### ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

#### **Approval of Annual Financial Statements**

I am responsible for the preparation of these Annual Financial Statements year ended 30 June 2022, which are set out on pages 1 to 115 in terms of Section 126 (1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality.

The Annual Financial Statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP), including any interpretations, guidelines and directives issued by the Accounting Standards Board, and as required by the Municipal Finance Management Act.

The Annual Financial Statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

I acknowledge that I am ultimately responsible for the system of internal financial control and that the system of internal control provides reasonable assurance that the financial records can be relied on.

The Auditor-General is responsible for independently reviewing and reporting on the Municipality's financial statements.

I certify that the remuneration of Councillors and in-kind benefits are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Office Bearers Act and the Minister for Cooperative Governance and Traditional Affairs' determination in accordance with this Act.

The Annual Financial Statements were prepared on the going concern basis and the municipality has neither the intention nor the need to liquidate or curtail materially the scale of the municipality.

I have reviewed the Municipality's cash flow forecast for the year to 2022 and am satisfied that the Municipality can continue in operational existence for the foreseeable future.

	31 August 2022
M.L. Siyethemba	Date
Municipal Manager

#### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

#### 1. BASIS OF PRESENTATION

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act (Act 56 of 2003).rd in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

The Annual Financial Statements have been prepared in accordance with the historical cost convention, except where indicated otherwise.

These annual financial statements are presented in South African Rand.

#### 1.1 Critical Judgements, Estimations and Assumptions

In the application of the municipality's Accounting Policies, which are described below, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

#### 1.1.1 Trade receivables (Consumer debtors) - Impairment

The municipality assesses its trade receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in surplus or deficit, the municipality makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

The impairment for trade receivables is calculated on a portfolio basis, based on historical loss ratios, adjusted for national and industry-specific economic conditions and other indicators present at the reporting date that correlate with defaults on the portfolio. These annual loss ratios are applied to loan balances in the portfolio and scaled to the estimated loss emergence period.

#### 1.1.2 Non-monetary assets - Impairment

carrying amount may not be recoverable. If there are indications that impairment may have occurred, estimates are prepared of the depreciated replacement cost or future cash flows for investment property. Replacement costs and future cash flows are significantly affected by a number of factors including uncontrollable ageing, together with economic factors such as inflation.

#### 1.1.3 Revenue from service charges

#### Estimation of Meter Readings:

Provisional estimates of consumption, based on the consumption history, are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced, except at year-end when estimates of consumption up to year-end are recorded as revenue without it being invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. In respect of estimates of consumption between the last reading date and the reporting date, an accrual is made based on the average monthly consumption of consumers.

#### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

Estimation of unused Prepaid Metered Services:

Estimates of unused consumption of prepaid metered services, based on the consumption history, are made at year-end. Sales for prepaid metered services are recognised as revenue upon receipt of payment for these services, except at year-end when estimates for unused consumption up to reporting date are reversed from revenue and accrued as payment for services received in advance. These accruals are reversed in the new financial year to revenue again, deemed to be consumed after 30 June. In respect of estimates of consumption between the last date of purchase and the reporting date, an accrual for payments received in advance is made based on the average monthly consumption of consumers.he reporting date, an accrual is made based on the average monthly consumption of consumers.

#### 1.1.4 Revenue from traffic fines

Revenue for Traffic Fines:

There is uncertainty regarding the probability of the flow of economic benefits or service potential in respect of spot fines as these fines are usually not given directly to an offender. Further legal processes have to be undertaken before the spot fine is enforceable. In respect of summonses the public prosecutor can decide whether to waive the fine, reduce it or prosecute for non-payment by the offender. The full amount of traffic fines issued during the year is recognised at the initial transaction date as revenue. Where a reliable estimate cannot be made of revenue from summonses, the revenue is recognised when the public prosecutor pays the cash collected over to the municipality.

#### 1.1.1 Water Inventory

The estimation of the Water Inventory in reservoirs is based on the measurement of water via electronic level sensors, which determines the depth of water in the reservoirs, which is then converted into volumes based on the total capacity of the reservoir. Furthermore, the length and width of all pipes are also taken into account in determining the volume of water on hand at year-end.

#### 1.1.6 Provisions

#### 1.1.2

Provisions are raised and and determined based on the best estimate on the information available and require judgment to determine the existence of the obligations at reporting date based on assessment of the event that created the obligation.

#### 1.1.7 Property, plant and equipment, Investment property and Intangible assets - Useful lives reassessment

The municipality depreciates/amortises its property, plant and equipment, investment property and intangible assets over the estimated useful lives of the assets, taking into account the residual values of the assets at the end of their useful lives, which is determined when the assets become available for use. The useful lives and residual values of the assets are based on industry knowledge and are reviewed annually or when an indicator is present.

#### 1.1.8 Employee benefit obligations

The municipality obtains actuarial valuations of its employee benefit liabilities. These valuations are subject to significant actuarial assumptions and estimates disclosed in the related note.

#### 1.2 Investment property

Investment property is carried at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is calculated on a straight-line basis over the useful life of the property, which is as follows:

ItemUseful lifeProperty - landindefiniteProperty - buildingsindefinite

#### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

All items of investment property are considered to be cash generating. The municipality tests for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of property, plant and equipment is greater than the recoverable amount, it is written down immediately to its recoverable amount and an impairment loss is charged to the Statement of Financial Performance.

The discount rate used to determine the present value of future cash flows is the prime overdraft interest rate that reflects current market assessments of the time value of money.

The municipality assess at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a cash-generating asset may no longer exist or may have decreased. If any such indication exists, the entity estimates the recoverable amount of that asset. The carrying amount of the asset is increased to its recoverable amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a cash-generating asset is recognised immediately in surplus or deficit.

#### 1.3 Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Depreciation is calculated on a straght-line basis over the useful life of the property, plant and equipment, which is as follows:

#### Infrastructure

Roads and Storm water	5 - 80 Years
Electricity	15 - 50 Years
Water	15 - 50 Years
Sewerage	10 - 80 Years

#### Other

Buildings	5 - 100 Years
Other vehicles	5 - 8 Years
Office equipment	3 - 12 Years
Furniture and fittings	7 - 30 Years
Plant and equipment	7 - 29 Years
Computer equipment	5 - 8 Years
Library Material	5 - 15 Years
Other assets	5 - 30 Years
Land	Indefinite

All items of property plant and equipment are considered to be non-cash generating. The municipality tests for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of property, plant and equipment is greater than the recoverable service amount, determined using the Depreciated Replacement Cost method, it is written down immediately to its recoverable service amount and an impairment loss is charged to the Statement of Financial Performance.

Gains or losses arising from the retirement or disposal of property, plant and equipment are the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in surplus or deficit in the period of retirement or disposal.

#### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

#### 1.4 Intangible assets

Intangible assets are carried at cost less accumulated amortisation and impairments.

Amortisation is calculated on a straight-line basis over the useful life of the intangible assets, which is as follows:

#### Intangible asset

Computer software

3 - 12 years

All items of intangible assets are considered to be non-cash generating. The municipality tests for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of the asset is greater than the recoverable service amount, determined using the Depreciated Replacement Cost method, it is written down immediately to its recoverable service amount and an impairment loss is charged to the Statement of Financial Performance.

Gains or losses arising from the retirement or disposal of intangible assets are the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in surplus or deficit in the period of retirement or disposal.

#### 1.5 Heritage assets

Heritage assets are carried at its cost less any accumulated impairment losses.

The municipality assess at each reporting date whether there is an indication that it may be impaired. If any such indication exists, the municipality estimates the recoverable service amount of the heritage asset.

Gains or losses arising from the retirement or disposal of heritage assets is the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in surplus or deficit in the period of retirement or disposal.

#### 1.6 Financial instruments

The municipality has the following types of financial assets (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Category

Trade and other receivables (including long-term receivables)

Cash and cash equivalents
Investments

Financial asset measured at amortised cost Financial asset measured at amortised cost Financial asset measured at amortised cost

The municipality has the following types of financial liabilities (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

#### Class Category

Long-term liabilities
Payables from exchange transactions
Consumer deposits

Financial liability measured at amortised cost Financial liability measured at amortised cost Financial liability measured at amortised cost

#### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

The municipality measures all financial assets and financial liabilities after initial recognition at amortised cost.

All financial assets measured at amortised cost are subject to an impairment review.

For financial assets and financial liabilities measured at amortised cost a gain or loss is recognised in surplus or deficit when the financial asset or financial liability is derecognised. The amount of the gain or loss is determined as the different between the financial asset or financial liabilities carrying amount and the consdieration received or settlement respectively.

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced directly OR through the use of an allowance account. The amount of the loss is recognised in surplus or deficit.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed directly OR by adjusting an allowance account. The reversal does not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in surplus or deficit.

For purposes of the cash flow statement, cash and cash equivalents comprise the cash on hand, bank accounts and call deposits.

#### 1.7 Statutory receivables

The municipality measures statutory receivables using the cost method.

The municipality assesses at each reporting date whether there is any indication that a statutory receivable, or a group of statutory receivables, may be impaired.

#### 1.8 Leases

#### Finance leases - lessee

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease.

Minimum lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of on the remaining balance of the liability.

Any contingent rents are expensed in the period in which they are incurred.

#### Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

#### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

#### 1.9 Inventories

Inventories are carried at the lower of cost and net realisable value.

Inventories are measured at the lower of cost and current replacement cost where they are held for;

- distribution at no charge or for a nominal charge; or
- consumption in the production process of goods to be distributed at no charge or for a nominal charge.

The cost of inventory is assigned using the weighted average cost formula. The same cost formula is used for all inventory having a similar nature and use to the municipality.

#### 1.10 Employee benefits

#### Short-term employee benefits

When an employee has rendered service to the entity during a reporting period, the municipality recognise the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service:

- as a liability (provision) after deducting any amount already paid. If the amount already paid exceeds the undiscounted amount of the benefits, the municipality recognise that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

The municipality measure the expected cost of accumulating compensated absences as the additional amount that the munipality expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The expected cost of bonus, incentive and performance related payments is measured at the best estimate of the amount to settle the obligation.

#### Post-employment benefits

The municipality classifies its multi-employer plan as a defined benefit plan under the terms of the plan (including any constructive obligation that goes beyond the formal terms). he municipality account for its proportionate share of the defined benefit obligation, plan assets and cost associated with the plan in the same way as for any other defined benefit plan.

The amount recognised as a defined benefit liability is the net total of the following amounts:

- the present value of the defined benefit obligation at the reporting date;
- plus any liability that may arise as a result of a minimum funding requirement

The municipality determines the present value of defined benefit obligations with sufficient regularity such that the amounts recognised in the annual financial statements do not differ materially from the amounts that would be determined at the reporting date.

The municipality recognises the net total of the following amounts in surplus or deficit, except to the extent that another Standard requires or permits their inclusion in the cost of an asset:

- current service cost;
- interest cost;
- actuarial gains and losses;
- · past service cost; and
- the effect of any curtailments or settlements

The municipality uses the Projected Unit Credit Method to determine the present value of its defined benefit obligations and the related current service cost and, where applicable, past service cost. The Projected Unit Credit Method (sometimes known as the accrued benefit method pro-rated on service or as the benefit/years of service method) sees each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation.

#### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

#### Long-service awards

The municipality uses the Projected Unit Credit Method to determine the present value of its long-service awards obligation and the related current service cost and, where applicable, past service cost.

#### 1.11 Provisions

Provisions are measured at the best estimate of the amount to settle the present value of the obligation.

#### Landfill rehabilitation

The Landfill Rehabilitation Provision is created for the rehabilitation of the current operational sites at the future estimated time of closure.

The value of the Provision is based on the expected future cost to rehabilitate the various sites discounted back to the reporting date at the cost of capital.

The landfill asset is measured using the cost model as per the policy on property, plant and equipment.

#### 1.12 Revenue from exchange transactions

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

Revenue from service charges are recognised when the services are rendered.

Revenue from rental of facilities are recognised over the period of the rental.

Revenue from sale of goods are recognised when the sale is concluded.

Interest is recognised, in surplus or deficit, using the effective interest rate method.

Revenue from licenses and permits are recognised when the license or permit is issued.

#### 1.13 Revenue from non-exchange transactions

Revenue from a non-exchange transaction is measured at the amount of the increase in net assets recognised by the municipality.

When, as a result of a non-exchange transaction, the municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability is recognised as revenue.

#### Government grants and subsidies

#### Unconditional Grants

Equitable share allocations are recognised in revenue at the start of the financial year.

#### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

#### Conditional Grants

Conditional grants recognised as revenue to the extent that the Municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of non-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the criteria, conditions or obligations have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

Interest earned on grants received and invested is treated in accordance with grant conditions. If it is payable to the funder it is recorded as part of the creditor and if it is the Municipality's interest it is recognised as interest earned in the Statement of Financial Performance.

#### Services Received In-kind - non-exchange revenue

when it is probable that the future economic benefits or service potential will flow to the entity and the fair value of the assets can be measured reliably. If the services in-kind are not significant to the operations and/or service delivery objectives and/or do not satisfy the criteria for recognition, only the nature and type of services in-kind received during the reporting period is disclosed.

#### **Property Rates**

Property rates are measured at the transaction amount.

#### **Fines**

Fines are are measured at the transaction amount.

#### Surcharges

Surcharges are measured at the transaction amount.

#### Public contributions and donations

Public contributions and donations are measured at the amount of the fair value of the asset received reduced by any obligations arising from the use of the asset.by the municipality.

#### 1.14 Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred.

#### 1.15 Accounting by principals and agents

The municipality, as a principal, recognises revenue and expenses that arise from transactions with third parties in a principal-agent arrangement in accordance with the requirements of the relevant Standards of GRAP.

The municipality, as an agent, recognises only that portion of the revenue and expenses it receives or incurs in executing the transactions on behalf of the principal in accordance with the requirements of the relevant Standards of GRAP.

The municipality recognises assets and liabilities arising from principal-agent arrangements in accordance with the requirements of the relevant Standards of GRAP.

#### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

#### 1.16 Unauthorised expenditure

Unauthorised expenditure means:

- overspending of a vote or a main division within a vote; and
- expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

#### 1.17 Fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

#### 1.18 Irregular expenditure

Irregular expenditure as defined in section 1 of the PFMA is expenditure other than unauthorised expenditure, incurred in contravention of or that is not in accordance with a requirement of any applicable legislation, including -

- (a) this Act; or
- (b) the State Tender Board Act, 1968 (Act No. 86 of 1968), or any regulations made in terms of the Act; or
- (c) any provincial legislation providing for procurement procedures in that provincial government.

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

#### 1.19 VAT

VAT is payable on the receipts basis. The municipality is liable to account for VAT at the standard rate (15%) in terms of section 7 (1) (a) of the VAT Act, in respect of the supply of goods or services except where the supplies are specifically zero-rated in terms of section 11, exempted in terms of section 12 of the Vat Act or is out of scope for VAT purposes. VAT is paid over to SARS only once payment is received from debtors and claimed from SARS once payment is made to a creditor.

#### 1.20 Budget information

The approved budget is prepared on a accrual basis and presented by economic classification linked to performance outcome objectives.

The approved budget covers the fiscal period from 2020/07/01 to 2021/06/30.

The budget for the economic entity includes all the entities approved budgets under its control.

The annual financial statements and the budget are on the same basis of accounting therefore a comparison with the budgeted amounts for the reporting period have been included in the Statement of comparison of budget and actual amounts.

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

#### 1.21 Segment information

The amount of each segment item reported is the per measure reported to management. Management applies the measurement requirements per GRAP for the respective segment items and thus aligned to the municipality's financial statements measurement basis.

Adjustments and eliminations made in preparing an entity's financial statements and allocations of revenues and expenses are included in determining reported segment surplus or deficit where relevant. Similarly, only those assets and liabilities that are included in the measures of the segment's assets and segment's liabilities are reported for that segment.

Amounts allocated to reported segment surplus or deficit, assets or liabilities, are allocated on total segment expenses or total segment assets or liabilities basis. Revenues are segment specific and are not allocated.

The municipality is organised and operates in functional segments as disclosed in the notes. All other sources of income and expenditure is aggregated through means of the administrative function as these services are not significant to the other services of the municipality as a whole.

**Property Rates** is a tax levied by a municipality to a property owner used to fund services delivered. Property Rates are calculated by multiplying the market value of the property with a rate determined by the Municipal Council. The levying of this revenue stream is governed by the Municipal Property Rates **Traffic Fines** arise from fines issued by the municipality's traffic officials. These fines are issued according the National Road Traffic Act 93 of 1996. The fines issued are divided into Radar Fines and

#### **VBS Mutual Bank**

An amount of R50 million was invested with VBS Mutual Bank. The municipality received a notice on the 11th March 2018 that the bank was placed under curatorship by the South African Reserve Bank. The curatorship detailed that all deposits and interest payments have been suspended. At its meeting held on the 28 March 2018, the Council resolved to request the MEC: Finance of Gauteng to institute a forensic investigation regarding the investment of Municipal funds with VBS Bank. The report known as the Deloitte report was received and Council resolved at a meeting held on 01 March 2019 to implement the recommendations of the report. The municipality is implementing the recommendations in the Deloitte report to the fullest extent. VBS Mutual bank was placed under liquidation on the 13 November 2018. The municipality submitted a claim to the liquidator on the amount invested with VBS Mutual bank. The case is handed to South african Crime directorate.

On the 4th February 2022 an amount of R3 529 563.33 was received in the main bank account of the municipality. The capital amount and impairment was decreased respectively.

	The municipality offers employees and continuation members the opportunity of belonging to one of several medical schemes, most of which offer a range of options pertaining to levels of cover.		
	Upon retirement, an employee may continue membership of the medical scheme. Upon a member's death-in-service or death-in-retirement, the surviving dependants may continue membership of the medical scheme.		
	Members contribute according to tables of contribution rates which differentiate between them on the type and number of dependants. Some options also differentiate on the basis of income.		
	Eligible employees will receive a post-employment subsidy of 60% of the contribution payable should they be a member of a medical scheme at retirement. Continuation members and their eligible dependants receive a 70% subsidy.		
	The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2022 by Mr C Weiss, Fellow of the Actuarial Society of South Africa. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.		
	The members of the Post-employment Health Care Benefit Plan are made up as follows:		
	In-service Members (Employees)	567	551
	In-service Non-members (Employees)	181	161
	Continuation Members (Retirees, widowers and orphans)	65	65
	Total Members	813	777
			- 111

	2022 R	2021 R
The liability in respect of past service has been estimated as follows:		
In-service Members In-service Non-members	75 584 000 4 108 000	74 344 000 3 868 000
Continuation Members	34 507 000	34 919 000
Total Liability	114 199 000	113 131 000

The municipality makes monthly contributions for health care arrangements to the following Medical Aid Schemes:

- Bonitas
- Hosmed
- Keyhealth
- LA Health
- Samwumed

The Current-service Cost for the year ending 30 June 2022 is estimated to be R4 357 000, whereas the cost for the ensuing year is estimated to be R4 574 000 (30 June 2021: R3 817 000 and R4 357 000 respectively).

#### The principal assumptions used for the purposes of the actuarial valuations were as follows:

Discount Rate	10.16%	10.16%
Health Care Cost Inflation Rate	6.89%	6.89%
Net Effective Discount Rate	3.06%	3.06%
Expected Retirement Age - Females	62	62
Expected Retirement Age - Males	62	62

#### General

It is assumed that the municipality's health care arrangements and subsidy policy would remain as

#### Continuation of Membership:

It has been assumed that 75% of in-service members will remain on the Municipality's health care

#### Family Profile:

It has been assumed that female spouses will be five years younger than their male counterparts.

#### Discount Rate:

GRAP 25 stipulates that the choice of this rate should be derived from government bond yields consistent with the estimated term of the post-employment liabilities. However, where there is no deep market in government bonds with a sufficiently long maturity to match the estimated term of all the benefit payments, current market rates of the appropriate term should be used to discount shorter term payments, and the discount rate for longer maturities should be estimated by extrapolating current market rates along the yield curve.

Consequently, a discount rate of 11.82% per annum has been used. The corresponding index-linked yield at this term is 4.10%. These rates do not reflect any adjustment for taxation. These rates were deduced from the interest rate data obtained from the Johannesburg Stock Exchange after the market close on 30 June 2022.

#### 19.2 Long Service Awards Liability

30 315 000	46 093 000
3 139 292	(10 802 110)
2 167 000	3 189 000
2 417 000	3 036 000
(4 518 292)	(4 975 890)
(1 444 708)	(3 886 110)
-	(13 141 000)
28 936 000	30 315 000
3 557 000	4 518 000

	3 139 292 2 167 000 2 417 000 (4 518 292) (1 444 708) - 28 936 000 3 557 000

2022	2021
R	R

The Municipality offers employees Long Service Awards for every five years of service completed, from ten years of service to 45 years of service, inclusive.

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2022 by Mr C Weiss, Fellow of the Actuarial Society of South Africa. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

At year end, 748 (2021: 712) employees were eligible for Long-service Awards.

The Current-service Cost for the year ending 30 June 2022 is estimated to be R2 417 000, whereas the cost for the ensuing year is estimated to be 2 060 000 (30 June 2021: R3 189 000 and R2 417 000

#### The principal assumptions used for the purposes of the actuarial valuations were as follows:

Discount Rate	10.67%	8.60%
Cost Inflation Rate	7.31%	5.60%
Net Effective Discount Rate	3.13%	2.84%
Expected Retirement Age - Females	62	62
Expected Retirement Age - Males	62	62

#### General:

It is assumed that the Municipality's long service arrangements and subsidy policy would remain as outlined in the accounting policy, and that the level of benefits would remain unchanged, with the exception of inflationary adjustments.

#### Discount Rate:

GRAP 25 stipulates that the choice of this rate should be derived from government bond yields consistent with the estimated term of the employee benefit liabilities. However, where there is no deep market in government bonds with a sufficiently long maturity to match the estimated term of all the benefit payments, current market rates of the appropriate term should be used to discount shorter term payments, and the discount rate for longer maturities should be estimated by extrapolating current market rates along the yield curve.

Consequently, a discount rate of 10.67% per annum has been used. This yield was obtained by calculating the duration of the liability and then taking the yield from the yield curve at that duration using an iterative process. The corresponding liability-weighted index-linked yield is 3.64%. These rates do not reflect any adjustment for taxation, and were deduced from the interest rate data obtained from the JSE after the market close on 30 June 2022. The duration of the total liability was estimated to be 7.50 years.

#### 20. PROVISIONS

Current Provisions	42 161 376	47 981 358
Non-current Provisions	3 827 472	-
Total Provisions	45 988 848	47 981 358

Section 56 Salary Adjustments	630 945	630 945
Total Provisions	42 161 376	47 981 358

**Bonus Provision:** Staff bonuses accrued to employees according to the standard contract of employment. Provision is made for the full cost of accrued bonusses at reporting date. This provision will be realised when bonusses are paid during November of the next year.

#### Decommissioning, Restoration and Similar Liabilities: Landfill Sites

Landfill sites decomissioning is estimated by means of a valuation performed by a professional valuator to determine the future cost of dismantling the landfill site. The cost is then reduced to take into account the time value of money at the weighted average borrowing rate of the municipality which has been determined as 12.75%.

**Leave Provision:** Staff leave accrued to employees according to collective agreement. Provision is made for the full cost of accrued leave at reporting date. This provision will be realised as employees

	3 827 472	_

#### 20.3 Rehabilitation of Land-fill Sites

In terms of the licencing of the landfill refuse site, the Municipality will incur licensing and rehabilitation costs of R11 259 699 (2021: R13 520 060) to restore the site at the end of its useful live. Provision has been made for the net present value of the future cost, using the average bond yield interest rate.

The municipality has an obligation to rehabilitate its land-fill sites in terms of its licence stipulations. The net present value of the rehabilitation cost of land-fill sites has been determined as at 30 June 2022 by a technical specialist, Rofhiwa Khaukanani Pr Eng CAMA CSAM CEM, the Director for Infratec (Pty) Ltd. The provision is the best estimate of the net present value of future rehabilitation costs of the land-fill sites to restore the sites at the end of their useful lives. The payment dates of the total closure and rehabilitation are uncertain, but are currently expected to be between 2022 and 2052.

As measured in the topographical survey, the available airspace has been exhausted. It was recommended that the Municipality applies for a height extension in order to increase the operational lifetime of the landfill site.

It was assumed that a closure licence will be issued in 2022 and rehabilitation will commence by 2027. The first post-closure year was assumed to be 2028.

#### Major assumptions concerning future events

The cost estimate for construction works to be performed for the closure and rehabilitation of an existing disposal site include the following assumptions made by the technical specialist:

- (a) The consolidation of "old" waste in the cell and filling of voids with builders rubble or other waste permissible for disposal at the site.
- (b) Doming the entire site in such a way to prevent the formation of pools due to rain, to ensure free surface runoff of rain water.
- (c) Capping the site in accordance with the capping design requirements as stipulated in the Minimum Requirements for Closure for the various classes of disposal sites; and
- (d) Rehabilitating the site in accordance with the end-use plan e.g. grassing, sport field etc.

Property Rates Levies	567 482 865	541 111 352

The prior year amount for Property Rates has been adjusted. Refer to Note 45.1 on "Correction of Error" for details of the restatement.

Property Rates are levied on the value of land and improvements, which valuation is performed every four years. The last valuation came into effect on 1 July 2019. A request for extension of the valid period for the valuation roll has been submitted to the MEC for local government.

Interim valuations are processed on a continuous basis to take into account changes in individual property values due to alterations and subdivisions.

#### 22. FINES AND PENALTIES

Correction of Errors:- Adjusted as per Working Papers	-	-	-	-
Restated Balance now reported			1 548 368	147 380 699

#### **Rental from Fixed Assets:**

The prior year amounts for Rental from Fixed Assets have been restated to correctly disclose the revenue for Rentals.

	Operational Revenue	Intercompany/Paren t-subsidiary Transactions	Gains on Disposal of PPE	Gains on Other Operations
Balance previously reported	2 866 417	-	89 213	
Correction of Errors:- Restated Balance now reported	-1 608 803 1 <b>257 614</b>		(89 213)	
Other Income:				

The **prior year amounts** for Other Income have been restated to correctly disclose as per the SCOA Chart.

2022 2021 R R

#### 45.2 Reclassification of Expenditure

Prior year amounts of items in Expenditure included in the Statement of Financial Performance have been restated as indicated below:

	Employee Related Costs	Remuneration of Councillors	Depreciation and Amortisation
Balance previously reported	355 691 923	22 589 904	95 045 771
Correction of Errors:- Adjusted as per Revised Asset Register	(19 738 668)	-	4 686 091
Restated Balance now reported	335 953 255	22 589 904	99 731 862
	(13 987 045.07)		

#### **Employee related cost**

The prior year amounts for Employee related cost have been restated to correctly disclose the employee cost for the prior year.

#### **Depreciation and Amortisation:**

The **prior year amounts** for Depreciation & Amortisation and Property, Plant & Equipment have been restated to correctly disclose depreciation for assets as per Asset Register, recompiled in terms of Audit Findings made in the Prior Year.

	Impairment Losses	Interest, Dividends and Rent on Land	Bulk Purchases	Contracted Services
Balance previously reported	973 966 134	54 162 013	410 837 935	87 875 275
Correction of Errors:- Adjustments made as per Working Papers	7 305 764	(158 997)	(50 823 718)	(24 012 784)
Restated Balance now reported	981 271 898	54 003 016	360 014 217	63 862 491

#### Impairment Losses:

The **prior year amounts** for Impairment Losses, Receivables from Exchange Transactions and Statutory Receivables from Non-exchange Transactions have been restated to correctly disclose the impairment of Receivables, previously incorrectly calculated in terms of the prescriptions of GRAP 104.

#### **Contracted Services:**

The **prior year amounts** for Contracted Services have been restated to correctly disclose the expenditure for Contracted Services, the prior year have been restated as a result of caseware mapping issues.

	Inventory Consumed	Transfers and Subsidies Paid	Operating Leases	Operational Costs
Balance previously reported	-	-	-	291 593 469
Correction of Errors:- Adjusted as per the working paper	178 851 439	2 295 069	27 500 493	- (248 888 130)
Restated Balance now reported	178 851 439	2 295 069	27 500 493	42 587 899

#### Inventory Consumed:

The prior year amounts for Inventory Consumed have been reclasified from General Expences Water to inventory consumed

#### Transfers and Subsidies Paid:

The prior year amounts for Transfers & Subsidies Paid have been restated to correctly disclose the expenditure for Grants and Subsidies Paid.

#### **Operating leases**

The prior year amounts for Operating leases have been restated to correctly disclose the expenditure.

#### Operational Costs:

The prior year amounts for Operational Costs have been restated to correctly disclose the expenditure for Operational Costs. See workign papers.

	2022 R	2021 R
	Loss on Disposal of PPE	Losses on Other Operations
Balance previously reported	-	-
Correction of Errors:- Adjusted as per working paper Restated Balance now reported	1 856 968 1 856 968	(60 320 608) (60 320 608)

#### Loss on Disposal of Property, Plant and Equipment:

The prior year amounts for Loss on Disposal of PPE and Property, Plant & Equipment have been restated to correctly disclose disposal of assets. Previously incorrectly mapped to depreciation.

#### **Losses on Other Operations:**

The prior year amounts for Losses on Other Operations previously mapped to inventory consumed in Caseware

#### 45.3 Reclassification of Statement of Financial Position

Opening Balances and Prior Year Amounts of items in the Statement of Financial Position have been restated as indicated below:

The prior year amounts of indicated items in the Statement of Financial Position have been reclassified in terms of the mSCOA Item GUID's allocated to these items to agree to the data strings submitted to National Treasury. The net effect of these reclassifications is zero.

	Inventories	Receivables from Exchange Transactions	Statutory Receivables from Exchange Transactions
Balances published per AFS as at 30 June 2021	1 011 528	240 214 260	9 140 953
Correction of Errors:- Adjusted as per Working Papers	- 339 115	- 66 062 194	60 588 796

#### Inventories:

The opening balances of Inventories have been restated to correctly disclose the value of Inventories, restated as a result of recalculations performed as per working papers prepared.

	Receivables from Non-exchange Transactions	Statutory Receivables from Non-exchange Transactions	VAT Receivable
Balances published per AFS as at 30 June 2021 Correction of Errors:-	-	-	77 592 113

#### 50.2 Capital Risk Management

The municipality manages its capital to ensure that the municipality will be able to continue as a going concern while delivering sustainable services to consumers through the optimisation of the debt and equity balance. The municipality's overall strategy remains unchanged from 2021.

The capital structure of the municipality consists of debt, which includes the borrowings disclosed in Note 20., and Cash and Cash Equivalents as disclosed in Note 19.

#### 50.3 Financial Risk Management Objectives

The Accounting Officer has overall responsibility for the establishment and oversight of the municipality's risk management framework. The municipality's risk management policies are established to identify and analyse the risks faced by the municipality, to set appropriate risk limits and controls and to monitor risks and adherence to limits.

Due to the largely non-trading nature of activities and the way in which they are financed, municipalities are not exposed to the degree of financial risk faced by business entities. Financial Instruments play a much more limited role in creating or changing risks that would be typical of listed companies to which the IAS's mainly apply. Generally, Financial Assets and Liabilities are generated by day-to-day operational activities and are not held to manage the risks facing the municipality in undertaking its activities.

The CFO monitors and manages the financial risks relating to the operations through internal policies and procedures. These risks include interest rate risk, credit risk and liquidity risk. Compliance with policies and procedures is reviewed by management on a continuous basis, and annually by external auditors. The municipality does not enter into or trade financial instruments for speculative purposes.

Further quantitative disclosures are included throughout these Annual Financial Statements.

#### 50.4 Significant Risks

The municipality has exposure to the following risks from its operations in Financial Instruments:

- Credit Risk;
- Liquidity Risk; and
- Interest Rate Risk.

Risks and exposures are disclosed as follows:

#### 58.4.1 Credit Risk

Credit risk consists mainly of cash deposits, cash equivalents, and trade debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

Trade receivables comprise a widespread customer base. Management evaluated credit risk relating to customers on an ongoing basis. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set. The utilisation of credit limits is regularly monitored. Sales to customers are settled in cash or using major credit cards.

Financial assets' maximum exposure to credit risk at year end were as follows:

#### Financial instrument

First National Bank Trade and other receivables VBS Mutual Bank 83 728 880

50 422 333

134 151 213

2022 2021 R R

#### 50.5 Credit Risk Management

Credit Risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial

Potential concentrations of credit rate risk consist mainly of variable rate deposit investments, long-term

#### Investments/Bank, Cash and Cash Equivalents

The municipality limits its counterparty exposures from its money market investment operations (financial assets that are neither past due nor impaired) by only dealing with Absa Bank and Standard Bank. No investments with a tenure exceeding twelve months are made.

#### **Trade and Other Receivables**

The municipality establishes an allowance for impairment that represents its estimate of anticipated losses in respect of trade and other receivables.

The municipality does not have any significant credit risk exposure to any single counterparty or any group of

#### Credit quality of Financial Assets:

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rates:

#### **Credit quality Groupings:**

High - High certainty of timely payment. Liquidity factors are strong and the risk of non-payment is small. Medium - Reasonable certainty of timely payment. Liquidity factors are sound, although ongoing funding Low - Satisfactory liquidity factors and other factors which qualify the entity as investment grade. However,

None of the financial assets that are fully performing, have been renegotiated in the last year.

#### 50.5.1 Interest Rate Risk Management

Interest Rate Risk is defined as the risk that the fair value or future cash flows associated with a financial instrument will fluctuate in amount as a result of market interest changes.

Potential concentrations of interest rate risk consist mainly of variable rate deposit investments, long-term receivables, consumer debtors, other debtors, bank and cash balances.

The municipality limits its counterparty exposures from its money market investment operations by only dealing with First National Bank, Development Bank of South Africa and Nedbank. No investments with a tenure exceeding twelve months are made.

Long-term Receivables and Other Debtors are individually evaluated annually at Balance Sheet date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment / discounting, where applicable.

The municipality's exposures to interest rates on Financial Assets and Financial Liabilities are detailed in the Credit Risk Management section of this note.

2022 2021 R R

#### 50.6 Liquidity Risk Management

The municipality's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Entity's reputation.

Liquidity Risk is managed by ensuring that all assets are reinvested at maturity at competitive interest rates in relation to cash flow requirements. Liabilities are managed by ensuring that all contractual payments are met on a timeous basis and, if required, additional new arrangements are established at competitive rates to ensure that cash flow requirements are met.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities and the ability to close out market. The municipality's risk to liquidity is a result of the funds necessary to cover future commitments. The municipality manages liquidity risk through an on-going review of future commitments and available funds. Cash flow forecasts are prepared to ensure adequate utilisation and optimisation of funds.

#### 50. FINANCIAL INSTRUMENTS (Continued)

The following tables detail the municipality's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the municipality can be required to pay.

Conditions met - transferred to revenue		(2 911 112)
Social responcibility Write-off		(7 679 237)
Balance unspent at the end of the year	3 212 601	850 995

#### 55. ANALYSIS OF AGENCY ACCOUNTING

The entity is a party to a principal-agent arrangement(s).

#### 1. Details of the Arrangement(s) is/are as follows:

The Municipality undertakes to handle Motor vehicle license issuing on behalf of the Department of Transport and Province and collects a commission of 22% plus VAT.

#### 2. Resources held on behalf of the Principal(s), but recognised in the entity's own Financial Statements:

The Resources regarding the Licensing Department, remain there own and do not form part of the municipality's Financial Statements.

#### 3. Revenue Recognised:

The aggregate amount of revenue that the entity recognised as compensation for the transactions carried out on behalf of the principal is RYY (2019: RXX)

2022 2021 R R

#### 56. GOING CONCERN ASSESSMENT

Management draws attention to the fact that, as at 30 June 2022, several factors exist that might influence the ability of the municipality to continue as a going concern.

Even though the above uncertainties exist regarding the Municipality's ability to continue as a going concern, the annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that the funds will be available to finance future operations and that the realisation of assets and the settlement of liabilities and commitments will occur in the ordinary course of business.

The ability of the Municipality to continue as a going concern is dependent on a number of factors, most significant of these being the ability to procure funding for the ongoing operations of the Municipality.

Management also considered the following matters in relation to the Going Concern position of the Municipality:

- Strict daily cash management processes are embedded in the Municipality's operations to manage and monitor all actual cash inflows and cash outflows in terms of the cash-flow forecast supporting the budget. The cash management processes is complemented by regular reporting, highlighting the actual cash position.
- The cost containment circular issued by National Treasury has been adopted by Council and is currently implemented in the Municipality.
- Business plans / proposals have been compiled by management to obtain funds from external parties to increase our revenue resources in order to fund the operations and to render municipal support services on a shared services basis to the local municipalities in the district.
- The Municipality will continue to receive funding from government, as is evident from the Equitable Share allocations as published in the Division of Revenue Act, and the Medium Term Revenue and Expenditure Framework (MTREF) for the 2022/23, 2023/24 and 2024/25 financial years are funded and approved by the Council.

Taking the aforementioned into account, management is of the opinion that the Municipality will be able to continue as a going concern in the foreseeable future.

#### 57. SEGMENT REPORTING

#### Reportable Segments for the year ended 30 June 2022

For management purposes, the municipality is organised and operates in four key functional segments (or business units). To this end, management monitors the operating res segments for the purpose of making decisions about resource allocations and assessment of performance. Revenues and expenditures relating to these business units are allocated to these functional segments.

The four key Segments comprise of:

- Community services
- · Economic development and planning
- Infrastructure development
- Shared services

The grouping of these segments is consistent with the functional classification of government activities which considers the nature of the services, the beneficiaries of such ser fees charged for the services rendered. Other includes the Financc, Municipal Manager, and other votes.

#### Information about geographical areas:

The municipality's operations are in the Gauteng Province and are only evaluated at a municpal wide level. Information per town / ward is not available and the cost to develop

#### MERAFONG CITY LOCAL MUNICIPALITY

#### ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

#### Approval of Annual Financial Statements

I am responsible for the preparation of these Annual Financial Statements year ended 30 June 2022, which are set out on pages 1 to 115 in terms of Section 126 (1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality.

The Annual Financial Statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP), including any interpretations, guidelines and directives issued by the Accounting Standards Board, and as required by the Municipal Finance Management Act.

The Annual Financial Statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

I acknowledge that I am ultimately responsible for the system of internal financial control and that the system of internal control provides reasonable assurance that the financial records can be relied on.

The Auditor-General is responsible for independently reviewing and reporting on the Municipality's financial statements.

I certify that the remuneration of Councillors and in-kind benefits are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Office Bearers Act and the Minister for Cooperative Governance and Traditional Affairs' determination in accordance with this Act.

The Annual Financial Statements were prepared on the going concern basis and the municipality has neither the intention nor the need to liquidate or curtail materially the scale of the municipality.

I have reviewed the Municipality's cash flow forecast for the year to 2022 and am satisfied that the Municipality can continue in operational existence for the foreseeable future.

M.L.\Siverbemba

Municipal Manager
