FOREWORD BY THE MAYOR

Cllr. T.I Motsoeneng

Mafube Municipality has come a long way to the current state. The leaders are convinced that the organization is premised on the belief that change is inevitable, a change that is aimed at improving life and making the municipality accessible.

It is for this reason that during the process of developing this Integrated Development Plan, there was a compelling need to claim our position of being the municipality of first. This has led to the birth of the new vision 'Towards a leading'. This vision will in turn fulfill our mandate which is informed by the following objectives:

- ❖ Spatial Transformation
- ❖ Inclusive Growth
- ❖ Service Provision
- ❖ Governance

As the council, we are mindful of the economic conditions and the impact these have on our people, the triple challenge of poverty, unemployment and inequality remain in our communities. Many families rely on government grants to put food on the table and this can only be reversed through creation of jobs. We will be working hand in hand with organized stakeholders in our locality, partner with them in furthering our ambitious programme of delivery for the next years. Time has come that we radically transform the economy through various means and ways of empowerment.

In our endeavor to keep to our promises, excellent governance will inform decision making and performance. We want the public to actively participate in the business of the municipality throughout the term of this IDP. Get involved, be informed and know the IDP. It is our duty to continuously engage and be engaged through various structures.

This Municipality has a potential to grow, and we are determined to grow as the demand rises. We will push harder to accommodate growth in all material respects, work with businesses and other stakeholders in ensuring that administrative red-tape is minimized. We want to grow the Municipality, develop its people and provide services to all.

This IDP 2023/24 has been developed after having taken into account the inputs of management and the public in general. It is aimed at addressing the needs of the people, which in the forefront is security of land tenure and access to basic services. Our commitment as the duly elected representatives of the people is to ensure that service delivery priorities are implemented effectively and economically.

EXECUTIVE SUMMARY

The Constitution of the Republic of South Africa commits government to take reasonable measures, within its available resources to ensure that all South Africans have access to adequate housing, health care, education, food, water and social security. To this end Chapter 5 of the Municipal Systems Act, 2000 prescribes that a municipality must undertake developmentally oriented planning to ensure that it achieves the objectives of local government as set out in the Constitution.

Local Economic Development is reflecting the devastating effect of COVID-19 on unemployment and economic downturn. It is a fact we need an enabling environment for business to create the much needed jobs and turn our economy to a growing one. Youth unemployment is a ticking time bomb not only for our municipality but for our Country as a whole.

Integrated development planning and the product of this process, the Integrated Development Plan (IDP) is a constitutional and legal process required of municipalities. Planning in general and the IDP in particular, is a critically important management tool to help transformation, growth and development at local government level. It is an approach to planning which involves the entire municipality and its citizens in finding the best solutions to achieve good long-term development.

This revised IDP 2023-2024 is the first review of the five-year plan IDP 2022/2027, it is based on the transformation, growth, development and execution of the five year IDP (2022/2027). This IDP therefore outlines the objectives and programmes that the municipality seeks to realise over the 2023-2024 financial year.

CHAPTER 1: INTRODUCTION and BACKGROUND

1.1 Introduction

The Local Government: Municipal Systems Act, Act (No.32) of 2000 requires that local government structures prepare Integrated Development Plans (IDPs). The IDP serves as a tool for the facilitation and management of development within the areas of jurisdiction. In conforming to the Act's requirements Mafube Municipality's Council has delegated the authority to the Municipal Manager to prepare the IDP.

This revised IDP 2023/24 is the first review of the five year plan IDP 2022-2027, it is based on the transformation, growth, development and execution of the five year IDP (2022 to 2027). This IDP therefore outlines the objectives and programmes that the municipality seeks to realise over the 2023/2024 financial year.

This revised IDP is based on lessons learned from the previous five year IDP 2017 - 2022 and focuses on the following:

- Alignment with political, national and provincial priorities;
- Deepening the analysis and target-setting principles of strategic planning processes;
- Institutionalising a systematic process for addressing community needs; and
- Further strengthening performance management and monitoring systems.

It is important that the IDP developed by the Mafube Local Municipality aligns with the political, national and provincial intent. The aim of this IDP is to develop and coordinate a coherent plan to build on advances made during the previous financial year's and to continue improving the quality of life for all the people living in the area.

One of the key objectives is therefore to ensure that there exists alignment between national and provincial priorities, policies and strategies and the Municipality's response to these requirements.

The first review of the 2022- 2027 Integrated Development Plans takes into account a number of challenges that were highlighted as experienced by municipalities during the previous one which include;

- Poor integration of national and provincial sector plans in the IDPs.
- Poor alignment between planning, budgeting, implementation, monitoring, and reporting processes.
- Lack of appreciation for the importance of IDPs as intergovernmental planning instruments.
- Current planning platforms do not provide an opportunity for municipality to engage timeously with the Community and sector departments.

This IDP is compiled in terms of Chapter 5 of the Local Government: Municipal Systems Act (MSA) (Act 32 of 2000).

Section 26 of the MSA states that the following core components should be included in the plan:

- the municipal council's vision for the long term development of the municipality with special emphasis on the municipality's most critical development and internal transformation needs

- an assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to basic municipal services;
- the council's development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs
- the council's development strategies which must be aligned with any national or provincial sectoral plans and planning requirements binding on the municipality in terms of legislation;
- National Development Plan (2012);
- Back to Basic Programme for municipalities (2014);
- The Integrated Urban Development Framework (2016);
- The District Development Model (2019);
- a spatial development framework which must include the provision of basic guidelines for a land use management system for the municipality
- the council's operational strategies;
- applicable disaster management plans;
- a financial plan, which must include a budget projection for at least the next three years; and
- the key performance indicators and performance targets.

1.2 BACKGROUND

South Africa has a representative form of democratic government. The management and governance of South Africa is based on a three-sphere system of government, namely national, provincial and local spheres of government.

The Constitution of the Republic of South Africa, 1996 stipulates that the local sphere of government consists of municipalities

which were established for the whole of the territory of South Africa – the so-called wall-to-wall municipalities. The Constitution and the Local Government: Municipal Structures Act, 1998 established a system of categories and types of municipalities. Accordingly three categories of municipalities were identified. Categories A municipalities are metropolitan municipalities that have exclusive municipal executive and legislative authority in its area. Category B municipalities are local

FIGURE 1: MAP OF SOUTH AFRICAN PROVINCES

Municipalities which share municipal executive and legislative authority in its area with a Category C (District) municipality within whose area it falls.

The objects of local government are set out in Section 152 of the Constitution. Accordingly the objects are -

- a) to provide democratic and accountable government for local communities;
- b) to ensure the provision of services to communities in a sustainable manner;
- c) to promote social and economic development;
- d) to promote a safe and healthy environment; and
- e) to encourage the involvement of communities and community organisations in the matters of local government.

These objectives have been applicable for more than fifteen years and every part of the country now falls under the jurisdiction of a municipality, with many communities experiencing local and democratic government for the first time within the last decade.

Section 154(1) of the Constitution requires both the National and the Provincial Governments by legislation or other means to support and strengthen the capacity of municipalities to manage their own affairs, to exercise their powers and to perform their functions. Provincial supervision, monitoring and support of local government is a Constitutional obligation in terms of sections 154(1) and Section 155(6) and (7) of the Constitution.

The Mafube Local Municipality came into existence in the year 2000 and is formed by four Towns, Frankfort, Villiers, Cornelia and Tweeling. It is a Category B municipality and is one of the local municipalities in the Free State Province; it belongs to Fezile Dabi District Municipality.

1.3 LEGISLATIVE CONTEXT

The Constitution commits government to take reasonable measures, within its available resources, to ensure that all South Africans have access to adequate housing, health care, education, food, water and social security.

Chapter 5 of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000) (MSA) states that a municipality must undertake developmentally oriented planning to ensure that it achieves the objects of local government as set out in Section 152 of the Constitution. It must further give effect to its developmental duties as required by Section 153 of the Constitution. Together with other organs of state, it must contribute to the progressive realisation of the fundamental rights contained in Sections 24, 25, 27 and 29 of the Constitution.

Communities cannot develop in isolation and the process of integrated development planning strives to systematically and transparently find acceptable measures within given time frames to allocate resources for service delivery. Local municipalities use integrated development planning as a tool to plan future development in their areas in a sustainable manner.

Integrated development planning is a process by which the planning efforts of different spheres and sectors of government and other institutions are coordinated at local government level. It combines the various economic, social, environmental, legal, infrastructural and spatial aspects applicable to development or provision of services and infrastructure and allocates the necessary budget thereto. This should take place in a way that enhances development and provides sustainable empowerment, growth and equity for the short, medium and long term. Integrated development planning and the product of this process.

The Integrated Development Plan (IDP) is a constitutional and legal process required of municipalities. Planning in general and the IDP in particular, is a critically important management tool to help transformation, growth and development at local government level. It is an approach to planning that involves the entire municipality and its citizens in finding the best solutions to achieve good long-term development.

Some of the benefits of IDP are:

- Allocation of scarce resources to maximise effect and to ensure priorities are met;
- Effective use of available capacity;
- To ensure sustainable development and growth;
- To facilitate credible accessibility to local government by citizens;
- To enable active citizen participation in local government;
- Providing access to development funding;
- Encouraging both local and outside investment; and
- Building capacity among councillors and officials.

According to Section 25 of the MSA, each municipal council must, after the start of its elected term, adopt a single, inclusive and strategic plan (Integrated Development Plan) for the development of the municipality which links, integrates and co-ordinates plans and takes into account proposals for the development of the municipality and which aligns the resources and capacity of the municipality with the implementation of the said plan. The Integrated Development Plan (IDP) should form the policy framework and general basis on which annual budgets are based and should be in link with national and provincial development plans and planning requirements.

An IDP is a master plan for an area that gives an overall framework for development. It aims to co-ordinate the work of local and other spheres of government in a coherent plan to improve the quality of life for all the people living in an area. It takes into account the existing conditions and problems and resources available for development. It looks at economic and social development for the area as a whole.

There are a few main reasons why a municipality should have an IDP:

- *Utilization of scarce resources*
The IDP assists the municipality to focus on the most important needs of the communities taking into account the resources available. In the process, the municipality must find the most cost-effective and efficient ways of providing services and money spent on the causes of problems in its area of jurisdiction.
- *Expedite delivery of services*
The IDP identifies the least serviced and most impoverished areas and points to where municipal funds should be spent. It should provide mechanisms to ensure that projects and programmes are efficiently implemented and assists developing realistic project proposals based on the availability of resources.
- *Attract additional funds*
The IDP provides clear development direction and guidelines that in return will attract investors and additional funds to the municipal area.
- *Strengthens democracy*
Through the active participation of all the important stakeholders in the IDP and Budgeting process, decisions are made in a democratic and transparent manner.
- *Promotes co-ordination between local, provincial and national government*
The different spheres of government are encouraged to work in a coordinated manner to address the development needs in a local area.

The IDP of a Municipality may be amended if and when circumstances require the amendment but must be reviewed annually in terms of section 34 of the MSA. Both amendment and review of the plan must be in accordance with a prescribed process which is described in the Process Plan.

Of particular importance to municipalities and municipal entities is Sections 151 to 164 (Chapter 7) of the Constitution, Local Government: Municipal Structures Act, 1998, MSA, the Local Government: Municipal Finance Management Act, 2003 (MFMA) and the Local Government:

Municipal Systems Amendment Act, 2003. These Acts form the cornerstones for municipal operations, planning, governance and accountability. More specifically, the regulations of these Acts promote effective planning, budgeting, revenue and expenditure management, reporting, oversight, social and economic development, universal access to essential services and effective performance management.

1.4 INTER-GOVERNMENTAL PLANNING

Section 41(1) of the Constitution contains the principles of co-operative government and inter-governmental relations. *Section 41(1) stipulates that:*

1. All spheres of government and all organs of state within each sphere must -
 - a. preserve the peace, national unity and the indivisibility of the Republic;
 - b. secure the well-being of the people of the Republic;
 - c. provide effective, transparent, accountable and coherent government for the Republic as a whole;
 - d. be loyal to the Constitution, the Republic and its people;
 - e. respect the constitutional status, institutions, powers and functions of government in the other spheres;
 - f. not assume any power or function except those conferred on them in terms of the Constitution;
 - g. exercise their powers and perform their functions in a manner that does not encroach on the geographical, functional or institutional integrity of government in another sphere; and
 - h. co-operate with one another in mutual trust and good faith by -
 - fostering friendly relations;
 - assisting and supporting one another;
 - informing one another of, and consulting one another on, matters of common Interest;
 - coordinating their actions and legislation with one another;
 - adhering to agreed procedures; and
 - Avoiding legal proceedings against one another.

'Inter-governmental relations' means the relationships between national, provincial and local government. The Constitution states that the three spheres of government are distinctive, inter-dependent and inter-related. They are autonomous, but exist in a unitary South Africa and have to cooperate on decision-making and must co-ordinate budgets, policies and activities, particularly for those functions that cut across the spheres.

Cooperative governance means that national, provincial and local government should work together to provide citizens with a comprehensive package of services. They have to assist and support each other, share information and coordinate their efforts. Implementation of policies and government programmes particularly require close cooperation between the three spheres of government.

The division and allocation of the total government income (revenue) between the spheres of government and within government is regulated by the *Division of Revenue Act, 2009 (DORA)*. The different spheres of government depend on each other for support in project implementation.

In order to implement the principles on cooperative government set out in Chapter 3 of the Constitution, the *Intergovernmental Relations Framework Act, 2005 (IGR)* was enacted. The Act

seeks to set up mechanisms to coordinate the work of all spheres of government in providing services, alleviating poverty and promoting development. It also establishes a line of communication from municipalities to the provinces and directly to the Presidency.

At provincial level a Premier's Inter-governmental Forum (PIF) exists which consults on broad development in the province, as well as on the implementation of national and provincial policy and legislation. It also seeks to coordinate the alignment of provincial and municipal development planning and strategic planning.

In many development projects, more than one sphere of government may be involved in implementation. Where necessary, the different organs of state may enter into an implementation protocol that describes the role and responsibility of each organ of state; outlines priorities and desired outcomes; and provides for monitoring, evaluation, resource allocation and dispute resolution procedures. The IGR has been set up to facilitate cooperation and avoid legal proceedings between different spheres of government.

Inter-governmental relations go beyond the IGR and the MFMA also requires consultation in the budgeting and planning process. All government programmes are developed based on the laws and policies that are made by Parliament.

The relationship between national planning instruments such as the NSDP, provincial plans such as Provincial Growth and Development Strategies (PGDS) and municipal plans (IDP's) must be determined in the context of a set of intergovernmental planning principles.

These include:

- All spheres and organs of state should promote coordinated and integrated planning;
- National development priorities and principles should inform planning for all spheres;
- Each sphere has its own distinct development tasks and related planning tasks corresponding to the scale of operations and the area of jurisdiction; and
- The necessary mutual alignment between national priorities or guidelines, sectoral planning requirements and local needs, conditions and resources must be conducted in the spirit of cooperative governance whereby the plans of one sphere should support those in another.

The shared and common platform critical to alignment is made possible through a coherent set of national spatial guidelines based on the twin concepts of development potential and need. The normative principles and guidelines embodied in the NSDP provide the central organising concept for facilitating alignment and serve as the mechanism and basic platform for better coordination and alignment of government programmes.

"A spatial dimension to planning is critical to reversing the legacies of apartheid's Bantustan policies and our fragmented urban areas. International best practice suggests that spatial planning instruments are being increasingly used to pursue and achieve alignment. They include spatial development perspectives and guidelines for infrastructure investment and social spending.

1.5 MAFUBE LM POWERS AND FUNCTIONS

Local government is assigned specific powers and functions that are unique and appropriate to the lower sphere of government. Similar to the position on national and provincial spheres, local government powers and functions are constitutionally entrenched and protected and cannot be unilaterally taken away by another sphere of government. Albeit constitutionally protected, the powers and functions of municipalities are not absolute and are subject to both constitutional and national legislative requirements.

Chapter 3 of Municipal Systems Act, 2000 states that a municipality has all the functions and powers assigned to it in terms of the Constitution, and must exercise them subject to Chapter 5 of the Municipal Structures Act, 1998. Furthermore, a municipality is empowered by legislation to do anything reasonably necessary for, or incidental to, the effective performance of its functions and the exercise of its powers.

Against this legislative directive, we understand and interpret our powers and functions aligned to the objects of local government as set out in section 152 of the Constitution as follows:

TABLE 1: MAFUBE LM FUNCTIONS AND POWERS

OBJECTS OF LOCAL GOVERNMENT	MAFUBE LM FUNCTIONS AND POWERS
<ul style="list-style-type: none"> • To provide democratic and accountable government for local communities 	<ul style="list-style-type: none"> • Developmental municipal planning
<ul style="list-style-type: none"> • To ensure the provision of services to communities in a sustainable manner • To promote a safe and healthy environment 	<ul style="list-style-type: none"> • Building regulations • Storm water drainages • Cemeteries • Local amenities • Municipal roads • Water and sanitation services • Street lighting • Traffic and parking • Refuse removal and refuse dumps • Cleansing • Municipal health services (FDDM) • Firefighting (FDDM) • Pounds • Local sport facilities • Municipal parks and recreation
<ul style="list-style-type: none"> • To promote social and economic development 	<ul style="list-style-type: none"> • Local tourism • Street trading • Trading regulations • Sell food to the public • Public places
<ul style="list-style-type: none"> • To encourage the involvement of communities and community organisations in the matters of local government. 	<ul style="list-style-type: none"> • Community participation • Fair, equitable and transparent supply chain practices

1.6 OVERVIEW OF IDP PROCESS

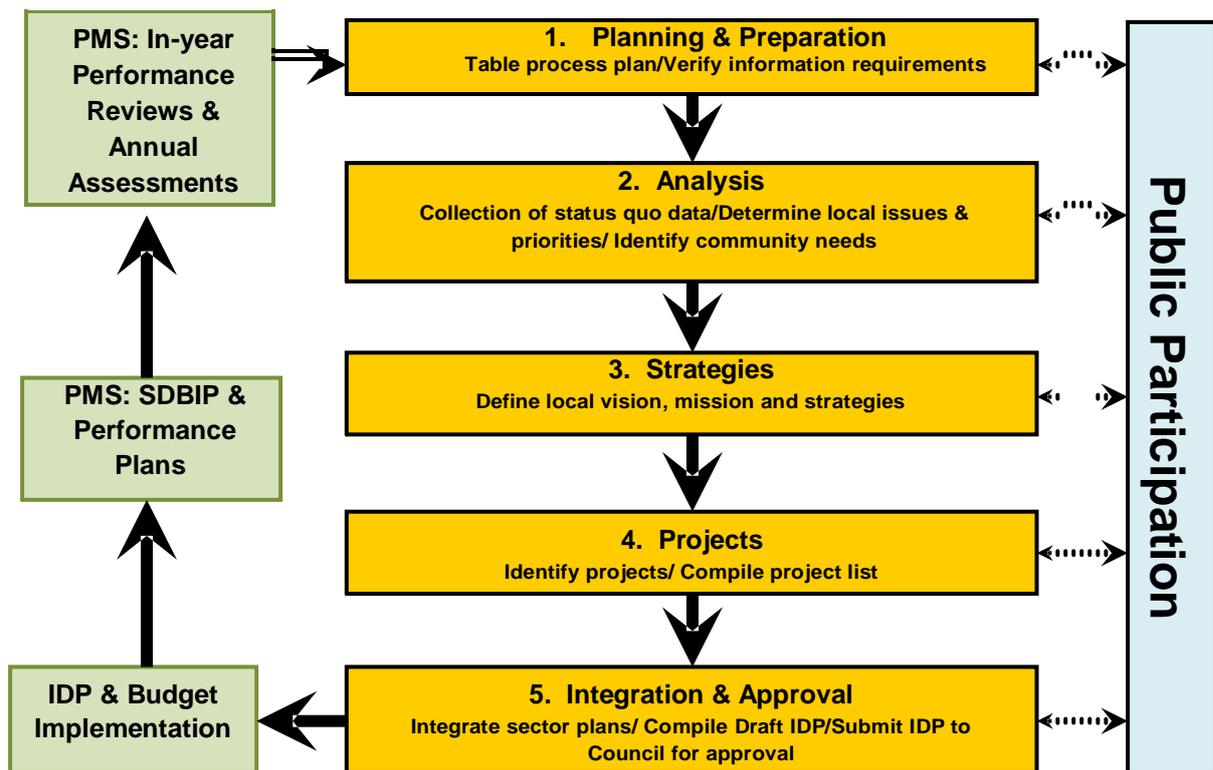

1.6.1 Introduction

It should be noted that this revised IDP 2023/2024 is the first review of the five year plan IDP 2022 - 2027, it is based on the transformation, growth, development and execution of the five year IDP (2022 to 2027). The aim of this IDP is to develop and coordinate a coherent plan to build on advances made during the previous financial years and to continue improving the quality of life for all the people living in the area. This IDP therefore outlines the objectives and programmes that the municipality seeks to realise over this financial year.

The time schedule and process plan will therefore outline the planning and budget preparation process to be undertaken, proposed institutional arrangements and timeframes attached to the different phases. The process plan will further illustrate the alignment of the IDP with the municipality's Budget, Performance Management System (PMS) and Service Delivery and Budget Implementation Plan (SDBIP) processes.

The diagram below gives a broad outline of the process followed in reviewing the IDP, and developing and implementing the PMS and SDBIP.

FIGURE 2: IDP AND PMS PHASES

Phase 1 (Planning and Preparation) entailed the preparation of the process plan for the compilation of the IDP and the setting up or confirmation of the required institutional arrangements.

Phase 2 (Analysis) included the registration and analysis of community needs collected during the public participation meetings to identify specific needs which have not yet been addressed by the municipality. Directorates was therefore requested to prioritise the said community needs in the compilation of their respective capital projects for the next medium term budget.

Phase 3 (Strategies) ensured that clear objectives, strategies, indicators and targets are developed and that the IDP is properly aligned and linked to the Budget through the SDBIP.

Phase 4 (Projects) included the development of a detailed project list based on the community needs analysis and identified strategic priorities.

Phase 5 (Integration and Approval) represents the final phase I which the 2012/13 Five-Year IDP will be tabled and adopted by Council after a second round of public participation meetings.

1.6.2 Institutional arrangements

It was important that the suggested roles below were adhered to and that accountability was maintained throughout the entire IDP process. An analysis and confirmation of the institutional arrangements were undertaken to ensure that the above five phases were effectively executed. The table below reflects the arrangement and suggested roles and responsibilities as to who was responsible for planning, development, preparation, compilation and drafting of the Mafube Local Municipality’s (MLM) IDP and SDBIP.

TABLE 2: IDP INSTITUTIONAL ARRANGEMENTS

<p>Mayor</p>	<p>The Mayor of Mafube LM has the ultimate responsibility for the preparation and implementation of the IDP, Budget & Performance Management. In his executive capacity he has to:</p> <ul style="list-style-type: none"> ➤ be responsible for the overall oversight, development and monitoring of the process or delegate IDP & PMS responsibilities to the Municipal Manager; ➤ ensure that the budget, IDP & budget related policies are mutually consistent & credible; ➤ submit the revised IDP & the Budget to the municipal Council for adoption; ➤ submit the proposed Performance Management System to the Municipal council for adoption.
<p>Municipal Council</p>	<p>The Council is the ultimate political decision-making body of the municipality and the Council has the responsibility to:</p> <ul style="list-style-type: none"> ➤ consider and adopt the IDP Process Plan & time schedule for the preparation, tabling & approval of the annual budget; ➤ consider and adopt the IDP and annual Budget; ➤ ensure the municipal budget is coordinated with and based on the IDP; ➤ adopt a Performance Management System (PMS) ➤ Monitor progress, re. IDP implementation

Mayoral Committee	The role of Mayoral Committee is to provide political and strategic guidance and direction to the IDP, Budget, Performance Management processes and IDP implementation. The Mayoral Committee is assisted by the Finance and IDP Portfolio Committee in this regard
Ward Councillors & Ward Committees	<p>Ward Councillors are the major link between the municipality and the residents. As such, their role is to:</p> <ul style="list-style-type: none"> ➤ link the planning process to their constituencies and/or wards; ➤ ensure that communities understand the purpose and the key mechanisms of the IDP, Budget process, Performance Management and are motivated to actively participate; ➤ facilitate public consultation and participation within their wards
IDP Representative Forum	<p>The IDP representative forum serves as the interface for community participation during the IDP process and therefore participates in the annual review of the municipality's IDP. The IDP Representative Forum is chaired by the Mayor (or his delegate) and consists of the following role players:</p> <ul style="list-style-type: none"> ➤ Members of the Mayoral Committee ➤ Ward Councillors ➤ Community Development Workers ➤ NGOs/CBOs ➤ Business chambers ➤ Sector departments (district, provincial and national) ➤ Religious organisations ➤ Municipal officials
Municipal Manager	The Municipal Manager has the responsibility to provide guidance and ensure that the administration actively participates and supports the development and review of the IDP and Budget and works towards its implementation.
IDP Steering Committee	<p>The IDP Steering Committee is chaired by the Municipal Manager and comprises of the Directors and Managers of the various divisions and offices. The tasks of the Steering Committee are to:</p> <ul style="list-style-type: none"> ➤ provide technical oversight and support to the IDP/ Budget review and its implementation; ➤ consider and advise on IDP/ Budget content and process; ➤ ensure inter-directorate co-operation, co-ordination, communication and strategic thinking to address priority issues ➤ ensure sector and spatial co-ordination and alignment ➤ ensure IDP & budget linkage ➤ ensure Performance Management is linked to the IDP ➤ ensure the organisation is oriented to implement the IDP ➤ Ensure time-frames set for the review are met. <p>It is proposed that the IDP Steering Committee meet at least once a month at the beginning of the Senior Management meeting for about a half an hour (as per the schedule).</p>
Directorates &	Directorates and Departments are responsible for sector planning

Departments	<p>and for the implementation of the IDP. The participation of all Departments is thus critical and they :</p> <ul style="list-style-type: none"> ➤ provide technical / sector expertise and information, throughout the IDP Budget process; ➤ ensure that the review process is participatory, integrated, strategic, implementation-oriented, budget linked and aligned with and satisfies sector planning requirements;
IDP Unit	<p>The IDP Unit reports to the MM and is required to manage and co-ordinate the IDP process, ensure budget integration, the roll out of Performance Management and monitor the implementation of the IDP, including:</p> <ul style="list-style-type: none"> ➤ preparing the Process Plan for the development of the IDP; ➤ undertaking the overall management and co-ordination of the planning and review process under consideration of time, resources and people ➤ ensuring that the review process is participatory, strategic, implementation-oriented, integrated with the budget process, is horizontally and vertically aligned and satisfies sector planning requirements ; ➤ linking the IDP to the SDBIP
Service Providers	<p>External Service Providers will be engaged, when necessary to:</p> <ul style="list-style-type: none"> ➤ provide methodological/ technical guidance to the IDP ➤ facilitate planning workshops; ➤ undertake special studies; ➤ ensure the IDP/ Budget/ PM is aligned with Provincial & National Department's strategy and budget.

1.6.3 Time schedule

The annual review of the IDP followed the phases below:

FIGURE 3: IDP PHASES AND TIMELINES

Phase	Jul-11	Aug-11	Sep-11	Oct-11	Nov-11	Dec-11	Jan-12	Feb-12	Mar-12	Apr-12	May-12	Jun-12
Preparation <i>Review Provincial IDP assessment report</i> <i>Compile process plan and time schedule</i>												
Analysis <i>Determine local issues and needs</i> <i>Review status quo assessment</i>												
Strategies <i>Review Vision, Mission and Values</i> <i>Determine strategic priorities, KPAs, Programmes, KPIs and Performance targets</i> <i>Develop 5-Year Institutional Scorecard</i>												
Projects <i>Design & identify projects per strategic priority</i> <i>Develop list of IDP projects</i>												
Integration <i>Consolidate/integrate sector priorities and plans</i> <i>Compile draft and final IDP</i>												
Approval <i>Submit Draft IDP to Council</i> <i>Submit Final IDP to Council</i>												

The detailed timelines contained in the IDP and Budget Process Plan included the following:

The annual review of the IDP and Budget preparation processes will be executed according to the time schedule below:

TABLE 3: IDP AND BUDGET PROCESS PLAN

Mafube Local Municipality			
2022/2023 IDP and Budget Process Plan			
PHASE	OBJECTIVE	RESPONSIBILITY	TARGET DATE
Preparation	Preparations and Analysis: Review Provincial IDP assessment report, Compile IDP process plan & Budget time schedule	Municipal Manager and Directors	July - August 2022
	Submit the Draft IDP and Budget Timeline to Management	Municipal Manager	August 2022
	Publicize the Draft process plan, for Stakeholder inputs	Municipal Manager	August 2022
	Submit draft process plan and time schedule to EXCO for approval	Municipal Manager	August 2022
	Submit the District Integrated Development Framework to Council for adoption	Mayor	August 2022
	Submit final process plan and time schedule to Council for adoption	Mayor	August 2022
	Submission of the IDP and Budget Process Plan to CoGTA and both Provincial and National Treasuries	Municipal Manager	September 2022
Analysis	Perform situational analysis and assessment of the achievements of the previous IDP (2017 – 2022), and tabulate the analysis report to the Steering committee	Political Office, Municipal Manager and Directors	September 2022
	Conduct IDP public consultations in all nine wards, with all stakeholders	Political Office, Municipal Manager and Directors	October - November 2022
	All directors to submit 3 year capital budget to CFO	Directors	October 2022
	Meeting: IDP Steering committee and IDP Rep forum (To consider report on the review of the status quo and community needs)	Mayor, Municipal manager, Directors and Managers	October 2022

Strategies	Municipal Strategic Planning session (To develop 5 year strategic plan and review the Vision and Mission Statement)	Mayor, Municipal manager and Directors	November - December 2022
	<i>Conduct informal performance assessments for the First Quarter</i>	Municipal Manager	October 2022
	<i>Submit 2022/2023 First Quarter Performance Report to Council (Section 52 of MFMA)</i>	Mayor, Municipal manager	October 2022
	Discussion meetings per Directorate on Capital Budget and alignment of IDP strategies and objectives	Directors	November 2022
	Submit proposed Tariff increases to CFO	Directors	November 2022
	Submit 3 year personnel budget to CFO	Political Offices, Municipal Manager and Directors	November 2022
	Submit 3 year operating budget to CFO	Political Offices, Municipal Manager and Directors	November 2022
	Alignment with NDP, FSGDS & MTSF and Integration of IDP and Budget programmes	Political Office, Municipal Manager and Directors	December 2022
Projects	Finalisation of all sector plans and strategies Alignment with NDP, FSGDS & MTSF Projects Identification (Municipal specific & Sectors Projects) Performance Indicators Projects Output, targets & location Project related activities Cost & budget estimates e.g. (Budget)	Municipal manager and Directors	December 2022 – Feb 2023
Integration	Integrated SDF Integrated Sectoral Programmes e.g. (WSDP)	Municipal Manager	December 2022- Feb 2023

Disaster Management Institutional plan and sector plans		
Meeting to discuss Tariffs, Salaries and Operating Budget	Political Offices, Municipal Manager and Directors	January 2023
<i>Conduct formal performance assessments for the second Quarter</i>	Municipal Manager	January 2023
<i>Submit mid-year budget and performance assessment report to the Mayor and Council (Section 72 of MFMA)</i>	Municipal Manager	January 2023
<i>Tabling of 2021/2022 Annual Report in Council (Section 127(2) of MFMA)</i>	Mayor	January 2023
Meeting: IDP Steering committee (to review progress to date)	Municipal Manager, directors and managers	January 2023
Budget Commission	Chief Financial Officer	February 2023
Meetings: to present the Draft IDP to the IDP Steering committee	Mayor, Municipal Manager and Directors	March 2023
Tabling of Draft Budget in the Steering Committee	Mayor	March 2023
<i>Council considers report of Oversight Committee on the 2021/2022 Annual Report</i> <i>(no later than 2 months after annual report was tabled – Section 129(1) of the MFMA)</i>	Chairperson of the oversight committee	March 2023
Tabling of the Draft 2023/2024 IDP Review and MTREF (Section 16(2) of MFMA)	Mayor	March 2023
Publicize Draft IDP and MTREF available to public for comments	Chief Financial Officer	April 2023
Budget Steering Committee meeting	Mayor, Municipal Manager and Directors	April 2023
Submit Draft MTREF and IDP to: National and Provincial Treasuries, Provincial CoGTA and FezileDabi District Municipality	Municipal Manager and Chief Financial Officer	April 2023
Conduct public hearings and community consultations on Draft IDP and Budget	Political Offices, Ward Councillors and Directors	April 2023
<i>Conduct informal performance assessments for the Third Quarter</i>	Municipal Manager	April 2023

	<i>Submit 2022/2023 Third Quarter Performance Report to Council (Section 52 of MFMA)</i>	Mayor and Municipal Manager	April 2023
	Develop a draft 2023 - 2024 Service Delivery and Budget implementation Plan (SDBIP)	Municipal Manager and Directors	April 2023
Approval	Finalization of IDP Review 2023/2024 and MTREF	CFO and Municipal Manager	May 2023
	Submit the final IDP and Budget to Council for approval.	Mayor	May 2023
	<i>Submit the 2023/2024 Service Delivery and Budget Implementation Plan (SDBIP) and Performance Agreements to the Mayor</i>	Municipal Manager	June 2023
	Submit approved IDP and MTREF to National Treasury, Provincial Treasury and CoGTA	Municipal Manager and Chief Financial Officer	June 2023
	Publish approved IDP and MTREF	Municipal Manager and Chief Financial Officer	June 2023
	<i>Approval of the 2023/2024 SDBIP (28 days after budget approval)</i>	Mayor	June 2023
	<i>Publish approved SDBIP and signed Performance Agreements (10 working days after SDBIP approval)</i>	Municipal Manager	July 2023
	<i>Conduct formal performance assessments for the fourth Quarter</i>	Municipal Manager	July 2023
	<i>Submit the fourth Quarter performance report to Council</i>	Municipal Manager	July 2023
	<i>Develop a draft 2022/2023 Annual report</i>	Municipal Manager	July 2023

The process plan outlines the critical institutional arrangements and time frames to ensure that the municipality's 2023/2024 IDP and MTREF are completed within the prescribed regulatory frameworks. It was therefore important that this process plan was formally adopted by Council.

1.7 COMMUNITY PARTICIPATION

The Mafube LM actively seeks community participation in matters affecting the community as directed by the MSA. Chapter 5 requires that a municipality must develop a culture of municipal governance that complements formal representative government with a system of participatory governance, and must for this purpose, encourage and create conditions for local community to participate in the affairs of the municipality, including the preparation, implementation and review of its integrated development plan.

The Mafube LM has established participation of the community through a ward committee system of which there are 9 Wards within the municipal area. The central role of ward committees is to facilitate local community participation in decisions that affect the local community, to articulate local community interests and to represent these interests within the municipal governing structures.

Community participation meetings were held during the month of March 2023 as part of the IDP Road Show. During the meetings a comprehensive report pertaining to the IDP Projects implemented from the period 2022/23 was tabled to the public and the IDP Projects to be implemented in current financial year 2022/2023 – 2023/2024. Community needs (per Ward) and challenges were registered and captured.

Overview of the common community needs/concerns raised in most of Mafube L.M Wards.

- Access to reliable water supply.
- Upgrading and maintenance of roads and storm water channels
- Provision of Refuse Bins
- Fencing of Cemeteries
- Establishment and development of Community Parks, and sport facilities
- Agricultural land for community projects
- Removal and control of livestock
- Access to residential and business sites
- Upgrading of Taxi Ranks
- Access to Housing (RDP's)
- Title deeds for RDP Beneficiaries
- Approval of building plans
- Change of sites ownership
- Creation of employment opportunities
- Sport, Arts and Recreation programmes for the Youth
- Social Development Programmes (Drug abuse)

CHAPTER 2: SITUATIONAL ANALYSIS

2.1 INTRODUCTION

Section 26 of the MSA indicates that an IDP must reflect amongst others an assessment of the existing level of development in the municipality.

This section deals mainly with the Mafube LM as an institution, its components and functions as well its geographical context, spatial and economic analyses and assessment of the institution, community (demographic and socio-economic) and service delivery.

2.2 MAFUBE LOCAL MUNICIPALITY IN PERSPECTIVE

2.2.1 Geographical Context

Mafube Local Municipality consists of four (4) towns (Frankfort//Namahadi, Villiers/Qalabotjha, Cornelia/Ntswanatsatsi and Tweeling/Mafahlaneng) as well as a rural area consisting mainly of commercial agriculture. Villiers, Tweeling and Cornelia are located in an area of agricultural significance and mainly provide restricted services in this regard to the surrounding rural communities and primarily accommodate farm workers migrating to these towns. The area of jurisdiction of the Mafube Local Municipality is situated in the north eastern part of the Fezile Dabi District Municipality region. The total estimated residents in the Mafube Region, is 57 876.

Frankfort/Namahadi is situated 55km east of Heilbron and approximately 120km south east of Sasolburg. The town was originally laid out on the farm Roodepoort & named Frankfurt after the German town by Albert van Gordon in 1869. The main street originally named 'Brand Street', later changed to JJ Hadebe Street, named after the 4th president of the Orange Free State, Sir Johannes Brand. During 1883, he visited the town & laid the corner stone of the Dutch Reformed Church. The Council for National Memorabilia declared the Magistrate's Office, Police Station & Post Office National Monuments.

Frankfort/Namahadi remains the growth point in Mafube and plays a major role in terms of a regional service provider and industrial and commercial development and it is a small town typically developed and serving the predominantly agricultural community. The R34 provincial road from Kroonstad to the KwaZulu-Natal Province extends adjacent to the town.

The Wilge River stretches adjacent to the town from south to the Vaal Dam in the north. Frankfort, although mainly an agricultural related town, does provide certain industrial growth potential. The industrial growth potential is mainly agricultural orientated

Tweeling/Mafahlaneng is located approximately 150 km east of Sasolburg and 350 km north-east of Bloemfontein and is situated adjacent to the Frankfort/Reitz primary road. Other larger centre such as Vereeniging and Vanderbijlpark are all within 160 km from Tweeling. Primary agricultural activities include sheep and cattle farming, maize and sunflower seed production. Other larger centres such as Vereeniging and Vanderbijlpark are all within 160km from Tweeling.

Villiers/Qalabotjha town area is situated on the banks of the Vaal River, adjacent to the N3 National Road between Gauteng and Durban. In relation to other major centres, the town is located 120 km from Johannesburg, 80 km from Vereeniging and 117 km from Sasolburg and is

2.3 Demographic Profile of the Municipality

2.3.1 Introduction

This section contains information such as population statistics; socio-economic information, etc. Statistical information, which serves as the basis for constructing planning forecasts, is essential for the democratic process since it enables the citizens to examine the decisions made by the government and local authorities, and decide whether they serve the public they are meant to help. Stats SA was set to conduct a nationwide population and housing census from 3 to 28 February 2022. The census was due to be conducted in October 2021 but was delayed due to disruptions caused by the global COVID-19 pandemic.

The Census 2022 project is set to showcase Stats SA's new technological advances as it leaps into a new era of digital data collection.

This is South Africa's fourth population count post-democracy and the country's first digital census where at least 165 000 fieldworkers will be deployed across the country to count everyone within the borders of South Africa.

"It has been over 10 years since we last conducted a census in 2011. Census 2022 offers the country an opportunity to collect, compile and publish updated demographic, economic and social data for all persons in a country.

2.3.2 Demographic Analysis

Table 4: Distribution of population by gender in Mafube Local Municipality

Gender		Total	Sex ratio
Male	Female		
27836	29738	57574	94

Data source: Statistics South Africa, Community Survey 2016 (2016 municipal boundaries)

Based on the table above as per community survey conducted by Statistic South Africa in the year 2016, the population of Mafube Local Municipality has declined by 0,12 % per annum, from 57 876 as per census 2011 to 57 574 in 2016.

Table 5: Distribution of population by functional age group and gender in Mafube Local Municipality

Functional age group	Gender		Total
	Male	Female	
0–14 (Children)	8133	8105	16238
15–34 (Youth)	10257	10435	20692
35–64 (Adults)	7011	7480	14491
65+ (Elderly)	2435	3718	6153
Total	27836	29738	57574

Data source: Statistics South Africa, Community Survey 2016 (2016 municipal boundaries)

Majority of the population of Mafube Local Municipality is youth 0- 34 age group accounts for **64.1 %** of the total population of 57 574, followed by the adults age group of 35 – 64, covering 25.2 % of the total population. The elderly population of 65 + years only covers 10.7 % of the Total population size.

Table 6: Distribution of population by population group and gender in Mafube Local Municipality

Population group	Gender		Total
	Male	Female	
Black African	26129	27487	53616
Coloured	95	131	227
Indian/Asian	31	14	45
White	1580	2106	3686
Total	27836	29738	57574

Data source: Statistics South Africa, Community Survey 2016 (2016 municipal boundaries)

Black African population in Mafube Local Municipality, covers 93.1% of the total population of Mafube Municipality, followed by the white population group standing at 6.4 %, followed by the coloured population being 0.4 %, and the lowest being the Indians/Asian.

Data source: Statistics South Africa, Community Survey 2016 (2016 Municipal Boundaries)

The table above focuses on the educational level of immigrants that comes from within the boundaries of South Africa, which is called internal migration between Towns, Districts and Provinces. Mafube Municipality as per the 2016 Community survey has 4 324 internal immigrants, with the majority having Grade 12/Standard 10/Form 5/Matric/NCV Level 4/ Occupational certificate NQF Level 3, education level.

2.4 Service Delivery and Infrastructure Development

FREE BASIC SERVICES

The table below shows the free basic services, which constitute the basic social package offered by the municipality to indigent households, as per the approved Indigent Policy, of Mafube L.M. The indigent register is reviewed annually, to monitor and update the register. The total number of registered indigents in 2022/23 financial year is 3 680. The current **indigent policy** was adopted by Mafube Municipality Council on the ordinary Council sitting of May 2022.

STATUS OF FREE BASIC SERVICES

	SUPPLIER	2022/23 FINANCIAL YEAR
Free Water	Mafube LM	
Registered indigents		6 kl
		Free
Free electricity	Eskom & Rural maintenance	
To only registered indigents supplied by Rural maintenance		50 kwh
		50 kwh
Sewage basic	Mafube LM	Free to registered indigents
Free refuse removal	Mafube LM	Free to registered indigents
Income level for registration for indigent		R 4 000.00 per month
Number of registered indigents		3 680

BASIC SERVICES RENDERED AND BACKLOGS

BASIC SERVICES RENDERED

	2022/23
Number of new RDP houses built in municipal areas	00
New Township Establishment in all Mafube Towns	1 768 (residential sites)
Number of households provided with water	17 651
Number of households provided with electricity	18 818
Number of households provided with sanitation	17 651
Number of households provided with refuse removal	4 960 (Due to non-availability of fleet)

PLANNING FOR WATER SERVICES DELIVERY

Mafube Local Municipality is a Water Services Authority (WSA), and is therefore required in terms of the Water Services Act to submit a Water Services Development Plan (WSDP) that is central to providing water and sanitation services to the communities.

Raw Water Sources

Mafube Local municipality has 3 raw water sources situated in Villiers, Tweeling and Frankfort, Cornelia is supplied by Frankfort with a 34 km pipe line, to maintain and supply availability of our bulk water resources ensured (MTSF Goal). The most un-reliable source, is the Vaal River, as there is no Weir in the Vaal River. The supply of raw water within the Mafube LM is as follows:

- **The Vaal river**
- **Wilge river and**
- **Liebendergs Vlei river**

The need for bulk storage for water

The current spatial development of Mafube LM will determine its current demand for water supply. Growth and development will increase the demand for water supply in the future, to ensure that all people have access to clean, potable water and that there is enough water for agriculture and industry (NDP Goal).

Mafube Water Treatment Works

TOWN	CAPACITY	REMARKS
Tweeling	2050kl/16-hr day	Lacking adequate O & M
Villiers	53l/s	Decommissioned
Villiers	5.5 ML/16-hr day	Complete and operational
Frankfort Regional	9.6 ML/16-hr day	Lacks Storage Capacities at site, in Namahadi and Cornelia

SANITATION.

Mafube LM face a number of challenges with regard to sanitation. One of the main problems is the need for a sewer master plan, which will enable the municipality to plan for future developments including addressing the backlogs in basic sanitation services. With the assistance of the Development Bank of South Africa (DBSA), Mafube Local Municipality has an approved water services master plan.

Waste water treatment works.

The waste water and sewage from the Mafube Municipality is currently treated at six plants:

- **Frankfort Waste Water Treatment Plant:** The works currently serves the Frankfort Central Business District, the industrial and surrounding areas. The works has a design capacity of 0.65ML/day and it currently lacks Storage Capacity to 1ML/day. The Works has no spare capacity which will serve future developments around Frankfort.
- **Namahadi Waste Water Treatment Plant:** Plant working beyond design capacity 2.8ML/Day and Operation & Maintenance plan is inadequate. Consultant was appointed, Rand water is the Implementing agent, and contractor on site, work is in progress for phase 2, of the construction of 7.7ML/day, to support future development in and around Frankfort/Namahadi.
- **Villiers Waste Water Treatment Plant:** The works currently serves the Villiers Central Business District, the industrial and surrounding areas. The works has a design capacity of 0.65ML/day.

- **Qalabotjha Waste Water Treatment Plant:** Plant currently working beyond design capacity 1.8ML/day and Operation and Maintenance plan is not in place. Project under Construction at 61% complete, to support future development.
- **Tweeling Waste Water Treatment Plant:** The design capacity of this plant is 0.65ML/day, and upgrading to a design capacity of 3.0ML/day, is needed to support current and future development. Operation and maintenance is inadequate.
- **Cornelia Waste Water Treatment Plant:** The design capacity of this plant is 0.8ML/day, an upgrade to 1.8ML/day is needed to support current and future development. Operations and Maintenance is inadequate.

Mafube WWTW

TOWN	CURRENT CAPACITY (M ³ /DAY)	REQUIRED CAPACITY (M ³ /DAY)	REMARKS
Namahadi (Biofilter & Clarifier)	2 800	7 700	Plant working beyond design capacity and O&M is inadequate. Consultant was appointed. Rand Water is the implementing agent. Contractor on site and work is in slow progress for Phase 1 – 81%. Final Design of Phase 2 (the BNR Plant and Rising Main from Namahadi Sewer Pump station) is complete.
Frankfort (Oxidation Ponds)	650	1 000	O&M is inadequate. To be decommissioned when new Namahadi WWTW is complete.
Qalabotjha(Biofilter & Clarifier)	1 800	4 500	Plant working beyond design capacity and O&M is inadequate. Upgrading of Qalabotjha WWTW (with BNR reactor) is under construction – 69% complete
Villiers (Oxidation Ponds)	650	800	Effluent pumped into Qalabotjha WWTW for further processing
Cornelia (Pasveer Reactor & Clarifier)	800	1 800	Very efficient system. Upgrade is now required
Tweeling (Oxidation Ponds)	650	3 000	BNR System is recommended

National and Provincial Priorities

NDP Goal	Ensure that all people have access to basic services
MTSF Goal	Members of society have sustainable and reliable access to basic services.
FSGDS Goal	Provide new basic infrastructure at local level (water, sanitation and electricity).

TABLE 14: Number of Households in Urban area with access to sanitation

Wards	N0. of HH's	Service level above RDP (Using Flushing Toilets)	Service level below RDP (Using Bucket system)	N0. of registered indigent HH's	Area's with unreliable services	Intervention required
WARD 1	1922	1922		3680	None	Unreliable water supply in some wards (2; 5; 6 and 7) has also affected the level of sanitation

SOLID WASTE MANAGEMENT.

CURRENT WASTE GENERATION.

The Integrated Waste Management Plan (IWMP) of the Mafube Municipality has been developed, approved and is essential for the management of municipal solid waste (MSW). A survey of landfill site was conducted by Mafube, and FDDM, to estimate the tons of waste being disposed-off to the landfill every month. Most of the waste disposed at these sites, are **recyclable**, and they are individuals that are collecting waste on the landfill sites for recycling. This is essential to help in, absolute reductions in the total volume of waste disposed to landfill each year (NDP)

LANDFILL SITE.

The refuse removal service caters for the whole of Mafube area, excluding the farm dwellers household, who are using communal dumps. The majority of the households in Mafube 17 651 have access to refuse removal by the local Municipality at least once a week which may be deemed as adequate refuse removal services, and twice a week for Business sites.

Mafube Local Municipality has four Waste Disposal Site's (WDS) with one being closed (Tweeling) and the process for developing a new disposal site is well underway. The operating permit for 3 (Frankfort, Villiers, and Cornelia) was obtained.

In order for the effective management of our landfill sites, it is required that, they should be well established, have all the required infrastructure and fleet. **Most of the waste, is recyclable, if this opportunity can be properly coordinated and managed, it can create a number of employment opportunities.**

The current waste disposal sites should accept the following waste streams, but due to non-availability of fencing and management, this is not always the case:

- Domestic waste;
- Garden waste;
- Construction waste; and
- Commercial waste.

WASTE AND ENVIRONMENTAL MANAGEMENT

Informed by the Constitutional assignment of powers and functions to the different spheres of government, the Waste Act assigns clear responsibilities for waste management activities to each sphere of government. Some of these responsibilities require partnerships between government, communities and the private sector.

Local government must provide waste management services, which include waste removal, storage and disposal services, as per Schedule 5B of the Constitution. Municipalities must work with industry and other stakeholders to extend recycling at municipal level. Municipalities must provide additional bins for separation at-source, and are responsible for diverting organic waste from landfill and composting it. Municipalities must facilitate local solutions such as Material Recovery Facilities and buy-back centres, rather than providing the entire recycling infrastructure themselves.

Municipalities must designate a waste management officer from their administration to coordinate waste management matters. They must also submit an IWMP plan to the MEC for approval. The IWMP must be integrated into the municipal integrated development plans (IDPs), and the municipal annual performance report must include information on the implementation of the IWMP. Municipalities must also register transporters of waste above certain thresholds on a list of waste transporters.

At their discretion, municipalities may set local waste service standards for waste separation, compacting, management and disposal of solid waste, amongst others. Local standards must be aligned with any provincial and national standards where these exist.

Waste Collection Status

Waste collection is carried out by all municipalities in the province. However, the main challenge is that the collection is not reliable due to aged ailing fleet and budget constraints. The Department of Forestry Fisheries, and the Environment in collaboration with COGTA introduced the MIG Waste Specialized Vehicles initiative with the endeavor to improve the status of Waste Collection in the province.

Challenges

- Capacity issues such as funding and human resources limit competent waste management.
- Lack of waste removal services in the remote rural areas and farms hence, communities depend on backyard dumping sites and communal sites.
- Political instability leads to poor waste management within municipalities
- Lack of compliance of landfill sites with waste standards and legal requirements.
- Poor reporting on the waste information system and poor implementation of IWMPs.
- Uncontrolled dumping of refuse and littering further contributes towards pollution.

Recommendations

- An improved budget on waste management, and municipalities to apply for MIG Specialized Vehicles
- Promote re-use, reduce and recycle initiatives to the public and industries to reduce the amount of waste that is disposed at landfill sites.
- Conduct a feasibility study for the development of regional landfill sites within the Districts.
- Enforcement and implementation of waste management strategies and by-laws.
- Investigate and implement cost effective ways to recycle waste.

National and Provincial Priorities

NDP Goal	Absolute reductions in the total volume of waste disposed to landfill each year
MTSF Goal	An environmentally sustainable, low-carbon economy resulting from a well-managed just transition.

TABLE 16: SECTOR PLANS RELATING TO WASTE MANAGEMENT

	Availability	Status
Integrated Waste Management Plan	Available	Adopted by Council, to be reviewed
Environmental management plan	Not available

TABLE 18: Waste disposal: land filled site

Mafube Town's	Priority area	Baseline 2022/23	Targets meet	Challenges	Intervention required
Frankfort	Solid waste disposal and land fill site	Licensed, but no management	Waste Management Plan has been developed and approved by Council.	Funding for the upgrading and management of the four landfill sites	Upgrading of landfill sites is required, including new fleet for the management of the site
Villiers	Solid waste disposal and land fill site	Licensed but no management			
Tweeling	Solid waste and land fill site	Closed			
Cornelia	Solid waste and land fill site	Licensed but no management			

Bioregional Plan

The Bioregional Plan is the primary tool which provides current and accurate inputs into the development planning and assessment processes related to the environment. The aim of the plan is to ensure that the spatial biodiversity information informs land-use and development planning, environmental assessments, authorizations, and natural resource management within municipalities. None of municipalities in the province have Bioregional plans; however the Department of Economic, Small Business Development, Tourism and Environmental Affairs (DESTEA) have the provincial Biodiversity Management Plan.

Open Space Management Plan

Open spaces play an integral part in maintaining the environmental integrity in most settlements. Overtime, these open spaces have been degraded due to a number of demands ranging from housing developments and other land use demands and at times end up being illegal dump sites. There is currently no evidence of the availability of Open Space Management Plans; however there are adhoc open space management programmes that are implemented by municipalities throughout the province .

Alien Invasive Species Monitoring, Control and Eradication Plans

Alien Invasive Species Monitoring, Control and Eradication Plans have not been developed by any municipalities in the Free State Province. Accordingly, where any eradication, monitoring or control of alien invasive species are implemented, it is likely not to be carried out in a coordinated manner nor according to an approved plan. DFFE through its NRM section is implementing the Alien Invasive Species monitoring & clearing projects in a number of municipalities across all four districts in the province and the Metro.

Challenges

- No Alien Invasive Species Control Plans has been developed in the province.
- Loss of biodiversity due to encroachment of urban development and loss of land used for grazing of sheep and cattle.
- Lack of strategies to conserve sensitive habitats within various Districts in the province.
- Absence of Environmental Officers tends to shift the focus only on waste management issues, therefore brown issues become the main focus as there is no one to advocate for green issue.
- Lack of biodiversity management skills

Recommendations

- Assistance with development of Alien Invasive Species Control Plans
- There should be a balance in the appointment of environmental and waste officers
- COGTA and SALGA to intervene for the assistance of Municipalities without Environmental Management units.
- Municipalities to budget for biodiversity management programmes
- Intensify capacity support for municipalities that own protected areas
- Municipalities to extrapolate and customize the provincial Biodiversity Management Plan in an effort to develop their own implementation plans.

CLIMATE CHANGE MANAGEMENT

The role of local government is fundamentally to translate and implement the endeavors put in place by the National Department of Forestry, Fisheries and the Environment with regards to Climate Change. This is to ensure municipalities are best equipped to manage and respond to Climate Change impacts through development of practical and implementable strategies. This will require proper coordination with all relevant stakeholders in order to facilitate preparedness for the implications of imminent Climate Change consequences.

The achievement of South Africa's climate change response objective is guided by the principles set out in the Constitution, the Bill of Rights, the NEMA, the Millennium Development Goals and the United Nations Framework Convention on Climate Change and include amongst others Informed Participation and the Precautionary Principle which entails applying a risk-averse and cautious approach, which considers the limits of current knowledge about the consequences of decisions and actions. The draft Climate Change Bill was published in Government Gazette No. 41689 on 08 June 2018. The Bill is aimed at building an effective climate change response and ensuring the long-term, just transition to a climate resilient and lower carbon economy and society. The aforesaid will be achieved within the context of sustainable development for South Africa and will provide for all matters related to climate change. The framework for the National integrated approach to responding to and preparing for climate change is therefore provided / sketched in the Climate Change Bill. The interpretation and application of this Climate Change Bill must be guided by the national environmental management principles set out in Section 2 of the NEMA. Chapter 3 of the National Climate Change Bill is dedicated to outlining the roles assigned to municipalities with regards to responding to climate change.

The aforesaid roles and responsibilities include the following:

- Undertaking a climate change needs and response assessment for the municipality, and reviewing such climate change needs and response assessment at least once every five years;
- Developing and implementing a climate change response implementation plan which must be informed by the climate change needs and response assessment;
- In relation to mitigation, the climate change needs, and response assessment must be aligned with relevant national sectoral emission targets;
- The municipal climate change response implementation plan, must be integrated and must inform provincial or municipal development planning processes and instruments; and
- The preparation of a climate change response implementation plan may take into consideration any existing provincial or municipal plan, which plan may require a review and an amendment to include climate change responses.

As the final draft bill is yet to be tabled in Parliament, local governance is provided with the opportunity to pre-empt and put in place the necessary arrangements to promptly respond to these proposed legislative requirements and ensure compliance therewith once the Climate Change Bill is enacted.

Challenges

- Limited technical and financial resources already pose a challenge for current capacities to adapt to a changing climate.
- Increased temperatures, drought, and the increase in frequency and severity of storm events will impact on the crops that can be grown and potentially result in a loss of livestock.
- Drought, reduced runoff, increased evaporation, and an increase in flood events will impact on both water quality and quantity.
- No budget for climate change projects.
- Veld fires damages biodiversity and leads to erosion and air pollution.

Recommendation:

- Development planning, agricultural practices and resource use should include actions to manage the existing and predicted effects of climate change, including impacts on temperature, rainfall and water availability.
- Expand and extend existing Expanded Public Works Programmes to assist in clearing of storm water drainage systems.
- Increase maintenance of dams to ensure sediment is properly controlled.

Global Warming (Climate Change)

Agriculture

Indicators	Name	Status	Challenges
Decrease in food	Food security	Community product: Livestock farming	No By-laws, no restriction on yield of grazing camps and no developing
Agriculture		Water catchment	Funds to support with JoJo tanks for the catchment of water to support the growing of vegetables.
		Awareness on vegetable growing	Awareness and Training, nothing is in place, skilled employees not on the current structure.
		Hydroponic culture-Commercial for growing vegetables, etc	Awareness, training and developing.
		Develop a seed banking system	Not in place

Biodiversity

Indicators	Name	Status	Challenges
Biodiversity Management plan & Climate change plan	By-laws and Policies	Not in place	The function not on the current structures
Water catchment forums	Water catchment forum	None	To promote the importance hereof
Greening	Planting of trees	Low	Function not in the Structure.

ELECTRICITY AND POWER SUPPLY.

SOURCES OF ENERGY.

Eskom supplies electricity in Mafube L.M. An alternative energy source is currently not available, only a few households have solar geysers. Mafube Local Municipality should conduct a research on the availability of alternative energy source.

Installation of solar geysers in households, schools, early childhood development centres, and clinics will save energy, for developing our towns and cities. Mafube Local Municipality will also look in the option of installing solar streets lights, in the newly established townships.

RETICULATION.

Rural Free State (Service Provider) manages and maintains the electricity networks for Mafube L.M area (Ward 1, 3, 4, 5, 8, 9 and Part of ward 7). Ward 2, 6 and part of ward 7, and rural areas are supplied by Eskom. There is no electricity master plan this affects long term planning from a capacity point of view. Electricity losses information is currently not available. Eskom has upgraded the MV line supply for Frankfort, a detailed report on energy capacity for all Mafube Towns is required to ensure coordinated development and Economic growth.

National and Provincial Priorities

NDP Goal	The proportion of people with access to the electricity grid should rise to at least 90 percent by 2030
MTSF Goal	Members of society have sustainable and reliable access to basic services.
FSGDS Goal	Provide new basic infrastructure at local level (water, sanitation and electricity).

TABLE 19: STATUS OF SECTOR PLANS RELATING TO ELECTRICITY

ROADS, STORM WATER AND PUBLIC TRANSPORT.

The National Department of Transport (DoT), as part of the S’Hamba Sonke Programme, has provided grant funding for the implementation of Road Asset Management Systems (RRAMS) as set out in the framework for the Rural Road Asset Management System Grant (RRAMS), Division of Revenue Act (DORA).

The strategic goal of the RRAMS Grant is to ensure efficient and effective investment in rural roads through the development of Road Asset Management Systems (RRAMS) and the collection of associated road and bridge inventory data, condition assessments and traffic information. Improved data on rural roads will guide infrastructure investment, improve accessibility to and mobility of rural communities. The Fezile Dabi District Municipality has been involved with the RRAMS Grant since August 2014.

Attached as Annexure B, it’s the Mafube L.M RRAMS report

ROADS.

In terms of road infrastructure, 90% of all roads in Mafube are in a poor state, of which 195km are unpaved. In an attempt to address this, the municipality has developed programs of grading and graveling the roads, to improve the quality of roads and transportation systems. Municipality needs to develop a Comprehensive Infrastructure plan, and the Operations and maintenance plan for the road infrastructure, to meet the MTSF goal/objective of expanding and maintain basic and road infrastructure.

STORMWATER.

There is no storm water master plan resulting in *ad hoc* projects being identified where complaints are received. Problems are being experienced in JJ Radebe Street, and Frankfort where concrete pipes, and drains are collapsing. Mafube L.M also need to develop a Maintenance Plan for the storm water infrastructure. Storm water damage to the environment is receiving little attention with soil erosion progressing unabated in certain area.

PUBLIC TRANSPORT.

The majority of public transport facilities in the Mafube Municipality area is informal and requires serious upgrading, Mafube L.M need to develop a Transport Plan, taking into consideration for the non-motorist transport.

National and Provincial Priorities

NDP Goal	Economic infrastructure
MTSF Goal	Expand and maintain basic and road infrastructure
FSGDS Goal	An efficient, competitive and responsive economic infrastructure network; Protect and enhance our environmental assets and natural resources

SUSTAINABLE HUMAN SETTLEMENTS.

According to the Vancouver Declaration (1976), ‘Human Settlements’ are defined as “the totality of the human community - whether city, town or village - with all the social, material, organizational, spiritual and cultural elements that sustain it. The fabric of human settlements consists of physical elements and services to which these elements provide the material support.”

The physical elements entail the following:

- Improved access to shelter (a house);
- Improved access to basic services;
- Upgrading of land tenure rights;
- Improved access to social facilities and services;
- Affirmation of the integrity and dignity of the settlement beneficiaries;
- Actions towards unlocking the economic development potential of the settlement; and
- Improved access to amenities.

The Mafube Local Municipality Housing Sector Plan was adopted by Council in 2012 and is currently under review. It provides an analysis of the housing situation within the municipality and outlines strategies to address the backlog and the associated housing problems. It clearly indicates the growth of the urban core and the need to accommodate the ever increasing demand for housing. The result of the ever increasing demand for housing has been the spawn of informal settlements or back-yard shacks. However, this plan is now outdated as it predates the introduction of a new national housing policy and does not provide sufficient guidance towards the development of sustainable urban human settlements.

SOCIAL SERVICES: Housing

Cornelia (Ntswanatsatsi)	400	816
Tweeling (Mafahlaneng)	274	1436

HOUSING DELIVERY

Mafube Local municipality does not, provide houses, this function is based in the Department of human settlement. Future housing projects should go beyond the delivery of housing units and focus on the creation of sustainable communities and settlements. This includes improving access to basic services, social/public facilities and creating opportunities for economic development.

HEALTH INSTITUTIONS

Emergency Rescue Services (EMRS) and Fire Station is located in Frankfort. The Riemland Private Hospital is the only private hospital within the municipal area. There is a need for a satellite centre for EMRS and Fire services, in Villiers, as there is a National Road that runs through this Town. Mafube local municipality has a total number of 8 clinics, even thou, most of our clinics are crowded, as you will find queues as early as 05:00 AM, and this is evident in Frankfort and Villiers, in Frankfort there is a need for another clinic, even Mobile clinics will assist, in this regard. Villiers have enough clinics, the only issue, is the shortage of staff (Nurses) to serve members of the society, and to make sure that communities have access to primary health care (NDP, MTSF and FSGDS goal)

TABLE 28: Health Services (Clinics and Hospitals) :Backlogs or needs in relation to national norms and standards:

EDUCATION FACILITIES.

Access to education facilities seems to be generally good in urban areas, but a huge challenge can still be found in rural areas as some children still walk long distances to and from school. The other challenge with rural schools is that most of these school don't have different teaches for different subjects and languages, even access to basic services is not available in some schools. Even the buildings infrastructure is not in good conditions. The municipality is developed with about 20 urban, 12 rural schools including both primary and secondary schools, and about 34 ECD's. This is broken down further in the tables below.

COMMUNITY HALLS.

The municipal area has a total number of seven community halls. All of these are administered by the Local municipality, Operations and Maintenance Plan need to be developed, and Implemented to ensure that, such facilities, are kept in good conditions. There is a need for additional halls (Ward 2, 7 and 9) based on the size and geographic spread of the population. At the moment some of the ward Councillors are using Sports grounds and open spaces, to convene their public meetings. Development of multi-use community facilities which may serve as pension-pay-points, indoor sports facility and place of assembly should be investigated.

POLICE STATIONS AND CORRECTIONAL SERVICES

There are four permanent police stations in Mafube LM and there is a need for two satellite stations, in Qalabotjha and Namahadi ward 7, as this has been raised in the IDP public participation meetings. SAPS has established Community policing forum's, to Build safer Communities (NDP Goal), and to ensure that all people in Mafube L.M are and feel safe (FSGDS Goal). Services offered range from child protection, serving the community and domestic violence.

To Crub crime and streamline criminal justice performance (MTSF goal), Mafube Local Municipality has four Magistrate offices, and one Correctional facility situated in Frankfort.

Table 39: Safety and Security (Police stations and Magistrates Offices):

National and Provincial Priorities

2.5 PUBLIC PARTICIPATION AND GOOD GOVERNANCE:

In an effort to enhance community participation in the issues of government, in terms of the Back to basics approach, and Batho Pele principles Mafube has established ward communities in all the nine wards of Mafube L.M, and the Office of the premier has appointed Community Development Workers (CDW's) that are based in each ward.

The Municipality has nine (9) wards, and each ward should have Ward Committee constituted of ten (10) members. In line with the requirements of Outcome 9. The functionality of these ward committees, is crucial to realise the idea, of involving the community in the affairs of the Municipality. The functionality of ward committees, seems to be a challenge, due to vacancy rate, and none sitting and submissions of reports. As a municipality we have 4 vacant position of CDW's. Mafube L.M has developed Public participation strategy and Plan, which are still at draft level.

MECHANISMS FOR PARTICIPATION.

Public participation is important to determine the exact needs that exist in the communities in relation to the developmental priorities during the public meetings and information gathering. The Mafube Municipality is utilizing the following mechanisms for public participation when developing its IDP.

- **IDP Representative Forum (IDP RF):** This forum represents all stakeholders and key interested and affected parties. This includes the Ward Committees, Non-Governmental Organizations (NGOs), Community Based Organisations (CBOs), Organized Business, Faith Organizations and organized agriculture.
- **Media:** Local newspaper will be used to inform the community of the progress of the IDP and further due meetings' including the IDP RF and community road shows.
- **The Mafube L.M Website:** The Mafube Municipality's website will also be utilized to communicate and inform the community. Copies of the IDP and Budget will be placed on the website for communities, general stakeholders and service providers to download.
- **Ward Committees:** The Mafube Municipality has adopted the Ward Committee policy which has resulted to the establishment of ward committees. The municipality considers ward committees as one of the institutional bodies to fast-track service delivery and deepen democracy. Ward Committees represents a wide range of community interest through the IDP RF meetings and their inputs are always considered. They also being used to disseminate the information about the developmental agenda of the municipality.
- **IDP/ Budget Road Shows:** The Mafube Municipality hosts its community road shows through ward committee system to publicize the draft IDP and Budget during April and May 2015. The venues for these meetings are publicized at the IDP RF, public places and as well as through the local print media.

GOOD GOVERNANCE

INTEGOVERNMENTAL RELATIONS.

Mafube Municipality participate in the District IGR forum, these Forums gives the strategic and political direction for all municipalities within the District particularly on planning and development.

- District Coordinating forum
- Municipal Managers Forum
- CFO's Forum
- District Corporate services IGR
- District & Provincial IDP managers forum
- District & Provincial PMS forum
- District Water sector forum
- District & Provincial Batho Phele Forum
- Back to Basics Forum

Internal Audit and Audit Committee

INTERNAL AUDIT.

Mafube Local Municipality, has a fully functional internal audit unit.

- Review and approve the Internal Audit Charter
- Review of the Audit Committee Charter and submit to council for approval
- Advise Council as to whether the internal audit unit is given the resources and operational independence required to fulfil its role as outlined in the Internal Audit Charter.
- Review and approve the annual risk based internal plan
- Ensure that all identified risk areas are prioritized and incorporated in the annual audit plan.
- Receive and review the quarterly internal audit report on the implementation of the internal audit plan and any of the matters relating to:
 1. Internal Audit
 2. Internal Controls
 3. Accounting procedure and practices
 4. Risk and Risk Management
 5. Performance Management
 6. Loss control
 7. Compliance with the MFMA, Division of Revenue Act (DORA) and any other applicable legislation

8. Investigate any other matter, as requested by the Municipal Manager
9. Ensure that all findings and recommendations are adequately addressed by Management

AUDIT COMMITTEE

The Audit Committee is an independent advisory body, appointed by Council to assist Council in discharging their responsibilities, Mafube L.M has a functional Audit Committee in place. The requirement for municipalities and municipal entities to establish Audit Committee is contained in Section 166 of the Municipal Finance Management Act 56 of 2003 and article 14 (2)(a) of the Municipal Planning and Performance Management Regulations 2001. The Audit Committee is an independent advisory body, appointed by Council to assist Council in discharging their responsibilities.

The Audit Committee Charter sets out the committee specific responsibilities and details the manner in which it will operate. The Audit Committee has 03 members from MLM senior managerial positions and the Internal Audit Unit and 3 main members. The committee holds about 08 meetings annually whereby issues pertaining to risk management are discussed.

OBJECTIVES.

- Maintaining oversight responsibilities of all financial and performance reporting.
- Seek reasonable assurance that the operations of the municipality are conducted efficiently and effectively.
- Seek reasonable assurance that the Council has developed and complies with its policies, plans, procedures and internal controls.
- Seek assurance that the Council complies with relevant legislation, regulations and professional pronouncements.

Executive Committee

The Executive Committee consists of three (3) members including the Mayor, these are Councillors appointed by the Mayor to perform functions for which the Mayor is responsible. All Members of the Executive Committee were allocated portfolios as per the functions of the municipality.

- Cllr TI Motsoeneng – **Chairperson**
- Cllr JT Kotsi
- Cllr E Maboya

Below is a list of Portfolio Committees and Councillors who are serving in these committees during the development of the 5th generation of IDP's.

Members of the Corporate Services Portfolio

- Cllr. Jan Oost
- Cllr. Faku Tsotetsi
- Cllr. Peter Mashiloane-**Chairperson of the Committee**

Members of the Community Services & LED Portfolio

- Cllr. Ntaoleng Molefe- ***Chairperson of the Committee***
- Cllr. Walter Gumede
- Cllr. Jan Oost

Members of the Infrastructure services and urban planning Portfolio

- Cllr. Tom Van Rensburg
- Cllr. Jabulile Kumbi
- Cllr. Tsubane Moabi-***Chairperson of the Committee***

Members of the Finance Portfolio Committee

- Cllr. Faku Tsotetsi
- Cllr. Mohapi Mokoena
- Cllr. SB Ntuli- ***Chairperson of the Committee***

Municipal Public Accounts Committee (MPAC)

- Cllr. Suzette Steyn
- Cllr. Tom Van Rensburg
- Cllr. Mamonaila Tsotetsi-***Chairperson***

ADMINISTRATION

The Municipal Manager is the head of the administration assisted by Directors and Managers, who manage the Departments of:

- Finance
- Infrastructure services
- Community services and LED
- Corporate Services
- Planning and Performance management

Supply Chain Committees

Mafube L.M have functional supply chain committees, however Mafube L.M does not have an approved schedule, however meetings are convened as and when the tenders are advertised.

The compositions of these committees are as follows:

BSC

User Departments prepare their own specifications

BEC:

Members have been appointed

BAC

Members have been appointed

TABLE 41: GOVERNANCE STRUCTURES:

MANAGEMENT AND OPERATIONAL SYSTEMS

Complaints management system

Mafube Local Municipality has a Manual and Electronic complaints management system in place. The electronic was installed with the assistance of Cogta Free State. This system is only functional in the head office in Frankfort, and the other units (Villiers, Tweeling and Cornelia) are using a manual system. The turnaround time for lodged complaints is 24 to 48 hours, depending on the kind of complaint lodged and the availability of resources.

Fraud prevention and response plan

The Municipality has developed a fraud prevention and response plans (2014/2015), which are still at draft level. The document still need to serve before the audit committee before they can serve in Council.

Risk management policy, strategy and register

Mafube L.M, has a risk management unit, and it has appointed a risk management officer. Mafube Local municipality has developed the Risk management Policy, strategy and register. The risk management Policy has been adopted and approved by Council. A risk register has been developed for each directorate.

Communication policy and strategy

Mafube L.M has a Communication Policy in place, which was adopted and approved by Council. Communication post is located in the office of the municipal manager, and is currently Vacant. Mafube L.M is yet to develop, a communication strategy.

TABLE 42: MANAGEMENT AND OPERATIONAL SYSTEMS:

INSTITUTIONAL DEVELOPMENT AND TRANSFORMATION:

Strategic Objectives: Improve organisational cohesion and effectiveness

Intended Outcome: Improved organisational stability and sustainability

INFORMATION TECHNOLOGY.

Information Technology has become an important component of Mafube L.M in the quest to improve and transform the lives of communities, and to assist and enable other departments within the Municipality to render a quality service to stakeholders and the public at large.

Below are a couple of activities that have taken place since IT was incorporated into the Mafube LM and the future they hold:

- Network Infrastructure: A data network ensures that the systems at the revenue collection points are always live. Rate payers do not have to be turned away because systems are offline and thereby causing them great inconvenience. This also results in poor cash inflows for the Municipality. Mafube LM is committed to providing a stable and reliable network infrastructure for effective and efficient service delivery and complains management.
- Website, Mafube L.M has appointed a consultant for the development of the Municipal website, as the municipality is legislated to publish policies and documents that directly affect the community; these are now published and updated frequently.
- Establishment of District ICT Forum, which sits once per quarter, consisting of all local Municipalities and the District. Mafube L.M also intends to establish ICT steering Committee

ICT POLICY FRAMEWORK.

As a measure thus to ensure effective and efficient management of ICT resources and processes, Mafube LM has developed a Municipal Corporate Governance of Information and Communication Technology Policy. In turn, this will aid the municipality in achieving the municipal goals and objectives. The main purpose of the policy is to align ICT functions to the organizational goals, minimise the risk ICT introduces and ensure that there is value in the investments made in ICT.

The view of the Mafube Local Municipality is that ICT should be governed and managed at all levels within an organizational structure and this is also supported by internationally accepted good practice and standards. With regards to municipal operations, the policy places a very specific responsibility on the Council and Management within Mafube L.M in order to ensure that the decision making process for ICT remains transparent. Such measures enable the municipality to align the delivery of ICT services with the municipality's Integrated Development Plan's strategic goals.

ICT Governance is implemented in two different layers namely:

- **Corporate Governance of ICT** – the governance of ICT through structures, policies and processes;
 - In terms of Corporate Governance of ICT, the current and future use of ICT is directed and controlled.
- **Governance of ICT** – through Standard Operating Procedures.
 - In terms of Governance of ICT, used are the individual processes and procedures which ensure the compliance of the ICT environment based on pre-agreed set of principles.

November 2012 marked the approval of the Public Service Corporate Governance of ICT Policy Framework by Cabinet. The Cabinet also made ICT applicable to National and Provincial Departments, Provincial Administrations, Local Governments, Organs of State and Public Entities for implementation by July 2014.

In order to meet the set requirement from the Cabinet, various government departments collaborated and developed the Municipal Corporate Governance of ICT Policy for application in the Local Government sphere. Such government departments entail the Western Cape Department of Local Government, Department of Cooperative Governance (DCOG), Department of Public Service and Administration (DPSA), South African Local Government Association (SALGA), and the Western Cape Provincial Treasury.

The main purpose of the Municipal Corporate Governance ICT Policy is to institutionalise the Corporate Governance of ICT as an integral part of corporate governance within the Mafube Local Municipality. This Municipal Corporate Governance ICT Policy provides the Municipal Council and Management with a set of principles and practices that must be complied with, together with an implementation approach to be utilised for implementation of ICT Governance.

The objectives of this Corporate Governance of ICT Policy for Mafube Local Municipality seek to achieve the following:

- Institutionalise a Corporate Governance of ICT Policy that is consistent with the Corporate Governance Frameworks of the Municipality;
- Aligning the ICT strategic goals and objectives with the Municipality's strategic goals and objectives;
- Ensuring that optimum Municipal value is realised from ICT-related investment, services and assets;
- Ensuring that Municipal and ICT-related risks do not exceed the Municipality's risk appetite and risk tolerance;
- Ensuring that ICT-related resource needs are met in an optimal manner by proving the organisational structure, capacity and capability.

- Ensuring that the communication with stakeholders is transparent, relevant and timely; and
- Ensuring transparency of performance and conformance and driving the achievement of strategic goals through monitoring and evaluation

The following entails a list of the benefits that may be realised through effectively implementing and maintaining the Corporate Governance of ICT:

- Establishment of ICT as a strategic enabler in a municipality;
- Improved achievement of municipal integrated development plans;
- Improved effective service delivery through ICT-enabled access to municipal information and services;
- Improved ICT enablement of a municipality;
- Improved stakeholder communication;
- Improved delivery of ICT quality services;
- Improved trust between the municipality and the community through the use of ICT;
- Lower costs (for ICT functions and ICT dependent functions);
- Increased alignment of ICT investment towards municipal integrated development plans;
- Improved return on ICT investments;
- ICT risks managed in line with the ICT priorities and risk appetite of the municipality;
- Appropriate security measures to protect both the municipality and the information of its employees;
- Improved management of municipal-related ICT projects;
- Improved management of information as ICT is prioritised on the same level as other resources in municipalities;
- ICT pro-actively recognises potential efficiencies and guides municipalities in timeous adoption of appropriate technology;
- Improved ICT ability and agility to adapt to changing circumstances; and
- ICT executed in line with legislative and regulatory requirements.

FINANCIAL VIABILITY:

Strategic Objective: To improve overall financial management in municipality by developing and implementing appropriate financial management policies, procedures and systems.

Intended Outcome: Improved financial management and accountability.

FINANCIAL MANAGEMENT POLICIES.

The following Financial Policies have been developed and adopted by the municipality, all finance policies are developed/reviewed annual, and adopted together with the Budget on or before the 31st of May annually.

- Asset Management Policy
- Cash Management & Investment Policy
- Credit Control Policy
- Supply Chain Management Policy
- Municipal Property Rates Policy
- Credit Control, Debt Collection and Customer Care Policy
- Tariff Policy

2.6 Institutional Development and Transformation

The Administration arm of Mafube Local Municipality is headed by the Municipal Manager, who has 4 Section 56 Directors who report directly to him.

Figure 8: Executive Management Structure

OFFICE OF THE MUNICIPAL MANAGER

The **municipal manager** as head of the administration is responsible and accountable for tasks and functions as provided for in Section 55 of the MSA, other functions/tasks as provided for in legislation as well as functions delegated to him by the Mayor and Council. The Office of the Municipal Manager consists of:

- Internal Audit and Risk Management;
- Performance Management and IDP; and
- Compliance

Departmental Functions

The functions of each of the departments can be summarised as follows:

Directorate: Finance

The core function of this Directorate is to ensure sound financial management. This directorate consists of the Director: Finance as head of the directorate who is responsible for:

- Budget and Expenditure
- Revenue Management
- Assets and

- Public works, which includes main roads, storm water and streets;
- Sewerage purification services;
- Sewerage reticulation services;
- Sewerage sanitation services;
- Water purification works; and
- Water reticulation.
- Household electrification
- Management of the Workshop and Depot.
- Fleet Management.

Municipal Workforce

Mafube Local Municipality has a Human resource strategy/plan in place that was approved by Council. The HR strategy/plan will be reviewed together with the related policies, to be aligned with the 2022/2027 IDP. It is of importance to implement, the strategy/plan and its policies, to have an effective Human resource management.

5.4	Has the municipality developed a Workplace Skills Plan complying with the MSR 2021?	Reg. 51	Provide a copy of the approved WSP, Council resolution/training committee resolution and LGSETA acknowledgement letter				
5.5	Has the municipality budgeted for skills development?	Reg. 52	Provide a copy of the Budget reflecting skills development			Budget could not be produced	

2.8 Mafube L.M Local Economic Development:

Figure 10: LED Structure

2.8.1 Executive Summary

The Local Economic Development Plan is the Municipality's principle strategic planning document. Importantly, it ensures close co-ordination and integration between projects, programmes and activities, both internally and externally. The Local Economic Development Plan, therefore, ultimately, enhances integrated service delivery, development and promotes sustainable integrated communities, providing a full basket of services, as communities cannot be developed in a fragmented manner.

As a key strategic plan for the municipality, the priorities identified in the Local Economic Development Plan inform all financial planning and budgeting undertaken by the municipality. The attainment of the Local Economic Development Plan and Budget targets and deliverables is monitored and evaluated on an ongoing basis. However, this requires that targets and deliverables are credible and realistic. Consequently, the Financial Plan as well as the Performance Management Systems of the municipality are also outlined in the Local Economic Development Plan.

2.8.2 Introduction

The context and the direction for the role of municipalities in economic development is provided in the White Paper on Local Government. It states that "Local government is not directly responsible for creating jobs. Rather, it is responsible for taking active steps to ensure that the overall economic and social conditions of the locality are conducive to the creation of employment opportunities." Its role is therefore to create a conducive environment for economic development and growth. This project serves as the municipality's response to this responsibility.

Local Economic Development (LED) seeks to consolidate and add value to existing strategies and programmes, to facilitate and guide economic development and investments in the municipal area. LED seeks to provide a vision, strategy, goals, and targets around which the municipalities LED directorate can work towards. It is envisioned that the recommendations emanating from this strategy will stimulate, promote and facilitate LED in the municipalities through the creation of an enabling environment.

Specific targets of LED include:

- Create employment
- Develop local markets
- Promote and support SMME's
- Decrease poverty and hardship
- Ensure community empowerment

2.8.3 Strategic Objective: Creating an environment that promotes development of the local economy and facilitates job creation.

Mafube LED Vision - To create the fastest growing non-resource-based economy in the Fezile Dabi District Municipality

Mafube LED Mission - To ensure sustainable economic growth and development that results in the creation and maintenance of jobs through innovative and solid agricultural, tourism, SMME, manufacturing and retail development strategies

The fundamental objectives of Mafube LED Strategy:

- To facilitate inward investments into Mafube into high growth economic areas such as – tourism, agriculture and agro-processing, retail, manufacturing and green energy
- To develop a robust Agriculture Development Strategy to get the local agricultural sector growing, competitive and sustainable
- To develop a robust Tourism Development Strategy to get the local tourism industry growing, competitive and sustainable
- To develop and support a competitive, vibrant, sustainable and job-creating SMME Sector
- To develop and implement a local business development policy that gears Municipal procurement to local businesses
- To develop diversified and competitive retail, manufacturing and green energy sectors

The broad fundamental objectives of Mafube LED Strategy summarized below as follows:

- To encourage and facilitate the formation of new enterprises in the form of either SMMEs, cooperatives and big businesses
- To support growth and sustainability of existing and emerging businesses (large, SMMEs and co-operatives) through a plethora of interventions
- To facilitate partnerships between local businesses and other public and private institutions at international, national, provincial and local spheres
- To facilitate skills development of women, youth and other previously disadvantaged communities
- To attract and retain investments into Mafube
- To attract, initiate and support job creation programmes and projects

2.8.4 Mafube Competitive Advantages

- Scenic Beauty – Mafube is home to two large rivers (Vaal and Wilge), has beautiful valleys and streams, mountains and hills, that make it a great area for tourism
- Plenty Arable Land – the Municipality and private sector have plenty of arable land useful for both livestock and crop farming

- Sports Tourism (water sports, marathons, golf) – there are several sporting codes ranging from – golf, water sports and marathons, all of which can be expanded, branded and advertising nationally to attract more tourists
- N3 Proximity – the N3 road that links Gauteng and Durban, and one of the busiest national roads in South Africa, passes through Villiers and is only 32km away from Frankfort. This offers a plethora of economic opportunities from – tourism, trade and property development
- OR Tambo Airport – Mafube is only 140km away from the OR Tambo International Airport, which is the busiest airport in Africa and a major link between Africa and the rest of the world
- Road Linkages and Strategic Location – Apart from the N3 road, there are many other regional roads that link Mafube to various locations/regions such as: KwaZulu Natal (Newcastle, Vryheid, etc), Mpumalanga, Sasolburg, Kroonstad, Heilbron, Reitz, Bethlehem, Lesotho, Vaal and Southern Free State.
- Young Population – Over 60% of the population of Mafube is younger than 35 years old and therefore present economic opportunities, labour and population growth
- Political Stability – Mafube enjoys relative political stability with few service delivery protests and disruptions
- Growth Opportunities (retail, tourism) – Mafube has few tourism accommodation and major retail facilities, and therefore, offers growth opportunities for the development of hotels, lodges, conference facilities, transit nodes and shopping centres
- Social Infrastructure (Schools, hospitals, FET college, police stations) – whilst there is scope for growth and improvement, there are primary and high schools in all the towns of Mafube, and police stations and hospitals

2.8.5 Tourism Development Strategy Objective

To grow Mafube's tourism into a formidable economic sector that creates jobs, increases revenue inflow and economic activity through innovation, service excellence, inclusivity and diverse products

Goals

- a) To increase tourism opportunities
- b) To facilitate the participation of SMMEs in the tourism sector
- c) To develop more tourist attract facilities in Mafube
- d) To increase tourists flow into Mafube
- e) To increase the contribution of tourism to the local economy

f) To market and promote Mafube as a tourist destination

2.8.6 Level of current economic activity:

Dominant sectors-

MANUFACTURING.

Manufacturing is the contributing sector within the local economy, they are four companies that deal with Manufacturing, and 3 of those that were developed in the past few years, and these manufacturing companies has contributed a lot of employment opportunities, as 3 of them are operating around the clock and are situated in Frankfort. One manufacturing company is situated in Villiers.

AGRICULTURE.

Agriculture contributes a lot to the local economy, it also plays a huge role, as VKB is situated in all the four towns of Mafube L.M, and is creating employment in the smaller town, of Mafube which are Cornelia and Villiers. While the contribution of the agricultural sector in Mafube may seem particularly high, it remains an important sector for the following reasons:

- The sector has the potential to create jobs.
- The pursuit of national food security requires continued agricultural production and investment
- While primary production accounts for 4.5% nationally, the larger agro-food complex contributes an addition 9% to GDP (South Africa, 2001). This contribution to GDP is concealed in the manufacturing and trade sectors GDP figures.
- A focus of support to agriculture is important to build capacity and productivity in land reform projects.
- Agricultural development and support is aligned with prevailing rural development policy objectives.

Animal production, Forestry and Agronomic (Field) crops are the key farming enterprises in the region. The high contribution of Beef cattle sales emphasises the high proportion of grasslands occurring in the area. Maize for the production of grain is the major agronomic crop, followed by Soya and Wheat.

TOURISM.

The tourism sector is currently a small contributor to the region's economy, but holds a number of opportunities that can be explored, Mafube L.M has developed a Tourism Development Plan

INFORMAL SECTOR.

The informal sector is especially evident in Frankfort CBD (JJ Hadebe Str). In the CBD, informal street trading is mostly concentrated along the JJ Hadebe Street, around the taxi rank, and during pensioners pay days, at the local Community Halls.

Table 48 : MAFUBE L.M PROPOSED LED PROJECTS IN PROGRESS

AGRICULTURE

No	Name / Nature of the Project	Name of a Town for implementation	Assistance needed for the Project
1	Purchase of land for Livestock farming (Cattle, sheep and goats) on a large scale farming Agro-processing to take place on side and surrounding areas	Frankfort and Cornelia	Land to be purchased in the two areas. (1000 ha) Feedlots be established in both towns, abattoir is available in Frankfort but need to be supported to meet standard.
2	Establishment and Revitalization of poultry projects	Frankfort, Tweeling, Villiers and Cornelia	Funding for establishment and revitalization of poultry projects
3	Establishment and Revitalization of dairy farm projects	Frankfort, Tweeling, Villiers and Cornelia	Funding for establishment and revitalization of dairy projects
4	Establishment of Game farming	Frankfort	Jim Fouche' holiday resort be transferred to Mafube Local Municipality as it is currently under Department of Public Works Erection of game fence; Game ranching and game breeding facilities; Game meat production
5	Purchase of land for Crop farming (sorghum, soya beans, maize, sunflower, vegetables) Agro-processing to take place on side and surrounding areas	Villiers to be on large scale Frankfort, Tweeling and Cornelia on small scale	1000 ha of land to be purchased around Villiers
6	Establishment and support of community food gardens	Frankfort, Tweeling, Villiers and Cornelia	Establishment and support of community food gardens

7	Support of small holder farmers	Frankfort, Tweeling, Villiers and Cornelia	Support of small holder farmers
8	Support to small poultry farmers	Frankfort, Tweeling, Villiers and Cornelia	Support to small poultry farmers
9	Upgrading and maintenance of existing commonages infrastructure	Frankfort, Tweeling, Villiers and Cornelia	Funding for upgrading and maintenance of existing commonages infrastructure
10	Purchase of land for establishment Commonages	Frankfort, Tweeling, Villiers and Cornelia	Frankfort and Villiers to have 500 ha each Cornelia and Tweeling 100 ha each
11	Establishment of Fish farming	Frankfort and Villiers	Establishment of fish farming structures, trainings and skills

ENTERPRISE AND INDUSTRIAL DEVELOPMENT

Proposed enterprise and industrial development Projects

No	Name / Nature of the Project	Name of a Town for implementation	Assistance needed for the Project
1.	Rezoning of public open spaces for business/enterprise development	Frankfort, Tweeling, Villiers and Cornelia	Rezoning of open spaces
2	Upgrading and establishment of new Industrial area	Frankfort	Sub-division of industrial sites, establishment and upgrading Roads, installation water, electricity supply, and installation of a sewage line.
3	Establishment of new industrial sites, with basic services	Tweeling, Villiers and Cornelia	Establishment of industrial sites, and installation of basic services
4	Establishment and support of urban industries	Frankfort, Tweeling, Villiers and Cornelia	Establishment and support of new, industries and existing ones
	Establishment and support of enterprises	Frankfort, Tweeling, Villiers and Cornelia	Funding for the establishment and support of enterprises
5	Establishment and support of rural industries	Frankfort, Tweeling, Villiers and Cornelia	Establishment and support of rural industries
7	Upgrading of electricity supply to Mafube Local Municipality	Frankfort, Tweeling, Villiers and Cornelia	Upgrading of electricity supply to Mafube Local Municipality There is more interest of investors to invest in Mafube Local Municipality because of political stability
8	Upgrading of water capacity	Frankfort, Tweeling, and Cornelia	Funding for water storage infrastructure

9	Upgrading of road infrastructure, in industrial area	Frankfort, Tweeling, and Villiers	Funding for the upgrading of road infrastructure
10	Establishment of a weir, in the Vaal river (Villiers)	Villiers	Funding for the building of the weir on the Vaal river
11	Establishment of Mafube Recycling Centre	Frankfort	Land has been identified around Frankfort and need assistance in the development of structures
12	Establishment of Mafube L.M brick manufacturing plant	Frankfort	Funding for the machinery, equipment and training for the personnel

SMME DEVELOPMENT

Introduction to Villiers and Qalabothja N3 Development Hub

Detailed Project Description

The Villiers / Qalabotjha N3 Development Hub will be a development node that will comprise the following interlinked and seamlessly integrated development nodes:

- a) **A business hub with filling station and convenience stores to cater for daily travellers** from Gauteng, KwaZulu Natal and Mpumalanga as it is at the inter-change of these three Provinces along the N3 (**Heidelberg - Gauteng, Newcastle – Kwazulu Natal and Standerton - Mpumalanga**);;
- b) **A secondary taxi rank;**
- c) SMMEs training centre with corresponding hawking stalls;
- d) Landscaped civic square and centre;
- e) An agri-park looking at the value chain of animal husbandry – ***extension service, abattoir, meat packages, and exploring the possibility of importing pork to china;***
- f) Light industrial manufacturing precinct where agriculture-orientated, products such as maize, sunflower, wheat, grain, sorghum are beneficiated and sold to other provinces and overseas
- g) **Mixed high density housing development**

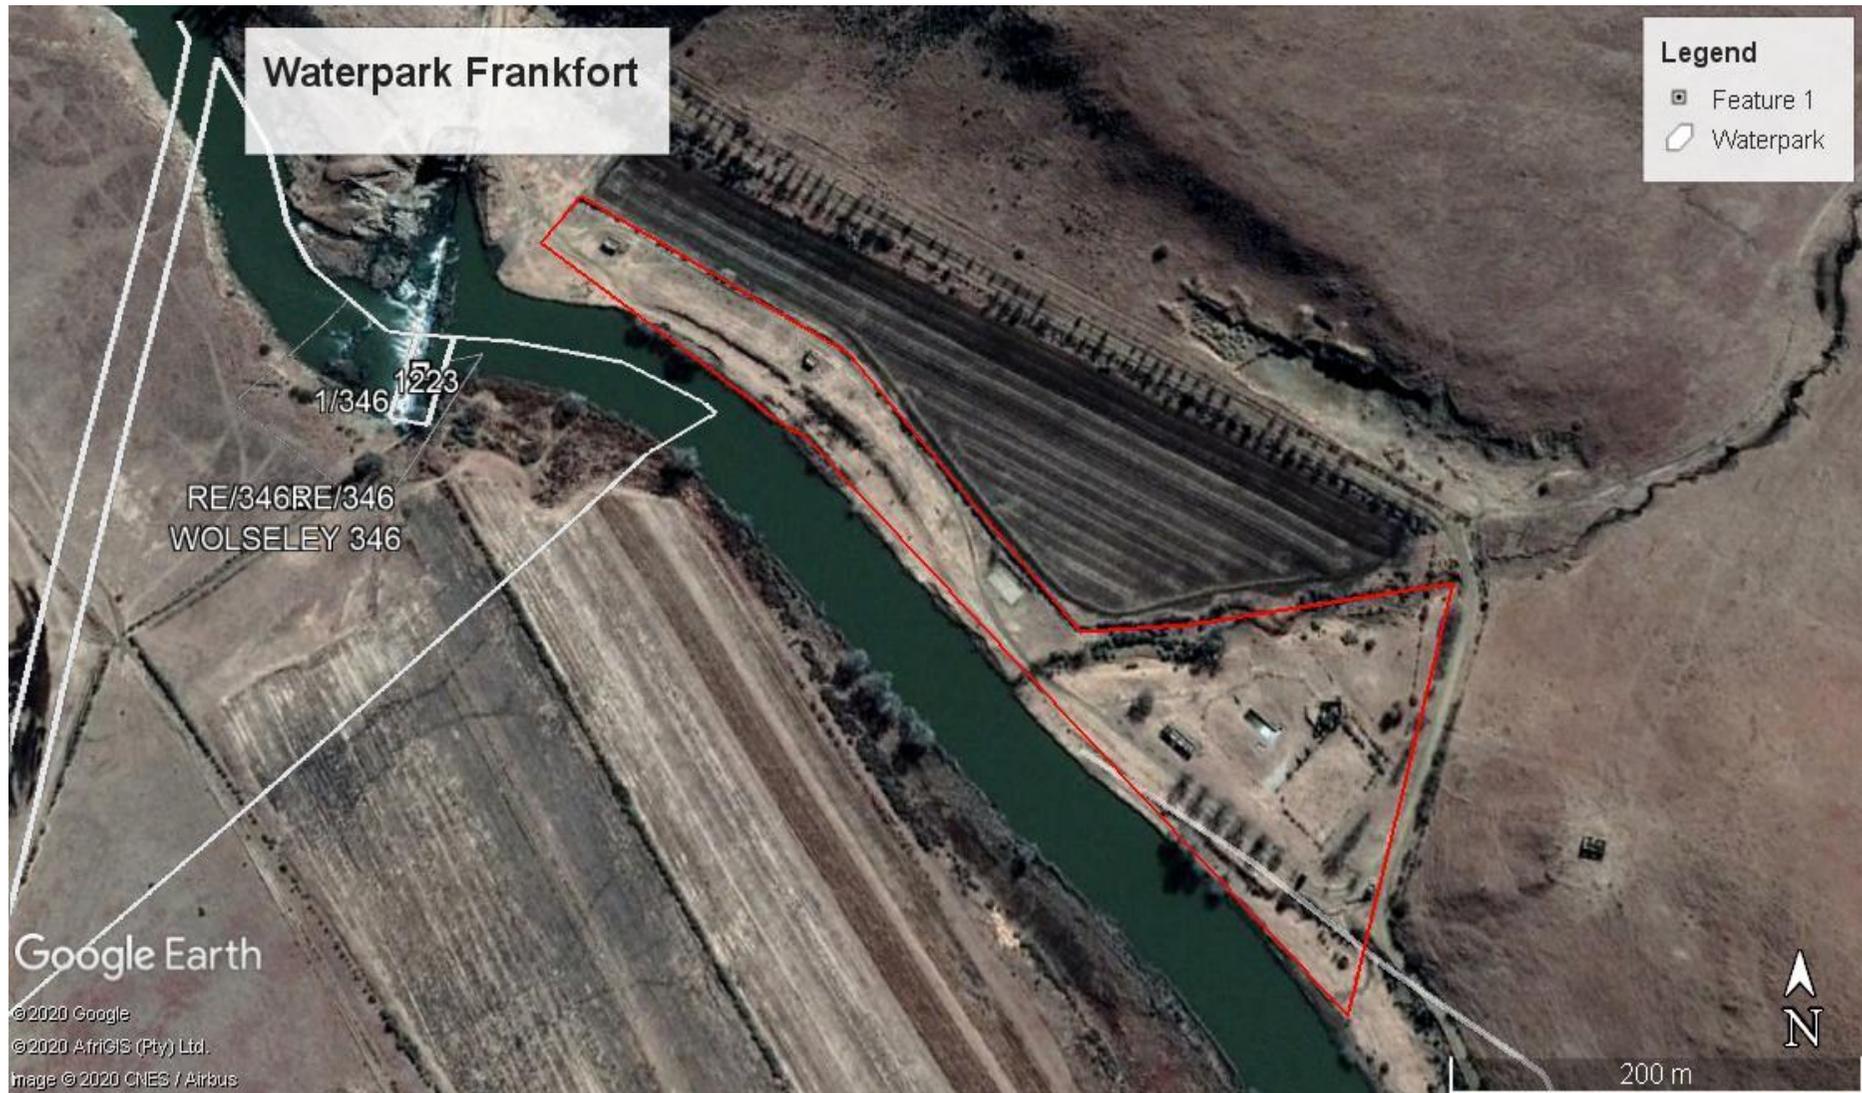

Proposed SMME development Projects

No	Name / Nature of the Project	Name of a Town for implementation	Assistance needed for the Project
1	Construction of trading stalls	Frankfort and Villiers	Funding for the construction of the Trading stalls Land has been identified in both towns for stalls and is only funding needed for the development
2	Compliance with By-laws and policies	Frankfort, Villiers, Cornelia and Tweeling	Law Enforcement Officers for compliance in street trading, opening of tuck-shops and regulating businesses around Mafube
3	Mafube as Licensing Authority	Villiers, Frankfort, Tweeling and Cornelia	Mafube to be granted authority to license businesses
4	Establishment and Support of Smme's	Frankfort, Tweeling, Villiers and Cornelia	Purchasing of working equipment for all SMMEs in Mafube. Database is available and need analysis has been done. Committees have been established in all towns
5	Establishment and upgrading of Taxi Ranks	Frankfort, Namahadi, Villiers, and Qalabotjha.	Establishment and upgrading of taxi ranks structures and shades for hawkers
6	Building of laundry facilities	Frankfort and Villiers	Funding for the construction and machinery of the facilities
7	Building of trading facilities for SMMES	Frankfort and Villiers	Funding

Tourism Development

Proposed Tourism development Projects

No	Name / Nature of the Project	Name of a Town for implementation	Assistance needed for the Project
1	Establishment of Information Centres	Frankfort and Villiers	Structures for information centres including material
2	Establishment of Tourism attraction centres	Cornelia and Tweeling Villiers Mandela holding cell Frankfort British Spy House	Research and financial support to renovate and refurbish
3	Establishment and upgrading of Water Park	Frankfort	To be developed into a day holiday resort to accommodate day visitors, a caravan park and holiday resort with 10 chalets Erection of perimeter fence and associated security infrastructure; construction and upgrading of roads; visitor/recreational facilities e.g. campsites, viewing decks and caravan park
4	Support of Wilge Makiti	Frankfort	Financial support to make the event to be big and make exposure to coming artists, crafters and Smmes

Rural Development

Proposed Rural development Projects

No	Name / Nature of the Project	Name of a Town for implementation	Assistance needed for the Project
1	Installation of basic services in rural schools	Frankfort, Villiers, Cornelia and Tweeling	Funding for the projects
2	Installation of basic services in rural house holds	Frankfort, Villiers, Cornelia and Tweeling	Funding for the projects
3	Re-graveling and grading of rural roads	Frankfort, Villiers, Cornelia and Tweeling	Funding for the projects
4	Provision for alternative for waste/refuse removal for rural areas	Frankfort, Villiers, Cornelia and Tweeling	Funding
5	Support and assistance of rural school, leaners	Frankfort, Villiers, Cornelia and Tweeling	Funding for the support and assistance
6	Upgrading and maintenance of roads	Frankfort, Villiers, and Tweeling	Funding for the projects
7	Purchase of land for township establishment	Frankfort and Villiers	Funding for the purchase of land

Environment management

Proposed environment management Projects

No	Name / Nature of the Project	Name of a Town for implementation	Assistance needed for the Project
1	Establishment and upgrading of landfill site	Frankfort and Tweeling	Funding for the purchase of land and establishment thereof
2	Provision for alternative for waste/refuse removal	Frankfort, Villiers, Cornelia and Tweeling	Funding
3	Upgrading of landfill site	Cornelia and Villiers	Funding for the upgrading
4	Establishment and upgrading of cemeteries	Frankfort, Villiers, Cornelia and Tweeling	Funding
5	Establishment and upgrading of public open spaces, to parks	Frankfort, Villiers, Cornelia and Tweeling	Funding
6	Greening & open space management	Frankfort, Villiers, Cornelia and Tweeling	Funding
7	Working for land, to encourage land use practices	Frankfort, Villiers, Cornelia and Tweeling	Funding

8	Youth Employment Service education and awareness Programme	Frankfort, Villiers, Cornelia and Tweeling	Funding
9	Development and upgrading of infrastructure in and around protected areas	Frankfort, Villiers, Cornelia and Tweeling	Funding
10	Establishment of Stone mining quarry	Frankfort	Funding for the project, and the processes of an EIA study
11	Establishment of sand and gravel mining quarry	Frankfort, Villiers and Tweeling	Funding for the project, and the processes of an EIA study

SPECIAL GROUPS

TABLE 50: SUPPORT INITIATIVES TO PEOPLE WITH DISABILITY

Evidence showing that there is mainstreaming of HIV/AIDS	None
Special focus to promote people with disabilities, woman and youth	Special programmes to be held
Gender equity promoted for access to economic opportunity	Gender equity promoted
Supporting initiatives to other special groups (disable, woman and youth)	Support is given to special groups
Identified objectives to establish and implement programs to promote people with disabilities, woman and youth	Programs to promote people with disability are implemented
Identified objectives to ensure that gender equity is promoted	Employment equity plan in place
Strategies, programmes and projects to create opportunities for people with disabilities, woman and children	Not yet developed

Chapter 3: Ward Analysis

3.1 Introduction

The IDP is about determining the stakeholder and community needs and priorities which need to be addressed to contribute to the improvement of the quality of life of residents within the Municipal Area.

Various stakeholders and sector departments were involved during the IDP development process and this process comprises 9 ward meetings. The Municipality has developed 9 Ward Development Plans through public meetings that were held in all wards. Ward Development Plans include an analysis of the ward, needs identification, and plans to address priorities, support needed from the Municipality and other stakeholders involved in the IDP process.

The Municipality has also partnered and conducted different engagements that have been introduced in the province such as Provincial IDP Managers Forum and the District IDP Managers Forum. The IDP meetings contributes in finding solutions by reaching agreements with sector departments on enhancing service by addressing community issues that are specific- sector related. IDP priorities have been derived from the priorities from the wards, as have many elements of the plans, as well as IDP projects.

3.2 Community needs (2022/23 – 2026/27)

This section covers details of priority issues / problems and inputs received from the community and other stakeholders following public participation processes that were embarked upon during the planning process.

In order to ensure effective alignment between community needs and budget programs, MFMA, Chapter 4, as well as Circular 48 provide guidance on the steps in the annual budget process. Critical to the development of a credible budget are:

1. The manner in which the strategic planning process is integrated
2. The input of policy directions; and consultation with the community and other stakeholders.

The strategic alignment between national, provincial and district service delivery priorities was also a critical factor during the preparation process of this IDP. Key issues raised during these public meetings have been considered and reflected on a ward basis as outlined below.

Overview of the common community needs/concerns raised in most of Mafube L.M Wards.

- Access to reliable water supply.
- Upgrading and maintenance of roads and storm water channels
- Provision of Refuse Bins
- Fencing of Cemeteries
- Establishment and development of Community Parks, and sport facilities
- Agricultural land for community projects
- Removal and control of livestock
- Access to residential and business sites
- Upgrading of Taxi Ranks
- Access to Housing (RDP's)
- Title deeds for RDP Beneficiaries
- Approval of building plans
- Change of sites ownership
- Creation of employment opportunities
- Sport, Arts and Recreation programmes for the Youth
- Social Development Programmes (Drug abuse)

3.3 Ward One

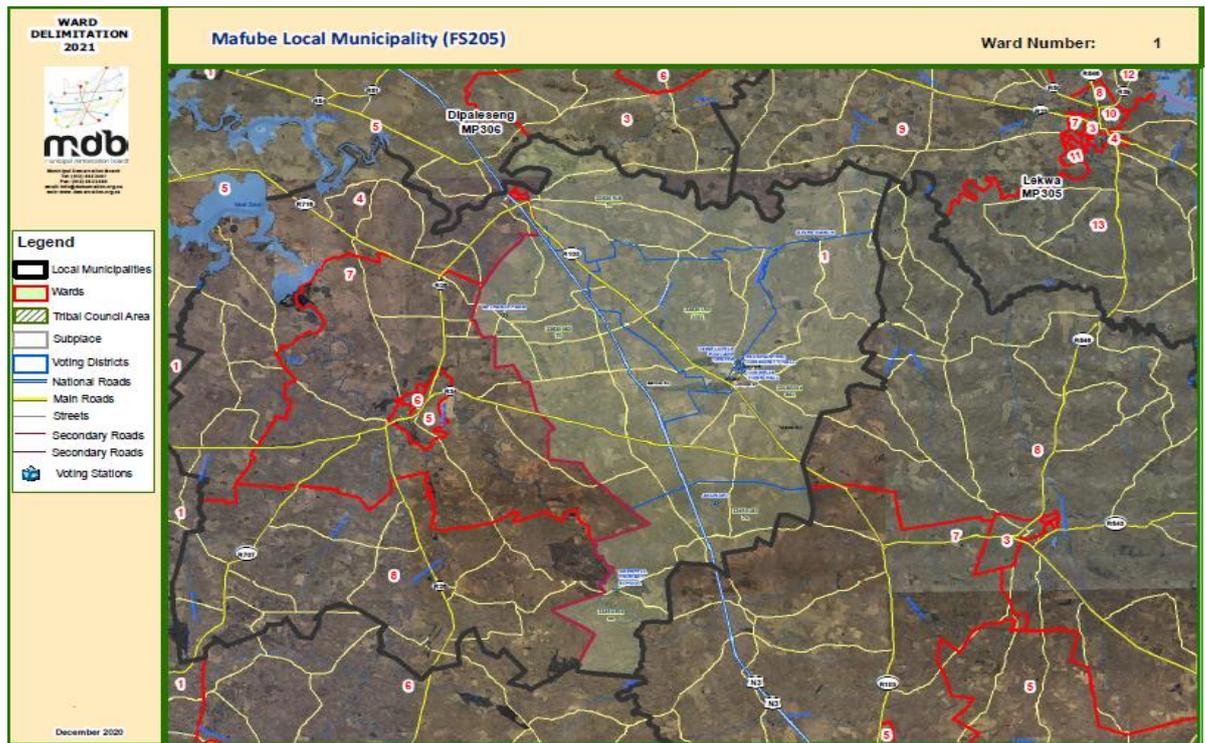

Figure 11: Ward one layout Plan

Table 51: Ward 1 Community needs (Action Plan)

WARD 1	RESPONSIBLE DIRECTORATE/ DIVISION	RESPONSIBLE PROVINCIAL DEPARTMENT
Reliable water supply (Extra Reservoir)	Infrastructure Services & Urban Planning	Department of water and sanitation
Reliable Electricity supply (Upgrading of electricity supply infrastructure)	Infrastructure Services & Urban Planning	Department of Energy
Completion of RDP houses that were allocated in the year 2009.	Infrastructure Services & Urban Planning	Department of Human Settlement
New allocation of RDP houses, as the last allocation was in 2009.	Infrastructure Services & Urban Planning	Department of Human Settlement
Creation of employment opportunities	Community Services & LED	Department of Economic Development, Tourism and Environmental Affairs
Local Economic Development	Community Services & LED	Department of Economic Development, Tourism and Environmental Affairs
Training and Skills	Community Services & LED	Department of Economic Development, Tourism and Environmental Affairs

development programs.		/ SETA
Upgrading of roads and storm water (Makgashule and extension 7- new location)	Infrastructure Services & Urban Planning	Department of Police, Roads and Transport
Training and skills development for school dropouts.	Community Services & LED	Department of economic development and tourism/ SETA
Proper completion of the sport ground, according to its designs.	Community Services & LED	Department of Sports, Culture and recreation.
Allocation of local employment to the local community.	Community Services & LED	Department of Labour
Installation of V drains/water channels to control water in Makgashule section.	Infrastructure Services & Urban Planning	Department of water and sanitation
Access to public lighting in Makgashule section.	Infrastructure Services & Urban Planning	Department of Energy
Grading and graveling of roads in the new location.	Community Services & LED	Department of environmental affairs
Filling of open spaces/stand in the location	Infrastructure Services & Urban Planning	Department of human settlement
Rooming animals and fencing of communal plots.	Community Services & LED	Departmental of agriculture
Maintenance and replacement municipal fleet.	Corporate Services	
Grass cutting and management of open spaces	Community Services & LED	DPRT
Shelter for community members traveling to Kroonstad for medical attention.	Community Services & LED	Department of health
Toilets in the new location	Infrastructure Services & Urban Planning	Department of water and sanitation
Installation of solar systems in farms	Infrastructure Services & Urban Planning	Department of Energy

Installation of electricity, in new location	Infrastructure Services & Urban Planning	Department of Energy
Ambulance and fire brigade depot,	Community services and LED	Department of Health, and Cogta
A need of an ATM	Community services and LED	Department of Economic Development, Tourism
Fencing of the communal lands and plots	Community services and LED	Department of Rural Development and Land Reform
Financing of Crop farming projects	Community services and LED	Department of Rural Development and Land Reform
A need for a library	Community services and LED	Department of Education and DPRT
A full time doctor at phekolong clinic	Community services and LED	Department of Health
Home affairs office	Community services and LED	Department of Home affairs
Removal of illegal dumping sites	Community services and LED	Department of Environmental affairs
Upgrading of Taxi Rank	Infrastructure and Urban Planning	Department of Economic Development and Tourism
Business and Industries sites (Land for development)	Infrastructure and Urban Planning	Department of Economic Development and Tourism

3.4 Ward Two

Figure 12: Ward Two layout Plan

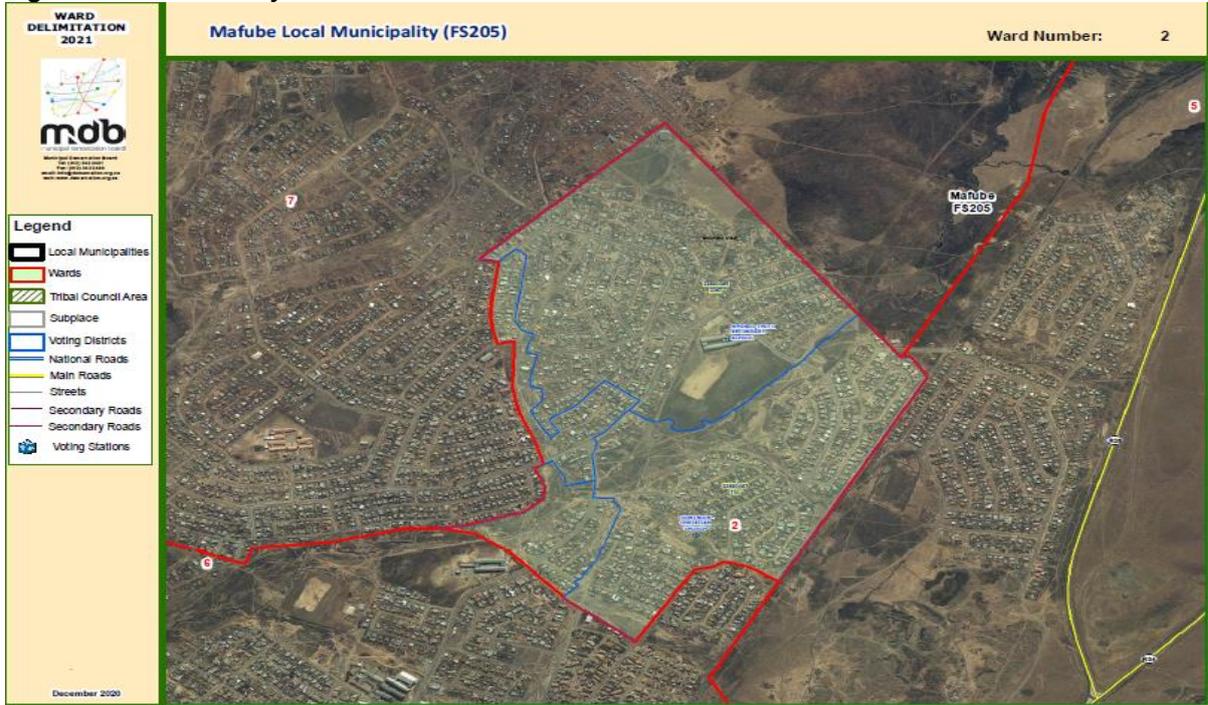

Table 52: Ward 2 Community needs, Action plan

WARD 2	RESPONSIBLE DERECTORATE/DIVISION	RESPONSIBLE PROVINCIAL DEPARTMENT
Allocation of new Sites	Infrastructure Services & Urban Planning	Department of Human settlement
Rural Maintenance electricity contract	Cooperate Services	CoGTA
Land Audit	Infrastructure Services & Urban Planning	Department of Human Settlement
Upgrading and Maintenance of Roads	Infrastructure Services & Urban Planning	DPRT
Home affairs offices be opened and fully operating	Community services and LED	Department of Home affairs
A need for a bigger clinic or extending the Phahameng clinic	Community services and LED	Department of Health
A need for an old age home	Community services and LED	Department of Social Development
Development of sports facilities	Community services and LED	Department of Sports, Arts and Culture

Communal land and plots for stock-farming	Community services and LED	Department of Rural Development and Land Reform
Employment opportunities for the youth	Community services and LED	Department of Economic Development, Tourism and Environmental Affairs
A need for a community hall	Community services and LED	DPRT
Establishment of an institution for education and skills development	Community services and LED	Department of Social Development
Library and youth advisory centre	Community services and LED	Department of Education and DPRT
Sport and recreation programmes for Youth	Community Services and LED	Department of Sport arts and recreation
Social Development programmes (drug abuse)	Community Services and LED	Department of Sport arts and recreation. Department of Social Development
A need of residential site's	Infrastructure Services & Urban Planning	Department of Human Settlement
Resolving the illegal dumping sites	Community services and LED	Department Environmental Affairs
Provision of refuse bins for Households	Community services and LED	Department Environmental Affairs
Installation of more advanced meter readers	Infrastructure Services & Urban Planning	DWS
Access to water	Infrastructure Services & Urban Planning	DWS
New cemetery	Community services and LED	Department Environmental Affairs and DHS
Installation of High mast lights	Infrastructure Services & Urban Planning	DOE

3.5 Ward Three

Figure 13: Ward Three layout Plan

Table 53: Ward 3, Community needs, Action Plan

WARD 3	RESPONSIBLE DIRECTORATE	RESPONSIBLE PROVINCIAL DEPARTMENT
Disability centre	Community services and LED	Department of Social Development services
Hospital and trauma centre	Community services and LED	Department of Health
Clinic Operating 24 hours	Community services and LED	Department of Health
Residential Sites	Infrastructure services and Urban planning	Department of Human settlements
RDP Beneficiaries (Title Deeds)	Infrastructure services and Urban planning	Department of Human settlements
Control of livestock	Community Services and LED	Department of agriculture
Legal allocation of Tender (Nepotism)	Financial Services	CoGTA
Performance of Land Audit	Infrastructure Services and Urban Planning	Department of Human Settlement
Development and enforcement of Municipal By-Laws	Corporate Services	Cogta
Employment Creation	Community services and LED	Department of economic development and tourism
Establishment Factories and Industries in Villiers	Community Services and LED	Department of Economic Development and Tourism

Agriculture Learner ship	Community Services and LED	Department of Economic Development and Tourism
Development of Sports Stadium	Community Services and LED	Department of sport, Arts culture and recreation
Sport and recreation programmes for Youth	Community Services and LED	Department of Sport arts and recreation
Social Development programmes (drug abuse)	Community Services and LED	Department of Sport arts and recreation. Department of Social Development
Establishment of Police Station in the location	Community Services and LED	DPRT
Establishment of Municipal Offices in the location	Corporate Services	
Demolishment of a Park	Community Services and LED	Department of environmental affairs
Maintenance of paved roads and storm water channel	Infrastructure Services and Urban planning	Department of Police, Roads and transport
High mast lights	Infrastructure Services	Department of energy
Fire and rescue station	Community Services and LED	Cogta
Chicken eggs production farming	Community Services and LED	Department of agriculture and department of economic development and tourism
Establishment of Nelson Mandela Museum	Community Services and LED	Department of sport, culture and recreation
Municipal Rent debt forgiveness	Financial Services	Provincial Treasury and Cogta
Satellite schools for higher learning	Community Services and LED	Department of Education
Career guidance programmes	Community Services and LED	Department of education

3.6 Ward Four

Figure 14: Ward Four layout Plan

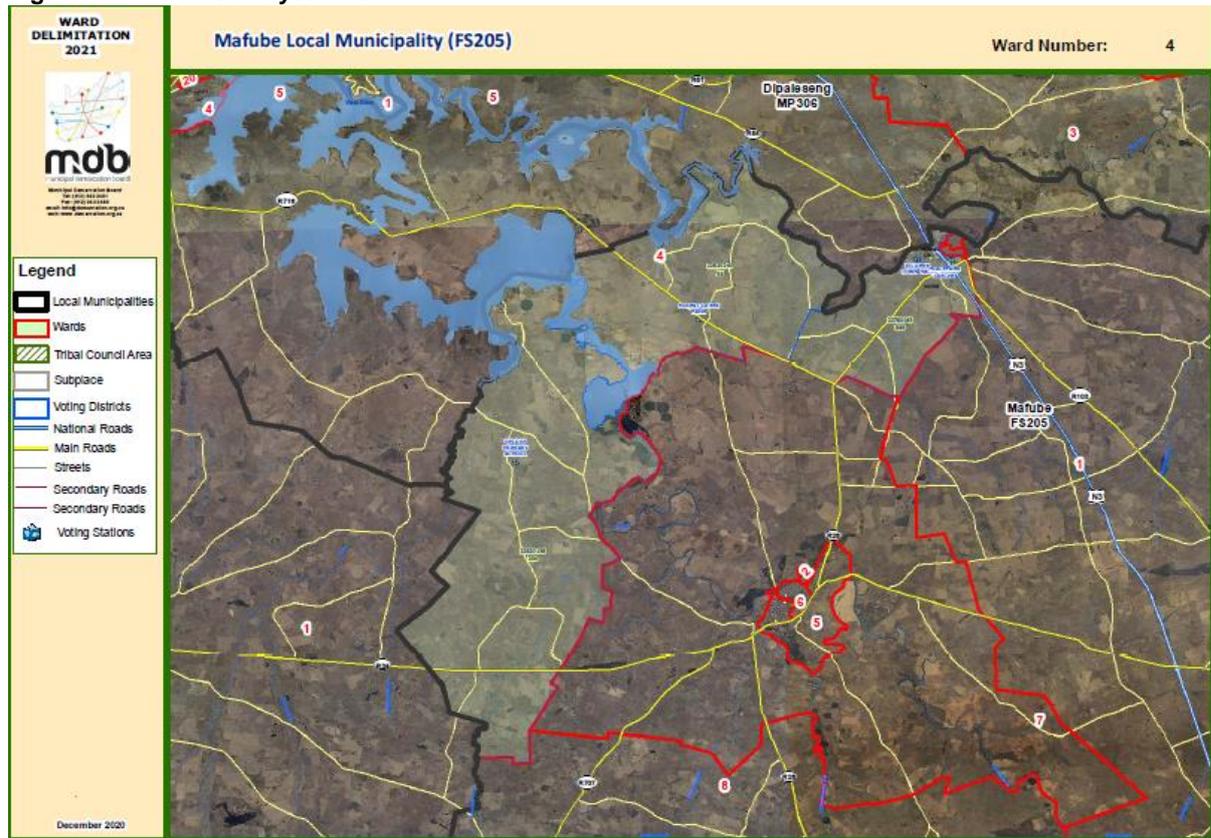

Table 54: Ward 4, Community Needs Action Plan

WARD 4	RESPONSIBLE DIRECTORATE	RESPONSIBLE PROVINCIAL DEPARTMENT
Building of Toilets in the new location	Infrastructure Services and Urban Planning	Department of Water and Sanitation Services
Clarity on Prepaid water metre's	Infrastructure / Financial Services	Department of Water and sanitation services
Maintenance of paved roads and storm water channel.	Infrastructure services and Urban Development	Department of Police, Roads, and Transport
Demolishing of Sports ground	Community Services and LED	Department of sports, culture, and recreation.
Farms to be restructured to residential sites	Infrastructure Services and Urban Planning	Department of Human Settlements
Factories, industries and residential Sites	Infrastructure services and Urban Planning	Department of Human Settlement
Water metres	Infrastructure Services and Urban Planning	Department of Water and Sanitation Services
Employment creation	Community Services and LED	Department of agriculture and department of economic development and tourism
New allocation of RDP houses	Infrastructure Services and Urban Planning	Department of Human Settlement
Access to water	Infrastructure Services and Urban Planning	Department of Water and sanitation services
CWP	Community Services and LED	Department of environmental

Fencing of cemetery	Community Services and LED	Department of environmental
Prevention of pollution near the Vaal river stream	Community services and LED	Departmental of environmental affairs
Fire and rescue station	Community Services (Manager LED)	Cogta
Upgrading of a Taxi Rank	Community Services and LED	Department of agriculture and department of economic development and tourism

3.7 Ward Five

Figure 15: Ward Five layout Plan

Table 55: Ward 5, Community Needs, Action Plan

WARD 5	RESPONSIBLE DIRECTORATE	RESPONSIBLE PROVINCIAL DEPARTMENT
Flat rate implementation on rent e.g R100 or R150 depending on salary	Financial Services	Provincial Treasury
Flat rate implementation on rent for pensioners and Social grant beneficiaries	Financial Services	Provincial Treasury
Upgrading and maintenance of Paved Roads and Storm water channels	Infrastructure Services and Urban Planning	Department of Police, Roads and Transport
Provision of refuse bins	Community Services and LED	Department of Environmental affairs

Replacement of old water asbestos pipes	Financial Services & Urban Planning	DWS
Upgrading of sewage pipes	Financial Services & Urban Planning	DWS
Provision of refuse bins for household	Community Services and LED	Department of Environmental Affairs
Control of livestock(by fencing the camps which keep them)	Community Services and LED	Department of Rural Development and Land Reform
Development and enforcement of Municipal By-Laws	Corporate Services	Cogta
Management and Upgrading of the landfill site	Community Services and LED	Department of Environmental Affairs
Upgrading and maintenance of roads and Storm water channels	Infrastructure services & Urban Planning	DPRT
24 hours, access of water to household in Mamello section	Infrastructure services & Urban Planning	DWS
New Allocation of RDP houses	Infrastructure services & Urban Planning	DHS
Prevention of people sleeping on the Wilge river bangs	Community services and LED	SAPS
Upgrading of Taxi Rank	Community Services and LED	Department of agriculture and department of economic development and tourism

3.8 Ward Six

Figure 16: Ward Six layout Plan

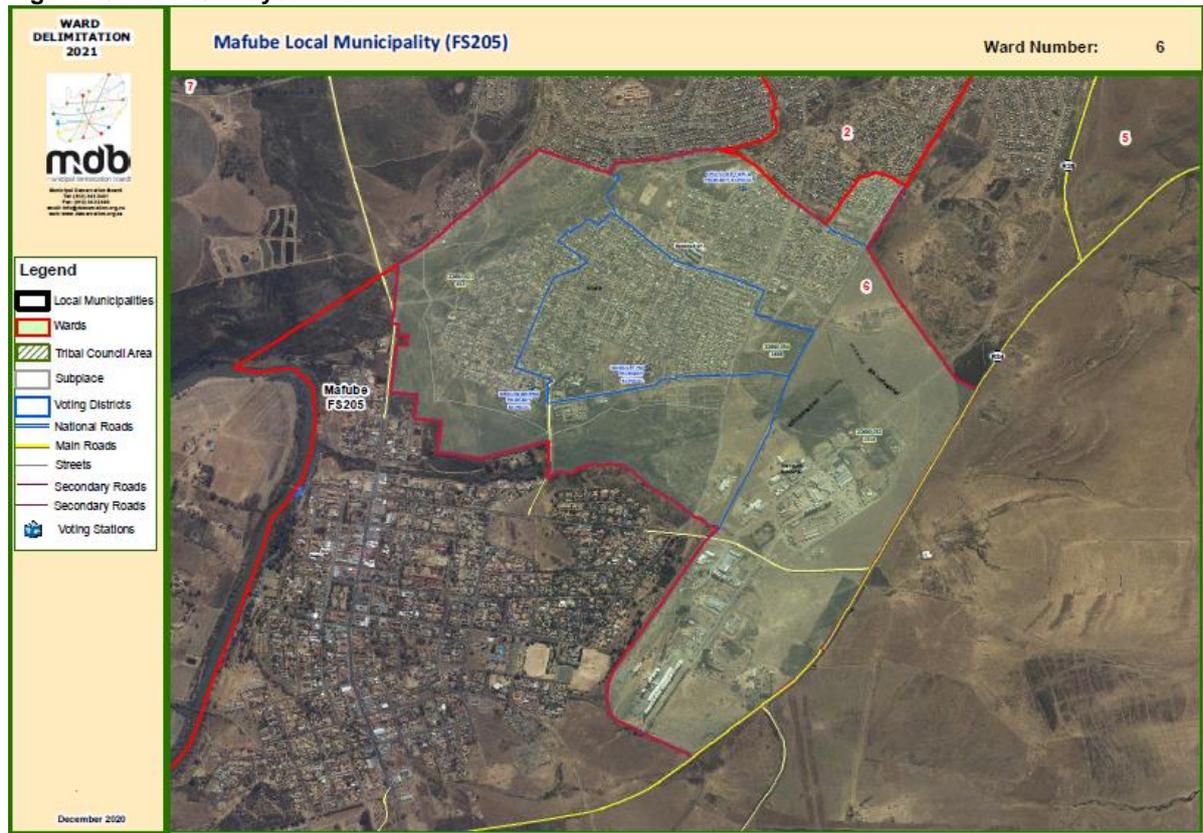

Table 56: Ward 6, Community Needs, Action Plan

WARD 6	RESPONSIBLE DIRECTORATE/DIVISION	RESPONSIBLE PROVINCIAL DEPARTMENT
Employment creation on the construction of the new water reservoir	Infrastructure Services and Urban Planning	Cogta
Local Economic Development	Community Services and LED	Department of agriculture and department of economic development and tourism
Upgrade and maintenance of roads and storm water channels	Infrastructure Services and Urban Planning	Department of Police, Roads and Transport
Allocation of RDP Houses	Infrastructure Services Urban Planning	Department of Human settlement
Change of sites ownership for elders	Infrastructure Services and Urban Planning ; Corporate Services ; Financial services	Department of Human settlement
Provision for refuse bins	Community Services and LED	Department of environmental affairs
Building of Children's and Elderly homes	Community Services and LED	Public Works and Department of Social Development
Sport and recreation programmes for Youth	Community Services and LED	Department of Sport arts and recreation

Social Development programmes (drug abuse)	Community Services and LED	Department of Sport arts and recreation. Department of Social Development
Access to free basic electricity for indigent households	Financial Services	Provincial Treasury
Residential and Business sites	Infrastructure Services and Urban Planning	Department of Human settlement
Proper Management of the waste water treatment Plant	Infrastructure Services and Urban Planning	DWS
Removal sewer purification plant near residents	Infrastructure Services and Urban Planning	Department of water and sanitation
Building of Walking water bridge (Between Butayi and Phahameng)	Infrastructure Services and Urban Planning	Department of Police, Roads and Transport
Installation of water metres	Infrastructure Services and Urban Planning	Department of water and sanitation
Replacing of cracked toilets	Infrastructure Services and Urban Planning	Department of water and sanitation

3.9 Ward Seven

Figure 17: Ward one layout Plan

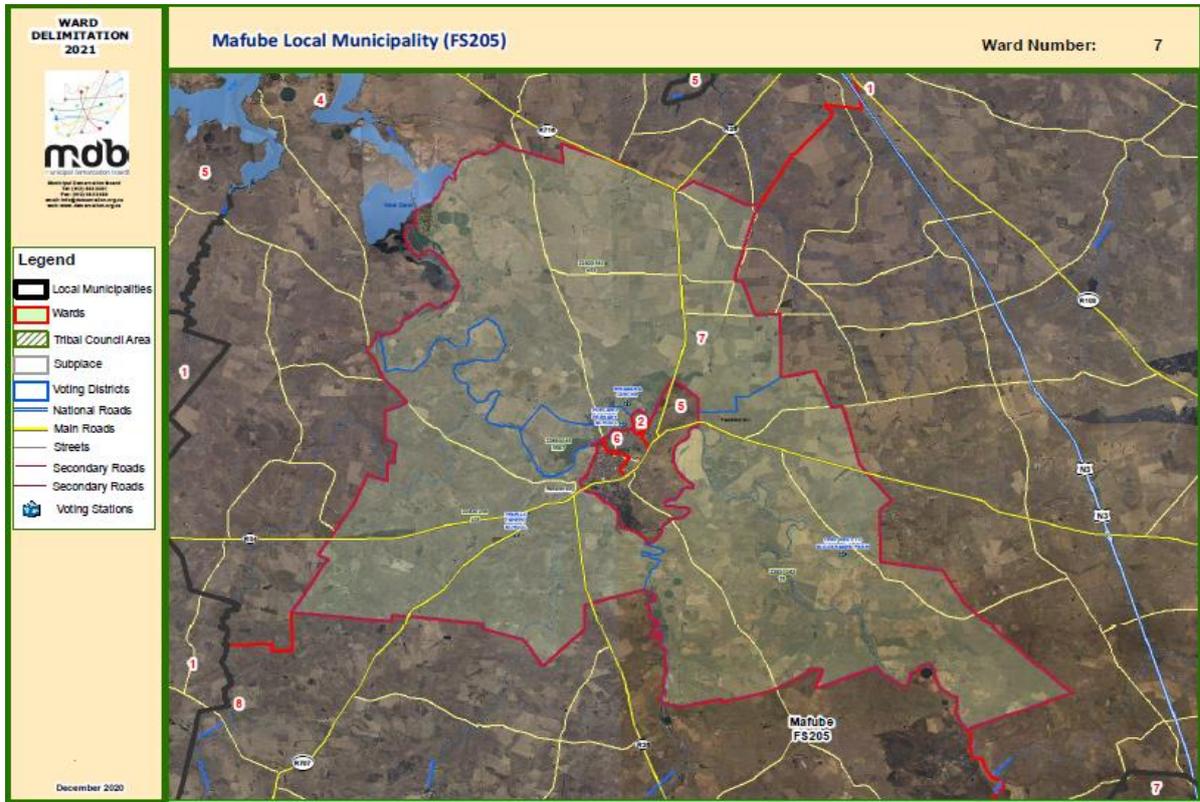

Table 57: Ward 7, Community Needs, Action Plan

WARD 7	RESPONSIBLE DIRECTORATE/DIVISION	RESPONSIBLE PROVINCIAL DEPARTMENT
Home Affairs office	Community Services and LED	Department of Home Affairs
24HR Clinic	Community Services and LED	Department of Health
Access to Municipal Service delivery	Community and Infrastructure Services	Department of water and sanitation
Residential and Business Sites	Infrastructure Services and Urban Planning	Department of Human settlements
Appointment of certified land surveyors	Infrastructure Services and Urban Planning	CoGTA
Development and enforcement of Municipal By-Laws	Corporate Services	Cogta
SMME Support	Community Services and LED	Department of agriculture and department of economic development and tourism
Land Audit	Infrastructure Services and Urban Planning	Department of Human Settlements
Re-establishing of Chicken Farm	Community Services (Manager LED)	Department of Economic development and Tourism
Indigent registration campaign	Financial Services	Provincial Treasury

Access to free basic electricity for indigent households	Financial Services	Provincial Treasury
Partner with social grant department to address rent issues	Financial Services	Provincial Treasury and Department of Social Development
Sport and recreation programmes for Youth	Community Services and LED	Department of Sport arts and recreation
Upgrading and Maintenance of Municipal Facilities	Corporate Services	DPRT
Social Development programmes (drug abuse)	Community Services and LED	Department of Sport arts and recreation. Department of Social Development
Upgrading and maintenance of roads	Infrastructure services	Department of police, roads and transport. COGTA(MIG)
Street / high mass lights	Infrastructure services	Department of energy
Police station	Community services	Department of police roads and transport
A need for a clinic	Community services and Office of the Municipal manager (Town planning)	Department of health
School	Community services	Department of education
Early childhood development centre	Community services	Department education/ social development
Multi-purpose centre	Community services	Department of sport arts and culture
Youth advisory centre and a Library	Office of the Mayor and Community services.	Department of sport and recreation
Solar geysers	Infrastructure services	Department of energy
Creation of employment opportunity	Office of the Municipal manager(LED)	Department of social development
Development of the local economy	Office of the municipal manager (LED)	Department of social development
Upgrading of Water draining system in Phahameng	Infrastructure services	COGTA
Foot bridge to be erected between Phahameng and Mtampelong	Infrastructure services	COGTA
Sport facilities	Community services	Department of sport art and culture

3.10 Ward Eight

Figure 18: Ward Eight layout Plan

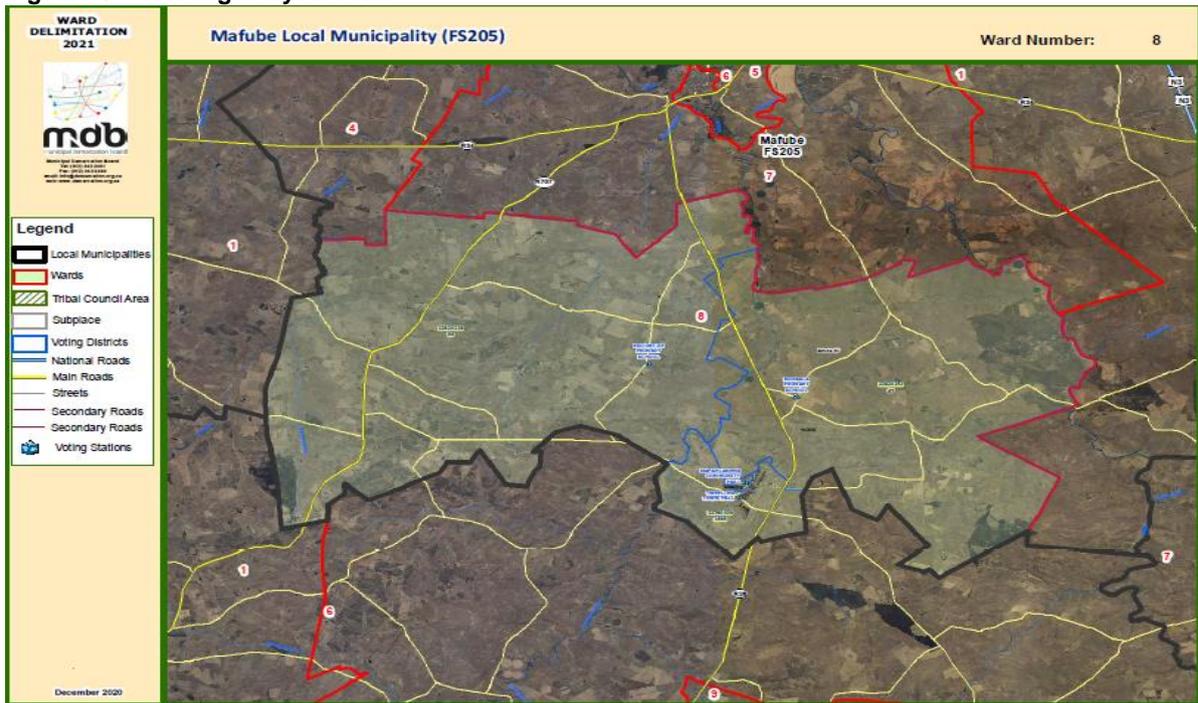

Table 58: Ward 8, Community Needs Action Plan

WARD 8	RESPOSIBLE DIRECTORATE/DIVISION	RESPOSIBLE PROVICAL DEPARTMENT
Building of Toilets new Location	Infrastructure services and Urban Planning	Department of water and sanitation
Maintenance of paved roads and storm water channel at Extension 1	Infrastructure services and Urban Planning	Department of Police, Roads and Transport
High mast and street lights	Infrastructure services and Urban Planning	Department of energy
Town Development (Retail Stores and ATMs)	Community services and LED	Department of Economic Development Environment and Tourism
Talent Shows	Community services and LED	Department of sports arts , culture and recreation
Empowering of small businesses	Community services and LED)	Department of Economic Development Environment and Tourism , SITA and NYDA
Maintenance of water Pumps	Infrastructure services and Urban Planning	Department of water and sanitation
Electricity Installation for 63 houses in Extension 1	Infrastructure services and Urban Planning	Department of energy
Approval of Building Plans	Infrastructure services and Urban Planning	Department of Human Settlement
Residential Sites	Infrastructure services and Urban Planning	Department of Land Affairs
Provision of clean Water	Infrastructure services and Urban Planning	Department Water and Sanitation
Fencing of Landfill Site	Community services and LED	Department of Environmental Affairs

Distribution of Refuse Bins	Community Services and LED	Department of Environmental Affairs
Building of a School	Community Services and LED	Department of Education
Proper Surveying of sites	Infrastructure services and Urban Planning	Department of Human settlement
Speed Hump	Infrastructure services and Urban Planning	Department of Police, Roads, and Transport
Pound Master	Community services and LED	Department of Agriculture
Fencing of Grave yard	Community services and LED	Department of Environmental Affairs
Sports Committee	Community Services and LED	Department of sports arts , culture and recreation
Payment of Service/ Rent	Financial Services	Provincial Treasury

3.11 Ward Nine

Figure 19: Ward Nine layout Plan

Sport and recreation programmes for Youth	Community services and LED	Department of Social Development
Social Development programmes (drug abuse)	Community services and LED	Department of Social Development
Control over stray animals	Community services and LED	Department of agriculture
Upgrading and installation of more advised water meter reading	Infrastructure services	Department of water affairs
Fire and rescue station	Community Services (Manager LED)	Cogta
Establishment of Municipal Offices in the location	Corporate Services	
Establishment of Police Station in the location	Community Services and LED	DPRT

CHAPTER 4: DEVELOPMENT OBJECTIVES and STRATEGIES

4.1 INTRODUCTION

Municipalities are at the forefront of the national effort to redress the political, social and economic imbalances of the past. In light of the above, municipalities are faced with great challenges in promoting human rights, meeting community needs, addressing past backlogs and planning for a sustainable future. Effective planning and development within municipalities is imperative to ensure the maximisation of social development and economic growth.

Municipalities in South Africa utilise integrated development planning as a method to plan future development in their areas and so find the best solutions to achieve sustainable long-term development. An Integrated Development Plan (IDP) gives an overall framework for development. A municipal IDP provides a five year strategic programme of action aimed at setting short, medium and long term strategic and budget priorities. The plan aligns the resources and the capacity of a municipality to its overall development aims and guides the municipal budget. An IDP is therefore a key instrument which municipalities use to provide vision, leadership and direction to all those involved in the development of a municipal area. The IDP enables municipalities to use scarce resources most effectively and efficiently to speed up delivery.

It is important that a municipal IDP correlate with National and Provincial intent so as to co-ordinate the work of all spheres of government. Such a coherent plan will ensure the improvement of the quality of life for all citizens. Applied to the Mafube Local Municipality issues of national and provincial importance should be reflected in the IDP of the municipality. For this reason this chapter commences with an overview of national and provincial intent that influences the integrated development plan and intended development strategies/priorities of the Mafube LM.

4.2 Mafube L.M Mission, Vision and Values

4.2.1 Vision Statement

What is a VISION statement?

- Image of the future we seek to create
- A photograph in words of the future
- A sentence or short paragraph providing a broad, aspirational image of the future
- Where do we want to go?
- Is your inspiration, the framework for all (business) planning
- Vision provides the destination for the journey...without a destination, how can we plan our route?
- Articulating your dreams and hopes. Reminds you what you are trying to build

Our Vision (where do we want to go?)

‘Mafube a dawning smart city’

4.2.2 Mission Statement

What is a MISSION statement?

- Will turn your vision into practice
- Defines the fundamental purpose of an organisation succinctly describing why it exists and what it does to achieve its vision
- Doing part – what you will do to bring the vision to reality

Our Mission (What we will do to realise our vision)

“To provide integrated innovative people-centered municipal services”

4.2.3 Values Statement

What is a VALUE statement?

- Beliefs that are shared among the stakeholders of an organisation
- Values can be both outward (community) and inward-(organisation) looking
- The TALK we want to WALK

Our Values (The talk we want to walk)

- *Professionalism*

To always deal with our customers (internal & external) and stakeholders by displaying respect, approachability and responsiveness

➤ *Commitment*

To fulfil our duties and responsibilities both at institutional and individual levels with an unwavering commitment to our vision and mission

➤ *Integrity*

Engaging with communities, stakeholders and customers in an ethical, just, fair, accountable, open, transparent and honest manner and taking responsibility for our actions

➤ *Excellence*

Meeting and exceeding service standards and customer/community expectations

➤ *Passion/ Teamwork*

To do our work with energy, purpose and enthusiasm

4.3 Strategic Objectives

The vision and mission of the municipality have led to the conceptualisation of the following strategic objectives. For the purpose of relevance and ensuring that the municipality remains on course to fulfil its constitutional mandate, these goals are drawn from the objectives of local government as outlined in section 152 of the Constitution and are as follows:

1. to provide a democratic and accountable government for local communities;
2. to ensure the provision of services to communities in a sustainable manner;
3. to promote social and economic development;
4. to promote a safe and healthy environment; and
5. to encourage the involvement of communities and community organisations in the matters of local government.

Table 60: Strategic Outcome Oriented Goals of the Municipality

Goal I Nr.	Strategic Outcome Oriented Goal Description	Goal Statement
1	To provide democratic and accountable government for local communities.	This goal is about ensuring that the municipality is well governed and demonstrate good governance and administration, including sound financial management, prudent manage of resources, hiring competent staff, ensure transparency and accountability.
2	To ensure the provision of services to communities in a sustainable manner.	This goal is about creating conditions for decent living by consistently delivering municipal services to the right quality and standard. This includes planning for and delivery of infrastructure and amenities, maintenance and upkeep, including the budgeting to do this. Ensure no failures in services and where there are, restore with urgency.
3	To promote social and economic development.	This goal is about putting measure in place to create an enabling environment for local economic development to stimulate competitive, inclusive and sustainable economies and integrating and densifying our communities to improve sustainability.
4	To promote a safe and healthy environment.	This goal is about creating safe, healthy and economically sustainable areas where citizens and people can work, live and socialize.
5	To encourage the involvement of communities and community organisations in the matters of local government.	This goal is about improving transparency, accountability and regular engagements with communities by ensuring that governance structures are functional and meet regularly and implement responsive and accountable processes to communities. It is also about putting people and their concerns

4.4 Alignment of selected National, Provincial, District and Local objectives.

Section 24 (1) and (2) of the Local Government: Municipal Systems Act (No: 32 of 2000) stipulates the following about “Municipal planning in co-operative government-

The planning undertaken by a municipality must be aligned with, and complement, the development plans and strategies of other affected municipalities and other organs of state to give effect to the principles of co-operative government contained in Section 41 of the Constitution.

Municipalities must participate in national and provincial development programmes as required in Section 153 (b) of the Constitution.”

Furthermore, Regulation 2(1) (d) stipulates that “(1) A municipality’s integrated development must at least identify-

“(d) all known projects, plans and programmes to be implemented within the municipality by any organ of state.”

In line with above, a chapter on this document deals extensively with projects that the Sector Departments of the province will implement within the MLM area. The above are clearly the key planning assumptions for MLM in the development of its IDP. This is a progressive planning rationale and is based on a clear legislative framework to ensure consistency and an enhanced quality of the IDP. This planning rationale is underpinned by the principle of Co-operative Governance as entrenched in the Constitution of the Republic of South Africa, 1996.

4.4.1 The value of Planning Alignment

Avoid Duplication of Initiative

MLM’s IDP must ensure that cognisance is given to the relevant Sector Departments and respective strategies and plans. The IDP must be based on and aligned with all plans of relevant Sector Departments with resource allocations at their respective levels. The powers and functions of the different spheres of government are the means to avert duplication and funding related to those initiatives.

Ensure efficient utilisation of limited resources

Aligned plans ensure that resources are creatively harnessed and, as such, a lot more is achieved than would have had there been a piecemeal approach. Both the IDPs of Fezile Dabi District and Mafube Local Municipalities should serve as a platform for all the spheres of government to converge and define the development path of the District in general and more specifically the Mafube Municipal area. The two main funding sources for the IDP would be the conditional and unconditional grants, and the Provincial and National Governments’ financial interventions. The latter is very important and this suggests that the alignment of planning instruments in the different spheres of government should allow for impact to be maximised by ensuring that limited resources are efficiently utilised.

4.4.2 Sector Plans

1. Introduction

This section demonstrates how sector plans relate to one another and each sector plan's strategic interventions that will be undertaken to make sure that the municipality broadly delivers service according to the strategic orientation of each such plan.

2. IDP and integration process

The Municipal Systems Act provides that municipalities should undertake an integrated development planning process that integrates all sectors' strategies, programmes and projects to promote integrated development in communities.

This IDP therefore serves as a mechanism to facilitate integrated and coordinated delivery within the locality. It also seeks not only to mention projects that would be implemented by other government spheres within the municipality where applicable, but also demonstrate a linkage with other programmes.

Therefore, the purpose of this section is to:

- Discuss critical sector plans and their significance;
- Demonstrate the sequence and relationship of the sector plans; and
- Outline the process to ensure proper integration.

3. Sector plans and integrated development

At the core of the new system of local government is the ability of municipalities to coordinate and integrate programmes of other government spheres and sectors implemented in their space. This role is very critical given that all government programmes and services are delivered in municipal spaces. In this regard, the integrated development planning process becomes a vehicle to facilitate integrated development and ensure that local government outcomes contained in the White Paper on Local Government are attained.

The national government, through legislation and policies, express government priorities, strategies, plans and programmes. The legislation and policies also require municipalities to develop sector-specific plans to guide the rendering of certain services.

For the purpose of this IDP these sector plans are grouped into two main categories, namely sector plans providing overall development vision of the municipality and sector plans that are service oriented.

4. Sector plans providing for the overall developmental vision of the municipality:

Most of these sector plans provide socio-economic vision and transformation vision of the municipality, they are mandatory as required by the Municipal Systems Act. In terms of the MSA the following sector plans must be part of the IDP:

- Spatial Development Framework (SDF);
- Local Economic Development Plan (LED Plan);
- Disaster Management Plan;
- Institutional Plan; and
- Financial Plan.

The table below provides an overview of existence and the status of these sector plans:

Table 61: Status of sector Plan

Description of the Plan	Available?	Approved by Council? (Yes/No)	Period Approved
Spatial Development Framework (SDF)	Yes	Yes	2012/13
Local Economic Development Plan (LED Plan)	Yes	Yes	2015/16
Disaster Management Plan	No	No	
Institutional Plan	No	No	
Financial Plan	No	No	

5. Sector plans provided for and regulated by sector-specific legislation and policies:

Various national legislations and policies provide for the development of service delivery related sector plans to regulate and guide the delivery of certain services in municipalities. These plans include amongst others:

- Water Services Development Plan (WSDP).
- Integrated Waste Management Plan (IWMP).
- Integrated Transport Plan (ITP).
- Environmental Management Plan (EMP).
- Integrated Human Settlement Plan (IHS) / Housing Sector Plan (HSP).
- Integrated Energy Plan (IEP).
- Sports and Recreation Plan, etc.

The table below provides an overview of existence and the status of these sector plans within the municipality:

Table 62: Status of other sector Plan

Description of the Plan	Available?	Approved by Council? (Yes/No)	Period Approved
Water Services Development Plan (WSDP)	Yes	Ye	2020/21
Water conservation and demand management plan	Yes	Yes	2019/20
Water services master plan	Yes	Ye	2020/21
Integrated Waste Management Plan (IWMP)	Yes	Yes	2014/15
Integrated Transport Plan (ITP)	No	No	
Environmental Management Plan (EMP)	No	No	
Integrated Human Settlement Plan (IHS) / Housing Sector Plan (HSP)	Yes	No	
Integrated Energy Plan (IEP).	No	No	
Sports and Recreation Plan, etc.	No	No	

The two categories provide strategies, programmes and projects that form the basis for an IDP and budget. The section below outlines the relationship and hierarchy of various plans.

6. Hierarchy of sector plans

The first step to integrating sector plans is to understand the role of sector plans and establish how they relate to one another in an integrated development planning process. This relationship demonstrates how an integrated approach can contribute in achieving the outcomes of developmental local government.

What needs to be indicated is that sector plans should not be developed in isolation of one another, but there must be a sequential way of developing them. The development of these plans requires cooperation among various units in the municipality so that linkages are identified to ensure that service-specific plans contribute to the long-term vision of the municipality. In this regard, the sector plans can be arranged into five levels as follows:

Level 1- Spatial Vision, Spatial Development Framework (SDF)

The SDF is a master development plan that provides the overall long-term development vision of a municipality. Given that the SDF is a long-term plan, it forms the basis for developing a five-year IDP.

Level 2 - Social, Economic and Environmental Vision

The social, economic and environmental vision of a municipality is represented in the Integrated Human Settlement Plan (IHSP), Local Economic Development Plan (LEDP) and Environmental Management Plan (EMP). The three plans provide a pillar for attaining the objective of a sustainable development in a municipality. Ideally, the development of the three plans should follow the development of an SDF.

Level 3 - Input Sector Plans

The third level of the plans constitutes of input sector plans which are directed at the delivery of specific services. These plans, also referred to as service-oriented plans, are developed to provide specific services such as water; waste management; sports and recreational facilities; and many more. This includes plans such as Water Services Development Plan, Integrated Waste Management Plan, Integrated Transport Plans, Integrated Energy Plans, Sports and Recreations Plan, etc. This set of plans support the vision and strategic intent of level 2 sector plans

Level 4 - Strategy Support Plans

At this level the municipality develops plans that support implementation of level 2 and 3 plans. Some of such plans are the Disaster Management Plan (Risk Reduction Management) and Integrated Comprehensive Infrastructure Plan. These plans inform and are informed by plans in the previous levels.

Level 5 - Implementation Support Plans

In order to ensure that organisational capability and financial resources to fund programmes and strategies exist to support the achievement of the vision, two plans area critical: Institutional Plan and Financial Management Plan.

The Institutional Plan outlines how the municipality organizes; structure itself and establish systems and processes to support the attainment of the municipal vision. This plan is developed after considering the vision, strategies, programmes, projects and operational requirements of a municipality as per the various plans above. When developing the Institutional Plan, a municipality should take into account the following guiding principles:

- The Institutional Plan should consider the capacity requirements to support the implementation of programmes and projects in the IDP.
- The plan must provide for all key systems, processes and structures to support governance and operational efficiency.

For a municipality to implement various plans as outlined, it requires financial resources. A Financial Plan would, after considering the financial implications, outline strategies that would assist a municipality to raise and manage financial resources to support the realization of its vision.

7. Alignment Procedure to be followed

The Municipal Systems Act states and requires that development strategies must be aligned with national and provincial sector plans as well as their planning requirements. It also establishes that a single inclusive and strategic plan must be adopted which links, integrates and coordinates plans. This municipality acknowledges and recognizes the importance of ensuring alignment between its IDP, various sector departments' plans and the Fezile Dabi District Municipality IDP.

Furthermore, the introduction of District Service Delivery Model compels and encourages local and district municipalities to develop a One Plan which is a long term strategic plan covering 25 to 30-year horizon to guide the investment and corresponding development in a district. It is envisaged that the District One Plan will be reviewed every 5 years in line with local government electoral cycles and the development of the 5 year IDP.

It also realized that proper and effective alignment would result in successful implementation of the planning outcome, whilst a failure to align might result in waste of resources and a total collapse of the implementation of the IDP. More information on alignment is available hereunder in the IDP alignment Framework Plan below:

Table 63: Phases of alignment procedure

Phases	Strategic Input/Outcome
Phase 1: Preparation Phase	<ul style="list-style-type: none"> Reflection on information available at all levels, joint local and district spatial analysis, progress on previous commitments, confirm/change strategic direction of development in line with FSGDS and NDP
Phase 2: Consultation Phase	<ul style="list-style-type: none"> Strategic discussion based on information from phase 1- decisions on where investment would go or not, trade-offs. Indicative budgets (municipality & sectors) and programmes based on consultation process with communities.
Phase 3: Drafting Phase	<ul style="list-style-type: none"> Sectors embark on strategic sessions and feed local analysis into sector strategic plans. Working sector commitments into draft IDP.
Phase 4: Adoption Phase	<ul style="list-style-type: none"> Sectors confirm commitments (verify budgets) made in consultation phase. Final adopted IDP becomes true integration of government action in the municipal area

Mafube L. M Integrated Development Planning (IDP Review 2023-2024)

	National 12 Key Outcomes	National: NDP	Provincial: Vision 2030	Fezile Dabi District Municipality One Plan	Local: MLM IDP
1	Improved quality of basic education	Improving education and training	Education, innovation and skills development		Improved Organisational Cohesion and effectiveness
2	A long and healthy life for all South Africans	Providing quality health care	Improved quality of life		Broaden access and improve quality of municipal services.
3	All people in South Africa are and feel safe	Transforming society and uniting the nation	Building Social Cohesion.	Building a Capable State	Promote a culture of participatory and good governance.
4	Decent employment through inclusive growth path	Creating jobs and livelihoods	Inclusive Economic Growth and Sustainable job creation.	Ensure an enabling economic environment exists for the thriving private Sector with the aim of the Job Creation	Create an environment that promotes the development of the local economy and facilitate job creation
5	A skilled and capable workforce to support an inclusive growth path	improving education and training	Education, innovation and skills development	Skills development directed to support the local economy	Improved Organisational Cohesion and effectiveness
6	An efficient, competitive and responsive economic infrastructure network	Transitioning to a low-carbon economy	Inclusive Economic Growth and Sustainable job creation.	Regulatory changes, a supportive policy environment and enabling conditions for ease of doing business	Create an environment that promotes the development of the local economy and facilitate job creation
7	Vibrant, equitable and sustainable rural communities	Transforming urban and rural spaces	Sustainable Rural Development	To provide better living conditions, tenure security and	Build united non-racial, integrated and safer

National 12 Key Outcomes	National: NDP	Provincial: Vision 2030	Fezile Dabi District Municipality One Plan	Local: MLM IDP
11			Economic Integration and further integration into the Provincial and National Space	
12		Good Governance	Social Compacting	To improve overall financial Management by developing and implementing appropriate financial management policies, procedures and systems

KPA1: Basic Service Delivery & Infrastructure Development

Pre-Determined Objectives				k / Alignment With Strategic Outcome Oriented Goal	
IDP	Strategic Objective	Objective Statement	Justification	Goal No.	Goal Description
	To ensure that the municipality broadly delivers services according to the strategic orientation based on key sector plans.	Ensure that the municipality undertakes integrated development planning process that integrates all sectors' strategies, programmes and projects to promote integrated development in communities.	This objective about ensuring integration and timely planning and delivery of infrastructure and amenities, maintenance and upkeep, including appropriation of budgets to within a structured integrated development planning process and framework.	2	To ensure the provision of services to communities in a sustainable manner.

	To ensure universal access to reliable and quality basic municipal services by all communities.	Ensure consistent delivery of municipal services of the right quality and standard.	This objective is about extending reach of basic service by communities and ensuring rapid response to any service failures	2	To ensure the provision of services to communities in a sustainable manner.
	To build environmental sustainability and resilience	To enhance the resilience of people and the economy to climate change.	Protect the natural environment in all respects, leaving subsequent generations with at least an endowment of at least equal value.	4	To promote a safe and healthy environment.

KPA2: Local Economic Development

Pre-Determined Objectives				Link / Alignment With Strategic Outcome Oriented Goal	
IDP	Strategic Objective	Objective Statement	Justification	Goal No.	Goal Description
	To create a conducive environment for improving local economic development.	Ensure a LED strategy that is aligned with national and provincial goals so as to ensure a coherent policy framework that serves as the basis for identification and implementation of key LED initiatives so as to unlock the economic potential of the municipality and attract direct investment into the locality.	This objective enables putting measure in place to create an enabling environment for local economic development to stimulate competitive, inclusive and sustainable economies and integrating and densifying communities so as to improve sustainability and thereby positioning the municipality as the economic hub of the province	3	To promote social and economic development.

	To use the municipality's buying power to advance economic empowerment of SMMEs and Cooperatives.	Through procurement planning and within prescribed policies and directives, use the municipality's procurement power to empower SMMEs and Cooperatives.	This objective will ensure support of SMMEs and Cooperatives sectors so as to continue to preserve and create more jobs and job opportunities.	3	To promote social and economic development.
	To maximise on the tourism potential of the municipality.	Identify and pursue tourism related initiatives as an important platform to inject into the local economy	This objective is about maximising on the tourism potential of the municipality as another means to boost the local economy.	3	To promote social and economic development.

KPA3: Financial Management & Viability

Pre-Determined Objectives				Link / Alignment With Strategic Outcome Oriented Goal	
IDP	Strategic Objective	Objective Statement	Justification	Goal No.	Goal Description
	To ensure financial management practices that enhance financial viability & compliance with the requirements of MFMA, relevant regulations and prescribed Treasury norms and standards	Plan, implement, monitor and report on financial management activities in accordance with MFMA, its associated regulations and prescribed accounting norms and standards.	This objective will ensure implementation of sound financial management practices and functional financial management systems which include rigorous internal controls.	1	To provide democratic and accountable government for local communities.

KPA4: Municipal Transformation and Institutional Development

Pre-Determined Objectives				Link / Alignment With Strategic Outcome Oriented Goal	
IDP	Strategic Objective	Objective Statement	Justification	Goal No.	Goal Description
	To capacitate and empower workforce.	Ensure skills development, training and capacity building for councilors and municipal officials.	This objective is to ensure capacitation of officials and councillors so that they are able to deal with the challenges of local governance as well as ensuring that scarce skills are addressed.	1	To provide democratic and accountable government for local communities.
	To ensure sound labour relations so as to minimise labour disputes and disruptions.	To ensure that municipal management to conduct regular engagements with labour and ensure compliance with Collective Agreements, Basic Conditions of Employment Act, Labour Relations and & institutional policies pertaining to labour relations.	This objective is to ensure that there are sustained platforms to engage organised labour to minimise disputes and disruptions	1	To provide democratic and accountable government for local communities.

Mafube L. M Integrated Development Planning (IDP Review 2023-2024)

	To improve the administrative capability of the municipality.	To ensure building capable institutions and administration.	This objective is about ensuring that the municipality is governed well and conduct its business responsibly and within the framework of prescribed laws and regulations.	1	To provide democratic and accountable government for local communities.
	To build a risk conscious culture within the organisation.	Ensure effective risk mitigation for all known, assessed and registered risks.	This objective is to ensure that the municipality is proactively aware and recognizes the risks that it is faced with so s to proactively plan for mitigation of such risks.	1	To provide democratic and accountable government for local communities.
	To ensure development of legally compliant and credible IDP.	Ensure that the municipality's IDPs incorporate communities and stakeholders views and inputs and that they are prepared in accordance with the prescribed framework.	This objective will ensure coordinated approach to planning, implementation, monitoring, review and reporting.	5	To provide democratic and accountable government for local communities.

KPA5: Good Governance and Community Participation

Pre-Determined Objectives				Link / Alignment With Strategic Outcome Oriented Goal	
IDP	Strategic Objective	Objective Statement	Justification	Goal No.	Goal Description
	To ensure transparency, accountability and regular engagements with communities and stakeholders.	Enable Political Office Bearers and Councillors advance transparency and accountability by reporting back to communities and stakeholders on a regular basis.	This objective will ensure that social distance between public representatives and communities and stakeholders is eliminated	5	To encourage the involvement of Communities and community organisations in the matters of local government.
	To ensure that ward committees are functional and interact with communities continuously.	Utilise the Ward Committees and Ward Councillors to communicate projects earmarked for implementation.	This objective ensures implementation of community engagement plans through ward committees targeting hotspots and potential hotspots areas.	5	To encourage the involvement of Communities and community organisations in the matters of local government.
	To ensure that ordinary council meetings are held regularly to consider and endorse reports	To enable the Council to meet its governance obligations to ensure that actual delivery of basic services is being undertaken.	This objective will ensure that the council remains fully functional and focused on performing oversight over administration for the benefit of the community	1	To provide democratic and accountable government for local communities.

	To ensure that all council committees (s 79 committees) sit regularly and process items for council decisions.	To enable Council Committees to meet its governance obligations and ensure that actual delivery of basic services is being undertaken.	This objective will ensure that council committees remain fully functional and focused on performing oversight over administration for the benefit of the community.	5	To provide democratic and accountable government for local communities.
	To ensure functional governance structures.	Ensure that the Internal Audit Unit as well as the Risk Management Unit prepares their annual plans for approval by the Audit Committee prior to the commencement of the financial year and ensure that related reports are compiled and submitted to the Audit Committee and Risk Committee quarterly.	This objective will ensure that the regulatory governance structures of the council are functional and focused on performing oversight to support and inform council decisions on various governance matters at the administrative level.	1	To provide democratic and accountable government for local communities.
	To promote Intergovernmental Relations amongst stakeholders.	Comply with and uphold the principles of co- operative government and intergovernmental relations at all appropriate levels.	This objective will enable the municipality to actively play a role in advancing and participating intergovernmental relations endeavors at various levels.	5	To provide democratic and accountable government for local communities.

	<p>To ensure that Councillors fulfil their duties and obligations towards communities on a continuous basis.</p>	<p>To ensure that the Speaker exercise appropriate oversight on how they serve the communities</p>	<p>This objective will ensure that Councillors are able to report on their activities to the Speaker on a monthly basis.</p>	<p>5</p>	<p>To encourage the involvement of communities and community organisations in the matters of local government.</p>
	<p>To ensure that there is a coherent approach in the municipality in dealing with HIV/AIDS and TB</p>	<p>To ensure cohesive processes and structures to help co- ordinate programmes to tackle HIV/AIDS and TB and the provision of support to those most affected.</p>	<p>This objective will ensure that the municipality's planning and projects take account of HIV/AIDS and TB and their consequences to the municipality and the community.</p>	<p>5</p>	<p>To encourage the involvement of communities and community organisations in the matters of local government.</p>
	<p>To implement special programmes aimed at the needs of vulnerable groups and youth within the community.</p>	<p>To ensure support for vulnerable groups, youth and children to restore and rebuild their lives through improved access to information, services, etc.</p>	<p>This objective will ensure that women, orphans, disable people, youth and school children's needs are recognised and properly and properly addressed through dedicated special programs.</p>	<p>5</p>	<p>To encourage the involvement of Communities and community organisations in the matters of local government.</p>

KEY DELIVERIES OVER THIS FINANCIAL YEAR 2023-2024

1. Office of the Mayor

Table 64: strategic plan of the office of the Mayor

National Outcome		A responsive and accountable, effective and efficient local government system									
NDP Objective		Developing a capable and developmental state									
Provincial Strategic Objective		Efficient administration and good governance									
Pre-determined IDP Objective		Promote a culture of participatory and good governance									
Municipal Strategic Priority		To ensure that all key municipal stakeholders are engaged									
Key Performance Area	Planning Statement	Programme	Unit of Measure	Key Performance Indicator	Pre-Determined Evidence	Baseline Indicator	Annual Target	Planned Quarterly Targets			
								Quarter 1	Quarter 2	Quarter 3	Quarter 4
Good Governance and public participation	To implement youth development programmes	Special Programmes	Number	Number of youth development forum meetings held	Invitations, Attendance Registers and Pictures	0	4	1	1	1	1
Good Governance and public participation	To implement HIV&AIDS programmes	Special Programmes	Number	Number of HIV& AIDS council meetings held	Invitation, Attendance Register and Minutes	0	4	1	1	1	1
Good Governance and public participation	To implement HIV&AIDS programmes	Special Programmes	Number	Number of programmes held for Woman, Children and People with disability	Invitation, Attendance Register and Report	0	4	1	1	1	1

2. Office of the Speaker

Table 65: strategic plan of the office Speaker

National Outcome		A responsive and accountable, effective and efficient local government system									
NDP Objective		Developing a capable and developmental state									
Provincial Strategic Objective		Efficient administration and good governance									
Pre-determined IDP Objective		Promote a culture of participatory and good governance

Good Governance and Public Participation	Performance and monitoring	Performance Appraisals	Number	Performance Assessments conducted	Assessment reports	0	4	1	1	1	1

3.3 Unit/Department: Internal Audit

National Outcome		A responsive and accountable, effective and efficient local government system									
NDP Objective		Developing a capable and developmental state									
Provincial Strategic Objective		Efficient administration and good governance									
Pre-determined IDP Objective		Promote a culture of participatory and good governance									
Municipal Strategic Priority		To ensure a fully functional Audit Unit									
Key Performance Area	Planning Statement	Programme	Unit of Measure	Key Performance Indicator	Pre-Determined Evidence	Baseline Indicator	Annual Target	Planned Quarterly Targets			
								Quarter 1	Quarter 2	Quarter 3	Quarter 4
Good Governance and Public Participation	ensured that sound governance processes are developed and maintained	Internal Audit	Number	Audit committee reports submitted to Council	Audit Committee Report Agenda	0	4	1	1	1	1
Good Governance and Public Participation	ensured that sound governance processes are developed and maintained	Internal Audit	Number	Audit committee meetings held per annum	Agendas Attendance registers Minutes of the AC Meetings	0	4	1	1	1	1
Good Governance and Public Participation	ensured that sound governance processes are developed and maintained	Internal Audit	Number	Quarterly internal audit reports submitted to Audit Committee for implementation of internal audit plan	Agendas Attendance registers Minutes of the AC Meetings	0	4	1	1	1	1

3.4 Unit/Department: Risk Management

National Outcome		A responsive and accountable, effective and efficient local government system									
NDP Objective		Developing a capable and developmental state									
Provincial Strategic Objective		Efficient administration and good governance									
Pre-determined IDP Objective		Promote a culture of participatory and good governance									
Municipal Strategic Priority		To ensure a fully functional Audit Unit									
Key Performance Area	Planning Statement	Programme	Unit of Measure	Key Performance Indicator	Pre-Determined Evidence	Baseline Indicator	Annual Target	Planned Quarterly Targets			
								Quarter 1	Quarter 2	Quarter 3	Quarter 4
Good Governance and Public Participation	Risk Management	ensured that sound governance processes	Number	Number of Risk Registers updated	Risk Register per directorate and attendance register	0	4	1	1	1	1
Good Governance and Public Participation	Ensured that sound governance processes	Risk Management	Number	Risk committee meetings held.	Invitation, attendance register and minutes	0	4	1	1	1	1
Good Governance and Public Participation	Ensured that sound governance processes	Risk Management	Number	Risk committee Reports, submitted to the Audit Committee	Reports and Audit Committee Minutes	0	4	1	1	1	1
Good Governance and Public Participation	Ensured that sound governance processes	Risk Management	Number	Workshops/Trainings for Risk Champions on risk management	Invitation, Attendance Register, and Minutes	1	2	0	0	1	1

3.5 Unit/Department: Communication

National Outcome		A responsive and accountable, effective and efficient local government system										
NDP Objective		Developing a capable and developmental state										
Provincial Strategic Objective		Efficient administration and good governance										
Pre-determined IDP Objective		Promote a culture of participatory and good governance										
Municipal Strategic Priority		To ensure a fully functional Audit Unit										
Key Performance Area	Planning Statement	Programme	Unit of Measure	Key Performance Indicator	Pre-Determined Evidence	Baseline Indicator	Annual Target	Planned Quarterly Targets				
								Quarter 1	Quarter 2	Quarter 3	Quarter 4	
Good Governance and Public Participation	To promote positive Corporate Image and identity	Corporate communications	Number	Communications policy approved by council.	Approved policy and council resolution	1	1	0	0	0	1	
Good Governance and Public Participation	To ensure transformation of public service delivery of government at all levels and how rights will be upheld.	Batho Pele and public participation	Number	Number of Batho Pele service standards and Charter developed and approved by council.	Batho-Pele service charter and council resolution	1	1	0	0	0	1	

4. Directorate: Office of the Chief Financial Officer

Table 67: strategic plan of the office of the Chief Financial Officer

4.1 Unit/Department: Revenue

National Outcome		A responsive and accountable, effective and efficient local government system									
NDP Objective		Developing a capable and developmental state									
Provincial Strategic Objective		Efficient administration and good governance									
Pre-determined IDP Objective		Effective collection of revenue									
Municipal Strategic Priority		To ensure the effective and efficient management of municipal revenue and cash-flow according to national norms and standards									
Key Performance Area	Planning Statement	Programme	Unit of Measure	Key Performance Indicator	Pre-Determined Evidence	Baseline Indicator	Annual Target	Planned Quarterly Targets

Municipal Financial Viability and Management	To implement efficient and effective expenditure management	Expenditure management	Number	Number of Statutory deductions submitted to SARS,	EMP 201 and the statement from SARS	12	12	3	3	3	3
Municipal Financial Viability and Management	To implement efficient and effective expenditure management	Expenditure management	Percentage	Percentage reconciled creditors	Report from E-Venus system	20%	50%	50%	50%	50%	50%

4.3 Unit/Department: Supply Chain Management

National Outcome		A responsive and accountable, effective and efficient local government system									
NDP Objective		Developing a capable and developmental state									
Provincial Strategic Objective		Efficient administration and good governance									
Pre-determined IDP Objective		To improve overall financial management by developing and implementing appropriate financial management policies, procedures and systems									
Municipal Strategic Priority		To implement an effective and efficient system of supply chain management									
Key Performance Area	Planning Statement	Programme	Unit of Measure	Key Performance Indicator	Pre-Determined Evidence	Baseline Indicator	Annual Target	Planned Quarterly Targets			
								Quarter 1	Quarter 2	Quarter 3	Quarter 4
Municipal Financial Viability and Management	To ensure procurement of Goods and services	Supply Chain Management	Number	Number of procurement plan developed.	Approved consolidated procurement plan and council resolution	1	1	0	0	0	1
Municipal Financial Viability and Management	To ensure procurement of Goods and services.	Supply Chain Management	Number	Number of Chain Management Policy reviewed and approved by Council.	Approved Supply Chain Management Policy and Council resolution	1	1	0	0	0	1
Municipal Financial Viability and Management	To ensure procurement of Goods and services.	Supply Chain Management	Number	Number of stock takes conducted	Stock count sheets, Variance report, adjustments reports	2	4	1	1	1	1
Municipal Financial Viability and Management	To ensure procurement of Goods and services.	Supply Chain Management	Number	Number of quarterly updates on suppliers database	Updated Database register	1	4	1	1	1	1

4.4 Unit/Department: Budget

National Outcome		A responsive and accountable, effective and efficient local government system									
NDP Objective		Developing a capable and developmental state									
Provincial Strategic Objective		Efficient administration and good governance									
Pre-determined IDP Objective		To improve overall financial management by developing and implementing appropriate financial management policies, procedures and systems									
Municipal Strategic Priority		To ensure that the municipal budget and financial reporting processes are compliant with applicable legislation									
Key Performance Area	Planning Statement	Programme	Unit of Measure	Key Performance Indicator	Pre-Determined Evidence	Baseline Indicator	Annual Target	Planned Quarterly Targets			
								Quarter 1	Quarter 2	Quarter 3	Quarter 4
Municipal Financial Viability and Management	To ensure implementation of sound financial management practices	Budget and reporting	Number	Budget compiled and submitted to council for adoption	Council resolution	1	1	0	0	0	1
Municipal Financial Viability and Management	To ensure that required reporting is completed within the required timelines	Budget and reporting	Number	Number of section 52 (d) submitted to Council	Council resolution	4	4	1	1	1	1
Municipal Financial Viability and Management	To ensure implementation of sound financial management	Budget and reporting	Number	Number of Mid-year Budget and Performance Assessment reports submitted	Council resolution	1	1	0	0	1	0

4.5 Unit/Department: Assets Management

National Outcome		A responsive and accountable, effective and efficient local government system									
NDP Objective		Developing a capable and developmental state									
Provincial Strategic Objective		Efficient administration and good governance									
Pre-determined IDP Objective		To improve overall financial management by developing and implementing appropriate financial management policies, procedures and systems									
Municipal Strategic Priority		To ensure that the municipal budget and financial reporting processes are compliant with applicable legislation									
Key Performance Area	Planning Statement	Programme	Unit of Measure	Key Performance Indicator	Pre-Determined Evidence	Baseline Indicator	Annual Target	Planned Quarterly Targets			
								Quarter 1	Quarter 2	Quarter 3	Quarter 4
Municipal Financial Viability and Management	To ensure that required reporting is completed within the required timelines.	Assets Management	Percentage	Percentage Fixed Asset Register (FAR) compiled and updated annually in line with GRAP requirements	Quarterly update of fixed asset register in line with GRAP	0%	100%	100%	100%	100%	100%
Municipal Financial Viability and Management	To ensure that required reporting is completed within the required timelines.	Assets Management	Number	Number of updates completed on the asset register	Assets register	1	4	1	1	1	1
Municipal Financial Viability and Management	To ensure that required reporting is completed within the required timelines.	Assets Management	Number	Number of verifications conducted on the asset register	Assets verification report	0	2	0	1	0	1

4.6 Unit/Department: Financial Accounting

National Outcome		A responsive and accountable, effective and efficient local government system									
NDP Objective		Developing a capable and developmental state									
Provincial Strategic Objective		Efficient administration and good governance									
Pre-determined IDP Objective		To improve overall financial management by developing and implementing appropriate financial management policies, procedures and systems									
Municipal Strategic Priority		To ensure effective and efficient management of municipal revenue and cash-flow according to national norms and standards									
Key Performance Area	Planning Statement	Programme	Unit of Measure	Key Performance Indicator	Pre-Determined Evidence	Baseline Indicator	Annual Target	Planned Quarterly Targets			
								Quarter 1	Quarter 2	Quarter 3	Quarter 4
Municipal Financial Viability and Management	To ensure that required reporting is completed within the required timelines.	Reporting	Number	Number of GRAP compliant Annual Financial Statements compiled and submitted to AG	Acknowledgement letter from AG	1	1	1	0	0	0
Municipal Financial Viability and Management	To ensure that required reporting is completed within the required timelines.	Reporting	Number	Number of Action plan to address AG findings compiled and submitted	Action plan	1	1	0	0	1	0

5. Directorate: Corporate Services

Table 68: strategic plan of the office of Corporate Services

5.1 Unit/Department: Legal, Administration, Record Management and Facilities Management

National Outcome		A responsive and accountable, effective and efficient local government system									
NDP Objective		Developing a capable and developmental state									
Provincial Strategic Objective		Efficient administration and good governance									
Pre-determined IDP Objective		Promote a culture of participatory and good governance									
Municipal Strategic Priority		To facilitate the optimal functioning of council									
Key Performance Area	Planning Statement	Programme	Unit of Measure	Key Performance Indicator	Pre-Determined Evidence	Baseline Indicator	Annual Target	Planned Quarterly Targets

CHAPTER 5: FINANCIAL STRATEGY AND PLAN

5.1 EXECUTIVE SUMMARY

The Draft 2023 / 2024 Medium Term Revenue and Expenditure Framework (MTREF) Budget deals with the operating budget and tariff proposals as well as the capital budget and funding sources proposals to ensure that Mafube Local Municipality render services to local community in a financially sustainable manner.

The application of sound financial management principles for the compilation of Mafube's Long-Term Financial Plan is essential and critical to ensure that the municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

The MTREF Budget Report starts with a discussion of the legislative requirements to which the Municipality must adhere to, the MFMA budget circulars with directives issued by National Treasury and the key budget projections for the next three financial years based on these documents and assumed economic trends. A high level summary of the operating and capital budgets as well as a discussion on the long-term financial sustainability of Mafube will follow with appropriate recommendations. Supporting information in the form of appendices and tables will form part of this report.

5.2 LEGISLATION

In terms of section 24 of the MFMA the municipal council must at least 30 days before the start of the budget year consider approval of the Annual budget. (2) An annual budget:

- a. must be approved before the start of the budget year;
- b. is approved by the adoption by the council of a resolution referred to in section 17(3)(a.)(i) and
- c. must be approved together with the adoption of resolutions as may be necessary;
 - i. Imposing any municipal tax for the budget year;
 - ii. Setting any municipal tariffs for the budget year;
 - iii. Approving measurable performance objectives for revenue from each
 - iv. Approving any changes to the municipality's integrated development plan
 - v. Approving any changes to the municipality's budget-related policies.

The annual budget is prepared taking into consideration the contents of Section 25 of the Local Government: Municipal Finance Management Act, 56 of 2003 which provides guidance on failure to adopt an annual budget before the start of the budget period.

The accounting officer of a municipality must submit the approved annual budget to the National Treasury and the relevant provincial treasury in both printed and electronic formats.

5.3 MFMA CIRCULARS

When compiling an annual budget in terms of legislation the budget circulars from National Treasury must also be taken into consideration. MFMA Circular No 122 and 123 will now be discussed.

National Treasury issued two budget circulars:

- MFMA Budget Circular No 122 issued during December 2022
- MFMA Budget Circular No 123 issued in March 2023.

Both the above circulars deal with the key focus areas for the 2023 / 2024 budget process:

- Local Government Conditional Grants allocations;
- Division of Revenue Bill 2023 which sheds light on changes to local government allocations in respect of grants and subsidies.

The R6.2 billion in direct conditional grants is funded from the Budget Facility for Infrastructure (BFI) and is broken down as follows:

- R2.2 billion added to the Urban Settlements Development Grant to fund the implementation of projects in the eThekweni Metropolitan Municipality and the City of Johannesburg;
- R461 million added to the Public Transport Network Grant to align funding with the revised implementation plan and cash flow projections for the City of Cape Town's MyCiTi public transport network project; and
- R3.4 billion added to the Regional Bulk Infrastructure Grant to fund 3 water projects in Sol Plaatje Local Municipality, Drakenstein Local Municipality and Nelson Mandela Bay Metropolitan Municipality.

- All of the issues effecting the compilation of our budget to ensure that our anticipated revenue streams and funding sources for our operating and capital budgets are affordable and sustainable were taken into consideration. This was also taken into consideration when the budget related policies were reviewed.

5.4 BUDGET PROJECTIONS

In Table 1 below the budget projection issues are depicted with the last two years actual percentage increases and the assumed next three financial year's increases. Based on the financial framework, financial strategies and financial policies featuring in the Long-Term Financial Plan, the MTREF Budget was compiled. Key assumptions relating to the MTREF Budget also includes the following:

- National government grants for the years 2023 / 2024 to 2025 / 2026 are as per the Division of Revenue Bill (DoRA);
- The headline inflation rate (consumer price index or CPI) is estimated at 5.3% for the 2023 / 2024 financial year. The estimated CPI for the 2024 / 2025 financial year is predicted at 4.9% and is at 4.7% for the 2025 / 2026 period (National Treasury MFMA Circular No 123);

GROWTH PARAMETERS	2022 / 2023	2023 / 2024	2024 / 2025	2025 / 2026
GDP growth	2.3%	2.3%	1.8%	
Headline inflation	6.9%	5.3%	4.7%	4.4%
Property rates		25,077,837.00	26,582,507.00	28,177,457.00
Service charges - water revenue		39,629,826.49	42,007,616.08	44,528,073.05
Service charges - sanitation revenue		15,088,798.57	15,994,126.49	16,953,774.08
Service charges - refuse revenue		14,854,900.00	15,746,194.00	16,690,966.00
Equitable Share		128,231,000.00	137,811,000.00	142,071,000.00
Financial Management Grant		3,100,000.00	3,100,000.00	3,100,000.00
Municipal Infrastructure Grant		26,091,000.00	27,113,000.00	28,179,000.00
Integrated National Electrification Grant		420,000.00	5,400,000.00	5,393,000.00
Water Service Infrastructure Grant		22,000,000.00	10,000,000.00	13,450,000.00

The main challenges experienced during the compilation of the 2022/2023 Adjustment budget can be summarised as follows:

Infrastructure and capital items

- Ageing and poorly maintained water and roads infrastructure;
- A lack of proper maintenance master plans;
- Limited capital projects that can be funded from own funds;
- The need to reprioritise projects and expenditure within the existing limited resources given the cash flow realities;

Increased costs and decreasing margins on trading activities

- Increased prices of goods and services above the inflation rate;

- The increased cost of bulk water (due to tariff increases from DWS), which places constant upward pressure on service tariffs to the community;
- Tariffs are not cost reflective;
- Some private developments and industries receive services direct from Rural maintenance with no direct benefit to the municipality.

Irregular expenditure

- Expired tenders need to be regularised to avoid recurring irregular expenditure.
- The need for every procurement process to be initiated solely by the dedicated SCM Unit so as to further curb this type of expenditure. User departments to cease liaising with and appointing suppliers.

Staffing and personnel costs

- Organisational review – the process was concluded and the reviewed organisational structure has been approved by Council;
- Job evaluation to address disparities on job and post levels;
- Overtime costs in the service delivery departments have sky-rocketed – this requires a minimisation strategy which includes strengthening of internal controls by Heads of Departments;

Distribution losses

- Distribution losses - water and electricity require a minimisation strategy that is practical and implementable;
- Illegal water connections to be addressed and eliminated altogether.

Fleet management

- Fleet management (Cost of hire and repairs) - needs to be addressed;
- Vehicle repairs loss control has to be monitored as there is frequently no paper or audit trail between payments made, parts collection or vehicle repairs, replacement of old parts and storage of old parts and equipment.

Recovery Plan

- Recovery plan was approved by Council as National Treasury indicated that the budget is not fully funded;
- National Treasury took it upon itself to prepare a new FRP that is due to be received by the Municipality during the month of June 2023.

The scourge of the off-set of unspent funds on the Equitable Share

- This has a negative bearing on funding of operations and there is a hindrance in the municipality's ability to meet its financial obligations, further delays capital projects and increases service delivery backlogs;
- This measure is a punitive measure to municipalities in an effort to encourage better planning and wise spending of funds for dedicated purposes;
- The measure is further punitive in terms of service delivery as the funds that would have been withheld would have been earmarked for certain capital projects which, upon withholding of funds, would have to be suspended due to lack of funding.

- This would place pressure on the Municipality to seek 'own' funds to complete the projects and this creates further backlogs.

Non-priority spending

- The municipality needs to move to more community-needs oriented budget and spending and rid itself of unnecessary expenditure that adds no value to service delivery.
- If the municipality is to witness positive change, a lot of selfless sacrifices, particularly in terms of spending, have to be made.
- Municipal officials need to do away with nice-to-have items and equipment or unnecessary spending and realise the main purpose for which local government was formed;
- We need to do away with the "what can the municipality do for me?" and "What is in it for me?" syndrome;
 - We need to take it upon ourselves to restore this municipality's dignity and project a positive image of our institution, this starts with a stern tone from the top;
- Being a public servant comes with so much sense of pride and honour, it is an achievement in itself. We need to do away with personal wishlists and focus more on how better we can turn this tide for the betterment of our communities.
- Our spending priorities have to have a direct impact on service delivery thereby having direct effect on our community, the trail and positive effect of our spending should be witnessed by the public if we are to gear in the right service delivery direction.

Cost containment

- One other dominating factor is the lack of internal controls to curb the wastage that is caused by municipal employees through line items deemed to be necessary for the pursuance of service delivery.
- These items include:
 - Theft or loss of vehicle parts as well as other tools and equipment;
 - Consequence management has to be implemented for employees entrusted with custody of such items and assets including security guards.
 - Municipality to consider outsourcing the security function as the payment of salaries and or wages of security guards currently slightly qualifies for wasteful expenditure;
 - HR to be furnished with theft or loss reports and be requested to implement internal investigations and disciplinary procedures to still take place despite the SAPS closing dockets due to insufficient evidence;
 - Unregulated overtime costs;
 - Overtime, planned or unplanned, has to be strictly monitored. Heads of Departments are urged to device controls to curb wastage.
 - Exceeding of cellphone limits;
 - Cellphones to be soft-locked.
 - Fleet rental;
 - The municipality continues to bleed funds through this activity while further losing funds to the repairs and maintenance of own fleet.
 - Close to R6 million has been spent thus far on rental of fleet, these funds could have funded a transversal contract for acquisition of yellow fleet as was the case in the 2020 / 2021 financial period.

- Fuel consumption and theft;
 - Managers to strictly monitor and sign off on fuel requisitions;
 - Municipality to do away with fuel drums.
 - Events which carry exorbitant catering costs and associated costs (**non-priority**);
 - Events to focus strictly mainly on message, communication, education and content;
 - Events to be limited to few hours only to avoid the need for catering;
 - Avoid centralising events as such events take longer and are costly in terms of transport and catering.
 - During the 2023 / 2024 IDP and Budget Roadshows, community questioned the importance of events held by the municipality and pleaded that funds be reallocated to service delivery programmes.
 - Travelling and accommodation;
 - In instances that require mass attendance from a municipality, encourage travelling in two's and three's in one vehicle or consider virtual platforms. This way, accommodation and travelling costs are minimised;
 - Avoid prior day accommodation bookings for events and meetings that are scheduled for 10h00 and later;
 - Accommodation limitations and rules to be applied consistently across all staff.
 - Personal use of municipal vehicles;
 - Log books to be kept and monitored;
 - Trackers to be installed;
 - Vehicles to be branded.
 - Late coming, absconding and absenteeism;
 - Timesheets to be closely monitored.
 - Sale of personal protective clothing;
 - Such clothing to be engraved with names of employees;
 - The cost of acquiring such items to be deducted from an offending employee's salary.
- The municipality bleeds a lot of money at the hands of its own employees.
 - The frequency of spending

5.5 HIGH LEVEL OPERATING BUDGET SUMMARY

The high level operating budget per vote is set out in Table A4 below. The classifications as per the revised mSCOA government financial statistics votes are used by National Treasury to compare budget trends in local government.

The tabled operating budget depicts an operating surplus of R8.2 million for the 2023 / 2024 financial period as well as a surplus of R8.2 million and R8.5 million rands respectively for the two outer years. The municipality does not anticipate a surplus *per se* over the medium term as the 'surplus' amounts will be utilised to fund the capital expenditure from own funds.

Table A4 below illustrates the projected operating 'surplus' for the budget period as well as those predict over the two outer years.

FS205 Mafube - Table A4 Budgeted Financial Performance (revenue and expenditure)

5.6 SUMMARY OF OPERATING REVENUE AND EXPENDITURE

Anticipated operating revenue for 2023 / 2024 is estimated at R283.1 million, this constitutes a R 26 million increase in comparison with the R256 million from the adjusted budget in the 2022 / 2023 financial period.

Total operating revenue amounts to R 300 million for the 2024 / 2025 and increases by R14 million in the following budget period.

Operating expenditure for 2023 / 2024 has been projected at R 274 million and is further projected at R 292- and R 306 million for the 2024 / 2025 and 2025 / 2026 respectively.

5.7 OPERATING REVENUE FRAMEWORK

For the municipality to continue improving the quality of services provided to its citizens, it needs to generate the required revenue. In these tough economic times strong revenue management is fundamental to the financial sustainability of every municipality. The reality is that we are faced with development backlogs and poverty. The expenditure required to address these challenges will inevitably always exceed available funding; hence difficult choices have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.

The municipality's revenue strategy is built around the following key components:

- National Treasury's guidelines and macro-economic policy;
- Growth in the Municipality and continued economic development;
- Efficient revenue management, which aims to strive to ensure a collection rate above 40% for property rates and other key service charges for the budget period;

The municipality is currently at an average collection rate of 37%, 50% lower than the collection recorded in the previous financial period during this time.

- Achievement of full cost recovery of specific user charges especially in relation to trading services;
- Determining the tariff escalation rate by establishing/calculating the revenue requirement of each service;
- The municipality's Property Rates Policy approved in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA);
- Increase ability to extend new services and recover costs;
- The municipality's Indigent Policy and rendering of free basic services; and
- Tariff policies of the Council.

5.8 SUMMARY OF OPERATING REVENUE BY SOURCE

FS205 Mafube - Table A4 Budgeted Financial Performance (revenue and expenditure)									
Description	Ref	2019/20	2020/21	2021/22	Current Year 2022/23		2023/24 Medium Term Revenue & Expenditure Framework

Property rates

There is an upward adjustment of R 1.4 million on this budget item from R 23.6 million in 2022 / 2023, which leads to a projected figure of R 25 million for the budget period, R26.5 million and R28.1 million is projected for the two outer years respectively.

Service charges

Service charges comprises water, refuse removal, sanitation. The figures for the water service has had an upward adjustment of R 1.5million to R 39.6 million in 2023 / 2024 from 2023's projection of R38.0 million.

The projection for sanitation is at R 15 million which is an increase of R2.0 million from the current financial year's projection of R13.0 million. We project a further R15.9- and R16.9 million for the two indicative year of the medium term.

Collection estimates for the budget period in respect of refuse removal are up by R 841 thousand from the projected billing of R 14.0 million in the 2022 / 2023 financial period. The estimates are forecast at R15.7- and R16.6 million in the 2024 / 2025 and 2025 / 2026 financial periods respectively.

The projection in respect of property rates and service charges are plagued with inconsistencies as they fluctuate throughout the review period in 2022 / 2023 right into the draft budget figures for the 2023 / 2024 budget year due to the fact that the municipality utilised the review period to correct reporting inconsistencies and deficiencies identified in the Section 71 datastrings which include the following:

Operating revenue

The municipality must budget for all own revenue and the allocations in the Division of Revenue Act. The analysis was done in terms of the following items:

- **“Sales of Goods and Rendering of Services**

*The municipality did **NOT** use the mSCOA chart and segments significantly and also:*

- *Transacted against two (2) line-item without budget.*

- **Property Rates**

*The municipality did **NOT** use the mSCOA chart and segments significantly and also:*

- *Transacted against eight (8) line-items without budgets.*
- *Not reported any transactions on five (5) line items.*

- **Service Charges**

*The municipality did **NOT** use the mSCOA chart and segments significantly and used the function segment incorrectly but also:*

- *Transacted against ten (10) line-items without budgets.*
- *Not reported any transactions on four (4) line-items.*
- *Exceeded the budget on one (1) line-item.*

The mSCOA data strings that are submitted by the municipality to the LG Upload Portal are analysed in terms of credibility and accuracy. The analysis looks at the use of the mSCOA chart and segments by the municipality to budget and report on operating and capital revenue and expenditure.”

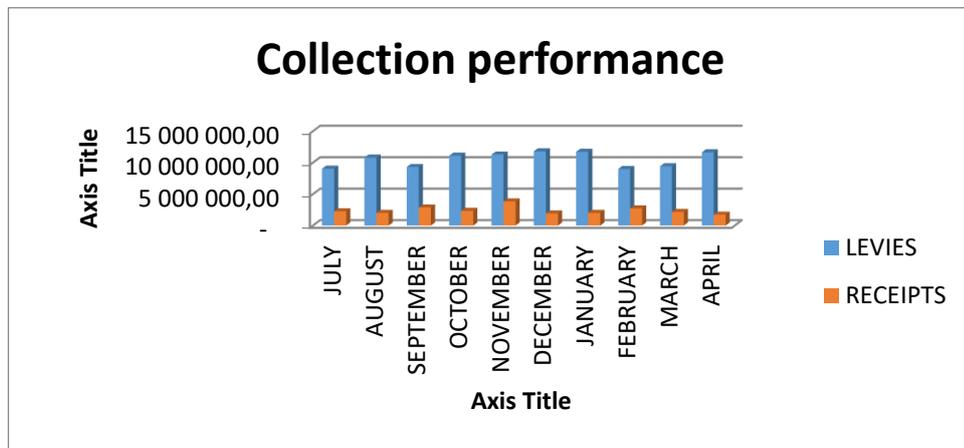

For the reasons stated above, the municipality had to, amongst others, perform adjustments in terms of moving the budget where there are no transactions captured to votes where transactional movements were capture and vice versa, this led to a lot of corrective movements of the budget line items. This exercise remains a continuous year-on-year task as performance and reporting is

a monitored on a monthly basis. The total amount projected for service charges for the budget period totals R 69.5 million.

As prescribed by the Municipal Budget and Reporting Regulations, capital transfers and contributions are excluded from the operating statement, as inclusion of these revenue sources would distort the calculation of the operating surplus/deficit.

The financial sustainability over the MTREF is largely dependent on the collection levels of billed income. Like most municipalities across the country, over recent years, there has really been nothing worth writing home about when it comes to municipalities' ability to collect adequate revenue from services provided for self-sustenance. As can be seen below, for the better part of the 2022 / 2023 financial period, the municipality collected an average monthly revenue of 23%.

REVENUE BILLING VS. COLLECTION

Operating revenue projections

Revenue generated from rates and services charges forms a significant percentage of the own revenue basket for the Municipality. Rates and service charge revenues comprise 33% of the total operating revenue mix with total of R 94.6 million.

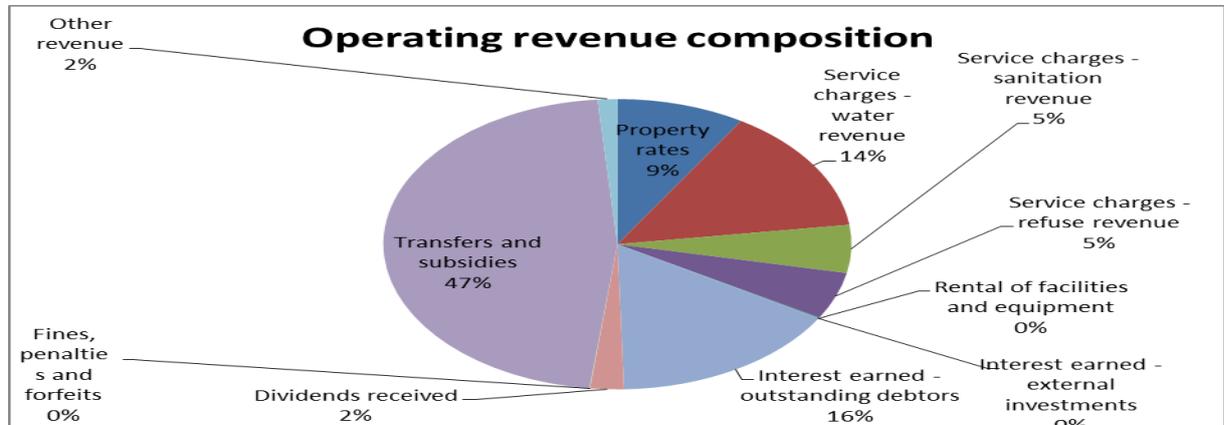

Due to its financial constraints, over the years, the municipality has continued to put heavy reliance on the Equitable Share as a means to fund daily municipal operations for basic service delivery, this is to be expected mainly from rural municipality who record the lowest collection rates due to inhibiting socio-economic factors within their respective jurisdictions.

Despite the Division of Revenue Bill declaring the Equitable Share as the enabling fund for subsidisation of indigents, service delivery and function performance in municipalities, the onus remains on municipalities to optimise the significant revenue-raising powers granted by ensuring that services delivered are self-sufficient by finding a balance between cost recovery and affordability of services rendered, thereby ensuring longevity in financial sustainability.

As can be seen below, the Equitable Share is the dominant source of funding of municipal activities with 47% contribution towards total operating revenue.

Interest on outstanding debtors is at 16% while property rates are at 14%, refuse removal and sanitation service charges each contribute 5% to the operating revenue mix.

Dividends received and other revenue contribute 2% each.

Tariff modelling

National Treasury’s Circular 123 provides that municipalities should set tariffs so as to reflect and recovers costs associated with provision of services.

“Municipalities are always asked to try to balance full cost recovery on services with affordability for their residents. In practice, this means that where the full increase in the cost of a service is not passed on to consumers, municipalities must offset the increased costs through savings identified elsewhere in their operations.”

“While municipalities are urged to maximise efficiency in their operations, tariff setting efforts should consider the need to make additional provision for repairs and maintenance associated with infrastructure breakdowns.....”

“A credible expenditure budget reflects the costs necessary to provide a service efficiently and effectively, namely:

- *A budget adequate to deliver a service of the necessary quality on a sustainable basis; and*
- *A budget that delivers services at the lowest possible cost.”*

Subsequent to the IDP and Budget roadshows, the municipality could not implement the cost reflective tariffs resulting from the concerns raised by the public on how unaffordable the tariffs are.

The municipality has thus taken a resolution to, over the years, gradually add 3% to the 6.5% CPI projections.

Operating Grants

Grants allocation are as per the 2023 / 2024 DoRA published by the National Treasury.

FS205 Mafube - Supporting Table SA18 Transfers and grant receipts										
Description	Ref	2019/20	2020/21	2021/22	Current Year 2022/23			2024/25 Medium Term Revenue & Expenditure Framework		
R thousand		Audited Outcome	Audited Outcome	Audited Outcome	Original Budget	Adjusted Budget	Full Year Forecast	Budget Year 2023/24	Budget Year +1 2024/25	Budget Year +2 2025/26
RECEIPTS:	1, 2									
Operating Transfers and Grants										
National Government:		98,727	122,907	127,227	122,003	122,003	122,003	131,331	140,911	145,171
Local Government Equitable Share		95,847	119,907	96,227	118,903	118,903	118,903	128,231	137,811	142,071
Finance Management		2,880	3,000	31,000	3,100	3,100	3,100	3,100	3,100	3,100
Total Operating Transfers and Grants	5	98,727	122,907	127,227	122,003	122,003	122,003	131,331	140,911	145,171

The Financial Management Grant for the budget year remains the same as in the 2022 / 2023 financial period and this is projected to be the case over the medium term ending 2024 / 2025.

The Equitable Share that is scheduled for transfer in the budget year amounts to R 128.2 million, which is up by R9.3 million from 2023's R 118.9 million.

5.9 SUMMARY OF OPERATING EXPENDITURE FRAMEWORK

The municipality's expenditure framework for the 2023 / 2024 budget and MTREF is informed by the following:

- The asset renewal strategy and the repairs and maintenance plan;
- Balanced budget constraint (operating expenditure should not exceed operating revenue) unless there are existing uncommitted cash-backed reserves to fund any deficit;
- Funding of the budget over the medium-term as informed by Section 18 and 19 of the MFMA;
- The capital programme is aligned to the asset renewal strategy and backlog eradication plan;
- Operational gains and efficiencies will be directed to funding the capital budget and other core services; and
- Strict adherence to the principle of no project plans, no budget. If there is no business plan no funding allocation can be made.

The following table gives a breakdown of the main expenditure categories for the 2023 / 2024 financial year

FS205 Mafube - Table A4 Budgeted Financial Performance (revenue and expenditure)										
Description	Ref	2019/20	2020/21	2021/22	Current Year 2022/23		2023/24 Medium Term Revenue & Expenditure Framework

Employee related costs

In terms of the MFMA: Circular 123 dated *"The Salary and Wage Collective Agreement for the period 01 July 2021 to 30 June 2024 dated 15 September 2021 through the agreement that was approved by the Bargaining Committee of the Central Council in terms of Clause 17.3 of the Constitution should be used when budgeting for employee related costs for the 2023/24 MTREF.*

*In terms of the agreement, all employees covered by this agreement shall receive with effect from 01 July 2023 and 01 July 2024 an increase based on the projected average CPI percentages for 2023 (5.4 per cent according to the Reserve Bank's Monetary Committee Statement for January 2023) and 2024(4.8 per cent according to the Reserve Bank's Monetary Committee Statement for January 2023). The forecasts of the Reserve Bank, in terms of the January 2023 and January 2024, shall be used to determine the projected average CPI. Municipalities are encouraged to perform an annual head count and payroll verification process by undertaking a once-a-year manual salary disbursement, to root out ghost employees*In terms of the agreement, all the employees covered by this agreement shall receive with immediate effect from 01 July 2022 and 01 July 2023 an increase based on the projected average CPI percentages for 2022 and 2023.

The forecasts of the Reserve Bank, in terms of the January 2022 and January 2023, shall be used to determine the projected average CPI.

Municipalities are encouraged to perform an annual head count and payroll verification process by undertaking a once-a-year manual salary disbursement, in order to root out ghost employees."

The municipal employee related costs projections for the MTREF were calculated based on the 6% increment owing to the recent increase of the CPI by 0.7%. The municipality utilised the 6% increment as a base for the calculation of projections for the budget period.

The budgeted allocation for employee related costs for the 2023 / 2024 financial year totals **R 112 million** (excluding Councillors remuneration), this amount constitutes 41% of the total operating expenditure.

Remuneration of Councillors

*"Municipalities are advised to budget for the actual costs approved in accordance with the Government Gazette on the Remuneration of Public Office Bearers Act: Determination of Upper Limits of Salaries, Allowances and Benefits of different members of municipal councils published by the Department of Cooperative Governance. Any overpayment to Councillors contrary to the upper limits as published by the Minister of Cooperative Governance and Traditional Affairs will be irregular expenditure in terms of section 167 of the MFMA and **must be recovered from the councilor(s) concerned.**"*

A portion of Remuneration of Councillors remains subsidised by a portion of the yearly allocation of the Equitable Share scheduled for transfer.

Section 17(3)(k) of the MFMA determines that as part of the budget resolutions the proposed cost to the municipality for the budget year of the salary, allowances and benefits of each political office bearer, Municipal Manager, Chief Financial Officer and senior manager reporting to the Municipal Manager must be disclosed. Since the above-mentioned do not qualify for notch increases an overall increase percentage of 4.8% was used.

Investments

Section 17(3)(f) of the MFMA determines that as part of the budget resolutions, particulars of the municipality’s investments must be disclosed. For the period to the end February 2023, the municipality has the following cash and cash equivalents:

Municipal Investment Portfolio

FS 205 Mafube - Supporting Table SA15 Investment particulars by type

Consolidated total:	7,745	1,857	1,000	1,806	1,500	1,800	1,900

Depreciation

Provision for depreciation and asset impairment has been informed by the Municipality’s Asset Management Policy as well as the GRAP standards. Note that the implementation of GRAP 17 accounting standard has meant bringing a range of assets previously not included in the assets register onto the register.

This year’s depreciation is estimated at R27.7 million, the figure is not based on the CPI inflation targets but is rather more than 50% of what is reflected in the audited Annual Financial Statements.

Finance charges

Finance charges consist primarily of the payment of interest on arrears creditors’ accounts. Municipal revenue and cash flows are expected to remain under pressure due to high balance in Rural maintenance and Eskom debt.

The figures for this item are estimated at R25 million for the 2023 / 2024 financial period, the figure is slightly influenced by the Annual Financial Statements figures as it is slightly at less than 50% of the accrual figure in the Statements.

It must be mentioned though, that in terms of the MFMA Circular 123, *“An optimally designed debt solution for Eskom can leverage the structural reform of the electricity sector that is needed both on the Eskom side and the municipal side, however, the municipal debt owed to Eskom pose a material risk to any Eskom debt relief package. In parallel the challenge of defaulting municipalities cannot be separated from a consumer culture to not pay for services.”*

“Municipal Debt Relief that is conditional and application based, has therefore been sanctioned. The relief is aimed to correct the underlying behaviour and operational practices in defaulting municipalities and Eskom while in parallel, progressively introducing a smart metering solution to change consumer behaviour by instilling a culture of payment for services consumed.

The proposal consists of 4 elements:

- i. Eskom will write-off all debt municipalities owe as on 31 March 2023 (excluding the March 2023 current account). This will be done over three national financial years and require as a critical qualification that municipalities monthly honour their current (monthly consumption) Eskom and water accounts going forward and maintain a minimum average quarterly collection, etc;*
- ii. Secondly, new mechanisms are explored to resolve non-payment – this to include a dispute ombud mechanism and re-assigning the license of persistent defaulters;*
- iii. Thirdly, Eskom will continue to implement a regime of installation of pre-paid meters in Eskom supplied areas to improve Eskom collection. Municipalities are additionally encouraged to adopt a similar operating regime; and*
- iv. Lastly, the National Treasury will continue to implement municipal revenue enhancement initiatives, including a transversal tender for a smart pre-paid meter solution to change to a forward looking culture of payment of the consolidated municipal bill.”*

Eskom was engaged in connection with the monies owed to the entity by the municipalities and resulting from the engagements was that Eskom would ease the burden on the municipalities through:

- Reducing the interest rate charged on overdue municipal bulk accounts from prime plus 5 per cent to prime plus 2.5 per cent;
- Payment terms being extended from 15 days to 30 days for municipal bulk accounts; and
- Payments received from municipalities being allocated to capital first and then the interest.

Other expenditure

Other expenditure comprises of line items relating to the daily operations of the municipality such as water chemicals, lease rentals, printing and stationery, telephone expenses, travelling expenses, electricity consumption, these total R 60.4 million for the 2023 / 2024 budget year and is expected to increase to R 65.1 million and R65 million over the projected medium term.

Debt impairment

A provision for debt impairment is made for 2023 / 2024 for an amount of R9.2 million and is estimated at R 9.8 million and R 10.4 million for the outer indicative years.

Indigents

The social package assists households that are poor or face other circumstances that limit their ability to pay for services. To receive these free services the households are required to register in terms of the Municipality Indigent Policy. The target is to register 10 000 or more indigent households during the 2023 / 2024 financial year, a process reviewed annually.

The cost of the social package of the registered indigent households is largely financed by national government through the local government equitable share received in terms of the annual Division of Revenue Act.

The amount set aside for subsidisation of indigents totals R5.7 million in the budget period and is estimated at R6.0- and R6.4 over the remainder of the medium term.

5.10 CAPITAL EXPENDITURE

The table below depicts the capital programme per funding source over the MTREF.

It is notable that grant funding contribute 86% of the total capital budget expenditure for the 2023 / 2024 financial year. This being through the Municipal Infrastructure Grant, the Integrated National Electrification Grant as well as the Water Service Infrastructure Grant allocations.

All capital grants that have been allocated to the municipality are conditional and are geared towards alleviation of basic services and infrastructure backlogs. These have been determined as per the Division of Revenue Act.

Our capital budget comprises **R8.2 million** which will be funded from own revenue, expenditure that is to be incurred from own funds is dominated by expenditure in relation to the following line item:

- mSCOA implementation;
 - The municipality's financial system has lived to see its days, an overhaul and migration is of critical importance at the moment;
 - We have allocated R2.5 million of the FMG allocation for the budget year towards the implementation of the SOLAR Migration project.
- Office and computer equipment;
- Installation of high mast lights;

This item has been ignored for years on end, however, the community, particularly in new establishments have raised concern over the absence of high mast lights as it is believed to be the aggravating factor in the high and prevalent crime rate.

- The municipality has set aside funds for the acquisition of roller to be used in roads and storm water maintenance;
- R3.5 million has been set aside to fund acquisition of yellow fleet;

The Municipal Infrastructure Grant (MIG) allocation of **R26.1 million** has been set aside for the budget period with R 27- and R28 million projected over the medium term.

FS205 Mafube Local Municipality - Consolidated detailed MIG projects			
R thousand	2024/25 Medium Term Revenue & Expenditure Framework		
	Budget Year +1 2023/24	Budget Year +2 2024/25	Budget Year +2 2025/26
Project Description			
UPGRADE OF VILLIERS SPORTS GROUND	-	1,434	-
NAMAHADI: FENCING OF CEMETERY	3,844	402	-
UPGRADE OF ZOMBA STADIUM	1,250	184	1,410

4ML CONCRETE RESERVOIR	7,192	16,092	-
Total MIG Projects	24,786	25,757	26,770

The difference between the total allocation and the capital expenditure is dedicated towards funding the operations of the PMU.

The Water Service Infrastructure Grant (WSIG) allocation of **R22 million** has mainly been earmarked for the construction of a new reservoir in Namahadi which seeks to address a decade-long water access backlog. The grant is estimated at R10- and R 13.4million year-on-year for the two outer years of the MTREF.

The Integrated National Energy Grant (INEG) allocation of **R 420 000.00** is earmarked for the provision of electricity within the wards of the municipality. Further allocations of R5.4- and R5.3 million have been made for the 2024 / 2025 and 2025 / 2026 financial periods respectively.

5.11 OVERVIEW OF ALIGNMENT OF ANNUAL BUDGET WITH THE INTEGRATED DEVELOPMENT PLAN (IDP)

The Constitution mandates local government with the responsibility to exercise local developmental and cooperative governance. The eradication of imbalances in South African society can only be realised through a credible integrated developmental planning process.

Municipalities in South Africa need to utilise integrated development planning as a method to plan future development in their areas and so find the best solutions to achieve sound long-term

development goals. A municipal IDP provides a five year strategic programme of action aimed at setting short, medium and long term strategic and budget priorities to create a development platform, which correlates with the term of office of the political incumbents.

The plan aligns the resources and the capacity of a municipality to its overall development aims and guides the municipal budget. An IDP is therefore a key instrument which municipalities use to provide vision, leadership and direction to all those that have a role to play in the development of a municipal area. The IDP enables municipalities to make the best use of scarce resources and speed up service delivery.

The Constitution requires local government to relate its management, budgeting and planning functions to its objectives. This gives a clear indication of the intended purposes of municipal integrated development planning. Legislation stipulates clearly that a municipality must not only give effect to its IDP, but must also conduct its affairs in a manner which is consistent with its IDP.

The seven strategic objectives or key performance areas for the 2023/2026 MTREF and further planning refinements that have directly informed the compilation of the budget, are as follows:

- KPA 1: Governance and Stakeholder Participation;
- KPA 2: Financial Sustainability;
- KPA 3: Institutional Transformation;
- KPA 4: Physical Infrastructure and Services;
- KPA 5: Planning and Economic Development;
- KPA 6: Safety and Environmental Management; and
- KPA 7: Social and Community Development.

In order to ensure integrated and focused service delivery between all spheres of government it was important for the municipality to align its budget priorities with that of national and provincial government. All spheres of government place a high priority on infrastructure development, economic development and job creation, efficient service delivery, poverty alleviation and building sound institutional arrangements.

Local priorities were identified as part of the IDP review process which is directly aligned to that of the national and provincial priorities.

In line with the MSA, the IDP constitutes a single, inclusive strategic plan for the Municipality. The five-year programme responds to the development challenges and opportunities faced by Mafube Municipality by identifying the key performance and focus areas to achieve the strategic objectives mentioned above.

Public participation

The IDP and Budget Public Consultations were scheduled to take place on from the 18th of April 2023 to the 18th of May 2023.

The municipality did not record attendance of IDP and Budget Meeting for the meeting scheduled for the 18th of May 2023 at the Mlindo Silinga Hall due to non-attendance of the Public and logistical inconvenience.

5.12 MEASURABLE PERFORMANCE OBJECTIVES AND INDICATORS

Performance Management is a system intended to manage and monitor service delivery progress against the identified strategic objectives and priorities. In accordance with legislative requirements and good business practices as informed by the National Framework for Managing Programme Performance Information, the Municipality has now developed and implemented a performance management system which is constantly refined as the integrated planning process unfolds.

The Municipality targets, monitors, assess and reviews organisational performance which in turn is directly linked to individual employee's performance.

Mafube Municipality is continuously ensuring that a culture of performance management is institutionalised. Therefore, performance agreements with senior management (Directors) are concluded.

This process will ensure that Integrated Development Planning objectives and key performance indicators (KPI's) are owned and executed by the responsible directorates. Furthermore, the Performance Audit Committee (as part of the Audit Committee) ensures that Council is involved in the auditing of Non-Financial Performance information.

A Performance Management Policy Framework also exists. This Policy Framework encapsulates the various processes, roles and responsibilities necessary to execute performance management and measurement.

5.13 LONG-TERM FINANCIAL SUSTAINABILITY

Financial sustainability over the long-term has to do with the maintenance of high priority expenditure programs, both operating and capital, to ensure program sustainability and desired quality of services to be rendered. There must also be rates and service charges stability and predictability in the overall rate burden by ensuring reasonable rates and service charges to fund programs, fair sharing in the distribution of council resources and the attendant taxation between current and future ratepayers (intergenerational equity) must also be promoted to ensure that the current generation are not over-burdened for the use of infrastructure by future generations – in other words sound long-term financial management.

Based on the above three elements financial sustainability could be defined as follows:

*“A council's **long-term financial performance and position is sustainable** where **planned longterm services and infrastructure levels and standards are met without unplanned increases in rates and service charges or disruptive cuts to services.**”*

5.14MSCOA PROGRESS TO DATE

The Municipal Regulations on the Standard Chart of Accounts (mSCOA) was duly promulgated on 22 April 2014 and all municipalities were expected to be compliant by 1 July 2017.

All relevant segments as prescribed by the regulation were implemented and the municipality is currently in the process of refining certain segments already in use in order to ensure that information will be disclosed as required in terms of version 6.5 as prescribed.

It should be noted that the municipality is not fully mSCOA compliant. All the required in-year reporting as well as annual data strings have been submitted successfully until February 2022 except for the Adjustment Budget datastrings which were submitted behind schedule.

The municipality still finds itself under immense mSCOA compliance pressure as it has been faced with a number of challenges in terms of transacting, seamless integration and reporting.

Monthly analysis reports compiled by the Provincial Treasury subsequent to the submission of the monthly Section 71 reports in the first semester of the financial period have resulted in a lot of queries raised which owe to the deficiencies identified in transacting and reporting on a platform that is not fully mSCOA-enabled, these also include segment errors.

The municipality utilised the mid-year performance assessment and budget review period, with the aid of the system provider, to attempt to correct some of the errors which were identified the Treasury through the 2022 / 2023 Adjustment Budget.

We have earmarked the 74% of FMG's allocation for the budget period towards funding migration to a mSCOA compliant financial system platform.

5.15LEGISLATION COMPLIANCE STATUS

Compliance with the MFMA implementation requirements have been substantially adhered to through the following activities:

- **In year reporting**

Reporting to National Treasury in electronic format was fully complied with on a monthly basis. Section 71 reporting to the Executive Mayor through finance portfolio committee (within 10 working days) has progressively improved.

- **Internship programme**

The Municipality is participating in the Municipal Financial Management Internship Programme and has employed five interns and they all undergoing training within various divisions of the Financial Services Department as well as the Office of the Municipal Manager. The Programme is funded by National Treasury through the Local Government Financial Management grant. The training started in January 2022 is set to span 2 years which ends in January 2024.

- **Budget and Treasury Office**

The Budget and Treasury Office has been established in accordance with the MFMA and it is headed by the Acting Chief Financial Officer.

- **Audit Committee**

Audit Committee has been established and is fully functional.

The annual budget was not tabled to the Audit Committee for the purpose of obtaining assurance, however, it was submitted to the Committee Chairperson for inputs.

- **Risk**

Based on the current collection rate, there is a risk that the budget will remain unfunded at the end of the budget period;

Non-implementation of the Cost Containment Policy will further compromise the going concern of the municipality

CHAPTER 6: PERFORMANCE MANAGEMENT SYSTEM

6.1 INTRODUCTION

Performance Management refers to the application of activities to ensure that goals in the IDP are consistently being met in an effective and efficient manner. Mafube Local Municipality is yet to develop a fully functional Performance Management System, with the assistance from the District Municipality (Fezile Dabi). The overall aim of the Performance Management System will be to ensure that the organisation and all its Subsystems are working together in an optimum fashion to achieve desired results.

Achieving overall goals require Several Continuous activities, including identification and prioritisation of desired results, establishing means to measure progress towards those results, setting standards for assessing the achievements of results. Tracing and measuring progress towards results, exchange feedback and in doing so continuously monitor and evaluate progress.

The development of Mafube Local Municipality Performance Management Framework, will be informed by legislation, policy and regulations relevant to Performance Management in Local Government. The contents of relevant documentation provide a framework that Local government should comply with, so as to ensure continuous development that will culminate in the improvement of quality of lives of Local Communities.

The Purpose of this chapter is to reflect on the implementation, monitoring and reporting of the IDP and SDBIP through the Performance Management System.

6.2 BACKGROUND

6.2.1 LEGISLATION

RSA CONSTITUTION

Chapter 7 of the Constitution deals exclusively with the local sphere of government. In particular, Section 152 focuses on the objects of local government and paves the way for performance management with the requirements for establishing an “*accountable government*”. Many of the democratic values and principles in terms of Section 195(1) of the Constitution can also be linked with the concept of performance management, with reference to the principles of, *inter alia*, the promotion of the efficient, economic and effective use of resources, accountable public administration, displaying transparency by making available information, being responsive to the needs of the community, and by facilitating a culture of public service and accountability amongst staff.

MUNICIPAL STRUCTURES ACT, 1998 (ACT NO. 117 OF 1998)

Section 19(1) of the Municipal Structures Act states that a municipal council must strive within its capacity to achieve the objectives set out in Section 152 of the Constitution. In addition Section 19(2) stipulates that a municipal council must annually review its overall performance in achieving the identified objectives. Local government can manage and ensure that its strategic and developmental objectives have been met through implementing a performance management and measurement system.

WHITE PAPER ON LOCAL GOVERNMENT (1998)

Within its governance framework, Government provides the tools to execute the above objects and developmental duties. The White Paper on Local Government (March 1998) states that integrated development planning, budgeting and performance management are to be seen as powerful tools which can assist municipalities to develop an integrated perspective on the development in their area. It will enable municipalities to focus on priorities within an increasingly complex and diverse set of demands and to direct resource allocation and institutional systems to a new set of development objectives. The White Paper (1998) further states that communities should be involved in the development of some municipal key performance indicators to increase the accountability of the municipality. Some communities may prioritise the amount of time it takes a municipality to answer a query; others will prioritise the cleanliness of an area or the provision of water to a certain number of households. Whatever the priorities, accountability is increased by involving the communities in setting key performance indicators and reporting back to them on the achievement of these indicators. This develops public trust in local governance and enhances accountability.

MUNICIPAL SYSTEMS ACT, 2000 (ACT NO. 32 OF 2000)

Chapter 6 of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA) state that, in order to achieve effective and efficient performance management, local government should:

- Develop a performance management system.
- Set targets, monitor and review performance based on indicators linked to the Integrated Development Plan (IDP).
- Publish an annual report on performance management for the councillors, staff, the public and other spheres of government.
- Incorporate and report on a set of general indicators prescribed nationally by the Minister responsible for local government.
- Conduct an internal audit on performance before tabling the report.
- Have the annual performance report audited by the Auditor-General
- Involve the community in setting indicators and targets and reviewing municipal performance.

In particular, Section 39 of the Act (2000) stipulates that the Executive Committee (Exco) is responsible for the development of a Performance Management (PM) System. To establish such a PM System, the local government may assign responsibilities to the Municipal Manager.

Section 40 of the MSA stipulates that a Municipality must establish mechanisms with which to monitor and review the PM System. In terms of Section 41, the core components of a PM System are to (i) set Key Performance Indicators (KPIs), (ii) set measurable performance targets (PTs), (iii) monitor performance & measure and review annually, (iv) take steps to improve performance, and (v) establish a process of regular reporting.

Section 42 requires that the community should be involved in the development, implementation and review of the PM System as well as the setting of KPIs for the municipality.

In terms of Section 43 of the MSA the General Key Performance Indicators to be applied by all municipalities is to be prescribed by a number of regulations. Section 44 stipulates that the KPIs and PTs in the PM System of the municipality must be made known both internally and externally in a manner described by the Council.

In terms of auditing of performance measurements, Section 45 of the MSA states that the results of the performance measurement must be audited as part of the internal auditing processes and annually by the Auditor General. The performance report should reflect the development and service delivery priorities and performance targets in terms of the IDP of the municipality. Section 46 requires that the municipality prepare an annual report consisting of a (i) performance report, (ii) financial statements; (iii) audit report on financial statements; and (iv) any other reports in terms of legislative requirements. This report must be tabled within one month of receiving the audit report.

Section 43 authorises the Minister to prescribe general KPIs that every municipality must report

on. The aim of the Local Government Municipal Systems Amendment Act, No 44 of 2003²⁹⁰ is, *inter alia*, to make provision for the additional assignment of functions and powers to municipalities and to provide for the submission of annual performance reports by municipalities. Section 46 of the Municipal Systems Amendment Act (2003) states that a municipality must prepare for each financial year a performance report reflecting:

- The performance of the municipality and of each service provider during that financial year;
- A comparison of the performance in relation to targets set in the previous financial year;
- The development and service delivery priorities and the performance targets set by the municipality for the next financial year; and
- Measures taken to improve performance.

MUNICIPAL PLANNING AND PERFORMANCE MANAGEMENT REGULATIONS (2001)

In addition to the above legislation, the Municipal Planning and Performance Management Regulations (2001)²⁹¹ deal with the provision of a number of aspects of performance management. These aspects include the following:

- The framework that describes and represents the municipality's cycle and processes for the PM system and other criteria and stipulations [S7], and the adoption of the PM system [S8];
- The setting and review of Key Performance Indicators (KPIs) [S9 & 11];
- The General KPIs which municipalities have to report on [S10], including, amongst others households with access to basic services, low income households with access to free basic services, job creation in terms of the IDP, employment equity with target groups and the implementation of work skills plans;
- The setting of performance targets, and the monitoring, measurement and review of performance [S 12, 13];
- Internal Auditing of performance measurements [S14];
- Community participation in respect of performance management [S 15]

Chapter three sets out the format for the municipal performance management system framework. Section 7 (1) & (2) within this chapter states that:

A municipality's performance management system entails a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organised and managed, including determining the roles of the different role- players.

In developing its performance management system, a municipality must ensure that the system:

- Complies with all the requirements set out in the (Systems) Act;
- Demonstrates how it is to operate and be managed from the planning stage up to

- stages of performance review and reporting;
- Clarifies the roles and responsibilities of each role-player, including the local community, in the functioning of the system;
 - Determines the frequency of reporting and the lines of accountability for performance;
 - Relates to the municipality's employee performance management processes; and
 - Provides for the procedure by which the system is linked to the municipality's integrated development planning processes.

These regulations provide a framework on which the performance management system of a municipality should be developed. Even though the framework should comply with the above, it should always be compiled based on the IDP and SDBIP of a municipality.

Section 9 states that key performance indicators including input indicators, output indicators and outcome indicators must be set in respect of each of the development priorities and objectives within the IDP. Key performance indicators must be measurable, relevant, objective and precise. A municipality must ensure that communities are involved when setting these indicators. The indicators must also inform the indicator set for administrative units and employees as well as municipal entities and service providers.

A Guide on Performance Management Guidelines for Municipalities was issued in 2001 by the Department of Provincial and Local Government. The Guide was prepared to serve as a set of simple, user-friendly non-prescriptive guidelines to assist municipalities in developing and implementing their legislative required performance management system. It is designed to enable them to develop and implement such systems within their resource constraints, suited to their circumstances and in line with the priorities, objectives, indicators and targets contained in their IDPs.

The Guide is divided into three phases inclusive of a number of steps to guide municipalities in developing a Performance Management System, implementing the system, setting targets, developing a monitoring framework, designing a performance measurement framework, conducting performance reviews, improving on performance and reporting on performance.

MUNICIPAL FINANCE MANAGEMENT ACT, 2003 (ACT NO. 56 OF 2003)

In providing a framework with which to execute the requirements of the IDP, the Municipal Finance Management Act, Act No. 56 (2003) obligates a Service Delivery and Budget Implementation Plan (SDBIP) to be established. This SDBIP is to be based on specific targets and performance indicators derived from the IDP, thus linking the IDP, the performance management system and the budget into one process. The SDBIP therefore serves as a "contract" between the administration, council and community expressing the goals and objectives set by the council as quantifiable outcomes that can be implemented by the administration over the next twelve months.

This provides the basis for measuring performance in service delivery against end-of-year targets and the implementation of the budget. MFMA Circular No 32 provides further guidance on matters related to performance management. This circular focuses on the oversight process that councils must follow when considering the annual report and how to deal with

the *Oversight Report* by encouraging continuous improvement and promoting accountability to stakeholders.

In addition, *Regulation 393 of 2009: Local Government Municipal Finance Management Act Municipal Budget and Reporting Regulation* was promulgated to provide information on the budget and budget related matters of municipalities. It indicates general provisions as well as budget-related policies required by municipalities. Annual budgets of municipalities and the format and funding for expenditure are also discussed in this Regulation. In addition, information on budget requirements and in-year reporting requirements also receives attention. Chapter 5 of the Regulation deals with the framework for unforeseen and unavoidable expenditure, whilst Chapter 6 focuses on unauthorised, irregular or fruitless and wasteful expenditure.

To comprehend the relationship between IDP review and performance management, the following quotation from the Performance Management Guide for Municipalities, DPLG, 2001 (draft2, page 16) becomes relevant:

“The IDP process and the performance management process should appear to be seamlessly integrated. Integrated development planning fulfils the planning stage of performance management. Performance management fulfils the implementation management, monitoring and evaluation of the IDP process”.

Although the IDP is a five-year plan, Section 34 of the Municipal Systems Act (2000) states that it has to be renewed annually. The IDP has to be handled at the highest level, hence the allocation of the responsibility to the executive mayor to manage. The executive mayor may assign responsibilities related to the development and management of the IDP to the municipal manager. As head of the administration, the municipal manager in turn is responsible and accountable for the formation of an efficient and accountable administration to give effect to the IDP.

The SDBIP is a key management, implementation and monitoring tool, which provides operational content to the end of-year service delivery targets, set in the budget and IDP. It determines the performance agreements for the municipal manager and other Section 57 managers, whose performance can then be monitored through Section 71 monthly reports, and evaluated through the annual report process.

Municipal Performance Regulations for Municipal Managers and Managers directly accountable to the Municipal Manager, published in 2006 seek to set out how the performance of municipal managers will be uniformly directed, monitored and improved. The regulations address both the employment contract of a municipal manager and the managers directly accountable to the municipal manager (Section 57 managers). The setting of targets is under investigation to comply with the suggested DPLG calculator, to present specific scores per target achievement that can advance strategic decision-making, and to evaluate Mafube LM successes against strategic intent.

Good corporate citizenship is therefore seen as the method that municipalities uses to set their priorities through the performance management system as per the IDP, conduct their business as per the SDBIP and relate to the community they serve through community input and public participation. The purpose of the IDP is to ensure that the resources available to the municipality are directed at the delivery of programmes, projects and processes that meet agreed municipal

priority areas.

Once a municipality starts to implement its IDP it is important to monitor that:

- The delivery is happening in the planned manner;
- The municipality is using its resources most efficiently;
and
- It is producing the quality of delivery envisaged.

6.2.2 OUTCOMES APPROACH TO PERFORMANCE MANAGEMENT IN GOVERNMENT

The outcomes approach is designed to ensure that government is focused on achieving the expected real improvements in the life of all South Africans. The outcomes approach clarifies what we expect to achieve, how we expect to achieve it and how we will know whether we are achieving it. It will help spheres of government to ensure that results improve the lives of citizens rather than just carrying out our functions. It will help us track the progress we are making in achieving results and it will help us collect evidence about what worked and what did not, to help us improve our planning and implementation on an annual basis.

Planning for outcomes and impact: Outcomes planning means planning backwards from the outcome we need to achieve to work out how best to achieve it. It starts with identifying what outcome must be achieved to improve lives and then working out what outputs will ensure we achieve it, what activities we must do to achieve the outputs and what resources are needed to achieve the activities.

Focus on outcomes: If the focus is on the outcome, it is clear which role-players will need to be involved to ensure the outcome is achieved. Plans will involve identifying what outputs are needed to achieve the outcome and will be implemented by whichever government entity is responsible for the area of work each output involves. We should be able to connect every resource used and every activity undertaken to a real improvement in people's lives.

M&E of outcomes creates the basis for accountability and learning. Systematic assessment of what impacts and outcomes were achieved will enable us to identify what works and what does not. It will enable us to learn and continually develop our capacity to use scarce resources more efficiently and effectively to achieve the greatest benefit for the citizens and communities. Clear statements of the outcomes expected and clear indicators, baselines and targets to measure change will ensure we have reliable information we can use to monitor progress, evaluate how successful we were and plan to improve.

According to the *Monitoring and Evaluation Framework in support of Cooperative Governance*³⁶, a new set of national Key Performance Indicators (KPIs) have been developed (see table below) and all provinces and key sector departments were consulted during this process. Although there is a need to have indicators for the different levels of the results chain, that is, inputs, activities, outputs, outcomes and impacts. There is however a need to have a set of national KPIs that address the reporting requirements for the local government sector at national level. The national KPIs will enable the reporting of local government performance at a strategic level. Line function departments will still need to continue to monitor their programmes as required by their mandate. Similarly, provinces and municipalities may still develop their own

set of indicators which help measure the projects or programmes which are unique to their situation.

The draft national set of KPIs addresses both the reporting requirements in terms of existing legislation, the various programmes within the department including the LGTAS, the Ten Point Plan and the Minister’s Performance Agreement. Once approval is granted by the Minister, this set of national KPIs will be legislated to replace the seven currently found in the Municipal Planning and Performance Management Regulations of 2001. The reporting in terms of section 46, 47 and 48 of the Municipal Systems Act, 32 of 2000 (Act No. 32 of 2000) (MSA) will be informed by these national KPIs.

Draft National KPIs for Local Government

TABLE 71; National KPIs for Local Government

Indicators	Variables	Legislation
1. Critical posts filled by suitably qualified individuals	<ul style="list-style-type: none"> ➤ % of critical posts filled by suitably qualified individuals ➤ Meet 80%-100% of the job requirements ➤ Acceptable outcome of the competency assessment ➤ Positive reference check ➤ Municipal Manager post to be filled within 3 months after post has been vacated 	<ul style="list-style-type: none"> ➤ Section 55 of the LG: Municipal Systems Act, 2000 (Act no. 32 of 2000)(MSA) ➤ Competency Assessment Framework
2. Critical posts filled with signed performance agreements	<ul style="list-style-type: none"> ➤ % of critical posts filled with signed performance agreements ➤ Number of MMs with crisp and concise Performance Agreements ➤ Conclude the performance agreement within 3 months after the appointment or beginning of new financial year. 	<ul style="list-style-type: none"> ➤ Section 55 of the LG: Municipal Systems Act, 2000 (Act no.32 of 2000)(MSA)
3. Municipalities with a functional Organizational Performance Management System (OPMS)	<ul style="list-style-type: none"> ➤ Number of Municipalities with a functional OPMS ➤ Number of municipalities that conduct quarterly reviews ➤ Number of municipalities that report on performance in terms of section 46 of the MSA ➤ Number of municipalities that take corrective action to improve performance 	<ul style="list-style-type: none"> ➤ Chapter 6 of the Municipal System Act, 2000 (Act no.32 of 2000)

<p>4. Percentage of households with access to basic level of services</p>	<ul style="list-style-type: none"> ➤ Access to potable water ➤ Access to electricity ➤ Access to sanitation services ➤ Kilometres of roads constructed in a year ➤ Number of schools with access to potable water ➤ Number of schools with access to sanitation ➤ A functional Waste Information System in place ➤ Number of registered landfill/waste disposal sites ➤ Number of clinics with access potable water ➤ Number of clinics with access to sanitation services 	<ul style="list-style-type: none"> ➤ Water Act ➤ Environmental Management Act ➤ RDP standards
<p>5. Percentage of indigent households with access to free basic services</p>	<ul style="list-style-type: none"> ➤ An adopted and updated indigent Register for the municipality ➤ Access to free basic water ➤ Access to free basic electricity ➤ Access to free basic sanitation 	<ul style="list-style-type: none"> ➤ National indigent Policy Guidelines
<p>6. Percentage of households with access to suitably located low cost and affordable housing</p>	<ul style="list-style-type: none"> ➤ Number of low cost houses allocated in a financial year ➤ Number of informal settlements formalized ➤ Hectares of municipal land released for low cost housing ➤ Number of housing units allocated vs total number of houses built ➤ Number of households that have benefitted from the in-situ upgrading programme 	
<p>7. Access to employment opportunities</p>	<ul style="list-style-type: none"> ➤ Number of employment opportunities created as part of LED ➤ Number of employment opportunities created through other initiatives 	

<p>8. Financial viability of the municipality</p>	<ul style="list-style-type: none"> ➤ Unqualified audit reports ➤ Ratio of net current consumer debtors to annual property rates and service charge income ➤ % of municipalities with debtors of more than 50% of own revenue ➤ % of municipalities that are overspending on Operational budgets ➤ % of municipalities under-spending on Capital budgets ➤ % of municipalities spending less than 5% of Operational Budget on repairs and maintenance ➤ Percentage of Municipal System Improvement Grant spent in that financial year ➤ % of municipalities appropriately implementing the SCM policy ➤ Number of municipalities with short to long term Asset Management Plans 	<p style="text-align: right;">Finance</p> <ul style="list-style-type: none"> ➤ Municipal Management Act ➤ GRAP 17
<p>9. Level of good governance performance within municipalities</p>	<ul style="list-style-type: none"> ➤ Number of municipalities with credible IDPs ➤ Timeous submission of Annual Report ➤ Action plan to address issues raised by the Auditor-General in the audit report ➤ A functioning performance audit committee ➤ Anti-corruption strategy implemented ➤ Establishment of an LLF with equal representation ➤ Number of LLF meetings held and resolution taken 	<ul style="list-style-type: none"> ➤ Section 131 of the MFMA ➤ In terms of the Labour Relations Act,66 of 1995 (Act no.66 of 1995)
<p>10. Level of functionality of public participation systems with municipalities and</p>	<ul style="list-style-type: none"> ➤ % of functional Ward Committees ➤ Number of Community Development Workers deployed to your municipality 	<ul style="list-style-type: none"> ➤ In terms of Section 73 of the Local Government: Municipal Structures Act

traditional councils	<ul style="list-style-type: none"> ➤ Number of community meetings held 	
11. Improved spatial planning and land use management	<ul style="list-style-type: none"> ➤ An adopted Spatial Development Framework ➤ Number of municipalities with by-laws on Land Use Management 	<ul style="list-style-type: none"> ➤ National Spatial Development Perspective
12. Level of functionality of the Intergovernmental Relations Forum	<ul style="list-style-type: none"> ➤ Functional established district IGR Fora ➤ Number of IGR meetings convened ➤ Municipalities implementing the shared services model 	<ul style="list-style-type: none"> ➤ Established in terms of Section 24 & 25 of the IGRF Act, 2005 (Act No.13)
13. Level of implementation of Municipal Disaster Management	<ul style="list-style-type: none"> ➤ Establishment of a DM Centre ➤ Head of centre appointed ➤ Conduct a Risk and Vulnerability Assessment ➤ Development of a disaster Management Plan ➤ Establishment of a disaster Management Forum ➤ A functional ICT System in place ➤ Number of disasters prevented, mitigated and level of preparedness. 	<p>In terms of Chapter 5 of the Disaster Management Act, 2002(Act no.57 of 2002)</p>

6.3 OVERVIEW OF PERFORMANCE MANAGEMENT IN THE MUNICIPALITY

6.3.1 POLICY FRAMEWORK

Mafube Local Municipality is yet to develop and adopt a Performance Management Framework to regulate the performance management system in the municipality. The framework will provide guidelines on the development and implementation of the organisational performance management system.

The objectives of institutionalising a Performance Management System, beyond the fulfilling of legislative requirements, is to serve as a primary mechanism to monitor, review and improve the implementation of the municipality's IDP. In doing so, it should fulfil the following functions:

- Promoting accountability
- Decision-making and resource allocation
- Guiding development of municipal capacity-building programmes
- Creating a culture for best practice, shared-learning within the municipality
- Develop meaningful intervention mechanisms and early warning system
- Create pressure for change at various levels
- Contribute to the overall development of the Local Government System

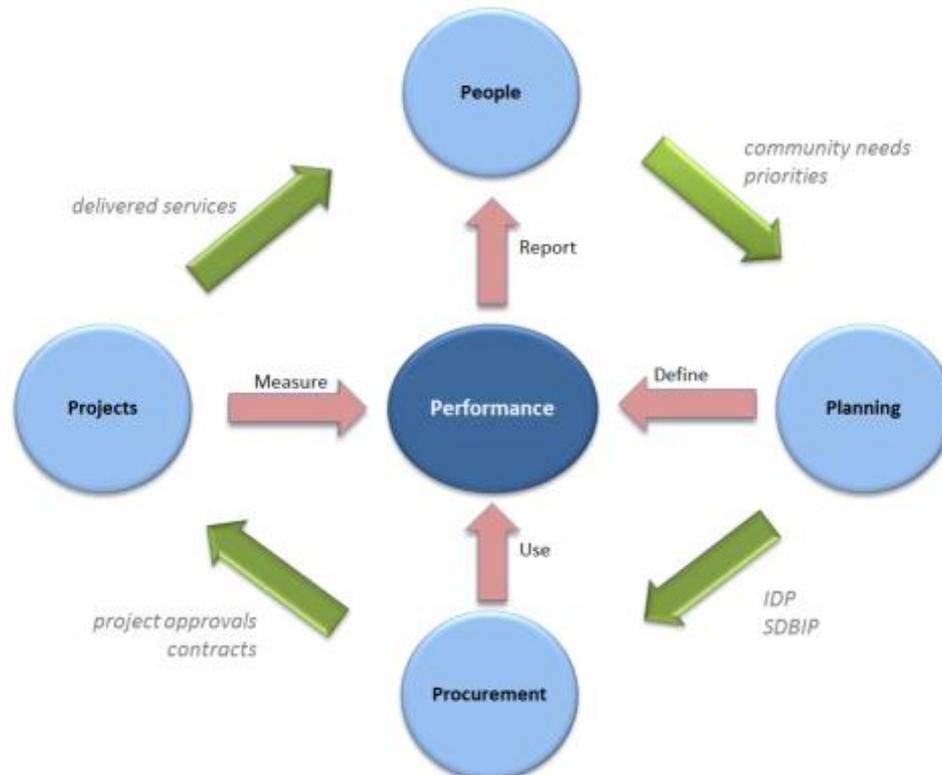

FIGURE 20: FUNCTIONS OF A PERFORMANCE MANAGEMENT SYSTEM

6.3.2 APPROACH TO PERFORMANCE MANAGEMENT

A performance management model can be defined as the grouping together of performance indicators, sometimes based on the type of indicator, into logical categories or groups (often called perspectives), as a means to enhance the ability of an organisation to manage and analyse its performance. As such a model provides a common framework by which the performance of an organisation and individuals can be measured and managed. It further ensures that a balanced set of measures are employed that are not relying on only one facet of performance and therefore not presenting a holistic assessment of the performance of an organisation.

The widely used performance model is the Balanced Scorecard. The Balanced Scorecard ensures that there is balance in the set of indicators being compiled. It was developed as a means to measure performance by combining both financial and non-financial indicators to create a balance between financial and other critical functional areas in organizations. By combining financial indicators and non-financial indicators in a single report, the Balanced Scorecard aims to provide managers with richer and more relevant information about the activities that they are managing than is provided by financial indicators alone.

The Balanced Scorecard performance model required the use of scorecards as a systematic approach to assessing internal results while probing the external environment. This Model groups its indicators into four perspectives: financial perspectives, customer perspective, internal perspective and learning and growth perspective.

The Municipal Scorecard

A number of performance models are available and any of them could be applied by the Mafube Local Municipality. Some of the available models include the Municipal Scorecard, Balanced Scorecard and the Key Performance Area Model. The Municipality may chose the Municipal Scorecard (MS) as its preferred performance management model. In terms of the MS model all indicators are grouped together into four perspectives as depicted in the figure below e.g. inputs, process, outputs and outcomes.

A Municipal Scorecard Model is a balanced scorecard adapted for measuring key performance on developmental areas that are relevant to municipal service delivery and the public sector. The municipal scorecard model groups indicators together under the 5 Year Local Govt Strategic Agenda Key Performance Areas (KPA's). There are five KPA's that municipalities are required to align their strategic planning on and these cut across every functional area of a municipality. The municipal scorecard measures a municipality's performance through grouping the municipal indicators under these perspectives:

- I. The Municipal Development Perspective
- II. The Service Delivery Perspective
- III. The Institutional Development Perspective
- IV. The Financial Management Perspective
- V. Governance Process Perspective

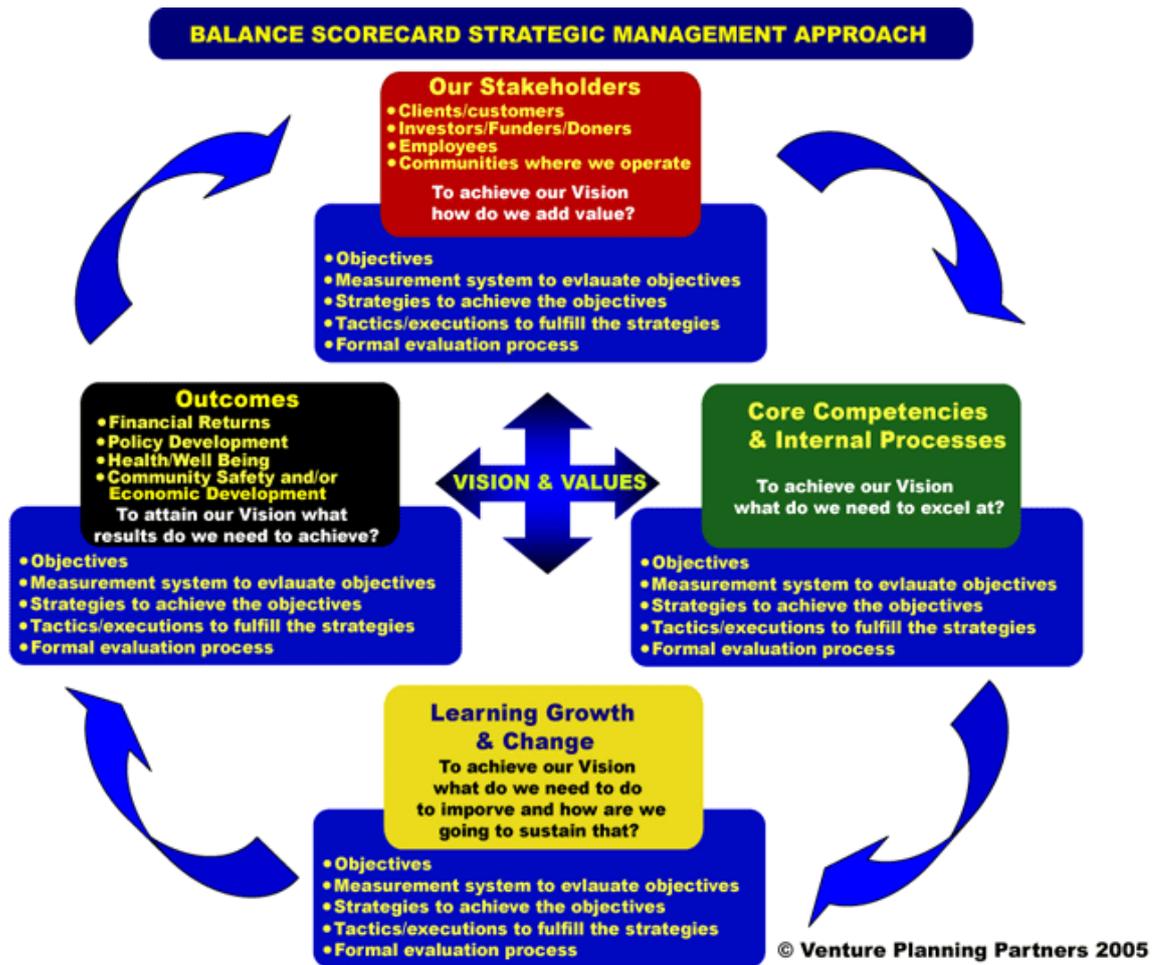

FIGURE 21: MUNICIPAL SCORECARD

The Municipal Development Perspective

In this perspective, the municipality will assess whether the desired development impact in the municipal area is being achieved. It incorporates social, environmental and economic development aspects. This perspective will constitute the development of priorities for the municipal area and indicators that tell us whether the desired development outcomes are being achieved. It is expected that the development priorities and indicators, will often lie within the shared accountability of the municipality, other spheres of government and civil society. The measurement of developmental outcomes in the municipal area will be useful in informing whether policies and strategies are attaining the desired development impact.

The Service Delivery Perspective

This perspective will assess performance with respect to the delivery of services and products. This relates to the output of the municipality.

The Institutional Development Perspective

This perspective will assess performance with respect to the management of municipal resources:

- Human Resources
- Information
- Organisational Infrastructure
- Asset management

This relates to the inputs of the municipality

The Financial Management Perspective

The perspective will assess performance with respect to financial management and viability, including:

- Financial viability indicators
- Operating income vs Operating expenditure performance
- Financing infrastructure investment vs capital expenditure performance
- Financial management performance.

Governance Process Perspective

This perspective will assess performance with respect to engagements and relationships with its stakeholders in the process of governance. This perspective will include, amongst others:

- Public participation, including the functionality and impact of ward committees
- Functionality and impact of municipal governance structure (council structures including the offices of the speaker, and portfolio committees/clusters and executive)
- Access to information
- Intergovernmental relations

6.3.3 PLANNING, MONITORING, REPORTING AND REVIEW OF PERFORMANCE MANAGEMENT

The annual process of managing performance at institutional level in the Municipality involves the steps as set out in the diagram below:

FIGURE 22: PERFORMANCE MANAGEMENT CYCLE

PERFORMANCE PLANNING

The performance of the Municipality is to be managed in terms of its IDP and the process of compiling an IDP and the annual review thereof therefore constitutes the process of planning for performance. It should be noted that performance review and the outcome of such a review process must inform the next cycle of IDP compilation/review by focusing the planning processes on those areas in which the Municipality has under-performed.

The IDP process constitutes the process of planning for performance. It is crucial that for all the priorities in the IDP, objectives, indicators and targets are developed.

PERFORMANCE MONITORING

Performance monitoring is an ongoing process by which a Director accountable for a specific indicator as set out in the institutional scorecard (or a service delivery target contained in an annual SDBIP) continuously monitors current performance against targets set. The aim of the monitoring process is to take appropriate and immediate interim (or preliminary) action where the indication is that a target is not going to be met by the time that the formal process of performance measurement, analysis, reporting and review is due.

In the instance were Mafube Local municipality is recommended that the institutional scorecard of the Municipality be reported on a quarterly basis to the Mayoral Committee. Performance monitoring requires that in between the relevant formal cycle of performance measurement appropriate action be taken, should it become evident that a specific performance target is not going to be met. It is therefore proposed that at least on a weekly/bi-weekly basis Directors track performance trends against targets for those indicators that fall within the area of accountability of their respective Departments as a means to early identify performance related problems and take appropriate remedial action.

PERFORMANCE MEASUREMENT

Performance measurement refers to the formal process of collecting and capturing performance data to enable reporting to take place for each key performance indicator and against the target set for such indicator. Given the fact that initially at least the Municipality will have to rely on a manual process to manage its performance provision has been made in the institutional scorecard for the name of an official responsible for reporting on each indicator (please note that this might not necessarily be the same official accountable for performance on an indicator).

This will require that the Municipality sets in place a proper information management system (electronically or otherwise) so that the internal audit section is able to access information regularly and to verify its correctness.

PERFORMANCE ANALYSIS

Performance analysis involves the process of making sense of measurements. It requires interpretation of the measurements as conducted in terms of the previous step to determine whether targets have been met and exceeded and to project whether future targets will be met or not. Where targets have not been met performance analysis requires that the reasons therefore should be examined and corrective action recommended. Where targets have been met or exceeded, the key factors that resulted in such success should be documented and shared so as to ensure organisational learning.

PERFORMANCE REPORTING AND REVIEW

Reporting requires that the municipality takes the priorities of the organization, its performance objectives, indicators, targets, measurements and analysis, and presents this information in a simple and accessible format, relevant and useful to the specific target group, for review. The Service Delivery and Budget Implementation Plan (SDBIP) is the basis to meet our reporting requirements. Generally four reports are submitted per annum to Council. 12 Monthly reports are generated for the top executive management and Mayoral Committee meetings.

The following is an overview of the different kinds of reports required.

TABLE 72: PMS - PERFORMANCE REPORTING REQUIREMENTS

Report type	Description
<p>Monthly / Quarterly IDP and SDBIP reporting</p>	<p>The SDBIP is a key management, implementation and monitoring tool, which provides operational content to the end-of-year service delivery targets set in the budget and IDP. It determines the performance agreements for the municipal manager and all top managers, whose performance can then be monitored through section 71 monthly reports, and evaluated through the annual report process.</p> <p>The SDBIP information on revenue will be monitored and reported monthly by the municipal manager in terms of Section 71(1)(a) and (e). For example, if there is lower than anticipated revenue and an overall cash shortage in a particular month the municipality may have to revise its spending downwards to ensure that it does not borrow more than anticipated. More importantly, such information requires the municipality to take urgent remedial steps to ensure it improves on its revenue-collection capacity if the municipality wants to maintain its levels of service delivery and expenditure.</p> <p>Section 1 of the MFMA, Act 56 of 2003 states that the SDBIP as a detailed plan approved by the mayor of a municipality in terms of service delivery should make projections for each month of the revenue to be collected, by source, as well as the operational and capital expenditure, by vote. The service delivery targets and performance indicators need to be reported on quarterly (MFMA, 2003).</p>
<p>Mid-year budget and report</p>	<p>Section 72 of the MFMA requires the accounting officer to prepare and submit a report on the performance of the municipality during the first half of the financial year. The report must be submitted to the mayor, National Treasury as well as the relevant Provincial Treasury. As with all other reports this is a crucial report for the Council to consider mid-year performance and what adjustments should be made, if necessary.</p>
<p>Performance report</p>	<p>Section 46 of the Municipal Systems Act states that a municipality must prepare for each financial year, a performance report that reflects the following:</p> <ul style="list-style-type: none"> • The performance of the municipality and of each external service provided during that financial year; • A comparison of the performances referred to in the above paragraph with targets set for and performances in the previous financial year; and • Measures to be taken to improve on the performance <p>The performance report must be submitted at the end of the financial year and will be made public as part of the annual report in terms of chapter 12 of the MFMA. The publication thereof will also afford the public the opportunity to judge the performance of the municipality against the targets set in the various planning instruments.</p>

Report type	Description
Annual report	<p>Every municipality and every municipal entity under the municipality's control is required by Section 121 to prepare an annual report for each financial year, which must include:</p> <ul style="list-style-type: none"> • the annual financial statements of the municipality or municipal entity as submitted to the Auditor-General for audit (and, if applicable, consolidated annual financial statements); • the Auditor-General's audit report on the financial statements; • an assessment by the accounting officer of any arrears on municipal taxes and service charges; • particulars of any corrective action taken or to be taken in response to issues raised in the audit reports; • any explanations that may be necessary to clarify issues in connection with the financial statements; • any information as determined by the municipality, or, in the case of a municipal entity, the entity or its parent municipality; • any recommendations of the municipality's audit committee, or, in the case of a municipal entity, the audit committee of the entity or of its parent municipality; • an assessment by the accounting officer of the municipality's performance against the measurable performance objectives for revenue collection and for each vote in the municipality's approved budget for the relevant financial year; • an assessment by the accounting officer of the municipality's performance against any measurable performance objectives set in terms the service delivery agreement or other agreement between the entity and its parent municipality; • the annual performance report prepared by a municipality; and • any other information as may be prescribed. <p>Section 127 prescribes the submission and tabling of annual reports. In terms of this section:</p> <ol style="list-style-type: none"> 1) The accounting officer of a municipal entity must, within six months after the end of a financial year, submit the entity's annual report for that financial year to the municipal manager of its parent municipality. 2) The mayor of a municipality must, within seven months after the end of a financial year, table in the municipal council the annual report of the municipality and of any municipal entity under the municipality's sole or shared control. 3) If the mayor, for whatever reason, is unable to table in the council the annual report of the municipality, or the annual report of any municipal entity under the municipality's sole or shared control, within seven months after the end of the financial year to which the report relates, the mayor must: <ol style="list-style-type: none"> (a) submit to the council a written explanation setting out the reasons for the delay, together with any components of the annual report that are ready; and (b) Submit to the council the outstanding annual report or the outstanding components of the annual report as soon as may be possible.

Report type	Description
Oversight report	<p>The council of a municipality must consider the municipality’s annual report (and that of any municipal entity under the municipality’s control), and in terms of Section 129, within two months from the date of tabling of the annual report, must adopt an oversight report containing the council’s comments, which must include a statement whether the council:</p> <ul style="list-style-type: none"> (a) has approved the annual report with or without reservations; (b) has rejected the annual report; or (c) has referred the annual report back for revision of those components that can be revised. <p>In terms of Section 132, the following documents must be submitted by the accounting officer to the provincial legislature within seven days after the municipal council has adopted the relevant oversight report:</p> <ul style="list-style-type: none"> (a) the annual report (or any components thereof) of each municipality and each municipal entity in the province; and (b) All oversight reports adopted on those annual reports. It is important to note that the oversight committee working with these reports should be chaired by

6.4 CONCLUSION

Performance management is a process which permeates right through the organisation, from its vision and mission statement, to its objectives and eventually its staff. It applies to the performance of an organisation as well as to all persons related to it.

Within the South African Municipal environment this also includes the political figures who are responsible for that organisation. As indicated earlier, the *White Paper on Local Government* (1997) states that key mechanisms to ensuring service excellence in municipalities include integrated development planning, performance management and community participation. As a start there are certain measures that a municipality simply must implement.

It must:

- Establish a performance management system that is commensurate with its resources, best suited to its circumstances and in line with its targets, priorities and objectives contained in its IDP.
- Promote a culture of performance management among its political structures, political office-bearers, councillors and administration.
- Administer its affairs in an economical, effective, efficient and accountable manner (Municipal Systems Act, 2000).

Appropriate Key Performance Indicators must be established to serve as a yardstick for measuring individual and organisational performance. These key performance indicators should include outcomes and the impact of a performance area with regards to a municipality's development priorities and objectives as set out in its IDP.

In light of the above, the Mafube LM is well underway to following the intent and requirements of legislation and will soon conclude a comprehensive approach on how the system can fulfil obligations to the fullest extent intended by law. During the next phase of implementation narrower attention will be given to IDP and budget alignment, public view on measurement and achievement, the plot of business processes to effectively start to measure the organisational performance into operational expenditure.

Chapter 7: Projects and Programmes

7.1 Mafube L.M Projects

Table 73: Mafube L.M Capital Projects

Ward	Project Name	Funding Agent	Impl. Agent	Status
Ward 8	Construction of 2.5km 6.6KV Feeder Line from Tweeling to Tweeling Extension& electrification of 417 Households in Tweeling Extension	DMRE	Mafube LM	The project is under construction.
Ward 4	Qalabotjha/Villiers: Upgrading of sports ground - Phase 2	MIG	Mafube LM	Registered for the next financial year.
Ward 6	Fencing of the cemetery in Namahadi	MIG	Mafube LM	Awaiting the appointment of the contractor.
Ward 6	Construction of 0.7km paved road and storm water at Mposula, Mashego and Thadi streets	MIG	Mafube LM	Designs are completed and a contractor to be appointed.
Ward; 2,5,6,7	Construction of a new 12ML concrete water reservoir in Namahadi/Frankfort	WSIG	Mafube LM	The project is under construction and is 53% complete.
Ward; 2,5,6,7	Extension of wastewater treatment works in Namahadi/Frankfort: Phase 2	RBIG	Rand Water	The project is under construction
Ward 3	Qalabotjha: Construction of 0.993km paved road and storm water drainage	MIG	Mafube LM	For the 2023/24 FY
Ward 8	Construction of 4ML concrete water Reservoir in Tweeling	MIG	Mafube LM	For the 2023/24 FY
Ward:2, 5,6&9	Namahadi/Frankfort: Replacement of AC Water Pipelines with uPVC Pipelines	MIG	Mafube LM	For the 2023/24 FY
Ward 1	Construction of 4ML concrete water Reservoir in Cornelia	DWS	Bloem Water	The project is at design phase
Ward 8	102 Households, connections of Water and Sanitation	DWS	Bloem Water	Under investigations for construction
Ward 4	108 Households, connections of Water and Sanitations	DWS	Bloem Water	Under investigations for construction

7.2 Sector Departments Capital Projects for Mafube L.M

7.2.1

Table 74: Free State Province – Sector Departments projects

Farm Villiers 492 in Mafube: Township Establishment

Farm name: Portion 21 of Farm Villiers 492
Land ownership: Mafube Local Municipality
Size: 9.2796ha
Title Deeds registration: T13428/1992
Coordinates: Longitude: 28°37'3.87"E Latitude: 27° 1'23.33"S

Farm name: Remaining of Farm Villiers 492
Land ownership: Mafube Local Municipality
Size: 2125.4592ha
Title Deeds registration: T47582/1895
Coordinates: Longitude: 28°37'44.12"E Latitude: 27° 2'10.18"S

7.2.2 Properties in Mafube

There are sites within various townships in Mafube Local Municipality that have been invaded. These form part of formalised areas and mainly constitute of open spaces and sites earmarked for institutional and business use. The Mafube Council have resolved to subdivide and rezone these sites to accommodate the existing beneficiaries. The sites are described more on a table below.

Town	Erf Number	Size	Current Zoning
Namahadi	4887	29, 3907ha	Open space
	4873,	5, 4359ha	Open space
	6119	5, 0481ha	Educational
	5126	4, 0559ha	Park
	6082	2, 8959ha	Educational
	6083	4, 7239ha	Park
	5836	2, 9245ha	Educational
	6040	3054 m ²	Community facility
	5238	346 m ²	Undetermined
	6183	354 m ²	Business
	5486	4053 m ²	Community facility
	6809	3184 m ²	Community facility
	3050	2370 m ²	Park
	4221	1071 m ²	Undetermined
6203	1, 3232ha	Park	
Qalabotjha	859	2, 7724ha	Undetermined
	2553	2, 8732ha	Undetermined
	3255	3, 7913ha	Undetermined
Ntswanatsatsi	839/1402	6, 9145ha	Educational
Mafahlaneng	14/1032	1.97453ha	Undetermined

Annexure A: Rural Development Sector Plan Inputs

The Fezile Dabi District Rural Development Plan (DRDP) has been endorsed and signed by the District Executive Mayor on 26 April 2017. This portion of the document is the Department of Agriculture, Land Reform and Rural Development's (DALRRD) Sector plan to the Integrated Development Plan of the Local and District Municipalities. This DRDP fulfil the requirements vested in DALRRD by sec 7(e)(ii) and sec 12(2)(a) of the Spatial Planning and Land Use Management Act, 16 of 2013 (SPLUMA) (see below) where it is required that we support Municipal Planning:

The following principles apply to spatial planning, land development and land use management: "Sec 7 (e) (ii) all government departments must provide their sector inputs and comply with any other prescribed requirements during the preparation or amendment of spatial development frameworks;"

"Sec 12 (2) (a) The national government, a provincial government and a municipality must participate in the spatial planning and land use management processes that impact on each other to ensure that the plans and programmes are coordinated, consistent and in harmony with each other."

This document forms part of the current Integrated Development Plan cycle for the 2020/2021 financial year and serves as a sector plan for both the Integrated Development Plan as well as the Spatial Development Framework approved by the Council of the Mafube Municipality.

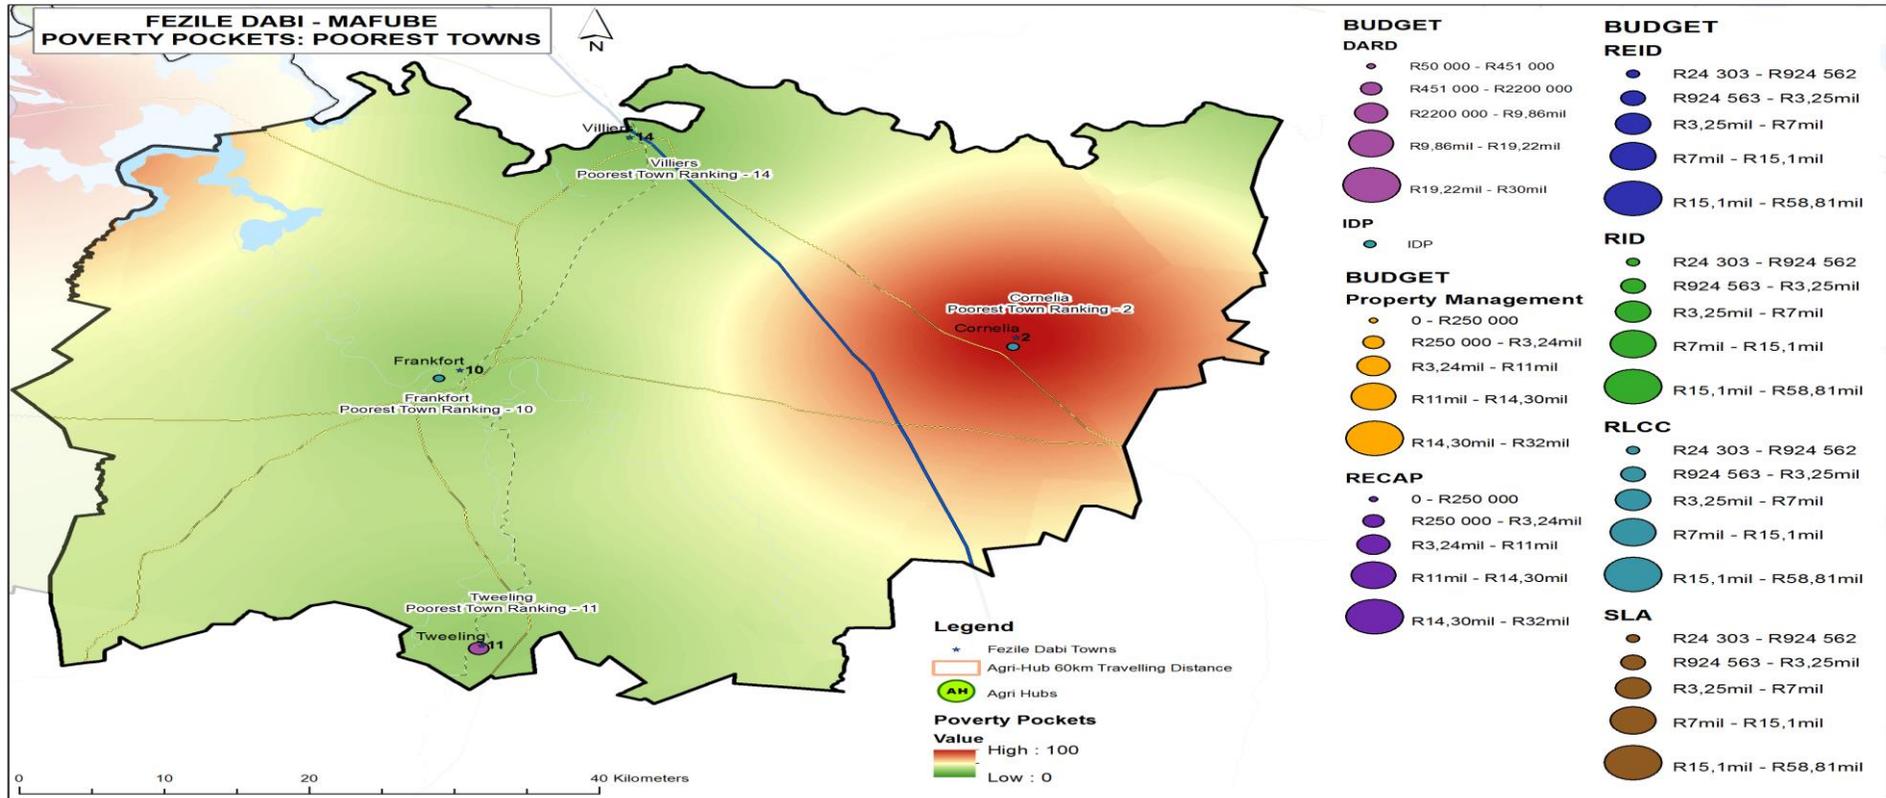

The Functional Regions for the District are spatially represented below with the inclusion of the towns and proposed projects for each region. It should be noted that the Agri-hub is proposed at Parys (Functional Region K) and the two Farmer Production Support Units (FPSUs) are proposed at Kroonstad (Functional Region D) and Koppies (Functional Region J) respectively.

Implementation matrix

The area of jurisdiction of the Mafube Local Municipality is situated in the northern part of the Fezile Dabi District Municipality Region. The former Parys, Frankfort, Tweeling, Villers and Cornelia Transitional Local Councils and a section of the Vaal Dam Transitional Rural Council are included in the Mafube Region. The largest urban unit is Parys followed by Frankfort and Villiers. A number of small villages, in the vicinity of Parys, also form part of the Mafube Region. The following Table presents the projects based in the local municipality by category, type, objectives, priority, key stakeholders as well as rural development alignment per project proposed for the broader Fezile Dabi Agri-park development

Mafube L. M Integrated Development Planning (IDP Review 2023-2024)

MAFUBE LOCAL MUNICIPAL PROPOSED PROJECTS IN THE FUNCTIONAL REGIONS

Functional Sub-regions

Functional Sub-region 2: Eastern Sub- region (Poverty Focus)

Functional Region 2 provides for:

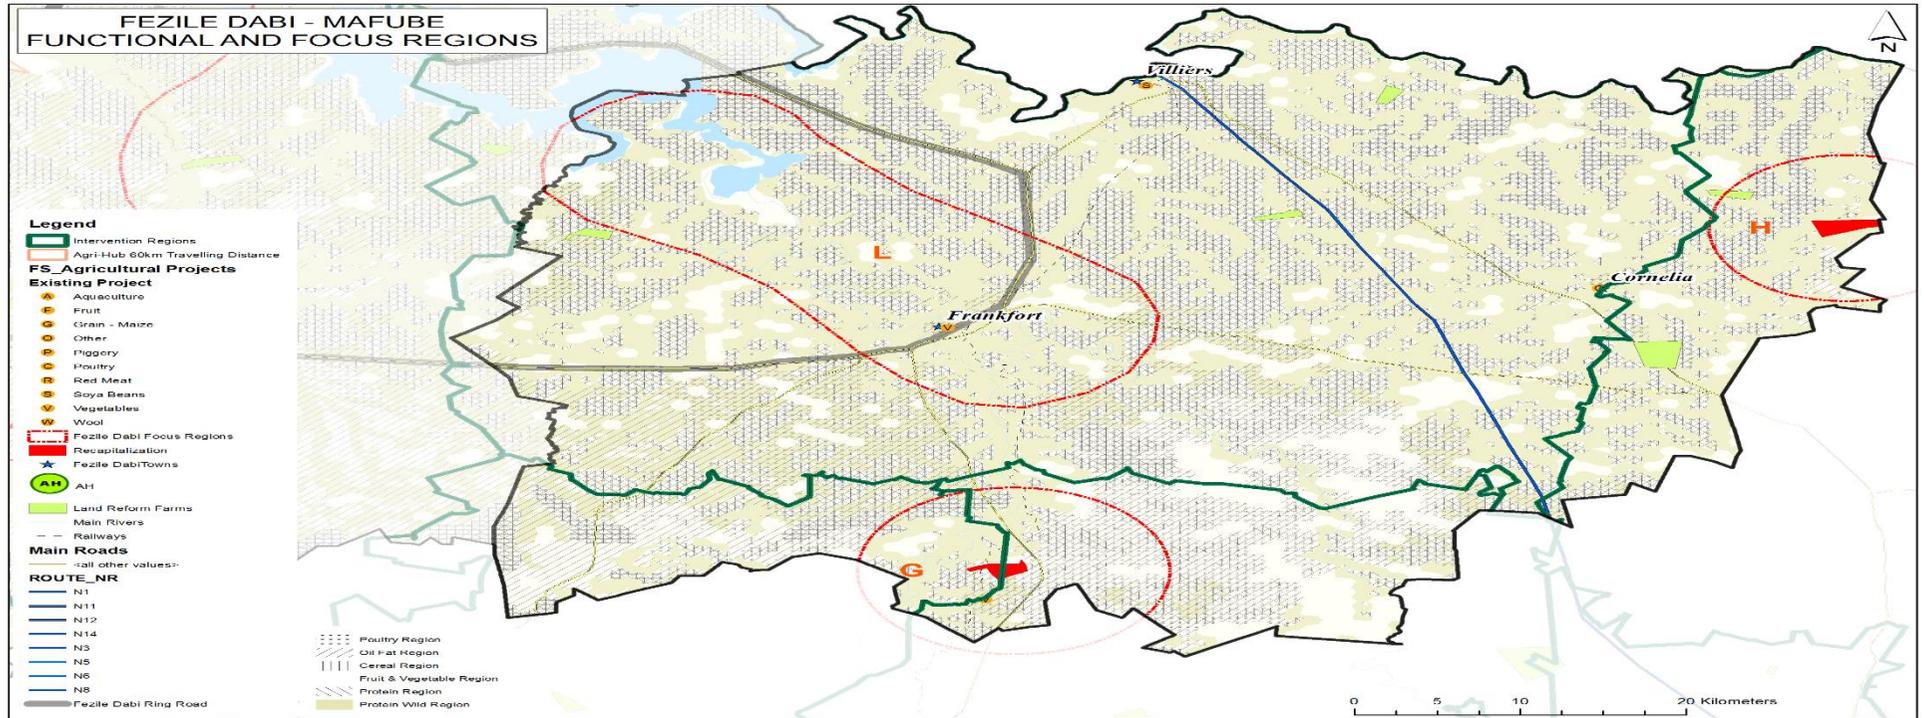

- The rural areas surrounding Frankfort
- The Secondary Node of Frankfort
- Tertiary Nodes: Oranjeville, **Villiers, Cornelia, Tweeling** and Heilbron
- High regional accessibility provided by the N1 route in the eastern part and the R34
- The concentration of mines and mining rights around Heilbron
- A mixture of arable and grazing land

Functional Sub-region 2: Eastern Region (Poverty Focus)

Strength	Constraints
<ul style="list-style-type: none"> • Excellent intra and interregional accessibility: <ul style="list-style-type: none"> • Roads: N3, R34, R57 • Airports: Villiers, Frankfort • Railways • Local accessibility to N3 very good • Within direct economic sphere of influence of: <ul style="list-style-type: none"> ○ Gauteng ○ Vaal Triangle • Part of the N3 National Competitive Corridor: Gauteng -Harrismith – Durban • Population and economy within region is dispersed into rural towns off Cornelia, Frankfort, Oranjeville and Tweeling • Population growth in rural areas is low compared to urban areas. Rural areas experience relatively : <ul style="list-style-type: none"> • Low employment rates • Low GVA per Capita • Low population growth. • Low levels of education • Low average household incomes • System of social facilities dispersed through the whole region providing for local and district needs 	<ul style="list-style-type: none"> • Income of Rural Households under R38 800 per annum mainly concentrated in the eastern sub region and areas surrounding Oranjeville and Cornelia, which have the largest concentrations of poverty • Low GVA per capita in areas to the south • Low household incomes at Edenville, Oranjeville, Frankfort and Cornelia • Land mostly in private ownership • Access to engineering services in rural areas <ul style="list-style-type: none"> • Water - generally low • Electricity –generally low • Sewerage- generally low

<ul style="list-style-type: none"> • Long term economic growth exceeds population growth providing potentially high GDP per Capita within the Functional Region • Well-endowed with natural assets <ul style="list-style-type: none"> • Rivers: Vaal River, Wige River • Vaal Dam • Deneysville Nature Reserve • Biodiversity: <ul style="list-style-type: none"> • Strong biodiversity features support the development of Tourism • Water sources accessibility • Agriculture: <ul style="list-style-type: none"> • Land suitability : Within district <ul style="list-style-type: none"> • 31% of total agriculture land • 27% of arable land • 73% of grazing land • 98% of wildlife land • High values of GVA per Capita experienced in the area surrounding Villiers • High household incomes at Deneysville and Frankfort • The eastern areas of Fezile Dabi have a lesser risk for fire occurrence 	
<p style="text-align: center;">Opportunities</p> <ul style="list-style-type: none"> • Strengthening linkages with Gauteng • Tourism focussed on: <ul style="list-style-type: none"> • Agro tourism • Game farming • Water sport and leisure • Vaal River and Vaaldam provide Hydro electrical generation opportunities • Mining focussed on: <ul style="list-style-type: none"> • Beneficiation of diamonds • New mining and prospecting licences • Agriculture focussed on: <ul style="list-style-type: none"> • Farming innovations • Increased Livestock production • Irrigation farms • Large scale farming • Intensive farming: <ul style="list-style-type: none"> • Hydroponics • Irrigation • Feedlots 	<p style="text-align: center;">Treats</p> <ul style="list-style-type: none"> • Sufficient funding for projects • Strong competition in Agriculture Sector • Dumping of international goods on local markets • Unskilled labour and inexperienced management • The areas surrounding towns and abutting the main roads and railway lines are more susceptible to fires • Drought

• Chickens
Pigs etc.

Compilation map overview and road upgrades

The Fezile Dabi District Rural Development Plan has identified 12 focus regions called clusters. Each region possesses its own opportunities and commodities that can be optimally produced. There are two clearly defined Functional Sub-regions, a Western Region and an Eastern Region.

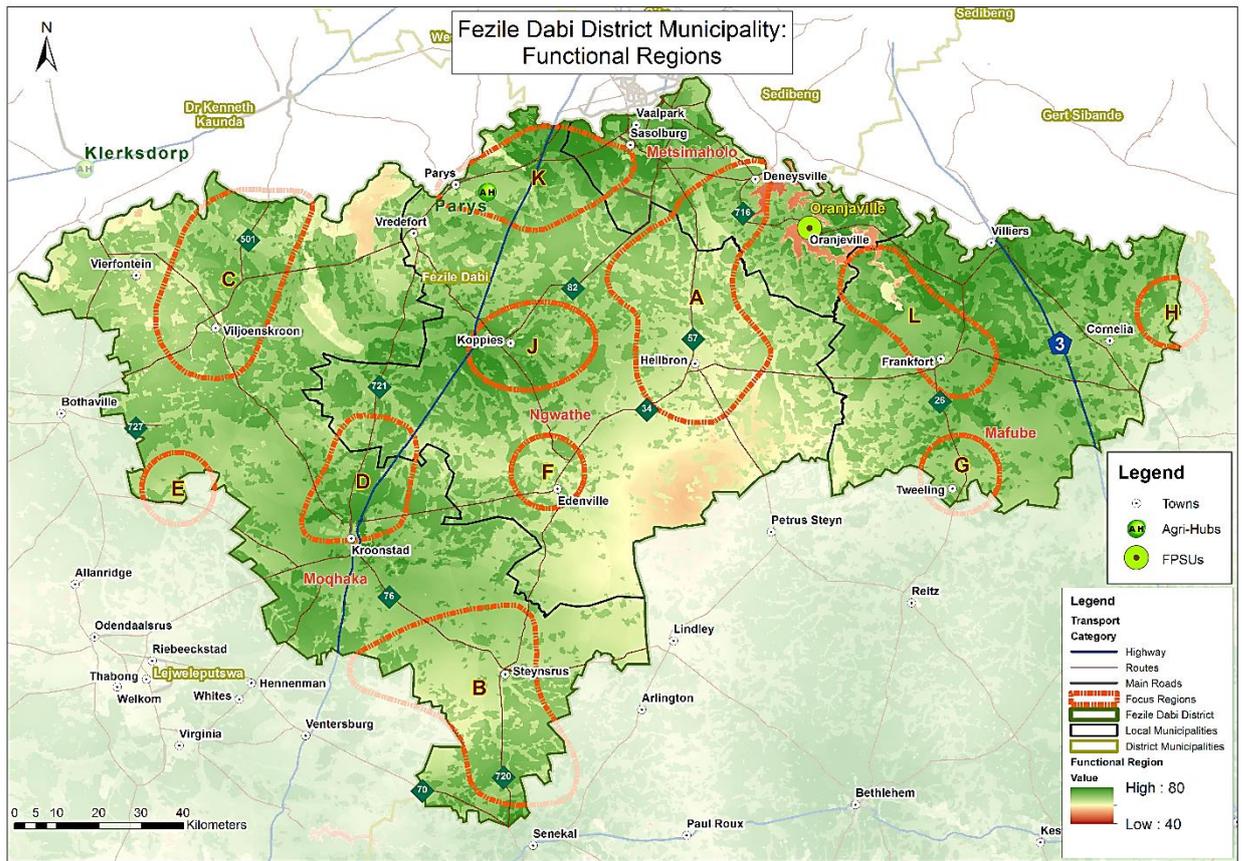

Map 1: Functional Regions (DRDLR, 2019)

Functional Region 1 (Western) provides for:

- High regional accessibility provided by the N1 route
- A very homogeneous area in terms of topography
- Concentrations of mines and mining rights
- Large concentrations of arable and grazing land

Functional Region 2 (Eastern) provides for:

- The rural areas surrounding Frankfort and the Secondary Node of Frankfort
- Tertiary Nodes: Oranjeville, Villiers, Cornelia, Tweeling and Heilbron
- High regional accessibility provided by the N1 route in the eastern part and the R34
- The concentration of mines and mining rights around Heilbron
- A mixture of arable and grazing land

Focus Regions

1. INTRODUCTION

The National Department of Transport (DoT), as part of the S’Hamba Sonke Programme, has provided grant funding for the implementation of Road Asset Management Systems (RRAMS) as set out in the framework for the Rural Road Asset Management System Grant (RRAMS), Division of Revenue Act (DORA).

The strategic goal of the RRAMS Grant is to ensure efficient and effective investment in rural roads through the development of Road Asset Management Systems (RRAMS) and the collection of associated road and bridge inventory data, condition assessments and traffic information. Improved data on rural roads will guide infrastructure investment, improve accessibility to and mobility of rural communities. The Fezile Dabi District Municipality has been involved with the RRAMS Grant since August 2014.

2. DATA COLLECTION

3. TERMS OF REFERENCE

This report was compiled to assist Mafube Local Municipality (LM) in applying for funding to rehabilitate identified roads in the town of Frankfort and other small towns under the Mafube Local Municipal. FLAGG was approached by Moqhaka LM and requested to prepare a condition assessment report on roads that was pre-identified by Moqhaka LM. The data collected for the RRAMS project was then utilised to compile this report.

4. NETWORK DISCRIPTION

4.1 Network Inventory

- U5 Local streets
- U4 Collector streets

RCAM Class	Flexible			Unpaved			Block		
	U4	U5	Total	U4	U5	TOTAL	U4	U5	TOTAL

Refer to drawings showing extent with collectors shown in red for Frankfort, Villiers, Cornelia and Tweeling.

5. SURFACE TYPES

Flexible – Flexible pavements are all the roads that have been surfaced with asphalt. Flexible pavement is composed of a bituminous material surface course and underlying base and subbase courses. The bituminous material is more often asphalt whose viscous nature allows significant plastic deformation.

Unpaved – Unpaved surfaces are all the roads that are gravel, earth and track, they have no surfacing. Unpaved road surfaced with gravel that has been brought to the site from a quarry or stream bed. They are common in less-developed towns, and also in the rural areas of developed towns.

Block – Block pavements are all the roads that have been paved with block/brick pavements. Pavement is the durable surface material laid down on an area intended to sustain vehicular or foot traffic, such as a road or walkway. They are commonly made out of concrete.

TOWN	Surface Types		
	Flex	Unpaved	Block
Frankfort/Namahadi	50976.97	68200.51	5539.56

Tweeling/Mafahlaneng	7263.19	41348.06	4509.28
Villiers/Qalabotjha	13222.12	40129.76	10973.3
Cornelia/Ntswanatsatsi	10089.71	69394.69	12997.35
TOTAL	81551.99	219073.02	34019.49

6. PAVEMENT CONDITION ASSESSMENTS

6.1. Visual Condition Assessments

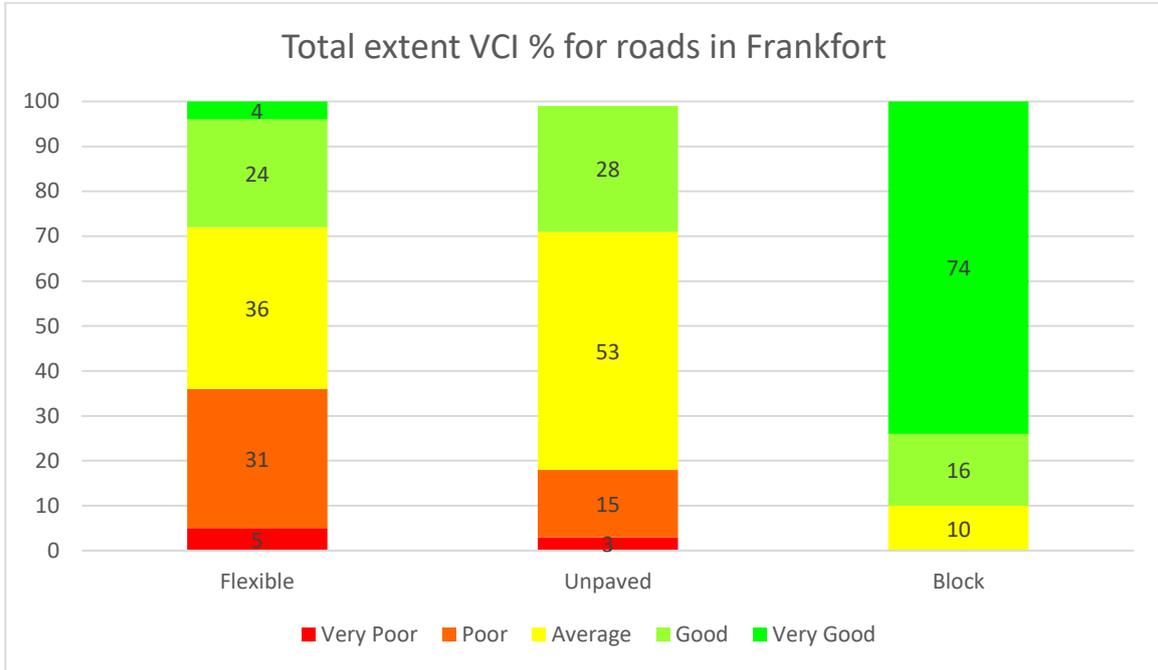

Visual Condition Assessments is the state the that the road is in currently. It is assessed based on the human visual and rated, which is scaled from Very Poor (0-20) to Very Good (81-100). This analysis can be done by walk-through inspection, mathematical modelling, or a combination of both. But the most accurate way of determining the condition requires walk-through to collect baseline data.

Table 5: Rating Scale

Range of Index	Rating
0-20	V. Poor
21-40	Poor
41-60	Fair
61-80	Good
81-100	V. Good

The graphs below include U4 and U5 roads (note block are indicated by OPC parameter).

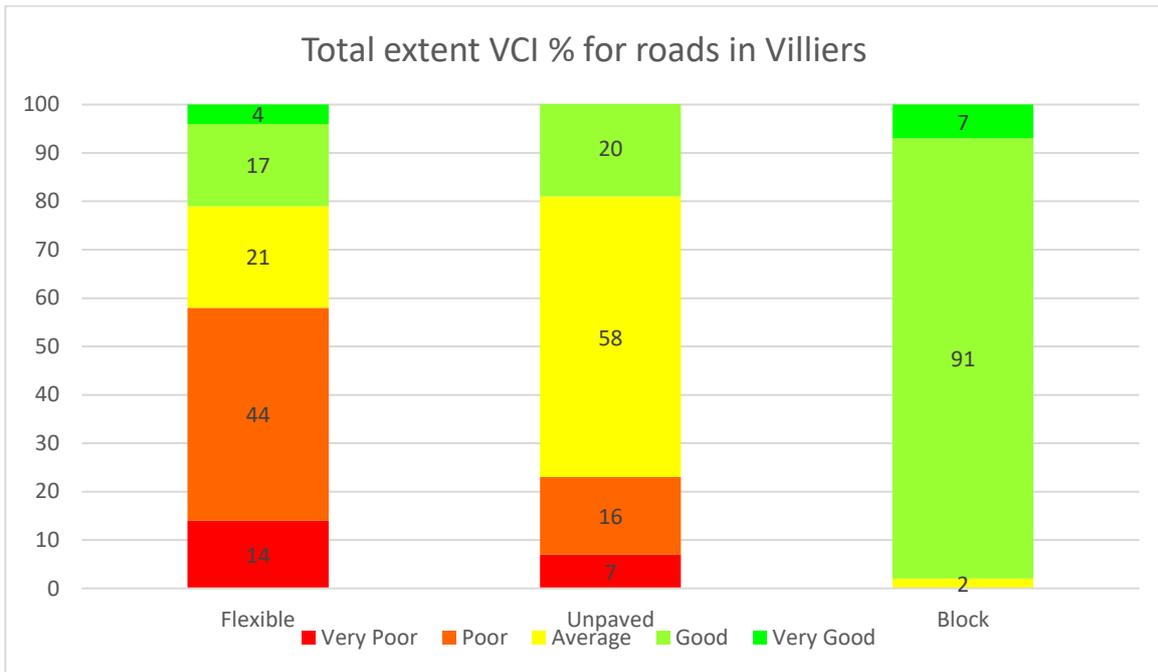

6.1.1 Frankfort

Collector streets (only U4 roads) shown in km. *(Blockpave condition is shown as indicated by the OPC parameter)

Heavy Rehabilitation	550	6.5	4.019	R 14 367 925.00
TOTAL				R 33 371 910.00

8. CONCLUSIONS

Based the data collected using the mobicap software for the RRAMS program. It came to our attention that all the roads of the towns under the Mafube Local Municipal are not in a suitable condition for road users. Collector roads have been assessed and based on the Visual Condition Index of each, they should be rehabilitated. Looking at the data collected, the short term goals should be based on Heavy Rehabilitation as Frankfort has 5.719 km, Tweeling 5.719 km, Cornelia 4.533 km and Villiers 4.019 km. Long term goals should look at Light Rehab, Reseal and Routine Maintenance. Upgrades of 6.770 km need to be done in Frankfort, from a gravel road to a single seal surfaced road.

This Technical Report provides for a long term resolution to the transportation access problems being experienced by the MAFUBE LM. Funding for the complete work scope indicated above should be sought from the appropriate funding sources (MIG, ACIP, Public Works, etc).
