggregate benefit of incentives is recognised as a reduction of rental expense over the lease term on a straight-line basis.

Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

The aggregate cost of incentives is recognised as a reduction of rental revenue over the lease term on a straight-line basis.

1.12 Inventories

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their costs are their fair value as at the date of acquisition.

Subsequently inventories are measured at the lower of cost and net realisable value.

Inventories are measured at the lower of cost and current replacement cost where they are held for;

- distribution at no charge or for a nominal charge; or
- · consumption in the production process of goods to be distributed at no charge or for a nominal charge.

Inventories shall be recognised as an asset if, and only if,

- it is probable that future economic benefits or service potential associated with the item will flow to the entity; and
- the cost of the inventories can be measured reliably.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution.

Current replacement cost is the cost the municipality incurs to acquire the asset on the reporting date.

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

The cost of inventories of items that are not ordinarily interchangeable and goods or services produced and segregated for specific projects is assigned using specific identification of the individual costs.

The cost of inventories is assigned using the first-in, first-out (FIFO) formula. The same cost formula is used for all inventories having a similar nature and use to the municipality.

When inventories are sold, the carrying amounts of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered. The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.13 Employee benefits

Short-term employee benefits

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as paid vacation leave and sick leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs.

Defined contribution plans

Payments to defined contribution retirement benefit plans are charged as an expense as they fall due.

Payments made to industry-managed (or state plans) retirement benefit schemes are dealt with as defined contribution plans where the entity's obligation under the schemes is equivalent to those arising in a defined contribution retirement benefit plan.

Defined benefit plans

For defined benefit plans the cost of providing the benefits is determined using the projected credit method.

Actuarial valuations are conducted on an annual basis by independent actuaries separately for each plan.

Consideration is given to any event that could impact the funds up to end of the reporting period where the interim valuation is performed at an earlier date.

Past service costs are recognised immediately to the extent that the benefits are already vested.

Actuarial gains or losses: Actuarial gains and losses are recognised in the surplus or deficit in the reporting period in which they occur.

Gains or losses on the curtailment or settlement of a defined benefit plan is recognised when the entity is demonstrably committed to curtailment or settlement.

When it is virtually certain that another party will reimburse some or all of the expenditure required to settle a defined benefit obligation, the right to reimbursement is recognised as a separate asset. The asset is measured at fair value. In all other respects, the asset is treated in the same way as plan assets. In surplus or deficit, the expense relating to a defined benefit plan is presented as the net of the amount recognised for a reimbursement.

The amount recognised in the statement of financial position represents the present value of the defined benefit obligation as adjusted for unrecognised actuarial gains and losses and unrecognised past service costs, and reduces by the fair value of plan assets.

Any asset is limited to unrecognised actuarial losses and past service costs, plus the present value of available refunds and reduction in future contributions to the plan.

Post retirement obligations

The entity provides post-retirement health care benefits, housing subsidies and gratuities upon retirement to some retirees.

The entitlement to post-retirement health care benefits is based on the employee remaining in service up to retirement age and the completion of a minimum service period. Independent qualified actuaries carry out valuations of these obligations. The benefits are charge to income as incurred throughout the year.

1.14 Provisions and contingencies

Provisions are recognised when:

- the municipality has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.14 Provisions and contingencies (continued)

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

Future events that may affect the amount required to settle an obligation is reflected in the amount of the provision where there is sufficient objective evidence that they will occur.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the municipality settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement does not exceed the amount of the provision.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

Where discounting is used, the carrying amount of a provision increases in each period to reflect the passage of time. This increase is recognised as an interest expense.

A provision is used only for expenditures for which the provision was originally recognised.

Provisions are not recognised for future operating surplus (deficit).

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 58.

1.15 Revenue from exchange transactions

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

An exchange transaction is one in which the municipality receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of goods, services or use of assets) to the other party in exchange.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

When uncertainty arises about the collectability of an amount already included in revenue, the uncollectable amount, or the amount in respect of which recovery has ceased to be probable, is recognised as an expense rather than as an adjustment of the amount of revenue originally recognised.

Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

Sale of goods

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- the municipality has transferred to the purchaser the significant risks and rewards of ownership of the goods,
- the municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.15 Revenue from exchange transactions (continued)

Rendering of services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the reporting date. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- · the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality:
- · the stage of completion of the transaction at the reporting date can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

When services are performed by an indeterminate number of acts over a specified time frame, revenue is recognised on a straight-line basis over the specified time frame unless there is evidence that some other method better represents the stage of completion. When a specific act is much more significant than any other acts, the recognition of revenue is postponed until the significant act is executed.

When the outcome of the transaction involving the rendering of services cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that are recoverable.

Service revenue is recognised by reference to the stage of completion of the transaction at the reporting date. Stage of completion is determined by services performed to date as a percentage of total services to be performed.

Interest, royalties and dividends

Revenue arising from the use by others of entity assets yielding interest, royalties and dividends or similar distributions is recognised when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- · The amount of the revenue can be measured reliably.

Interest is recognised using the effective interest rate method for financial instruments, and using the nominal interest rate method for statutory receivables. Interest levied on transactions arising from exchange or non-exchange transactions is classified based on the nature of the underlying transaction.

Royalties are recognised as they are earned in accordance with the substance of the relevant agreements.

Dividends or similar distributions are recognised, in surplus or deficit, when the municipality's right to receive payment has been established.

Service fees included in the price of the product are recognised as revenue over the period during which the service is performed.

Revenue from the rental of facilities and equipment is recognised on a straight-lined basis over the term of the lease agreement.

Penalty interest is levied on unpaid amounts each month. This revenue is recognised when leviable in terms of law.

1.16 Revenue from non-exchange transactions

Revenue comprises gross inflows of economic benefits or service potential received and receivable by a municipality, which represents an increase in net assets, other than increases relating to contributions from owners.

Conditions on transferred assets are stipulations that specify that the future economic benefits or service potential embodied in the asset is required to be consumed by the recipient as specified or future economic benefits or service potential must be returned to the transferor.

Control of an asset arise when the municipality can use or otherwise benefit from the asset in pursuit of its objectives and can exclude or otherwise regulate the access of others to that benefit.

Fines are economic benefits or service potential received or receivable by entities, as determined by a court or other law enforcement body, as a consequence of the breach of laws or regulations.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.16 Revenue from non-exchange transactions (continued)

Non-exchange transactions are transactions that are not exchange transactions. In a non-exchange transaction, a municipality either receives value from another municipality without directly giving approximately equal value in exchange, or gives value to another municipality without directly receiving approximately equal value in exchange.

Restrictions on transferred assets are stipulations that limit or direct the purposes for which a transferred asset may be used, but do not specify that future economic benefits or service potential is required to be returned to the transferor if not deployed as specified.

Stipulations on transferred assets are terms in laws or regulation, or a binding arrangement, imposed upon the use of a transferred asset by entities external to the reporting municipality.

Tax expenditures are preferential provisions of the tax law that provide certain taxpayers with concessions that are not available to others.

The taxable event is the event that the government, legislature or other authority has determined will be subject to taxation.

Taxes are economic benefits or service potential compulsorily paid or payable to entities, in accordance with laws and or regulations, established to provide revenue to government. Taxes do not include fines or other penalties imposed for breaches of the law.

Transfers are inflows of future economic benefits or service potential from non-exchange transactions, other than taxes.

Recognition

An inflow of resources from a non-exchange transaction recognised as an asset is recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow.

As the municipality satisfies a present obligation recognised as a liability in respect of an inflow of resources from a non-exchange transaction recognised as an asset, it reduces the carrying amount of the liability recognised and recognises an amount of revenue equal to that reduction.

Measurement

Revenue from a non-exchange transaction is measured at the amount of the increase in net assets recognised by the municipality.

When, as a result of a non-exchange transaction, the municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability is recognised as revenue.

Interest is recognised using the effective interest rate method for financial instruments, and using the nominal interest rate method for statutory receivables. Interest levied on transactions arising from exchange or non-exchange transactions is classified based on the nature of the underlying transaction.

Taxes

The municipality recognises an asset in respect of taxes when the taxable event occurs and the asset recognition criteria are met.

The taxable event for property tax is the passing of the date on which the tax is levied, or the period for which the tax is levied on a periodic basis.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.16 Revenue from non-exchange transactions (continued)

Transfers

Apart from Services in kind, which are not recognised, the municipality recognises an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset.

The municipality recognises an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset.

Transferred assets are measured at their fair value as at the date of acquisition.

Fines

Fines are recognised as revenue when the receivable meets the definition of an asset and satisfies the criteria for recognition as an asset.

Assets arising from fines are measured at the best estimate of the inflow of resources to the municipality.

Where the municipality collects fines in the capacity of an agent, the fine will not be revenue of the collecting entity.

Gifts and donations, including goods in-kind

Gifts and donations, including goods in kind, are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the municipality and the fair value of the assets can be measured reliably.

Services in-kind

Except for financial guarantee contracts, the municipality recognise services in-kind that are significant to its operations and/or service delivery objectives as assets and recognise the related revenue when it is probable that the future economic benefits or service potential will flow to the municipality and the fair value of the assets can be measured reliably.

Where services in-kind are not significant to the municipality's operations and/or service delivery objectives and/or do not satisfy the criteria for recognition, the municipality disclose the nature and type of services in-kind received during the reporting period.

1.17 Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred.

1.18 Unauthorised expenditure

Unauthorised expenditure means:

- overspending of a vote or a main division within a vote; and
- expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.19 Irregular expenditure

According to section 1 of the MFMA: "irregular expenditure", in relation to a municipality or municipal entity, means:

- expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of this Act and which has not been condoned in terms of section 170; or
- expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with a requirement of the Municipal Systems Act, 2000 (Act no. 32 of 2000) and which has not been condoned in terms of that Act; or

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.19 Irregular expenditure (continued)

c) expenditure incurred by a municipality in contravention of, or that is not in accordance with, a requirement of the Public Office-Bearers Act, 1998 (Act No. 20 of 1998); or expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of the supply chain management policy of the municipality or entity or any of the municipality's by-laws giving effect to such policy and which has not been condoned in terms of such policy or by-law, but excludes expenditure by a municipality which falls within the definition of unauthorised expenditure.

Irregular expenditure that was incurred and identified during the current financial and which was condoned before year end and/or before finalisation of the financial statements must also be recorded appropriately in the irregular expenditure register. In such an instance, no further action is also required with the exception of updating the note to the financial statements. Irregular expenditure that was incurred and identified during the current financial year and for which condonement is being awaited at year end must be recorded in the irregular expenditure register. No further action is required with the exception of updating the note to the financial statements.

Where irregular expenditure was incurred in the previous financial year and is only condoned in the following financial year, the register and the disclosure note to the financial statements must be updated with the amount condoned. Irregular expenditure that was incurred and identified during the current financial year and which was not condoned by the National Treasury or the relevant authority must be recorded appropriately in the irregular expenditure register. If liability for the irregular expenditure can be attributed to a person, a debt account must be created if such a person is liable in law. Immediate steps must thereafter be taken to recover the amount from the person concerned. If recovery is not possible, the accounting officer or accounting authority may write off the amount as debt impairment and disclose such in the relevant note to the financial statements. The irregular expenditure register must also be updated accordingly. If the irregular expenditure has not been condoned and no person is liable in law, the expenditure related thereto must remain against the relevant programme/expenditure item, be disclosed as such in the note to the financial statements and updated accordingly in the irregular expenditure register.

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act, 2003 (Act no. 56 of 2003), the Municipal Systems Act, 2000 (Act no. 32 of 2000), and the Public Office Bearers Act, 1998 (Act no. 20 of 1998) or is in contravention of the economic entity's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.20 Fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.21 Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

Then the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are restated. The nature and reason for the reclassification is disclosed in note 51.

Where accounting errors have been identified in the current year, the correction is made retrospectively as far as practical, and the prior period comparatives are restated accordingly.

1.22 Offsetting

Assets, liabilities, revenue and expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP.

1.23 Related parties

Management are those persons responsible for planning, directing and controlling the activities of the municipality, including those charged with the governance of the municipality in accordance with legislation, in instances where they are required to perform such functions.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.23 Related parties (continued)

Close members of the family of a person are those family members who may be expected to influence, or be influenced by that person in their dealings with the municipality.

Only transactions with related parties not at arm's length or not in the ordinary course of business are disclosed.

1.24 Conditional grants and receipts

Revenue received from conditional grants, donations and funding are recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. To the extent that the criteria, conditions or obligations have not been met a liability is recognised.

Other grants and donations

Donations shall be measured at the fair value of the consideration received or receivable when the amount of the revenue can be measured reliably.

Other grants and donations shall be recognised as revenue when:

- . it is probable that the economic benefits or service potential associated with the transaction will flow to the entity,
- the amount of the revenue can be measured reliably, and
- to the extent that there has been compliance with any restrictions associated with the grant.

1.25 Contractual commitments

Items are classified as commitments where the Municipality commits itself to future transactions that will normally result in the outflow of resources.

Contractual commitments are not recognised in the statement of financial position as a liability but are included in the disclosure notes in the following cases:

- Approved and contracted commitments, where the expenditure has been approved and the contract has been awarded at the reporting date, where disclosure is required by a specific standard of GRAP.
- Approved but not yet contracted commitments, where the expenditure has been approved and the contract is yet to be awarded or is awaiting finalisation at the reporting date.
- Items are classified as commitments where the municipality commits itself to future transactions that will normally result in the outflow of resources.
- Contracts that are entered into before the reporting date, but goods and services have not yet been received are disclosed
 in the disclosure notes to the financial statements.

1.26 Events after reporting date

Events after the reporting date that are classified as adjusting events have been accounted for in the annual financial statements. The events after the reporting date that are classified as non-adjusting events after the reporting date have been disclosed in the notes to the Annual Financial Statements.

1.27 Budget information

Municipality are typically subject to budgetary limits in the form of appropriations or budget authorisations (or equivalent), which is given effect through authorising legislation, appropriation or similar.

General purpose financial reporting by municipality shall provide information on whether resources were obtained and used in accordance with the legally adopted budget.

The approved budget is prepared on a cash basis and presented by economic classification linked to performance outcome objectives.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.27 Budget information (continued)

The approved budget covers the fiscal period from 2022/07/01 to 2023/06/30.

The annual financial statements and the budget are on the same basis of accounting therefore a comparison with the budgeted amounts for the reporting period have been included in the Statement of comparison of budget and actual amounts.

Deviations between budget and actual amounts are regarded as material differences when a 10% deviation exists. All material differences are explained in Appendix E to the annual financial statements.

The Statement of comparative and actual information has been included in the annual financial statements as the recommended disclosure when the annual financial statements and the budget are on the same basis of accounting as determined by National Treasury.

1.28 Statutory receivables

Identification

Statutory receivables are receivables that arise from legislation, supporting regulations, or similar means, and require settlement by another entity in cash or another financial asset.

The transaction amount (for purposes of this Standard) for a statutory receivable means the amount specified in, or calculated, levied or charged in accordance with, legislation, supporting regulations, or similar means. Terms defined in other Standards of GRAP are used in this Standard with the same meaning as in those other Standards.

Recognition

The municipality recognises statutory receivables as follows:

- if the transaction is an exchange transaction, using the policy on Revenue from exchange transactions;
- if the transaction is a non-exchange transaction, using the policy on Revenue from non-exchange transactions (Taxes and transfers); or
- if the transaction is not within the scope of the policies listed in the above or another Standard of GRAP, the
 receivable is recognised when the definition of an asset is met and, when it is probable that the future economic
 benefits or service potential associated with the asset will flow to the entity and the transaction amount can be
 measured reliably.

Initial measurement

An entity shall initially measure statutory receivables at their transaction amount. The statutory receivables in paragraph .06 shall be measured initially in accordance with the applicable Standard of GRAP. The amount determined on initial measurement in accordance with another Standard of GRAP is the same as the transaction amount described in this Standard.

Subsequent measurement

The municipality measures statutory receivables after initial recognition using the cost method. Under the cost method, the initial measurement of the receivable is changed subsequent to initial recognition to reflect any:

- interest or other charges that may have accrued on the receivable (where applicable);
- · impairment losses; and
- · amounts derecognised.

Accrued interest

Where the municipality levies interest on the outstanding balance of statutory receivables, it adjusts the transaction amount after initial recognition to reflect any accrued interest. Accrued interest is calculated using the nominal interest rate.

Interest on statutory receivables is recognised as revenue in accordance with the policy on Revenue from exchange transactions or the policy on Revenue from non-exchange transactions (Taxes and transfers), whichever is applicable.

Impairment losses

An entity shall assess at each reporting date whether there is any indication that a statutory receivable, or a group of statutory receivables, may be impaired. If any such indication exists, the entity shall apply paragraphs .22 to .29.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.28 Statutory receivables (continued)

The future cash flows of a group of statutory receivables that are collectively evaluated for impairment can be estimated using historical experience for receivables with similar characteristics. Entities that have no entity-specific historical experience or insufficient experience, can use peer group experience (when available) for comparable groups of statutory receivables. Historical experience may need to be adjusted to reflect the effects of current conditions that did not affect the period on which the historical experience is based and, to remove the effects of conditions in the historical period that do not exist currently. Where historical experience is used, the methodology and assumptions used to estimate future cash flows shall be reviewed regularly to reduce any differences between estimated and actual impairment losses.

An impairment loss recognized in prior periods for a statutory receivable shall be revised if there has been a change in the estimates used since the last impairment loss was recognized, or to reflect the effect of discounting the estimated cash flows in accordance with paragraph .23.

Derecognition

The municipality derecognises a statutory receivable, or a part thereof, when:

- the rights to the cash flows from the receivable are settled, expire or are waived;
- · the municipality transfers to another party substantially all of the risks and rewards of ownership of the receivable; or
- the municipality, despite having retained some significant risks and rewards of ownership of the receivable, has transferred control of the receivable to another party and the other party has the practical ability to sell the receivable in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the entity:
 - derecognise the receivable; and
 - recognise separately any rights and obligations created or retained in the transfer.

The carrying amounts of any statutory receivables transferred are allocated between the rights or obligations retained and those transferred on the basis of their relative fair values at the transfer date. The entity considers whether any newly created rights and obligations are within the scope of the Standard of GRAP on Financial Instruments or another Standard of GRAP. Any difference between the consideration received and the amounts derecognised and, those amounts recognised, are recognised in surplus or deficit in the period of the transfer.

1.29 Segment information

A segment is an activity of an entity:

- that generates economic benefits or service potential (including economic benefits or service potential relating to transactions between activities of the same entity);
- whose results are regularly reviewed by management to make decisions about resources to be allocated to that
 activity and in assessing its performance; and
- · for which separate financial information is available.

Reportable segments are the actual segments which are reported on in the segment report. They are the segments identified above or alternatively an aggregation of two or more of those segments where the aggregation criteria are met.

Measurement

The amount of each segment item reported is the measure reported to management for the purposes of making decisions about allocating resources to the segment and assessing its performance. Adjustments and eliminations made in preparing the entity's financial statements and allocations of revenues and expenses are included in determining reported segment surplus or deficit only if they are included in the measure of the segment's surplus or deficit that is used by management. Similarly, only those assets and liabilities that are included in the measures of the segment's assets and segment's liabilities that are used by management are reported for that segment. If amounts are allocated to reported segment surplus or deficit, assets or liabilities, those amounts are allocated on a reasonable basis.

If management uses only one measure of a segment's surplus or deficit, the segment's assets or the segment's liabilities in assessing segment performance and deciding how to allocate resources, segment surplus or deficit, assets and liabilities are reported in terms of that measure. If management uses more than one measure of a segment's surplus or deficit, the segment's assets or the segment's liabilities, the reported measures are those that management believes are determined in accordance with the measurement principles most consistent with those used in measuring the corresponding amounts in the entity's financial statements.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.30 National Housing Programme

The Moqhaka Local Municipality is a Category B municipality. The municipality is not yet accredited for the housing development scheme. The municipality is currently in the process of a level 1 accreditation. However, the municipality is still required in terms of the guidelines on accounting for arrangements undertaken in terms of the National Housing Programme.

In terms of this level 1 accreditation, the municipality is required to identify and plan local housing programmes and projects.

This is done through the Municipal Human Settlements Plan (MHSP), which is integrated into the municipality's Integrated Development Plan (IDP). The IDP has been approved through a Council resolution and subsequently submitted to the MEC for Local Government for review and comment.

In complying with the requirements of the ASB guidelines, the municipality further identified sites for Reconstruction and Development Programme (RDP) development. These sites have been included as inventory in the Annual Financial Statements.

The municipality makes available the land earmarked for RDP housing construction as classified under inventory on vacant sites to the provincial Department of Human Settlement and disposes of the land once beneficiaries take ownership and/or when deeds registrations are finalised.

Beneficiary management

The municipality assists in the collection of application forms from beneficiaries, informing eligible beneficiaries of the outcome of their application by the relevant provincial Department of Human Settlements and assisting with the handover of the houses.

Financial assets at fair value

Fair value hierarchy of financial assets at fair value

For financial assets recognised at fair value, disclosure is required of a fair value hierarchy which reflects the significance of the inputs used to make the measurements. The fair value hierarchy have the following levels:

Level 1 represents those assets which are measured using unadjusted quoted prices in active markets for identical assets.

Level 2 applies inputs other than quoted prices that are observable for the assets either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 applies inputs which are not based on observable market data.

Annual Financial Statements for the year ended 30 June 2023

Notes to the Annual Financial Statements

| Figures in Rand | 2023 | 2022 |
|---|-------------|-------------|
| 7. Receivables from non-exchange transactions (continued) | | |
| Reconciliation of allwance for impairment: Fines | | |
| Balance at the beginning of the year | (2 175 164) | (1 392 332) |
| Contribution to allowance | (3 124 694) | (2 175 164) |
| Reversal of impairment | 2 175 164 | 1 392 332 |
| | (3 124 694) | (2 175 164) |

The calculation in respect of the impairment fines receivable is based on an assessment of the past payment history of fines per category. The total average collectability of fines were 23% (2022: 26%).

The calculation for initial recognition and measurement of fines reduced and or cancelled is based on an assessment of past reduced and or cancelled history of fines per category. The total average estimated reductions used were 25% (2022: 10%).

15. Borrowings (continued)

Defaults and breaches

The municipality restructured all loans from the Development Bank of Southern Africa during 2012. The restructured loan bears interest on the outstanding amount at a fixed rate of 9% while amounts in arrears will bear interest at 11%

The loan is payable in 60 (sixty) quarterly payments starting on 1 August 2012. The municipality has not defaulted payments in the current year. The municipality was not able to remedy the defaults and terms of the loan was not required to be renegotiated in terms of the restructured loan.

Funeral death benefit

The funeral death benefit scheme was initiated by the Municipality for its employees who were appointed prior to 1996. The scheme is only open to these municipal employees, and payouts are only made to employees who are deceased while in the service of the Municipality. The scheme participants make a monthly contribution of R 2.50 and upon death the beneficiary/family receives the R 1 000 payout.

Rehabilitation of landfill sites and quarries

In terms of the Mineral and Petroleum Resources Development Act, 2002 (Act no. 28 of 2002), it is required from the municipality to execute the environmental management program to restore the landfill sites and quarries at Kroonstad, Viljoenskroon and Steynsrus.

| Summary of I | iability for | landfill site | and c | quarries | costs |
|--------------|--------------|---------------|-------|----------|-------|

Kroonstad and Viljoenskroon rates are 0% for CPI and discount rate as the useful livers are 0 and no discounting is applied.

Leave pay

Annual leave accrues to employees on a monthly basis in accordance with the conditions of employment. Employees are entitled to 16 non-vested leave days and 8 vested leave days per annum, accumulated to a maximum of 48 leave days. The provision is an estimate of the amount due to staff as at the financial year-end, based on the value of leave and the estimated leave days to be forfeited.

Annual Financial Statements for the year ended 30 June 2023

Notes to the Annual Financial Statements

| Figures in Rand | 2023 | 2022 |
|-----------------|------|------|
| | | |

17. Provisions (continued)

It is not the municipality's policy to encash leave in the normal course of business, except upon resignation, termination or retirement.

18. Unspent conditional grants and receipts

Unspent conditional grants and receipts comprises of:

| LG SETA Grant | 2 353 851 | 1 764 538 |
|---|---|--|
| Movement during the year | | |
| Balance at the beginning of the year Additions during the year Income recognition during the year | 1 764 538 330 100 606 (329 511 293) | 19 338 574 316 798 251 (334 372 287) |
| | 2 353 851 | 1 764 538 |

See note 30 for the reconciliation of grants from other spheres of government. The amounts are recognised as revenue when the qualifying expenditure is incurred.

| | | |

19. Employee benefit obligations (continued)

A long-service award is granted to municipal employees after the completion of fixed periods of continuous service with the Municipality. The said award comprises a certain number of vacation leave days which, in accordance with the option exercised by the beneficiary employee, can be converted into a cash amount based on his/her basic salary applicable at the time the award becomes due or, alternatively, credited his/her vacation leave accrual. The provision represents an estimation of the awards to which employees in the service of the Municipality at 30 June 2023.

Key assumptions used

Discount rates used

Yield Curve

CPI (Consumer Price Inflation)

Difference between nominal and yield curve

Salary inflation

Equal to CPI+1

Net discount rate

Yield Curve Base

The basis on which the discount rate has been determined is as follow:

The accrued liability is determined on the basis that each employee's long service benefit accrues uniformly over the working life of an employee up to the end of the interval at which the benefit becomes payable. Further it is assumed that the current policy for awarding long service awards remains unchanged in the future.

Changes in the present value of the defined benefit obligation are as follows:

| Opening balance Net expense recognised in the statement of financial performance | 18 979 000 1 053 000 | 18 112 000 867 000 |

Arrangement debt

The municipality entered into a payment arrangement with Eskom concerning a portion of their Eskom electricity bulk account. In terms of the payment arrangement, the municipality is required to service the arranged debt over five years, whereby the municipality committed to pay Eskom an additional amount to their monthly electricity bulk account.

Notes to the Annual Financial Statements

| Figures in Rand | 2023 | 2022 |
|-----------------|------|------|
| | | |

20. Eskom payment arrangement (continued)

The municipality regrettably defaulted on making all required payments in terms of the payment arrangement, which led to the arrangement debt becoming payable immediately in terms of the arrangement agreement with Eskom.

As a consequence of the default, the municipality derecognised the long-term arrangement debt arrangement amount, which fed to an increase of the current Eskom debt amount due.

Valuations on land and buildings are performed every 4 years. The last general valuation came into effect on 1 July 2017. Interim valuations are processed on an annual basis to take into account changes in individual property values due to alterations and subdivisions.

An average rate of R 0.021 (2022: R 0.021) is applied to property valuations to determine assessment rates.

Rates are levied on a monthly basis. Interest at prime plus 1% per annum (2022; prime plus 1%) is levied on rates outstanding two months after due date. (Excluding national government property rates which is levied on an annual basis).

An application was made with the Department of CoGTA on 17 July 2020 for an extension of the Valuation Roll (01 July 2017 - 30 June 2021) due to the impact of Covid-19, condition of the water supply, solid waste and waste water services, planned extension off the new developments for business & residential developments, replacement of faulty water & electricity meters inclusive of indigents as well of funds needed for improvement of AG's report relating to infrastructure and immovable assets register. Approval was granted on 23 October 2020 by the Head of CoGTA Mr Mokete Victor Duma until June 2024.

Income foregone

The Income foregone included in the different property rates relates to the first R 200 000 of all residential properties that are exempted from paying property rates including, discounts given to farmers, discounts given to pensioners and also incentives given to debtors settling their accounts in terms of the debt collection and credit control policy.

50. Deviation from supply chain management regulations

Paragraph 12(1)(d)(i) of Government Gazette No. 27636 issued on 30 May 2005 states that a SCM policy must provide for the procurement of goods and services by way of a competitive bidding process.

Paragraph 36 of the same gazette states that the accounting officer may dispense with the official procurement process in certain circumstances, provided that he records the reasons for any deviations and reports them to the next meeting of the accounting officer and includes a note to the annual financial statements.

During the financial year there were instances where goods and services were procured and deviated from the normal SCM policy.

The reason for these deviations were documented and reported to the accounting officer who considered them and approved the deviation from the normal SCM Regulations.

Errors

A number of prior period errors were corrected during the year ending 30 June 2023. The details of the retrospective prior period errors adjusted are reflected below.

Annual Financial Statements for the year ended 30 June 2023

Notes to the Annual Financial Statements

Figures in Rand 2023 2022

51. Prior-year adjustments (continued)

Cash and cash equivalents, Accumulated surplus

The Municipality do not provide petty cash to user departments anymore. A correction was done accordingly resulting in the decrease of Accumulated surplus to the amount of R 24 394 and the decrease of Cash and cash equivalent to the amount of (R 24 394).

Receivables from non-exchange transactions, Accumulated surplus

The fruitless and wasteful balance was written off by Council. A correction was done accordingly resulting in the decrease of Accumulated surplus to the amount of R 1 452 287 and the decrease of Receivables from non-exchange transactions to the amount of (R 1 452 287).

Payables from exchange transactions, Accumulated surplus

The Eskom agreement lapsed. A correction was done accordingly resulting in the increase of Accumulated surplus to the amount of (R 58 775 321) and the decrease of Payables from exchange transactions to the amount of R 58 775 321.

Unspent conditional grants and receipts, Government grants and subsidies

The Cogta Grant was not fully recognised. A correction was done accordingly resulting in the decrease of Unspent conditional grants and receipts to the amount of R 3 057 378 and the increase of Government grants and subsidies to the amount of (R 3 057 378).

Inventories, Accumulated surplus

Municipal stands were transferred to residents. A correction was done accordingly resulting in the decrease of Inventories to the amount of (R 1 318 000) and the decrease of Accumulated surplus to the amount of R 1 318 000.

Payables from exchange transactions, Accumulated surplus

Payables from exchange transactions were overstated. A correction was done accordingly resulting in the decrease of Payables from exchange transactions to the amount of R 131 503 and the increase of Accumulated surplus to the amount of (R 131 503).

Property, plant and equipment, Repairs and maintenance

Property, plant and equipment were overstated. A correction was done accordingly resulting in the decrease of Property, plant and equipment to the amount of (R 42 300) and the increase of Repairs and maintenance to the amount of R 42 300.

Property, plant and equipment, Accumulated surplus

Property, plant and equipment were overstated. A correction was done accordingly resulting in the decrease of Property, plant and equipment to the amount of (R 17 040) and the decrease of Accumulated surplus to the amount of R 17 040.

Payables from exchange transactions. Accumulated surplus

Retentions were overstated. A correction was done accordingly resulting in the decrease of Payables from exchange transactions to the amount of R 1 184 348 and the increase of Accumulated surplus to the amount of (R 1 184 348).

Payables from exchange transactions, Repairs and maintenance, General expenditure

Payables from exchange transactions were overstated. A correction was done accordingly resulting in the decrease of Payables from exchange transactions to the amount of R 60 764, the decrease of Repairs and maintenance to the amount of (R 30 804) and decrease of General expenditure to the amount of (R 29 960).

Payables from exchange transactions, Repairs and maintenance

Payables from exchange transactions were overstated. A correction was done accordingly resulting in the decrease of Payables from exchange transactions to the amount of R 2 288 and the decrease of Repairs and maintenance to the

Annual Financial Statements for the year ended 30 June 2023

Notes to the Annual Financial Statements

Figures in Rand 2023 2022

51. Prior-year adjustments (continued) amount of (R 2 288).

Payables from exchange transactions, Repairs and maintenance

Payables from exchange transactions were overstated. A correction was done accordingly resulting in the decrease of Payables from exchange transactions to the amount of R 14 205 and the decrease of Repairs and maintenance to the amount of (R 14 205).

Property, plant and equipment, Accumulated surplus, Depreciation and amortisation

Property, plant and equipment were understated. A correction was done accordingly resulting in the increase of Property, plant and equipment to the amount of R 132 542, the increase of Depreciation and amortisation to the amount of R 8 545 and the increase of Accumulated surplus to the amount of (R 141 086).

Property, plant and equipment, Accumulated surplus, Depreciation and amortisation

Property, plant and equipment were understated. A correction was done accordingly resulting in the increase of Property, plant and equipment to the amount of R 188 103, the decrease of Depreciation and amortisation to the amount of (R 187 539) and the increase of Accumulated surplus to the amount of (R 564).

Accumulated surplus, Other income

Other income were overstated. A correction was done accordingly resulting in the decrease of Other income to the amount of R 48 000, and the increase of Accumulated surplus to the amount of (R 48 000).

Accumulated surplus, Employee benefit obligation

The employee benefit obligation was understated as not all active employees were considered when the calculation was done. A correction was done accordingly resulting in the increase of Employee benefit obligation to the amount of (R 97 627 000), and the decrease of Accumulated surplus to the amount of R 97 627 000.

Unspent conditional grants and receipts, Government grants and subsidies

The Unspent conditional grants and receipts was overstated as National Treasuy did not take the R 234 when they withheld funds from the equitable shares. A correction was done accordingly resulting in the decrease of Unspent conditional grants and receipts to the amount of R 234, and the increase of Government grants and subsidies to the amount of (R 234).

Property, plant and equipment, Accumulated surplus, Depreciation and amortisation, Cost on disposal of assets

Property, plant and equipment were understated. A correction was done accordingly resulting in the increase of Property, plant and equipment to the amount of R 40 878, the increase of Accumulated surplus to the amount of (R 44 183), the increase of Depreciation and amortisation to the amount of R 7 567, and the derease of Cost on disposal of assets to the amount of R (4 262).

Reclassifications

The following reclassifications adjustment occurred:

Receivables from non-exchange transactions, Payables from exchange transactions

Third party refunds were incorrectly disclosed under payables from exchange transactions. A correction was done accordingly resulting in the increase of Receivables from non-exchange transactions to the amount of R 39 297 and the incease of Payables from exchange transactions to the amount of (R 39 297).

Repairs and maintenance, Property, plant and equipment

Property, plant and equipment was overstated in the prior year. A correction was done accordingly resulting in the increase of Repairs and maintenance to the amount of R 33 829 and the decreease of Property, plant and equipment to the amount of (R 33 829).

54. Non-compliance with the Municipal Finance Management Act

During the current financial year the following non-compliance issues were identified:

Supply chain management regulations 12(1)(c) & (d) 17(1)(a) - (c)

Goods and services of a transaction value between R 10 000 and R 200 000 were procured without inviting at least three written price quotations from accredited prospective providers.

Deviations from competitive bidding were approved on the basis of it being an emergency, urgency or sole supplier.

Municipal Finance Management Act section 116(2)(b), (c)

The performances of all contractors were not monitored on a monthly basis.

Municipal Finance Management Act section 65 (e)

Creditors were not paid in 30 days as required by the Act.

Municipal Finance Management Act section 52(d)

Annual Financial Statements for the year ended 30 June 2023

Notes to the Annual Financial Statements

| Figures in Rand | 2023 | 2022 |
|-----------------|------|------|
| 9 | | |

54. Non-compliance with the Municipal Finance Management Act (continued)

The budget implementation and state of financial affairs submission was not in accordance with the prescribed time frame.

55. Going concern

We draw attention to the fact that at 30 June 2023, the municipality had an accumulated surplus (deficit) of R 1 210 622 032 and that the municipality's total assets exceed its total liabilities by R 1 210 622 032.

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

The following are events and conditions that cast doubt on the municipalities ability to continue as a going concern.

The municipality incurred a deficit for the current financial year of R 372 523 214 and R 191 395 953 in the previous financial year.

The current liabilities amounting to R 1 214 276 146 exceeds current assets of R 689 193 238 by R 525 082 908.

The receivables from exchange transactions decreased from R 399 131 142 to R 371 821 677, which resulted in a 7% decrease as at 30 June 2023.

The payables from exchange transactions increased from R 882 274 912 to R 1 176 336 119 which results in a 25% increase. The creditors' payment period also increased from 461 days to 576 days as at 30 June 2023. The payables from exchange transactions outstanding for a period longer than 30 days amounted to R 1 035 790 696 (92%). Eskom is the biggest contributor interms of payables. The Municipality applied for the Debt Relief Programme rolled out by National Treasury to give relief in terms of writting off the debt owed to Eskom if the municipality keeps up with paying the current account. At 30 June 2023 thus application was not yet finalised by Eskom. The key condition for this application is that the municipality must pay its current account every month for 12 months, then Eskom will write off one third of the oustanding debit.

The cash equivalents amounted to R 19 968 046 as 30 June 2023 (2022: R 41 538 962).

The ability of the municipality to continue as a going concern is dependent on a number of factors. The most significant of these is that the accounting officer continue to procure funding for the ongoing operations for the municipality.

Despite the material uncertainties which cast a significant doubt on the municipality's ability to continue as a going concern, the municipality will continue to have the power to levy rates in the following financial period. The municipality is also likely to receive continued government funding, as has been disclosed in the Division of Revenue Act of 2023, as there are no current indications that government funding will be withheld from the municipality for any reason.

59. Budget differences

Material differences between budget and actual amounts

Refer to the Statement of Comparison of Budget and Actual Amounts in the annual financial statements for an analysis of budget versus the actual amounts.

Changes from the approved budget to the final budget

The changes between the approved and final budget are a consequence of reallocations within the approved budget parameters. For details on these changes please refer to Appendix E to the annual financial statements.

The changes between the approved and final budget are a consequence of changes in the overall budget parameters. For details on these changes please refer to Appendix E to the annual financial statements.

60. Risk management

Capital risk management

The municipality's objectives when managing capital are to safeguard the municipality's ability to continue as a going concern in order to provide returns for member and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The capital structure of the municipality consists of debt, which includes the borrowings disclosed in notes 15, cash and cash equivalents disclosed in note 3, and accumulated surplus as disclosed in the statement of financial position.

There have been no changes to what the municipality manages as capital, the strategy for capital maintenance or externally imposed capital requirements from the previous year.

Liquidity risk

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions.

The municipality's risk to liquidity is a result of funds not being available to cover future commitments.

The municipality's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the entity's reputation.

The municipality manages liquidity risk through proper management of working capital, ongoing review of future commitments, capital expenditure and actual versus forecast cash flows.

| Financial Liabilities | 2023 | 2022 |
| Payables from exchange transactions | 1 176 336 119 | 882 274 912 |
| Finance lease | 2 416 238 | 3 359 029 |
| DBSA Loans | 19 946 883 | 24 411 635 |

The municipality is in arrears with servicing of the Eskom debt.

The municipality defaulted on its DBSA loan agreement in the current financial year. The DBSA loan carries fixed interest rate at 9% per annum. In mitigating the risk of non-payment, the municipality did hold bilaterals with DBSA regarding the loan account and a debit order was signed to ensure that the loan repayments are honored on a monthly basis, which also takes into account the arrear loan repayment so as to ensure that the loan is paid up by the redemption date.

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the municipality. The municipality has a sound credit control and debt collection policy and obtains sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The municipality uses its own trading records to assess its major customers. The municipality's exposure of its counterparties is monitored regularly.

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade receivables. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counterparty.

Credit risk relating to trade receivables is managed in accordance with the municipalities' credit control and debt collection policy. The municipality has a credit risk policy in place and the exposure to credit risk is monitored on an ongoing basis. The municipality is compelled in terms of its constitutional mandate to provide all its residents with basic minimum services without recourse to an assessment of creditworthiness. Subsequently, the municipality has no control over the approval of new customers who acquire properties in the designated municipal area and consequently incur debt for rates, water and electricity services rendered to them.

The municipality credit exposure is spread over a large number and wide variety of consumers and is not concentrated in any particular sector or geographical area. Adequate provision has been made for anticipated bad earned doubtful debt. Additional information relating to the analysis of consumer debtors is given in note 6 to the annual financial statements.

Financial assets exposed to credit risk at year end were as follows:

| Financial instrument | 2023 | 2022 |
|--|-------------|-------------|
| Cash and cash equivalents | 19 968 046 | 41 538 962 |
| Investments | 445 279 | 393 566 |
| Receivables from exchange transactions | 371 821 677 | 399 131 142 |
| Receivables from non-exchange transactions | 56 722 281 | 62 961 226 |

62. Segment information

General information

Identification of segments

The municipality is organised into six functional directorates for management purposes. The directorates are Municipal Manager, Finance, Corporate Services, Community and Social Services, Technical Services, and Local Economic Development and Planning Services.

Only the Community and Social Services, Technical Services, and Local Economic Development and Planning Services directorates have been identified as reportable segments. Management monitors the operating results of these units to make decisions about resource allocations and assessment of performance. Revenues and expenditures relating to these units are allocated at a transactional level. Costs relating to the governance and administration of the municipality are not allocated to these business units.

The Municipal Manager, Finance, Corporate Services directorates are the governance and administration units of the municipality. However, they are not reportable segments; their results are reported as non-reportable segments to reconcile the results of the reportable segments to the total revenue and expenses of the municipality for the year under review.

The three reportable segments comprise of:

- Community and social services, which include sport and recreation, public safety, refuse removal, street cleaning and cemeteries:
- · Technical services which include energy sources, water management, and wastewater management; and
- Local economic development and planning services, which include planning and development, housing, and the Kroonpark resort.

Management does not monitor financial performance geographically and does not have reliable separate financial information.

A measure of assets and liabilities for each reportable segment has not been presented as these amounts are not regularly provided to management.

Information reported about these segments is used by management as a basis for evaluating the segments' performances and for making decisions about the allocation of resources. The disclosure of information about these segments is also considered appropriate for external reporting purposes.

Aggregated segments

The municipality operates throughout the Gauteng Province in ten cities. Segments were aggregated on the basis of services delivered as management considered that the economic characteristics of the segments throughout Gauteng were sufficiently similar to warrant aggregation.

Types of goods and/or services by segment

These reportable segments as well as the goods and/or services for each segment are set out below:

Reportable segment

Segment 1 Segment 2

Segment 2

Segment 3

Segment 4

Goods and/or services

Local economic development and planning services
