GOVAN MBEKI MUNICIPALITY STRATEGIC DIRECTION FOR THIS FIFTH (5TH) GENERATION INTEGRATED DEVELOPMENT PLAN IDP

VISION

A Model City of Excellence

Govan Mbeki Municipality will execute its vision through the following:

MISSION

To serve our community by:

- ☐ Providing sustainable, quality services
- ☐ Provide a safe and secured environmental
- ☐ Enabling diversified local economic development and job creation
- ☐ Ensuring the financial sustainability of the Municipality
- ☐ Working together with our stakeholders
- ☐ Empowering our workforce
- ☐ Ensuring sound corporate governance

OUR VALUES

Teamwork	Collectivism, Synergies, Integration, Support
Integrity	Honesty, Professionalism, Trustworthy, Ubuntu
Accessibility	Decentralisation, Closer to Customer, Contactable, Reachable
Responsiveness	Reduced Turnaround Times, Acknowledgement, Feedback, Redress
Accountability	Taking Responsibility, Scrutiny, Compliance, Public Confidence
Transparency	Openness, Communication
Creativity	Innovation, Resourcefulness

MUNICIPAL KEY PERFORMANCE AREAS

2022/2023-20226/2027 Integrated Development Plan (IDP) NOTE

The strategic direction of the newly elected Council are also informed by the following Six (6) Key Strategic objectives, through which the municipality intend to achieve over the course of the 5-year term and potentially continued beyond:

Strategic Objective 1:

To enhance revenue & secure financial sustainability

Strategic Objective 3:

To facilitate and create an enabling environment for diversified local economic development, social cohesion and job creation

Strategic Objective 5:

To develop spatially integrated, safe communities and a protected environment

Strategic Objective 2:

To provide sustainable services, optimise operations and improve customer care

Strategic Objective 4:

To enhance the capacity of human capital and deliver institutional transformation

Strategic Objective 6:

To promote good corporate governance and effective stakeholder engagement

This document herein refers to the **Fifth (5th) Generation 2022/2023-20226/2027 Integrated Development Plan (IDP)** which are required. The Municipal Systems Act, Act 32 of 2000 obligates all municipalities to undertake a process of preparing and implementing IDPs.

Section 25 of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000), requires that each municipal council must, after the start of its elected term, adopt a "single, inclusive and strategic plan", herein referred to as the Integrated Development Plan (IDP) for the strategic direction of the municipality which links, integrates and coordinates plans and takes into account the existing conditions and problems and aligns the available resources and capacity for development of the municipality through the implementation of the developed plan of council.

Integrated Development Planning is a **process** through which municipalities prepare a strategic development plan, for a five-year period. The Integrated Development Plan (IDP) is a **product** of the integrated development planning process and therefore the IDP has a lifespan of 5 years that is directly linked to the council's elected term of office. The period for this 5-year IDP cycle is **1 July 2022 – 30 June 2027**

The development of legally compliant IDPs for municipalities are demonstrated as per below:

- **IDP process (5-year IDP)**
 - *Process plan*
 - *District IDP Framework*
- **Content of IDPs – drafting of an IDP**
 - *Phase 1: Research, Information Collection and Analysis*
 - *Phase 2: Vision, Objectives and Strategies*
 - *Phase 3: Development of Programmes and Projects*
 - *Phase 4: Integration and Consolidation; and*
 - *Phase 5: Approval, Adoption and Publication.*
- **IDP Review and amendment process**

The process and content requirements form the basis for audit by the Auditor General when establishing whether the adopted IDP is legally compliant or not.

FOREWORD OF THE EXECUTIVE MAYOR

Govan Mbeki local Municipality “A model city of excellence”. This is the vision that the Council of has adopted in its ordinary council meeting that sat on the 28th April 2022. This was done in consideration of all the demographics of the municipality and all the plans that both National and Provincial government has toward the achievement of the vision 2030 (the National Development Plan).

As we are one Government but separated into 3 spheres, it cannot be that our planning happens in silos but rather in a synergized manner. It is for that reason that we have adopted a one plan approach that will see all of us facing one direction towards 2030. This is done in consideration of the fact that the municipality’s planning framework is capped at a 5year periodic interval. Our Integrated Development Plan will carry-out an action plan for our vision moving towards 2030 focusing on the next 5 years starting from year 2022 to year 2027.

The municipality has however started with the preparations of the ground in creating a fertile environment for the new action plan that will be put into action from the 01st July 2022 as the council has now adopted the new IDP. The municipality has already shown its intention to change for the better, as we have in the past financial year managed to improve our audit opinion from a disclaimer status to a qualified opinion.

Council has further affirmed its commitment to change by employing a suitably qualified accounting officer to run with the administration of the municipality. As we all know that Govan Mbeki municipality still remains a financially distressed municipality and operates under the conditions of section 139(5) of the MFMA which is a Financial Recovery Plan (FRP). We must therefore ensure that we remain focused on the course of taking out the municipality from this form of administration and put it under the register of municipalities that are governed cleanly and accordingly.

The gradual improvement on the stability of the municipality that is being created on financial viability and governance must also re-assemble improvement in the manner in which services are delivered to our communities. The reduction on levels of sewer spillages on to the streets and streams of our towns and townships, the constant supply of water to all communities and an improved and reliable supply of electricity are a must be realized near future goal. The dilapidating infrastructure is receiving attention through interventions that seek to replace and that which seek to renew by means of maintenance and upgrading. We are going to do much more on service delivery as we continue to work together with our communities.

Our communities have been hard hit by the economic crisis and also by the COVID19 pandemic and therefore the municipality will continue to giving residence 50% and business 30% off through the approved Debt Incentive Scheme on historical debt from the 01st July 2022 through a renewed method that will see our people being relieved. Public participation is being heightened/accelerated as we had just finalised the consultations on both the needs and budget processes to our people. We are going to ensure the involvement of the people in the governance of this municipality. Our use of social media platforms has been amplified and has a far-reaching contact than before in multiplied quantities.

We are certain that moving forward we are going to enhance public awareness for the purposes of creating consciousness to our people to avoid distraction of public property in future. In the process of putting Govan Mbeki municipality back on track, it becomes very crucial that we create a conducive environment for the 3 components of the municipality in ensuring that they work together for the same purpose. The Community, Council and Administration have to work in a synergized manner so as we can achieve the maximum output to achieve service delivery.

CLLR NG ZUMA
EXECUTIVE MAYOR

GOVAN MBEKI MUNICIPALITY

2022-2027 5TH GENERATION IDP

FOREWORD OF THE MUNICIPAL MANAGER

All credits be given to the successful Local Government Elections held in November 2021 that ushered in the sixth council into all municipalities across the country since the dawn of democracy. This not only marked the beginning of sixth council but in the same breath it also marked an end to the 2017 – 2022 Integrated Development Plan that was adopted by the council elect of the fifth administration that was elected in 2016.

As we bow and take a moment of silence while we acknowledge that the 2021 Local Government elections were held under a new normal brought about by the catastrophic repercussions of the deadly Coronavirus that saw the country declaring for the first time since the dawn of democracy a state of National Disaster which lasted for 750 days in total since its first announcement on the 26th of March 2021.

While it seems that the worst is over due to our government interventions strategies that has ensured a decrease in fatalities and new infections. It remains our great responsibility as responsible citizens not only of this country but this municipality to ensure that we adhere always to the regulations and measures that are from time to time put in place by the department of health.

The financial period 2021/2022 is marked a transitional era between the two administrations namely the fifth and sixth and in transitioning, it is imperative that we recognise with great appreciation the solid leadership provided by the previous council under abnormal circumstances and challenging environment emanating from factors of technological changes brought about migration from one financial system to another and a combination of global, economic and social factors brought about by the Covid 19.

The aftermath of these challenges not only impacted negatively on our livelihood as a municipality but also on the revenue generating abilities of the municipality which in turn impacted on service delivery and the full realization of the integrated development planning objectives as set out in the beginning of the political term of 2016.

I am pleased as the Accounting Officer to present to the community of Govan Mbeki Municipality a 2022 – 2027 Integrated Development Plan as the strategic developmental road map that has been jointly developed by all key and strategic role players of whom are the pillars of Local government namely: council, administration and the community that is inclusive of stakeholders.

The inclusive process of compiling an Integrated Development is not a matter of choice but a must process compelled and regulated by Chapter 5 of by the Local Government: Municipal Systems Act No. 32 of 2000 and regulations, section 25 of the said legislation instructs that

“Each municipal council must, within a prescribed period after the start of its elected term, adopt a single, inclusive and strategic plan for the development of the municipality”.

It is based on this legislative directive that the strategic plan must be aligned with the following four key elements:

- *Links, integrates and co-ordinates plans and takes into account proposals for the development of the municipality*
- *Aligns the resources and capacity of the municipality with the implementation of the plan*
- *Forms the policy framework and general basis on which annual budgets must be based*
- *Is compatible with the national and provincial development plans and planning requirements binding on the municipality*

The Govan Mbeki 2022 – 2027 Integrated Development Plan is a plan developed in consultation with the people and is a compass towards an all-inclusive planning. The 2022 – 2027 Integrated Development Plan, special attention was paid into the 2030 National Development Plan, Mpumalanga Provincial Developmental Plan and District Development Modelling with a view of ensuring strategic alignment, translation and matching of the developmental goals into the local environment of Govan Mbeki Municipality that is aligned to the people voice as gathered during the vigorous public participation process started on the 01st of March 2021 and finalized on 16 March 2022.

The state of our roads and storm water across all wards came out strongly the ageing electricity infrastructure inclusive of public lighting was also raised as priority area proposed for focus in the 2022 – 2027 IDP by the communities in general.

The 2022- 2023 Medium Term Expenditure Framework commonly known as a budget is structured to be responsive in planning for refurbishment of infrastructure thus the critical path and focus point is on development of master plans and conducting feasibility studies for the purpose of costing programmes or projects that will be implemented with a view of resolving the infrastructural challenges.

Govan Mbeki Municipality 2022 – 2027 Strategic Direction

The strategic planning session of the 24 to 25 of March 2022 resolved to amend the vision of the municipality after due consideration of the 2016 – 2022 performance, community inputs into the 2022 – 2027 IDP, Millennium Developmental Goals, 2030 National, Provincial and District government strategic direction.

The vision was amended from **“To be a Model City and a centre of excellence”** into **“A Model City of Excellence”**.

The strategic objective remains unchanged as stated below:

- Revenue enhancement and securing financial sustainability
- Provision of sustainable services, optimising operations and improving customer care
- Facilitation and creation of an enabling environment for diversified local economic development, social cohesion and job creation
- Enhancing the capacity of human capital and deliver institutional transformation
- Development of spatial integrated, safe communities and a protected environment.

These strategic focus areas if resourced properly and implemented to the latter will guide the municipality towards the realization of the vision of **“A Model City of Excellence”**.

Revenue Enhancement and securing financial stability remain priority 1 not only for the municipality but for all because the achievement of this priority will ensure that all priorities are realized without fail.

We envisage this with a realistic view of our current financial position that continues to bleed due to low revenue collection and high creditors book that is dominated by the accounts of Eskom and Rand Water chief amongst other. We cannot ignore the fact that for us to fully realize our IDP strategic objectives, our ability to generate sufficient and sustainable revenue should take centre stage and be put to task. Thus, the task is upon us all to be efficient with the limited resources.

I implore our communities to take full advantage of the Debt Incentive Scheme and settle their accounts with the municipality. Our narrative is slowly changing as we learning to adapt with the aftermath brought about by the environmental factors' challenges, this is reflective on our audit improvement in the financial period 2020/2021 where we received a **qualified audit opinion** with matters of emphasis after a string of **disclaimer opinions** between the financial periods 2017/2018 to 2019/2020.

Comparatively between the period 2015 – 2020 and 2020 – 2025 there is a positive economic growth projection of 1,2% in the period 2020 – 2025 versus the negative growth recorded in the 2015 – 2020 period of -2,3% and this is according to the Mpumalanga Socio Economic Outlook Report (SERO). Although the ideal economic growth under normal circumstance is estimated between 2,5 to 3,5% by economist we must appreciate the opportunity to exploit this projected increase to our benefits as both the community and the municipality.

It is through our Investment Attraction Policy that we going to create an environment for business to trade within our jurisdiction based on the economic segmentation of our towns. During this period, we also paying special focus towards the reviewal and alignment of our Spatial Development Framework (SDF) with our **Model City of Excellence** vision because it is through our SDF that land as an economic factor will be exploited to yield a positive economic growth. The 2022-2027 IDP will see the implementation of two catalytic projects namely: Industrial Park and West of Secunda that will not only provide settlement for our people but provide jobs in the process.

As we kick start the year 2022-2023 implementation of the IDP, we are optimistic that the projected income to the value of **R2,8 billion** with an operational expenditure of R2,7 billion and a capital budget of R149 million will be realised.

These projections are based on not less than 70% collection rate which requires responsible citizens to work jointly with the municipality in respect to servicing their accounts.

The mandate of the municipality will be to respond to the needs of the community. We believe the mandate is realistic and doable.

Thank you

EK TSHABALALA (Mrs.)
ACTING MUNICIPAL MANAGER

GOVAN MBEKI MUNICIPAL STRATEGIC OUTCOMES-BASED PLANNING APPROACH

The below outcome-based IDP planning approach, outlines the Municipal Strategic outcomes-oriented goals and objectives as link to each Municipal Key Performance Area (KPA) , which stated clearly what Govan Mbeki Municipality intends to do and strive to achieved over the five-year period, in line with the municipal vision, mission and values and also how these goals and objectives relate to the national and provincial priorities.

Government's outcomes approach

Results Based Concepts

INTEGRATED DEVELOPMENT PLAN (IDP) OUTCOMES- BASED 2022-2027 PLANNING CYCLE

MUNICIPAL KPA	KPA 1: FINANCIAL SUSTAINABILITY									
Municipal Priority	Improve financial viability of the Municipality through revenue collection & Financial Long Term Plan									
Impact statement: Enhance revenue & secure financial sustainability										
Outcome (Strategic Goal	Outcome indicator (Strategic Objectives	Baseline	Situational analysis	5 year IDP target	Intervention/ Programme)	ANNUAL IMPLEMENTATION				
						2022/23 Outputs	2023/24 Outputs	2024/25 Outputs	2025/26 Outputs	2026/27 Outputs
Improved Revenue Collection	Increase revenue collection	58%	Low Collection Rate Illegal connections, Billing issues, problems Inability to raised funds required to meet the municipal functional requirement Low Collection Rate, Debt collection, Eskom , People poor, Business close	Collection Rate 95%	Meter Audit Key change of SGC codes Installation of meters Cut off Data cleaning	70%	80%	90%	95%	100%
Reduction of Funded Budget	Credible Realistic and Funded budget	Unfunded budget	Unfunded that is not realistic & credible	Reduction of Accounting deficit on Budget and increase of surplus on cashflow	Demonstratable prove of implementation Budget Funding Plan	(R 200 mil)	(R 300 mil)	(R 450 mil)	(R 500 mil)	R 550 mil

CHAPTER 1: INTRODUCTION AND BACKGROUND

1.1 INTRODUCTION AND BACKGROUND

The Integrated Development Plan (IDP) is a municipality's principal strategy planning instrument which guides and informs all planning, budgeting, management and decision-making processes in a municipality as well as the critical development needs within the municipal area of the communities it served.

The IDP is used by municipalities as a tool to plan short and medium- and long-term future developments as it aims to coordinate the work of local and other spheres of government in a coherent plan to improve the quality of life for all the people living in the specific municipal area.

INTEGRATED DEVELOPMENT PLAN

THE INTEGRATED DEVELOPMENT PLAN (IDP)

-  *is adopted by council within one year after a municipal election and remains in force for the council's elected term (a period of five years);*
-  *is drafted and reviewed annually in consultation with the local community as well as interested organs of state and other role players;*
-  *guides and informs all planning and development, and all decisions with*
 -  *regard to planning, management and development;*
-  *forms the framework and basis for the municipality's medium-term expenditure framework, annual budgets and performance management system; and*
-  *seeks to promote integration and coordination of actions across sectors and spheres of government*

FIVE YEAR PRINCIPLE STRATEGIC PLAN

According to Section 25 of the Municipal Systems Act, Act 32 of 2000, it specifies that the IDP must do the following:

-  Link, coordinate and integrate plans
-  Align resources and capacity
-  Form the policy and budgeting framework for the municipality
-  Comply with national and provincial development plans

1.1.1 EVOLUTION OF THE LOCAL DEVELOPMENT PLANNING PRACTICE (TRENDS SINCE 2001)

1 st Generation (2001-2006)	2 nd Generation (2006-2011)	3 rd Generation (2011-2016)	4 th Generation (2016-2021)	5 th Generation (2021-2026)
☐ Eradication of service delivery backlogs	☐ Eradication of service delivery backlogs. ☐ IDP being a plan of all government.	☐ Participation of provincial and national spheres of government. ☐ Alignment of planning and budgeting processes. ☐ Integration of municipal sector plans into the IDP.	☐ Intergovernmental Programme pipelining. ☐ Respond to policy imperatives (NDP, IUDF, SPLUMA). ☐ Spatial planning.	☐ NDP vision 2030 – spatial transformation. ☐ Facilitate spatial integration, growth, inclusion and access. ☐ Alignment with the “One Plan” ☐ Implements the “One Plan”

Integrated Development Planning (IDP) was introduced in South Africa in the 1990s and was subsequently formalised through the White Paper on Local Government, 1998 as well as The Municipal Systems Act, Act 32 of 2000.

The Municipal Systems Act, Act 32 of 2000 (MSA), since 2001 prescribed and requires for all municipalities have been developing and implementing IDPs with the aim of providing household infrastructure and services; creating liveable and integrated cities, towns and rural areas; building vibrant and inclusive local economies; and facilitating community empowerment.

1.1.2 REVISED IDP GUIDELINES

As per the Revised IDP guidelines developed as issued through the Office of the Department of Co-operatives Governance, the focus of the previous four generations of developed IDP's for municipalities since 2001-2021 was characterised by the following aspects and challenges when IDP's were developed and review within municipalities:

- ✚ The first and second generation of IDPs (2001–2006 and 2006–2011) focused on laying a foundation for the systematic eradication of service delivery backlogs. The annual assessment of IDPs conducted during this period noted that national and provincial departments were not actively involved in the process of developing IDPs and as a result IDPs were unable to “link, integrate and coordinate plans” as envisaged by Section 25 of the MSA.
- ✚ During the third generation of IDPs numerous challenges were experienced as noted in the State of Local Government Report (2009). Of critical importance, the report identified the following weaknesses in municipal IDPs:
 - ☐ The poor alignment of municipal priorities, programmes and plans with that of national and provincial governments;
 - ☐ Poor integration of municipal sector plans into IDPs;
 - ☐ Weak alignment between IDPs, municipal budgets and Service Delivery and Budget Implementation Plans;
 - ☐ The inability of many municipalities to plan for services for which they are not directly responsible (e.g. safety and security, health and education);
 - ☐ The lack of meaningful public participation in the development of service delivery master (sector) plans; and
 - ☐ The absence of long-range planning in most municipalities outside metros and secondary cities.
- ✚ The fourth generation of IDPs (2016 -2021) focused mainly on responding to new and emerging policy imperatives.

A number of challenges were also highlighted as experienced by municipalities regarding integrated development planning and service delivery at municipal level.

These challenges include:

- ✚ The poor integration of national and provincial sector plans in the IDPs;
- ✚ Poor alignment between planning, budgeting, implementation, monitoring and reporting processes;
- ✚ Lack of appreciation for the importance of IDPs as intergovernmental planning instruments;
- ✚ Current planning platforms do not provide an opportunity for municipalities to engage timeously with sector departmental plans to be able to adequately incorporate them into their IDPs.
- ✚ The NDP identifies the lack of an effective system for IDPs to gain the national and provincial support they require to be meaningful.

It is against the above background that the IDP guidelines were revised as it aims to provide guidance on how to address the weaknesses highlighted above

1.1.3 IDP LIFE CYCLE 2022/2023-2026/2027

Integrated Development Planning is an elaborate and collaborative planning process which produces a strategic plan designed to guide municipalities and their entities to systematically eradicate service delivery backlogs; encourage socio-economic development; preserve and conserve the natural environment; address spatial disparities of development and deliver on the agreed priorities which are translated into projects with clearly defined outputs and targets within a five-year planning cycle.

1.1.4 ANNUAL REVISION OF THE IDP

According to Section 34 of the Municipal System Act, No 32 of 2000

A municipal council;

- (a) must review its integrated development plan-*
 - (i) annually in accordance with an assessment of its performance measurements in terms of section 41;*
 - and*
 - (ii) to the extent that changing circumstances so demand; and*
- (b) may amend its integrated development plan in accordance with a prescribed process.---*

The IDP has to be reviewed annually in order to:

GOVAN MBEKI MUNICIPALITY

2022-2027 5TH GENERATION IDP

- ❖ *Ensure its relevance as the municipality's strategic plan;*
- ❖ *inform other components of the municipal business process including institutional and financial planning and budgeting; and*
- ❖ *inform the cyclical inter-governmental planning and budgeting cycle.*

The IDP is therefore reviewed annually to :

- ❖ *reflect and report on progress made with respect to the strategy in the 5 year IDP;*
- ❖ *make adjustments to the strategy if necessitated by changing internal and external circumstances that impact on the appropriateness of the IDP;*
- ❖ *determine annual targets and activities for the next financial year in line with the 5 year strategy; and*
- ❖ *inform the municipality's financial and institutional planning and most importantly, the drafting of the annual budget.*

1.1.5 WHAT THE IDP ANNUAL REVISIONS ARE NOT

It is imperative to document and note that:

- ❖ The **four annual revisions of the IDP is Not** a replacement or amendment of this drafted Five (5) year IDP 2022/2023-2026/2027
- ❖ The **reviews of this IDP is Not** meant to interfere with the 5-year strategic orientation of the municipality.
- ❖ Also, throughout the Five (5) Year Cycle **any version of the IDP Review should always be read in conjunction with the approved Five (5) Year IDP 2022/2023-2026/2027 document.**

The main aim of IDP is to facilitate improved quality of life for the people living, learning, playing or working in the area as it is at the centre of the system of developmental local government in South Africa, representing the driving force for making municipalities more strategic, inclusive, responsive and performance-driven in character.

All municipalities have to produce an Integrated Development Plan (IDP). Local municipalities in South Africa have to use integrated development planning as a method to plan future development in their areas.

An Integrated Development Plan is a super plan for an area that gives an overall framework for development. It aims to co-ordinate the work of local and other spheres of government in a coherent plan to improve the quality of life for all the people living in an area.

It should take into account the existing conditions and problems and resources available for development. The plan should look at economic and social development for the area as a whole. It must set a framework for how land should be used, what infrastructure and services are needed and how the environment should be protected.

The municipality is responsible for the co-ordination of the IDP and must draw in other stakeholders in the area who can impact on and/or benefit from development in the area. Integrated Development Planning is an approach to planning that involves the entire municipality and its citizens in finding the best solutions to achieve good long-term development.

Previously adopted versions of the Govan Mbeki Municipal IDP's are available on the municipal website www.govanmbeki.gov.za

1.2 IDP GUIDING PRINCIPLES AND LEGAL REQUIREMENTS

The formulation of the IDP is predominantly guided by various pieces of legislation, policies and guidelines, which have to be carefully considered when the document is compiled. These principles and requirements amongst others include the following:

1.2.1 CONSTITUTION OF REPUBLIC OF SOUTH AFRICA (RSA), Act 108 of 1996

The constitution is the cornerstone of democracy in South Africa and is the basis of social agreement between government and the community. The character of the current system of local government is informed by the Constitution of the Republic of South Africa, Act 108 of 1996. The Constitution of the Republic of South Africa outlines the type of local government needed in the context of a developmental state.

Sections 152 and 153 of the constitution prescribe that local government should be in charge of the development process and municipal planning as per the following five (5) objects for local government which made provisions for all municipalities to strive for the realisation of these objectives within their financial and administrative capacity:

(S152) The objects of local government are to:

- ☐ provide democratic and accountable government for local communities;
- ☐ ensure the provision of services to communities in a sustainable manner;
- ☐ promote social and economic development; V
- ☐ promote a safe and healthy environment; and
- ☐ encourage the involvement of communities and community organizations in the matters of local government.

1.2.2 WHITE PAPER ON LOCAL GOVERNMENT (1998)

The White Paper on Local Government gives municipalities the responsibility to “work with citizens and groups within the community to find sustainable ways to address their social, economic and material needs and improve the quality of their lives”.

1.2.3 MUNICIPAL SYSTEMS ACT, NO 32 OF 2000

The Municipal Systems Act, Act 32 of 2000 obligates all municipalities to undertake a process of preparing and implementing IDPs. In so far as the development of IDPs is concerned is the Municipal Systems Act 32 of 2000, it is the principal legislation, which mandates each municipal council to adopt a single, inclusive and strategic plan for the development of the municipality.

This Act defines integrated development planning as one of the core functions of a municipality in the context of its developmental orientation. The plan should be strategic and inclusive in nature.

As to Section 25 (1) of the MSA, No. 32, it requires Each municipal council must, within a prescribed period after the start of its elected term, adopt a single, all-inclusive and strategic plan for the development of the municipality which;

- a) Link, integrate and coordinate plans and take into account proposals for the development of the municipality.
- b) Align the resources and capacity of the municipality with the implementation of the plan.
- c) Form the policy framework and general basis on which annual budgets must be based.
- d) Be compatible with national and provincial development plans and planning requirements that are binding on the municipality in terms of legislation.

1.2.4 MUNICIPAL FINANCE MANAGEMENT ACT NO 53 OF 2003

This Act makes provision for alignment between the IDP and the Municipal Budget. The Service Delivery and Budget Implementation Plan is the mechanism that ensures that the IDP and the Budget are aligned.

The Municipal Finance Management Act (MFMA) aims to modernise budget and financial management practices in municipalities in order to maximise the capacity of the municipalities to deliver services to all their residents, customers and users.

It also gives effect to the principle of transparency as required by sections 215 and 216 of the Constitution.

The Municipal Finance Management Act (MFMA) states that the Mayor of a municipality must;

- ☐ Co-ordinate the processes for preparing the annual budget and for reviewing the municipality's IDP and budget-related policies to ensure that the tabled budget and any revisions of the IDP and budget-related policies are mutually consistent and credible;
- ☐ At least 10 months before the start of the budget year, table in the municipal council a time schedule outlining key deadlines for;
- ☐ The preparation, tabling and approval of the annual budget;
- ☐ The annual review of the IDP in terms of section 34 of the MSA; and the budget-related policies;

Section 21(2) of the Municipal Finance Management Act states that, when preparing the annual budget, the Mayor of a municipality must:

- ☐ Take into account the municipality's Integrated Development Plan;
- ☐ Take all reasonable steps to ensure that the municipality revises the IDP in terms of section 34 of the MSA, taking into account realistic revenue and expenditure projections for future years

1.2.5 INTERGOVERNMENTAL RELATIONS FRAMEWORK ACT NO 13 OF 2000

The Act recognises the importance of local government's full participation in intergovernmental relations, as it is the key site of service delivery and development. Municipal IDP's must interpret national policy into an investment plan for local infrastructure; hence the implementation of the IDP must be supported by appropriate budgetary and resource allocations.

The IDP should reflect the integrated planning and development intent of all spheres of government relevant to a particular municipal geographic space. It contains provisions that support the principles of co-operative government. In an effort to meet the challenge of Co-operative Governance, the three spheres of government must develop intergovernmental forums at national and provincial level dealing with issues of alignment, integration and coherence.

The effective implementation of the IDP can only be attained if government across all spheres is committed towards the common goal of rendering quality services; hence the IGR Act seeks to enhance alignment between spheres of government.

A system of intergovernmental relations has the following strategic purposes:

- ☐ To promote and facilitate cooperative decision-making.
- ☐ To coordinate and align priorities, budgets, policies and activities across interrelated functions and sectors.
- ☐ To ensure a smooth flow of information within government, and between government and communities, with a view to enhancing the implementation of policy and programmes.
- ☐ The prevention and resolution of conflicts and disputes.

1.2.6 LG: Municipal Planning and Performance Management Regulations (2001)

The Regulations make provision for the inclusion in the IDP of the following:

- ☐ The institutional framework for the implementation of the IDP;
- ☐ Investment and development initiatives in the Municipality;
- ☐ Key performance indicators and other important statistical information;
- ☐ A financial plan; and
- ☐ A spatial development framework.

1.3 NATIONAL, PROVINCIAL AND DISTRICT EXTERNAL POLICY DIRECTIVES AND ALIGNMENT

During the annual IDP review process our thinking, deliberations, planning and budgeting approach are guided and informed by the following International, National , Provincial and District strategic policy imperatives as listed below:

- ☐ National Development Plan Priorities(2030 Vision)
- ☐ Sustainable Development Goals
- ☐ National Key Performance Areas
- ☐ The Back to Basics Programme for municipalities (2014).
- ☐ 2019-2024 Medium Term Strategic Framework Priorities 7 Apex Priorities
- ☐ The new growth path
- ☐ National and Provincial Spatial Development Frameworks , Directives and Proposals
- ☐ National government's outcomes -based approach to delivery
- ☐ Provincial Strategic Objectives / Mpumalanga Provincial Strategic Plan (2014-2019)
- ☐ District Development Model One plan
- ☐ District Strategic Objectives
- ☐ The Integrated Urban Development Framework (2016).
- ☐ 2021 Electoral Mandate
- ☐ Joint MFMA Circular 88 Addendum
- ☐ National, Provincial, and District Economic Reconstruction and Recovery Plan
- ☐ Municipal Support and Intervention Plan
- ☐ National Strategic plan on GBVF
- ☐ Revised IDP Guidelines
- ☐ Previous IDP analysis Report (MEC) / Annual IDP Assessments
- ☐ Other relevant National AND Provincial Policies and Plans
- ☐ 2022 SONA, SOPA & SOMA

These relationships can assist in enhancing Governments services to the communities of Govan Mbeki. The municipality acknowledge and take highly note of the implications of the NDP, MTSF, B2BStrategy and IMSP policy directives in terms of service delivery planning, budgeting, implementation, reporting and accountability.

The municipality fosters relations with other spheres of government and participates in various intergovernmental activities to promote a closer working relationship between the various spheres of government. One of the key objectives of the IDP is to ensure alignment between national and provincial priorities, policies and strategies.

1.3.1 NATIONAL DEVELOPMENT PLAN (NDP) 2030

The National Development Plan (NDP) is a “**multidimensional strategic framework**” to bring about development by guiding **key choices and actions**

- Cornerstones of the NDP include **strategic and visionary leadership** at all levels, an active citizenry and effective government
- “Progress over the next decade means **doing things differently**”
- Provinces were directed by the NPC to “**integrate** NDP proposals and priorities within provincial government programmes” by reflecting these in the
 - planning framework
 - resource allocation and
 - performance monitoring processes.

NDP = “high level planning” for Provincially ***focused implementation***”.

The National Development Plan aims to eliminate poverty and reduce inequality by 2030.

1.3.1.1 NDP 2030: TEN CRITICAL ACTIONS FOR IMPLEMENTATION

- Social compact to reduce poverty and inequality, and raise employment and investment.
- Address poverty and its impacts by broadening access to employment, strengthening the social wage, improving public transport and raising rural incomes.
- Professionalise the public service, strengthen accountability, improve coordination and prosecute corruption.
- Boost private investment in labour-intensive areas, competitiveness and exports, with adjustments to lower the risk of hiring younger workers.
- Education accountability chain, with lines of responsibility from state to classroom.
- Phase in national health insurance, with a focus on upgrading public health facilities, producing more health professionals and reducing the relative cost of private health care.
- Public infrastructure investment at 10 % of GDP, financed through tariffs, public-private partnerships, taxes and loans and focused on transport, energy and water.
- Interventions to ensure environmental sustainability and resilience to future shocks.
- New spatial norms and standards – densifying cities, improving transport, locating jobs where people live, upgrading informal settlements and fixing housing market gaps.
- Reduce crime by strengthening criminal justice and improving community environments.

The broad goal of this plan is to reduce unemployment, alleviate poverty and reduce inequality by 2030.

Govan Mbeki Municipality endorses the thrust of the National Development Plan and has aligned its development strategies and resources to bring about optimal growth and development at all levels within the virtuous cycle. In 2012, the National Cabinet adopted the National Development Plan (NDP), to serve as a blueprint for the work that is still required in order to achieve the desired results in terms of socio-economic development and the growth throughout South Africa by 2030.

1.3.2 SUSTAINABLE DEVELOPMENT GOALS

The United Nations adopted a new development agenda aimed at facilitating the reduction of worldwide poverty, improved prosperity and economic development and at the same time ensuring the conservation of the natural resources of the planet. The Seventeen (17) Sustainable Development Goals (SDGs) has been developed as part of a wider 2030 Agenda for Sustainable Development to build on the global impact of the former Eight (8) Millennium Development Goals (MDGs).

On 1 January 2016, the 17 Sustainable Development Goals (SDGs) of the 2030 Agenda for Sustainable Development was adopted by world leaders in September 2015 at an historic United Nations Summit officially came into force. Over the next fifteen years, with these new Goals that universally apply to all, countries will mobilise efforts to end all forms of poverty, fight inequalities and tackle climate change, while ensuring that no one is left behind.

The Sustainable Development Goals build on the success of the Millenium Development Goals aim to go further to end all forms of poverty. The new Goals are unique in that they call for action by all countries, poor, rich and middle-income to promote prosperity while protecting the planet.

They recognize that ending poverty must go hand-in-hand with strategies that build economic growth and addresses a range of social needs including education, health, social protection, and job opportunities, while tackling climate change and environmental protection.

1.3.3 NATIONAL KEY PERFORMANCE AREAS FOR MUNICIPALITIES

CoGTA assess the progress made by municipalities against five Key Performance Areas (KPAs) and cross-cutting interventions adopted in the 5-Year Local Government Strategic Agenda. The five KPAs that form the basis of the assessments are:

- ☐ Municipal Transformation and Organisational Development;
- ☐ Basic Service Delivery;
- ☐ Local Economic Development (LED);
- ☐ Municipal Financial Viability and Management; and
- ☐ Good Governance and Public Participation.

The above allow CoGTA to determine how well each municipality is performing, compare its performance to targeted goals, create measures to improve performance, identify the municipalities that have under-performed and propose remedial action to be taken to improve performance of municipalities.

1.3.4 THE MEDIUM-TERM STRATEGIC FRAMEWORK (MTSF)

The National 2019-24 Medium Term Strategic Framework (MTSF) is currently the country plan which outlines the priorities of the electoral mandate if the sixth administration, towards the implementation of the National Development Plan (NDP).

The Medium Term Strategic Framework (MTSF) for 2014 to 2019 was the first five-year building block of the NDP as well as themed taking the first step towards the 2030 vision for South Africa as described in the NDP.

The 2019-2024 Medium Term Strategic Framework (MTSF) is the second step towards this vision and the third step will be in 2029

1.3.4.1 Institutionalisation of the MTSF 2019 -2024

- The achievement of the NDP goals demands a cooperative relationship across national, provincial and local governments, and across the social partners including the private sector; labour; and civil society.
- The three spheres of government need to work collaboratively to ensure alignment between their powers and functions, the planning processes, budget allocation processes and coordinated implementation.
- The amendment of the Inter-Governmental Relation Act, PFMA, MFMA to align with new requirements
- Priorities must be clearly articulated in the short and medium-term plans across the spheres of government.
- Oversight must be provided to assess draft strategic and annual performance plans before tabling in legislatures to ensure alignment to the development priorities of government.
- The overriding principle is that the whole of government should take collective ownership of the priorities and responsibility for achieving these within the contexts of their respective mandates.

1.3.4.2 The Seven Priorities derived from the Electoral Mandate + SONA

Below are the National 7 Priorities as announced by the President during the State of the Nation Address in July 2019, following key interventions during the 2019-2024 MTSF period:

1.3.5 BACK TO BASICS STRATEGY

The Technical Presidential Coordinating Council (PCC) of 4 July 2014 received a presentation and briefing from the Department of Cooperative Governance and Traditional Affairs (CoGTA) on the development of a new approach to revitalise and strengthen the performance of the local government sector. Subsequently, the PCC endorsed the Back-to-Basics Approach and its implementation.

The evolution of this Programme within CoGTA has resulted in the concept and approach for:

- ❑ Back to Basics: Serving Our Communities Better
- ❑ Back to Basics to Build a Responsive, Caring and Accountable Local Government

The overall objective of the “Back to basics” strategy is to improve the functioning of municipalities to better serve communities by getting the basics right.

P1	• Capable, Ethical and Developmental State
P2	• Economic Transformation and Job Creation
P3	• Education, Skills and Health
P4	• Consolidating Social Wage through Reliable and Basic Services
P5	• Spatial Development, Human Settlements and Local Government
P6	• Social Cohesion, Safer communities
P7	• A Better Africa and a Better World
Government priority areas over MTSF period	

1.3.6 INTERGATED URBAN DEVELOPMENT FRAMEWORK

The IUDF is our National Urban Policy which marks a New Deal for South African cities and towns. The framework will steer urban growth towards a sustainable model of compact, connected and coordinated towns and cities. It provides a roadmap to implement the NDP's vision for spatial transformation – creating liveable, inclusive and resilient towns and cities while reversing the apartheid spatial legacy.

The IUDF provides key principles and policy levers for creating better urban spaces. It seeks to strengthen urban-rural linkages, promote urban resilience, create safe urban spaces and ensure that the needs of the most vulnerable groups are addressed. The IUDF aims to guide the development of inclusive, resilient and liveable urban settlements, while directly addressing the unique conditions and challenges facing South Africa's cities and towns.

To achieve this transformative vision, four overall strategic goals are introduced:

- **Spatial integration:** To forge new spatial forms in settlement, transport, social and economy
- **Inclusion and access:** To ensure people have access to social and economic services, opportunities and choices.
- **Growth:** To harness urban dynamism for inclusive, sustainable economic growth and development.
- **Governance:** To enhance the capacity of the state and its citizens to work together to achieve spatial and social integration.

The following entails the **Integrated Urban Development Frameworks 8 policy levers** aimed towards addressing the structural drivers that will promote that current scenario of cities and towns:-

- ❑ **Policy Lever 1:** Integrated Spatial Planning.
- ❑ **Policy Lever 2:** Integrated Transport and Mobility.
- ❑ **Policy Lever 3:** Integrated and Sustainable Human Settlements.
- ❑ **Policy Lever 4:** Integrated Urban Infrastructure.
- ❑ **Policy Lever 5:** Efficient Land Governance and Management.
- ❑ **Policy Lever 6:** Inclusive Economic Development.
- ❑ **Policy Lever 7:** Empowered Active Communities.
- ❑ **Policy Lever 8:** Effective Urban Governance.

1.3.7 NATIONAL SPATIAL DEVELOPMENT PERSPECTIVE

The vision of the NSDP is that South Africa will become a nation in which investment in infrastructure and in development programmes will support Governments growth and development objectives.

The guidelines put forward by the NSDP are: (1) prioritise investment and development spending in line with Government’s objectives, and investment and expenditure should maximise and achieve sustainable outcomes. (2) Spatial forms and arrangements must be conducive to achieving social and economic inclusion and strengthening nation-building.

The National Spatial Development Perspective (NSDP) is a critical instrument for policy coordination, with regard to the spatial implications of infrastructure programmes in national, provincial and local spheres of government.

IUDF vision for South African cities, towns and villages

‘Liveable, safe, integrated, economically inclusive and globally competitive, where residents actively participate in urban life’.

1.3.8 NATIONAL GOVERNMENT’S OUTCOMES-BASED APPROACH TO DELIVERY.

National Government has agreed on 12 outcomes as a key focus of work between now and 2014. These outcomes have been expanded into high-level outputs and activities, which in turn formed the basis of a series of performance agreements between the President and relevant Ministers. Whilst all of the outcomes can to some extent be supported through the work of local government, Outcome 9 , A responsive, accountable, effective and efficient local government system) and its7 outputs are specifically directed at local government.

NATIONAL GOVERNMENT'S OUTCOMES FOR LOCAL GOVERNMENT	
Output 1: Implement a differentiated approach to municipal financing, planning and support; Output 2: Improving access to basic services; Output 3: Implementation of the Community Work Programme; Output 4: Actions supportive of the human settlement outcome;	Output 5: Deepen democracy through a refined Ward Committee model; Output 6: Administrative and financial capability; and Output 7: Single window of coordination.

1.3.9 PROVINCIAL EXPRESSION

1.3.9.1 Mpumalanga Vision 2030

Mpumalanga Vision 2030 provides a provincial expression of the key priorities, objectives and targets enumerated in the NDP and expressed within the manifesto. It is a focused and strategic implementation framework that provides a direct implementation response to the National Development Plan. The framework describes the Province's approach to realizing the objectives of the NDP in the provincial context. It builds on and informs past & existing sectoral and related planning interventions in Mpumalanga.

The Mpumalanga Vision 2030 (MP V2030) seeks to locate the NDP within the provincial space. It provides a clear roadmap that will guide the Provincial Government in its quest for the realisation of the outcomes outlined by the NDP. In short, it is a focused and strategic implementation framework that provides a direct implementation response to the National Development Plan.

It further prioritise those important aspects of the NDP that relates directly to the situation of the Province, including the mechanisms and conditions that will be pursued to achieve the key priorities, objectives and targets enumerated in the NDP.

In line with the principles of the NDP, the MP V2030 highlights the following socio-economic outcomes as priorities:

- Employment and economic growth
- Education and training
- Health care for all
- Social protection

These priorities do not imply that the “normal business of government” should be deferred, but rather aim to focus the activities and decisions of the Province on key areas leveraging high impact for improved and sustainable long term socio-economic development in Mpumalanga.

The achievement of these outcomes is further dependent on the critical success factors described as “mechanisms” and “conditions” below:

- Economy and employment
- Improving education, training and innovation
- Health care for all
- Social protection

SOCIO-ECONOMIC OUTCOMES

- Economic infrastructure
- Transforming human settlements
- Environmental sustainability and reliance
- Inclusive rural economy

MECHANISMS

- Building a capable and developmental state
- Fighting corruption
- Building supportive, safe and cohesive communities

CONDITIONS

Mpumalanga Vision 2030 Strategic Pillars

1.3.9.2 MPUMALANGA ECONOMIC GROWTH AND DEVELOPMENT PATH

The primary objective of the Mpumalanga Economic Growth and Development Path (MEGDP) is to foster economic growth that creates jobs, reduces poverty and inequality in the Province. The MEGDP is centred on the following Pillars:

- | | |
|---|---|
| <ul style="list-style-type: none">☐ Job creation☐ Inclusive and shared growth of a diversified economy☐ Spatial distribution | <ul style="list-style-type: none">☐ Integration of regional economies☐ Sustainable human development☐ Environmental sustainability |
|---|---|

1.3.10 District Goals

The Gert Sibande District municipal goals are to:

- ☐ Provide equitable, consistent and sustainable services to the community
- ☐ Improve Socio-economic Growth
- ☐ Achieve and Sustain Financial Viability within all 8 Municipalities
- ☐ Strengthen Municipal capability

1.4 District Development Model

The District Development Model, DDM, draws from the White Paper on Local Government (1998), which locates the role of local government as critical in “rebuilding local communities and environments, as the basis for a democratic, integrated, prosperous and truly non-racial society”.

It is a practical Intergovernmental Relations (IGR) mechanism for all three spheres of government to work jointly and to plan and act in unison, whilst creating a conducive environment for other development partners. The Intergovernmental Relations (IGR) Framework Act of 2005 provides for the Minister (and department) responsible for cooperative governance to provide “a framework for coordinating and aligning development priorities and objectives between the three spheres of government” as well as the development of “indicators for monitoring and evaluating” the implementation of the framework.

Thus, the Model utilises and enhances these frameworks and the existing implementation machinery by facilitating for joint planning, joint budgeting, implementation as well as monitoring and evaluation, between and amongst all spheres of governance wherein the term District refers to geographic area rather than the District Municipality.

President, Cyril Ramaphosa in the State of the Nation Address (SoNA) indicated that it is time for government to break away from the silo mentality of working and went on to introduce a new approach called the District Development Model (DDM). The DDM was subsequently adopted by cabinet on the 21st of August 2019.

The District Development Model (DDM) is an operational model for improving Cooperative Governance aimed at building a capable, ethical Developmental State. It embodies an approach by which the three spheres of government and state entities work in unison in an impact-oriented way, and where there is higher performance and accountability for coherent service delivery and development outcomes.

It is a method of government operating in unison focusing on the municipal district and metropolitan spaces as the impact areas of joint planning, budgeting and implementation.

The President also highlighted that the DDM will help government address the triple challenges of poverty, unemployment and inequality.

Informed by the National Development Plan (NDP) and the Integrated Urban Development Framework (IUDF) and other government policies, legislations and previous similar programmes, the DDM seeks to ensure maximum coordination and cooperation among all three spheres of government (National, provincial and local).

The new District Development Model aims to improve the coherence and impact of government service delivery with focus on 44 Districts and 8 Metros around the country as development spaces that can be used as centres of service delivery and economic development, including job creation which will be further synchronized with Integrated Development Plans (IDPs) of municipalities.

Each district and metro plan will develop a long-term government agenda in these spaces and unpack at least the following developmental issues:

- Managing urbanisation, growth and development;
- Supporting local economic drivers;
- Accelerating land release and land development;
- Investing in infrastructure for integrated human settlement, economic activity and the provision of basic services; and
- Addressing service delivery in municipalities.

The District Development Model is a new integrated planning model for Cooperative Governance which seeks to be a new integrated, district-based, service delivery approach aimed at fast-tracking service delivery and ensure that municipalities are adequately supported and resourced to carry out their mandate.

The District Development Model has been approved by government structures, including Cabinet to integrate service delivery that will be more practical, achievable, implementable, measurable and clearly aligned to the key priorities of the government. The model seeks to change the face of rural and urban landscapes by ensuring complementarity between urban and rural development, with a deliberate emphasis on local economic development.

APPROACH TOWARDS ONE PLAN

1.4.1 VISUALIZING THE MODEL:

A New Integrated Planning Model for Cooperative Governance is Needed - District/Metro Scale:

- The Plan will **harmonize IDPs** and create interrelated, interdependent as well as 'independent' development hubs supported by comprehensive detailed plans
- The plan is an Inter and intra governmental and society wide **Social Compact**; AND
- The One **Plan will be strategic and Long-Term in nature, with medium term strategic plans and short term operational plans** all expressing the commonly agreed diagnostics, strategies and actions.

1.4.2 What is the One Plan?

- A One Plan is an Intergovernmental Plan setting out a long-term strategic framework to guide investment and delivery in relation to a specific district or metropolitan space.
- It is collaboratively produced by all three spheres of government (“Co-Created”) informed by Existing Plans of all three spheres of government.
- It confirms what is in Existing Plans, refines as necessary and identifies key strategic gaps/issues.
- It expresses IG agreement, alignment, and commitments and is therefore not a detailed development plan.
- Adopted collectively by all three spheres of government and stakeholders as an IGR and Social Compact:
 - Shared understanding of the space
 - Agreement on priorities
 - Common vision and measurable outcomes
 - Targets and Commitments

1.4.2.1 One Plan Roadmap

1.4.3 SUMMARY OF GOVAN MBEKI MUNICIPAL CONTRIBUTION TO THE DISTRICT DEVELOPMENT MODEL (DDM) , LONG TERM INITIATIVES

LONG TERM INITIATIVE GOVAN MBEKI MUNICIPALITY CONTRIBUTION OT THE DISTRICT DEVELOPMENT MODEL			
PRIORITY INTERVENTIONS	ESTIMATED BUDGET	TIME LINES	SOCIAL PARTNERS
<u>Basic Infrastructure: Water/ Sanitation / Energy/ Waste Removal</u> ☐ Basic infrastructure provision (water, sanitation , energy and waste removal services to the following areas: ✓ Extension 13 & 14 ✓ Embalenhle Extension 16, 18, 20 & 25 ✓ Extension 24/25	Not Determined	2022- 2025	GMM/COGTA/MIG/GMM
<u>ROADS</u> ☐ Upgrade And Maintenance of Roads: Secunda/Embalenhle provincial road and P185 Trichardt Road and Transfer of Provincial roads with the municipality	Not Determined	2022-2025	GMM/Public Works
<u>HUMAN SETTLEMENTS</u> ☐ Formalisation of Informal Settlements and Relocation ☐ Intensify Promotion of PPP through FLISP Programme . Affected areas are: Embalenhle Ext 11, Kinross 30, Leslie Extension 8, Winkelhaak Portion 133	Not Determined	2022-2025 2022-2023	GMM/PDOHS/Local Mining Houses (SLP's)
<u>LED / TOURISM/ SKILLS DEVELOPMENT</u> ☐ Implementation of Urban Design and Tourism Routes ☐ SLP /CSI advocacy for Portable skills Programmes across economic sectors	Not Determined	2022-2025 2022-2025	GMM/MTPA/ GSDM/PDOT GMM/LED Forum
<u>INDUSTRIAL PARK</u>	Not Determined	2022-2025	GMM / DEDET/SASOL

LONG TERM INITIATIVE GOVAN MBEKI MUNICIPALITY CONTRIBUTION OF THE DISTRICT DEVELOPMENT MODEL			
PRIORITY INTERVENTIONS	ESTIMATED BUDGET	TIME LINES	SOCIAL PARTNERS
Govan Mbeki Industrialization Programme			
<u>REVERSING THE IMPACT OF COVID 19 ON THE ECONOMIC SECTORS</u> Programme (TREP) to foster the resurgence of the Township Economy	Not Determined	2022-2023	GMM/DEDET/GSDM
<u>URBAN DESIGNS</u> Implementation of approved Urban Designs for Bethal / Emzinoni / Embalenhle and Lebohang	Not Determined	2022-2023	GMM
<u>RURAL DEVELOPMENT AND AGRICULTURE</u> Rural Development	Not Determined	2022-2023	GMM/DARDLA/Local business
<u>ALTERNATIVE ENERGY</u> ☐ Greening of Municipal Buildings by implementation of Green Energy Strategy to conserve energy consumption Partner with potential alternative energy suppliers (Turbine/Solar initiatives) and land identification	Not Determined	2022-2023	GMM/IPP's

1.5. STATUS ON MEC REVIEW AND OBSERVATIONS ON DRAFT 2022/2023-2026/2027 IDP ASSESSMENT

Section 34 of the Municipal Systems Act, 32 of 2000 requires that a municipality annually review its Integrated Development Plan (IDP) in line with an assessment of its performance and when there are changing circumstances in the municipal environment by following a prescribed process.

The findings, proposed recommendations, observations and comments received from the Honourable MEC for COGTA on Govan Mbeki Municipality's Draft 2022/2023- 2026-2027 IDP are accepted and acknowledge and serves as guidelines to assist the municipality to improve the IDP by addressing the identified Gaps on the IDP.

CHAPTER 2: IDP PLANNING PROCESS

PHASES OF IDP DRAFTING AND ANNUAL REVIEW PROCESS

The phases in the IDP & Budget process which guide the annual review and the important activities, deliverables to be considered during the different **five (5) phases of the IDP** and Budget process are demonstrated and discussed as follows:

2.1 IDP FIVE (5) PHASES

PHASE 1: ANALYSIS

During this phase information is collected on the existing conditions within the municipality. It focuses on the types of problems faced by people in the area and the causes of these problems.

The identified problems are assessed and prioritised in terms of what is urgent and what needs to be done first. Information on availability of resources is also collected during this phase. At the end of this phase, the municipality will be able to provide:

- ☐ An assessment of the existing level of development
- ☐ Details on priority issues and problems and their causes
- ☐ Information on available resources.

PHASE 2: STRATEGIES

During this phase, the municipality works on finding solutions to the problems assessed in phase one. The Mayoral Committee and Management discuss strategic issues such as vision, mission, future directions, strategic outcomes and outputs as well as measures and targets for each strategic output.

PHASE 3: PROJECTS, PROGRAMMES and CAPITAL BUDGET

During this phase the municipality works on the design and content of projects/programmes identified during Phase 2. Clear details for each project have to be worked out and budget provision needs to be made for the next 3 years with updated cost estimates.

PHASE 4: INTEGRATION

Once all projects have been identified, the municipality has to check again that they contribute to meeting the objectives outlined in Phase 2. These projects will provide an overall picture of the development plans. All the development plans must now be integrated. The municipality should also have overall strategies for issues like dealing with poverty alleviation and disaster management. These strategies should be integrated with the overall IDP.

PHASE 5: APPROVAL

Finalisation and approval of draft IDP and draft annual budget by end March annually. Make public the draft IDP and draft budget for comments and submissions. Consultation with communities and stakeholders and then final approval by Council by end May annually.

2.2 IDP AND BUDGET PROCESS

As a municipality's principal strategic document, the IDP is drafted and review annually in consultation with the local community as well as interested organs of state and other role players, taking into account the existing conditions and problems and resources available for development as it deals with the most critical development needs of the municipal area (external focus) as well as the most critical governance needs of the organisation (internal focus).

In order to ensure certain minimum quality standards of the IDP process and a proper coordination between and within the spheres of government, the preparation of the planning process is regulated by the Municipal Systems Act, No 32 of 2000, Section 28 of the Systems Act stipulates that;

Section 28 of the Municipal Systems Act, No 32 of 2000 stipulates that:

- ☐ Each Municipal Council must adopt a process set out in writing to guide the planning, drafting, adoption and review of the IDP.
- ☐ The municipality must through appropriate mechanisms, processes and procedures established in terms of Chapter 4, consult the local community before adopting the process.
- ☐ A municipality must give notice to the local community of particulars of the process it intends to follow.

Further to the abovementioned legislation, the drafting and preparation of The 2021/2021 IDP Review and Budget Process Plan / Time Schedule and its activities of Govan Mbeki Municipality is guided in terms of the following legal frameworks as well:

Section 21 (1) (a) and (b) of the Municipal Finance Management Act. No 56 of 2003 states the following
The Mayor of a municipality must;

(a) Co-ordinate the processes for preparing the annual budget and for reviewing the municipality's integrated development plan and budget-related policies to ensure that the tabled budget and any revisions of the integrated development plan and budget-related policies are mutually consistent and credible;

(b) At least 10 months before the start of the budget year, table in the municipal council a time schedule outlining key deadlines for-

- i. The preparation, tabling and approval of the annual budget;

- ii. The annual review of-

- (aa) the integrated development plan in terms of section 34 of the Municipal Systems Act; and

- (bb) the budget related policies.

- iii. the tabling and adoption of any amendments to the integrated development plan and the budget-related policies; and

- iv. any consultative processes forming part of the processes referred to in subparagraphs (i), (ii) and (iii).

Section 29(1) of the Municipal Systems Act stipulates the following:

The process followed by a municipality to draft its integrated development plan, including its consideration and adoption of the draft plan, must –

- ☐ be in accordance with a predetermined programme specifying timeframes for the different steps;
- ☐ through appropriate mechanisms, processes and procedures established in terms of Chapter 4 allow for (i) the local community to be consulted on its development needs and priorities; (ii) the local community to participate in the drafting of the IDP; and (iii) organs of state, including traditional authorities, and other role players to be identified and consulted on the drafting of the integrated development plan;
- ☐ provide for the identification of all plans and planning requirements binding on the municipality in terms of national and provincial legislation; and
- ☐ be consistent with any other matters that may be prescribed by regulation

2.3 PUBLIC PARTICIPATION AND STAKEHOLDER INVOLVEMENT

2.3.1 CREDIBILITY AND THE RELIABILITY OF THE IDP REVIEW CONSULTATION PROCESS AS WELL AS THE ALIGNMENT TO NATIONAL AND PROVINCIAL PRIORITIES.

The integrated development planning process is participatory in nature and requires input from various role-players, namely:

The municipal stakeholders

- ☐ The IDP is about determining the stakeholder and community needs and priorities.
- ☐ Community and stakeholder participation in determining those needs is therefore at the heart of the IDP process.
- ☐ The Constitution and the Municipal Systems Act clearly stipulates that the municipality must mobilise the involvement and commitment of its stakeholders by establishing an effective participatory process.
- ☐ The municipality particular ensure participation of previously disadvantaged groups. so that their voices could be heard.
- ☐ The nature of the IDP process is therefore such that it allows all stakeholders who reside or conduct business within a municipal area to contribute to the preparation and implementation of the development plan.
- ☐ By abstaining from participating, stakeholders empower other people to make decisions on their behalf, which decisions might not be in their interest.

Provincial and National sector departments

- ☐ The IDP should guide where sector departments allocate their resources at local government level.
- ☐ At the same time, the municipality should take into consideration the sector departments' policies and programmes when developing its own policies and strategies.
- ☐ It is in the interest of the sector departments, therefore to participate in the integrated development planning

2.3.2 METHODS OF PUBLIC CONSULTATION MECHANISMS

Various Methods of consultation mechanisms as listed below were also applied as part of the IDP consultation mechanisms to ensure meaningful relationships between communities and the municipality with regards to the review of the IDP .

Methods of consultation mechanisms:

- ☐ Virtual Platforms
- ☐ Social Media Communication (Facebook / WhatsApp Voice Note)
- ☐ Municipal Website
- ☐ Radio Talk Shows and Announcements

- ☐ Mayoral Izimbizo
- ☐ Newspaper Articles, Newsletters and Pamphlets on Municipal Notices Boards
- ☐ Submission of public representations, inputs and requests
- ☐ Drop box/ Drop-off points for submissions of written comments as set up in the various regions at security entrances of municipal buildings
- ☐ Written Submissions/ Comments/ Emails
- ☐ Ward Committee Structures via the office of the Speaker
- ☐ Public participation officers in the three regions (Region 1: Bethal Municipal Office), (Region 2: Leandra Thusong Centre and Secunda Municipal office) and (Region 3: eMbalenhle Municipal Office).

2.4 ROLES AND RESPONSIBILITIES OF STAKEHOLDERS IN THE IDP PROCESS

The Public Participation Process undertaken during the review of each IDP process is **spearheaded by the Executive Mayor, Mayoral Committee Members and Senior Management.**

- ☐ The involvement of Council is also achieved through the participation of Ward Committee System, Community Participation regular communication with the community through public meetings, community newsletters, radio and various other print media and electronic media including the Municipal Website.
- ☐ Both Draft and Final IDP are presented to the Mayoral Committee and Council for approval in accordance with the prescribed legislative prescripts.

The councillors

- ☐ Councillors have to play a leading role in the IDP process to ensure that their communities' issues are well reflected and addressed.

The officials

- ☐ Must ensure that programmes and projects identified are aligned and guided by the IDP
- ☐ As a result all departments have to be directly involved in the integrated development planning process.

The implementation of the IDP process plan involves the municipal officials and Council (internal) as well as other municipal stakeholders and the community (external).

The responsibilities of the role-players can be summarised and brief described as per the following table:

2.41 Role players within the municipality.

ROLE PLAYER	ROLES AND RESPONSIBILITIES
Municipal Council	☐ Consider and approve the IDP. ☐ Consider and approve the Budget.
Executive Mayor and Mayoral Committee	☐ Responsible for the overall management, co-ordination and monitoring of the process and drafting of the IDP. ☐ Assign and delegate responsibilities in this regard to the municipal manager. ☐ Approve nominated persons to be in charge of the different roles, activities and responsibilities of the process and drafting. ☐ Submit the draft IDP to the Council for adoption.
Ward Councillors	☐ Form a link between the municipal government and the residents. ☐ Link the IDP process to their constituencies and/or wards. ☐ Assist in organising public consultation and participation (with particular reference to the functioning of ward committees). ☐ Monitor the implementation of the IDP with respect to their particular wards.
Municipal Manager and/Directors and Managers	☐ Prepare the IDP Process Plan. ☐ Undertake the day to day management and co-ordination of the IDP process. ☐ Ensure that all relevant stakeholders are appropriately involved and timeously informed. ☐ Nominate persons in charge of different roles. ☐ Ensure that the IDP process is participatory, strategic and implementation orientated and is aligned with and satisfies sector planning requirements. ☐ Respond to comments on the draft IDP. ☐ Ensure proper IDP documentation. ☐ Adjust the IDP in accordance with the proposals of the Provincial Minister of Local Government. ☐ Provide relevant technical, sector and financial information for analysis for determining priority issues. ☐ Contribute technical expertise in the consideration and finalisation of strategies and identification of projects. ☐ Provide departmental operational and capital budgetary information. ☐ Responsible for the preparation of project proposals, the integration of projects and sector programmes.

2.4.2 Role players between Municipality and External role-players

ROLE PLAYER	ROLES AND RESPONSIBILITIES
Govan Mbeki Municipality	☐ Prepare and adopt the IDP Process Plan. ☐ Undertake the overall management and co-ordination of the ☐ IDP process which includes ensuring that : ☐ all relevant role-players are appropriately involved; ☐ appropriate mechanisms and procedures for community participation are applied; ☐ events are undertaken in accordance with the approved time schedule; ☐ the IDP relates to the real burning issues in the municipality; and ☐ The sector planning requirements are satisfied. ☐ Prepare and adopt the IDP. ☐ Adjust the IDP in accordance with the MEC of Local Government's Proposal. ☐ Ensure that the annual business plans, budget and performance management system are linked to and based on the IDP.
Local residents, communities and stakeholders	☐ Represent interests and contribute knowledge and ideas in the IDP ☐ process by participating in and through the Ward Committees or OMAF to ☐ analyse issues, determine priorities, and provide input; ☐ keep their constituencies informed on IDP activities and their outcomes; and ☐ Discuss and comment on the draft IDP.
District Municipality	☐ Same roles and responsibilities as local municipalities but related to the preparation of a District IDP. The District Municipality must also prepare a District Framework (Sec 27 of the MSA).
National and provincial sector departments	☐ Many government services are delivered by provincial and account the programmes and policies of these departments. ☐ The departments should participate in the IDP process so that they can be guided how to use their resources to address local needs. ☐ Contribute relevant information on the provincial sector departments' plans, programmes, budgets, objectives, strategies and projects in a concise and accessible manner.

2.5 IDP AND BUDGET DELIVERABLES AND ACTIVITIES IN THE COMPILATION OF IDP AND BUDGET PLANNING PROCESS OF 2022/2023-2026/2027 IDP/BUDGET REVIEW

The table below summarises the key activities and milestones in IDP and Budget Planning Process 2021/2022 IDP/Budget review, with particular reference to community participation and stakeholder engagements.

MEDIUM TERM EXPENDITURE FRAMEWORK DELIVERABLE AND ACTIVITY		RESPONSIBLE PERSON/S	PURPOSE / OUTPUT	LEGISLATIVE REQUIREMENT AND INFORMATION	PROPOSED TIME FRAMES
1.	PREPARATION OF IDP AND BUDGET PROCESS PLAN				
a)	Table 2022/2023-2026/2027 IDP/Budget time schedule to Council for approval with schedule for Public Participation meetings.	Executive Mayor	Approved 2022/2023-2026/2027 IDP/Budget time Schedule / process plan	(MFMA) Section 21 (b)	July/ August 2021
b)	Engage with Gert Sibande District Municipality on the alignment process towards the 5th Generation IDP.	IDP Manager	Align 2022-2027 Process Plan with Gert Sibande DM and discuss joint planning interventions.	MSA Section 29	July/ August 2021
c)	Advertise 2022/2023-2026/2027 Process plan and dates of Public Participation meetings on website, local newspapers, municipal newsletter, and noticeboards.	IDP Manager	Notification to public and Ward Committees	MSA Section 21, 28 (3)	September 2021
d)	Convene first Council Meetings after municipal elections	Municipal Manager	Constitute Council and Council Committees	(MFMA) Section 21	November 2021
2.	PLANNING FOR THE 5-YEAR IDP 2022/2023-2026/2027				
a)	Conduct public participation process into 5-Year IDP and Budget for the Govan Mbeki IDP Manager Directors incorporate Ward Needs and get inputs for 5-year IDP.	IDP Manager Mun. Manager Directors	Ward Needs and get inputs for 5-year IDP.	MSA Section 17	August – September 2021
b)	Identification of mandatory projects prioritised for implementation for 22/23 and four outer years MTREF by Internal Sector Departments. IDP	IDP Manager Mun. Manager Directors	To inform public of planned mandatory projects for sustainable delivery of basic services and to include in 2022-2027 IDP	Internal Planning and Management Procedure	August 2021
c)	Institutionalisation of Ward Committee	Speakers Office	Facilitate Ward Committee Establishment / Election Constitute Council and Council Committees		January 2022/ February 2022

MEDIUM TERM EXPENDITURE FRAMEWORK DELIVERABLE AND ACTIVITY		RESPONSIBLE PERSON/S	PURPOSE / OUTPUT	LEGISLATIVE REQUIREMENT AND INFORMATION	PROPOSED TIME FRAMES
d)	Development of ward plans for incorporation into 5-year IDP	Speakers Office	Area Development Plan included in 2022 - 2027 IDP	Internal Planning and Management Strategy	
e)	Consider MEC comments and Recommendations on 2nd review of fifth generation IDP assessment. (2022/2023-2026/2027IDP review)	IDP Manager Mun. Manager Directors	Implement MEC recommendations and inclusion in 2022/2023-2026/2027IDP Revision	MSA Section 32 (3)	May 2022
f)	Review and update Municipal Spatial Development Framework	HOD Planning and Development	Review and update Municipal Spatial Development Framework	MSA – 26 MPPMR – Section 4	January-March 2022
3.	INITIATE THE 2022/2023-2026/2027 BUDGET PROCESS				
a)	Operating Budget: Salaries and Wages schedules to Directors for scrutiny and corrections.	Expenditure	Initiate preparation of 2022/2023-2026/2027 Salaries and Wages budget	Internal Management Procedure	August 2021
b)	Publication of approved adjustments budget on website and submit to National & Provincial Treasuries both printed and electronic formats.	Budget Office	Approved Adjustments Budget, IDP & SDBIPs being made available on official website and submission to NT and PT	MFMA Section 28(7) MSA 21(b) MBRR Section 26 & 27	September 2021
c)	Operating Budget: Salary/Wages schedules with corrections and recommendations to be returned to Finance Department.	Directors Expenditure	Initiate preparation of 2022/2023 Salaries and Wages budget	Internal Management Procedure	October 2021

CHAPTER 3: MUNICIPAL PROFILE / SITUATIONAL ANALYSIS

Acknowledgement is given to the data of STATSA which are the key sources of data used in the IDP and it assisted the municipality in the planning and strategic decision-making process. Statistical information in this Chapter is derived from:

- ❑ The Community Profiles of the past three (3) Census Counts of 1996, 2001 & 2011
- ❑ The Two (2) Community Surveys (sample based): Community Survey 2007 & Community Survey 2016) conducted from 1996 until 2016.
- ❑ Community Surveys 2016 data has been adjusted to new municipal boundaries of 2016.
- ❑ Data was compared across all community profiles at local municipality level to show changes over time.
- ❑ Presentation excludes analysis of the reasons behind presented situation and what will happen in future

3.1 GEOGRAPHIC LOCATION: GREATER GOVAN MBEKI AT A GLANCE

Govan Mbeki Local Municipality is situated in the south-eastern part of Mpumalanga Province, abutting Gauteng Province in the south-west; approximately 150km east of Johannesburg and 300km south-west of Nelspruit (capital city of Mpumalanga).

Govan Mbeki Municipality is one of the 7 local municipalities under the jurisdiction of Gert Sibande District (the other districts being Ehlanzeni and Nkangala) and one of the 18 local municipalities within Mpumalanga. The Govan Mbeki area is mainly agricultural / rural with 3 urban conglomerates, namely; Leandra (Leslie, Lebohang and Eendracht) in the western edge, The Greater Secunda (Trichardt, Evander, Kinross and Secunda / Embalenhle) conurbation in the central part and Bethal / Emzinoni in the east.

Before 1995 all the above mentioned towns were separate local authorities. As far as its regional context is concerned, Govan Mbeki is situated on the Gauteng/Richards Bay Corridor formed by the National Road N17 and the Richards Bay rail line running through the area in an east-west direction.

Govan Mbeki has the most diversified economy within the Gert Sibande District, dominated by the petrochemical industry (the SASOL II and III complexes) and coal and gold mining. Govan Mbeki has the largest underground coal mining complex in the world which makes it an important strategic area within the national context.

3.1.1 Municipal Wards

The municipality comprises of 8 towns and structured into 32 electoral wards which cover an area of 2 958m2.

The breakdown of wards details are as follows:

WARD INFORMATION	
WARD NAME/ AREA	WARD NAME/ AREA
1 Leandra and part of Kinross	17 Evander and farms
2 Lebohang	18 Evander and Secunda
3 Lebohang	19 Embalenhle and farms
4 Embalenhle	20 Embalenhle
5 Secunda	21 Secunda
6 Lebohang	22 Emzinoni
7 Embalenhle	23 Emzinoni
8 Embalenhle	24 Emzinoni
9 Embalenhle	25 Secunda and Trichardt
10 Embalenhle and Charl Cilliers	26 Emzinoni
11 Embalenhle	27 Emzinoni
12 Embalenhle	28 Bethal and Emzinoni
13 Embalenhle	29 Embalenhle
14 Embalenhle	30 Secunda
15 Bethal	31 Embalenhle
16 Kinross	32 Embalenhle

3.2 OVERVIEW OF GOVAN MBEKI'S SWOT ANALYSIS

SWOT analysis intends to give a brief overview of the municipal environment, outlining the major strengths and weaknesses, opportunities and threats within the municipal geographical region.

INTERNAL FACTORS	INTERNAL FACTORS	
	STRENGTHS 	WEAKNESSES 
	● Close Proximity to airport and National Road ● Petro-Chemical and synthetic fuels plant ● Moderate climate ● High Rainfalls ● Good tourism potential ● Good infrastructure ● Good sports facilities ● Good medical facilities ● Good schools ● Rail Network ● Mining Area ● University /satellite campus ● Housing' of all planning related units under one directorate (Planning and Development); such as IDP, Spatial Planning, LUMs and LED ● Functional LED Forum with sector-based committees for engaging stakeholders on LED issues ● Sound government-private sector relations; based on willingness of business to participate in LED and other municipal related activities ● Political willingness to address economic and socio-economic challenges through stakeholder engagements (as evidenced during Cooperatives Summit, business-mayoral breakfast meetings and planned jobs summit) ● Sound revenue base, implementation of capital and basic infrastructure projects and provision of basic services ● Comparatively low unemployment, poverty, inequality and living standard levels within the district and province	● Rural areas and some poor communities still have gravel roads (external Provincial factor) ● Most roads not in good condition; potholes ● Gravel Roads in urban areas. ● Inadequate storm water drainage in some areas; ● Frequent sewerage blockages ● Ageing electricity infrastructure ● Pressure on energy sources ● Lack of available land for Integrated Human Settlements ● Backyard dwellers / Housing shortage ● Relatively far from major ports (Durban/Richards Bay/Maputo) ● Growing Informal Settlements ● Control of Land Invasion ● Too concentrated (not diversified) an economy dependent on two complimentary sector industries reliant on finite coal resources ● Weak exploitation of the agricultural and agro-processing potential within the local space for SMME and cooperatives development ● Low and declining skills base caused by declining matric pass rates and degree/university admission rates ● Inability and or unwillingness to control and manage mushrooming of informal settlements within municipal area of jurisdiction ● Absence of investment promotion policy and incentive schemes is not helping in the marketing of the local space and its investment opportunities. ● Lack of debt recovery ● Limited bulk infrastructure (water and Electricity) ● Too concentrated (not diversified) an economy dependent on two complimentary sector industries reliant on finite coal resources ● Weak exploitation of the agricultural and agro-processing potential within the local space for SMME and cooperatives development ● Low and declining skills base caused by declining matric pass rates and degree/university admission rates ● Inability and or unwillingness to control and manage mushrooming of informal settlements within municipal area of jurisdiction

OPPORTUNITIES

- Many development opportunities
- Marathon Activities
- Institutionalisation of Annual Cultural and Sport Events
- Capitalising on the Extended Public Works Programme
- SMME Development
- SEZ Petrochemical Industrial Technology Park
- West of Secunda Mega City (Integrated Human Settlement)
- Secunda Government Precinct.
- Identify City Improvement Districts
- Potential for industrialisation of the local economy leveraging on current comparative and competitive advantages
- Huge potential for economic diversification based on manufacturing, agriculture and agro-processing activities linked to current and other dominant sectors
- Potential for improved agriculture and SMME contribution to the local economy based on SMME and cooperatives incubation
- Strategic location of municipality in terms of road (N17) and rail network (Gauteng-Richards Bay and planned Maputo) relative to local and international markets offers great potential for product and market development
- Waste Recycling
- Potential for industrialisation of the local economy leveraging on current comparative and competitive advantages
- Huge potential for economic diversification based on manufacturing, agriculture and agro-processing activities linked to current and other dominant sectors
- Potential for improved agriculture and SMME contribution to the local economy based on SMME and cooperatives incubation
- Strategic location of municipality in terms of road (N17) and rail network (Gauteng-Richards Bay and planned Maputo) relative to local and international markets offers great potential for product and market development

THREATS

- Eskom Price increases
- Increase in crime
- HIV/AIDS
- Unemployment and Poverty
- Government Grant Dependency Increasing
- Climate change, Air pollution, Droughts
- Water shortage
- Limited lifespan of mines
- Increasing population (informal settlements, pressure on housing, unemployment, infrastructure and municipal services)
- Decline of central business district
- Immigration from other provinces
- Illegal occupying of Municipal Land (Squatting)
- Non affordability of Houses influences the attracting of suitable candidates
- Closure of Mining and Petro Chemical industry
- Coal is a finite resource and exhausting coal deposits and reserves means Govan Mbeki will become a ghost town with very high unemployment, poverty and poor living conditions
- Uncontrolled mushrooming of informal and unplanned settlements is putting a lot of financial strain on the local municipality in terms of basic service delivery. Political interventions are therefore needed to stop the practice
- Decaying and sometimes unused buildings in towns and CBDs are unattractive sites for investment promotion and therefore require urban renewal and city development programmes.
- Poor road conditions
- Illegal water and electricity connections
- Lack of account payments
- Poor Government service delivery (Vehicle testing facilities, driver's License renewal services, Home affairs service delivery, etc)
- Coal is a finite resource and exhausting coal deposits and reserves means Govan Mbeki will become a ghost town with very high unemployment, poverty and poor living conditions
- Uncontrolled mushrooming of informal and unplanned settlements is putting a lot of financial strain on the local municipality in terms of basic service delivery. Political interventions are therefore needed to stop the practice
- Decaying and sometimes unused buildings in towns and CBDs are unattractive sites for investment promotion and therefore require urban renewal and city development programmes

3.3 GOVAN MBEKI DEMOGRAPHIC PROFILE AND OVERVIEW

The situational analysis and statistics presented in this chapter indicate the developmental challenges, existing trends and conditions that impact on the Govan Mbeki Municipal Area, as such, poverty, unemployment, and service delivery backlogs. This is crucial as it provides the Municipality and its social partners with deep insight into local socio-economic trends and how they impact on development.

According to Stats SA (2016 Community Survey - CS), Govan Mbeki’s population increased from 294 538 in 2011 to 340 091 people in 2016 – 5th largest population in the province and 30.0% of total population of Gert Sibande in 2016

Youth population (15-34 years) formed 41.1% of the total population in 2016. In 2016, the share of the female population was 48.0% and that of males 52.0%. Population grew by 45 553 between 2011 and 2016, population growth rate of 3.3% per annum (p.a.), which was considerably higher than the annual average economic growth rate of only 0.8% p.a. over the same period.

The population growth rate was the 2nd highest in Mpumalanga. The population number for 2021 was estimated at 377 446 or 29.9% of Gert Sibande’s population.

CSIR Green Book population projection for 2030 is 437 067 (5th largest population in the province) or 33.3% of Gert Sibande’s population will put pressure on the infrastructure, service delivery and economic/employment opportunities.

3.3.1 Govan Mbeki population data and projections

3.3.1.1 Population figures per municipal area.

Local Municipal Area	Population		Average annual population growth 2011-2016	Estimated number 2021	Projected number by 2030 CSIR Green Book
	2011 Census	2016 CS			
Steve Tshwete	229 831	278 749	4.4%	323 544	434 967
Govan Mbeki	294 538	340 091	3.3%	377 446	437 067
Emalahleni	395 466	455 228	3.2%	553 562	648 163

3.3.1.2 Population growth pressure per municipal area

Local Municipal Area	CSIR Green Book Settlements with extreme & high growth pressure up to 2050
Chief Albert Luthuli	All settlements decrease except <u>Dibaba</u> & <u>Vygeboomdam</u> (no change)
Msukaligwa	<u>Ermelo</u> , <u>Lothair</u> & <u>Breyten</u>
Mkhondo	<u>eMkhondo</u> , <u>Iswepe</u> , <u>Amsterdam</u> , <u>Saul Mkizeville</u> & <u>Dirkiesdorp</u>
Dr Pixley Ka Isaka Seme	All settlements to decrease except <u>Wakkerstroom</u> & <u>Perdekop</u>
Lekwa	Only medium pressure in <u>Standerton</u> & <u>Morgenzon</u>
Dipaleseng	Only medium pressure in <u>Balfour</u> & <u>Greylingstad</u>
Govan Mbeki	<u>Embalenhle</u>, <u>Secunda</u>, <u>Emzinoni</u>, <u>Evander</u>, <u>Bethal</u>, <u>Lebohang</u> & <u>Kinross</u>
Victor Khanye	<u>Delmas</u> & <u>Botleng</u>
Emalahleni	<u>eMalahleni</u> , <u>KwaGuqa</u> , <u>Paxton 1</u> , <u>Clewer</u> , <u>Jackaroo Park</u> , <u>Klarinet</u> , <u>Ga-Nala</u> , <u>Reedstream</u>
Steve Tshwete	<u>Middelburg</u> , <u>Piet Tlou</u> , <u>Hendrina</u> , <u>Rietkuil</u> , <u>Pullenshope</u>
Emakhazeni	No change in all settlements
Thembisile Hani	Only medium pressure in all settlements except <u>eNgwemgameni</u> (no change)
Dr JS Moroka	All settlements decrease
Thaba Chweu	<u>Mashishing</u>
Bushbuckridge	All settlements decrease
Nkomazi	Only medium pressure in all settlements except <u>Kaapmuiden</u> , <u>M'hati</u> and <u>Lebombo</u>
City of Mbombela	<u>Mbombela</u> & <u>Daantjie</u>

A population growth of this proportion is likely to place strain on existing backlogs and the municipality's ability to effectively service the community. Because of the increase in households which directly demand services.

3.3.1.3 AGE AND GENDER DISTRIBUTION

Age and gender of the population are the key determinant of population dynamic and can influence the current and future needs and spending of the municipality.

The analysis of the age and gender distribution of Govan Mbeki Municipality particularly highlight growth trends, the gender ratio, and functional age categorisation and how the age distribution impacts dependency on the working population. These statistics provide important insights into the age groups, where the bulk of the population is located and to target government, civil society and non-governmental programmes more effectively.

3.4 SEX RATIO MALE PER 100 FEMALES

The male population in Govan Mbeki is higher than female population in Govan Mbeki. The gender ratio in 2011 was 106.95 males per 100 females, which had changed to 108.45 males per 100 females in 2016.

Such high sex ratio towards man are mainly due to a due to beneficial employment opportunities as more men living in Govan Mbeki seeking for job opportunities in the various industries across the district which are manufacturing, industrial and mining companies.

Although the sex ratio is most favourable to reap a demographic dividend. If people are not able to work other potential threats will developed such as an increase in poverty, high unemployment rates, pressure on the infrastructure and basic service delivery. It is also worth mentioning that the older population is increase and this will result into older people dependent on specialized housing and care.

THE SOUTH AFRICA I KNOW. THE WORK I UNDERSTAND

3.5 HOUSEHOLD SERVICES IN GOVAN MBEKI

Between 2011 and 2016, the number of households in Govan Mbeki increased from 83 874 to 108 894 (25 020 increase). Household size declined from 3.5 to 3.1 over the same period. CSIR Green Book projection of 178 900 households in 2030.

According to the CS (Community Survey) of Stats SA, and with the exception of access to piped water, there was an overall improvement with household services in Govan Mbeki between 2011 and 2016. Some challenges, however, remain especially with the informal dwelling backlog.

Number of informal dwellings improved slightly from 23 365 in 2011 to 22 212 in 2016 – decrease of only 1 153 households, but 20.4% of the households still lived in informal dwellings. 3rd highest/worst share in the province.

In 2016, the number of households with access to piped water was 107 191 households or 98.4% of households – highest/best access to piped water in province.

Number of households with access to flush/chemical toilets improved between 2011 and 2016. 103 086 households or 94.7% of households had access (best in the province) and only 726 households without any toilet facilities remained.

Households with connection to electricity improved to 102 752 in 2016 or 95.0% of households. 5 487 households not connected to electricity at all.

Second highest/best in the province with household services index (2019) and stagnant trend between 2016 and 2019. Govan Mbeki ranks 10th in Mpumalanga in the *Out of Order* municipal rankings by News24 - 47/100. Govan Mbeki is also 1 of 4 Municipalities in Mpumalanga on National COGTA's list (2018) of dysfunctional Municipalities.

3.5.1 Leading challenges facing Govan Mbeki

According to the 2016 CS (Community Survey) of Stats SA, the 5 leading challenges facing Govan Mbeki as perceived by households in the municipal area were the following:

-  Cost of water.
-  Lack of/inadequate employment opportunities.
-  Cost of electricity.
-  Inadequate sanitation/sewerage/toilet services.
-  Inadequate roads.
-  Important information for decision making purposes on especially municipal level and for especially IDP & LED, as well as DDM purposes.

3.6 LABOUR MARKET IN GOVAN MBEKI

The expanded unemployment rate of Govan Mbeki was 32.5% in 2020, which was one of the lower unemployment rates in the province, but still relatively high in comparison with the 6% target by 2030. In 2020, the expanded unemployment rate for females was 39.0% and that of males 27.5%.

In 2020, the youth (15-34 yr) expanded unemployment rate was 45.0%. There is concern about the high share of unemployed youth & especially females – there appears to be a mismatch between their offering of education and skills (or lack thereof) and the demand of the labour market, but also a lack of investment to create jobs.

Importance of quality and relevant education and training in line with the economic needs of the province to improve their employability but also a need to retain businesses and attract new investment. The importance and relevance of the UMP and TVETs.

In 2020, Govan Mbeki contributed 10.6% to total employment in the province. Between 2016 & 2020, employment increased by 0.2% p.a. The average annual employment growth deteriorated compared with the 2011 to 2015 increase of 3.5% p.a.

The job losses in 2020, due to the COVID-19 lockdown, was estimated at 10 214. In the 4-year period between 2016 and 2020, Govan Mbeki gained only 1 132 jobs, which indicates the devastation COVID-19 brought to the labour market in 2020.

3.6.1 Labour market indicators in Govan Mbeki

3.6.2 Employment by industry in Govan Mbeki

In 2020, the largest employing industries in Govan Mbeki were trade (including tourism), community services, manufacturing, finance and agriculture.

3.6.3 Govan Mbeki contribution by industry - Employment & GDP

3.6.4 Poverty, inequality, HDI & crime indicators in Govan Mbeki

The share of population in Govan Mbeki below the lower bound poverty line (LBPL) deteriorated from 33.3% in 2016 to 39.1% in 2020. In 2020, Govan Mbeki's share of population below the LBPL was however, the 4th lowest (favourable) among the municipal areas.

In 2020, the number of people below the LBPL was 132 014 – the 7th highest number among local municipal areas. In the calculation of the Local Government Equitable Share (LGES), National Treasury estimates that Govan Mbeki has 60 199 poor households.

In 2020, Govan Mbeki's poorest 40% of households shared 6.5% of total income, which was lower/worse than the 6.7% share recorded in 2016. Govan Mbeki's share of income of the poorest 40% was the 2nd lowest/worst, indicating that income inequality was more pronounced within the area than in other areas in the province.

Improved Human Development Index (HDI) from 0.63 in 2016 to 0.67 in 2020 – joint 3rd highest/best in province. Govan Mbeki ranked 9th highest/worst in terms of the 17 serious crimes reported, but recorded an improvement between 2014/15 and 2019/20.

3.7 ECONOMIC LANDSCAPE OF GOVAN MBEKI

Govan Mbeki Contribution to the Mpumalanga economy in 2020 was 11.1% – 4th largest economy in the province. Largest contribution to Gert Sibande's economy in 2020 of 41.0%. Dominant in especially manufacturing and mining in Gert Sibande and also substantial contributions in finance, construction, trade, community services and transport.

Over the period 1996-2020, the economy of Govan Mbeki contracted by 0.2% on an annual basis. For the period 2015-2020 the economy contracted by 2.3% p.a. – weaker than the national & provincial economies in both periods.

Estimated contraction in 2020 of between -11% & -12% due to the COVID-19 lockdown. Construction, transport, trade and manufacturing were the worst affected industries. Expected growth of 3.2% in 2021 from a low base. The estimated average annual GDP growth for Govan Mbeki between 2020 and 2025 relatively low at just more than 1% p.a.

In 2020, the size of the economy was estimated at R49.6 billion in current prices. In 2020, the four largest industries were mining, manufacturing, community services and finance. Together, these four contributed 80% to the economy of Govan Mbeki.

Govan Mbeki holds comparative advantages in mining & manufacturing. In 2015, tourism spend totalled R898.9 million or equal to 2.2% of the local GDP. In 2020, due to COVID-19 related factors, it decreased to only R307.3 million, which was equal to less than 1% of the local GDP.

3.7.1 Contribution to the provincial economy by municipal area

Mpumalanga	17 116.3	7 528.5	5.4%	1.9%

3.9.1 Tourism: proposed strategic tourism recovery interventions

Industry/Government Recovery Partnership to collaborate on all aspects of tourism recovery. Tourism Supply Support Package to protect tourism assets & core infrastructure as well as to support re-opening.

Implementation of globally recognised biosecurity protocols across the value chain to enable safe travel & rebuild traveler confidence. Removal of barriers to travel such as crime towards tourists, provide stronger personal safety & security guarantees as well as upgrading key tourism roads.

Catalyze domestic demand through the phases of re-opening with informative & inspirational messaging that encourages safe tourism & domestic vacation experiences. Targeted international marketing programme at highest-potential source markets & intrepid travel consumer segments, to reignite international demand.

Prioritize cooperation with neighbouring destinations towards a regional value proposition & a seamless visitor experience, e.g. E3Route & Triland initiatives . Review & transform the tourism institutional architecture to deliver efficient, effective & purpose-led support for sector growth & development.

3.10 KEY SOCIO-ECONOMIC INDICATORS & PERFORMANCE

3.11 RELEVANT ECONOMIC INITIATIVES & OPPORTUNITIES FOR GOVAN MBEKI

3.11.1 Importance and relevance of:

- ☐ The implementation of the Provincial Spatial Development Framework (SDF) by COGTA and Provincial LED strategy framework by DEDT.
- ☐ Roll-out of the DDM and close cooperation and collaboration with the District.
- ☐ The roll-out of the MERRP – Mpumalanga Economic Reconstruction and Recovery Plan.

3.11.2 Linking with economic interventions and comparative advantages in/of Gert Sibande:

- ☐ Enhancing the manufacturing sector in Gert Sibande through the planned Petro-Chemical Technology Park in Secunda as part of the Mpumalanga Industrial Development Plan (MIDP).
- ☐ Agriculture & agro-processing – crop & livestock, forestry & furniture manufacturing.
- ☐ Coal mining and electricity generation.

3.11.2 Economic opportunities in Govan Mbeki:

- ☐ Opportunities around manufacturing & mining. Will benefit from the establishment of the Petro-Chemical Industrial Technology Park in Secunda as part of the MIDP.
- ☐ Importance of the active involvement of Sasol in addressing socio-economic challenges in the area.
- ☐ The importance of a LED Forum to facilitate growth and job creation in this area. Important to work closely with companies like Sasol. Investment commitments of Sasol at the Investment Conference the end of 2020.
- ☐ Support to SMMEs and Cooperatives where the Social Enterprise Model/Programme and Government Nutrition Programme will contribute to job creation and economic development.
- ☐ Rejuvenation of township businesses with initiatives to transform townships and villages from labour and consumption reserves into thriving productive investment hubs.

3.12 EDUCATION INDICATORS

Govan Mbeki's grade 12 pass rate declined from 76.3% in 2014 to 73.7% in 2021, which was the 9th highest/lowest of the 17 municipal areas. Was the 6th worst in the province in 2020.

Govan Mbeki's pass rate improved by 1.8 percentage points between 2020 and 2021. The area improved its admission rate to university/degree studies of 30.2% in 2020 to 32.1% in 2021 – the 7th highest in the province like 2020.

It is important that key interventions be aimed at low performing schools to improve the grade 12 pass rate further. The challenge is to accommodate the educated young people in the area - inadequate economic opportunities.

Provision of adequate educational & recreational infrastructure as well as skills development activities to meet the needs of the community. In 2020, the functional literacy rate was the 3rd highest/best (88.7%) in the province and showed an improving trend.

3.12.1 Basic education data & performance per municipal area

Local municipal area	Grade 12 Pass Rate			Trend	Admission to B degree studies 2021

3.13 GOVAN MBEKI - GREEN AND RED FLAGS

	
1. Destination of choice and good location 2. Improvement in informal dwelling, flush/chemical toilets and electricity connection indicators. 3. Potential in developing key industries – role of the Petro-Chemical Industrial Technology Park as part of the roll-out of the MIDP 4. Potential to be one of the key economic and job drivers in the province 5. Very high concentration of engineers and engineering expertise	1. High population growth rate & shrinking economy – pressure on service delivery 2. High share of informal dwellings and worsening piped water backlog 3. Large underspending on capital budget & conditional grants 4. Deteriorating unemployment & poverty rates as well as higher inequality 5. Low historic economic growth & negative economic impact of COVID-19

CHAPTER 4: INSTITUTIONAL ARRANGEMENTS

Govan Mbeki Municipality is a category B municipality with a Mayoral Executive System and is established in terms of the Local Government Municipal Structures Act No: 117 of 1998. The Municipality consists of 32 wards as promulgated by the Mpumalanga Demarcation Board. The Core business of the Municipality is to render Services efficiently and effectively to its community. The full Council consists of 63 Councillors.

4.1 POLITICAL GOVERNANCE STRUCTURE OF GOVAN MBEKI MUNICIPALITY

The council performs both legislative and executive functions. They focus on legislative, oversight and participatory roles, and have delegated its executive function to the Executive Mayor and the Mayoral Committee. Their primary role is to debate issues publicly and to facilitate political debate and discussion. Apart from their functions as decision makers, Councillors are also actively involved in community work and the various social programmes in the municipal area. The Council of the GMM Municipality comprises of 63 elected Councillors, chaired by the Speaker.

Govan Mbeki Municipality – Executive Structure

Following the local government elections in November 2022, the composition of council are as follows:

COMPOSITION OF COUNCIL						
Political Party	Number of Councillors	Gender		Council Executive	Name of Councillor	Political Party
		Male	Female			
ANC	26	20	6	Executive Mayor	NG Zuma (elected 2021/11/22)	ANC
DA	17	9	8	Speaker	FF Magagamela (elected 2021/11/2021)	ANC
EFF	13	7	6	Chief Whip		ANC
FF PLUS	3	1	2	MMC Councillors	- MMC Councillor for Civil Engineering: Philemon Doctor Mtshali - MMC Councillor for Community Services: Sifiso Isaac Sibanyoni - MMC Councillor for Corporate Services: Thandi Portia Mtsweni - MMC Councillor for Electrical & Mechanical Engineering: Aaron Vusumuzi Mbokazi - MMC Councillor for Planning & Economic Development: Yvonne Thandiwe Ngxonono	ANC
ARP	2	2	0			
IFP	1	1	0			
ATM	1	1	0	MPAC Chair	C Jordaen	DA
Total	63	41	22			

The roles of the Council, Mayoral Committee and the Executive Mayor are summarised as follows:

4.1.1 Council

The Council’s primary role is to govern the municipality in a democratic and accountable manner, to perform legislative and executive functions and generally to fulfil its roles and responsibilities as set out in the Constitution of the Republic of South Africa, 1996 (Act 108 of 1996). It focuses on legislative, decision-making, oversight and participatory roles, and has delegated executive functions to the Executive Mayor.

4.1.2 Executive Mayor

The Executive Mayor assisted by the Mayoral Committee, heads the political executive arm of the Municipality. The Executive Mayor is at the centre of the system of governance, since executive powers are vested in her to manage the day-to-day affairs. This means that she has an overarching strategic and political responsibility.

The Mayoral Committee is established in terms of Section 43 of the Structures act, they act as political heads of departments with delegated functions and powers and they are chairpersons of their Port Folio Committees. Section 80 committees known as Portfolio Committees. The MMCs reports to the Executive Mayor. The Council has a Mayoral system, and the Speaker is the Chairperson of the Council. Council conducts.

4.1.3 MPAC

Council established the Municipal Public Accounts Committee (MPAC) to perform an oversight function on behalf of Council over the executive functionaries of the Council. The MPAC inter alia serves as an oversight committee to make recommendations to the Council when it adopts the Oversight Report on the Annual Report in terms of Section 129 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003) (MFMA).

NAME OF COMMITTEE	FUNCTIONS
MUNICIPAL PUBLIC ACCOUNTS COMMITTEE	The committee shall perform the following functions: ☐ The committee shall report to the Council on its activities; ☐ The committee shall review municipal quarterly and annual reports and report on such reviews to Council and shall develop a comprehensive oversight report on the annual report. ☐ The committee shall monitor the implementation of the IDP and SDBIP and submit reports thereto. ☐ The committee shall oversee policy formulation and implementation. ☐ The committee shall ensure that Council comply with external reporting requirements. ☐ The committee shall examine the financial statements and audit reports of the municipality and consider improvements from previous statements and reports and must evaluate the extent to which recommendations from the AG and Audit Committee has been implemented. ☐ The committee shall promote good governance, transparency and accountability. ☐ The committee shall examine the midyear review in line with the IDP. ☐ The committee shall consider SDBIP reports. ☐ The committee shall recommend any investigation in its area of competence to the Council. ☐ The committee shall request information from Councillors through the Office of the Speaker and from employees through the Office of the Municipal Manager and the relevant MMC Councillor be informed accordingly. ☐ The committee shall perform any other function assigned to it by the Council.

4.1.4 Audit Committee

In compliance with Section 166(2) of the MFMA, Council has an Audit Committee which is an independent body advising the municipal Council, the political office-bearers, the accounting officer and the management staff of the municipality, on matters relating to:

- ☐ Internal financial control;
- ☐ Risk management;
- ☐ Performance management; and
- ☐ Effective governance.

4.1.5. Portfolio Committees

Section 80 committees are established to advise the Executive Mayor on policy matters and any other matter to be considered by the Executive Mayor. Portfolio Committees are assigned to focus on specific functional areas of the municipality and can only make decisions on specific functional issues if delegations have been granted to them. The members are appointed by Council.

The chairpersons appointed by the Executive Mayor are full-time Councillors and form part of the Mayoral Committee. Its functional responsibility area is linked to that of the Executive Mayor to the extent that he must operate together with the members of the mayoral committee.

Its primary task is to assist the Executive Mayor in the execution of his powers - it is in fact an extension of the office of Executive Mayor. The committee has no powers on its own – decision making remains that of the Executive Mayor.

NAME OF COMMITTEE	FUNCTION
Community Services Portfolio Committee	To assist the Executive Mayor / Mayoral Committee on issues related to: - Environmental Services - Sport, Recreation, Arts and Culture - Emergency and Disaster Management Services - Safety and Security Services - Waste - Development and oversight over implementation of departmental policies and by-laws
Corporate Services Portfolio Committee	To assist the Executive Mayor / Mayoral Committee on issues related to: - Human Resources Management and Development (HR) - Legal and Contract Management - Information Communication Technology - Administration and Secretariat Services - Development and oversight over implementation of departmental policies and by-laws
Financial Services Portfolio Committee	To assist the Executive Mayor / Mayoral Committee on issues related to: - Revenue and Fund Management - Supply Chain Management - Budget and Expenditure Management - Asset Management - Development and oversight over implementation of departmental policies and by-laws
Planning & Economic Development Portfolio Committee	To assist the Executive Mayor / Mayoral Committee on issues related to: - Local Economic Development - IDP, Public Participation and Performance Management - Land Use Management and Spatial Development - Human Settlements - Development and oversight over implementation of departmental policies and by-laws
Civil Engineering Portfolio Committee	To assist the Executive Mayor / Mayoral Committee on issues related to: - Roads And Storm Water - Water and Sanitation Services - Development and oversight over implementation of departmental policies and by-laws
Electrical & Mechanical Engineering Portfolio Committee	To assist the Executive Mayor / Mayoral Committee on issues related to: - Fleet and Facilities Management - Energy - Development and oversight over implementation of departmental policies and by-laws

4.1.6 COMMITTEES ESTABLISHED IN TERMS OF SECTION 79 AND 80 OF THE LOCAL GOVERNMENT MUNICIPAL STRUCTURES ACT, ACT 117 OF 1998

As per Council resolution, A016/01/2022, section 79 and 80 committees have been established. In terms of Section 79 of the Act, a Council may establish committees to assist it in fulfilling its powers and functions. These committees are directly accountable to the Council and are the equivalent of Parliamentary portfolio committees, which assist the legislature in fulfilling its oversight role. Such committees are empowered to require the Executive Mayor or Members of the Mayoral Committee to appear before them to account for their responsibilities.

In terms of Section 80 a Council may appoint committees of councillors to assist the Executive Mayor. Such committees, although appointed by Council, are directly accountable to the Executive Mayor who also appoints a chairperson for each committee from amongst the members of the Mayoral Committee.

That the following committees has been established in terms of Section 79 and 80 of the Local Government: Municipal Structures Act, Act 117 of 1998:

4.2 EXECUTIVE MANAGEMENT STRUCTURE OF GOVAN MBEKI MUNICIPALITY

The administration arm of Govan Mbeki Municipality is headed by the Municipal Manager as the Chief Accounting Officer of the Municipality. The primary role of the Municipal Manager as the head of administration, is to serve as chief custodian of service delivery and implementation of political priorities.

The Municipal Manager is assisted by a Management Team, whose structure is outlined in the tables below. As head of administration the municipal manager of a municipality is, subject to the policy directions of the municipal council, responsible and accountable for:

- ☐ The formation and development of an economical, effective, efficient and accountable administration and responsive to the needs of the local community to participate in the affairs of the municipality;
- ☐ Responsible for the implementation of the municipality's integrated development plan
- ☐ The management of the provision of services to the local community in a sustainable and equitable manner;
- ☐ The appointment of staff, management, effective utilisation and training of staff
- ☐ Advising the political structures and political office bearers of the municipality;
- ☐ Managing communications between the municipality's administration and its political structures and political office bearers
- ☐ Carrying out the decisions of the political structures and political office bearers of the municipality

4.4. INSTITUTIONAL DEVELOPMENT AND TRANSFORMATION

4.4.1 Human Capital and Skills Development

The Govan Mbeki Municipality acknowledges that in order to maintain effective and efficient service delivery employees need to be suitably qualified and competent to be able to execute the work assigned to them.

The aim of Skills Development and Capacity Building is to:

- ☐ Ensure that each and every employee and Councillor, from the day they assume duty in Govan Mbeki Municipality until the end of their career, participate in a properly structured training processes that will ensure that their work performance is maximized and their potential fully developed.
- ☐ Create an environment within which the municipal employees can realize their full potential to enable them to make a meaningful contribution towards achieving the Municipality's vision.
- ☐ Enable Council to implement and execute its Human Resources Strategic objectives and improve service delivery.
- ☐ Develop skills and competencies in the workplace and improve productivity.
- ☐ To improve the quality of the workforce and their prospects of advancement within the workplace.

Govan Mbeki Local Municipality recognises the value of investing in its workforce through the implementation of a carefully planned training and development initiatives and activities.

The Municipality views the skilling of its workforce as key towards the realisation of the process of service delivery and the implementation of its Integrated Development Plan. Each year, the Municipality reviews its skills priorities and implements learning programs on that basis. A Workplace Skills Plan (WSP) has been compiled based on the departmental needs as identified by the relevant directorates and is implemented.

The Work Place Skills Plan describes the skills needed and the range of skills development interventions that an organization will use to address these needs. A WSP is developed annually – May to April and is submitted to Local Government Sector Education Training Authority (LGSETA) by 30 April every year.

The WSP facilitates access to the LGSETA mandatory grants for skills training. The municipality is required to provide an Annually Training Report (ATR) as to how needs are addressed as defined in the WSP. The WSP also provides sector information to the LGSETA specifically.

THE TABLES BELOW STATED THE TRAINING BENEFICIARIES AND LEARNING INTERVENTIONS THAT IS PLANNED FOR THE 2022/2023-2026/2027 FINANCIAL YEAR:

E2. Total Planned Training Beneficiaries for 1 May 2022 - 30 April 2023

4.4.2 GOVAN MBEKI MUNICIPALITY: EMPLOYEMENT EQUITY STATUS QUO

Govan Mbeki Municipality strives to promote the constitutional right of equality and eliminate unfair discrimination in employment and ensure the implementation of employment equity to redress the effects of discrimination. The Municipality remains committed to providing equal employment opportunities and endorses the philosophy of affirmative action and employment equity to achieve a diverse workforce broadly representative of our people.

The purpose of Govan Mbeki Municipality's Employment Equity plan is the eradication of discrimination in relation to race, gender and disability that has denied access to opportunities for education, employment, promotion and wealth creation to South Africans within the work place. The Employment Equity plan of Govan Mbeki Municipality plan strives to:

- ☐ To ensure that our workplace is free of discrimination.
- ☐ To ensure the right of equality and opportunities in employment and ensure the right of every person is protected against employment discrimination on the grounds of race, gender, ethnicity or social origin, colour, sexual orientation, disability, religion, culture and or political affiliation.
- ☐ Over and/or underrepresentation of employees in the institution remains a challenge.

24	Cleansing Services and Solid Waste Management By-law	Yes
25	Traffic By-laws	Yes

PROPOSED NEW BY-LAWS TO BE INTRODUCED: BUSINESS BY-LAW

All consultation and public participation processes have been finalised with regard to the Business by-law. Council has resolved to proceed with promulgation which will be done through the Gert Sibande District Municipality.

4.7 MUNICIPAL CORPORATE GOVERNANCE ICT POLICY FRAMEWORK

The municipality is implementing an ICT Strategy that portrays a strategic framework that describes how the ICT Strategy is operating to formulate Municipality's business model. The overall intent of the IT strategy is to use IT as an enabler in the achievement of the municipality's Integrated Development Plan (IDP) goals, and to promote and enhance municipal service delivery. Information Communication Technology (ICT) is a service delivery enabling unit within Govan Mbeki Municipality which operates on centralised ICT Systems for billing, prepayment electricity, Library Management system, email and website and other miscellaneous systems all under ICT Administrators.

4.7.1 Strategic ICT objectives

The following are strategic ICT objectives identified for the GMM:

- ❑ ICT Operating Model and Service Delivery - To ensure that ICT is properly structured and managed to minimise operational and business risk;
- ❑ ICT Operating Model and Service Delivery - To ensure that effective systems and technologies are implemented to create a customer centric working environment;
- ❑ ICT Governance - To ensure that Business is appropriately governed and a framework is implemented to ensure policies and procedures are being adhered to;
- ❑ Enterprise Architecture - To ensure that appropriate ICT Infrastructure and solutions are put in place to sustain the overall business capabilities and needs and in turn improving productivity and enhancing service delivery;
- ❑ ICT Structure - To ensure that ICT is appropriately structured and capacitated with the appropriate number of appropriately skilled personnel to support business in delivering services to its residence and customers
- ❑ ICT Investment - To ensure that ICT appropriately plans and budgets for ICT investments and that investment spending aligns with the municipality's business priorities and that current ICT investments are maintained to maximize their business value.

4.7.2 Govan Mbeki Municipality's Three (3) ICT Pillars

The following **three (3) ICT Pillars** serves the common goal of a sustainable economic business model and is described as follows:

- ❑ ICT Operations - The first aspect of the framework addresses the quality of planning, systems and technology innovation and advancement, in a changing business (public sector) operating environment. The impact of ICT Operations and strategy on the municipality and in turn the implications of these influences for the Business Objective. ICT Operations must be informed by business capabilities and business drivers to formulate an effective ICT Strategy.
- ❑ ICT Governance and Business Intelligence - The second aspect of the framework addresses regulatory compliance. Contrary to ICT Governance being an operational impediment, GMM utilises effective policies and procedures to improve efficiency and revenues, reduce unaccountability and to comply with regulation and legislative frameworks. For example; good Change Management plans: improved data quality, improved service delivery, improved reconciliations, and improved Customer/Municipal relations which translate to good revenue.

- ❑ **ICT Services** - The third aspect of the framework addresses the complete inventory of ICT Infrastructure design and architect required to respond to the Business demands while planning for business growth. It is critical in delivering the Single Point of Service for Business Applications, ICT Equipment and ensuring real time Disaster Recovery management.

4.7.1 ICT Policies and implementation status

The ICT Strategy and Security Policies are reviewed annually by council and this exercise is conducted internally and without any involvement of consultants and the cost therefore is covered under employee related costs.

The Following ICT Policies are in place and implemented by the municipality:

Policy Name	Council Approval	Policy Implementation
Disaster Recovery Plan	Approved	Partially Implemented
Business Continuity	Approved	Partially Implemented
ICT Strategy	Approved	Implemented
Corporate Governance ICT Framework	Approved	Partially Implemented
ICT Security Policy, procedures and Plans	Approved	Implemented
Laptop Security Policy	Approved	Implemented

4.7.2 ICT Governance Steering Committee

The ICT Steering Committee was established and quorate for a meeting on a quarterly basis. The ICT Security Officer has been appointed and the position is functional.

4.7.3 Council Support and paperless Council status

GMM Council was successfully migrated from paper based to electronic medium of communication. All Council Committee such as Portfolio, Rules and Public Accounts and Public Participation are functional 100% on electronic medium based agendas and minutes.

4.7.4 Audit Findings and Un-mitigated Risks

The outcome of the ICT Audit by Auditor General South African reflected two (2) findings as follows:

FINDING CATEGORY	FINDING
Business Continuity and Disaster Recovery	The Incomplete Disaster Recovery Centre poses a risk, exposing the Municipality in case of a disaster to be unable to render basic services to its consumers
ICT Security Policy	Incomplete Security forms when making changes to system user accounts may create a security level vulnerability for the users and the security centric data

These two findings were correctly captured by Auditor General and an Audit Action plan has been developed for mitigations. The Risk register has Five (5) findings in the 2017-18 financial year of which three (3) were successfully mitigated.

Govan Mbeki municipality is 60% completed with the implementation of the Disaster Recovery plan.

The following systems and services have been configured for Backup and Recovery:

- ☐ Financial Management System
- ☐ Prepaid Electricity System
- ☐ The Payroll System
- ☐ The Electronic Document Management system EDMS
- ☐ The Domain and Active Directory
- ☐ Email and Municipal Website
- ☐ Telephone and PABX system

4.7.5 Propose Interventions and Prioritisation of Budget for ICT Business Continuity and Disaster Recovery

Provision and availability of Budget needs to be made for the following systems regarding disaster recovery:

- ☐ Financial Reporting
- ☐ GIS and Land Use Management System
- ☐ Traffic Fines Management System
- ☐ Property Valuation Roll
- ☐ Network Support Services to upgrade the network to the value of R3.1 Million
- ☐ Time and Attendance system integrated with Payroll system

4.8 GEOGRAPHIC INFORMATION SCIENCE (GIS)

The Municipal Geographic Information System (GIS) environment is managed in-house by the GIS Section in the Department of planning and Development. In building relationships Govan Mbeki municipality and Gert Sibande District Municipality signed a Memorandum of Understanding, which provides a cooperative arrangement for the coordination and sharing of GIS data between these organizations.

The Esri ArcGIS Geographic Information System (GIS) was introduced to the municipality as part of this initiative. The GIS component is necessary for all aspects of municipal operations, like; integrated town and spatial planning, LED, backlog management, billing, management of the municipality's buildings, facilities, services and infrastructure assets, traffic planning, environmental management, revenue management, deeds and valuation role management, project and contractor management, emergency response, etc.

A Geographic Information System (GIS) provides access to data through a map-based interface. It is an inherently horizontal technology, across all parts of the Municipality, with the benefit of providing a 'single source of information' platform for all spatial data.

The Maintenance to the GIS cadaster information is an ongoing process and is informed mainly from the valuation roll and SG registrations of land parcels, received through Town and Regional planning and also Properties section, which includes new developments, consolidation of land parcels, subdivisions and removal of duplications.

Overall integration of these systems is key to improved management of the organization and its resources, since the GIS supports the integration of spatial data from various sources, as well as enabling advanced spatial data analysis.

4.9 ANTI- FRAUD AND CORRUPTION

The municipal approved Anti- Corruption and Fraud policy deals with issues of fraud and corruption. This policy applies to all employees, stakeholders, contractors, vendors/supplies doing business with the municipality.

The policy prohibits all acts of fraud and corruption or any dishonest activity of similar nature impacting or having potential prejudice to the municipality or members of the public.

4.10 MUNICIPAL INTERNAL AUDIT

The Internal Audit Unit was established in terms of section 165 of the Municipal Finance Management Act, Act 73 of 2003. The Municipality has its own in-house Internal Audit Activity which comprises of 4 fulltime employees.

The internal audit unit reports administratively to the Municipal Manager and functionally to the Audit Committee.

The scope of internal audit covers the following functions:

- ☐ Prepare a risk-based audit plan and internal audit program for each financial year and advice the accounting officer and report to the audit committee on the implementation of the internal audit plan and matters relating to: Internal audit
- ☐ Internal controls
- ☐ Accounting procedures and practices,
- ☐ Risk and risk management,
- ☐ Performance management
- ☐ Loss control, and
- ☐ Compliance with laws and regulations

The provision of professional advice and consulting services to the Accounting Officer in the discharge of their responsibilities pertaining to the establishment and maintenance of effective, efficient and transparent systems of financial and risk management, internal control and good corporate governance.

Govan Mbeki Internal Audit consist of a number of specialist components which are, Risk Audit, Computer Audit and Performance Audit. Risk audit evaluates a municipality's level of compliance with legislation, regulations, plans and procedures and compliance to the accounting framework. Computer Audit is responsible for providing management with an independent assurance on the adequacy of controls within the information technology environment.

Performance audit is responsible for ensuring that satisfactorily management measures have been instituted to ensure that resources are acquired economically and are utilised effectively and efficiently in the achievements of the objectives of the respective departments.

4.10.1 MUNICIPAL INTERNAL AUDIT STRATEGIC PLAN

The internal audit process provides oversight to obtain reasonable assurance regarding management's assertions that objectives outlined in the IDP and SDBIP are achieved especially for effectiveness and efficiency of operations, reliability of financial information, and compliance with laws and regulations.

The Internal audit unit of the municipality will proactively partner with management in undertaking financial, compliance, information technology, operational and performance audits, as well as consulting reviews, to maximise value added contributions from the process.

The Internal Audit plan for the municipality sets out the scope of the planned internal audit work to be undertaken for the financial year for consideration as approval by the Audit Committee. The plan incorporates:

- ☐ The Three-year strategic rolling Internal Audit plan; and
- ☐ The Annual Internal Audit Plan for the current financial year which has 28 audit activities.

The Internal operational plan includes the following reviews which will be implemented during the year and reported to the Audit Committee on a quarterly basis:

Type of Review	Main Objective
Financial Review	Validation of internal controls to facilitate the integrity and reliability of financial information and safeguarding of assets.
Compliance Review	To verify the level of compliance with policies, procedures, standards and relevant legislation.
Operational Review	To review the activities in relation to the adherence to or achievement of the relevant control and business objectives.
Pre-determined objective Review	To verify that the targets as per the high level score of the Municipality is SMART (specific, measureable, accurate, reliable and time-bound. To review the consistency between the high level score card and the departmental SDBIP. To verify that standard operational procedures and technical data definitions have been documented. And to verify the portfolio of evidence to reported targets. To ensure the completeness, accuracy, validity and timely reporting of the entity performance achievements against the KPI and strategic plan.
Governance Review	To review and evaluate the adherence to corporate governance practices and principles.
Follow up Reviews	To determine the progress made by management with the implementation of the action plans agreed upon with the internal audit activity and report on a quarterly basis to the audit committee
Annual Financial Statements Review	Review of the Municipality's Annual Financial Statements at year end before submission to the Audit Committee and Municipal Council

The internal audit report is discussed with senior management prior submission to the audit committee. A risk based strategic approach is adopted which takes into account the results of the risk assessment, subsequent discussions with management. This approach involves a focus on understanding the work of each focus area and identifying risks associated with that focus area.

It further includes a process of linking risk analysis to assigned planning and audit program development. The strategic approach is a risk based plan aligning the priorities of internal audit work with the objectives and goals of the Municipality and the related risks as identified for the municipality.

AUDIT FOCUS AREA	TYPICAL RISK INDICATOR
DEPARTMENT OF FINANCE	Expenditure division
	Late submissions of insurance claims by departments
	Supporting documents not attached to travel and subsistence claims
	Late submission of the VAT returns to SARS
	Payments allocated under incorrect votes
	Asset Management and loss control
	Incorrect votes used to purchase assets
	Replacement of stolen and lost items not communicated to the asset management unit
	Assets not assessed for impairment
	Useful lives of assets not reviewed
	Asset register not updated on a regular basis
	Inadequate control of finance lease assets
	Loss control
DEPART,MENT OF FINANCE	Payroll division
	Insufficient supervision on Payroll process
	No supporting documents for non- statutory deductions
	Incorrect calculation of allowances
DEPARTMENT OF FINANCE	Revenue Managements division
	Inconsistent application of debt collection policy.
	Lack of implementation of revenue enhancement plan
	No updated indigent register
	Inaccurate information provided by the meter readers and some of the meters not accessible nor read by meter readers

AUDIT FOCUS AREA	TYPICAL RISK INDICATOR
	Some of the households have not signed consumer agreements with the municipality
	Electrical bridging not attended by electrical department immediately and sometimes not at all
	New consumer account opened while there is still a debit balance on the closed account.
	Stipulations of credit control policy on indigent not complied with
	Lack of Evaluation roll credibility
	Inadequate financial accounting policies
	Excessive distribution loss
	Ineffective Collection of revenue
	Inadequate billing system
	Supply Chain Management division
	Over utilization of deviation clause in the SCM policy.
	Retentions reconciliations not performed regularly
	No monitoring of payments to suppliers to ensure that the payments are within the approved limits.
	No proper procedures followed with regards to extensions/modifications of contracts/quotations.
	Absence of/ outdated SLA's.
	Inadequate evaluations of suppliers
DEPARTMENT OF FINANCE	Poor record keeping
	Non compliance to SCM policy and SCM regulation
	Budget and Reporting : Control/process Review
	Community participation not properly conducted during public participation process
	The monthly statements not in line with sec 71 of MFMA
	Inaccurate financial reports
	Non-execution of the action plan within timelines
	Audit of interim and annual Financial Statements
	Incomplete and inaccurate financial statements
	Non-compliance to GRAP
FOLLOW-UP AUDITS	Internal Audit findings report
	Auditor General findings – Action Plan
CORPORATE SERVICES	Development and Transformation
	Procedure manuals not reviewed
	No fire proof safe for important documents such as leave files
	Failure to comply with the Employment Equity Plan
	Human Resources policies not reviewed on an annual basis
	No proper management of probation
	Poor management of leave

AUDIT FOCUS AREA	TYPICAL RISK INDICATOR
	Leave reconciliation not reviewed. No proper management on approved bursaries No proper management of contract appointments Lack of commitment by employees Inadequate Clarity of roles and responsibilities
COPRPORATE SERVICES	Legal and Municipal Courts Failure to review and promulgate by-laws Failure to adhere to approved service charter and SLA's No proper management on pending cases lodged against employees and the employer ICT Division Lack of testing of the DR and BCP Information Communication Technology (ICT) Policies not properly implemented No standardised system software (Windows) Occupational Health and Safety Non Compliance to the OHS Act in respect to Functional Health and safety Committees Emergency evacuation plan and assembly points not communicated to staff members/employees
DEPARTMENT OF COMMUNITY SERVICES	Traffic - division No policy in place to guide prosecutors in administration of oral representations Facilities - section Handling of funds by non-financial staff poses safety risk to the staff handling cash and the cash itself. The facilities Manager collects money at various points and deposit it at nearest pay-point (cashiers at main offices) Poor security controls in all facilities No segregation of duties Procedure manuals not reviewed No reconciliation between the cash register, physical cash counted and cash collected Fire, Rescue, Disaster Management & Communication Lack of disaster management plan Environmental Affairs – Section Lack Environmental Management framework Vandalism and misuse of community and social amenities Poor keeping and availability of burial register in some cemeteries is in contravention of Death and Birth Register Act which may lead to Council not being able account
TECHNICAL SERVICES	Solid Waste Management Old/Unreliable fleet – waste not collected as scheduled (Service not sustainable) Musculoskeletal injuries e.g. back injuries, dislocations, fractures and poisoning. Excessive/extra –ordinary overtime Shortage of personnel and equipment – landfill sites Permitting of operational and closed landfill sites (Non-compliance with National Environmental Management: Waste Act, 2008 (Act 59 of 2008) and DWAF Waste Management Series. Minimum requirements for Waste Disposal Shortage of available air-and landfill space. (Available air-and landfill space within Secunda and Kinross landfill sites – maximum 5 to 8 years.) Illegal dumping

AUDIT FOCUS AREA	TYPICAL RISK INDICATOR
	Failure to license landfill sites
	Mechanical Workshop – division
	Aging/old fleet
	Vehicles refilling up after low mileages have been travelled
	Fuel loss
	Shortage of working equipment, negatively affects the level of service delivery
	Non-compliance to overtime policy negatively affect Municipal finances
	Roads and Storm water
	Shortage of road maintenance material
	Failure to maintain the paved roads
	Maintenance of roads that have reached its lifespan
DEPARTMENT OF TECHNICAL SERVICES	Energy Section
	Illegal connections
	Faulty meters
	Insufficient meters installed
	Water and Sanitation
	Operational risk in spillage of sewer pumps, theft and vandalism, and health and safety
	Poor quality of water
	Risk in non-compliance to National Water Act, 36 of 1998
OFFICE OF THE MUNICIPAL MANAGER	Project Management Unit
	Lack of monitoring and supervision
	Lack of skill and training of personnel
	Discrepancies in tender awarding processes
	Project not completed on time
FINANCE	Stock Count
	Misstatement of inventory balances
	Missappropriation of inventory
PLANNING AND DEVELOPMENT	Properties
	No electronic system in place to capture applications
	Lease Register not updated regularly
	Outstanding lease payments not followed up
	Local Economic Development & Tourism
	Vandalism of the memorial statue and the indigenous games at the cultural precinct has got negative impact to the marketing of the town as a tourist attraction
	Lack of incentives to promote development
	failure to review LED strategy
	High rate of unemployment and poverty
	Human Settlements
	GMM Spatial Development is not aligned with the National Government Programme
	Illegal land invasion
	Delays in assignment of human settlement functions

AUDIT FOCUS AREA	TYPICAL RISK INDICATOR
	Lack of community involvement and participation in the implementation of the projects
AUDIT OF PRE-DETERMINED OBJECTIVES (Performance Management)	Performance
	Failure to rolling out of performance management to lower levels
	Poor supervision
	Inadequate resources
	Service delivery backlogs
	Lack of skills and capacity
	Compliance
DEPARTMENT OF PLANNING AND DEVELOPMENT	Performance targets not in line with the “SMART” criterion
	Key performance indicators not measurable, relevant, objectives and well-defined
	Lack of alignment between the approved Budget, IDP and SDBIP
	Land-use Management and Spacial Development
	Illegal occupation of municipality land
	Under performance of service providers
	Poor management of specialized drafting software (Ally CAD, CADDIE), may lead to the termination of maintenance update Licenses.
	Poor management of digitized engineering drawings software may lead to termination of maintenance update licenses.
	Poor Management of engineering drawings might impact negatively on service delivery.
	Poor Management of reprographic office equipment, which might negatively affect Service Delivery level.
	Non Safe keeping of electronic drawings and data.
	Non Compliance to the Occupational Health and Safety act, which might lead to injuries and lawsuit. (KPA 1)
	Non Filling of vacant position of CAD operator is resulting in infrastructure services that are not captured digitally which have a direct impact on service delivery from technical personnel.
	Un-maintained paved roads
	Non maintenance of roads that has reached its lifespan
RISK MANAGEMENT	RISK MANAGEMENT
	Audit Risk management
	Lack of fully fledged Risk management Unit
	AUDIT OF CORPORATE GOVERNANCE
	Corporate governance audit
AD – HOC	Ad – Hoc Assignments

4.11 AUDIT OUTCOME

The Municipality received an Qualified audit outcome with findings for the Financial year 2020/2021 ending 30 June 2021 (FY 2020/2021) as declared by the Auditor-General (AGSA) .

CHAPTER 5: WARD NEEDS ANALYSIS

This chapter outlines the various services delivery needs and list of priorities raised by communities in the different wards during the IDP public engagement sessions held.

The municipality comprises of 8 towns and structured into 32 electoral wards which cover an area of 2 958m2.

In terms of the IDP Process Plan public consultation is key in determining the development priorities of communities. Community participation is central in the development of the IDP and communities are legislatively encouraged to participate in the affairs of local government.

An intensive public participation process took place whereby all the input received during this process was captured and ensured that all issues raised by communities are covered within the IDP and further refined and priorities as per the planning and budgeting process.

5.1 HIGH LEVEL SUMMARY KEY SERVICE DELIVERY CHALLENGES AND DEVELOPMENTS NEED PER MUNICIPAL KEY PERFORMANCE AREA

The following summarised key service delivery challenges and development needs were raised by communities during the public consultation meetings conducted as per the drafting and development of the Five (5) IDP 2022-2023/2026-2027 .

Key issues emanating from consultations cut across all wards

- ☐ Provision of low cost housing
- ☐ Provision of stands
- ☐ Capacity Constraints : Increase / upgrading capacity of electricity and electricity infrastructure to accommodate for the demand and increase in households
- ☐ Protection of municipal infrastructure
- ☐ Construction of roads and patching of road/ fixing of potholes
- ☐ Provision of boreholes on Farms
- ☐ Provision / Maintenances / Replacement of street lights and high mast lights
- ☐ Sewerage spillage/blockages/ Ageing infrastructure/
- ☐ Removal of illegal dumping waste /Health hazards and Environmental pollution.
- ☐ Upgrade of road P216-1 -Nelson Mandela Drive (Secunda to Emba) from a single carriage way to a dual carriage way road
- ☐ Expansion single road to a dual road between Emba and Evander, Secunda and Trichardt.

5.2. SECTOR RELATED SERVICE DELIVERY CHALLENGES AND DEVELOPMENTS NEED

Sector Related Key issues emanating from consultations cut a cross all wards:

- ☐ Clinics to be built
- ☐ Low cost housing / houses to be built
- ☐ Construction of Schools
- ☐ Multi Purpose Centres

5.3 CORE SERVICE DELIVERY ISSUES PER WARD

The community needs as raised during these public consultative meetings are listed per below table :

WARD 1	COMMUNITY CONSULTATION NEEDS	
	➤ Allocation of residential stands – township establishment ➤ Electricity issues at Eendracht. ➤ Street lights should be maintained. ➤ Low-cost houses ➤ Maintenance of cemetery facilities ➤ Repair of collapsed manholes and sewer lines ➤ Unblocking of sewer lines in Leandra and Lebohang. ➤ Repairing of water leaks and pipe bursts ➤ Maintenance of high mast lights. ➤ Provision of public toilets in Leandra town. ➤ Clearing of illegal dumping sites. ➤ Grass cutting in open spaces in Eendracht and Leandra. ➤ Grass cutting in the cemetery. ➤ Cleaning of stormwater drainages. ➤ Maintenance of roads. ➤ Patching of potholes. ➤ Re-gravelling of roads in Lebohang (Ext. 12 & 13) ➤ Re-gravelling of roads in Leandra town. ➤ Change of stand ownership ➤ Maintenance of public facilities (Hall in Leandra town) ➤ Upgrading of park in Leandra town. ➤ Construction of a multipurpose Centre. ➤ Upgrading of tennis and netball courts in Leandra town. ➤ Provision of Mobile clinic in the farms.	
	Eendracht ➤ Make provision of sewer network ➤ High mast light and street lights ➤ Roads maintenance and tared ➤ Storm water drainage ➤ Investigation of untraceable beneficiaries of stands ➤ Clinic ➤ Tittle deeds, especially to those who built their own houses ➤ Allocation of residential stands – township establishment ➤ Upgrade of Eendracht bulk water line. ➤ Provision of sewer network in Eendracht. ➤ Installation of street lights in Eendracht and Leandra town. ➤ Re-gravelling of roads in Eendracht.	Farms ➤ Provision and maintenance of windmills and boreholes in the farms. ➤ Provision of water, sanitation (toilets) and electricity in Rietvlei. ➤ Water pipe connection in Strehla ➤ Cleaning of septic tanks and VIP toilets in the farms. ➤ Draining of septic tanks in Eendracht. ➤ Provision of electricity in Kortlaagte farm. ➤ Re-gravelling of roads in Moedverloren ➤ Re-gravelling of roads in Witbank farm (Kwa- Madolo) ➤ Provision of land for grazing in the farms. ➤ Assistance with land claims in the farms ➤ Provision of scholar transport in the farms. ➤ Employment opportunities(EPWP,CWP) ➤ Assistance with ID smart cards and birth certificates in the farms

WARD2	COMMUNITY CONSULTATION NEEDS ➤ Construction of a multi-purpose centre ➤ High mast light installation ➤ Paving of roads ➤ Speed humps ➤ Paving along Mbana Masilela ➤ Maintenance of cemetery facilities ➤ Unblocking of sewer lines ➤ Repair of collapsed sewer lines and sewer manholes. ➤ Upgrading of Kliphuis sewer pump station ➤ Replacement of aged, faulty water meters and uplifting of underground meters. ➤ Repairing of water leaks and pipe bursts. ➤ Maintenance of highmast lights. ➤ Maintenance of street lights in RDP main road. ➤ Electrification of new high light mast ➤ Regravelling of roads. ➤ Finishing of paved road in RDP. ➤ Patching of potholes in the main road in RDP. ➤ Cleaning of stormwater channels ➤ Assistance with title deeds. ➤ Provision of residential stands. ➤ Maintenance of RDP hall. ➤ Building of a new clinic in RDP. ➤ Building of a high school in RDP ➤ Relocation of Enkanini people next to Shaka Maseko ➤ Stadium Maintenance
WARD 3	COMMUNITY CONSULTATION NEEDS ➤ Fencing of graveyard ➤ Attendance to sewer spillages all over the ward. ➤ Repairing of collapsed sewer lines and collapsed manholes ➤ Upgrading of Leandra sewer outfall line ➤ Replacement of faulty water meters ➤ Uplifting of underground meters ➤ Repairing of water leaks and pipe bursts. ➤ Maintenance of high mast lights. ➤ Fixing of street lights in ext. 5. ➤ Clearing of illegal dumping sites. ➤ Grass cutting at the cemeteries. ➤ Closing of the quarry. ➤ Cleaning and clearing of storm water drainages in ext. 05 and 06. ➤ Maintenance of stormwater drains. ➤ Clearing of stormwater channel in ext. 6 and 7. ➤ Regravelling of Isihuluhulu street that covers ext. 09 and ext. 01 ➤ Grading and Regravelling of roads. ➤ Patching of potholes. ➤ Paving of roads in ext. 5 ➤ Provision of residential stands. ➤ Assistance in change of stands ownership. ➤ Construction of a community park in ext. 6. ➤ Construction of a multipurpose centre.

WARD 4	COMMUNITY CONSULTATION NEEDS ➤ Electricity outages ➤ Job creation ➤ Removal of illegal dumps ➤ Clearing of sewer spillages ➤ Creation of storm water channels ➤ Improve waste collection ➤ Replacement of sewer pipes ➤ RDP houses ➤ High mast light not operational ➤ Paving of Nkosi Street, Mthuphi Street, and Velabahleka Street Phase 3 ➤ Paving of Malaza and Thomas Nkosi Street ➤ Re-graveling in Ext 25(D & E) ➤ Maintenance of Sewer pump station in Ext 25 ➤ Need of new Clinic ➤ Provision for parks ➤ Uncovered electric meter boxes ➤ Clearing of illegal dumping sites. ➤ Patching of potholes
WARD 5	COMMUNITY CONSULTATION NEEDS ➤ Upgrading of sewer pipes ➤ Paving of airport road ➤ The realigning and re-levelling of the sewerage system, running along Lebombo and Magaliesberg streets ➤ No streetlights at Nelson Mandela Drive ➤ Lamp posts hanging over, some fallen over ➤ Road maintenance ➤ Pedestrian robots not working ➤ Robots been run over by cars not replaced ➤ Covers for street drains are broken or missing, as well as storm water covers ➤ Electric boxes not maintained, rusted and doors hanging open or broken off completely ➤ Speed humps not painted ➤ Speed humps to be installed in Nelson Mandela as this has become a raceway ➤ Maintenance of street lights ➤ Cutting of trees ➤ Revamp - Taxi rank next to Secunda Mall ➤ Installation of manhole covers ➤ Maintenance of cemetery facilities ➤ Maintenance of Secunda Stadium

WARD 6	COMMUNITY CONSULTATION NEEDS ➤ Provision of stands ➤ Installation of high mast light ➤ Paving of roads in Ext 9 & 10 ➤ Renovation of Difa Nkosi Hall ➤ Water and sanitation in Ext 9 ➤ Storm water drainage in Ext 9 and Ext 10 ➤ Upgrade sewer network ➤ Maintenance of cemetery facilities ➤ Cleaning and clearing of storm water drainages. ➤ Cleaning of stormwater channel in ext. 10. ➤ Grading and Regravelling of roads. ➤ Patching of potholes. ➤ Maintenance of roads in the industrial area.
WARD 7	COMMUNITY CONSULTATION NEEDS ➤ Paving of streets in Ext 9 ➤ Street lights ➤ High mast lights next to clinic ➤ 3 Way Stop Ext. 12 Road (Kgotso Lapa) ➤ Storm water channel in Ext 11 and ext. 9 ➤ Install Robots at Ext. 12 four-way stop and at four-way Ext. 11 at Embalenhle ➤ speed humps in Ext 4 and 9 ➤ Construction of a community hall ➤ Renovation of Fluor Daniel Stadium ➤ Erect of speed humps next to schools ➤ Recreational facility centre ➤ Maintenance of cemetery facilities ➤ Electricity outages
WARD 8	COMMUNITY CONSULTATION NEEDS ➤ Allocation of RDP houses ➤ Stands allocation ➤ Construction of a Library in Ext 14 ➤ Construction of a police station ➤ Maintenance of High Mast ➤ Sewer reticulation ➤ Re-gravelling of Mathobela Street next to cemetery and gravelling of Mayisela Shopping centre to cemetery ➤ Electricity outages ➤ Job creation ➤ Maintenance of cemetery facilities ➤ Cleaning of water channels next to Vukuzithathe Primary School ➤ Maintenance of all streets, especially KI Thwala Street ➤ Regravelling of all gravel roads ➤ Paving/tarring of KI Thwala road ➤ Patching of potholes on the main road (Albert Luthuli) ➤ Erection of speed humps ➤ Erection of foot bridge next to Mayisela ground ➤ Maintenance of sewer reticulation next to Gogoda passage (New) ➤ Secondary and High school (New) ➤ Storm water drainage to be maintained

	➤ Recreation parks and sport facilities ➤ Gymnasium (New) ➤ Consistent weekly collection of refuse ➤ Cleaning of illegal dumping next to the clinic (New)	
WARD 9	COMMUNITY CONSULTATION NEEDS ➤ Electricity outages ➤ Sewer maintenance ➤ Provision of a Primary school ➤ Roads not trafficable ➤ Re- gravelling of roads (especially Ext.22) ➤ Paving of Roads ➤ Low cost houses ➤ Provision of stands ➤ Motor bridge between Welamlambo and Crossroads (as an alternative route to ease traffic congestion between the eMba mall and Welamlambo during peak hours) ➤ Repairing of roads around eMba Mall ➤ Construction of a bridge between Cross Road and Ext 22 ➤ Construction of a Taxi rank at Ward 20 ➤ Construction of a Library at Ext 22 ➤ Application of a Primary school at Ext 22 ➤ Construction of a bridge that cross-over Wela Mlambo to Ext 22 ➤ Construction of a multipurpose centre ➤ Satellite police station ➤ Municipality pay point at gate 7 ➤ Residential stands ➤ Job creation ➤ High mast lights not working ➤ Paving of a cemetery at Ext 18 ➤ Maintenance of cemetery facilities ➤ Indigent registration ➤ Creation of roads in Azania ➤ Library ➤ Waste removal ➤ Provision of toilets at Azania	Farms (KwaSlevana, Roodebank, Leeuwpan, KwaSmith(Klipdrift), Rhino Lodge, Kubo Mtsweni, Kwamfundisi) ➤ Provision and maintenance of windmills and boreholes in the farms. ➤ Provision of water, sanitation (toilets) and electricity. ➤ Crèche ➤ Job creation projects ➤ Provision of low costs houses ➤ Provision Water and electricity ➤ Provision of water tanks in the farms ➤ Construction of a library for the community in the farms
WARD 10	COMMUNITY CONSULTATION NEEDS ➤ RDP houses ➤ Speed up the process of a reservoir ➤ Electricity challenges ➤ Maintenance of high mast lights ➤ Illegal dumping site at Ext 16 ➤ Sport grounds Maintenance ➤ Construction of speed humps on the main road (Standerton road) due to high volume of accidents ➤ Construction of speed humps in Charl Cilliers ➤ Installation of High Mast lights in Charl Cilliers ➤ Installation f High mast light (Apollo)Extension 20 (at the Kraals) ➤ Re-gravelling of roads at Ext 15 and Ext 17 ➤ Fixing of Potholes Extension 20 (way to the clinic) ➤ Re-gravelling of road in Charl Cilliers Cemetery ➤ Installation of a Foot bridge ➤ Paving next to Sunrise Crèche structure , Cheap Corner and Maphala Gulube	

WARD 11	COMMUNITY CONSULTATION NEEDS ➤ Issue with waste removal ➤ Construction of a play ground ➤ Job opportunities ➤ In need for Paving on all roads at Extension 7 (only 1 road was paved) ➤ Potholes ➤ Street lights (especially at Ext 7) ➤ In need of a tarred road (Paving bricks are removed by the community) ➤ Job opportunities for the elderly as well. ➤ Construction of a University ➤ Training centers for skills ➤ Sasol and Big Companies to plough back ➤ Better jobs for Local people (not General working positions) ➤ In need of RDP houses ➤ Small businesses not recognized (SME's) ➤ No business for community members (took over by people from foreign countries) ➤ Municipality to monitor services ➤ Electricity crisis, switching not done equally (Ext 7 has been divided into 2 in terms of switching/loadshedding) ➤ Maintenance of Dangers ➤ No Varo Test machine for electricity cable issues. ➤ Transformers are being replaced by used/old transformers. ➤ Donations asked from the community to buy electricity ➤ Dam on the road at Extension 1. ➤ Grass cutting ➤ Potholes becoming dams on the road at Extension 7. ➤ Waste removal alongside Emba Mall. ➤ Megabus busses causing mud and damaging roads. ➤ Trucks going in and out of Emba Mall damaging the road (gate near BUCO) ➤ Ash for the roads (re-gravelling)
WARD 12	COMMUNITY CONSULTATION NEEDS ➤ Change of ownership stands ➤ Potholes ➤ Fixing of damaged electrical poles ➤ Sewer spillages ➤ Indigent ➤ Electricity challenges ➤ High Mast lights ➤ Re-gravelling of roads ➤ Stands allocation ➤ Maintenance of cemetery facilities

WARD 13	COMMUNITY CONSULTATION NEEDS ➤ Electricity problem ➤ High mast lights ➤ Patching of potholes. ➤ Residential Stands ➤ Low-cost Houses ➤ Paving/tarring of KI Thwala Road ➤ Sewer spillages ➤ Roads Maintenance. ➤ Sports Centre construction ➤ Maintenance of cemetery facilities ➤ Waste collection ➤ Police station ➤ Foot bridges ➤ Sport grounds ➤ Job creation ➤ RDP houses are in a state of collapse ➤ Regravelling of Roads ➤ Change of stands ownership
WARD 14	COMMUNITY CONSULTATION NEED ➤ Sewer maintenance ➤ Waste Removal ➤ Illegal dumping site ➤ Electricity Substation (eMba South) to be upgraded ➤ Road re-graveling and paving ➤ High mast light at Ext 18 maintenance ➤ Provision of stands ➤ Provision of a library ➤ Allocation of pay points for the elders ➤ Application for a high school at Ext 18 ➤ Construction of a storm water drainage at Ext 14 , 18 and Welas ➤ Allocation of space for farming purposes ➤ Maintenance of cemetery facilities ➤ Sport ground maintenance ➤ Job opportunities
WARD 15	COMMUNITY CONSULTATION NEEDS ➤ Maintenance of storm water drainage ➤ Sewer Maintenance ➤ Sewer spillages and maintenance ➤ Installation of High Mass light ➤ Construction of speed humps ➤ Fixing of pod holes ➤ Paving of roads ➤ Renovations of Sjongile Ndamase hall ➤ Maintenance of cemetery ➤ Need for Sports facilities (New) ➤ Low-cost houses (RDP) (New) ➤ Maintenance of Recreational sites especially next to Sjongile Ndamase) (New) ➤ Application for NHNR (New) ➤ Re-gravelling of all roads ➤ Temporary place for waste while trucks not available ➤ Rotation of EPWP's and Ward Committees (New) ➤ Constant Communication with the community and feedback (New) ➤ Grass cutting next to the stadium for safety purposes. ➤ Waste removal backlog Farms

	➤ Sucking of toilets ➤ Building of new toilets ➤ Boreholes and wind mills not working. (Water is a main problem) ➤ Allocation of low costs houses ➤ Roads not trafficable during rainy seasons ➤ Maintenance of toilets ➤ Electrification of houses ➤ Drug Rehabilitation Centre (Establishment of Rehabilitation Centre) ➤ Employment opportunities ➤ LED projects
WARD 16	COMMUNITY CONSULTATION NEEDS ➤ High School in Ext 25 ➤ Clinic in Ext 25 ➤ Paving of Roads Ext 25 ➤ Sport field ➤ Provision of stands ➤ Electricity upgrade ➤ Provision of low costs houses ➤ Electricity upgrade ➤ Construction of a Community Hall ➤ Re-gravelling of roads ➤ Storm water drainage ➤ High mast light ➤ Waste removal ➤ Bush shelters ➤ Grass cutting Vaalbank Farm ➤ Sucking of toilets ➤ Borehole ➤ Provision of low costs houses ➤ Scholar transport ➤ Mobile clinic ➤ Road re-gravelling ➤ ECD Centre – crèche ➤ Electrification of houses ➤ Re-gravelling of roads Grootpan Farm ➤ Borehole ➤ Electrification of houses ➤ Provision of low costs houses ➤ Not enough land for grazing and agricultural purpose ➤ Re-gravelling of roads ➤ Sucking of toilets
	COMMUNITY CONSULTATION NEEDS

WARD 17	➤ Water networks refurbishment ➤ Water purification plant refurbishment ➤ Fixing of street lights ➤ Fixing of potholes ➤ Multi-purpose centre with a library and clinic ➤ Public lighting at Sakhisizwe ➤ Fencing at landfill site at Kinross ➤ ECD centre/ Disable skills Centre ➤ Maintenance of cemetery facilities ➤ Grass cutting ➤ Waste removal ➤ Traffic signs ➤ Refuse removal contingency plan ➤ Uninterrupted water supply ➤ Storm water drainage management ➤ Fence & light in reservoirs and all GMM Infrastructure for security purposes (MIG)	➤ Replacement of all stolen manholes covers ➤ Shopping centre ➤ Lighting at Evander Lapa ➤ Fencing at Evander Lapa ➤ Public toilets at Evander Lapa ➤ Maintain the palisade fence at Evander Stadium ➤ Sign board for ‘No dumping’ ➤ Storm water drainage ➤ Road maintenance ➤ Contingency plan to address challenges ➤ Water losses ➤ Water leakages – water loss ➤ Clinic is too small for the community of Thistle Groove ➤ Maintenance of Thistle Groove Park		
WARD 18	COMMUNITY CONSULTATION 1: ➤ Relocation of the library a safe environment ➤ Rubbish-off load site as well as proper dumping facility ➤ Fencing of Evander Lapa ➤ Sewer purification works upgraded ➤ A clinic facility in town ➤ A community Centre with a library be erected ➤ Maintenance of roads/ streets in Evander, Secunda, Sunset Park ➤ Taxi Rank upgrade ➤ Potholes ➤ Maintenance of cemetery facilities ➤ Sewer is not operational. ➤ Infrastructure maintenance ➤ Sewer pumps station be maintained ➤ Taxi Rank upgrade ➤ Roads maintenance ➤ Waste removal ➤ Main sub-station upgrade ➤ MIG Grant – returning to Government ➤ Cleaning of the parks ➤ Illegal dumping sites ➤ Damaged robots ➤ Pruning of trees ➤ Grass cutting ➤ Replace water pipes			
WARD 19	COMMUNITY CONSULTATION NEEDS <table><tr><td> ➤ Sewer spillages ➤ Electricity outages ➤ Maintenance of Water Drainage ➤ Lack of youth employment, job opportunities and business opportunities for young people be prioritised as well ➤ Low cost houses </td><td>Farms (KwaSlevana, Roodebank, Leeuwpan, KwaSmith(klipdrift), Rhino Lodge, Kubo Mtsweni, Kwamfundisi) ➤ Provision and maintenance of windmills and boreholes in the farms. ➤ Provision of water, sanitation (toilets) and electricity. ➤ Crèche ➤ Job creation projects ➤ Provision of low costs houses </td></tr></table>		➤ Sewer spillages ➤ Electricity outages ➤ Maintenance of Water Drainage ➤ Lack of youth employment, job opportunities and business opportunities for young people be prioritised as well ➤ Low cost houses	Farms (KwaSlevana, Roodebank, Leeuwpan, KwaSmith(klipdrift), Rhino Lodge, Kubo Mtsweni, Kwamfundisi) ➤ Provision and maintenance of windmills and boreholes in the farms. ➤ Provision of water, sanitation (toilets) and electricity. ➤ Crèche ➤ Job creation projects ➤ Provision of low costs houses
➤ Sewer spillages ➤ Electricity outages ➤ Maintenance of Water Drainage ➤ Lack of youth employment, job opportunities and business opportunities for young people be prioritised as well ➤ Low cost houses	Farms (KwaSlevana, Roodebank, Leeuwpan, KwaSmith(klipdrift), Rhino Lodge, Kubo Mtsweni, Kwamfundisi) ➤ Provision and maintenance of windmills and boreholes in the farms. ➤ Provision of water, sanitation (toilets) and electricity. ➤ Crèche ➤ Job creation projects ➤ Provision of low costs houses			

	➤ Stands ➤ High mast light ➤ Roads rehabilitation ➤ Maintenance of cemetery facilities ➤ Waste Removal ➤ Illegal dumping site	➤ Provision of water tanks in the farms ➤ Construction of a library for the community in the farms ➤ Land for agriculture project/purposes
WARD 20	COMMUNITY CONSULTATION NEEDS ➤ High school in ext. 10 (greenfield) ➤ Gravelling of roads ➤ High mast light ➤ Provision of stands ➤ Construction of taxi rank ➤ Maintenance on high mast light at Ext 10 ➤ Maintenance of storm water drainage from the traffic circle to White City section ➤ Phase 2 of paving of road from Chicken Eyakho to Bracken Road ➤ Re gravelling of roads Ext 10 and Ext 16 ➤ Upgrade of sport ground at Ext 10 ➤ Maintenance of cemetery facilities ➤ Sewer spillages ➤ Construction of a Hall ➤ Construction of Rehab for drug users ➤ Marikana invaders – Waste removal ➤ Agricultural programs ➤ Foot bridges ➤ Mandela - open trench to be closed ➤ Mandela - speed hump down the cycle ➤ Mandela – open Dangers	
WARD 21	COMMUNITY CONSULTATION NEEDS	
	Maintenance of engineering services Storm water drainage system – blocked. ➤ Not sufficient enough to accommodate huge quantities of water Info-boards –not maintained & updated for tourist ➤ Damaged Board in Helen Joseph Street needs to be completed. (Half completed structure an embarrassment – standing uncompleted for years now) Social-upliftment – ➤ We urgently need a frail care centre for low cost housing residents ➤ EXT 23- Community Centre/Hall, Shopping Centre, playground at Ext 23. Traffic stop streets/lights –	Barricade at entrance to Secunda- Walter Sisulu rd.- ➤ Crash Barricade damage needs to be repaired and painted Streetlights – ➤ Bulbs. Urgent repair and correction of damaged light poles Street names & house numbers – Emergency services suffer to find correct addresses. ➤ Need poles with visible sustainable steel plate, name printed, and signs. ➤ By-law to keep residents responsible on visible house numbering. Sewer and Water system – ➤ Infrastructure is old. Needs upgrading. Taxi rank- ➤ Needs upgrading and cover parking Maintenance of cemetery facilities

	➤ Traffic calming in front of the Lifestyle Centre in Joe Slovo Street needs urgent attention. Residents there have the problem to exit their premises because of main street and heavy traffic. ➤ Traffic Light – PDP Kruger and Danie Theron Streets. (At Fire Station)	
WARD 22	COMMUNITY CONSULTATION NEEDS	
	➤ Electricity challenges ➤ Sewer spillages ➤ Phase Two of the multipurpose Centre ➤ Parks ➤ Reservoir leaking ➤ Stands for residential purposes ➤ Request for RDP's ➤ Application for a primary school ➤ Speed humps ➤ Maintenance of cemetery facilities ➤ Paving of roads ➤ Storm water drainage ➤ Cemetery by Law to be reviewed ➤ VIP Toilets ➤ -Victor Khayiyane ➤ Khethelo foot bridge ➤ Permanent bridge & Amadlelo Aluhlaza ➤ New cemeteries extension 4 area ➤ Leaking water reservoir	➤ High school ➤ Bridge for access to Madlelo aluhlaza ➤ Traffic signs ➤ Increase the number of toilets in schools ➤ Job creation ➤ Stand proclamation ➤ Electrification of 42 stands ➤ Water for 34 houses ➤ Electricity poles are falling ➤ Malema area/settlement be considered in all planning ➤ Primary school extension 4 ➤ High mast light ➤ Potholes ➤ Recreational facilities ➤ Sports ground at extension 4 & 5 ➤ Connect water & sewer to houses
WARD 23	COMMUNITY CONSULTATION NEEDS	
	➤ Electricity outages ➤ Parks needed ➤ Water Reservoir leaking ➤ Stands for residential purposes ➤ Job creation ➤ Foot bridge to be constructed next to Khethelo High School ➤ Paving of roads ➤ Storm water drainage ➤ Increase the number of toilets in schools ➤ AZAPO section need for toilets construction ➤ Requests for RDP ➤ Re-gravelling of roads in Ext 4 ➤ Speed humps near Sakhisizwe and road maintenance ➤ Phase Two of the multipurpose Centre ➤ Illegal dumping side to be looked at all wards. ➤ Provision of land for cemeteries ➤ Leaking water reservoirs, By Laws on cemeteries to be looked at i.e., TLB & Fees. ➤ -Street lights to be maintained due to high crime rate. ➤ -Alternative road via extension 5 to Standerton Road. ➤ -Building of school at extension 5 to minimize overcrowding.	

	➤ Budget for informal settlement (Malema ext. 4). ➤ Electrical poles falling ➤ Residential stands to be developed and made available due to increase, of people in one household. ➤ Registration of F-section. ➤ Stormwater at Victor Khayiyane street. ➤ Proper grading of streets to be looked at. ➤ Vacant stands utilized by criminals to be looked at by Council, or be given to the people who need them (stands). ➤ Land Invasion ➤ Mzinyane street stand no: 4653 RDP house needed – by orphans. ➤ Cable theft to be a joint effort in monitoring. ➤ Libraries at extension 4 & 5 to be built. ➤ Sports grounds
WARD 24	➤ Electricity outages ➤ Rehabilitation of Victor Khayiyane Road ➤ High mast lights ➤ Water shortages ➤ Storm water drainage ➤ Illegal dumping site ➤ Waste drums along the streets ➤ Toilets not connected to RDPs ➤ Open hole next to AD Nkosi School ➤ Maintenance of roads ➤ Request for stands. ➤ Title deeds ➤ Potholes ➤ Low cost houses
WARD 25	➤ COMMUNITY CONSULTATION NEEDS ➤ Roads and Road Safety ➤ Road and Traffic signs and signals - Traffic signs in Trichardt town need desperate maintenance, and in some areas should be replaced where they are missing, specifically a “dead-end” sign at the end of Grey street as this relates to road damages due to trucks turning around when realising it is a dead end – also damages the fencing of the cemetery. Stop signs all of Trichardt street name poles/boards – The whole of ward 25 ➤ ALL Roads and stormwater infrastructure need maintenance ➤ Roads to farming communities are in a poor state A robot or four-way stop is needed at Trichardt entrance (Grey Street) from Trichardt/ Evander road ➤ Tarring/ paving of Clinic parking in Trichardt – The current gravel road is a serious safety risk for emergency vehicles. ➤ Tarring/ paving of Library Parking in Trichardt – Next to the clinic (also relates to safety risk, as well as the need of development of road infrastructure) ➤ Tarring of gravel roads in Trichardt town – Van Belkum Street, Grove Street (also for decreased safety risk of emergency vehicles travelling to Highveld Medi Clinic), Ebrahim Daya Street ➤ Lamp poles falling over and bent in Trichardt, as well as across Kuipersaam Gastehuis Ext 22– severe safety risk with legal and cost implications. Since the IDP was approved, Trichardt lamp poles have deteriorated significantly. An audit is needed with regard status and life span of the electricity and lamp poles in Trichardt. ➤ Upgrade of R580 (Trichardt/Evander road) – potholes a serious safety risk on this busy road connecting with the N17, especially between Secunda and Trichardt ➤ R580 (Evander/Trichardt road) also in dire need of lighting – street lamps / high mast lights. The road cannot be seen at night time. This is the only road connecting Secunda town to the hospital in Trichardt. This street is also a HIGH ACCIDENT ZONE ➤ Barrier should be replaced at the corner of Grey and R580 (also be made more visible at night time) ➤ R580 to be painted ➤ Drug Rehabilitation Centre (Establishment of Rehabilitation Centre) ➤ Speedbumps in Nelson Mandela Street to be painted ➤ Upgrade of road P216-1 -Nelson Mandela Drive (Secunda to Emba) from a single carriage way to a dual carriage way road ➤ stormwater provision on Ebrahim Daya

- Roads especially Ebrahim Daya Street, which receives the flowing water of the entire town as it is the lowest road
- Robot in Nelson Mandela Street (L/S Goedeheoop) to be fixed/replaced (children are currently regulating the traffic here as scholar patrols). Same situation in Helen Joseph street pedestrian Robot
- Road lighting by street lamps/ High Mast lights in front of Highveld Medi clinic for emergency vehicle and pedestrian safety
- Speedbumps in front of L/S Trichardt to be painted (Ruth First Street)
- Potholes – Helen Joseph, Vincent Tshabalala, Ruth First (posing a safety risk to children crossing the streets/riding bicycles), Carolus, Trichardt/Evander road (R581), Rapportryer Street, Richter Street, Bekker Street, Lehman Street, Broadbent Street other areas of Trichardt and Secunda
- Evander/Secunda/Trichardt road (R585) around Trichardt is a major problem, It is imperative that this road be upgraded to have more lanes so as to deal with the growing traffic
- **Sewage and Water infrastructure**
- Upgrade of Storm water system and storm water infrastructure (Trichardt & Ext 22) – cannot handle large loads of water in the raining season, as well as the continuous development of the town in Trichardt. The storm water systems are also mostly blocked, causing for water to ruin the roads and make potholes during the rainy seasons.
- Water leak maintenance the whole of Ward 25 – we need to spare all the water we can. Infrastructure in Trichardt is too old and often causes water leaks due to pressure changes. Field in Helen Joseph Street (close to Albany) often has water leaks where water runs down the street for days. Water leaking in Van Schalkwyk Street (in front of Villa Tritoma) on and off for more than a year. Ext 22 Colenso Street often has water leaks as well.
- Water wastage and recycling management – Businesses use too much water cleaning vehicles etc, in Trichardt especially at the end of Paul Kruger Street (no wash bays/ water usage plans implemented). By laws need to be applied here.
- Sewage blockages/ manhole overflows
- Upgrade of Sewage system and sewage infrastructure – Pumpstation at the corner of Ebrahim Daya and Vincent Tshabalala streets in Trichardt has been repaired but shortly after malfunctioned again. The infrastructure of Trichardt town cannot handle its continuous growth. Infrastructure is in a poor state and heavily outdated.
- Water provision in farming communities
- Electricity
- Electrical box maintenance – Electric boxes are accessible and often times completely open – serious safety concern to children in streets. Also malfunction when it rains causing power outages.
- Electrical boxes need locks all over Trichardt and Secunda
- Power Substation upgrade and maintenance. Causes regular power outages especially with rainy or stormy weather. Cables often breaking or malfunctioning.
- By Law Enforcement
- By-Law enforcement regarding illegal vendors in Trichardt (Especially on the Trichardt/Evander road across Sasol Secunda Junction); as well as throughout Trichardt there are illegal caravans parked in several locations, conducting business
- Illegal dumping on the corner of Einstein and Erasmus streets.
- A vehicle for the By law enforcement unit is needed in order to tend to reported by law contraventions in Trichardt.
- Other
- A new High School in Trichardt
- Cemetery fence needs replacement, upkeep of cemetery grounds
- Trichardt Tennis court needs upgrading and maintaining, as well as the field surrounding it
- Park in Trichardt, Bekker Street needs maintaining, upgrading – Trucks from Timber City currently using it as parking area
- Old Trichardtsfontein Combined School building demolished and field maintained
- Ditch on the border of Ward 25 and 21 needs to be maintained and upgraded in terms of safety concerns as it is a severe danger to drivers at night pulling off the road and has caused fatal accidents in the past.
- Community hall needed
- Field/green strip maintenance – next to Highveld Park Primary School, Senecta Centre (for the safety of school children walking through the field), Sasol Secunda Junction, nursery
- Tree pruning – most parts of the ward, is a danger to safety and road safety
- Infrastructure needed at informal settlement next to Terreblanche warehouse (close to old Trichardtsfontein combined school)

- Maintenance of cemetery parks
- There is a need for a cemetery.
- **Holfontein**
- There are no basic services (water, sanitation, electricity)
- Most residents are unemployed and disadvantaged and in need of job opportunities
- There is a need for lighting for the safety of the residents
- Residents complain about extremely low water pressure and very few taps. They are in need of a JOJO tank or perhaps a water tanker that could supply water once a week
- Residents request assistance from the municipality in digging holes with a TLB that could enable them to construct their own toilets since there are none
- The main gravel road entrance to the community is often washing away in the rainy season. This road must be temporarily fixed, by laying new dolerite and grading it.
- Residents were informed that infrastructure is being installed at a new site next to Adullam to which the community will be moving. No timeframe for this move was provided.

(WARDS 5,21,25,30)

- Nelson Mandela to Helen Joseph Street should be upgraded to deal with traffic congestion
- Traffic circle (or alternative solution) is required at Tugela Street entrance to relieve traffic congestion for motorists taking their kids to the primary school
- With the new residential developments (at Albany, X23, Silkaatzkop); the bulk infrastructure must be upgraded and/or maintained to deal with the growing load
- Water reservoirs in Secunda must be upgraded or maintained to deal with problems from Rand Water that are often experienced. The reservoir at x22 is a white elephant that must be addressed.
- An alternative should be considered to the traffic congestion in Oliver Tambo Street by the Secunda Mall. Taxis

ALL TOWNS/ AREAS:

- Dysfunctional storm water infrastructure causes pollution into the water bodies and blockages of stormwater. Dysfunctional sewer infrastructure causes overflowing into water bodies.
It is
<https://interestingengineering.com/australian-city-uses-drainage-nets-to-stop-waste-from-polluting-waterways>
- Reservoirs in Evander, Kinross can also be upgraded/maintained to address the gravitational issue whenever Rand Water is not pumping. In addition, manual pumps should be upgraded to become automatic as neglect to switch them on/off often leaves communities without water. Thistle Grove town is also often left without water for weeks.
- Emergency services are lacking. There is no fire truck. Services are not rendered when there is no electricity, this could cost lives.
- Municipal call centre needs an alternative electricity solution in case of loadshedding or other outages.
- "Green Strips" are not maintained. This is a safety hazard not only for houses which are risking being burgled, but also kids walking to school, joggers and bikers.
- General maintenance of municipal assets are a concern. Municipal low-cost housing are often housing elderly and are in a poor state. The theatre, licencing buildings, clinics. Museums, historical sites, municipal fleets and equipment need refurbishing and consistent maintenance.
- **STREET LIGHTS**
- Landfill sites, the maintenance, management and fencing of landfill sites.
- Sewer infrastructure in Leslie, Embalenhle are a major concern.
- The state of Cemeteries is a general concern, ablution facilities are vandalised. Security is lacking.

SECUNDA AND SURROUNDING AREAS

Bad Road: infrastructure Road in Secunda is in a bad condition. Due to all the potholes, the roads are unsafe for motorists following reports of serious damage to their cars (mainly tyres and rims)
Fixing and upgrading the roads.

The municipality to budget accordingly in the new financial year and allocate sufficient funds to fix potholes and upgrade the roads.

	<u>Sewage:</u> Sewage treatment in Govan Mbeki is not up to standard. Treatment plants and pump stations not working. Raw sewage is spilling into various streams and rivers all across the municipal area. Extra funding needs to be allocated to alleviate this problem. <u>Refuse:</u> Refuse removal not regularly remove refuse. People subsequently dump their refuse illegally on vacant land and pollution, as well as blockages in stormwater drains, are caused by the ever-present rubbish. The municipality should implement the requisite bylaws to address the illegal dumping of rubbish. <u>Electrical Distribution:</u> The Electrical distribution network is insufficient to supply the municipal area. Towns expanded beyond the current capacity of this network. This is also worsened by the loadshedding that is caused by the NMD issue. Extra funding needs to be allocated to repay Eskom Debt and upgrade the current network to a sufficient state.
WARD 26	COMMUNITY CONSULTATION NEEDS ➤ Formalisation of new areas Ext 11 ➤ Maintenance of eMzinoni Stadium ➤ Maintenance of Storm water channels ➤ Large Street Bins ➤ Potholes ➤ Electricity outages ➤ Paving of Cow Village main road ➤ RDP houses ➤ Title Deeds ➤ Regravelling of roads ➤ Provision of stands ➤ Speed Humps (Standerton Road) ➤ Waste removal ➤ Building of toilets in Chris Hani
WARD 27	COMMUNITY CONSULTATION NEEDS ➤ Request for stands ➤ RDP houses ➤ Electricity outages ➤ High mast lights ➤ Illegal dumping site ➤ Storm water drainage maintenance ➤ Formalisation of new areas ➤ Upgrade of eMzinoni Stadium ➤ Storm water next to eMzinoni Stadium ➤ Ext 2 Police station Road to install paving (Victor Khayiyane) ➤ Indigent ➤ Potholes ➤ Title Deeds ➤ Standerton Road (Speed Humps)construction
WARD 28	COMMUNITY CONSULTATION NEEDS

	➤ Reconstruction of roads ➤ Maintenance of Storm water drainage system ➤ Maintenance of Bethal Dam, Town Hall, License Department ➤ Electricity outages ➤ Street light maintenance ➤ Infrastructure is old. Needs upgrading ➤ Electrical boxes: all are standing open and huge safety risk for children. Gets water when it rains and power failures occur. household's electrical ➤ Cutting of trees	<u>BAD ROAD INFRASTRUCTURE:</u> Roads are in a shockingly bad condition due to all the potholes,. The roads are unsafe for motorists following reports of serious damage to their cars (mainly tyres and rims).Municipality need to start fixing and upgrading the roads and allocate sufficient funds to fix potholes and upgrade the roads. <u>Some of the main roads that need urgent attention are as follows:</u> • Buffel Street • Blesbok Street • Waterbok Street • Gembok Street • North Avenue • Station Road • Simon Street • Kleijnhans Street • Du Plooy Street • Chris Hani Street • Jabulani Selepi Street • Clerq Street <u>SEWAGE:</u> Pumpstation at Mark Street is not functioning adequately or not at all. Request that the infrastructure of the sewerage lines gets maintained, as well as the pump stations, and that the municipality ensures that the pumpstation is up and running at all times. <u>REFUSE REMOVAL:</u> Complaints that the municipality does not regularly remove refuse. People subsequently dump their refuse illegally on vacant land and pollution, as well as blockages in stormwater drains, are caused by the ever-present rubbish. Request that the municipality use the plan and budget accordingly in order to purchase all the necessary equipment needed to deliver these services. Lack of refuse removal trucks - Lack of maintenance on vehicles - Protesting by Landfill Sites Furthermore, the municipality should implement the requisite bylaws to address the illegal dumping of rubbish. <u>LANDFILL SITES:</u> The landfill site in Bethal is in extremely poor condition and pose major risks to the environment, as well as the health of the community. These issues include: 1. Security and access control are non-existent because the site is not enclosed with a proper fence. 2. Signage surrounding the landfill sites is non-existent. 3. Refuse is not covered with soil on a daily basis and unpleasant odours arise from the landfill site. 4. The health and safety of the community are in jeopardy, as fires are started at the landfill sites. 5. There are several reclaimers at the landfill sites. They are allowed to reclaim waste without a proper plan, and their employment is in contravention of applicable labour legislation. This leads to fears about their health and safety, as well as that of other people in the area. 6. Spontaneous combustion and fires occur on the site. 7. Refuse is being dumped outside the landfill sites <u>ILLEGAL DUMPING:</u> The following areas are regularly plagued by illegal dumping: • Empty Field by Malherbe and Spruit street. • Empty Land next to Moses Kotane (n17) and Total Jan Mari. • R38 Standerton Bethal Road next to the road due to protestors at the dumping site Due to the failure by the municipality to remove this trash, it consumes the vacant land and pollutes the area. Moreover, it is also a very big health hazard as it attracts rats and mice to the area. Request that the municipality use the IDP process to budget and allocate funds to: - Put up a sign stating that illegal dumping is not permitted, and wrongdoers will be prosecuted. - Put up short wooden poles that will prevent people from driving into the area with their cars to dump their garbage
WARD 29	COMMUNITY CONSULTATION NEEDS ➤ Sport grounds needed ➤ Maintenance of Water drainage system ➤ Paving of roads ➤ Stands ➤ Paving of roads ➤ Electricity outages ➤ Sewer spillages ➤ High mast lights	

	➤ Re gravelling of streets ➤ Youth development office to be visible ➤ Job Creation ➤ RDPs ➤ Stands ➤ Maintenance of Khotso Hall			
WARD 30	COMMUNITY CONSULTATION NEEDS ➤ Trimming of trees ➤ Upgrade of street lights ➤ Electrical boxes not closed ➤ Water leaks from meters ➤ Traffic circle illumination poor ➤ Pedestrian crossings lights not working ➤ Street signs worn away and many streets not marked ➤ High billing

5.5 WARD DEVELOPMENT PRIORITIES

WARD DEVELOPMENT PRIORITIES		
WARD NUMBER	DEVELOPMENT NEED / PRIORITY/PROPOSED PROJECTS	
WARD 1	1) Road maintenance 2) Sewer spillages 3) Waste Removal 4) Provision of stands 5) Electricity issues at Eendracht.	
WARD2	1) Road maintenance 2) Sewer spillages 3) Waste Removal 4) Provision of stands 5) Clinic	
WARD 3	1) Road maintenance 2) Sewer spillages 3) Waste Removal 4) Provision of stands	
WARD 4	1) Electricity outages 2) Road maintenance 3) Sewer spillages 4) Waste Removal 5) Maintenance of cemetery facilities	
WARD 5	1) Maintenance of street lights 2) Paving of airport road 3) The realigning and re-levelling of the sewerage system, running along Lebombo street 4) Fixing of potholes 5) Fixing of robots	
WARD 6	1) Road maintenance 2) Sewer spillages 3) Waste Removal 4) Provision of stands	
WARD 7	1) Electricity outages 2) Road maintenance 3) Sewer spillages 4) Waste Removal 5) Maintenance of cemetery facilities	
WARD 8	1) Electricity outages 2) Road maintenance 3) Sewer spillages 4) Waste Removal 5) Maintenance of cemetery facilities	
WARD 9		
	1) Electricity outages 2) Road maintenance 3) Sewer spillages 4) Waste Removal 5) Paving of a cemetery at Ext 18	Farms (KwaSlevana, Roodebank, Leeuwpan, KwaSmith(Klipdrift), Rhino Lodge, Kubo Mtsweni, Kwamfundisi) 1) Provision Water and electricity 2) Provision and maintenance of windmills and boreholes in the farms. 3) Provision of water, sanitation (toilets) and electricity

WARD DEVELOPMENT PRIORITIES

WARD NUMBER	DEVELOPMENT NEED / PRIORITY/PROPOSED PROJECTS
WARD 10	1) Electricity outages 2) Road maintenance 3) Sewer spillages 4) Waste Removal
WARD 11	1) Electricity outages 2) Road maintenance 3) Sewer spillages 4) Waste Removal
WARD 12	1) Electricity outages 2) Road maintenance 3) Sewer spillages 4) Waste Removal
WARD 13	1) Electricity outages 2) Road maintenance 3) Sewer spillages 4) Waste Removal
WARD 14	1) Electricity outages 2) Road maintenance 3) Sewer spillages 4) Waste Removal 5) Illegal dumping site
WARD 15	1) Electricity outages 2) Road maintenance 3) Maintenance of storm water drainage 4) Sewer Maintenance 5) Sewer spillages and maintenance 6) Reconstruction of the stadium 7) Waste removal backlog
WARD 16	1) Upgrading and Provision of water 2) Electricity upgrading and public lighting 3) Waste removal services 4) Sanitation infrastructure upgrading 5) Safeguarding of Municipal infrastructure 6) Grass cutting around schools and entire area 7) Road's maintenance and re-gravelling 8) Sport & Recreation Facilities: Parks to Open again 9) Asset management 10) Traffic signs 11) Library services 12) Health Services, Clinic 13) Contingency plan to address all challenges 14) Skills development

WARD DEVELOPMENT PRIORITIES

WARD NUMBER	DEVELOPMENT NEED / PRIORITY/PROPOSED PROJECTS
WARD 17	1) Uninterrupted water supply- Fixing and safeguard of the reservoir 2) Sewer pump not working 3) Fixing of street lights 4) Electrical boxes 5) Public lighting at Sakhisizwe 6) Grass cutting around schools and entire area 7) Safeguarding of Municipal infrastructure 8) Waste removal 9) Storm water drainage management 10) Road's maintenance and re-gravelling 11) Sport & Recreation Facilities: Parks to Open again 12) Asset management 13) Traffic signs 14) Library services 15) Health Services, Clinic 16) Contingency plan to address all challenges
WARD 18	1) Sewer pumps station be maintained 2) Street lights 3) Traffic signs 4) Sewer spillages 5) Waste removal
WARD 19	1) Electricity outages 2) Sewer spillages 3) Road rehabilitation 4) Waste Removal
WARD 20	1) Electricity outages 2) Road maintenance 3) Sewer spillages 4) Waste removal
WARD 21	1) Street light- Bulbs. Urgent repair and correction of damaged light poles. 2) Fixing of potholes 3) Trimming of trees 4) Traffic stops streets/lights – Traffic calming in front of the Lifestyle Centre in Joe Slovo Street needs urgent attention. Residents there have the problem to exit their premises because of main street and heavy traffic. Traffic Light – PDP Kruger and Danie Theron Streets.
WARD 22	1) Road maintenance 2) Phase Two of the multipurpose Centre and Refurbishing and Opening for Community meetings 3) Paving of Roads 4) Storm water drainage 5) Repairs of leaking water reservoir 6) Side Walks be paved Victor Khayiyane
WARD 23	1) Conversion of VIP Toilets (Azapo and Kanana) 2) Paving of Shongwe street 3) Electricity outages 4) Road maintenance 5) Registration of stands extension 10 6) Phase Two of the multipurpose Centre 7) New Township Establishment 8) Waste removal 9) Stadium 10) Parks needed 11) Stands for residential purposes 12) Job Creation 13) Foot bridge to be constructed next to Khethelo High School

WARD DEVELOPMENT PRIORITIES

WARD NUMBER	DEVELOPMENT NEED / PRIORITY/PROPOSED PROJECTS
WARD 24	1) Electricity outages 2) Rehabilitation of Victor Khayiyane Road 3) High mast lights 4) Water shortages 5) Storm water drainage
WARD 25	1) Roads and Road Safety 2) Road and Traffic signs and signals - Traffic signs in Trichardt town need desperate maintenance, and in some areas should be replaced where they are missing, specifically a “dead-end” sign at the end of Grey street as this relates to road damages due to trucks turning around when realising it is a dead end – also damages the fencing of the cemetery. Stop signs all of Trichardt street name poles/boards – The whole of ward 25 3) ALL Roads and stormwater infrastructure need maintenance 4) Roads to farming communities are in a poor stateA robot or four-way stop is needed at Trichardt entrance (Grey Street) from Trichardt/ Evander road 5) Tarring/ paving of Clinic parking in Trichardt – The current gravel road is a serious safety risk for emergency vehicles. 6) Tarring/ paving of Library Parking in Trichardt – Next to the clinic (also relates to safety risk, as well as the need of development of road infrastructure) 7) Tarring of gravel roads in Trichardt town – Van Belkum Street, Grove Street (also for decreased safety risk of emergency vehicles travelling to Highveld Medi Clinic), Ebrahim Daya Street 8) Lamp poles falling over and bent in Trichardt, as well as across Kuiersaam Gastehuis Ext 22– severe safety risk with legal and cost implications. Since the IDP was approved, Trichardt lamp poles have deteriorated significantly. An audit is needed with regard status and life span of the electricity and lamp poles in Trichardt. 9) Upgrade of R580 (Trichardt/Evander road) – potholes a serious safety risk on this busy road connecting with the N17, especially between Secunda and Trichardt 10) R580 (Evander/Trichardt road) also in dire need of lighting – street lamps / high mast lights. The road cannot be seen at night time. This is the only road connecting Secunda town to the hospital in Trichardt. This street is also a HIGH ACCIDENT ZONE 11) Barrier should be replaced at the corner of Grey and R580 (also be made more visible at night time) 12) R580 to be painted 13) Drug Rehabilitation Centre (Establishment of Rehabilitation Centre) 14) Speedbumps in Nelson Mandela Street to be painted 15) Upgrade of road P216-1 -Nelson Mandela Drive (Secunda to Emba) from a single carriage way to a dual carriage way road 16) stormwater provision on Ebrahim Daya 17) Roads especially Ebrahim Daya Street, which receives the flowing water of the entire town as it is the lowest road 18) Robot in Nelson Mandela Street (L/S Goedehoop) to be fixed/replaced (children are currently regulating the traffic here as scholar patrols). Same situation in Helen Joseph street pedestrian Robot 19) Road lighting by street lamps/ High Mast lights in front of Highveld Medi clinic for emergency vehicle and pedestrian safety 20) Speedbumps in front of L/S Trichardt to be painted (Ruth First Street) 21) Potholes – Helen Joseph, Vincent Tshabalala, Ruth First (posing a safety risk to children crossing the streets/riding bicycles), Carolus, Trichardt/Evander road (R581), Rapportryer Street, Richter Street, Bekker Street, Lehman Street, Broadbent Street other areas of Trichardt and Secunda 22) Evander/Secunda/Trichardt road (R585) around Trichardt is a major problem, It is imperative that this road be upgraded to have more lanes so as to deal with the growing traffic 23) Sewage and Water infrastructure

WARD DEVELOPMENT PRIORITIES

WARD NUMBER	DEVELOPMENT NEED / PRIORITY/PROPOSED PROJECTS
	24) Upgrade of Storm water system and storm water infrastructure (Trichardt & Ext 22) – cannot handle large loads of water in the raining season, as well as the continuous development of the town in Trichardt. The storm water systems are also mostly blocked, causing for water to ruin the roads and make potholes during the rainy seasons. 25) Water leak maintenance the whole of Ward 25 – we need to spare all the water we can. Infrastructure in Trichardt is too old and often causes water leaks due to pressure changes. Field in Helen Joseph Street (close to Albany) often has water leaks where water runs down the street for days. Water leaking in Van Schalkwyk Street (in front of Villa Tritoma) on and off for more than a year. Ext 22 Colenso Street often has water leaks as well. 26) Water wastage and recycling management – Businesses use too much water cleaning vehicles etc, in Trichardt especially at the end of Paul Kruger Street (no wash bays/ water usage plans implemented). By laws need to be applied here. 27) Sewage blockages/ manhole overflows 28) Upgrade of Sewage system and sewage infrastructure – Pumpstation at the corner of Ebrahim Daya and Vincent Tshabalala streets in Trichardt has been repaired but shortly after malfunctioned again. The infrastructure of Trichardt town cannot handle its continuous growth. Infrastructure is in a poor state and heavily outdated. 29) Water provision in farming communities 30) Electricity 31) Electrical box maintenance – Electric boxes are accessible and often times completely open – serious safety concern to children in streets. Also malfunction when it rains causing power outages. 32) Electrical boxes need locks all over Trichardt and Secunda 33) Power Substation upgrade and maintenance. Causes regular power outages especially with rainy or stormy weather. Cables often breaking or malfunctioning. 34) By Law Enforcement 35) By-Law enforcement regarding illegal vendors in Trichardt (Especially on the Trichardt/Evander road across Sasol Secunda Junction); as well as throughout Trichardt there are illegal caravans parked in several locations, conducting business 36) Illegal dumping on the corner of Einstein and Erasmus streets. 37) A vehicle for the By law enforcement unit is needed in order to tend to reported by law contraventions in Trichardt. 38) Other 39) A new High School in Trichardt 40) Cemetery fence needs replacement, upkeep of cemetery grounds 41) Trichardt Tennis court needs upgrading and maintaining, as well as the field surrounding it 42) Park in Trichardt, Bekker Street needs maintaining, upgrading – Trucks from Timber City currently using it as parking area 43) Old Trichardtsfontein Combined School building demolished and field maintained 44) Ditch on the border of Ward 25 and 21 needs to be maintained and upgraded in terms of safety concerns as it is a severe danger to drivers at night pulling off the road and has caused fatal accidents in the past. 45) Community hall needed 46) Field/green strip maintenance – next to Highveld Park Primary School, Senecta Centre (for the safety of school children walking through the field), Sasol Secunda Junction, nursery 47) Tree pruning – most parts of the ward, is a danger to safety and road safety 48) Infrastructure needed at informal settlement next to Terreblanche warehouse (close to old Trichardtsfontein combined school) 49) Maintenance of cemetery parks 50) There is a need for a cemetery.

WARD DEVELOPMENT PRIORITIES

WARD NUMBER	DEVELOPMENT NEED / PRIORITY/PROPOSED PROJECTS
	<u>HOLFONTEIN</u> 1) There are no basic services (water, sanitation, electricity) 2) Most residents are unemployed and disadvantaged and in need of job opportunities 3) There is a need for lighting for the safety of the residents 4) Residents complain about extremely low water pressure and very few taps. They are in need of a JOJO tank or perhaps a water tanker that could supply water once a week 5) Residents request assistance from the municipality in digging holes with a TLB that could enable them to construct their own toilets since there are none 6) The main gravel road entrance to the community is often washing away in the rainy season. This road must be temporarily fixed, by laying new dolerite and grading it. 7) Residents were informed that infrastructure is being installed at a new site next to Adullam to which the community will be moving. No timeframe for this move was provided. (WARDS 5,21,25,30) 1) Nelson Mandela to Helen Joseph Street should be upgraded to deal with traffic congestion 2) Traffic circle (or alternative solution) is required at Tugela Street entrance to relieve traffic congestion for motorists taking their kids to the primary school 3) With the new residential developments (at Albany, X23, Silkaatzkop); the bulk infrastructure must be upgraded and/or maintained to deal with the growing load 4) Water reservoirs in Secunda must be upgraded or maintained to deal with problems from Rand Water that are often experienced. The reservoir at x22 is a white elephant that must be addressed. 5) An alternative should be considered to the traffic congestion in Oliver Tambo Street by the Secunda Mall. Taxis ALL TOWNS: 1) Dysfunctional storm water infrastructure causes pollution into the water bodies and blockages of stormwater. Dysfunctional sewer infrastructure causes overflowing into water bodies. a. It is b. https://interestingengineering.com/australian-city-uses-drainage-nets-to-stop-waste-from-polluting-waterways 2) Reservoirs in Evander, Kinross can also be upgraded/maintained to address the gravitational issue whenever Rand Water is not pumping. WARD 30	1) Street lights 2) Maintenance of roads 3) Upgrading of Stadium 4) Upgrading of Electricity infrastructure 5) Upgrading of Water Infrastructure
WARD 31	1) Electricity outages 2) Sewer spillages 3) Maintenance of roads 4) Waste removal 5) Maintenance of cemetery
WARD 32	1) Electricity outages (The Bracken Village electrification project is not benefiting ward 32) 2) Sewer reticulation 3) All streets are not trafficable, regravelling is needed and paving to some streets. (Paving of Makhathini Roads where the Shapeve Primary School will be built) 4) Waste of removal 5) Maintenance of cemetery

CHAPTER 6: MUNICIPAL STRATEGY DIRECTIVES

This chapter outlines the municipal development strategy linked as it gives details on the status of internal sector and operational plans that and the overall strategic development objectives of the Municipality.

The provision, operation and maintenance of infrastructure for basic services are crucial to ensure the long term sustainability of the municipal area. Basic services in the context of the municipality are electricity, water, sanitation (sewerage and solid waste) and roads (with associated storm water).

6.1 MUNICIPAL STRATEGIC OBJECTIVES AND DEVELOPMENT

The Vision, Mission and Values are informed by the following Six (6) Key Strategic objectives, which the municipality intend to achieve and to be realised over the course of the 5-year term (and potentially continued beyond).

Strategic Objective 1: To enhance revenue & secure financial sustainability	Strategic Objective 3: To facilitate and create an enabling environment for diversified local economic development, social cohesion and job creation	Strategic Objective 5: To develop spatially integrated, safe communities and a protected environment
Strategic Objective 2: To provide sustainable services, optimise operations and improve customer care	Strategic Objective 4: To enhance the capacity of human capital and deliver institutional transformation	Strategic Objective 6: To promote good corporate governance and effective stakeholder engagement

6.2 MUNICIPAL KEY PERFORMANCE AREAS (KPA'S)

The Municipal Key Performance Areas in line with the strategic objectives of Govan Mbeki Municipality are as per below table:

MUNICIPAL KEY PERFORMANCE AREAS (KPA'S)	STRATEGIC OBJECTIVES
KPA 1: FINANCIAL SUSTAINABILITY	To enhance revenue & secure financial sustainability
KPA 2: SUSTAINABLE PHYSICAL INFRASTRUCTURE AND IMPROVE CUSTOMER CARE SERVICES	To provide sustainable services, optimise operations and improve customer care
KPA 3: ECONOMIC GROWTH AND DEVELOPMENT	To facilitate and create an enabling environment for diversified local economic development, social cohesion and job creation
KPA 4: INSTITUTIONAL TRANSFORMATION	To enhance the capacity of human capital and deliver institutional transformation
KPA 5: SPATIAL INTEGRATION AND SAFE PROTECTED ENVIRONMENT	To develop spatially integrated, safe communities and a protected environment
KPA 6: GOVERNANCE AND STAKEHOLDER PARTICIPATION	To promote good corporate governance and effective stakeholder engagement

6.3 ACCESS TO BASIC SERVICES AND INFRASTRUCTURE

6.3.1 ACCESS TO BASIC SERVICES: NO OF HOUSEHOLDS WATER

ACCESS TO BASIC SERVICES / NO OF HOUSEHOLDS GEOGRAPHY BY PIPED WATER							
MUNICIPAL WARDS	Piped (tap) water inside dwelling/i nstitution	Piped (tap) water inside yard	Piped (tap) water on community stand: distance less than 200m from dwelling/insti tution	Piped (tap) water on community stand: distance between 200m and 500m from dwelling/ins titution	Piped (tap) water on community stand: distance between 500m and 1000m (1km) from dwelling /institution	Piped (tap) water on community stand: distance greater than 1000m (1km) from dwelling/instituti on	No access to piped (tap) water

6.4 MUNICIPAL BASIC SERVICES AND INFRASTRUCTURE

6.4.1 ELECTRICITY (ENERGY)

The Municipality does not generate its own electricity and the national electricity supplier, Eskom, supplies bulk purchase of electricity to the Municipality for resale to consumers in the municipal area. Energy services includes maintenance and upgrade of electrical sub-stations and ensuring that there are required capacity for all the municipal towns for which services are rendered.

The IBT for the electricity is in-line with the NERSA guidelines. Various initiatives have been put in place through which electricity consumption should be managed such as energy saving and implementation of automated split and smart meters.

ELECTRICAL CAPACITY (MVA)						
Point of supply	Secunda	Kinross	Evander	eMzinoni	Bethal	eMbaleInhle
Notified of Maximum	60	7.7	12	8	18	54
Current Demand	39	8.6	14	12	32	64
Demand in 5 years	120	17.7	20	20	36	80

- 5 of 6 supply points need urgent upgrading by building new substations and equipment.
- Electrical network to be reconfigured and upgraded

KEY PRIORITY AREAS - ENERGY

- ☐ Reduce Distribution losses (Ghost vending, illegal connections, un-metered connections)
- ☐ Eskom debt poses a risk increase the NMD
- ☐ Increase of NMD
- ☐ Funding for upgrades and new infrastructure
- ☐ Secure Infrastructure against theft and vandalism
- ☐ Provision of sufficient budget on maintenance of infrastructure
- ☐ Development of Master plans

PROPOSED INTERVENTION/PROJECTS ENERGY		
AREA	DESCRIPTION	ESTIMATED PROJECT COST
Embalenhle	New 30MVA, substation	R105m
Bethal/ Emzinoni	New 40MVA, substation	R120m
Evander	8MVA transformer	R20m
Kinross	10MVA	R25m
Secunda	60MVA	R160m
Energy Summit	Summit	R1m

ENERGY INTERVENTIONS-REVENUE		
CHALLENGES	PROPOSED INTERVENTIONS	TIME LINES
Bridged/Bypassed meters/Ghost Vending	Meter installation Changing of the SGC	FY21/22 – FY23/24
Alternative Energy Measures	Natural gas power generation from Sasol - Mozambique gas pipe line Solar power generation on roof top and through IPP – PPP	FY23/24 – FY24/25
Bulk contribution policy	Development of a contribution policy to aid upgrade/build bulk points of supply	FY22/23

ENERGY CHALLENGES INTERVENTIONS- Dist. Network		
Old electrical infrastructure and compromised electrical protection	Electrical infrastructure upgrade and modern electrical protection equipment installation	FY21/22 – FY23/24
Master Plan	Finalize Master Plan	FY22/23
Energy Efficiency Initiatives	Install meters to every public lighting circuit Replace HPS bulbs with energy efficient LED ones	FY21/22 – FY23/24

6.4.2 WATER

Govan Mbeki Local Municipality is a designated a Water Services Authority (WSA) in accordance with the Municipal Structures Act, Act No. 117 of 1998. It is responsible for the policy setting, planning, management and oversight of water service provision in its area of jurisdiction. Besides being the WSA, the municipality is also the Water Services Provider for all the water supply schemes in its area of jurisdiction.

Bulk water is purchased from Rand Water and internally reticulated to all the urban areas. Rand Water extracts the raw water from the Vaalriver and Vaaldam, purifies it and then provides in bulk to the municipality.

The Rand Water main pipeline runs east-west through the municipality following roughly the N17 route alignment.

All the urban areas, with the exception of informal settlements in the townships, are fully reticulated in terms of potable water supply. Communities in the rural and peri-urban areas do not have access to piped potable water supply and use borehole water, however SASOL does supply piped potable water to some farms and will prefer to transfer this infrastructure to the local authority.

TECHNICAL INFRASTRUCTURE- WATER

WATER CAPACITY							
Name of WWTW	Secunda	Kinross	Evander	Leandra	Bethal	eMba	Trichardt
Current reservoirs capacity (ML)	16	12.2	9.25	16,2	29,5	27	2
Current water Demand (ML/d)	23,2	4,2	5	10	17	19.5	1.2
Demand in 5 years (ML/d)	26	6	7	15	20	25	2

- Increase of bulk line water supply in Kinross, Leandra, Bethal, Charl Cilliers to cater for New developments
- Replace and upgrade the aged and leaking bulk lines

KEY PRIORITY AREAS - WATER

- ☐ Funding for upgrades and new infrastructure
- ☐ Implementation of master plan
- ☐ Reduce Distribution losses
- ☐ Secure infrastructure against theft and vandalism
- ☐ Provision of sufficient budget on maintenance of infrastructure

INTERVENTION/PROJECTS WATER			
AREA	DESCRIPTION	ESTIMATED COST	PROJECT
Kinross	Upgrading of Kinross Bulk Water supply	R20m	
Embalenhle	Embalenhle Bulk Water Supply upgrade	R104m	
Bethal, Trichardt Embalenhle	Replacement of AC pipe	R 77m	
Charl Cilliers	Construction of Bulk line and storage tank at Charl Cilliers	R 33m	
eMzinoni	Bulk water supply Emzinoni	R 48m	
Bethal	Construction of Betha east Reservoir	R 7m	
Leandra	Upgrading of Leandra bulk water line	R 25m	
Secunda	Refurbishment of Secunda Reservoir Pump station	R4m	

WATER INTERVENTIONS		
CHALLENGES	PROPOSED INTERVENTIONS	TIME LINES
Areas without access to piped water Farmers denies access to drill boreholes	Installations of boreholes & water supply with tanker. Installation of communal taps	FY 21/22 – 26/27
Aged infrastructure Increase in water demand and water loss	Replacement of aged infrastructure	FY 22/23 – 26/27
Overloaded infrastructure	Upgrading of infrastructure	FY 22/23 – 26/27

TECHNICAL INFRASTRUCTURE- WATER

Water Tanking

Aged Infrastructure

6.4.3 SANITATION (SEWERAGE)

The Municipality's sanitation infrastructure consists of 38 sewerage pump stations and 6 Waste Water Treatment Work. The municipality has developed Incident Management Protocol and performs process audits on an annual basis to ensure that there is an improvement on effluent quality. The wastewater quality analysis is performed by Gert Sibande District municipality laboratory.

TECHNICAL INFRASTRUCTURE - SANITATION

WWTW CAPACITY						
Name of WWTW	Trichardt	Kinross	Evander	Leandra	Bethal	eMbalelnhle
Current capacity (ML)	2	2	16	8.5	10	10
Current inflow (ML/d)	2.3	2	6	1.2	4	3
Demand in 5 years (ML/d)	4	4	12	8.5	13,8	20

- **Upgrading and Refurbishment of overloaded WWTW**
- Replace, refurbish and upgrade the sanitation network.

INTERVENTION/PROJECTS SANITATION		
AREA	DESCRIPTION	ESTIMATED PROJECT COST
Embalenhle	Equipment of Embalenhle sewer pump station ext 22 and 25	9m
Trichardt	Refurbishment of 3 waste water pump stations in Trichardt	4.1m

Evander	Refurbishment of Evander main pump station	2m
Bethal/ Emzinoni	Refurbishment of Bethal ext 22 & Millan park pump stations	2m
Eendracht	Installation of Sewer Reticulation, Pump Station and Rising Main in Eendracht	30m

INTERVENTION/PROJECTS SANITATION		
AREA	DESCRIPTION	ESTIMATED PROJECT COST
Embalenhle	Upgrading of Embalenhle Bulk line and pump station (ext 5 PS)	16m
Embalenhle	Upgrading of Embalenhle Bulk line and pump station (ext 24 PS)	46m
Embalenhle	Embalenhle Waste Water Treatment works	238m
Emzinoni	Upgrade sewer network infrastructure and conversion of VIP toilets in Emzinoni ext 6	49m
Emzinoni	Refurbishment and Upgrading of Emzinoni WWTW and sewer pump stations	4.2m
Secunda	Construction of new 15Ml Secunda WWTW	394m
Charl Cilliers	Conversion of Charl Cilliers septic tanks to waterborne	20m
Bethal	Conversion of Bethal septic tanks to waterborne	15m

SANITATION INTERVENTIONS		
CHALLENGES	PROPOSED INTERVENTIONS	TIME LINES
Maintenance of Areas using septic tanks & VIP toilets	Conversion of VIP & septic tanks to waterborne	21/22 - 24/25 FY
Storm water ingress to sanitation system	Raising, Repair and sealing of manholes	21/22 - 24/25 FY
Aged infrastructure	Replacement of aged infrastructure	21/22 - 24/25 FY

TECHNICAL INFRASTRUCTURE- SANITATION

Blocked and Overloaded Sewer Lines

6.4.4 ROADS AND STORM WATER

The local roads in the urban areas of Govan Mbeki are maintained by the municipality. Most of the roads in the previous white towns are paved and reasonably well maintained, while most of the roads in the township areas are unpaved and in a bad state of repair, especially during the summer rainy season.

The Mpumalanga Province Department of Roads and Transport is responsible for the provincial road network which extends throughout the municipal area. The Municipality's road network length for paved roads are 505.9 km for all towns and the length of unpaved roads for the municipal towns are 398.1 km.

TECHNICAL INFRASTRUCTURE – ROADS AND STORMWATER

ROADS AND STORMWATERS	
Paved	505km
Gravel roads (unpaved)	398km
Storm Water	Unknown

- Road infrastructure is aged and requires rehabilitation
- Gravel roads needs upgrading from gravel to paved
- Stormwater needs development of Storm water Management System

KEY PRIORITY AREAS - ROADS

- ☐ Develop Master Plan (PMS)
- ☐ Funding for Road rehabilitation
- ☐ Upgrading of unpaved roads
- ☐ Develop Stormwater masterplan (SMS)
- ☐ Lining of earth stormwater channels

INTERVENTION/PROJECTS ROADS		
AREA	DESCRIPTION	ESTIMATED PROJECT COST
Embalenhle	Rehabilitation of Tarred roads in GMM	R56m
GMM	Develop PMS and SMS	R6m
GMM	Upgrading of Unpaved roads to Paved	R180m

ROADS INTERVENTIONS		
CHALLENGES	PROPOSED INTERVENTIONS	TIME LINES
Aged infrastructure	Rehabilitation and upgrading of infrastructure	FY 22/23 -26-27
Unpaved roads being Untrafficable	Upgrading of Unpaved roads	FY 22/23 -26-27
Lack of resources	Procurement of resources	FY 22/23 -26-27
Illegal dumping and encroachment on stormwater system	Law enforcement and awareness	FY 22/23 -26-27

6.4.5 SOLID WASTE

Solid Waste Management is one of the strategic services rendered within Govan Mbeki Municipal jurisdiction. All proclaimed and certain non-proclaimed *residential* erven receive a once per week scheduled curb-side refuse collection service. Only containerized refuse is collected and the waste generator is responsible to provide its own bin, bin liner or container.

In the event where the municipality are unable to adhere to the collection schedule resulting in refuse collection backlogs, the backlog is covered during the weekend or following week, depending on the availability of fleet and resources.

Businesses receives between a once per week up to three times per week refuse collection service, based on the volume of refuse generated and frequency of removal. All households receive a once per week house to house solid waste collection, businesses and industries receive a three times per week collection while schools and institutions are attended twice per week.

The municipality has a fleet of 22 vehicles which vary in their conditions as depicted below:

There is a need to introduce Skip loader trucks in order to cater for bulks of waste generated, prevent illegal dumping and unsightly service yards. Skip bins need to be provided to businesses and recycling initiatives undertaken. Litter bins need to be purchased that will encourage cleanliness in the area. Education and Awareness campaigns are a serious necessity for proper management of waste.

There is also a need for purchasing of additional refuse removal vehicles in order to enhance service delivery for business and residents of GMM.

6.4.5.1 LITTER PICKING AND ILLEGAL DUMPING

Litter picking is done daily from Mondays to Fridays in all CBD areas and occasionally during weekends, depending on the need. No permanent litter pickers are available to do litter picking along access routes. When EPWP or CWP employees are available, access roads are prioritized.

Illegal dumping of general waste, building rubble and soil are a major problem within the municipality. Illegal dumped waste are removed from time to time, depending on the availability of fleet and resources.

6.4.5.2 WASTE MINIMIZATION AND RECYCLING

Recovery of recyclable materials is done mainly by private individuals and companies within the municipal area and sold to private buy-back centers in the area. According to the National Environmental Management Waste Act no 59 of 2008 Section 12, states that the Integrated Waste Management Plans must contain amongst other things, establish targets for collection, minimization, re use and recycling of waste.

Education and awareness on recycling is done frequently and when the needs arises. A business Industry Waste Management Plan were introduced in an attempt to enforce recycling thus ensuring the reduction of waste ultimately. Recyclables are collected by using tricycles and haul them to the GMM Buy Back Centre. The municipality is obliged to provide resources in order to recover recyclables from the source, educate communities and maximize landfill space.

6.5 WASTE DIPOSAL (LANDFILL) SITES

The municipality have 3 licensed operational and 5 licensed closed waste disposal (landfill) sites. Operational sites includes, Bethal, Secunda and Leandra landfill sites, whereas the closed sites include the Bethal-Morgenzon road, Evander, eMbalenhle, Lebohang and Kinross landfill sites. Despite the closure license received for the Kinross site, it is still operational until an alternative disposal facility is developed.

The infrastructure and maintenance at all the waste disposal (landfill) sites does not meet the minimum requirements for waste disposal by landfill and regulations in terms of the Waste Act.

The Secunda waste disposal site has very limited remaining air space available and the Leandra landfill is identified as a central landfill for the municipality, with waste infrastructure such as a central transfer station in Evander and 17 mini-transfer stations across the municipality to address future disposal and landfill site needs. As soon as funds is available, attention will be given to address these needs.

Name of the landfill	Location	Size of the site	Estimated lifespan	remaining
Bethal landfill site	Stand 9946 Extension 11 eMzinoni	441,277.59m ²	± 20 years	
Kinross landfill site	Portion 11 of the Farm Zondagsfontein 124-IS	123,415.69m ²	0 years (The landfill need to close by end of 2020 based on the closure license conditions)	
Leandra landfill site	Portion 4 of the Farm Brakfontein 310-IR	1,996,967.18m ²	± 50 years plus	
Secunda landfill site	Portion 40 of the Farm Goedehoop 290-IS	265,484.91m ²	± 1 year	

Project	Estimated amount	Source of funding	Timelines
Procurement of Skip loader trucks with 20 x 6m ³ skips for the Evander and Kinross transfer station: • X 2 Skip loader trucks and 8 skips • X 2 Skip loader trucks and 6 skips • X 2 Skip loader trucks and 6 skips	R14,000,000.00	GMM	2023 2024 2025
Licensing of the Embalenhle transfer station • Design • Construction	R1,400,000.00	GMM SLP SLP	2023

6.6 Integrated Human Settlement

Currently Govan Mbeki Municipality performs a wide range of functions in relation to housing and integrated human settlement development, these include amongst others the following:

- ❑ Identification of Suitable land for housing development- endeavours are made by GMM to identify and allocate land that is closer to amenities and economic opportunities for use by the occupants of the development
- ❑ Informal settlement upgrading and control: The municipality provides basic services in informal settlements. Through the GMM National Upgrading Support Programme the development of Informal Settlement Upgrading is done as an ongoing exercise of the municipality.
- ❑ Housing subsidy allocation and beneficiary administration: The municipality developed procedures for allocation of subsidies to qualifying beneficiaries. The Transversal Waiting list which has been converted into the National Housing Needs Register (NHNR) was developed and will be updated annually.
- ❑ Monitoring of housing projects: The municipality also performs monitoring of housing projects delivered by the PDoHS. The monitoring is done through physical site visits and through the Joint Contractors meetings and through project steering committees forums
- ❑ Facilitation to transfer properties: The municipality assist the PDoHS with facilitating registration and transfer of low cost houses to beneficiaries to obtain Title Deeds
- ❑ Township establishment and land use planning- the municipality from time to time utilises service providers for town planning of facilitate applications for township establishment purposes
- ❑ Engineering Service design, planning of bulk, and servicing of stands- such projects entails the providing of sewerage services, new infrastructure waste treatment and top toilet structures as well as maintenance of such infrastructure and facilities.
- ❑ Provision of new infrastructure for new development
- ❑ The provision and management of waste water, management facilities
- ❑ Planning and design as well as construction of roads, and storm water

The municipality also provides basic services in informal settlements. The process is in line with the policy for the development of informal settlements. Upgrading of informal settlements is an ongoing exercise for municipality.

6.6.1 STAFF COMPONENT: HUMAN SETTLEMENT

The below staff component is a reflection the human resources within the human settlement section who fulfil the responsibilities in order to enable the establishment of integrated human settlements and to prevent informal settlements

6.6.2 Human settlement Projects

The below table reflect on current the human settlement projects:

CHAPTER 7 SECTOR AND OPERATIONAL PLANS

Integrated development planning requires the alignment and integration of the different sector plans into one integrated development plan providing integrated development programmes.

This chapter gives an overview and status on sector and operational plans within the municipality as well as what these plans contribute towards the achieving of the Municipal Strategic Development Objectives as captured in this IDP review document.

The sector plans and key policy documents required of a municipality to support the delivering of services in providing strategic and policy direction. The sector plans focus on specific sectors within the context of local government. The Table below gives a summary of these sector plans and its status whether developed, approved and implemented by the specific implementing department within the municipality:

SECTOR / OPERATIONAL PLAN	CURRENT STATUS	IMPLEMENTATING DEPARTMENT
Spatial Development Framework	Approved	Planning and Development
Integrated Transport Plan	Not developed	Community Services
Land Use Macro Plan	Not developed	Planning and Development
Water and Sanitation Services Master Plan	Not developed	Technical Services
Electrical Services Master Plan	Not developed	Technical Services
LED Strategy	Review A46/02/2015	Planning and Development
Tourism Development Plan	Not developed	Planning and Development
Human Settlement Development Plan	Review	Planning and Development
Safety and Security Plan	Not developed	Community Services
Rural Development Plan	Not developed	Planning and Development
Roads and Storm Water Master Plan	Review	Technical Services
Integrated Waste Management Plan	Developed	Community Services
Public Facilities Master Plan	Not developed	Community Services
Environmental Management Plan (EMP)	Developed	Community Services
Disaster Management Plan (DMP)	Developed	Community Services
Rural Development plan/Strategy	New	Planning and Development
Greenfield township establishment	Not developed	Planning and Development
Bulk Engineering Infrastructure Alignment Plan involving Eskom, RWB etc.	Not developed	Technical Services
Alternative Energy Plan	Not developed	Technical Services
Special Economic Zone Development Plan	Not developed	Planning and Development
Urban Regeneration and Renewal Plan	Not developed	Planning and Development
Detailed Development Plan for Priority Infill Zone	Not developed	Planning and Development
Infrastructure Master Plan	Not developed	Technical Services
Cemetery Master plan	Not Developed	Community services
Spatial Development Framework	A21/03/2014	Planning and Development
Integrated Transport Plan	Developed but not reviewed	Community services
Integrated Human Settlement Plan	Reviewed	Planning and Development

All Mandatory Sectoral Plans as listed above, as Annexures to the Five year IDP 2022-2027 and are available on request.

7.1 SPATIAL DEVELOPMENT FRAMEWORK (SDF) / SPATIAL PLANNING AND LAND USE MANAGEMENT (SPLUMA)

The purpose of the Spatial Development Framework (SDF) for Govan Mbeki Local municipality is to provide a contextual spatial frame work for future developments and to give direction to all.

The management of future growth and associated change is guided by Development Strategies that will manage the Spatial Development Concept and Strategic Focus Areas that enhances the efficient utilisation of land and infrastructure, supported by management decisions over ad-hoc and dispersed forms of development resulting in a highly sustainable pattern of development.

The Development Strategies provides for Strategic Objectives, each providing for a set of Spatial Development Strategies and Strategic Focus Areas

Six (6) strategic objectives were identified providing Spatial Strategic Focus Areas (areas of intervention at local level):

- ☐ Strategic Objective 1: Economic development and job creation supporting and guiding development.
- ☐ Strategic Objective 2: Promoting education, training and innovation
- ☐ Strategic Objective 3: Accommodating urbanisation and transforming human settlements
- ☐ Strategic Objective 4: Promote the development of the rural areas within Govan Mbeki that can support sustainable economic, social and engineering infrastructure
- ☐ Strategic Objective 5: Protect biodiversity, water and agricultural resources
- ☐ Strategic Objective 6: Infrastructure Investment

More detail discussions on the abovementioned Six (6) strategic objectives follows in additional section of this chapter.

7.1.1 Legislation on Spatial Development

Land use planning is a municipal competency in terms of the South African Constitution. The compilation of Municipal Spatial Frameworks are dealt with by interrelated legislation which strongly links it firstly with the integrated Development Plan of the municipality prescribed by the Municipal Systems Act 2000 (Act No. 32 of 2000), the Municipal Integrated Development Planning Regulations, 2001, the Local Government Gazette No 22605 of 2001.

The new Spatial Planning and Land Use Management Act, 2013 (Act No. 16 of 2013) (SPLUMA) was promulgated on 5 August 2013 and it determine principles and content which need to be provided for in a Spatial Development Framework.

SPLUMA further intends to address the failures of the “old order” planning ordinances and legislation, the majority of which predate 1994. SPLUMA intends to create a coherent regulatory framework for spatial planning and land use management, amongst others by legislating actions to ensure justice and equity in the application of spatial development planning and land use management systems.

Amongst others SPLUMA requires Spatial Development Frameworks (SDF's) to be completed by all three spheres of government for respectively, the country, a province or a municipal area. The process of compiling SDF's becomes an involved process in which local government places a central role, primarily because it must provide the data / information for the planning.

7.1.2 IDP and Spatial Development Framework Integration

Spatial planning refers to the methods used by the public sector to influence the distribution of people and activities in spaces of various scales. Discrete professional disciplines which involve spatial planning include land use, urban, regional, transport and environmental planning. Other related areas are also important, including economic and community planning. Spatial planning takes place on local, regional, national and inter-national levels and often result in the creation of a spatial development framework.

The Spatial Development Framework (SDF) is the legislated component of the Govan Mbeki IDP that prescribes development strategies and policy guidelines to restructure and re-engineer the municipality's urban and rural form. It is the municipality's long-term vision of what it wishes to achieve, spatially, and within which IDP programmes and projects.

Govan Mbeki Municipality does have an Approved and Adopted Spatial Development Framework which expire in June 2020 hence the Municipality plan to rewrite the SDF 2020-2025 during financial year 2019/2020 FY in line with SPLUMA..

The SDF projects implemented and completed currently are listed per below table:

SDF PROJECTS	STATUS
Alignment of the Urban Edge	Completed
Alignment of GMM Land Use Scheme to the National SPLUMA and Provincial SPLUA and Regulations	Completed
GMM SPLUM By-Law	Completed
Greenfield township establishment (eMzinoni X11 and Secunda X71-Industrial Park)	Completed
Greater Secunda area Urban design/Development Plan for Priority Infill Zone	Completed

The Spatial Development Framework is aligned to SPLUMA and thus is SPLUMA compliant. The municipality has a fully compliant Land Use Scheme and SPLUM By-law and plan to develop a bulk service contribution policy (in-house) as well as budget for the review of its SDF in 2019/2020 FY in accordance with the National SDF Guidelines

The Spatial Vision of the Govan Mbeki Municipality is to ensure that the Spatial Development Framework (SDF) for Govan Mbeki Local municipality provide a contextual spatial frame work for future developments and to give direction to all.

The SDF's forms the basis of all future decisions in terms of the SPLUMA and they will be taken by tribunals, which are non-political / technical bodies, established in terms of Section 35 of SPLUMA. It broadly determines that a municipality or municipalities jointly, must constitute a Planning Tribunal to consider all land use planning applications.

The following diagram demonstrates the sequence and interrelation of the sector plans with the municipal Spatial Development Framework (SDF).

As a framework, the SDF addresses the following deliverables:

- ❑ Appropriate densities, support of public transport, clustering and focus of economic activities, growth management, the enhancement and protection of residential environments, support of viable service and infrastructure provision, guiding and directing affordable housing developments, environmental management and provision of a framework for the upgrading and development of historic townships.

7.1.3 Municipal Planning Tribunal

Govan Mbeki Municipality has an established Municipal Planning Tribunal as prescribed by SPLUMA, consisted out of four (4) external members and one (1) internal member . The Municipal Planning By-Law has been adopted by council in line with SPLUMA .

The management of future growth and associated change is guided by Development Strategies that will manage the Spatial Development Concept and Strategic Focus Areas that enhances the efficient utilisation of land and infrastructure, supported by management decisions over ad-hoc and dispersed forms of development resulting in a highly sustainable pattern of development. The SDF is underpinned by a series of policies that guide its implementation. The interrelationships between the SDF, the IDP and other policy components and documents are depicted in the figure below and discussed below.

The Regional Spatial Development Frameworks (RSDFs) include the Mpumalanga SDF and Gert Sibande SDF. Local Spatial Development Frameworks (LSDFs) and precinct plans provide an area-specific interpretation of the SDF at the sub-regional level. This provides guidance to move towards the achievement of a desired urban and rural form for the municipality.

7.1.4 Holistic planning approach toward spatial planning:

The table reflect on the holistic planning approach toward spatial planning:

SPATIAL PLANNING	
Spatial Development Planning	Transport Planning
☐ To provide a framework for Spatial Planning. ☐ Specify relationship between Spatial Planning and Land Use management. ☐ To provide for inclusive, developmental, equitable and efficient spatial planning. ☐ To provide for a framework for the monitoring, coordination and review of spatial planning system. ☐ To address past spatial imbalances. ☐ To provide for the facilitation and enforcement of spatial development measures	☐ Transport planning must be integrated with the land development and land use planning. ☐ Integrated transport plans must be designed to give structure to the function of municipal planning. ☐ Form an essential part of integrated plans.

7.1.5 Priority Technical Projects

The following priority technical projects are required to ensure sectoral integration:

PRIORITY TECHNICAL PROJECTS		
PLANNING	TYPE	STATUS
Govan Mbeki Municipal area Sector and related planning	Integrated Transport and Land Use Macro Plan	New
	Water and Sanitation Services Master Plan	New
	Electrical Services Master Plan	New
	LED Strategy	Review
	Tourism Development Plan	New
	Human Settlement Development Plan	Review
	Safety and Security Plan	New
	Roads and Storm Water Master Plan	Review
	Waste Management Master Plan	New
	Public Facilities Master Plan	New
	Environmental Management Plan	New
	Disaster Management Plan (DMP)	Review
	Alignment of the Urban Edge:	In Process
	1. Investigation on existing and future constraints on development and environmental aspects related to coal and gold mining in consultation with the affected mining companies and DMR	
	2. Redelimitation of the of the 1995 approvals of Act 70 of 70 to be aligned with the proposed Urban Edge	
	5 - Year Development Programme supported by an engineering and social services development plan.	New
	Acquisition of land	In Process
	Study on "Town Catalytic Projects"	New

PRIORITY TECHNICAL PROJECTS		
PLANNING	TYPE	STATUS
	Rural Development plan/Strategy	New
	Environmental Management Plan (EMP)	New
	Greenfield township establishment	In Process
	Rectification of property pegs	In Process
	Alignment of GMM Land Use Scheme to the National SPLUMA and Provincial SPLUA and Regulations	Completed
	Property Land Use, Infrastructure and Building data collection	New
	Municipal GIS Based asset management system:	New
	Street name and numbering	In Process
	GIS Development	In Process
	GIS: Aerial photography	Completed
	GIS Engineering services	Process
	GIS Valuation roll	New
	Bulk Engineering Infrastructure Alignment Plan involving Eskom, RWB etc.	New
	Alternative Energy Plan	New
Spatial Planning and Land Use Management	Kinross – Embalenhle Activity Spine Development Plan	New
	Special Economic Zone Development Plan	In Process
	Bethal Urban Regeneration and Renewal Plan	In Process
	Bethal Extension/Agricultural Holdings Precinct Plan	New
	Bethal Dam Precinct Plan	New
	Secunda Urban Regeneration and Renewal Plan	New
	Kinross Urban Regeneration and Renewal Plan	New
	Trichardt Urban Regeneration and Renewal Plan	New
	Evander Urban Regeneration and Renewal Plan	New
	Leslie Urban Regeneration and Renewal Plan	New
	Charl Cilliers Urban Regeneration and Renewal Plan	New
	Greater Secunda area Detailed Development Plan for Priority Infill Zone	New
	Development of the Industrial Park	In Process
	Development of Government Precinct for Secunda, which will include new Municipal Offices for GMM	In Process
	Implement Urban Designs for Bethal Tourism Precinct by workshopping approved Urban Designs to other Departments within GMM for execution of implementation strategies as per document	New
	Implement Urban Designs for Embalenhle workshopping approved Urban Designs to other Departments within GMM for execution of implementation strategies as per document	New
	Implement Urban Designs for Leandra – Lebohang by workshopping approved Urban Designs to other Departments within GMM for execution of implementation strategies as per document	New
	Development of Transport Plan for GMM	New
	Promote Educational Hub for Evander by engaging Vaal University of Technology to move into the area as identified and engage GSDM FET to expand their campus in Evander	New
	Revitalisation and implementation of Secunda Industrial Park	New
	Promote Lebohang Warehousing initiative through the township establishment applications and marketing thereof for warehousing along R50.	New
	To develop a Rural Development Plan for GMM that includes Socio-Economic Aspects	New

7.1.6 Housing Demand Analysis

The below table reflect on the provision of housing and land for Human Settlement for the financial year, 2019-2024, 2024-2029 and 2029-2034

Development Node	2019-2024			2024-2029			2029-2034		
	Number of Units	Annual take up rate	Total Ha	Number of Units	Annual take up rate	Total Ha	Number of Units	Annual take up rate	Total Ha
Greater Secunda	10436	2087	1044	10436	2087	1044	10436	2087	1044
Bethal/ Emzimnoni	6413	1283	641	6413	1283	641	6413	1283	641
Leslie / Lebohang	1482	296	148	1482	296	148	1482	296	148
Charl Celliers	120	24	12	120	24	12	120	24	12
TOTAL	18451	3690	1845	18451	3690	1845	18451	3690	1845
Subsidy Housing	10056	2011	1006	10056	2011	1006	10056	2011	1006
Bonded Linked Housing	8395	1679	840	8395	1679	840	8395	1679	840

The settlement of people within Govan Mbeki needs to be distributed to and structured within the definite development nodes, provide for a residential mix satisfying the needs of all income groups.

The future demand for housing is based on the following:

- ☐ Base Population: 2011:294,539 (StatSA)
- ☐ Average household size: 3.5
- ☐ Growth 2011-2018: 3% p.a.
- ☐ Growth 2018-2033: 2% p.a.

The provision of housing in for the 5 year periods spanning over the next 20 years is based on:

- ☐ A base population:294,539 in 2011 (StatSA)
- ☐ An average household size: 3.5
- ☐ A growth of 3% p.a. for the period 2011-2019
- ☐ A growth of 2% p.a. for the period 2019-2034

The distribution of integrated housing in the different development nodes for a 20 year planning period up to 2034 and the period 2014-2019 and are illustrated on:

- ☐ Map Integrated Housing – Greater Secunda
- ☐
- ☐ Map Integrated Housing – Bethal/Emzinoni
- ☐
- ☐
- ☐ Map Integrated Housing – Leandra
- ☐ Map Housing – Charl Cilliers

Map Integrated Housing – Greater Secunda

Map Integrated Housing – Bethal/Emzinoni

Map Integrated Housing – Leandra

Map Housing – Charl Cilliers

7.1.7 SPECIAL ECONOMIC ZONE (SEZ: INDUSTRIAL PARK)

Special Economic Zone (SEZ) is considered in Govan Mbeki Municipality. Consistent with the establishment of a Special Economic Zone in the municipality, an industrial park has been proposed.

The proposed Industrial Park is to be located on an identified portion of land north west of Secunda. The land has been secured by Govan Mbeki Municipality, where the municipality is expected to contribute the land for the development of the industrial park. The site comprises of approximately 200ha. The proposed site is linked by the R580 to the N17 (3.8 KM north of the proposed site). The R580 and R546 are provincial roads that appear to be in good condition based on the visual assessment. Both roads link the proposed site to the N17 that leads to Johannesburg in the west and Swaziland in the east. An informal road connects the proposed site to Trichardt and Bethal via the N17.

7.1.8 THE SPATIAL DEVELOPMENT FRAMEWORK STRATEGIES OF GOVAN MBEKI MUNICIPALITY

Strategic Objective 1:

Economic development and job creation supporting and guiding development

The integration of regional and sub regional spatial development initiatives, with the aim of leveraging investments to have an overall greater regional impact. Within Govan Mbeki the objectives of these initiatives add to sustainable economic development. The objectives thereof form the broad framework for spatial development within Govan Mbeki.

The advantages provided by the following regional and sub regional development nodes and corridors in support of the Govan Mbeki Municipality need to be exploited:

- ☐ The N17/ N2 Transportation Corridor supported by the Richards Bay railway line providing
- ☐ Regional access and mobility to Swaziland and to Northern KZN
- ☐ The primary coal haulage links to Richards Bay
- ☐ The Maputo Development Corridor linking Gauteng with the Maputo Harbour incorporating the R35 Bethal to Middelburg Petrochemical Link, linking the N17/ N2 Transportation Corridor with the Maputo Development Corridor
- ☐ The status of the Secunda Development Node as primary regional development node within Mpumalanga province
- ☐ The proximity of:
 - ✓ The Gauteng Competitiveness Node
 - ✓ The Regional Development Nodes of eMalahleni and Middelburg
- ☐ The Delmas - Leandra emerging link

Regional Strategic Investment Initiatives and Projects

The advantages provided by following Regional Strategic Investment Projects in support of the Govan Mbeki Municipality need to be exploited:

- ☐ The development of a Special Economic Zone at Secunda diversifying and supporting the local economy providing for logistics and manufacturing
- ☐ Partnership Agreements between Mpumalanga provincial Government, Municipalities and Private Enterprise (SASOL)
- ☐ The linking of the rail systems unlocking the northern mineral belt with Waterberg (SIP1) and making coal available to the Gert Sibande District and Nkangala District
- ☐ Increasing rail capacity to Richards Bay.
- ☐ Shifting from road to rail in Govan Mbeki and the province alleviating the congestion caused by road freight on the roads system
- ☐ The continuous upgrading of the N17 route as high mobility regional route and upgrading of the link between Ermelo and the Swaziland Oshoek border post opening up economic opportunities within the region
- ☐ The provision of a passenger rail system along the N17 over the long term (NATMAP)
- ☐ Increasing accessibility to the proposed regional cargo airport facility at Victor Khanye

Diversifying and strengthening the Govan Mbeki Economy Mining

The optimal exploitation of the Govan Mbeki minerals providing a long term advantage to the creation of sustainable economies, communities and jobs within Govan Mbeki without compromising biodiversity, water quality and availability, agriculture and tourism.:

- ☐ The expansion and improvement of the railway freight and passenger network supporting mining and synfuels production
- ☐ The expansion and improvement of the railway passenger network
- ☐ The utilisation of the advantage of the proposed railway link between the Waterberg coal fields, the Mpumalanga power stations and Richards Bay port including the upgrading of the Ermelo Richards Bay Coal haulage line and the Lothair Swaziland link to Richards Bay rail link supporting the exporting of coal from Mpumalanga
- ☐ The phasing in of renewable energy options, which include concentrated solar power, wind and natural gas, reducing dependence on coal resources
- ☐ Alleviate the negative impact of mine closures on the socio economic welfare of the communities affected thereby, consolidating the mining communities into main concentrations and existing towns

Manufacturing and Synfuels production

- ☐ The competitive advantage of the manufacturing sector within Govan Mbeki needs to be expanded through the provision of a Special Economic Zone providing for the broadening of the economic base:
 - ✓ Exploit specific business opportunities with Sasol
 - ✓ Developing an Industrial cum Logistics park
- ☐ Enable the synergistic development of agriculture, manufacturing and beneficiation, transportation, industries as economic drivers
- ☐ Minimise the spatial conflicts between the manufacturing activities and biodiversity

Trade

- ☐ Provide for the development and regeneration of existing activity nodes, reverse urban decay within all, towns and villages promoting investors confidence
- ☐ Accommodate the distribution of economic activities as part of development nodes, activity corridors and activity nodes
- ☐ The provision of tourism activities and tourism routes with the focus on Bethal as cultural and heritage tourism node

Agriculture

- ☐ The exploitation of the competitive advantages of the agricultural sector incorporating an Agricultural Hub in Bethal supporting the Comprehensive Rural Development Programme
- ☐ The provision of Urban Agriculture providing for local produce markets
- ☐ The roll out of the Comprehensive Rural Development Programme must assist in expanding the agriculture potential over large parts of Govan Mbeki to ensure food security and provide for agro processing.
- ☐ The land owned by government needs to be targeted for such purposes.
- ☐ The application of sources of water for irrigation and water technology to provide sustainable agricultural products for agro processing, commercial farming and food security
- ☐ The settlement of land claims and assurance of access to land in order to get individual, community and smallholder farmers established.
- ☐ Effective training and mentorship programmes are essential to the successful establishment of farmers
- ☐ Minimise the spatial conflicts between the mining activities, agriculture and biodiversity
- ☐ Existing productive farmland must be protected and developed
- ☐ The degradation of agricultural land through overgrazing needs to be managed

Strategic Objective 2:

Promoting education, training and innovation

Spatial Development Strategies

The provision of the full spectrum of educational facilities within Govan Mbeki providing for the local as well as regional needs, including:

- ☐ The development of Govan Mbeki as Tertiary Educational Hub building on the Mpumalanga Math, Science and Technology Academy by providing:
 - A Provincial Skills Hub
 - An Engineering faculty for Mpumalanga University
 - A Science Centre
 - ITC Centres

- ❑ Reasonable access to educational facilities and the equitable and optimal distribution of pre-primary, primary, secondary and ABET facilities in all neighbourhoods of Govan Mbeki providing for an efficient and effective pre primary, primary and secondary educational network
- ❑ The rationalisation of the distribution and number of schools in accordance with acceptable standards

Strategic Objective 3:

Accommodating urbanisation and transforming human settlements

The provision of a Spatial Development Concept providing for an integrated system of development and activity nodes and corridors to accommodate regional and sub-regional growth

Spatial Development Concept

The Spatial Development Concept was formulated as a first step towards a spatial development strategy for Govan Mbeki. This Spatial Development Concept models spatial direction and context to future developments. This Development Concept promotes, clarifies and refines the spatial development principles and development priorities supported by relevant policies and legislation and define the desired spatial form of Govan Mbeki.

The Spatial Development Concept is, by its very nature, broad and seeks to interpret the various development principles and objectives in a concise way. The concept provides a rational framework within which future development can be optimised by promoting a system of activity nodes, corridors and functional areas.

The Spatial Development Concept provides for the integration of the following:

Urban Nodes

1st Order Regional Node: Secunda, Evander, Kinross, Lebohang and Trichardt

- ❑ The primary urban node in the municipality will remain the Greater Secunda conurbation. Greater Secunda will remain the hub of economic activity in the area, with SASOL and the mines predominatin

2nd Order Regional Node : Bethal/eMzinoni

- ❑ Bethal/eMzinoni will remain a secondary node supporting Greater Secunda and serving the surrounding rural areas.

3rd Order Regional Node : Leandra (Leslie, Lebohang and Eendracht)

- ❑ Leandra will remain a tertiary node supporting Greater Secunda and serving the surrounding rural areas.

The N17 Transportation Corridor

- ❑ The N17 is a high-order mobility corridor in the Gert Sibande District, running east-west through Govan Mbeki and linking the three urban nodes. The continuous upgrading of the N17 improves the connectivity between the three main urban nodes and to the East Rand and Johannesburg in Gauteng.

The Regional Open Space System

It must be noted that a detailed strategic environmental assessment must still be conducted for the municipality. The results of this exercise will serve to enhance the detail pertaining to the regional open space system to be conserved and developed in future. The proposed open space system is predicated on the major watercourses and other natural features within the study area and the biodiversity corridors of the Mpumalanga Biodiversity Sector Plan 2013.

Transportation

The land use framework as discussed above must be supported by a transportation network and services in order to materialise. The following is a summary of the main proposals in this regard. The Johannesburg/Richards Bay freight rail line traverses the study area in an east-west direction and links the three urban nodes with each other and with the wider region. No extensions to the existing freight rail system and services are foreseen at this stage. The future passenger rail from Gauteng to Swaziland will add to the provision of an effective passenger within Govan Mbeki and local economic development. Migrant mine workers can utilise such a system and a station such as Kinross station can be utilised for such purpose.

Road

The regional road network in the municipality is also depicted. The main objectives of this network are to: serve the municipality in north-south and east-west directions of movement

- ☐ link residential areas to one another and to the core areas of economic activity
- ☐ link areas of economic activity to one another
- ☐ promote mixed use and high density development adjacent to these routes, subject to road access management requirements, and
- ☐ promote transport along these routes as a priority
- ☐ address the problems associated with coal haulage on roads
- ☐ accommodate supporting facilities such as a truck stop and weighbridge.

The development of a Smart City directed by smart growth

The revitalisation of and expansion to the existing built environments to accommodate the future integrated growth of in an efficient and sustainable Govan Mbeki consisting of a system of vibrant urban development nodes requires the integration of a set of development strategies, focused at concentrating and densifying development, the incremental upgrading of existing infrastructure and integrating communities.

This requires the strategic directing of growth to The Greater Secunda node of Secunda, Trichardt, SASOL, eMbalenhle, Evander and Kinross including :

- ☐ The Special Economic Zone
- ☐ Integrated human settlement development between Secunda and eMbalenhle
- ☐ The Bethal Emzinoni Node
- ☐ The Leslie Lebohang Eendracht Node
- ☐ The Charl Cilliers Node

Strategic Objective 4:

Promote the development of the rural areas within Govan Mbeki that can support sustainable economic, social and engineering infrastructure

Govan Mbeki needs to ensure sustainable use and development of its rural areas based on the following:

A rural economic base, particularly agriculture and mining, which strengthens, offering opportunities for economic empowerment, and adopts sustainable business practices.

- ☐ Rural amenities and economic opportunities accessible to the residents, particularly poor communities with limited mobility

- ☐ Facilitating the establishment of business initiatives, rural and agro industries, co-operatives, cultural initiatives and vibrant local markets.
- ☐ Empowerment of rural communities to be self reliant
- ☐ Increased production and sustainable use of natural resources
- ☐ Livestock farming and related value chain development
- ☐ Cropping and related value chain development
- ☐ Strengthening rural livelihoods for vibrant local economic development
- ☐ Use of appropriate technology, modern approaches, and indigenous knowledge systems
- ☐ Ensuring food security, dignity and quality of life.
- ☐ Integrating rural development with existing regional and sub-regional movement routes.
- ☐ The optimal utilisation of agricultural land based on Land Capability

The natural and agricultural landscapes should enjoy adequate protection:

- ☐ The destroyed landscapes should be rehabilitated sufficiently
- ☐ Safeguard the protected, critical biodiversity areas and ecological support areas against mining and agriculture
- ☐ The protection of high potential and unique agriculture land against development
- ☐ Minimise the conflict between agricultural resources and coal mining and ensure food security
- ☐ Development of mitigation and adaptation strategies to reduce vulnerabilities with special reference to climate change, erosion , flooding and natural disasters
- ☐ Provide sufficient water to agriculture needs
- ☐ Address the scarcity of water and emerging negative water balances within the catchment areas caused by mining
- ☐ The protection of ecological corridors
- ☐ The conservation of wetlands and grasslands for conservation need to be high priority.

A clear distinction should be made between the urban and rural landscapes, and there is a legible and logical structure of human settlements.

- ☐ Human settlements and surrounding rural areas functioning as interconnected systems.
- ☐ Rural development reinforcing a logical network of human settlements of varying sizes and functions.

National, provincial and local government collaborate and align their efforts to plan, manage and sustainably develop the Govan Mbeki rural areas providing for:

- ☐ Improvement and development of social and economic infrastructure supporting agriculture development
- ☐ Developing rural development nodes providing sustainable economic and social infrastructure including
- ☐ Enhancing and maintaining road and transportation linkages to higher order urban nodes as markets of produce and economic and social services providers
- ☐ Enhancing distribution networks, access to ports and railways
- ☐ Electrification
- ☐ Improving communication connectivity (including ICT)
- ☐ Small scale farming development
- ☐ Establishment of fresh produce markets at appropriate locations
- ☐ Construction of dams and water harvesting
- ☐ Alignment of municipal rural land use planning with the rural spatial plans prepared by other institutions (e.g. Biodiversity Plans)

Land Reform needs to take place through:

- ☐ Expediting redistribution of land to historically disadvantaged people and provide access to funding (and mentoring) for commercial farming
- ☐ Increasing the rate of land tenure reform, securing access to land, protecting land rights
- ☐ Establishing agri villages for local economic development on farms
- ☐ Providing in basic needs of farm dwellers including water, sanitation, electricity, housing
- ☐ Providing for security of tenure.
- ☐ Increasing the pace of settling of Land Restitution claims
- ☐ Effectively supporting the development of skills and competencies of rural people to utilise land in an effective manner (mentoring).

Strategic Objective 5:

Protect biodiversity, water and agricultural resources

The protection of the biodiversity, water and agricultural resources involves the following actions:

- ☐ The Mpumalanga Biodiversity Sector Plan Guidelines should be made applicable to all land use zones
- ☐ Safeguard the protected, critical biodiversity areas and ecological support areas against mining, agriculture and urban development
- ☐ The protection of high potential and unique agriculture land against development
- ☐ Minimise the conflict between agricultural resources and coal mining and ensure food security
- ☐ Minimise the consumption of scarce environmental resources, particularly water, fuel, building materials, mineral resources, electricity and land. In the latter case especially pristine and other rural land
- ☐ Address water backlogs within communities and provide sufficient water to manufacturing, agriculture needs
- ☐ Address the scarcity of water and emerging negative water balances within the catchment areas attending to the following actions:
 - Increase return flows through treatment of urban and mining effluent and desalination
 - Water conservation
 - Recycling
 - Further development of surface water resources
- ☐ Seepage from ash dumps
- ☐ Seepage from gold mining tail water dams
- ☐ Slime Dam breakage lines that have a negative influence to environment and human settlements
- ☐ Dust pollution from ash dumps and slime dams
- ☐ Environmental damage not attended to by rehabilitation
- ☐ Power line restrictions to future development

Strategic Objective 6:

Infrastructure Investment

To maintain a balance between investment aimed at meeting social needs of communities, and investment at promoting economic development and job creation and to reduce investment aimed at social upliftment over time.

Basic Infrastructure

- ☐ Ensure efficient supply of water, electricity and waste management services to sustain additional industry growth.
- ☐ Eradicate backlogs in water and sanitation, electricity, housing Improve basic services and provide free water and electricity to poor households
- ☐ Provide green infrastructure e.g. water tanks, renewable energy (e.g. solar)
- ☐ Eradicate backlogs and maintain basic services

Social Infrastructure

- ☐ Social infrastructure/facilities includes education, health and emergency services, social and cultural facilities, social services, civil services, and recreational infrastructure
- ☐ Eliminate inequalities among and within communities
- ☐ Improve the quality of life especially of poor communities, provide for law and order, and enhance the stability of a community
- ☐ Promote equitable access to social services for all communities and contribute to the development of integrated and sustainable human settlements through the application of norms and standards for social infrastructure requirements.
- ☐ Ensure that sufficient land is reserved for these essential facilities.

Economic Infrastructure

- ☐ Focus on projects identified as Strategic Infrastructure Projects
- ☐ Concentrate investment in areas with potential for sustainable economic development.

Strategic Focus Areas:

- ☐ Meeting the social needs of communities
- ☐ To provide basic infrastructure in support of the social needs of communities
- ☐ Eradicate backlogs and improve water and sanitation, electricity, housing in all areas
- ☐ Provide green infrastructure in rural areas
- ☐ To enhance human capital development Improve and maintain education, health, sport facilities, etc. To enhance human capital development:
- ☐ Eradicate backlogs and improve social infrastructure in all areas
- ☐ Provide public and non-motorised transport and facilities to improve accessibility to urban functions and job opportunities
- ☐ Implement norms and standards for the provision of education facilities
- ☐ To eradicate backlogs and improve education
- ☐ Distribute the provision of other tertiary education and artisan training facilities to all primary and secondary nodes
- ☐ Initiate the alternative utilisation of facilities e.g. underutilised schools
- ☐ To eradicate backlogs and improve health

Focusing investment on economic infrastructure:

- ☐ Supporting the Secunda Embalenhle Development Corridor
- ☐ Supporting the Embalenhle Kinross Development Corridor
- ☐ Supporting the secondary regional development node of Bethal
- ☐ Supporting the tertiary development node of Leandra
- ☐ Enhancing the functional diversity of economic activity of these nodes in order to broaden the economic base of the province and to enhance service delivery to local and surrounding rural communities.

- ❑ Typical actions in this regard would include investment in agro industries, forestry related industries (where applicable), commercial and light industrial activity, business activity (office and retail) in well-managed Central Business Districts (CBDs), and government services
- ❑ Tourism related investment should be focused on Bethal
- ❑ Agriculture related investment should focus on supporting and maintaining existing commercial farming activities in the province in the areas where extensive commercial farming and large scale food production currently occurs in line with the objectives of the Comprehensive Rural Development Programme (CRDP). Typical investment in these areas should include:
 - ❑ Farming equipment, irrigation systems, agricultural training facilities (colleges) and the establishment of small local fresh produce markets which could lead to the establishment of small scale agro industries focusing on processing and/or packaging of local products before exporting it to larger centres
 - ❑ Artisan and other skills training initiatives and facilities
 - ❑ Social infrastructure in the form of centrally-located Thusong centres serving each of the CRDP areas, and which provide a comprehensive range of community facilities at a one-stop destination among these rural communities
 - ❑ Rural housing programmes are also to be consolidated around these Thusong centres which will not only improve the utilisation of the community facilities located here, but also create the “critical mass” required to enhance the potential for local economic development – including the fresh produce market and associated agro-processing activities.

7.1.9 THE FOLLOWING MAPS INFORM THE SIX (6) STRATEGIC OBJECTIVES AS TO PROVIDING SPATIAL STRATEGIC FOCUS

Map: Nodal and Corridor Development

Map: Regional Strategic Investment Initiatives

Map : Regional Strategic Investment Projects

7.5.10 SPATIAL DEVELOPMENT CONCEPT

The Spatial Development Concept was formulated as a first step towards a spatial development strategy for Govan Mbeki. This Spatial Development Concept models spatial direction and context to future developments.

This Development Concept promotes, clarifies and refines the spatial development principles and development priorities supported by relevant policies and legislation and define the desired spatial form of Govan Mbeki. The municipal-wide development concept are illustrated as per the following Maps:

MAPS SPATIAL DEVELOPMENT CONCEPT

7.2 GOVAN MBEKI MUNICIPAL HOUSING SECTOR PLAN (GMM MHSP)

The Govan Mbeki Municipal Housing Sector Plan (GMM MHSP) has been revised and approved by council which contains the development plan well, to ensure an integrated approach to human sector development.

The plan incorporates elements from the Municipal IDP, Local Economic Development Strategy, GMM business plan, GMM Spatial Development Framework, GMM Land Use Management, as well as the National Upgrade of Informal Settlements Programme (NUSP). The GMM MHSP demonstrates the municipality's plans, budget and organisational capacity to deliver on this mandate, in a progressive and value-adding manner.

7.2.1 LEGISLATIVE AND POLICY ENVIRONMENT GOVAN MBEKI MUNICIPAL HOUSING SECTOR PLAN (GMM MHSP)

The GMM MHSP is informed by, and aligned to, the relevant legislative and policy imperatives e.g. the Constitution (1996), the Housing Act (1997), the National Housing Code (2009), the Municipal Finance Management Act (2003), Government's Performance Outcome 8 and the revised National Accreditation and Assignment Framework.

The Govan Mbeki Municipal Housing Sector Plan (GMM MHSP) comprised of the following components:

- ☐ Housing Allocation Policy
- ☐ Migration Strategy
- ☐ Migration Policy
- ☐ Comprehensive Housing Needs Analysis (Transversal Waiting List)
- ☐ Human Sector Development Plan : PPP Strategy
- ☐ Integrated Human Settlement Sector Plan

7.2.2 OBJECTIVES OF GOVAN MBEKI MUNICIPAL HOUSING SECTOR PLAN (GMM MHSP)

The objectives of the Govan Mbeki Municipal MHSP are as follows:

- ☐ That human settlements planning reflects a broad range of community level needs and concerns and is based on credible data;
- ☐ The alignment of the municipality's plans with national and provincial human settlements plans and priorities
- ☐ To undertake human settlements planning as part of a broader, integrated and proactive urban management strategy of the municipality;
- ☐ To provide detailed human settlements projects plans within a clear implementation and funding strategy;
- ☐ To develop an institutional structure and unpack clear roles and responsibilities of relevant stakeholders critical to achieving integrated human settlements planning;
- ☐ To incorporate concepts of migration, local economic development, in the overall development of human settlements
- ☐ To provide a clear monitoring and evaluation framework for the human settlements function; and
- ☐ To develop a clear communications plan.

7.2.3 NATIONAL HOUSING NEED REGISTRY (NHNR)

The National Department of Human Settlement has introduced new housing data registry which replaces the housing waiting. It is called National Housing Need Registry (NHNR). The NHNR operates/work as a single integrated database that stores data for potential housing beneficiaries.

The NHNR intends to reduce discrepancies through better control, consistent practices and improved management systems of potential beneficiaries. This information / data assist in the administering housing programmes. The progress to date with regards to beneficiary administration and implementation reflect that a total of 18360 of beneficiaries has been uploaded to the National Housing Need Registry (NHNR)

7.2.4 HUMAN SETTLEMENT CHALLENGES

The following Human Settlement challenges exists with Govan Mbeki:

- ☐ Shortage of land for Human Settlement development
- ☐ Slow progress on delivery of houses due to non-payment of contractors appointed by PDoHS.
- ☐ Illegal invasion of housing some of the human settlement project at ext 22
- ☐ Legal battles with some community members who are trying to stop the Human Settlement project.
- ☐ Stoppages of CRU projects by tenants

7.3 SOLID WASTE MANAGEMENT

The Integrated Waste Management Plan (IWMP) is approved by Council in terms of resolution , A83/10/2015 .

In terms of one of the activities within the IWMP, a feasibility study was done during March 2016 on waste management facilities, specifically with the aim of developing a regional landfill site in Leandra with a central transfer station in Evander and mini-transfer stations (public drop off facilities) in all the regions.

The municipality have 3 licensed operational and 5 licensed closed waste disposal (landfill) sites. Operational sites includes, Bethal, Secunda and Leandra landfill sites, whereas the closed sites include the Bethal-Morgenzon road, Evander, eMbalenhle, Lebohang and Kinross landfill sites. Despite the closure license received for the Kinross site, it is still operational until an alternative disposal facility is developed.

The infrastructure and maintenance at all the waste disposal (landfill) sites does not meet the minimum requirements for waste disposal by landfill and regulations in terms of the Waste Act. The Secunda waste disposal site have very limited remaining air space available and the Leandra landfill is identified as a central landfill for the municipality, with waste infrastructure such as a central transfer station in Evander and 17 mini-transfer stations across the municipality to address future disposal and landfill site needs. As soon as funds is available, attention will be given to address these needs.

The rationale behind the study is that the Secunda and Kinross landfill sites is running out of airspace with a remaining life between 1 and 1/2 years.

The outcome of the feasibility study revealed and recommended the following:

- ☐ To maintain the status quo of the Bethal, Leandra Secunda and Kinross landfill.
- ☐ Since the feasibility study was concluded, the Department of Agriculture, Rural Development, Land and Environmental Affairs (DARDLEA) issued a closure license to the Kinross landfill and the municipality is granted a three year period to stop operations and to close and rehabilitate the site.

- ❑ The construction of a main transfer station in Evander (along the Secunda eMbalenhle road) and diverting all the waste from eMbalenhle, via the transfer station to Leandra in order to increase the lifespan of the Secunda landfill site.
- ❑ As Kinross landfill need to close within one and half years, the waste from Kinross can be diverted via the same transfer station to Leandra.
- ❑ Various public drop off facilities in all the regions is identified. The purpose of these facilities is to allow communities a safe disposal area close to their area and to minimize the rate of illegal dumping as no waste disposal facilities is available; example eMbalenhle.

7.4 ENVIRONMENTAL MANAGEMENT

7.4.1 LEGAL COMPLIANCE TO ENVIRONMENTAL MANAGEMENT

The Constitution of the Republic of South Africa, 1996 (Act 108 of 1996) introduced an environmental right in terms of section 24, which affords every person a right to an environment that is not harmful to their health or well-being, to have the environment protected for the benefit of present and future generations through reasonable legislative and other measures that will prevent pollution and ecological degradation, promote conservation and secure ecologically sustainable development and use of natural resources while promoting justifiable economic and social development.

The primary legislation promulgated to give effect to this right was the National Environmental Management Act, 107 of 1998 ("NEMA"), which commenced on 29 January 1999. In accordance with the environmental right, all organs of state, including municipalities, are required to take legislative and other measures to give effect to this right.

The role of the municipality in respect of environmental management is further enhanced in section 152 of the Constitution, which requires municipalities to, amongst other things ensure the provision of services to communities in a sustainable manner and to promote a safe and healthy environment. The Local Government: Municipal Systems Act 32 of 2000 gives further effect to these constitutional imperatives. Municipalities have the duty to strive to ensure that municipal services are provided in an environmentally sustainable manner.

7.4.2 OVERALL ENVIRONMENTAL GOVERNANCE

Environmental governance refers to the role and responsibilities assigned to the municipality in respect of environmental management in general. It includes provisions relating to the general enforcement powers, particularly in respect of municipal environmental management inspectors (EMI) designated in terms of NEMA as well as environmental health practitioners (EHP's) designated in terms of the National Health Act.

Overview of municipal roles and responsibilities pertaining to overall environmental governance:

Type of function	Description
Law making	- Environmental Management Bylaws - Environmental Health Bylaws
Monitoring & Enforcement	- Designation of and enforcement by environmental management inspectors
Strategic Planning	- Preparation of integrated development plans
Consultation requirements	- Cooperative governance
General	- Incorporation of NEMA section 2 principles - Compliance with provincial environmental implementation plan

7.4.3 AIR QUALITY MANAGEMENT

“Air pollution” is listed in Part B of Schedule 4 of the Constitution as a function of municipalities. Accordingly, air pollution management is the constitutional responsibility of local government and municipalities are the primary interface between the public and government regarding air pollution management. In terms of the Municipal Structures Act, the responsibility for integrated development planning, which includes the development of air quality management plans, lies with district municipalities.

Municipal powers and functions in respect of air quality management are set out in the National Environmental Management: Air Quality Act, 30 of 2004 (“NEM:AQA”), which is the primary legislation regulating air quality management in South Africa, together with its various regulations. Municipalities influence air quality governance through the introduction of by-laws, which are legally enforceable within the municipality’s jurisdiction.

Furthermore, the National Framework for Air Quality Management in the Republic of South Africa has been published by the Minister in terms of section 7 of NEM: AQA. The Framework binds all organs of state in all spheres of government, who must give effect to it when exercising a power or performing a function or duty in terms of this Act or any other legislation regulating air quality management.

Key focus areas for municipalities in respect of air quality management are:

- Addressing climate change;
- Continuing and escalating compliance monitoring and enforcement activities by EMIs within the municipality;
- Development of air quality management plans;
- Implementing priority area air quality management plans;
- Improving municipal air quality monitoring facilities and capacity; and
- The creation of sufficient municipal capacity through the training of municipal officials in atmospheric emission
- licensing and the designation of municipal air pollution control officers.

The specific powers and functions of municipalities relating to air quality management are set out below.

Type of function	Description
Law making	- Air Quality Management Bylaws
Monitoring & Enforcement	- Enforcement by environmental management inspectors (EMI’s)
Strategic Planning	- Preparation of air quality management plan, to be included in IDP
Consultation requirements	- Consultation with national Air Quality Officer in respect of priority area Air Quality Management Plan - Attendance at Provincial-Municipal Air Quality Officer Forums
General	- Designation of municipal air quality officers (AQO) - Submission of AQO Annual Report - Report on implementation of air quality management plan

7.4.4 WASTE AND CHEMICALS MANAGEMENT

“Refuse removal, refuse dumps and solid waste disposal” as well as “cleansing” is listed in Part B of Schedule 5 of the Constitution as a function of municipalities. Waste management is also an integral aspect of environmental health services, which fall within the scope of municipal health services. Accordingly, solid waste services are the Constitutional responsibility of local government, and municipalities are the primary interface between the public and government around waste management. This constitutional waste services mandate requires that waste services should be planned for and that these plans are effectively implemented. Such implementation requires the relevant resources are directed at providing these services, including financial, human and infrastructural resources.

Further powers and functions are derived from National Environmental Management: Waste Act, 59 of 2008 (“NEM:WA”), which is the primary legislation regulating waste in South Africa, as well as the National Waste Management Strategy which emanates from NEM:WA. Although the National Waste Management Strategy is a policy document, it binds all organs of state, who are required to give effect to it when exercising a power or performing a duty in terms of NEM: WA or any other legislation regulating waste management.

The roles and responsibilities for waste management are shared between local and district municipalities. A district municipality is responsible for solid waste disposal sites, in so far as it relates to—

- (i) the determination of a waste disposal strategy;
- (ii) the regulation of waste disposal;
- (iii) the establishment, operation and control of waste disposal sites, bulk waste transfer facilities and waste disposal facilities for more than one local municipality in the district.

With this division of powers in mind, the following waste management goals, as set out in the National Waste Management Strategy, incorporate municipal waste management powers and functions, and are accordingly considered to be the primary waste management goals of municipalities:

- 1. Promote waste minimisation, re-use, recycling and recovery of waste.
- 2. Ensure effective and efficient delivery of waste services.
- 3. Ensure that people are aware of the impact of waste on their health, well-being and the environment.
- 4. Achieve integrated waste management planning.
- 5. Ensure sound budgeting and financial management for waste services.
- 6. Ensure effective compliance with and enforcement of NEM:WA.

Municipal roles and responsibilities pertaining to waste management are:

Type of function	Description
Law making	- By-laws for waste management - Setting local standards (discretionary) - Setting buffer zones in respect of hazardous waste storage facilities
Provision of services	- Waste storage and collection - Waste disposal - Waste management
Permitting, Licensing & Registration	- Registration of waste transporters

Monitoring & Enforcement	- Enforcement by environmental management inspectors - Designation of waste management officers (WMOs) and various enforcement powers (including requiring waste impact reports and designation of waste management control officers)
Strategic Planning	- Preparation of waste management plan, to be included in IDP - Preparation of waste disposal strategy
Consultation requirements	- Provision of comments on waste license applications
General	- Implementation of waste management hierarchy and general duty in respect of waste management - Reporting on implementation of waste management plan - Obtaining waste-related information - Setting budget and tariffs for waste management services

7.4.5 ENVIRONMENTAL IMPACT MANAGEMENT

Previously, environmental impact management was governed largely through the environmental impact assessment process only as required for applications for environmental authorizations for listed activities under NEMA. The function of assessing and deciding on such applications lies with the national and provincial authorities.

The integration of environmental and spatial planning and land use approval has become a part of municipal planning. The Spatial Planning and Land Use Management Act, 16 of 2013 ("SPLUMA") commenced on 1 July 2015 and Municipalities are playing an indirect role in the environmental impact assessment process as a commenting authority, or a direct role as an applicant for environmental authorization under NEMA.

Disaster management has been included within this sector, as the municipality's environmental role in respect of the environment relates to the impact of a disaster on the environment, whether that disaster is caused by natural environmental causes or not.

The Municipal roles and responsibilities pertaining to environmental impact management:

Type of function	Description
Law making	- Adoption of model by-laws for management of environmental impacts
Provision of services	- Emergency incident response - Provision of external engineering services - Disaster management through the municipal disaster management center
Permitting, Licensing & Registration	- Approval of land development and land use applications (through a municipal planning tribunal or authorized official) - Decision on land development and land use application appeals (as appeal authority)

Monitoring & Enforcement	- Enforcement by environmental management inspectors - Appointment of inspectors in terms of SPLUMA - Applications to court
Strategic Planning	- To be included in IDP, preparation of: - spatial development framework - municipal disaster risk management plan - Development of framework for disaster management
Consultation requirements	- Consultation with municipality by Minister regarding norms and standards for land use - Consultation by municipality with Premier in respect of land use scheme - Consultation with organs of state in respect of SPLUMA approval, plans and programs - Consultation with local municipality by district municipality in respect of disaster management - Comment on environmental authorization applications
General	- Taking of reasonable measures to ensure general duty of care - Application of SPLUMA development principles - Application for exemption from SPLUMA - Decision making in accordance with SDF - Record-keeping in respect of land development decisions - Reporting by municipal planning tribunal - Representation on: - Council of the Presidential Infrastructure coordinating Committee - Steering committees for strategic infrastructure projects - Intergovernmental Committee on Disaster Management and National Disaster Management Advisory Forum

7.4.6 CONSERVATION AND BIODIVERSITY

The naming of the section Biodiversity and Open Spaces within the Municipality are misleading as the section are mainly responsible for Parks, Open Spaces and Cemeteries and not Biodiversity. Biodiversity is a short form of two words; “biological” and “diversity”. It refers to all variety of life that can be found on earth, such as plants, animals, fungi and micro-organisms, as well as to the communities that they form and the habitats in which they live.

The municipality is required to provide a safe environment for its people and to contribute towards sustainable development. Municipalities must therefore take biodiversity considerations into account in their planning, decision-making and other functions.

There are a number of national and provincial laws which regulate this sector, with the primary national legislation being the National Environmental Management: Biodiversity Act, 10 of 2004 (NEM: BA) and the National Environmental Management: Protected Areas Act, 57 of 2003 (NEM: PAA).

The municipality's priorities include:

- To ensure that biodiversity concerns are integrated into IDPs and SDFs for municipalities and to ensure that systems are in place for the control and management of priority resources in the local government sphere;
- Making provision for funding of biodiversity and conservation mandates

Municipal roles and responsibilities pertaining to conservation and biodiversity:

Type of function	Description
Law making	☐ Adoption of by-laws for local protected areas and heritage resources
Provision of services	☐ Establishment of local protected areas ☐ Implementation of biodiversity management plan ☐ Management of heritage resources
Permitting, Licensing & Registration	☐ Consent for alteration or development affecting place in heritage register or heritage area
Monitoring & Enforcement	☐ Enforcement by environmental management inspectors ☐ Act as competent authority for control of an alien or listed invasive species (if delegated)
Strategic Planning	☐ Alignment of IDP with national biodiversity framework and bioregional plans ☐ Preparation of invasive species monitoring, control and eradication plan for land under its control, to be included in IDP ☐ Preparation of biodiversity management plan (discretionary) and alignment with National Biodiversity Framework
Consultation requirements	☐ Consultation by municipality with Minister in respect of bioregions ☐ Consultation by municipality with SANBI in respect of invasive species control and eradication plan and biodiversity management plan ☐ Consultation by Minister with municipality in respect of protected areas ☐ Consultation with management authority of nature reserve
General	☐ Board of Authority for world heritage site

7.4.7 CLIMATE CHANGE

Govan Mbeki Municipality was the first municipality within the Mpumalanga Province to develop its own climate change response implementation plan and Greenhouse Gas inventory with the assistance of SALED (South African – Low Emissions Development), and US-AID. The climate change response implementation plan was drafted which included priority areas, activities and goals towards addressing the key challenges in the short to medium term. Each of the goals has a detailed set of activities that outline how the goal will be achieved.

The activities will be implemented through a phased approach, i.e.:

- ☐ High priority (total rating was higher than 80%)
- ☐ Medium priority (total rating was between 70% and 79%)
- ☐ Low priority (total rating was below 70)

CLIMATE CHANGE RESPONSE IMPLEMENTATION PLAN

Goal 1: Promote the efficient use of energy in all sectors, and lead by example in municipal infrastructure and operations.		
Activities	Responsibilities	Priorities
Activity 1.1: Measure and monitor energy use in the municipal infrastructure and operations in accordance with national requirements, e.g. the Department of Energy (DOE) and the Department of Environmental Affairs (DEA) and publicly report this information.		
Water supplies and wastewater treatment operations electricity measured (including a register on pumps and other equipment in numbers and kilowatt ratings)	- Energy Services - Water & Sanitation	High
Fleet liquid fuels used i.e. diesel and petrol (including an efficient logging and reporting system)	- Fleet Management	High

Street lights and traffic lights electricity used (including a Geographical Information System on installations)	- Energy Services - Land Use & Spatial Development	High
Municipal buildings electricity and other energy carriers used [including an asset register on lights, heating, ventilation and air conditioning (HVAC) and other equipment]	- Energy Services - Facilities Management	High
Raw data can be gathered from the various departments (as shown in brackets above) but more accurate metering should be done in the future.	- Energy Services	High
Activity 1.2: The municipality will lead by example in reducing the energy footprint within its own infrastructure and operations by ensuring that preventative maintenance is done on all buildings and equipment.		
Development and implementation of a maintenance plan [Draft IDP: Strategic Objective 2, Goal 6 (Asset Maintenance)]	- Director: Technical Services - Director: Corporate Services	Medium
Reduction of unplanned maintenance and reduction of interrupted supply [Draft IDP: Strategic Objective 3, Goal 4 (Access to Electricity)]	- Director: Technical Services	Medium
Annual maintenance budget spent. [SDBIP]	- Director: Technical Services	Medium
Mobilising funding for the rehabilitation, refurbishing, and replacement of ageing infrastructure. [Technical Services 5-year Maintenance Plan]	- Energy Services	High
Maintaining and upgrading of wastewater treatment operations:		

• Upgrade pump stations based on the influx of people into the area with more efficient interdepartmental communication. • Install sufficient backup pumps to eliminate breakdowns.	• Human Settlements • Energy Services • Water & Sanitation • Energy Services • Water & Sanitation	• High • Medium
Maintenance and repairs of the fleet according to service standards. [Draft IDP: Strategic Objective 3, Goal 7 (Available and Reliable Fleet)] Ensure efficient fleet management. [Technical Services 5-year Maintenance Plan]	- Fleet Management - Fleet Management	High Low
Activity 1.3: The municipality will lead by example in reducing the energy footprint within its own infrastructure and operations through implementing the following programmes.		
Water Supplies and Wastewater Treatment (47% of municipal energy used): Investigations to improve energy efficiency at operations	- Energy Services - Water & Sanitation	Medium
Fleet (34% of municipal energy used): • Smart driver program for all fleet drivers, with the aim to promote responsible driving, more efficient use of vehicles and reduction of carbon emissions, including regular vehicle audits. [Draft Fleet Replacement Plan 2016-2021] • Replacement of old vehicles based on the Vehicle Transport Policy	- Fleet Management	• Medium • High
Street Lights (11% of municipal energy used):	- Energy Services	

• Replace conventional public lighting with energy efficient lighting [Draft IDP: Strategic Objective 2, Goal 3 (Energy Efficiency)] • Replace ineffective day/night switches with timers		• Medium • Medium
Building Lights and HVAC (8% of municipal energy used): • Remove excessive lights in buildings • Retrofit lights with more efficient lights • Install day/night timer switches on outside security lights • Install motion switches on inside lights and HVAC equipment	- Energy Services - Facilities Management	• Low • Medium • Low • Low
Activity 1.4: Train staff on enforcing requirements of SANS 10400 on energy usage in new buildings, to ensure that all major new development proposals meet the minimum standards, and that the relevant municipal department is aware of how the regulations impact on government delivered low income housing.	- Land Use Management	High
Activity 1.5: Develop an energy efficiency awareness campaign that targets a variety of sectors external to the municipality, including residential, commercial, institutional (e.g. schools and churches), and industrial, by using existing municipal supported initiatives.		
Align the awareness campaign with social media platforms being developed e.g. Facebook and Whatsapp. [Draft IDP, Strategic Objective 6, Goal 2 (Improved Public participation)]	- Director: Corporate Services	Low
Align the awareness campaign with the community radio station being developed. [Draft IDP, Strategic Objective 6, Goal 2 (Improved Public Participation)]	- Director: Corporate Services	Low

Align the awareness campaign with the municipality's Communication Strategy, which has an annual public participation program and is aligned with the IDP and Budget Process Plan	- Marketing & Communication	Medium
Develop behaviour campaigns amongst municipal staff, including capacitating technical employees on using sustainable technologies.	- Director: Technical Services	Medium
Use communication avenues already in place e.g. - Consumer Education Workshops, Newspapers, Radio, and Social Media - Municipal Billing System - Website	- Marketing & Communication - Revenue Management - Information Technology	High
Goal 2: Reduce electricity distribution losses.		
Activities	Responsibilities	Priorities
Activity 2.1: Data cleansing of billing information [Draft IDP, Strategic Objective 1, Goal 2 (Enhance Revenue Collection)]	- Chief Financial Officer - Revenue Manager	High
Activity 2.2: Elimination of bridged meters / Reduce illegal connections [Draft IDP, Strategic Objective 1, Goal 2 (Enhance Revenue Collection)] [Draft IDP, Strategic Objective 1, Goal 4 (Reduce Distribution Losses)]	- Chief Financial Officer - Director: Technical Services	High
Activity 2.3: Address dormant/inactive/faulty meters by replacing old meters, ensuring that meters are accessible and continuously audited [Draft IDP, Strategic Objective 1, Goal 2 (Enhance Revenue Collection)] [Technical Services -year Strategic Plan]	- Energy Services - Chief Financial Officer	High

Activity 2.4: Do a thorough audit by the internal team to link every mini-substation to the customers consuming electricity from it. This would apply for businesses, complexes and domestics. [Technical Services -year Strategic Plan]	- Energy Services	Low
Activity 2.5: Install remotely controlled bulk meters in each mini-substation to perform monthly energy balancing. [Technical Services -year Strategic Plan]	- Energy Services	Low
Activity 2.6: Install temper-proof enclosures with specialised temper-proof locking mechanisms to enclose meters. Install remotely controlled and temper resistant locking mechanisms. [Technical Services -year Strategic Plan]	- Energy Services	High
Activity 2.7: Change supply codes to eliminate ghost vending.	- Revenue Management - Energy Services	High
Goal 3: Reduce energy poverty by meeting the energy needs of residents with safe, clean, affordable, and reliable energy services.		
Activities	Responsibilities	Priorities
Activity 3.1: Electrification of remaining 1 500 households in GMM through the Integrated National Electrification Program (INEP) DOE funding for the next three financial years, i.e. 2017/2018, 2018/2019, 2019/2020 [Draft IDP, Strategic Objective 2, Goal 4 (Access to Electricity)] [Technical Services -year Strategic Plan]	- Energy Services	High

Activity 3.2: Install an additional 20MVA in eMbalenhle and 20 MVA in Bethal/eMzinoni if approved by Eskom and supported by DOE funding. [Technical Services -year Strategic Plan]	- Energy Services	High
Activity 3.3: Finalise the Memorandum of Understanding with Sasol with regards to their Offset Implementation Plan, which is an initiative to insulate informal and RDP households as well as roll-out stove-switches to liquefied petroleum gas (LPG) to reduce coal usage during winter months.	- Solid Waste & Environmental	Medium
Activity 3.4: Develop and implement a low-income and mid-income solar water heater rollout programme, linking with national solar water heater programmes where available.	- Energy Services - Land Use & Spatial Development	Medium
Goal 4: Establish a sustainable transport system that promotes the use of safe public transport and is supported by a suitable spatial planning development framework.		
Activities	Responsibilities	Priorities
Transport System Activities		
Activity 4.1: Provision of trafficable roads and affective storm water system. [Draft IDP, Strategic Objective 2, Goal 8] with the following key indicators: Eradication of gravel roads; Rehabilitation of paved roads; Installation of storm water systems on main roads; Review and update storm water management system; Review and update the pavement management system.	- Director: Technical Services - Director: Planning & Development - Insurance Companies	High

Activity 4.2: Shift from road to rail in GMM and the Province alleviating congestion caused by road freight on the road system. [SDF, Strategic Objective 1, Goal 1 (Regional Strategic Investments and Projects)]	- Land Use & Spatial Development - Transnet	Low
Activity 4.3: The provision of a passenger rail system along the N17 over the long term. [SDF, Strategic Objective 1, Goal 1 (The integration of regional and sub regional spatial development initiatives, with the aim of leveraging investments to have an overall greater regional impact)]	- Land Use & Spatial Development - Passenger Rail Agency of South Africa (PRASA)	Low
Spatial Development Framework Activities		
Activity 4.4: Develop an Integrated Transport Plan	- Land Use & Spatial Development	High
Activity 4.5: Promote walking and cycling as alternatives to motorised transport, and in this regard pedestrian and cycling paths and facilities should be planned and developed, starting with areas already identified, e.g. eMbalenhle, eMzinoni and Lebohang. [SDF, Strategic Objective 3, Goal 3 (Development of a Smart City developed by smart growth)]	- Land Use & Spatial Development	Medium
Activity 4.6: Provide public and non-motorised transport and facilities to improve accessibility to urban functions and job opportunities, e.g. upgrade informal taxi ranks and provide formal taxi/bus intermodal hubs, starting with areas already identified, e.g. eMbalenhle, eMzinoni and Lebohang. [SDF, Strategic Objective 6]	- Land Use & Spatial Development	Medium
Activity 4.7: Promote densification initiatives (i.e. multiple stands and multiple residential developments such as townhouses and flats, starting with areas already identified e.g. eMbalenhle, eMzinoni and Lebohang. [SDF,	- Land Use & Spatial Development	Low

Strategic Objective 3, Goal 3 (Development of a Smart City developed by smart growth)]		
Goal 5: Optimise solid waste removal and landfilling services, and promote solid waste reduction, re-use, and recycling.		
Activities	Responsibilities	Priorities
Activity 5.1: Roll out waste removal services to all households. [Draft IDP, Strategic Objective 2, Goal 9 (Waste Management)]	- Solid Waste & Environmental	High
Activity 5.2: Refurbish landfill sites through MIG funding [Draft IDP, Strategic Objective 2, Goal 9 (Waste Management)] - Infrastructure upgrades (roads, lights, offices, weigh bridges, storm water drainage, leachate control, cells construction) for the following landfill sites: — Leandra — Bethal - Closure and rehabilitation of the following landfill sites: — Kinross — Evander, eMbalenhle and Lebohang — Bethal/Morgenzon — Secunda	- Solid Waste & Environmental	High
Activity 5.3: Establish a new regional landfill site in Leandra through MIG funding [Draft IDP, Strategic Objective 2, Goal 9 (Waste Management)] - Construction of a central transfer station and drop-off facilities in Evander - Construction of mini-transfer stations across the municipal area	- Solid Waste & Environmental	High

Promote waste separation at transfer stations		
Activity 5.4: Run coordinated awareness campaigns through current existing channels as per 1.4, e.g.: - Reduce, Re-use, Recycle Solid Waste (this is already done by high volume waste producers) - Adopting an open space in a neighbourhood to keep it clean [IWMP, Goal 7 (Ensure that people are aware of the impact of waste on their health, well-being, and the environment)]	- Solid Waste & Environmental - Marketing & Communication - Information Technology - Revenue Management (Billing)	High
Activity 5.5: Establish Municipal Recycling Forum with stakeholders and hold quarterly forum meetings to co-ordinate waste minimisation to encourage growth on recycling and to discuss possible initiatives for, or by, entrepreneurs e.g. supporting waste pickers. [IWMP, Goal 4 (Promote waste minimisation, re-use, recycling and recovery)]	- Solid Waste & Environmental	Medium
Activity 5.6: Implement household separation at source [Draft IDP, Strategic Objective 2, Goal 9 (Waste Management)]	- Solid Waste & Environmental	Medium
Activity 5.7: Conduct a study to determine the establishment of composting facilities is feasible. [IWMP, Goal 4 (Promote waste minimisation, re-use, recycling and recovery)]	- Solid Waste & Environmental	Low
Activity 5.8: Develop legislative tools to enforce the waste act to reduce illegal dumping. [IWMP, Goal 5]	- Solid Waste & Environmental	High

Goal 6: Investigate and implement renewable energy projects.		
Activities	Responsibilities	Priorities
Activity 6.1: Develop a policy and tariffs for integrating small-scale embedded generators onto the municipal electricity grid, with initial specific focus on rooftop solar PV, and raise awareness on the availability of this option. [Draft IDP, Strategic Objective 2, Goal 3 (Green or Renewable Energy), Installation of Solar Panels]	- Chief Financial Officer - Energy Services - NERSA Regulations Guideline	Low
Activity 6.2: Implement pilot renewable energy projects on municipal facilities, starting with rooftop embedded solar PV generation on rooftops, carports and wastewater treatment facilities.	- Energy Services - Facilities Management	High
Goal 7: Institutionalise and ensure adequate capacity and partnerships to implement the municipality's climate change response plan.		
Activities	Responsibilities	Priorities
Activity 7.1: Establish a dedicated climate change response office which is appropriately resourced and capacitated. It should start by identifying a champion within the municipality to drive the implementation plan.	- Office of the Municipal Manager - Human Resource Management - Energy Services	High
Activity 7.2: Include the coordination of the Climate Change Response Implementation Plan in the job descriptions and key performance areas of all relevant staff in the municipality.	- Human Resource Management - Energy Services	High

Activity 7.3: Monitor and evaluate GHG emissions mitigation plans by updating the 2015/2016 GHG Emissions Inventory every five years, including reporting on the Climate Change Response Implementation Plan progress and key performance indicators of staff as per 7.2.	- New Climate Change Office - GIS Practitioner as champion - Treasury graduates for data collection	High
Activity 7.4: Establish a multi-departmental Climate Change Response Implementation Plan Coordinating Committee and meet quarterly to review the plan's progress. Each relevant department must assign a specific staff member.	New Climate Change Office	High
Activity 7.5: Participate in the South African Local Government Association (SALGA)/Sustainable Energy Africa (SEA)/South Africa Cities Network (SACN), Department of Energy (DOE), Department of Environmental Affairs (DEA) and Eskom platforms, and keep informed about local and national developments around sustainable municipal energy and waste management.	New Climate Change Office	High
Goal 8: To ensure "green building" development within the municipality		
Activities	Responsibilities	Priorities
Activity 7.1: Building Control must ensure that buildings are approved to specifications, and considering if the designs meet standards which support green buildings; example natural lighting, use of solar or alternative energy, recycling of waste water, etc.	- Dept. Planning & Development	High

7.4.8 POLLUTION

By being a mineral rich area, Govan Mbeki Municipality is also a very vulnerable community with regards to pollution and consequent environmental degradation. The mining and petrochemical industries produce huge quantities of wastes in the form of solid, liquid and gases with a substantial amount of these wastes being potentially hazardous to the environment and extremely dangerous to the living organisms including human beings.

With the municipality being the hub of several mining and industrial activities within the region, plus a substantial population growth trend, Govan Mbeki Municipality generates a lot of general and hazardous waste that needs to be comprehensively controlled and managed.

7.4.9 GMM/SASOL offset project

Govan Mbeki Municipality is also working the municipality is chairing the GMM/SASOL offset project alignment committee whereby houses are insulated and converted to gas in an attempt to reduce carbon emissions and improve the general ambient air quality. MISA has appointed an intern, currently under Environmental Management, which is currently working, but not limited to the section Solid Waste Management. DEA is within the process to launch its Green deeds, Youth co-ordinator outreach program (Y-COP) 2019 within GMM, whereby they will appoint 22 people responsible for the cleaning of the environment and education and awareness within Govan Mbeki Municipality.

There are no one-year detailed operational constraints. The Municipality does not have specific environmental awareness campaigns or provide access to environmental information, besides the greenhouse gas inventory, but usually participate in the celebration of environmental days, such as International Clean-up day, arbour day etc.

7.5 BIODIVERSITY / OPEN SPACES

The section Biodiversity and Open Spaces are responsible for grass cutting, tree pruning, control of alien and invasive plant species, and cemetery management to name a few.

7.5.1 CEMETERIES

The Municipality is responsible for the management of 26 cemeteries/ grave sites. Thirteen (13) cemeteries are active, whilst thirteen (13) cemeteries are inactive as they have reached capacity. Some of the sections in in-active cemeteries example: religious sections, are partially active and therefore considered as active.

No Environmental Impact Assessment studies were done on any of the cemeteries and no Environmental Authorization is granted by National or Provincial Government in terms of the cemeteries. The municipality have limited information regarding the historical background and the number of burials at each cemetery as registers are lost or not updated during the years. No information is available of cemeteries outside the urban areas, situated on farms, informal settlements or mining areas.

Govan Mbeki Municipality is running out of burial space, especially within Secunda, Trichardt, Evander and Kinross. A new cemetery is identified within Trichardt and need to be developed with infrastructure to serve the community of region 2. Infrastructure include, ablution facilities, site office, internal roads and designated burial blocks. Environmental Authorization is required from the DARDLEA before the cemetery is officially proclaimed.

Lebohang and Leslie have very limited burial space left and it is anticipated that the current burial space in Lebohang will be exhausted by 2020. A new cemetery for Lebohang and Leslie need be identified and developed with infrastructure such as ablution facilities, site office, fencing, internal roads and designated burial blocks.

Environmental Authorization is required from the DARDLEA before the cemetery is officially proclaimed. The eMzinoni and Bethal cemetery is full and currently burials are taking place outside the official boundaries of the cemetery. The boundaries need to be extended and municipal ground is available for the extension.

New infrastructure need to be developed within the cemetery, such as ablution facilities, site office, fencing, internal roads and designated burial blocks. Environmental Authorization is required from the DARDLEA before the cemetery is officially proclaimed. eMbalenhle cemetery does have burial space available, but the cemetery need to be extended for future use. No infrastructure is available and provision need to be made for ablution facilities, site office, and internal roads and designated burial blocks.

The cemeteries within Govan Mbeki Municipality are tabled below:

Region 1 Active, In-active, Private cemeteries and grave sites					
1	Bethal old cemetery (Muslim section)	1	Bethal old cemetery (3 sections)	1	Bethal old cemetery Jewish section
2	Emandulo cemetery (New Bethal cemetery)	2	eMzinoni ext 8 cemetery	2	Farm 148/4 IS Bethal (next to Baanbreker road and ext.4 eMzinoni) grave sites
		3	eMzinoni ext. 11 cemetery		
		4	Church square Bethal (Commonwealth)		

Region 2 Active, in-active, private cemeteries and grave sites					
	GMM ACTIVE CEMETERIES		GMM IN-ACTIVE CEMETERIES/ GRAVE SITES		PRIVATE CEMETERIES/ GRAVE SITES
1	Cosmos cemetery (Evander)	1	Kinross/ Thistle Grove ext. 18 cemetery	1	Eendraght cemetery
2	Simunye cemetery (Kinross ext. 25)	2	Kinross Karee Street cemetery	2	Hervormde kerk Eendraght cemetery
3	Kinross/ Thistle Grove Muslim cemetery	3	Kinross graves site (Portion 7 of the farm Zondagskraal, next to R29)	3	Leslie Portion 14 of the farm Brakfontein 310 IR graves sites (next to Leandra landfill site)

				3	Charl Cilliers 332/3 IS cemetery

All the active and inactive cemeteries are experiencing operational problems in varying degrees, but mainly as a result of a severe equipment and personnel shortage. A draft cemetery master plan is developed, which includes a situational analysis of all cemeteries within the municipality, the identification of new candidate cemeteries, legal requirements and key performance areas for the improvement or establishing of new cemeteries. The cemetery master plan will be the guiding planning document for existing and future cemeteries.

The municipality is in need of a cemetery master plan to determine what the status quo of cemeteries are within GMM, identify new cemetery space, advise on legal requirements and determine timeframes to meet the objectives. The plan will be the guiding planning document of the section for existing and future cemeteries.

The following projects are included in the IDP and requires funding to address biodiversity and open spaces challenges as below:

Projects	Estimate Budget	Source	Timeline
Refurbishment of the <u>eMandulo</u> (new <u>Bethal</u>) cemetery ablution blocks	R500 000.00	GMM	December 2023
Trichardt Cemetery			
• Conduct an Environmental Impact Assessment at the	R 1 400 000.00	GMM	June 2024

Construction of a fully fledged Disaster Management Centre		R 25 000 000	MIG & Other	2023-2026

7.6 DISASTER MANAGEMENT PLAN (DMP)

In terms of the Disaster Management Act, 57 of 2002, each organ of state must have a disaster management plan to review, update regularly, coordinate, share and implement disaster management plans. Planning for disasters leads to organisational preparedness and readiness in anticipation of an emergency or disasters. The first version of Disaster Risk Management Plan for the GMM has been structured in such a way as to address the requirements of a Level 1 Disaster Management Plan as per the guidance of the National Disaster Management Framework (NDMF).

This document aims to be a practical and implementable plan which will ensure an integrated approach to disaster risk management for the GMM. Throughout this document, reference has been made to the Disaster Management Act, NDMF and or any other document as the case may be. It is therefore imperative to read this plan in conjunction with these documents. Each section of this plan addresses the multi-disciplinary, multi-sectoral and coordinated approach to disaster management as stipulated in the DMA.

Section 25 of the Municipal Systems Act, 32 of 2000, indicates that each municipality should adopt a “single, inclusive and strategic plan for the development of a municipality.” The plan referred to is the Integrated Development Plan. Section 26(g) of the same act dictates that the “applicable disaster management plans”, are a core component of the Integrated Development Plan of a Municipality.

Consequently, Govan Mbeki municipality developed its Disaster Management Plan, which plan will be used to guide all stakeholders – community, public, commercial, etc - of the municipality to comprehend and implement. The plan has been localised to the municipal setting and indicates the procedures and processes required to minimise the threat of disaster utilizing a developmental approach. The plan takes into consideration the crucial participation of the community and other stakeholders not only the activation of disaster response procedures but also in mitigation and development initiatives, which would lead to sustainable development.

Disaster Management Continuum

The Continuum under which Disaster Management operates. Worth noting is that Disaster management is not only reactive, but also involves actions aimed at preventing disasters, or mitigating the impact of disasters. Different line functions and departments must contribute in varying degrees to Disaster Management in the various phases of the Disaster Management Continuum. The needs identified in the corporate disaster management plan will indicate where line functions and departments must contribute.

These contributions will then be included in line function and departmental disaster management plans. Disaster management plans cover the whole disaster management continuum, and must address actions before, during and after disasters. Disaster management plans are compiled on the basis of a generic plan including standard operating procedures and best practice, and then expanded with risk-specific plans that address disaster management for special circumstances where the generic plan needs to be adapted.

OBJECTIVES OF THE DISASTER MANAGEMENT PLAN

The objectives of the Govan Mbeki municipal Disaster Management Plan are as follows:

- To regulate the disaster response to the benefit of the GMM community.
- To respond effectively to the requirements of individuals towards the protection of life and property.
- To establish those most vulnerable and at risk.
- To provide temporary sheltered accommodation, clothing and feeding arrangements for persons evacuated, or made temporarily homeless.
- To restore normality to the affected community within a reasonable timescale, dependent on the seriousness of the incident.

7.6.1 INSTITUTIONAL ARRANGEMENT

The ultimate responsibility for disaster management in the GMLM belongs with the Council in terms of section 55 (1) of the Disaster Management Act, Act 57 of 2002, while the Council under Council resolution PS20/2001 has delegated authority to the Executive Mayor to deal with disasters. The Executive Mayor will decide whether or not to declare a disaster.

The Head of the Disaster Management Centre and the Director Community Services provide support and coordination for all GMLM disaster operations. The Director Community Services will report to the Municipal Manager in the form of situational reports. GMLM will exercise full authority over disaster operations, when the disaster situation exists entirely within the boundaries of its jurisdiction unless the **disaster** is reclassified as a provincial or national disaster.

In this instance the Govan Mbeki Joint Operations Centre (JOC) will be established as per the instructions of the Head of the Disaster Management Centre. The establishment of the municipal Disaster Management Centre is a legislative requirement.

The Govan Mbeki Local Municipal Disaster Management Centre is situated at Secunda Fire Station. A Manager with the title: Manager: Disaster Management Centre is responsible for all the activities of the Centre on a corporate level.

The Manager reports directly to the Head of the Department. The Centre deals mainly with the following:

- ☐ Implementation of a Geographical Information System
- ☐ Volunteers training and Administration
- ☐ Research
- ☐ Disaster response and recovery
- ☐ Disaster risk reduction
- ☐ Early warning systems
- ☐ Disaster financing
- ☐ Managing of disasters, which include resource lists and logistical arrangements.
- ☐ Education and Awareness

If more than one municipality is affected or if there is a very serious disaster, the District disaster management centre, provincial disaster management centre (PDMC) and the national disaster management centre will be notified; but it will not necessarily assume control of all functions.

The DDMC and PDMC may decide not to take full control of the activities relative to the affected area. In covers an extended time period, the entire disaster management centre may be activated. The disaster management services is taking place with the limited resources available. The Disaster Management Advisory Forum is in place and operational. The external stakeholders are part of the forum as required by the Disaster Management Act. The Forum meets once a quarter and the attendance is good.

The awareness campaigns are conducted every quarter to educate the communities about disaster risk reduction issues. We have also established the Emergency Response Committee which deals with coordination of disaster/emergency responses in the area of GMM and is called Govan Mbeki Community Awareness Emergency Response. These committee is meeting once a quarter before the Advisory Forum.

7.6.2 POLICY STATEMENT DISASTER MANAGEMENT

The GMLM is committed to maintaining a vigilant state of disaster preparedness, response, rehabilitation and reconstruction within a safe and sustainable framework for the residents, staff, stakeholders and neighbours, because all are susceptible to disasters. Enlightened self-interest tells us that to be prepared is the greatest weapon against disaster.

In recognition of the possibility of both small and large disasters, the Disaster Management Centre devised the following plan to ensure that appropriate actions are taken in the event of a disaster. This plan provides stakeholders with a set of disaster priorities, emergency procedure guidelines, lists of personnel and geographical information (GIS). It will be updated annually to ensure accuracy and currency.

7.6.3 THE MUNICIPAL DISASTER RISK MANAGEMENT PLAN

The Municipal Disaster Risk Management Plan is designed to establish the framework for implementation of the provisions of the Disaster Management Act, 57 of 2002, as well as the related provisions of the Municipal Systems Act, 32 of 2000. The purpose of the Municipal DRM Plan is to outline policy and procedures for both the pro-active hazard and risk assessment, followed by disaster prevention (if possible), risk reduction, preparedness and the re-active disaster response, relief and rehabilitation phases of Disaster Risk Management.

The Municipal DRM Plan is intended to facilitate multi-agency and multi-jurisdictional co-ordination in both pro-active and re-active related programs. The key issues facing the disaster management unit include the lack of fully operational disaster management centre and vast rural areas which make the provision of effective services difficult, concentration of industries surrounded by residential suburbs, climate change, large number of informal settlements and insufficient of safety awareness and education.

The location of the municipality and its large manufacturing and mining sectors makes it vulnerable to various forms of disasters. Ensuring the safety of citizens it is therefore utmost important that the municipality must develop a disaster risk management plan that will protect its citizens.

The Disaster Management plan was developed in 2007 and approved by the Council. The plan is reviewed annually as required by Section 25(c) of the Disaster Management Act 57 of 2002.

7.6.4 DISASTER MANAGEMENT STRATEGY

The main strategy of all disaster management activities will be disaster risk reduction. A risk reduction strategy will ensure alignment with the strategies adopted internationally. In order to demonstrate the components, the diagramme is provided herein.

7.6.5 RISK PROFILE

The preliminary risk and vulnerability assessment performed with the aid of a questionnaire to all Councillors and Ward Councillors indicated the risks and vulnerabilities below:
Risk formula:

HAZARD X

VULNERABILITY

RISK =

CAPACITY OR MANAGEABILITY

Risks

Natural Hazards

☐ Lightning strikes causing fires and / or damage to:

☐ Power lines

☐ Commercial and industrial buildings

☐ Veld fires

Informal settlements

☐ Floods – Low laying areas in GMM, especially informal settlements

☐ Heavy snowfalls

☐ Fires in informal settlements

☐ Strong winds and tornadoes

☐ Drought

☐ Thunderstorms

☐ Diseases

Technological Hazards

☐ Hazardous material spills and accidents (roads, rail and air)

☐ Mine tremors

☐ Major accidents (especially along the N17, between Embalenhle & Secunda and Kinross & Standerton road)

☐ Sasol Gas pipeline leaks and explosions

☐ AFROX gas explosion

☐ Rail accidents and derailments

☐ Water pollution

Vulnerabilities

☐ Residents living in unsafe areas (mine dumps, along major routes, next to SASOL plant area, etc).

- ❑ Residents in informal settlements close to hazards.
- ❑ Residents not trained in disaster risk reduction actions and preparedness.
- ❑ Lack of awareness of disaster risks.

Framework for Disaster Risk Reduction

7.6.6 FIRE AND RESCUE SERVICES

The Fire and Rescue Services is situated at Community Service department parallel to Disaster Management function. The Chief fire Officer is the accounting officer for activities related to the function. The service consists of 6 operational fire stations which are situated at Bethal, Emzinoni, Secunda, Embalenhle, Evander and Leandra fire station. Govan Mbeki Fire Department is the only fire service in the province that has 6 fire stations including satellite.

The fire brigade Service Act no: 99 of 1987 gives mandate to municipalities to establish fire services to prevent and fight fires in the municipality jurisdiction. The primary objective of Govan Mbeki Fire Services is to render a community focused Emergency Management Service to minimize loss of life and property resulting from fire and other emergency incidents.

The Fire and Rescue Services is regulated by various legislations as demonstrate per the diagram:

The below challenges are faced and experienced by the Fire and Rescue services:

- ☐ Budgetary Constraint
- ☐ Personnel challenges
- ☐ Resource shortage
- ☐ Increasing risks which surpasses the available resource.

Govan Mbeki Municipality Fire Service is making strides with regards to performance regardless of shortcomings identified and attended to calls with the minimum response time.

The below table reflect on key performance activities of Fire and Rescue Services

Reactive activities emergency	Proactive activities
☐ Respond to all emergency incident ☐ Protect / Rescue life and property against fire or other danger ☐ Conduct Fire prevention inspection ☐ Provide special service and humanitarian services ☐ Assist in disaster related duties ☐ Mitigate hazardous incident	☐ Conduct Fire Prevention inspection ☐ Fire Safety Education and awareness ☐ Conduct hydrant inspections ☐ Enforce By- laws and compliance ☐ Conduct simulation exercises & drills ☐ Partake in Special events planning and standby ☐ Commenting on building plans in line with building regulation.

7.7 LOCAL ECONOMIC DEVELOPMENT (LED

It is imperative that every municipality in South Africa creates an environment that is conducive to economic development, attract investors and stimulates growth, hence Local Economic Development (LED) is a key component of the deliverables of municipalities.

Legislative and Policy frameworks provide legal status to a municipality's LED strategy and compel the municipality to drive LED in its area of jurisdiction and this should not be interpreted that the municipality should or must provide jobs and create business enterprises, but it gives municipalities the mandate to create an enabling environment that would ensure that LED does take place.

The Constitution states that municipalities must facilitate social and economic development and it is further supported through The White Paper on Local Government that endorses clear responsibilities to local authorities in terms of their LED mandates.

A number of definitions for LED has been developed over the last couple of years but it can be regarded as a strategic approach which gives municipalities the mandate to create an enabling environment to become more of a developmental organs of state to build up the economic capacity of a local area to improve its economic future and the quality of life for all.

Definition: Local Economic Development (LED) is defined as “an outcome based on local initiatives and driven by local stakeholders.” It involves identifying and using local resources, ideas and skills to stimulate economic growth and development.

The reviewed LED Strategy for Govan Mbeki Municipality is guided by the following LED characteristics:

- ❑ LED entails stakeholders in a locality being involved in different activities aimed at addressing a variety of socio-economic needs of the community.
- ❑ LED is implemented based on local competitiveness in the context of local, provincial, national and global economic dynamics.
- ❑ The facilitation approach is at the heart of municipal LED planning, implementation, monitoring and evaluation; supported by systemic thinking principles.

The LED strategy seeks to launch a fight against the triple challenges of Poverty, unemployment and inequality as it has a number of programmes referred to as pillars or development thrusts i.e. Industrialisation, tourism development, warehousing and logistics, education, skills and capacity building, Marketing and Investments promotion, and cross cutting activities e.g. urban and rural development, housing development, infrastructure development and HIV/AIDS matters.

It further seeks to achieve social cohesion as per the provisions of the national development plan (NDP) cycle of development which presupposes that the ultimate goal for development is social cohesion through formulation and implementation of focused programmes, projects and policies to achieve economic growth, poverty eradication, employment creation and rising living standards.

7.7.1 LED STRATEGIC OBJECTIVES

The Following are LED Strategic Objectives as per the LED Strategy:

- ❑ Industrialisation of the Govan Mbeki economy using current & future comparative and competitive advantages; and newly targeted industries
- ❑ Diversification of the local economy to reduce overreliance on the two complimentary sectors of coal mining and fuel from coal SASOL production
- ❑ Incubation of small businesses and cooperatives to reduce failure rate at infancy and boost SMME and agriculture contribution to the local economy
- ❑ Improvement of living standards of the local citizenry through business and employment opportunities across economic sectors and industries
- ❑ Becoming number one contributor to the provincial economy within the next 5 years

7.7.2 LED STRATEGIC PILLARS OR PROGRAMMES

Six strategic pillars or programmes was identified for the achievement of LED strategic objectives as follows:

Pillar One:

Govan Mbeki Industrialisation Programme—the programme thrust is industrialisation of Govan Mbeki using current comparative and competitive advantages of coal mining as linked to SASOL fuel production activities. In addition, the programme focuses on manufacturing activities based on sectors and industries with future growth prospects especially agro-processing and alternative energy sources. The aim is to diversify the economy and reduce dependence on the two dominant and complimentary sectors of coal mining and fuel production.

Pillar Two:

SMME and Cooperatives Incubation Programme—national and international research has shown that 2 in every 7 newly established business ventures fail at infancy. The small business and cooperatives incubation programme seeks to address the problem of high ‘infant mortality rate’ of small businesses and cooperatives. Agriculture and agro-processing have been identified as key sectors and industries that can provide leverage for SMME and cooperatives incubation. Land availability is therefore a critical factor for the success of this programme.

Pillar Three:

Tourism Hub Development Programme— in terms of the Govan Mbeki SDF, tourism has been identified as one of the key segments for promotion around Bethal/Emzinoni. Stakeholder consultation findings show that tourism within the local space is mainly business or industrial; as opposed to leisure (as evidenced by variations in room occupancy levels within a week). Focus of this programme therefore is to compliment current visitor levels by introducing leisure dimensions to the tourism product portfolio within Govan Mbeki.

Pillar Four:

Warehousing and Logistics Hub Development Programme— the strategic location of Govan Mbeki within the province and country suggests that warehousing and logistics facilities development be considered seriously. In terms of the SDF, this segment development is ear-marked for Leandra/Lebohang. Given both rail and road network of provincial, national and international significance, this programme aims at providing necessary facilities for the storage and movement of goods to various market destinations locally, nationally and internationally.

Pillar Five:

Education, Skills and Capacity Development Programme—educational and skills levels from both a human resources and entrepreneurial view point is critical for growth and development within Govan Mbeki. The programme thrust is to develop and or boost the skills and capacity of small businesses and cooperatives within Govan Mbeki through a series of interventions. Such interventions boost employee productivity and ultimately reduce fatality or business mortality rate within the locality. Focus is on both soft and technical skills. Skills around engineering for the mines and SASOL petro-chemical activities are in high demand with few locals being part of the skilled force

Pillar Six:

Marketing and Investment Promotion Programme—space marketing and investment opportunities promotion are key ingredients for the successful implementation of the LED strategy. Development and implementation of municipal investment incentive schemes, branding and marketing of investment opportunities and infrastructure development and basic services provision are key pillars of this programme.

Among others, the municipality should consider investment incentives such as;

- ☐ Tax rebates or holidays
- ☐ Reduced cost of land for development
- ☐ Reduced bureaucratic practices on land and business approvals
- ☐ Joint government and private sector infrastructure development arrangements etc.

Such schemes have the potential of attracting investors to packaged and promoted investment opportunities. Both space and product marketing are key strategies within this programme.

7.7.3 MAIN LEADING ECONOMIC SECTORS

The main leading economic sectors that contribute to the local economy within in Govan Mbeki community services are the following industries:

- ☐ Trade (including tourism),
- ☐ Mining,
- ☐ Manufacturing,
- ☐ Finance and
- ☐ Agriculture

Industrialisation programme

- ☐ Industrialisation of Govan Mbeki will focus on manufacturing of a number of products from the SASOL petro-chemical activities (thought to be around 75). In addition, mining and agriculture sectors as well as SASOL activities use and require machinery, equipment and consumables in their everyday operations. The industrial park project seeks to establish a hub for production of these and other manufacturing related products.

Tourism Development Programme

- ☐ The Bethal-Potato-Festival has both historical and political connotations and stands out as a reminder to the ills of Apartheid. This project focuses on reviving the once popular festival which was abandoned. However, project implementation must consider the past in the context of current political, economic and social realities, i.e. it should not be implemented in its old previous form.

Logistics and Warehousing Programme

- ☐ This project seeks to establish facilities or warehouses for a number of commodities that are in high demand within Govan Mbeki Local Municipality

Education and Training Programme

- ☐ Mining and SASOL petro-chemical manufacturing activities within Govan Mbeki require engineering and other technical skills. The project focuses on establishment of Mpumalanga University Satellite Campus on engineering related programmes

SMME/COOPS Incubation

- ☐ This project seeks to establish a “farming community” housing animal rearing, crop production and related agro-processing activities. It is a learning centre of excellence with many services offered to emerging SMME and cooperative enterprises. Acquisition of a sizeable farm is critical for the establishment of this ‘Centre of Excellence’

The enterprise and supplier development programme

- ☐ The programme is relevant to the municipality’s efforts towards job creation. Note should be taken that SMME’s contribute 60% towards employment, hence the need to develop more to enable a production linked training to unemployed.

The Business Development Hub

- ☐ The programme will focus on extending the value chain of CSI programmes emanating from local big business.
- ☐ The hub will be to locally work with the community to serve as an extension of the operations of the LED Forum by engaging the industries to ensure that employment is coordinated from the community to service the industries.

The contractor support and development programme (BBBEE Initiative)

- ☐ There is a compelling need to elevate development of previously disadvantaged individuals and enterprise, and leadership is required to establish the framework for the development of previously disadvantaged individuals and enterprises to stimulate the role of industry and stakeholders for meaningful empowerment and improved contractor performance.

Capacity building to small business

- ☐ Skills training in collaboration with other agencies

Coordination of citizen participation to promote developmental local government

- ☐ LED Forums
- ☐ Working Groups

7.7. 4.1 LED INITIATIVES

Program/Initiative	Description	Partners
☐ Township and Rural Entrepreneur program. ☐ Carbon Capture Utilisation and Storage ☐ Box2Boss program ☐ GMM Local Economic Reconstruction and Recovery Plan ☐ Economic Summit	☐ SMME support ☐ Explore the possibility of carbon capture and storage facility in GMM ☐ Provision of finance and equipment to local SMME' by the project sponsor ☐ Plan to assist distressed local SMME's for Covi/d 19 grant application, referrals and support ☐ Increase in economic growth/ Stakeholder Relations	☐ National Department of Small business Development. Gert Sibande District Municipality ☐ Council for Geoscience ☐ CocaCola Bevearages South Africa ☐ National Department of Small Business Development and Gert Sibande District Municipality. ☐ Public/ Private Stakeholders

7.7.5 SLP PROJECTS

Mineral and Petroleum Resources Development Act, Act 28 of 2002 requires that the mining houses must invest in communities where they operate and their labour sending areas through projects that attempts to address socio-economic challenges, poverty, underdevelopment and local economic development in general.

The identified projects are listed below:

No	Project	Source of funding	Budget
1.	Charl Cilliers Water pipeline	Sasol	R 42 000 000
2.	Retro fit of High mast lights in Lebohang	Thungela Resource Limited.	R1 300 000
3.	Refurbishment of cemeteries in Lebohang (TBC)	Thungela Resource Limited	R1,150 000
4.	Zamelani Abadala Project	Thungela Resource Limited	R3,052 255
5.	Houses EXT.13 Emzinoni	Overlooked/Sudor Coal	R 4 400 000
6.	Maths and Science project	Thungela=Isibonelo	R 5 000 000
7.	Internship Programme	Evander Gold Mines	R300 000
8.	Construction of Emzinoni hall	Glencore/Umcebo	R 1 ,500 000
9.	Refurbishment of Sijongile Ndamase hall	Evander Gold Mines	R9 000 000
10.	Fencing of Joe Qcabi Lapa		
11.	Construction of mini waste transfer station	Thungela=Isibonelo	R8 000 000
12.	Material Procurement for upgrading of Roads in Bethal	Overlook Colliery	R3 000 000
13.	Material Procurement for upgrading of roads in Emzinoni		R1 000 000

7.7.6 Expanded Public Works Programme

The Expanded Public Works Programme (EPWP) has its origins in Growth and Development Summit (GDS) of 2003. At the Summit, four themes were adopted, one of which was 'More jobs, better jobs, decent work for all'. The GDS agreed that public works programmes 'can provide poverty and income relief through temporary work for the unemployed to carry out socially useful activities.

The Programme is a key government initiative, which contributes to Governments Policy Priorities in terms of decent work and sustainable livelihoods, education, health; rural development; food security and land reform and the fight against crime & corruption. EPWP subscribes to Outcome 4 which states "Decent employment through inclusive economic growth."

In 2004, the EPWP was launched and is currently still being implemented. The EPWP is a nationwide programme covering all spheres of government and state-owned enterprises. The Programme provides an important avenue for labour absorption and income transfers to poor households in the short to medium-term. It is also a deliberate attempt by the public sector bodies to use expenditure on goods and services to create work opportunities for the unemployed. EPWP Projects employ workers on a temporary or on-going basis either by government, by contractors, or by other non-governmental organisations under the Ministerial Conditions of Employment for the EPWP or learnership employment conditions.

7.7.7 Community Work Programme

The Community Work Programme (CWP) provides an employment safety net. It aims to supplement existing livelihood strategies by providing a basic level of income security through work.

The CWP was designed to address high unemployment and contributes to key strategic goals of government in addressing poverty and unemployment. It is based on the recognition that policies to address unemployment and create decent work will take time to reach people living in marginalised areas with few opportunities.

The CWP does not replace government's social grants programme but supplements this. The programme is targeted at unemployed and underemployed women and men of working age. The programme aims to give those willing and able to work the opportunity to do so, and afford them the dignity and social inclusion that comes from this. What makes the CWP different is that it is also a community programme.

7.8 ECONOMIC RECOVERY PLAN

Govan Mbeki economic growth faces several infrastructural challenges which undermines development. The economy is export orientated with limited production, fiscal and knowledge linkages with the rest of the economy. These sectors while making a significant contribution to the overall increase in economic output, have limited impact in unemployment. They are also characterised by very weak linkages with the rest of the economy.

The lack of institutional will and lack of funding to implement the Local Economic Development Strategy and the Development Investment incentives policy is one of the major factors behind low levels of inward investments, economic growth, lack of beneficiation and a poor growth of the entrepreneurial sector due to non-existence of local beneficiation policy.

The latter is a key factor to the graduation and integration of the informal to the formal economy. South Africa, like all countries in the world, is vulnerable to disasters which may be natural events or unnatural events, and in this case South Africa is facing the Covid 19 pandemic.

These disasters often happen quickly and without any warnings which may leave a trail of socio-economic devastation. The current Covid-19 disaster has not only altered or negatively impacted the way that people live their lives but threatens to destroy the economic activities throughout the country.

The low economic growth experienced before the national lockdown and the shutting down of economic activities further negatively impacted to the economy. This means that Govan Mbeki Local Municipality together with all the stakeholders should adopt economic reforms and interventions to restart the local economy. The collapse of the local economy does not only pose a threat to the community's socio-economic conditions but also for the municipality's base for revenue collection.

Since Covid-19 has disrupted the local markets, it is then very important that the government, businesses, households and individuals collectively take action to tackle the challenges to salvage the economy. Subsequently, government departments have put measures in place not only to save lives, but also to boost our ailing economy. However, it is Important that Govan Mbeki Municipality develops and adopt strategic plans targeted and geared towards growing the economy.

This economic recovery plan intends to guide the efforts that will target resources and stakeholders that are important in reducing the negative impact brought upon by the Covid 19 pandemic in the local economy.

7.8.1 PURPOSE OF THE ECONOMIC RECOVERY PLAN

The purpose of local economic development (LED) is to build up the economic capacity of a local area to improve its economic future and the quality of life for all. It is a process by which public, business and nongovernmental sector partners work collectively to create better conditions for economic growth and employment generation. By definition, local economic development interventions focus on enhancing competitiveness, increasing sustainable growth and ensuring that growth is inclusive.

LED encompasses a range of disciplines including physical planning, economics and marketing. It also incorporates many local government and private sector functions including environmental planning, business development, infrastructure provision, real estate development and finance.

Govan Mbeki Municipality's Economic Recovery Plan is focused on outlining response with actions on the following:

- ❖ An assumption of how the businesses impacted by Covid-19 disaster in the short and long term
- ❖ Identification of economic sectors that are at risk of collapse due to Covid-19.

- ❖ Identification of stakeholders that are concerned with economic recovery programmes such as DSBD TREP
- ❖ Programme, Activities or programmes to be implemented in order to alleviate the impacts on the local economy
- ❖ Align with the actions of Province and National Departments in terms of policies and plans.

The Economic Recovery Plan is developed in a way that it does not interfere with the financial viability of the Municipality. The plan intends to invest in the economic growth to increase municipal revenue base. It must be noted that the municipality was not prepared to deal with such an economic disaster and this plan is therefore reactive rather than proactive in nature.

7.8.2 ECONOMIC RECOVERY STAKEHOLDERS AND ROLES

The Govan Mbeki Economic Recovery Plan requires local stakeholders to be involved. Therefore, an awareness engagement programme shall be put in place to solicit their buy-in. The following are the identified stakeholders:

Government	Private Sector	Civil Society	Agencies
DSBD	Mining Houses	Traditional leaders	SEDA
DEDET	Banking	Faith base organisation	NYDA
DARDLEA	Retail	NPO's	NEF
COGTA	Suppliers	NGO's	SEFA
Prov.Treasury	SMME's	LEDf	MEGA
Dept. Land Affairs	Cooperatives	Labour	IDC
GSDM			DBSA
Tourism			SALGA

ROLES AND RESPONSIBILITIES OF THE STAKEHOLDERS

Government	Business	Capacity Building	Private Partners
- Prepare plans and implement - Financial support linkages and/or Ref - Communicate with the stakeholders - Coordinate with other spheres of government - Monitor the implementation - Provide procurement opportunities - Confirmation of local businesses to potential funders	- Compliance to the requirements - Submission of applications - Attend capacity building workshops required - Discounts on bulk-buying	- Provision of programmes - Assistance with registration	- Financial/Non Contribution - Local Procurement

It is important to note that the identified stakeholder roles are not limited to the above. Stakeholders may be in a position to offer and/ or contribute more according to their capacity, and as such, this plan will be updated on an on-going basis as and when such information is received.

7.8.3 TARGETED ECONOMIC SECTORS AND ACTIVITIES

The Economic Recovery Plan is not attempting to respond to all economic sectors but those that were extremely affected by Covid 19 pandemic.

These sectors are mainly linked with the main economic activities in the area. Small businesses operating in following sectors will be prioritized by the plan:

- ❖ Tourism businesses (Guest Houses, Bed & Breakfasts, Hotels and Restaurants)
- ❖ Locally owned Spaza Shops
- ❖ Locally owned Township-based businesses (offering variety of services e.g. Sishanyama, carwash, butchery, textile and Beauty Parlours)
- ❖ Agriculture
- ❖ Manufacturing
- ❖ Mining
- ❖ Automobile
- ❖ Transport
- ❖ Construction

Small businesses within Govan Mbeki Municipality operating in the identified sectors will be considered for referral to various financial institutions or non-financial support as outlined under interventions below. However, submission of application to various referred funding institutions for assistance will not mean automatic approval as these SMMEs must adhere to the set requirements per sector.

It must be noted that the above interventions are complemented by a number of programmes currently being implemented by various government departments. The municipality is further assisting to facilitate these programmes. Government agencies and departments will be engaged to assist in the implementation of non-financial and financial assistance where possible.

Gert Sibande District Municipality will also be engaged in order to align our programmes for a more meaningful impact of the programmes to be implemented.

Due diligence will be undertaken to ensure that the plan becomes a success. Constant engagements with various stakeholders will play a central in order to align our activities for a bigger impact. The resuscitation of the local economy will be achieved if everyone procures locally as much as possible to avoid local economic leakage while ensuring maximal rotation of money that will ultimately create employment opportunities for the locals. The above Economic Recovery Plan is subject to Council Approval.

7.9 Rural Development

Govan Mbeki Municipality is considered to be peri-urban, hence the municipality is not part of the Comprehensive Rural Development Programme (CRDP) project roll out phases within Mpumalanga. It however needs to spatially accommodate the execution of the CRDP by promoting agrarian transformation, rural development and land reform.

7.10 TRANSVERSAL ISSUES

Transversal Unit is located in the Office of the Executive Mayor under the Special Projects Office, and comprises of the following 4 components:

- ❖ Gender and Senior Citizens
- ❖ Youth and Children
- ❖ Persons with Disabilities
- ❖ HIV/AIDS and Moral Regeneration

7.10.1 OBJECTIVES OF THE TRANSVERSAL UNIT

- ❖ To coordinate and facilitate transversal issues within the municipal jurisdiction;
- ❖ To accelerate government's response towards issues of the vulnerable groups;
- ❖ To mainstream issues of the vulnerable groups into all processes, policies and programmes of the Govan Mbeki Municipality;
- ❖ To ensure that issues of the vulnerable groups are considered and prioritised in all planning and budgeting processes; and
- ❖ To advocate for the rights of the vulnerable groups within the municipal jurisdiction.

7.10.2 DEFINITION OF TRANSVERSAL ISSUES IN LOCAL GOVERNMENT

Irrespective of the sector focus, delivery modality (e.g. budgetary aid or projects) geographic location of a municipality, there are a number of critical cross-cutting development issues which must be appropriately addressed throughout the project management cycle.

These are issues that touch on general principles such as good governance, democracy and human rights. Transversal issues also regarded as vulnerable groups are defined as part of these cross-cutting issues. Within the context of local government in South Africa, the following are termed transversal issues:

- ❖ Youth
- ❖ Gender
- ❖ Persons with Disabilities
- ❖ Senior Citizens
- ❖ Children
- ❖ HIV/AIDS

7.10.3 KEY LEGISLATIVE REQUIREMENTS

- ❖ Constitution of the Republic of South Africa, 1996
- ❖ Draft National Youth Policy, 2020 – 2030
- ❖ Promotion of Equality and Prevention of Unfair Discrimination Act, 4 of 2000
- ❖ White Paper on the Rights of Persons with Disabilities 2015
- ❖ Older Persons Act, 13 of 1996
- ❖ Children's Amendment Act, 41 of 2007
- ❖ HIV/AIDS, TB and STIs National Strategic Plan, 2017 - 2022
- ❖ Municipal Structures Act, 117 of 1998
- ❖ Municipal Systems Act, 32 of 2000
- ❖ Municipal Financial Management Act, 56 of 2003

7.10.4 YOUTH

Youth development in the Govan Mbeki municipal area should be guided by the vision of a non-racial and non-sexist society that is built through transformation, reconstruction and development.

As a consequence, the overall purpose and responsibility of the Govan Mbeki Municipality's Youth Component is to serve all young people and ensure the mainstreaming of youth development in the broader planning agenda of the Govan Mbeki Municipality.

7.10.4.1 YOUTH : Current status quo

The Youth Component comprises of the Youth Coordinator who is responsible for the coordination and facilitation of youth development programmes within the municipal area. Based on the mandate of the Youth Component, the Govan Mbeki Municipality Youth Policy defines young people as those aged between 14 and 35 years. This is in consistency with the definition of the National Youth Policy and the African Youth Charter.

The Govan Mbeki Youth Council was launched in 2019, and convenes its meetings quarterly to implement the Youth Summit resolution. The community survey of 2011 by Statistics South Africa pitched the Govan Mbeki youth unemployment rate at 34.4%.

The community survey of 2016 by Statistics South Africa recorded the Govan Mbeki youth population at 41.1%.

From the statistical information above, it is determined that a large percentage of the population in Govan Mbeki are young people. There are multiple and complex causes behind youth unemployment in the Govan Mbeki municipal area. Among them, is the quality and relevance of education, inflexible labour market and regulations which in turn create a situation of assistance and dependency.

Thus, the primary responsibility of the youth component is to coordinate and facilitate youth development programmes which should amongst other critical issues include the following:

- ❖ Youth unemployment;
- ❖ Economic participation and transformation;
- ❖ Training and skills development;
- ❖ Lack of training facilities;
- ❖ Lack of recreational facilities/activities;
- ❖ Alcohol and drug abuse;
- ❖ Teenage pregnancy;
- ❖ Crime;
- ❖ Nation-building and social cohesion;
- ❖ Proper coordination and facilitation of youth programmes in conjunction with the National Youth Development Agency, Govan Mbeki Youth Council, key sector departments and other organs of state, business and social partners.

7.10.4.2 Plan in addressing the challenges

- ❖ Cluster youth and children components into one component;
- ❖ Enterprise education and training roundtables;
- ❖ Educational support and skills development seminars;
- ❖ Job preparedness conferences;
- ❖ Entrepreneurship development and life skills symposiums;
- ❖ Encourage mass participation of young people in sports, arts and culture activities;
- ❖ Establish the youth bursary policy for excelling disadvantaged young people;
- ❖ Organise awareness campaigns on alcohol and drug abuse;
- ❖ Organise teenage pregnancy campaigns through motivational talks.

7.10.5 GENDER

The Constitution of the Republic of South Africa, 1996 provides for a democratic system of government which is committed to achieve equality between men and women. Accordingly, there are numerous compelling reasons as to why local government must ensure that gender policies, practices and programmes contribute to achieving gender equality.

7.10.5.1 GENDER :Current status quo

The Gender Component is currently championed by the Coordinator Gender, Elderly and Disability. The Govan Mbeki Women's Forum and Multiparty Women Caucus are critical structures tasked with the responsibility to ensure integration of a gender equality perspective at all stages and levels of policies, practices, programmes and projects in the municipal environment and area.

Although the above strategic structures are in place, they need to be empowered on effective coordination and monitoring mechanisms.

The Govan Mbeki Gender Policy is in place, and its vision is that of a society in which women and men are able to realise their full potential and to participate as equal partners in creating a just and prosperous society for all. According to the community survey of 2016 by Statistics South Africa, the gender distribution for Govan Mbeki is mostly evenly spread out with males at 52% and females at 48%.

In terms of the gender-based violence statistics, 51% of women in South Africa say they have experienced GBV, with 76% of men saying they have perpetrated GBV at one stage in their lives.

The over-arching goal of GMM's Gender Component is to coordinate, implement and address amongst other key issues the following:

- ❖ Gender discrimination and equality;
- ❖ Gender-based violence;
- ❖ Empowerment of both genders;
- ❖ Involvement of men in mainstreaming gender issues to enable them understand what gender mainstreaming is about;
- ❖ Effective coordination and facilitation of gender issues together with Govan Mbeki Women's Forum, Multiparty Women Caucus, key sector departments and other organs of state, business and social partners.

7.10.5.2 Plan in addressing the challenges

- ❖ Cluster gender and senior citizens components into one component;
- ❖ Relaunch of Govan Mbeki Women's Forum and Multiparty Women Caucus;
- ❖ Host educational dialogues on gender-based violence;
- ❖ Mobilise awareness campaigns and pickets against gender-based violence;
- ❖ Convene roundtables and protests in support of victims of gender-based violence and femicide;
- ❖ Petition political principals and senior management for gender parity in the workplace;
- ❖ Entrepreneurship development and life skills women seminars;
- ❖ Enterprise education and training roundtables;
- ❖ Educational support and skills development seminars;
- ❖ Job preparedness conferences.

7.10.6 PERSONS WITH DISABILITIES

Historically, disability issues have been addressed in a disjointed manner in South Africa. This has been one of the critical factors contributing to the marginalisation of persons with disabilities, and the dire poverty of the circumstances in which the majority are entangled in.

7.10.6.1 PERSONS WITH DISABILITIES: Current status quo

The Disability Component is currently championed by the Coordinator Gender, Elderly and Disability. The Govan Mbeki Disability Forum is functional and also the Govan Mbeki Disability Policy is in place whose vision is to protect, serve and empower persons with disabilities so that they have the same opportunities as all other citizens to reach their full potential and a barrier-free society. The national disability prevalence rate is 7.5% in South Africa. Disability is more prevalent among females compared to males, which is at 8.3% and 6.5% respectively.

The community survey 2016 by Statistics South Africa recorded the following disability figures in Govan Mbeki:

❖ Seeing	162
❖ Hearing	108
❖ Communicating	118
❖ Walking	1087
❖ Remembering	233
❖ Self care	923

Consequently, Govan Mbeki Municipality's disability programme should among other key issues include the following:

- ❖ Universal access for persons with disabilities;
- ❖ Necessary support is given to persons with disabilities i.e. assistive devices;
- ❖ Employment opportunities are created for persons with disabilities in order to reach the 7% national policy target;
- ❖ Access to economic, education, skills development and proper housing;
- ❖ Access to information for instance sign language and braille documents;
- ❖ Efficient coordination and facilitation of disability issues together with the Govan Mbeki Forum for Persons with Disabilities, key sector departments and other state organs, business and social partners.

7.10.6.2 Plan in addressing the challenges

- ❖ Establish disability component;
- ❖ Relaunch of Govan Mbeki Disability Forum;
- ❖ Advocate for the necessary support i.e. assistive devices handover campaigns;
- ❖ Mobilise awareness campaigns, roundtables and pickets against the discrimination of persons with disabilities;
- ❖ Entrepreneurship development and life skills disability seminars;
- ❖ Enterprise education and training roundtables;
- ❖ Job preparedness conferences;
- ❖ Petition political principals and senior management for employment opportunities in the workplace.

7.10.7. SENIOR CITIZENS

Section 9 of the Constitution of the Republic of South Africa, 1996 stipulates that senior citizens have the right to participate in community life in any appropriate position, participate in structures and associations for senior citizens, live in an environment suitable to their changing abilities, and access opportunities that promote their social, physical, mental and emotional wellbeing.

7.10.7.1 SENIOR CITIZENS: Current status quo

The Disability Component is currently championed by the Coordinator Gender, Elderly and Disability. The Govan Mbeki Senior Citizens Forum is in place and functional. Govan Mbeki Municipality is currently still adhering to senior citizens issues using the national calendar of events i.e. participating in active ageing events and in observing the October month as the national month for senior citizens.

The current challenges include wheel chair access to public buildings and provision of assistive devices when necessary. In South Africa, population estimates indicate that the proportion of senior citizens (60 years and older) has grown from 7.6% in 2002 to 9.1% in 2020.

In view of the above constitutional imperative, Govan Mbeki Municipality's senior citizens programme should among other key issues comprise the following:

- ❖ Maintenance and protection of the rights of senior citizens;
- ❖ Combat abuse of senior citizens;
- ❖ Participation of senior citizens in active ageing events;
- ❖ Proper coordination and facilitation of senior citizens issues in consultation and unison with the Govan Mbeki Senior Citizens Forum, key sector departments and other state organs, business and social partners.

7.10.7.2 Plan in addressing the challenges

- ❖ Cluster senior and gender components into one component;
- ❖ Reinforce local and district active ageing events/games by assisting with the essential attire;
- ❖ Procure wheel chairs for municipal buildings where necessary;
- ❖ Support centres of senior centres i.e. land question and other necessities;
- ❖ Celebrate all local, district, provincial and national senior citizens events.

7.10.8 CHILDREN

The Children Act, 2004 explicitly states that the interests of children and young people are paramount in all considerations of welfare and safeguarding children, and that safeguarding children is everybody's business.

7.10.8.1 CHILDREN: Current status quo

The Children Component does not have the Coordinator who is specifically championing its issues, but currently the Youth Coordinator is assisting. The Govan Mbeki Junior Council was launched in 2019 with the financial assistance of Gert Sibande District Municipality, but it is not functional.

In terms of the service delivery priorities, GMM participates in the national and provincial Nelson Mandela Children's Parliaments respectively. Similarly, children make up 35% of the total South African population.

In consequence, Govan Mbeki Municipality's children programme should amongst other key issues include the following:

- ❖ Cluster children and youth components into one component;
- ❖ Combat abuse, maltreatment and exploitation of children;
- ❖ Advocate for psychological support to vulnerable children and their families;
- ❖ Mobilise for material assistance to child headed households;
- ❖ Mobilise communities to protect, support and care for vulnerable children;
- ❖ Ensure effective coordination and facilitation of children issues and resuscitate the Govan Mbeki Junior Council working together with key sector departments, Childline, business and social partners.

7.10.8.2 Plan in addressing the challenges:

- ❖ Cluster children and youth components into one component;
- ❖ Revive the Govan Mbeki Junior Council;
- ❖ Resuscitate the Govan Mbeki Back to School campaign which is aimed at assisting needy pupils/children with school uniform;
- ❖ Mobilise communities and business for material assistance to child headed households;
- ❖ Convene child protection month awareness campaigns.

7.10.9 HIV/AIDS

South Africa has made important gains in responding to the epidemics of human immunodeficiency virus, tuberculosis and sexual transmitted infections, but the local response needs to be accelerated if the country is to achieve the global health community goal of ending these epidemics as public health threats by 2030.

Thus, the local HIV, TB and STI response necessitates a multi-sectoral intervention and an all-encompassing monitoring and evaluation system of all implementing agencies (public, private, civil society and development partners) to ensure optimal utilisation of available resources and continual learning through shared experiences.

7.10.9.1 HIV/AIDS Current status quo

The HIV/AIDS Component is championed by the HIV/AIDS Coordinator. The Local Aids Council is in place, and its aim is to develop a coherent strategy and action plan to deal with HIV/AIDS in the municipal area.

Moreover, the LAC which is chaired by the Executive Mayor should coordinate local efforts to ensure that services are properly delivered and to monitor effectiveness.

7.10.9.3 Plan in addressing the challenges

- ❖ Cluster HIV/AIDS and moral regeneration into one component;
- ❖ Increase HIV counselling and testing, TB, Pap Smear and Covid-19 screening, and STIs awareness campaigns;
- ❖ Intensify HIV awareness campaigns with emphasis on prevention strategies such as medical male circumcision, condom distribution and usage;
- ❖ Encourage and support those taking their ARVs and TB medication;
- ❖ Proper coordination and facilitation of HIV/AIDS issues together with the Govan Mbeki Local Aids Council, key sector departments, business and social partners.

CHAPTER 8

INTERGOVERNMENTAL GOVERNMENTAL DEVELOPMENT PERSPECTIVE

The municipality fosters relations with other spheres of government and participates in various intergovernmental activities to promote a closer working relationship between the various spheres of government. This chapter outlines the alignment of the Strategic Development Objectives and Strategies of the Govan Mbeki Municipality with those of National and Provincial Government. The short- and long-term investment commitments of National and Provincial Government Departments on infrastructure development and service improvements within our municipal space are also reflected in this chapter.

Intergovernmental Relations takes place in terms of our Constitutional Mandate and other relevant legislation, most importantly the Intergovernmental Relations Framework Act. The Municipality strives to uphold its legislative authority and co-operative governance as required by the Constitution and other relevant legislation.

In doing so, the municipality maintains good co-operative and intergovernmental relations with its district and neighbouring municipalities, provincial authority, national government and intergovernmental agencies. The Municipality participates in various Intergovernmental Relations activities in the district and at provincial level. Municipal officials and Councillors are delegated to serve on the various forums as listed per below table:

8.1 INTERGOVERNMENTAL RELATIONS FORUMS:

INTERGOVERNMENTAL RELATIONS FORUMS:		
Forum	Frequency	Department
Municipal Managers Forum	Quarterly	Office of the Municipal Manager
SALGA Working Groups, NCOP, FFC	Quarterly	Relevant Department and Portfolio Councillor
Premiers Co-ordinating Forum (PCF)	Quarterly	Office of the Executive Mayor and Office of the Municipal Manager
MinMay	Quarterly	Executive Mayor

CHAPTER 9: IDP IMPLEMENTATION

9.1 LONG TERM FINANCIAL SUSTAINABILITY (LTFS)

Municipalities still has a role to play in turning around the economy through the resources allocated in the medium-term revenue and expenditure framework that it contributes towards the alleviation of unemployment, Social infrastructure improvement, enhancing of economic growth reforms and the discussion paper termed the Economic Transformation, support urgent matters of education and health by provinces, poverty and inequality challenges.

GOVAN MBEKI MUNICIPAL FINANCE STRATEGIC GOALS AND OBJECTIVES

9.1.1 Long Term Financial Sustainability (LTFS)

The purpose of the long-term financial strategy is to ensure that the municipality is financially sustainable and able to respond to the Municipal Growth and Development Strategy, policies, priorities and infrastructure needs.

The objectives of the LTFS are:

- Prudent and sound medium-term to long-term financial framework.
- Resilience and able to absorb future shocks.
- Ensure sustainability of services.
- Investment in infrastructure.
- Adequate maintenance of infrastructure.
- Identify strategies that will ensure long-term financial sustainability:
- Operational efficiency initiatives,
- Sustainable and alternative revenue streams.
- Respond to the long-term strategy of the municipality.
- Improve the municipality's credit rating.

Owing to the limited revenue base (municipal rates, user charges and grants/subsidies) the Municipality has to be proactive in the minimization of costs and the maximisation of efficiencies in order to respond to increased service delivery requirements.

The strategies and measures already implemented to ensure sustainability are:

- The Budget Policy;
- The Revenue Enhancement Strategy;
- Budget Principles and guidelines; and
- The Cash-Flow Management Intervention Initiatives.

Long-term Financial Model (LTFM)

The long-term Financial Model essentially informs the compilation of the MTREF with the emphasis on affordability and long-term sustainability. Although the LTFM is predominantly a financial planning tool to ensure long-term financial sustainability for the organisation, the financial planning process and LTFM run parallel to ensure the strategies and direction of the Municipality are at all times informed by best practice.

The municipality is in a process of reviewing its plans and developing a long-term financial strategy.

GOVAN MBEKI MUNICIPALITY: OVERALL KEY FINANCIAL CHALLENGES:

- ☐ Govan Mbeki Local Municipality have significant challenges in revenue collection with significant amounts of money owed to the municipality by its clients. The debt balance has accumulated over a period of years due to lack of effective controls in revenue management and credit control processes
- ☐ An unrelenting debtors book and inaccurate client details
- ☐ Ghost vending , unmetered areas
- ☐ Non payment by consumers
- ☐ Insourcing of certain function that were done externally (Cut off, meter inspection and installation)
- ☐ The rising cost of bulk purchase on Electricity vs Nersa approval of sales
- ☐ Poor spending of the conditional grants that causes the reduction of allocation to GMM
- ☐ Growing dependency of intergovernmental fiscal grants, for everyday operations;
- ☐ Non elimination of irregular, unauthorized, fruitless and wasteful expenditure;
- ☐ Poor audit outcomes
- ☐ High Electricity and water distribution losses
- ☐ By pass of meters by internal staff

THE FUTURE PLANNING AND DEVELOPMENT OF THE MUNICIPALITY

To achieve financial sustainability, the institution must implements short , medium and long term strategies.

- ☐ There is a need for renewed attitude towards revenue management, good governance and financial management to support service delivery.
- ☐ The survival and sustainability of the municipality will be influenced by its ability to levy consumer charges and collect for such charges on all properties within its area of jurisdiction.
- ☐ It is imperative that Credit Control Policy be implemented without fear and favoritism across all the spectrum of the municipality.

To achieve financial sustainability, the institution must implement short, medium and long term strategies

SHORT-TERM STRATEGIES AND MEDIUM STRATEGIES

- ☐ Effective cash-flow management, forecasting and monitoring. Effective management of operating and capital expenditure.
- ☐ Increase revenue by implementation of a Revenue Enhancement Strategies
- ☐ Prepare quarterly financial statements
- ☐ Investigation and finalisation of the financial system migration
- ☐ Increase campaigns for payment of services
- ☐ Reduction of expenditure mainly on Energy section
- ☐ Review the outsourcing of meter audit, installation and cut-off
- ☐ To signed repayment plan with Eskom and Randwater

LONG TERM STRATEGIES

- ☐ Improve revenue and have funded budget
- ☐ Improve the adherence to legislative, governance and institutional development framework.
- ☐ Improve financial performance and sustainability over the long term.
- ☐ Ensure that the citizens of the municipality are provided with acceptable levels of services.
- ☐ Maintain the existing assets and infrastructure base by ensuring adequate repairs and maintenance is undertaken.
- ☐ Achieve Unqualified audit outcome.
- ☐ Enable the local economic development initiatives and sustainable employment creation.
- ☐ Development of a credible and cash-backed Budget.

FINANCIAL VIABILITY -PRIORITIES FOR 2022- 2027

9.1.2 2022/2023 MTREF Policy statements and guidelines

The IDP is the primary point of reference for preparation of the MTREF. Accordingly, the budget addresses the following strategic objectives:

- Provide basic services, roads and storm water.
- Economic growth and development and job creation.
- Sustainable communities with clean, healthy and safe environments and integrated social services.
- Participatory democracy and Batho Pele.
- Promote sound governance.
- Ensure financial sustainability.
- Organisational development and transformation.

The **2022/23** MTREF reflects the reality of the current budgetary pressures. The following budget guidelines directly informed the compilation of the budget;

- Scale down on baseline allocation as indicated by National Government.
- Approve a balanced budget and create cash surplus over the Medium-term.
- The budget must be funded in accordance with the funding compliance procedure set out in MFMA Circular 42 and the Funding Compliance Guideline.
- Reprioritise competing needs within the allocations.
- Ensure the timely delivery of the capital programmes (eliminate under spending of capital budget).
- Tariff and Property Rate increases should take into account the need to address infrastructure backlogs and other strategies and affordability of services.
- The percentage salary increases according SALGA guideline
 - **2022/23 Financial Year – 4.8%**
- Special attention needs to be given to efficiency gains and the principle of value for money.
- Filling of vacancies should be reviewed within the available budget and service delivery needs of the institution.

9.1.3 ALIGNMENT LINKING PLANNING , BUDGETING AND IMPLEMENTATION TO THE INTEGRATED DEVELOPMENT PLAN

IDP Review and stakeholder participation

The IDP has been prepared for the medium term to 2022/23. In the current financial year the IDP has /undergone the review as required by the Municipal Systems Act and MFMA. Community needs and inputs were sought and the stake holders were consulted. The IDP takes cognizance of the National, provincial and district priorities.

The key focus and IDP priorities are:

- ☐ To provide , improve and sustain infrastructure
- ☐ To promote socio economic development in rural and urban areas
- ☐ To enable and speed up institutional transformation
- ☐ To strengthen democracy and good governance
- ☐ To improve and sustain financial management

IDP link to the budget

In compliance with Systems Act of 2000 and the Municipal Finance Management Act the budget is informed and aligned to the IDP priorities. The budget will be fully aligned to the IDP. **The process for linking planning, budgeting, implementation, monitoring and reporting are illustrated as per the below diagram:**

9.1.4 EXECUTIVE SUMMARY

The preparation of the **2022/2023** Budget and Medium-Term Revenue and Expenditure Framework (MTREF) is based on the guidelines contained in the MFMA **Circular No.115** issued by National Treasury.

The other fundamental principles underlying the preparation of this draft budget is the application of sound Financial Management to ensure Financial Viability, and that municipal services provide sustainable, economically and equitable to all communities.

The main challenges experienced during compilation of the annual budget 2022/2023 MTREF can be summarized as follows:

- Cash flow constraints
- The increased cost of bulk purchases (due to increases imposed by Rand Water and Eskom).
- The need to re-prioritise expenditure within the existing resource given the cash flow realities and declining cash position.
- Unavailability of own-funding for capital budget; and
- Inability to raise capital/borrowing.

The following principles and guidelines will directly inform the annual budget 2022/2023 MTREF:

- The budget of 2021/2022 budget was used as baseline and was appropriate as upper limits.
- CPI guidelines from National Treasury except where specific sector increases are prescribed.
- Ensuring that drinking water meets the required quality standards at all times
- Identification of inefficiencies and elimination of no-priority spending

- Securing health of the assets by increasing the spending on repairs and maintenance
- Developing strategies in reducing water and electricity losses
- Developing tariffs that are cost reflective
- Maintaining a long financially sustainable environment
- Protect the poor from the worst impacts of the economic downturn at all times
- Job creation and poverty reduction

For the municipality to be able to deliver efficient and effective public services within the existing fiscal purse, tough decisions will have to be taken on the expenditure side. Priority ought to be given to the following areas:

- A performance culture where all the people are held accountable for their actions, accompanied by clear, measurable outcomes related to key developmental priorities.
- Limit outsourcing of work
- Procurement reforms
- Limit wastage and inefficient systems
- Strengthen the collection to reduce the debt book

The budget has been prepared with a vision of sustaining the financial capability of the municipality in the long term. A special effort was taken to improve the credibility of the budget. The tariffs have been set in line with tariff policy and the following factors were considered:

- The current collection rates
- The affordability of the community
- The social package
- The direct cost drivers

The tariffs for service charges have been increased as follows:

- Water 8.8%
- Electricity 7.47%
- Rates 4.8%
- Waste management
 - o Refuse removal 4.8%
- Sewer 8.8%
- Miscellaneous 4.8%

The social package is proposed as follows:

DESCRIPTION	2020/2021	2021/2022	2022/2023
	VAT Inclusive	VAT Inclusive	VAT Inclusive
Free Electricity	59.04	67.65	72.71
Free Water	250.47	264.96	288.3
Equitable Share	263	273.78	287
TOTAL	572.79	606.39	648.01

The municipality is implementing the inclining block tariffs on electricity and water. The IBT for the electricity is in-line with the NERSA guidelines. The water tariffs are also designed using the inclining block model to promote conservative approach to the domestic consumers.

The municipality will still ensure that the poor are protected through the indigent support scheme as per the indigent policy and debt collection strategy. The threshold for increasing free basic services for a household will be reviewed. The increase on the package indicates the municipality's commitment to protect the poor and also to ensure that those who cannot afford to pay are not burden with the unpaid accounts.

The council is committed in creating employment and reducing poverty as part of National Initiative, through meaningful local economic developmental initiatives and labour-intensive projects. Furthermore, the municipality will on the continuous basis engage with the service providers to ensure that labour intensive approaches are utilized. The municipality will also ensure that it implements the intern programs to provide the young people with on-the-job training.

A conservative approach in spending will be adopted to ensure financial sustainability. As a municipality we should also all pay serious attention to managing revenue and any cash streams effectively through revenue management processes and procedures.

9.1.5 CONSOLIDATED OVERVIEW

The budget has been prepared in terms of guidelines as contained in Circular 115 of the MFMA. The contents and format of the budget are in line with the requirements of the Municipal Budget and Reporting Regulations and any applicable legislation.

The 2002/2023 budget comprises of **R 2.7 billion** for operating expenditure and **R 163 million** for capital investment programs. The total operating income budget is R2.8 billion resulting in an operating surplus of **R 53 million**.

Municipal revenues and cash flows are expected to remain under pressure as we still continue to have low-income revenue growth with a continued increase in expenditure.

Consolidated overview of the 2022/2023 Budget

Description	Original Budget 2021/2022	Adjusted Budget	Budget 2022/2023	Budget 2023/2024	Budget 2023/2025
		2021/2022			
Total Operating Revenue	2,617,676,475	2,589,741,223	2,828,607,870	3,006,803,830	3,202,686,084
Total Operating Expenditure	2,492,928,457	2,515,223,529	2,775,339,700	2,861,631,096	2,979,796,946
Surplus /(Deficit) for the year before capital grants	124,748,018	74,517,694	53,268,170	145,172,734	222,889,138
Grants revenue - Capital	124,693,000	193,167,144	96,048,475	90,649,000	94,942,000
Surplus /(Deficit)for the year	249,441,018	267,684,838	149,316,645	235,821,734	317,831,138
Total Capital Expenditure	309 111 710	335,188,149	163,324,279	158,464,200	163,639,408

Operating budget

The operating budget deals with day-to-day operations of the municipality to ensure that service delivery is sustained. The operating budget has increased to R2.7 billion compared to the current adjusted budget of R2.5 billion.

The trend is that the operating expenditure has been increasing over the years driven by:

- ☐ salary increments
- ☐ the need to repair infrastructure
- ☐ the need to adequately budget for debt impairment and depreciation,
- ☐ Inflation

Capital budget

An amount of R163 million has been allocated for the capital investment program for 2022/2023 financial year. This is a decrease from the R335 million of the current adjusted budget for 2021/2022. The main reason for this decrease is no adequate internal funding is available for capital program.

Description	Final Budget 2022	Adjusted budget	Budget 2022/2023	Budget 2023/2024	Budget 2024/2025
Exchange Revenue

Total revenue inclusive capital grants	2,742,369,475	2,782,908,367	2,924,656,345	3,097,452,830	3,297,628,084

Revenue 2022-2023

The property rates

The property rates amount to R 403 million for the 2022/2023 financial year. This revenue stream has been increased by 9%. Property rates increase as a result of expected increase in supplementary valuations and yearly tariff increases.

Service charges

Service charges include electricity, refuse, sewer and water. The service charges for 2022/2023 amount to R 1 718 billion, 2023/2024 R 1 834 billion and 2024/2025 amounts to R 1 957 billion. The R 1 718.5 billion is made up of the following, water R 628.4 million, Refuse R 162.9 million, Sewerage R 160.7 million and electricity R766.3 million. The service charges contribute 61% of the operating revenue.

Rental income

The rental income amounts to R5.1 million. The stream contributes 0.2% of the total revenue.

Fines

The revenue estimates for the fines have been increased from R 36 million to R 37 million, this was done to make a provision as required by iGRAP1.

Grants and Subsidies – operating

The grants subsidies refer to the Division of Revenue Act allocations in the 2022/23 financial year, the operational grants allocations are as follows:

DESCRIPTION	Budget 2022/23	Budget 2023/24	Budget 2024/25
Equitable Share	380 023 000	417 947 000	459 878 000
Expanded Public Works Programme Integrated Grant	2 629 000	0	0
Financial Management Grant	2 100 000	2 100 000	2 100 000
Infrastructure Skills Development Grant	24 500 000	25 000 000	25 500 000
TOTAL	409 252 000	445 047 000	487 478 000

Grants and Subsidies – capital

The grants subsidies refer to the Division of Revenue Act allocations in the 2022/23 financial year, the capital grants allocations are as follows. The grants are allocated to serve specific purpose to the community which is improvement and/or construction of infrastructure.

DESCRIPTION	Budget 2022/23	Budget 2023/24	Budget 2024/25
National Government: Municipal Infrastructure Grant	65 932 000	68 649 000	71 954 000
National Government: Integrated National Electrification Programme Grant	15 000 000	22 000 000	22 988 000
Sasol (Embalenhle Sub-Station)	15 116 475

EXPENDITURE 2022-2023

- Bulk Purchases
- Depreciation and Amortisation
- Interest Dividends and Rent on Land
- Operating Leases
- Remuneration of Councillors
- Impairment Loss
- Contracted Services
- Employee Related Cost
- Inventory Consumed
- Operational Cost
- Transfers and Subsidies

Employee related costs

The employee related costs and remuneration of councillors indicate a percentage of 24% of the total operating budget. The average salary increases 4.8%. The overtime will have to be controlled and filling of vacant positions will have to be fast tracked.

General expenditure

In a bid to cut cost and ensure the funding of the overall budget was increased to R108.4 million. The transport cost still needs to be controlled. General expenditure takes 4% of the total operating expenditure.

Bulk purchases: Electricity

The bulk purchases for electricity amounts to R 639.4 million, which contributes 23% of the operating budget. The Eskom will increase the bulk purchases to the municipality by 9.6%

Repairs and maintenance

The repairs and maintenance plan for the departments must be aligned with their budget and monthly reports should indicate how the departments are progressing. The repairs and maintenance contribute **4.21%** of the operating budget. The revenue generating assets should be to an adequate level ensuring that quality services are sustained.

Depreciation

Depreciation constitutes 7% of the budget. The budget increase was informed by historical trends as well as budgeted and forecasted additions. With the introduction of the new system (MSCOA requirements), assets depreciation was aligned to the individual assets hence the increase.

Inventory Consumed

Inventory consumed is inclusive of Bulk purchases for water which amounts to R393.6. Rand water will increase bulk purchases to municipality by 8.8%. More materials especially water and electricity meters needs to be purchased for ensuring functional metering and improving service delivery and cash flows.

9.1.6 CONTRACTED SERVICES

In a bid to cut cost and ensure the funding of the overall budget, contracted services budget was increased to R280 Contracted services constitute 10% of total operating expenditure. Increase in contracted services is also related to increase of contract values and new services that are required by the institution.

Main increase in contracted are on security services, meter services, sewerage services, services for distribution network on and prepaid vending. Over and above the increase is on new contracts in relation to Vetting of Qualifications, Designs of Transfer stations at Landfill sites, VAT recovery services, Relocation costs, Township Establishment. Included in the R 280 million of contracted services is repairs and maintenance amounting to R106 million and outsourced services amounting to R 174 million. The contract management will have to be improved for the contracted services. The outsourcing of work will need to be controlled to ensure skill transfer.

Bethal/Emzinoni substation capacity increase	PMU	INEP - DORA Allocation	15 000 000.00	22 000 000.00	22 988 000.00
Embalenhle Sub Capacity	Energy	Sasol	15 116 475.00		
TOTAL			163 324 279.00	158 464 200.00	163 639 408.00

9.1.8 BUDGET CASH-FLOW STATUS

Funding status	Reference	Amount
Total Expenditure	A	2,775,339,700
Add back non-cash items		
Depreciation	B	- 196,589,492
Interest	C	- 133,798,181
Impairment Loss	D	- 210,273,198
Add: Capital Expenditure		163,324,279
Total Cash Expenditure	E= (A+B+C+D)	2,398,113,108
Payment rate	F	61%
Actual Total Revenue	G	2,419,355,870
Grants(Operational and Capital)	H	505,300,475
Total revenue		2,924,656,345
Actual Cash i.e 61% payment expected	I = (G x F)	1,475,807,081
Actual cash receivables	J = (H + I)	1,965,991,081
Cash surplus /(deficit)	K	- 416 895 552

Based on the above table the submitted budget's cash flow status is not favourable and it also means that the budget is unfunded. Budget 2022 cannot be unfunded budgets, if unfunded the following are minimal requirements must be met:

- ☐ Cash Flow (A7) should have positive cash flows - the cashflow status is negative as a result the expenditure needs to be revised before the final budget submission on the 31 May 2022.
- ☐ Develop a plan to turnaround the situation – the municipality already have a plan (Financial Recovery Plan) in place to support the unfunded status.

9.1.9 GOVAN MBEKI MUNICIPALITY: FINANCIAL STRATEGIES & FINANCIAL POLICIES

GOVAN MBEKI MUNICIPALITY: FINANCIAL STRATEGIES & FINANCIAL POLICIES		
DOCUMENT	PURPOSE	STATUS
THE VIREMENT POLICY	The Virement policy establishes the framework for managers to manage their respective budgets within limitations, and also to ensure good budgeting practice and effective financial management. The Virement policy has been amended to improve budgetary controls.	In place

SHORT TERM RISKS AND LIABILITIES POLICY OF THE GOVAN MBEKI MUNICIPALITY	To safeguard all municipal assets and protect Council against liabilities. To ensure effective financial and risk management.	In place
THE FUNDING AND RESERVES POLICY	Aimed to ensure that the municipality has sufficient and cost-effective funding in order to achieve its objectives through the implementation of its operating and capital budgets. This policy aims to set guidelines towards ensuring financial viability over both the short- and long-term which includes reserves requirements	In place
BUDGET POLICY	The principles which the municipality will follow in preparing each medium term revenue and expenditure framework budget.	In place
BORROWING POLICY	The policy is to govern the taking up of short-term or long term debt according to the legislative framework.	In place
BLACK LISTING POLICY	This policy shall govern the blacklisting/restricting of defaulters at the following stages: (i) registration on the municipality's database; (ii) during the bidding process, i.e. from the advertisement, until the award; and (iii) after the award of contracts, i.e. during the contract period or roll out	In place
PROVISION FOR DOUBTFULL DEBT AND DEBT WRITE-OFF	To ensure that debtors disclosed in the Annual Financial Statements are stated at amounts that is deemed to be collectable. To ensure that uncollectable debt is written off within guidelines of existing policies and applicable legislation.	In place
UNCLAIMED DEPOSIT POLICY	To provide a framework on how to deal with unknown or unclaimed monies in the municipal bank account. To reduce the liability of the municipality. To provide guidelines to identify unknown monies in the municipal bank account.	In place
RETENTION POLICY	To provide a framework on how to deal with retention monies withheld by the Municipality for capital projects To reduce the liability of the Municipality.	

9.1.10 MUNICIPAL SCSA

The Local Government: Municipal Regulations on a Standard Chart of Accounts (mSCOA), Notice 312 of 2014, Government Gazette No. 37577, have been gazetted by the Minister of Finance on 22 April 2014.

mSCOA stands for “standard chart of accounts” and provides a uniform and standardized financial transaction classification framework. Essentially this means that mSCOA prescribes the method and format that municipalities and their entities should use to record and classify all expenditure (capital and operating), revenue, assets, liabilities, equity, policy outcomes and legislative reporting. mSCOA contributes to enforcing proper planning and budgeting; supervisory and management checks and balances.

The objective is to have a National Standard for uniform recording and classification of municipal budget and financial information at a transactional level by providing a Standardized Chart of Accounts which is:

- ☐ aligned to budget formats and accounting standards;
- ☐ enable uniform information sets across the whole of government to better inform national policy coordination and reporting, benchmarking and performance measurement.

Govan Mbeki municipality is currently implementing the mSCOA in order to record and classify all expenditure (capital and operating), revenue, assets, liabilities, equity, policy outcomes and legislative reporting.

Transacting is taking place on the new Munsoft Financial System which was adopted by Govan Mbeki Municipal Council.

9.1.20.1 BENEFITS OF SCSA

- ☐ **Transparency** – reporting and comparative analytical purposes
- ☐ **Reporting flexibility** – extraction of information populating various reporting systems
- ☐ **Comparability** – Benchmarking, standards and measures
- ☐ **Consolidation** – meaningful consolidation and extraction at different levels of detail
- ☐ **Single version of the truth** – consistency in financial information disseminated into the public domain

The unique mSCOA segments include Seven (7) Reporting Segments as follow:

THE SEVEN SEGMENTS ARE:	
☐ Project	☐ Regional Indicator
☐ Function	☐ Costing
☐ Item segment: Assets, Liabilities and Net assets; Expenditure; Revenue; Gains and Losses	☐ Municipal Standard Classification – No standardisation
☐ Fund	

9.2 PERFORMANCE MANAGEMENT

Performance Planning ensures that the strategic direction of the Municipality more explicitly informs and aligns the IDP with all planning activities and resource decisions. This is the stage where Key Performance Areas and Key Performance Indicators are designed to address the IDP objectives, national policy and targets are set. Planning for performance simply means developing and reviewing the IDP annually in preparation for continuous implementation. Municipal performance planning is part of the IDP strategic planning processes. The IDP process and the performance management process are seamlessly integrated. Integrated development planning fulfils the planning phase of performance management. Performance management fulfils the implementation management, monitoring and evaluation of the IDP process.

9.2.1 Service Delivery Budget Implementation Plan (SDBIP)

The IDP delivers a number of products that translate to the formulation of the municipal budget, the development of an annual Service Delivery and Budget Implementation Plan(SDBIP) and an organizational performance scorecard for the municipality. In a nutshell, the IDP process should deliver the following products in relation to performance management. The SDBIP gives effect to the IDP and budget of the municipality. The achievement of the SDBIP will be possible if the IDP and budget are fully aligned with each other, as required. A properly formulated SDBIP will ensure that appropriate information is circulated internally and externally for purposes of monitoring the execution of the budget, performance of senior management and achievement of the strategic objectives set by council.

The SDBIP is also a vital monitoring tool for the mayor and council to monitor in-year performance of the municipal manager and for the municipal manager to monitor the performance of all managers in the municipality within the financial year.

This enables the mayor and municipal manager to be pro-active and take remedial steps in the event of poor performance. To ensure that the budget is achieved, the SDBIP serves as a “contract” between the administration, council and community expressing the goals and objectives set by the council as quantifiable outcomes that can be implemented by the administration over the next twelve months. This provides the basis for measuring performance in service delivery against end-of-year targets and the implementation of the budget. One key function of the SDBIP is that it holds management responsible and accountable to its objectives.

9.2.1.1 The SDBIP Concept: A Practical Perspective

The development of the Service Delivery and Budget Implementation Plans (SDBIPs) is a requirement under the Municipal Finance Management Act (MFMA) and gives effect to the Municipality's Integrated Development Plan (IDP) and annual budget.

9.2.2 ORGANISATIONAL AND INDIVIDUAL PERFORMANCE MONITORING

The overall performance of the municipality is managed and evaluated by a Municipal scorecard (Top Level SDBIP) at organisational level and through the detailed Departmental Service Delivery Budget Implementation Plan (SDBIP) at Departmental levels through which the organisational performance will be evaluated.

The municipal scorecard is of a high-level nature, as it's dealing with consolidated service delivery targets set by Council and linking such targets to top management. It therefore provides an overall picture of performance for the municipality as a whole, reflecting performance on its strategic priorities and also facilitates the oversight over financial and non-financial performance of the municipality.

The departmental SDBIP capture the performance of each defined department which reflects on the strategic priorities of the municipality. The SDBIP provides detail of each outcome for which the senior management is responsible for, in other words a comprehensive picture of the performance of that department/sub-section.

The role and impact of the Performance Management of the Municipality is reflected in the diagram below:

The Performance Management System (PMS) serves as primary mechanism to monitor, review and improve the implementation of the municipal IDP and eventually the budget. As the focus shifts more and more to the and comply with changes to Legislation and Regulations that in many cases follow a singular approach, while neglecting the fact that Municipalities operate within vastly different environments with a varying amount of resources. The performance of a municipality is integrally linked to that of its staff. It is therefore important to link organisational performance to individual performance and to manage both simultaneously. Despite facing these challenges the Municipality has improved its organisational performance system in the following manner:

- ❑ Implementation of Performance Management System by creating an organisational culture of performance monitoring and evaluation
- ❑ Setting Key Performance Indicators (KPI's) that are Reliable, Well-defined, Verifiable, Cost-effective, Appropriate and Relevant
- ❑ The developing and setting of targets that comply with the SMART principle by being Specific, Measurable, Achievable, Relevant as well as being Time-bound
- ❑ Regular reporting on organisational performance, to aid in the monitoring of performance and to identify instances where corrective actions may be needed
- ❑ On a strategic level the overall performance of the Municipality is managed and evaluated by a municipal scorecard (Top-Level SDBIP) at organisational level
- ❑ Operationally, performance is monitored via the Departmental Service Delivery Budget Implementation Plan (SDBIP) at departmental level

9.2.3 PERFORMANCE REPORTING

Performance Reporting entails regular reporting to management, the performance audit committee, council and the public. Reporting requires that the municipality take its key performance areas, its performance objectives, indicators, targets, measurements and analysis, and present this information in a simple and accessible format. Reporting is imperative to ensure accountability. Performance is reported on a regular basis and it includes the evaluation of performance, the identification of poor performance and corrective actions to improve performance.

LEGISLATIVE REPORTING REQUIREMENTS

The legislative requirements regarding reporting processes are summarised in the following table:

Time frame	MSA/ MFMA Reporting on PMS	Section
------------	----------------------------	---------

Quarterly reporting	The municipal manager collates the information and draft the organisational performance report, which is submitted to Internal Audit. The Internal Auditors (IA) must submit quarterly audited reports to the Municipal Manager and to the Performance Audit Committee The Municipal Manager submits the reports to the Council.	MSA Regulation 14(1)(c)
Bi-annual reporting	The Performance Audit Committee must review the PMS and make recommendations to council The Performance Audit Committee must submit a report at least twice during the year a report to Council The Municipality must report to Council at least twice a year The Accounting officer must by 25 January of each year assess the performance of the municipality and submit a report to the Mayor, National Treasury and the relevant Provincial Treasury.	MSA Regulation 14(4)(a) MSA Regulation 14(4)(a) MSA Regulation 13(2)(a) MFMA S72
Annual reporting	The annual report of a municipality must include the annual performance report and any recommendations of the municipality's audit committee The accounting officer of a municipality must submit the performance report to the Auditor-General for auditing within two months after the end of the financial year to which that report relate The Auditor-General must audit the performance report and submit the report to the accounting officer within three months of receipt of the performance report The Mayor of a municipality must, within seven months after the end of a financial year, table in the municipal council the annual report of the municipality The Auditor-General may submit the performance report and audit report of a municipality directly to the municipal council, the National Treasury, the relevant provincial treasury, the MEC responsible for local government in the province and any prescribed organ of the state Immediately after an annual report is tabled in the council, the accounting officer of the municipality must submit the annual report to the Auditor-General, the relevant provincial treasury and the provincial department responsible for local government in the province. The council of the municipality must consider the annual report by no later than two months from the date on which the annual report was tabled, adopt an oversight report containing council's comments on the annual report The meetings of a municipal council at which an annual report is to be discussed or at which decisions concerning an annual report are to be taken, must be open to the public and any organ of the state The Cabinet member responsible for local government must annually report to Parliament on actions taken by the MECs for local government to address issues raised by the Auditor-General	MFMA S121 (3)(c)(j) & MSA S46 MFMA S126 1(a) MFMA S126 (3)(a)(b) MFMA S127(2) MFMA S127 (4)(a) MFMA S127 (5)(b) MFMA S129 (1) MFMA S130 (1) MFMA S134

9.2.4 DRAFT SDBIP 2022/2023-2026/2027

The SDBIP is one element of the continuous planning, implementation and reporting cycle that aims to achieve Council’s Vision and Mission as well as the strategic objectives contained in the Integrated Development Plan (IDP). Adoption of the Service Delivery and Budget Implementation Plan is a legislative prerequisite that requires the Executive Mayor to approve the SDBIP within 28 days after the final approval of the budget. **Herewith as follows the Draft Municipal High-level 2022/2023-2026/2027 indicators and Targets:**

9.3 RISK MANAGEMENT IMPLEMENTATION STRATEGY

Risk management is an integral part of the Municipality as its main objective is to ensure that all challenges that may hamper the Municipality in achieving its objective are timeously identified and managed.

The management of risk is the process by which the Accounting Officer and senior managers of the Municipality will pro-actively, purposefully and regularly, but at least annually, identify and define current as well as emerging business, financial and operational risks and identify appropriate, business and cost effective methods of managing these risks within the Municipality, as well as the risk to the stakeholders.

The municipality recognizes that the management of risks is an integral part of sound management and therefore adopts a comprehensive approach to risk management.

9.3.1 RISK MANAGEMENT ROLE PLAYERS

Every employee is responsible for executing risk management processes and adhering to risk management procedures laid down by the department management in their areas of responsibilities.

The Municipal Council takes an interest with regards to the oversight function of risk management, to the extent necessary to obtain comfort that properly established and functioning systems of risk management are in place to protect the department against significant risks.

The Risk Management Committee is also appointed by the Council to assist them to discharge their responsibilities for risk management. The Committee's role is to review the risk management progress and maturity of the Municipality, the effectiveness of risk management activities, the key risks facing the Municipality, and the responses to address these key risks. The responsibilities of the Risk Management Committee are formally defined in its Charter.

9.3.2 RISK MANAGEMENT STRATEGY

The fulfilment of the IDP (Integrated Development Plan) depends on the GMM being able to take calculated risks in a way that does not place the interests of stakeholders at risk. Sound management of risk will enable the GMM to anticipate and respond to changes in the service delivery environment, as well as make informed decisions under conditions of uncertainty and change. Effective risk management is imperative to the Govan Mbeki Municipality to fulfil its mandate, the service delivery expectations by stakeholders and the performance expectations within the Council.

CONCLUSION NOTE

All municipalities have to produce an Integrated Development Plan (IDP). Local municipalities in South Africa have to use integrated development planning as a method to plan future development in their areas. An Integrated Development Plan is a super plan for an area that gives an overall framework for development.

It aims to co-ordinate the work of local and other spheres of government in a coherent plan to improve the quality of life for all the people living in an area. It should take into account the existing conditions and problems and resources available for development. The plan should look at economic and social development for the area as a whole. It must set a framework for how land should be used, what infrastructure and services are needed and how the environment should be protected. The municipality is responsible for the co-ordination of the IDP and must draw in other stakeholders in the area who can impact on and/or benefit from development in the area.

Integrated Development Planning is an approach to planning that involves the entire municipality and its citizens in finding the best solutions to achieve good long-term development.
