CHAPTER ONE: EXECUTIVE MAYOR'S FOREWORD

COMPONENT A: EXECUTIVE MAYOR'S FOREWORD

(To be inserted after after auditing of the report)

CLR SHIELA MABALE-HUMA

EXECUTIVE MAYOR

DATE:

1.1 STATEMENT BY THE MUNICIPAL MANAGER

(To be inserted after after auditing of the report)

ADVOCATE ASHMAR KHUDUGE MUNICIPAL MANAGER DATE:

1.2 EXECUTIVE SUMMARY

Legislative Requirements for the Preparation of the Annual Report:

Concerted efforts were made during the compilation of the annual report to comply with Section 121(1) of the Local Government: Municipal Finance Management Act 56 of 2003 (MFMA) which stipulates that: "Every municipality and a municipal entity must for each financial year prepare an annual report in accordance with its guidelines". It further states that "The Executive Mayor must within seven months after the end of the financial year table the municipality's Annual Report in council."

Section 46(1) of the Local Government: Municipal Systems Act, 32 of 2000 (MSA) prescribes that a municipality must prepare for each financial year a performance report reflecting:-

The performance of the municipality and of each external service provider during the financial year;
A comparison of the performances referred to in paragraph (a) with targets set for and performances in the previous financial year; and

Measures taken to improve performance.

(2) An Annual Performance Report must form part of the municipality's Annual Report in terms of chapter 12 of the MFMA.

The Rustenburg Local Municipality had a functional and knowledgeable Performance Audit Committee (PAC). The work of the PAC was enhanced by a functional Internal Audit Unit.

A Risk Committee was established and was fully functional, with the assistance of a functional Risk Management Unit. All systems regarding implementation of risk management were in place i.e.

Risk Management Policy (reviewed annually)

Risk Management Strategy (reviewed annually)

Risk and Fraud Assessments conducted regularly.

Much time was allocated to focus on internal controls to address cases of irregular, unauthorised, fruitless and wasteful expenditure. Existing contracts were reviewed as well as contracts entered into for the period under review for compliance with the MFMA and in some cases, contracts were suspended with an intention to terminate. This resulted in a litany of litigations.

For the financial years 2023/2024 the(audit opinion in the annual report will be inserted after completion of the audit in the final report that we be tabled before Council)

1.3. MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW

The Rustenburg Local Municipality is a category B municipal council consisting of 45 wards. It is located in the eastern parts of the North-West Province and is accessible to a number of major South African urban centres. These centres include Johannesburg and Tshwane, which are located approximately 120km from Rustenburg. Smaller centres surrounding Rustenburg are Madibeng, Mogale City and Zeerust in the Ramotshere Moilwa Local Municipality. Rustenburg is linked to the above urban centres through an extensive regional road network. The most notable of these is the N4 freeway or Platinum Corridor, which links Rustenburg to Tshwane in the east and Zeerust to the west. The R24 links Rustenburg to Johannesburg in the south and the Pilanesberg to the north.

Rustenburg Local Municipality (RLM) is one of five municipalities within the Bojanala District Municipality in the North-West Province and is divided into 45 wards. The total population is 719 000 people, comprising of 60% males and 40% females. The significant growth in Rustenburg is largely attributed to the impact of the world's largest mines in the immediate vicinity of the town, namely, Impala Platinum, Anglo American, Sibanye Stillwater/Gold, Bakubung Platinum, Lonmin, Royal Bafokeng Platinum, Tharisa Minerals, Glencore and Ilitha Mining. Approximately 97% of the total platinum production occurs in Rustenburg, with the mining sector providing around 50% of all formal employment.

1.4 **MUNICIPAL STRATEGIC AGENDA**

In line with the above national and provincial Vision directives, the Rustenburg Local Municipality Strategic Agenda which includes a Vision, Mission, Municipal Values, Strategic Priorities/ Thrusts and Municipal Goals are reflected in **Diagram 1** below and are graphically summarised on the next few pages:

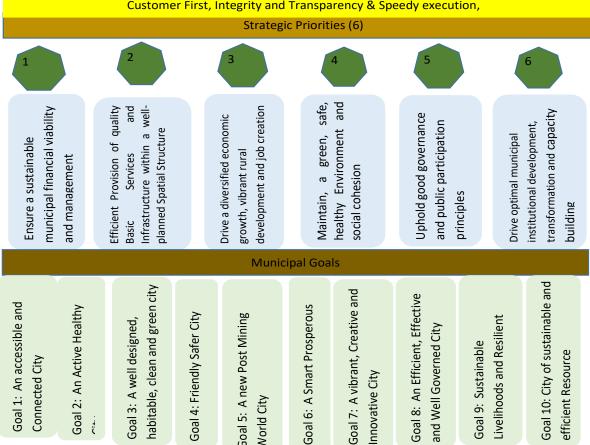

The Vision, Mission and Strategic Priorities, including Municipal Values are:

Vision: A smart and environmentally friendly city where all communities enjoy a high quality of life and diversity

Mission: To continuously improve quality of life by stimulating economic growth, improving quality of services through best practice, sustainability, and inclusive government.

Values

Customer First, Integrity and Transparency & Speedy execution,

Local Government Key Performance Areas (6)

KPA 1: Municipal Transformation and Institutional Development.

KPA 2: Municipal Financial Viability and Management

KPA 3: Spatial Rationale and Municipal Planning Alignment

KPA 4: Local Economic Development and Job Creation

KPA 5: Basic Service Delivery

KPA 6: Good Governance and Public Participation

The above RLM Strategic Agenda should be implemented in pursuance of the following six Key Performance Areas for Local Government as contained in the Municipal Planning and Performance Management Regulations (2006) as promulgated by National Government:

KPA1: Municipal Transformation and Institutional Development

To have a representative and motivated municipal work force with high ethical standards empowered to render optimal services.

KPA2: Good Governance and Public Participation

To ensure service delivery in accordance with "Batho-Pele" principles and legislative requirements and through extensive consultative processes with local stakeholders/ communities.

KPA3: Municipal Financial Viability and Management

To manage the Municipality's finances to ensure a financially viable Municipality able to meet all financial obligations.

KPA4: Local Economic Development and Job Creation

To facilitate and implement local economic development initiatives and processes to promote sustainable economic growth for the municipal area.

KPA5: Basic Service Delivery

To render cost effective and sustainable services to the entire community with diligence and empathy.

KPA6: Spatial Rationale and Municipal Planning Alignment

To ensure that all development within the municipality is based on a coherent Spatial Rationale as defined in the Municipal Spatial Development Framework and that all sector plans are aligned to this rationale.

1.5 SERVICE DELIVERY OVERVIEW

The municipality is providing basic services to all residents within its area of jurisdiction as expected despite the challenge of having to cater for the unplanned population explosion. According to Census 2021 (StatsSA), the residents of Rustenburg have reported to having access to the following basic services:

Table 1: Basic Services provided to households in the Rustenburg Local Municipality

| No | Type of Service Provided | Percentage % |
|----|---|-----------------------------|
| 1 | Solid Waste | 100% of formal settlements |
| | | 80% of informal settlements |
| 2 | Access to electricity | 92% |
| 3 | Access to sanitation (VIP/ Sewer System) | 86% |
| 4 | Access to water (Water tanking, Communal Standpipe, | 99% |
| | House connections) | |

1.6 FINANCIAL HEALTH OVERVIEW

Rustenburg Local Municipality has been under financial constraints because of the global economic outlook which has been weaker than anticipated. Domestic inflation is higher, largely because of increasing oil prices. However, the depreciation of the Rand and the current drought gripping many parts of the country, pose some risk to the inflation outlook. The Mining sector contributes more than 50% of the local economy. The mining sector is the largest employer within Rustenburg. Most mines around Rustenburg resorted to retrenching employees because of the current economic situation and this resulted in our debtor's book growing. Furthermore, the electricity and water supply shortages pose the largest domestic risk to growth.

Persistently high unemployment remains one of South Africa's most pressing challenges and most of the people come to Rustenburg to seek employment in mines. These economic challenges will continue to pressurize municipal revenue generation and Collection.

1.7 ORGANISATIONAL DEVELOPMENT OVERVIEW AND PERFORMANCE

The organisational performance can be measured against the performance of the Section 56 Managers, which includes the performance of the Municipal Manager and that of the Directors respectively.

1.8 AUDITOR GENERAL REPORT: 2023/2024

As required by section 188 of the Constitution of the Republic of South Africa, 1996 (Act No. 108 of 1996) and section 4 of the Public Audit Act, 2004 (Act No. 25 of 2004) (PAA), the responsibility of the Auditor General is to express an opinion on the municipality's financial statements while conducting an audit in accordance with International Standards on Auditing.

.(Pending finalisation of the Audit)

1.9 STATUTORY ANNUAL REPORT PROCESS

According to the Municipal Finance Management Act, 2003, the Executive Mayor must within seven months after the end of the financial year table the municipality's Annual Report in Council. Thereafter the accounting officer must make the annual report public; and invite local communities to submit representations to the Municipal Public Accounts Committee (MPAC). The Municipal Council must consider the oversight report from the MPAC on the annual report during an open meeting. The oversight report should include all submissions made by the local communities and other stakeholders like sector departments.

Section 121 (1) of the Local Government: Municipal Finance Management Act 56 of 2003 (MFMA) stipulates that: "Every municipality and municipal entity must for each financial year prepare an annual report in accordance with Chapter 12 of the same Act.

This Annual Report was compiled according to the requirements of the Municipal Finance Management Act, 2003 (Act No 56 of 2003) and Municipal Systems Act, 2000 (Act No. 32 of 2000) as amended and MFMA Circular No 63 dated September 2012. The main objective or purpose of this report is:

- (a) Provide a record of the activities of the Rustenburg Local Municipality and Rustenburg Water Services Trust during the financial year 2023/2024
- (b) Provide a report on performance against the budget of the Rustenburg Local Municipality and its entity for the financial year 2023/2024; and
- (c) Promote accountability to the local community for the decisions made during the financial year ended June 2024 by the municipality and the Rustenburg Water Services Trust.

According to the MFMA, this Report should include:

- (a) The annual financial statements of the Municipality, and consolidated annual financial statements, submitted to the Auditor-General for audit in terms of section 126 (1) of the MFMA
- (b) The Auditor-General's audit report in terms of section 126 (3) of the MFMA and in accordance with s45 (b) of the MSA; on the financial statements in (a) above.
- (c) The annual performance report of the Municipality as prepared by the Rustenburg Local Municipality in terms of section 45 (b) of the Local Government: Municipal Systems Act 32 of 2000 (MSA).
- (d) An assessment of the arrears on municipal taxes and service charges.
- (e) An assessment of the Municipality's performance against the measurable performance objectives referred to in Section 17 (3) (b) of the MFMA for revenue collection from each

- revenue source and for each vote in the Municipality's approved budget for the financial year 2023/2024.
- (f) Corrective action taken in response to issues raised in the audit reports referred to in paragraphs (b) and (d); and
- (g) Recommendations of the Municipality's Performance Audit Committee.

CHAPTER TWO: GOVERNANCE

2.1 INTRODUCTION TO GOVERNANCE

This chapter presents governance mechanisms, structures and systems that were put in place to ensure

that the municipality complies with legal requirements. These include community participation,

oversight, monitoring and evaluation and how the municipality communicates with and accounts to

the community. To ensure that accountability and governance arrangements are in place, Section

18(1)(d) of the Municipal Systems Act, 2000 (Act no 32 of 2000), read with Section 121(2)(c) of the

Municipal Finance Management Act, 2003 (Act no 56 of 2003) prescribes that information on matters

of governance should be communicated to communities. This should, according to Sections 65(1)(a) of

the MFMA and 46 of the MSA, be undertaken through the compilation and publication of the Annual

Report. The purpose of such an annual report is to promote accountability to communities for decisions

taken by the Council and matters relating to administrative structures, throughout a financial year.

COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

2.2 INTRODUCTION TO POLITICAL AND ADMINISTRATIVE GOVERNANCE

The Rustenburg Local Municipality is implementing an Executive Mayoral and Ward Participatory

System of local governance, which ensures that the municipality involves the community and that all

citizens within the area of jurisdiction of the municipality are represented in decision making processes.

This practice has increased residents' sense of belonging and pride, accountability and empowerment

and actively involves them in all issues dealt with by the municipality.

Administrative governance ensures transparent administration, regular feedback to the community

and compliance with the rules, processes, and laws by which the Council operates and is regulated and

controlled.

2.3 POLITICAL GOVERNANCE

The council of Rustenburg Local Municipality is constituted by 90 Councilors, with 45 wards and 45

proportional representative Councilors. The Mayoral Committee consists of ten (10) members. Ward

Councilors chair ward committees whose responsibility is to discuss issues of local concern.

11

Table 2.1 The party-political representation of Councilors

| Political Party | Number | Gender Dist | ribution |
|------------------------------------|------------|-------------|----------|
| | Councilors | Male | Female |
| African Christian Democratic Party | 1 | 1 | - |
| African Independent Congress | 1 | 1 | - |
| African National Congress | 43 | 31 | 12 |

| Tsogang | 7 | 4 | 3 |
| Freedom Front+ | 3 | 2 | 1 |
| United Democratic Movement | 1 | - | 1 |
| TOTAL | 90 | 59 | 31 |

The Council elected the Speaker, Clr L J Pule in terms of section 36 of the Municipal Structures Act, 1998 (Act No. 117 of 1998), to chair Council meetings per item 125 (5) of 27 June 2023, after resignation of the Speaker, Clr K Mogomotsi. She is also responsible for capacitating Councilors and Ward Committees to better carry out their mandate as per Local Government: Municipal Structure Act, Act 117 of 1998. 25 (5).

The Municipality operates within an Executive Mayoral System under the leadership of Her Worship, the Honourable Executive Mayor Cllr S.S.K. Mabale-Huma who was appointed as per section 55 of Municipal Structures Act, 1998 (Act No. 117 of 1998), per item 269 of 22 November 2021

Clr. L. L. Mabe was elected as the Single Whip of the Council as per item 270 on 22 November 2021.

SPEAKER & SINGLE WHIP

Speaker: Cllr L.J Pule (From 27 June 2023)

Single Whip: Cllr. LL Mabe

The Rustenburg Local Municipality established a Mayoral Committee and Portfolio Committees in terms of Section 80 of the Local Government: Municipal Structures Act, 1998 (Act No. 117 of 1998) to assist the Executive Mayor in executing her functions. According to the provision of the quoted piece of legislation, Executive Mayor is the chairperson of the Mayoral Committee while members of her Mayoral Committee are chairpersons of Portfolio Committees.

Table 2.2 Mayoral Committee Members

2.4 OTHER COMMITTEES

The council further established the following committees in terms of Section 79 of same Act of 1998 to provide special advice on specific technical issues:

- Municipal Planning Tribunal
- Local Labour Forum (LLF)
- Municipal Public Accounts Committee (MPAC)
- Rules of Order
- IDP/ Budget Steering Committee.

2.5 PERFORMANCE AUDIT COMMITTEE (PAC)

The Performance Audit Committee was established in terms of section 166 of Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003).

The members of the Performance Audit Committee were appointed by the council of the municipality. It consists of minimum of three (3) members and maximum of five (5) members with appropriate experience and who are not in the employment of the municipality or municipal entity. They meet as often as required to perform the committee's functions, but at least a minimum of four (4) times a year. The composition and meeting intervals are as prescribed by the MFMA section 166.

The Performance Audit Committee is an independent advisory body that must advise the municipal council, the political office bearers, the accounting officer, management and staff of the municipality and the municipal entity, on matters relating to:

- Internal financial control and internal audits.
- Risk management.
- Accounting policies.
- The adequacy, reliability and accuracy of financial reporting, records and information.
- Performance management.
- Effective governance.
- Compliance with the Municipal Finance Management Act, the annual Division of Revenue Act and any other applicable legislation.
- Performance evaluation; and
- Any other matter referred to it by the Municipality or its entity.

The Performance Audit Committee should be safeguarded from undue influence in exercising its responsibilities in an objective manner.

The Committee does not perform any management functions or any management responsibilities, as this could prejudice the objectivity of the Committee.

2.6 MEMBERS OF THE PERFORMANCE AUDIT COMMITTEE (PAC)

The committee's terms of reference require a maximum of five (5) members and consists of the members listed below.

Table 2.3 Members of the Performance Audit Committee

Attendance

During the year under review, eleven (11) Performance Audit Committee meetings were held (including induction of new members), for the parent municipality and the municipal entity (Rustenburg Water Services Trust). External stakeholders such as the Auditor General of South Africa (AGSA), National Treasury were invited to these meetings.

2.7 ADMINISTRATIVE GOVERNANCE STRUCTURE

The Municipal Council appointed the management team to ensure that the municipality provides services to the communities as captured in the Integrated Development Plan (IDP) and Service Delivery and Budget Implementation Plan (SDBIP). The Municipal Manager is the link between the Municipal Council and the administration and therefore accounts to the Council through the Executive Mayor. The day-to-day management of the affairs of the municipality is carried out by the Municipal Manager and he is assisted by a team of senior managers. The following are Senior Managers:

Table 2.5 Senior Managers

The Municipal Manager has established the following administrative committees to assist him to perform his duties in accordance with the principles of good governance and legislative stipulations and statutory frameworks:

- Management Committee (MANCO) consists of the Municipal Manager and Section 56 managers and meets on a weekly basis.
- Supply Chain Management Committees: Bid Specification, Bid Evaluation and Bid Adjudication Committees these bid committees meet on a weekly basis.
- Audit Steering Committee meet on a weekly basis.
- Revenue Protection Team
- Service Delivery Committee

COMPONENT B: INTERGOVERNMENTAL RELATIONS

2.8. CO-OPERATIVE GOVERNANCE AND INTERGOVERNMENTAL RELATIONS

Proactive cooperation between all spheres of government is critical for efficient and effective service delivery if the municipality is to succeed in its developmental role. Each sphere of government has a role in the development planning, prioritization and resource allocation and management. The Intergovernmental Relations Framework Act (IGRFA) was passed in 2005. The Act provides a framework for the cooperation among the three spheres of government as distinctive, interdependent and interrelated, and it defines the responsibilities and institutional structures to support closer cooperation.

2.9. INTERGOVERNMENTAL RELATIONS

2.9.1 DISTRICT INTERGOVERNMENTAL STRUCTURES

Rustenburg Local Municipality is an active participant in the Bojanala Platinum District Municipality's Intergovernmental Relations (IGR) Forum through the following structures:

Political IGR: where mayors and other politicians discuss local and district service delivery issues of common interest and challenges are resolved.

Technical IGR: Accounting officers and other senior managers meet on a quarterly basis to discuss progress on service delivery, barriers to policy implementation and how these could be escalated to the political forum for resolution.

IDP Managers Forum: These managers also meet on a quarterly basis to discuss progress in the implementation of each municipality's IDP and Time Schedules and make recommendations to the Technical IGR for further processing.

2.9.2 RELATIONSHIP WITH MUNICIPAL ENTITIES

The municipality established Rustenburg Water Services Trust to manage the wastewater purification on its behalf. The Local Government: Municipal Finance Management Act, 2003 read with the Local Government: Municipal Systems Act, 2000 prescribes that Municipal Entities must fully account and report to the parent municipality. The law further requires that budgets and annual financial statements should be consolidated, which in essence requires full interaction between the parent municipality (Rustenburg Local Municipality) and the municipal entity (Rustenburg Water Services Trust).

2.9.3 Mayoral Stakeholder Engagement Committee (MASECO)

Through the Mayoral Stakeholder Engagement Committee (MASECO) the municipality managed to engage in dialogue with most mining companies and other stakeholders who had interest or were affected by the mining operations in the area through this committee.

COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION

2.10. PUBLIC ACCOUNTABILITY AND PARTICIPATION

CLLR J. MELANZI MPAC CHAIRPERSON

Clr J Melanzi was appointed on the 22^{nd of} November 2021, per Council Resolution No. 271, as the MPAC Chairperson.

The Municipal Public Accounts Committee (MPAC) was established in terms of section 79A of the Municipal Structures Act, 1998 (Act No 117 of 1998). The committee was established for the effective and efficient oversight function on behalf of the Council. Membership excluded the Executive Mayor, Speaker, Chief Whip, or a Member of Mayoral Committee (MMC) and was comprised of the following councilors:

| | MEMBERS OF MPAC | | | | | |
|-----|-------------------|--|--|--|--|--|
| 1. | Cllr Melanzi J | | | | | |
| 2. | Cllr De Beer J M | | | | | |
| 3. | Cllr Phiri K B | | | | | |
| 4. | Cllr Kombe O J | | | | | |
| 5. | Cllr Letlape M S | | | | | |
| 6. | Cllr Mokgatle O | | | | | |
| 7. | Cllr Nhacuangue N | | | | | |
| 8. | Cllr Serunye C | | | | | |
| 9. | Cllr Snyders L | | | | | |
| 10. | Cllr Phalole N | | | | | |

2.11. MUNICIPAL PUBLIC ACCOUNTS COMMITTEE

The committee had the following meetings during the period under review including special meetings and further investigated other matters referred by council in accordance with the approved annual work plan.

Table 2.7 Meetings of the Public Accounts Committee

| No | Details of the Meeting | Total number of meetings held. | Date |
|----|--|--|---|
| 1 | Scheduled as per central diary (Ordinary meeting) | 2 | 25 October 2023 15 May 2024 |
| 2 | Special meeting | 3 | 06 November 2023 15 March 2024 19 June 2024 |
| 3 | Meeting with the Senior Management | 1 | 20 February 2024 |
| 4 | Meeting with the Executive Mayor and Mayoral Committee | 1 | 21 February 2024 |

| 8 | Public Participation | 9 (Clustered wards as per Notice:04/ 2024) | |

2.12 REPORT ON ALL MATTERS/ITEMS REFERRED TO MPAC BY COUNCIL (MPAC)

Table 2.8 Matters Referred to MPAC By Council

The MPAC is appointed by the Municipal Council in accordance with the provisions of Section 79A (3) of the **Municipal Structures Act**, No. 117 of 1998 to, amongst others:

- review the Auditor-General's reports and comments of the management committee and the audit committee and make recommendations to the municipal Council;
- review internal audit reports together with comments from the management committee and the audit committee and make recommendations to the municipal Council;
- initiate and develop the oversight report on annual reports contemplated in section 129 of the Local
 Government: Municipal Finance Management Act;
- attend to and make recommendations to the municipal council on any matter referred to it by the
 municipal council, executive committee, a committee of the council, a member of this committee, a
 councillor and the municipal manager; and
- on its own initiative, subject to the direction of the municipal council, investigate and report to the municipal council on any matter affecting the municipality.

| DATE | ITEM NO & RESOLUTION | DESCRIPTION | ACTION/PROGRESS |
|------------|---|---|---|
| 31/01/2024 | Item 4, That an Oversight Report be submitted to Council by the end of March 2024 | TABLING OF THE ANNUAL REPORT 2022-2023 | Completed Item 39, Council Minutes of 26 March 2024 |
| 31/01/2024 | Item 1, That the unauthorized expenditure of R167 586 698 which relates to non-cash item under VOTE 1- EXECUTIVE MAYOR (COUNCIL GENERAL), VOTE 3-CORPORATE SUPPORT SERVICES, VOTE 4-BUDGET AND TREASURY and Vote 9- TECHNICAL AND INFRASTRUCTURE be referred to MPAC for further investigation. | Report on unauthorised expenditure for financial year ended 2021-2022 | Completed Item 72, Council Minutes of 28 June 2024 |

Implementation is in progress but there have been submission delays on the management's side. (In progress) |

WARD COMMITTEES

The municipality has established 45 ward committees which convened monthly meetings that served as a platform for interaction, engagement and sharing information between the Ward Councilor and committee members. Ward councilors and their ward committees conduct meetings in their areas to give feedback on the performance of the municipality to the communities on a quarterly basis and assist in addressing developmental needs and challenges.

2.13 IDP PARTICIPATION AND ALIGNMENT

PUBLIC PARTICIPATION/COMMUNITY CONSULTATION PROGRAMME IDP REVIEW; MTREF BUDGET AND RELATED POLICIES

For the development of a 5year IDP, it was important that communities and other major stakeholders were consulted. Below is a schedule of meetings that were conducted to consult with communities at different wards as clustered:

| NO | WARD NO/NAME | COUNCILOR | DATE | VENUE | TIME | UNIT ATTENDING | OFFICIAL ATTENDING |
|----|-----------------------------------|-------------------------------|-------|--|-----------------|---------------------------|-----------------------|

The IDP Representative forum made up of Ward Committee Members, Ward Councilors and organized groups was utilized as a platform for extension of public participation.

Prioritized and re-ranked community needs were received, properly analysed as required and incorporated into the Integrated Development Plan (IDP). Public notices were issued after adoption of the Drafts IDP, MTREF and budget related policies inviting comments and inputs on the drafts. A notice was advertised in the local newspaper for inspection of the approved IDP 2022/2027 and the Budget during June 2022. The budget as adopted by the council was informed by the IDP mainly community needs and different sector plans.

INTRODUCTION TO GOVERNANCE

The Rustenburg Local Municipality (RLM) is a Category B Municipality in South Africa as defined in the Municipal Structures Act, No. 117 of 1998 as amended. The Municipality has a well-defined political and

administrative governance system supported by implementation of principles of King III on Corporate Governance.

GOVERNANCE BODIES, GOVERNANCE FUNCTIONS AND OVERSIGHT

Council is the decision-making structure of the Municipality. It is composed of both legislative and executive functions. The Administration is responsible for service delivery, policymaking and regulation.

The separation of functions between legislative and executive arms of Council is a governance innovation implemented to enhance oversight and public participation in Council programmes. This is achieved through the delegation of legislative and executive functions of Council to the legislative and executive arms respectively. Service delivery implementation and policy issues such as Integrated Development Planning and tariffs are delegated to the Executive (led by the Executive Mayor). Legislative functions are delegated to Council and its committees, and these include oversight and public participation. The latter is fundamental to successful delivery of services, accountability, and public consultation in local government.

The Municipality established an independent oversight committee. This arrangement enables improved political and administrative oversight, as well as greater scrutiny and increased accountability within the Council and its entity. This improved oversight has improved the levels of clean governance in the Municipality as well as the levels and intensity of citizen engagement through processes of consultation and communication. The Municipality's governance and institutional arrangements are critical to achieving its vision of a world class city.

For the 2023-2024 financial year, Council had 90 Councilors split equally between 45 ward Councilors and proportional representation Councilors. Councilors were allocated to various committees established in terms of Section 79 and 80 of the Municipal Structures Act. The committees exercise functions delegated to them by Council, primarily oversight and public participation.

2.14 POLITICAL GOVERNANCE STRUCTURE

2.14.1 Political Leadership – Legislative

The political leadership of the Municipality is organized based on legislative and executive functions, i.e., the legislative function of Council is implemented by Council and its committees, led by the Council Speaker, supported by the Single Whip of Council. The Speaker of Council is the Chairperson of Council presiding over Council meetings in accordance with Council's Standing Rules. The Speaker has a responsibility for Section 79 oversight committees and for Council Affairs to develop political governance within the Municipality among Councilors. The Single Whip is an official office bearer, who is a member of the majority party and Single whip of the Majority Party. The single Whip ensures proportional distribution of Councilors to various Committees of Council. The Single whip maintains sound relations among the various political parties by attending disputes among political parties. The mandate of the Legislative Arm of Council focused on; accountability, oversight, and scrutiny; strengthening the capability and Legislative Arm of Council; public participation to safeguard local democratic processes; and sound financial management.

2.14.2 Political Leadership – Executive

The Executive Mayor appointed a Mayoral Committee from among elected Councilors in terms of Section 79 of the Municipal Structure's Act as amended. The Municipality's Mayoral Committee performs those elements of the Executive Mayor's powers and functions as may be designated by the Municipal Council, exercising and performing them in support of the Executive Mayor. The Municipality's Mayoral Committee ensures that service delivery takes place, including but not limited to improving efficiency, credit controls and revenue, and administration of the municipality.

2.14.3 COUNCIL OVERSIGHT

Political oversight functions of Council are exercised primarily through Section 79 Committees. Clear guidelines on how these committees address oversight responsibilities are outlined in the delegated powers. Councilors also physically visit sites where projects are implemented — especially service delivery projects — to fulfil their oversight roles. Other oversight tools include the use of questions by individual Councilors to hold the Executive to account, as well as motions to ensure debate, on Council issues.

To promote oversight and accountability, committees determine priority areas for oversight in respect of each portfolio, which are guided by the priorities of the Municipality as contained in its IDP. In addition, committee visits to projects and service delivery sites assist and complement the Committees' oversight function.

2.14.4. Administrative Governance Structure

Municipal Entity (ME)

The Municipality established a municipal entity (The Rustenburg Water Services Trust) under the Companies' Act of 2008. It exists purely as a service delivery agent for the Municipality, who in this case is the principal or shareholder. The entity is governed through a Service Level Agreement (SLA) signed between the Municipality and the entity. Although the entity has an individual corporate identity, it remains fully controlled by the Council.

2.14.5 CLEAN ACCOUNTABLE GOVERNANCE

The Rustenburg Local Municipality prioritises values of clean governance and in line with best practice, the Municipality has independent structures that serve the objective of giving an unbiased opinion and advice to Council. These include:

- Performance Audit Committee (PAC)
- Risk Committee
- Municipal Entity (RWST) Board of -Trustees
- Municipal Public Accounts Committee (MPAC)

These Committees are capacitated by individuals who are not employees of the Municipality with wide skills sets, including, fields of strategy, institutional performance, finance, accounting, legal, risk management, etc.

COMPONENT D: CORPORATE GOVERNANCE

OVERVIEW OF CORPORATE GOVERNANCE

The scope of corporate governance includes political, administrative, inter-governmental governance and public accountability and participation to ensure that the municipality is managed to the desired requirements of the community and within the rules, processes and laws by which the municipality operates and is regulated and controlled.

2.15 RISK MANAGEMENT

The Municipal Finance Management Act, 2003, section 62 (1) I (i) states that: "the accounting Officer of the municipality is responsible for managing the financial administration of the municipality, and for this purpose take all responsible steps to ensure- that the municipality maintains an effective, efficient and transparent systems of financial and risk management and control" for the achievement of the objectives of the municipality as contained in the IDP.

During the 2023/2024 financial year the municipality implemented the compliance of risk management by ensuring that all systems are in place. The municipality has ensured that:

The Risk Management Implementation Plan has been reviewed and approved by the Risk Committee and PAC. Risk Management Committee meetings were held quarterly as per the Risk Management Implementation Plan for the 2023/2024 financial year.

The Risk Management Policy, Strategy and Risk Committee Charter was reviewed and approved by the RMC, PAC, MM and Council.

A Fraud Prevention Plan and Strategy for 2023/2024 financial year has been reviewed and recommended for approval by the RMC, PAC and approved by Council. Risk Management Unit through the support of NW Department of Corporative Governance Implements Local Government Anti-Corruption Strategy.

Combined Risk Assurance was reviewed by RMC and PAC and approved by Council for the 2023/2024 financial year

The following table presents the municipality's risks and aligns them to the strategic objectives. The treatment and controls in the table are a high-level summary of the top nine (9) risks.

High Level Summary of the Top (09) Risks for 2023/2024 Financial Year

| Risk No | Risk description at Strategic Objective level | | | | | Inherent Risk Rating | |
|---------|--|---|---|----|--|-------------------------|--|
| 1. | Growing outstanding debtors' books. | Nonpayment by Councilors, employees and community members. (Lack of political will to drive revenue collection programs) Lack of performance monitoring of debt collectors. | Loss of revenue | 25 | | | |
| 2. | Recurring water losses | Aged infrastructure, Bypassing of meters, Illegal connections, Un-metered supply, Estimations of readings. Formalization of informal settlements is the long-term plan | Municipality is incurring huge financial losses | 25 | | | |
| 3. | General lack of consequence Management. | Lack of decisive leadership/ inability to enforce accountability | Decline in service delivery performance | 25 | | | |
| 4. | Too many third-party systems (Assets – Market Demand and Payroll) | Not integrating with the main financial system. | AG audit findings | 25 | | | |
| 5. | The Sage system does not block a refund to be done twice to a client | Lack of system security checks | Over payments can be done Fraud might happen | 25 | | | |

| Risk No | Risk description at Strategic Objective level | Cause (Risk at Business unit level) | Consequence (Effect) | Inherent Risk Rating |
|---------|---|---|---|-------------------------|
| 6. | Lack of proper server capacity for the financial system | IT was not involved when the financial system was procured | Lack of server capacity causes the system to be slow | 25 |
| 7. | Vandalism of municipal assets (electric sub-stations, reservoirs, cemeteries fencing) | Performance of appointed security companies is not being monitored properly by the responsible department (Public Safety) Not enforcing any penalties on the security when the municipality has experienced any vandalism or break-ins | Municipality is incurring huge financial losses | 25 |
| 8. | Electricity losses | Aged infrastructure, Bypassing of meters, Illegal connections, Un-metered supply, Estimations of readings. Formalization of informal settlements is the long-term plan | Municipality is incurring huge financial losses | 25 |
| 9. | Illegal water and electricity connections | Illegal connections Aged infrastructure | Water and electrical losses Decreased revenue collection | 25 |

2.16 ANTI-CORRUPTION AND FRAUD

FRAUD AND ANTI-CORRUPTION STRATEGY

The Municipal Council approved the policy on fraud and corruption per item 37 dated 14 November 2007 and the same policy remained relevant for the financial year under review. This policy is based on Code of Conduct for Councilors and Municipal Staff Members (Schedule 1 and 2 of the Municipal Systems Act, 2000) and the Prevention and Combating of Corrupt Activities Act, 2004 (Act No. 12 of 2004).

The policy covers among others:

Zero-tolerance on fraud and corruption.

Using the full might of the law to investigate all incidents of fraud and corruption.

Reporting all incidents of fraud and corruption to the South African Police Services for criminal investigation; and

Recovering losses or damages suffered by the municipality from employees or councilors who are found liable by the court of law.

2.17 **BY-LAWS**

The following By-laws were approved by Council, promulgated and still in force in the area of jurisdiction of the municipality:

To be updated by all Directorates

2.19 COMMUNITY SATISFACTION SURVEY

No Community Satisfaction Survey was conducted for the year under review.

CHAPTER THREE: SERVICE DELIVERY PERFORMANCE (PERFORMANCE PART I)

INTRODUCTION

This chapter presents the annual performance results of the municipality during the 2024/2024 financial year. It will provide reasons where there was underperformance and measures that are taken to remedy the situation.

COMPONENT A: BASIC SERVICES

The Rustenburg Local Municipality is responsible for the following functions in terms of basic service delivery:

Electricity: provided in conjunction with Eskom in certain areas.

Roads and Storm water.
Waste Management; and
Water and Sanitation Services.

Table 3.1 Introduction to Basic Services (Households)

| Basic Service | Actual | Actual | Actual |
|--------------------------------------|--------------------|--------------------|--------------------|
| | Performance (As of | Performance (As of | Performance (As of |

3.4.1 COMMENTS ON THE PERFORMANCE OF WASTE MANAGEMENT

3.4.1.1. Waste Collection Services and Street Cleaning

The waste collection service commenced on a three-year contract from May 1, 2021, to April 30, 2024. Sethanye Trading and Projects (Pty) Ltd was tasked with skip removal within the municipal area, and Katlego Baphiring Trading Enterprise CC handled kerbside collection using compactor trucks. An extension until the end of July 2024 has been granted due to the ongoing SCM process for selecting new bids for waste collection and landfill operations. The internal staff, limited by fleet resources, are focusing on collections for businesses and the CBD. Specialized teams are in place for illegal dumping and street cleaning services. Basic waste collection services are provided to 101,444 residences on the valuation roll. In addition, 3,343 agricultural households do not receive garbage collection services from the Municipality. There have been occasional disruptions in waste collection services, but these issues have been resolved.

3.4.1.2. Landfill Management and Compliance

Mphele Engineers and Project Management is appointed to maintain the Waterval Landfill site for three years, from May 1, 2021, to April 30, 2024. An extension has been granted until the end of July 2024. As part of its rehabilitation, basic utilities and essential infrastructure have been reinstated. The weighbridge system is now functional, the site has been partially enclosed, and electricity has been partially restored to the used office buildings. Gate fees have been collected since April 9, 2018. The implementation of Standard Operating Procedures (SOPs) ensures the facility's safe and compliant operation and management. Additionally, the Integrated Environmental Management Unit performs quarterly internal audits to ensure the Municipality complies with its licensing terms. In accordance with the license requirements, the Municipality has conducted its first external audit, revealing that the Waterval Landfill Site had 71% compliance rate. The compliance dropped to 51% in the 2022/23 Financial year as compliance audit happened during heavy rain in February 2023. The areas of non-compliance, mainly concerning gas and water monitoring, have shown improvement,

rising from 51% in the 2022/23 to 71% period. The inaugural series of surface and groundwater tests were carried out in the 2021–2022 period, with results now available. Gas probes have been installed at the landfill site, providing accessible monitoring data. From July 2022 to June 2023, the Waterval Landfill site processed a total of 82,347,300 kilograms, equivalent to 82,347.3 tonnages.

3.4.1.3. Informal Recycling activities

Throughout the financial year, reclaimers on-site manage various categories of recyclable materials collected from the premises, representing a significant portion of informal recycling activities. By employing this method, recyclers collecting materials on-site managed to divert approximately 79 tons monthly. Leshao Trading oversee the Waterval Landfill Site Recycling Facility, as appointed by Mphele Engineers, while the Moreover, the Municipality supports recycling initiatives by collecting data, conducting educational and awareness campaigns, and establishing market linkages for reclaimers. RLM is in the process of finalizing the appointment of the local SMME to undertake the diversion of garden/organic waste within the Municipal jurisdiction.

3.4.1.4. Marikana Transfer Station

The Municipality started with the construction of the Marikana Transfer Station in 2013. The construction of the Marikana Waste Transfer Station is near completion (over 70%) completion. This is one of the sites identified as a drop off facility for green and recyclable waste. The Project is anticipated to be completed in the 2022/23 financial year as per the discussion with the Provincial Department of Cooperative Governance and Traditional Affairs.

3.4.1.5. Disposal facilities: Communal Sites, Townlands Landfill Site and Strumosa Garden Site

Communal sites:

The Rustenburg Local Municipality managed five communal sites within the Rustenburg region: Lethabong, Marikana, Phatsima, Monakato, and Bethanie. All these sites have been closed, with the authorizing body (DEDECT) issuing closure licenses for them. Initially, the Municipality planned to follow a variation process in line with section 54 of the National Environmental Management Waste Act (Act 59 of 2008). This is the process that will still happen irrespective of any process that RLM may take to have the sites rehabilitated as some conditions in the license are difficult to comply with. In line with Section 57 of the National Environmental Management Waste Act (Act 59 of 2008), the Municipality reviewed the costs related to the formal closure of these sites within the fiscal year and engaged with the Authority to discuss the possibility of license surrender.

The Municipality and DEDECT conducted inspections at Lethabong, Monakato, Phatsima, Marikana, and Bethanie. The Municipality has been advised by an inspection report to formally close Monakato, Lethabong, and Marikana. Consequently, a surrender procedure is to be initiated in Bethanie and Phatsima. Previously, in June 2012, Kremetart and Zinniaville, two mini dumps, were officially decommissioned with minor rehabilitation efforts undertaken. The Bethlehem Drive mini dump was cleaned but not fully restored. Following these actions, the Municipality must secure funding to refurbish public spaces as recommended by the Authorities.

Townlands Landfill site:

The Municipality has issued multiple requests for proposals for the rehabilitation of Townlands. Mine Rehabilitation and Green Economy Holdings was selected to manage the economic benefits of Townlands solely in the 2022–2023 fiscal year. The National Treasury has given feedback, and the Council has approved the appointment of Mine Rehabilitation and Green Economy Holdings, albeit with acknowledged risks. An external legal opinion on the appointment is also received. The appointed service provider has yet to secure the project's funding.

Strumosa Garden Waste Facility:

The facility was initially opened on weekends for the disposal of garden waste only. Since February 2020, the facility started operating from Monday to Sunday only for the disposal of garden waste and it only accommodates residents disposing of garden waste from their households. Residents and companies collecting garden waste for commercial purposes are not allowed to use the facility, however, they can access Waterval Landfill site during operating hours.

3.4.1.6. Expanded Public Works Programme (EPWP)

The Municipality managed to recruit 170 EPWP beneficiaries in 2023/24. These beneficiaries are based in the CBD, supplementing the current human resources the Unit has. The Municipality has further received 11 EPWP beneficiaries contracted by the Provincial Department of Cooperative Governance and Traditional Affairs.

3.4.1.7. Licensing of Private Waste Collectors

The Municipality has started with the process of registering private waste collectors in 2019/20 in line with section 24 (a) (b) of the National Environmental Management: Waste Act (Act No.59 of 2008) read with section 45 of the Rustenburg Local Municipality Integrated Waste By-law, promulgated on the 7th of June 2016. The process involves enforcement and registration of all private waste collectors within the jurisdiction of RLM. The tariffs in line of registering private waste collectors were approved by the Council for implementation.

3.4.1.8. Illegal Dumping Management

Illegal dumping of waste is a serious concern within the municipal jurisdiction. Mushrooming informal settlements are the main contributors to illegal dumping as there are no waste services provided by the Municipality in some of these informal settlements. Even those that are provided with the service, access is a challenge, resulting in the Municipality providing waste services to limited streets. The other biggest challenge in informal settlements is illegal connection of electricity, disabling the Municipality to clear illegal dumping areas. The Municipality has since identified hotspots within its area of jurisdiction and those hotspots are attended to bi-monthly. In its commitment to addressing illegal dumping, the Municipality procured an additional two tipper trucks and one Front End Loader to address the challenge and planned to procure additional yellow fleet for these activities. In managing illegal dumping, the Municipality further uses the services of Producer Responsibility Organisation in ensuring that recycling is promoted within the municipal jurisdiction. There is a need for capacity in the enforcement of the Waste By-law as well as education and awareness programmes.

3.5 LIBRARIES AND INFORMATION SERVICES

3.5.1 INTRODUCTION

The Unit Library and Information strives to provide Library and Information Services through achieving the outlined objectives below: -

- 3.5.1.1. To determine the needs of the community by public participation processes such as the collecting and analysing of data relating to the needs of individuals and groups (e g children, young adults, students, adults, professional people, etc) in the community.
- 3.5.1.2. To extend library services by establishing branch or satellite libraries in unserved areas with funding from the Provincial Government, the Local Municipality and donors.
- 3.5.1.3. To obtain external funds for the establishment of an information and educational network and rendering of excellent Library and Information services in the jurisdiction area of the local municipality
- 3.5.1.4. To build and maintain a community information database and disseminate information to the community.
- 3.5.1.5. To promote library services and instill a reading culture, improve literacy levels and provide free and open access to community and survival information.
- 3.5.1.6. To present programmes such as story hours, talks, life skills training courses, literacy training, etc to promote reading and literature and to contribute to the upliftment of the community.

3.5.2. CONSTITUTIONAL OBLIGATIONS

The MEC for the Department of Arts, Culture, Sports and Recreation has in her budget speech of 23 May 2023 on page 12, committed to addressing the unfunded mandate which will be a phased in approach of multi years where Executive Functions will be assigned, or the service provincialized completely by the Department. Various consultative processes will be followed with Rustenburg Local Municipality, SALGA as will be the case with other Local Municipalities within the Province.

There has not been much progress with regards to this commitment, but the commitment still stands with timelines to be reviewed following appointment of the 7th administration at provincial level which is also expected to provide way forward regarding the un-mandate matter.

3.5.3. LIBRARY USAGE

In this financial year, the municipality managed to provide Library service to not more than 27 of the 45 wards.

3.5.3.1. Information Communication Technology.

Libraries have since 2016 struggled with providing Internet Access to the communities. The Department of Arts, Culture, Sports and Recreation has through SITA appointed service providers to provide internet access to the 14 libraries but with a lot of teething problems such as delays & no clear communication or strategy by service providers appointed by the provincial government to rollout internet access at libraries: limited allocated data, bandwidth and limited coverage.

Engagements are continuous with the provincial department to ensure that in bridging the digital divide Rustenburg Communities have access to internet services being at the dawn of the Industrial Revolution 5.0 (which relates to transformation of the modern manufacturing process to enable man and machine to work hand in hand).

3.5.4. OUTREACH PROGRAMMES

Table 3.5.4.1 Outreach Programmes

| Programme | Key Focus Area | Library |
|---|---|---|
| International mother tongue and read aloud | Under the theme: "monate le maatla a go buisa ditshomo ka loleme lwa ga mme". Translated (the joy and strength of reading stories in one's own mother tongue) Activities including presentations by various community stakeholders, membership drive and awareness on available library and information services | Flagship held at Mamerotse Info-hub on the 21 February 2024 with a combination of the two dates as both are commemorated in February (i.e. World Read Aloud and Mother Tongue). |
| South African Library Week | Theme: libraries fostering social cohesion Activities such as board games, storytelling, awareness on library and information services were shared. | Flagship programme at Save Our Souls (SOS) childrens' village coordinated by Tlhabane Library in marketing services and reaching out to the vulnerable children at this village located in ward 8, Tlhabane West on 22 March 2024 and the week also being celebrated at other libraries on a smaller scale. |
| World book and Copyright Day Commemorations | Under the theme "read your way" Activities including presentations by various community stakeholders, library tour, history of the book from cave paintings to kindles. | Flagship programme at Lethabong Library on the 23 ^{rd of} April 2024 with other libraries also setting up various displays and other promotional programmes |
| International world play day celebrations | Under the theme "toy libraries grow sustainable cities and communities and communities through play" | Flagship programme at Rustenburg Child and Youth Care Centre (RCYCC) in Boitekong on the 22 ^{nd of} May 2024 for children in conflict with the law and other libraries also |

| Programme | Key Focus Area | Library |
|----------------------------|--|--|
| | Activities such as indegenious games, awareness on library and information services were part of the celebrations. | setting up displays and other promotional programmes |
| International Literacy Day | Under the theme "Promoting literacy for a world in transition: building the foundation for sustainable and peaceful societies". Activities including motivation and value of reading at Karlienpark primary in partnership with New Leaf Organisation and Eppik online and debates, reading competition and drama at Mathopestad. | Flagship programme started on the 08 ^{th of} September 2023 at Karlienpark Library and then on the 14 ^{th of} September 2023 in commemoration of International Literacy Day as per activities outlined earlier on. |

3.6 INTEGRATED ENVIRONMENTAL MANAGEMENT SERVICES

3.6.1. The environmental management and protection service of the Rustenburg Local Municipality's area of jurisdiction is based on the following key performance areas:

Environmental Strategic Planning: the main purpose of this KPA is to align the municipality's spatial planning processes, strategies and agreements of the municipality. Under this KPA, the Unit reviewed an Environmental Management Framework (EMF). An EMF is a decision support tool which ensures that the municipality has sufficient information to guide EIA authorization decisions within a specific geographic area. It also provides a compilation of information and maps that are useful in other planning processes, such as the development of IDPs, SDFs and other open space planning applications.

Although the legal mandate for EMFs is vested with the EIA authorities and not directly with the local municipality responsible for land use management in municipal areas, the SPLUMA requires SDFs to take cognizance of any environmental management instrument adopted by the relevant environmental management authority.

The following EIA applications were evaluated for the financial year 2023/2024

Seventy-one (71) EIA applications were evaluated for the financial year 2023/2024 wherein 40 applications were mainly for outdoor advertising. Mining rights and prospecting applications were also received and evaluated.

3.6.2. Challenges with the mining rights applications

The submission of the mining rights applications to the Integrated Environmental Management Unit, by the Applicant (Environmental Assessment Practitioner) is often done whilst the Environmental Authorisation has been issued by DMRE. The Municipality as the Interested and Affected Party is allowed 30 days' period to comment on the application, also, the delay by the EAP in responding to the request by the Municipality for site inspection and additional information adds to the challenges.

Integrated Environmental Management invited the Department of Mineral Resources and Energy to discuss issues pertaining to mining rights applications, but the Department never responded. This matter needs to be treated as a matter of urgency since the applications are starting to pick up momentum.

The evaluation was based on the Environmental tools such as

- Bojanala District Environmental Management Framework, wherein the revised RLM EMF is infused.
- EIA Regulations of 04 December 2014 as amended (07 April 2017) promulgated under section 24 read with section 44 of the National Environmental Management Act (NEMA), 1998 as amended,
- Integrated Environmental Management Policy

The Environmental tools mentioned above ensure an emphatic environmental strategic planning within the municipality. An EMF in the municipality is also integrated in the Municipal Spatial Development Framework (SDF) and provides a basis for the integration of environmental factors in municipal plans such as land use schemes (LUS) and Integrated Development Plans (IDP).

The Legislative Compliance activities of the Unit guide the municipality in terms of environmental legislation to ensure that the constitutional rights of all citizens are protected. The enforcement of legal stipulations and regulatory frameworks within the municipal area is of utmost importance for the municipality. The Environmental tools used for legislative compliance are:

JOINT COMPLIANCE AND INSPECTIONS WITH DIFFERENT STAKEHOLDERS

- 1. 20 x Joint compliance and inspections with Bojanala Platinum District Municipality in the mines for applications and variations of atmosphere emission licenses (AELS) and to check compliance with environmental legislation and authorizations.
- 2. 10 x Joint compliance and inspections with the Department of Economic Development, Environment, Conservation, and Tourism (DEDECT) to check compliance with environmental legislation and authorizations in different facilities.

AMBIENT AIR QUALITY MONITORING STATIONS REPORTS

Rustenburg Local Municipality is monitoring ambient Air Quality through the Ambient Air Quality Network, namely Marikana and Boitekong Stations. Thabane Station was not operational and in the process of recommissioning. Integrated Environmental Management Unit, over and above the report drawn from the 2 Operational Rustenburg Local Municipality Stations, requested ambient air quality reports from the Mines: Anglo. A comparison is done every month between the results of Anglo and RLM Stations to check exceedances. The compared results are discussed with the Mines where exceedances were recorded.

- 8 X Rustenburg Local Municipality Ambient Air Quality Reports for the year 2023/2024
- 8 X Anglo Platinum Ambient Air Quality Monitoring Reports for the year 2023/2024

Environmental Education and Awareness Programmes

Environmental Education and Awareness, the sharing of knowledge, skills and experience and other appropriate means".

The 2023/24 Environmental Education and Awareness programmes were conducted in an integrated approach which considered Environmental, Waste and Air Quality Education and Awareness.

It is against this approach that a 100% of Education and Awareness Programmes were conducted for the first and second quarters of financial year 2023/24. The Scorecard of the Directorate was amended, and a total of 32 Education and awareness programmes were conducted for the third and fourth quarters of the financial year 2023/2024.

Education and Awareness programmes are derived from the principles of the National Environmental Management Act (Act NO 107 of 1998) (NEMA). The principle that states" Community wellbeing and empowerment must be promoted through environmental education, and the raising of awareness.

3.7 COMPONENT B: COMMUNITY FACILITIES

INTRODUCTION

Community Facilities include Parks, Cemeteries & Horticultural Services, Sports & Recreation and Civic Centre and Community Halls. A Unit Head who is in charge of all the three sections (Parks, Cemeteries & Horticultural Services, Sports & Recreation and Civic Centre & Community Halls), leads the Unit Community Facilities. The Unit Head is supported by an Administrative Assistant in the running of the Unit. The Sections are as follows:

3.7.1. SPORTS AND RECREATION

There are five (5) public swimming pools managed by the municipality. These are Marais Street swimming pool, Middle Street swimming pool, Zinniaville swimming pool, Karlienpark swimming pool and Monakato swimming pool. The total number of patrons utilizing municipal swimming pools during the Operational Season has decreased due to failure to attract additional external part-time Lifeguards to augment our existing number, and as well as failure to procure relevant swimming pools pumps, all this which led the municipality in opening only two (2) swimming pools during the 23/24 financial year.

The municipality has well developed sports facilities under its assets register namely: Olympia Park Stadium, Lethabong Sports Facility, Impala Rugby Club, Impala Bowling Club, Rustenburg Tennis Club, Protea Park Tennis Club. The following sports facilities have downgraded their status due vandalism mostly caused by the lack of physical security and also due to lack of maintenance, eg: Zinniaville Sports Facility, Boitekong Stadium, Monakato Sports Facility, Lethabong Sports Facility, East End Sports Facility. The Impala Cricket Club (facility) has been vandalized during 2021/2022 financial year).

The following facilities have also been severely vandalized: Rankelenyane sports ground, Meriting Sports ground, Meriting swimming pool, Tlhabane swimming pool, Karlienpark sports complex, Mathopestad sports ground, Paardekraal X1 sports ground and Robega sports ground, Tennis clubhouse and courts, six mabone sports ground and hockey club houses at Olympia Park Stadium, Tlhabane sports ground ablution facility and Bester sports ground.

In addition, the municipality is also attending to approximately 70 rudimentary sports grounds that are maintained through a quarterly maintenance programme which includes grass cutting, litter picking and grading (mostly provided through Road's assistance). Some of these facilities are not municipal property but in efforts to ensure that all communities are serviced by the municipality, they are part of the maintenance programme through grass cutting and grading of the sports grounds.

New lease agreements were entered into during April 2024 between the Municipality and the Impala Rugby Club and the Bowling Club respectively. Mmabana Arts Culture and Sports Foundation is another client occupying the Sports Hall by means of a lease agreement. The lease agreement is due for renewal as it expired on the 31st of May 2024.

3.7.1.1. Number of paid bookings for use of sports facilities the period 1 July 2023 to 30 June 2024

| Jul | Aug | Sep | Oct | Nov | Dec | Jan | Feb | Mar | Apr | May | June | Total |
|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|------|-------|
| 02 | 02 | 00 | 00 | 02 | 03 | 00 | 02 | 00 | 01 | 00 | 00 | 12 |

3.7.1.2 Free Use Bookings for use of sports facilities for the period 1 July 2023 to 30 June 2024

| Jul | Aug | Sep | Oct | Nov | Dec | Jan | Feb | Mar | Apr | May | June | Total |
|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|------|-------|
| 15 | 09 | 02 | 01 | 03 | 03 | 08 | 07 | 02 | 00 | 00 | 00 | 50 |

Number of free usages at sports facilities were 50 amounting to a loss of R99 540.00 for the financial year 2023/24

Number of paid bookings totals 12 with an income amount of R28,000 for the financial year 2023/24

Total income received from long-term rentals during the financial year = R290 400.00

Impala Rugby Club payment of R1500 per month for the period (July 2023 to June 2024) amounts to R19 500.

Impala Bowling Club payment of R1500 per month for the period (July 2023 to June 2024) amounts to R28 500

Mmabana Sports Hall payment of R20,200 for the period (July 2023 to June 2024) amounts to R242 400

3.7.2 Staff Component

| Position | Gender and Numb | er |
|---------------------------------------|-----------------|-------|
| Section Manager | | F x 1 |
| Admin Assistant | | F x 1 |
| Sports Liaison Officer | M x 1 | |
| Marketing Officer | M x 1 | |
| Assistant Horticulturist | M x 1 | |
| Caretaker | Vacant x 1 | |
| Swimming Pool Superintendent | M x 1 | |
| Team Leader (Pools) | M x 1 | |
| Swimming Pool Instructors | M x 5 | |
| Generalist Workers (Sports) | M x 4 | F x 5 |
| Generalist Workers (Sports) Temporary | None | |
| Generalist Workers (Pools) | M x 7 | F x 5 |
| Machine Operators (Sports) | M x 5 | F x 1 |
| Machine Operators (Pools) | M x 1 | |
| Tractor Drivers | M x 1 | |
| Total | 26 | 13 |
| | | 39 |

3.7.3 CHALLENGES

Lack of physical security at most facilities including Olympia Stadium, Boitekong Stadium, Monakato Sports Grounds

Lack of maintenance on buildings

Vandalism and theft

Shortage of qualified lifeguards at pools

Lack of machinery and equipment (due to theft)

Shortage of fleet (vehicles, grab truck, cherry picker)

3.8 CIVIC CENTRE AND COMMUNITY HALLS

3.8.1 Section 13 of the Local Government Municipal Systems Act, 2000 [Act 32 of 2000] read with Section 162 of the Constitution of the Republic of South Africa Act 1996 [Act 108 of 1996] enables the municipality to prepare and present the By-Laws for the Hire and Use of Community, Arts and Culture Facilities which regulates the hire and use of these facilities below:

Table 3.8.2 Areas where halls are located

| No. | Location / Area | Ward |
|-----|--|---|
| 1 | Tlhabane | 9 |
| 2 | Monakato | 25 |
| 3 | Phatsima | 1 |
| 4 | Marikana | 31 |
| 5 | Sunrisepark (vandalized) | 22 |
| 6 | B Tause (Lethabong) | 27 |
| 7 | Rustenburg Old town hall | 42 |
| 8 | Meriting | 12 |
| 9 | Ben Marais | 13 |
| 10 | Zinniaville | 43 |
| 11 | WA van Zyl | 16 |
| 12 | Makolokwe (handed over by District Municipality) | 29 Not yet in the Municipality asset register |
| 13 | Paardekraal Extension 23 | 40 |
| 14 | Banquet Hall | 15 |
| 15 | City Hall | 15 |
| 16 | Atrium | 15 |
| 17 | Boitekong | 21 |
| 18 | Auditorium | 15 |
| 19 | Robega (handed over by District Municipality) | 2 Not yet in the Municipality asset register |
| 20 | Molote City (handed over by District Municipality) | 36 Not yet in the Municipality asset register |
| 21 | Mamerotse (handed over by District Municipality) | 28 Not yet in the Municipality asset register |

3.8.3 Paid up bookings for use of community halls record for the period 1 July 2023 to 30 June 2024

| Jul | Aug | Sep | Oct | Nov | Dec | Jan | Feb | Mar | Apr | May | June | Total |
|------|------|-----------|------------|------------|--------|-----------|--------|------------|--------|-----------|--------|---------------|
| 23 | 33 | 23 | 71 | 45 | 10 | 16 | 14 | 22 | 14 | 25 | 18 | 314 |
| R101 | R229 | R47115.40 | R314008.40 | R143553.80 | R38049 | R39833.40 | R38252 | R103169.80 | R41468 | R94721.60 | R39278 | R1'230'968.40 |
| 883 | 636 | | | | | | | | | | | |

3.8.4 Free use bookings for use of community halls for the period 1 July 2023 to 30 June 2024

| Jul | Aug | Sep | Oct | Nov | Dec | Jan | Feb | Mar | Apr | May | June | Total |
|---------|--------|--------|--------|---------|--------|--------|--------|--------|---------|---------|--------|------------|
| 42 | 35 | 22 | 40 | 49 | 7 | 49 | 4 | 8 | 18 | 31 | 27 | 332 |
| R110149 | R19864 | R88472 | R15419 | R206427 | R19806 | R23219 | R11967 | R20613 | R112110 | R131364 | R98387 | R1'175'358 |
| | 8 | | 6 | | | | | | | | | |

3.8.5 CHALLENGES

The following challenges were encountered during the financial year under review:

- 3.8.5.1 Chiller Plant at Rustenburg Civic Centre remains un-operational, with no back-up power supply
- 3.8.5.2 The current generator is not sufficient to power the entire building. Sections powered are basement parking, Banguet hall foyer and Council Chamber foyer only.
- 3.8.5.3 Vandalism and theft
- 3.8.5.4 Shortage of staff due to retirement, resignation and death, positions are not filled.

3.8.6 Staff

| Position | Gender | Number | |
|--------------------------|--------|--------|--|
| Section Manager | Vacant | | |
| Admin Assistant | F | 2 | |
| Sound & Light Technician | M | 1 | |
| | F | 1 | |
| | | | |
| Caretaker | M | 4 | |
| Regional Caretaker | F | 2 | |
| Generalist Worker | M | 06 | |
| Generalist Worker | F | 20 | |
| Total | | 36 | |

3.9. PARKS AND CEMETERIES

3.9.1. EXECUTIVE SUMMARY

The Constitution of RSA provides a far overarching legislative framework within which all natural and juristic persons must comply. In terms of Section 155 and 156 of the Constitution of RSA, the establishment, management and administration of cemeteries are functions of the Municipality while Provinces simply have a monitoring role in respect of such functions.

3.9.2. BACKGROUND

Rustenburg Local Municipality has fifteen (15) municipal cemeteries under its management. Most are active while some are inactive. The below table indicates a list of Municipal cemeteries:

3.9.3. STATUS OF MUNICIPAL CEMETERIES

| NO. | WARD | CEMETERY | START | SIZE | STATUS AND | COMMENTS |
|-----|------|----------|-----------|------|-----------------|---------------------------------|
| | | NAME | YEAR OF | | BURIAL SPACE | |
| | | | OPERATION | | LEFT | |
| 01 | 01 | Phatsima | 1985 | 06Ha | 1½ Ha. Needs | Full fencing of about 1000m |
| | | | | | new fencing and | required for 23/24 FY. |
| | | | | | upgrading of | About R 800 000 is required for |
| | | | | | | this. |

| NO. | WARD | CEMETERY NAME | START YEAR OF OPERATION | SIZE | STATUS AND BURIAL SPACE LEFT | COMMENTS |
|-----|------|---------------------------------|---|--------------|---|--|
| | | | | | ablution facilities | This burial site also needs to be extended. Fencing was not done due to limited budget. Land identification by DPHS in progress for Burial site |
| 02 | 07 | Tlhabane – Motsatsi | 1964 | 05На | Closed. Reached capacity | Full wall fencing is required. Only reopenings and unveilings of tombstones were allowed. Application has been made to Glencore for construction of the wall. Awaiting formal response from Glencore. |
| 03 | 10 | Tlhabane- Moraka | Early 1940's | 01Ha | Closed. Reached capacity | Full wall fencing is required. Limited budget hindering full wall fencing |
| 04 | 14 | Donkerhoek | 1903 | 12 Ha | Reached capacity in 2011. Only reserved and re-openings are allowed | Kremetart extension with 2 hectares in progress. EIA processes finalized on 19/20 and fencing envisaged to be finalized in 21/22 and ablution facilities, water and electrical connections of about R1m required for 21/22 financial years. Demarcation on the expansion site was done. Razor wire fence was installed during 23/24 financial year. |
| 05 | 16 | Rietvlei - Developed area | 2011 Not yet | 30На 20На | Active. | Cemetery is active. MIG Funding was approved in 2021/22 financial year. The cemetery fence was vandalized during 23/24 financial year including ablution buildings within the cemetery. R15 m budgeted for |
| | | area | developed nut was fenced during 2022-23 financial year. | | | development during 2023-24 financial year utilizing MIG grant. |
| 06 | 42 | Pioneer | Mid 1800's | 1½Ha | Closed due high- water table | Rietvlei cemetery is used as an alternative burial site. The Muslim area has been prepared for additional burial during 23/24 financial year. |

| NO. | WARD | CEMETERY NAME | START YEAR OF OPERATION | SIZE | STATUS AND BURIAL SPACE LEFT | COMMENTS |
|-----|------|----------------------------|-------------------------------|------|------------------------------------|--|
| 07 | 21 | Boitekong | 1995 | 01Ha | Closed due high- water table | A new cemetery was to be developed for the greater Boitekong area. Challenges with suitable land for cemetery by DPHS. Rietvlei cemetery is an alternative burial area. |
| 08 | 22 | Sunrise | 1998 | 03Ha | None. Reached its capacity | A new cemetery was to be developed for greater Boitekong area including Sunrisepark. Needs full fencing. Rietvlei cemetery is an alternative burial area. |
| 09 | 25 | Monakato (02) | 1972 | 08Ha | Active | Active. Fencing and ablution facilities need upgrading. Not yet upgraded due to limited budget |
| 10 | 25 | Monakato (01) | 1968 | 01Ha | Closed due to high water table | Closed due to high underground water level. Fencing needs upgrading. |
| 11 | 27 | Lethabong (01) | 1984 | 10Ha | Active | Active. Fencing needs upgrading. Not yet upgraded due to limited budget |
| 12 | 28 | Lethabong (02) | 2000 | 06На | Closed. Reached capacity. | Closed. |
| 13 | 28 | Lethabong (03) | 2000 | 20Ha | 18 Hectares. Active | Active. Fencing needed. Ablution facilities need upgrading. Not yet upgraded due to limited budget |
| 14 | 32 | Marikana | 2011 | 20Ha | Active | Full fencing and upgrading of ablution facilities are needed. Not yet upgraded due to limited budget |
| 15 | 43 | Zinniaville Karlienpark | August 1976 | 02На | Active | Christian burial site is left with few grave sites. Rietvlei cemetery will be used as an alternative burial site. Negotiations with Muslim committee to utilize Pioneer cemetery was concluded during 23/24. |

3.9.4. BUDGET REQUIREMENTS FOR FENCING OF MUNICIPAL CEMETERIES

| Cemetery name | Size | Required budget | Type of fencing |
|---|-------------|---|---|
| Fencing and roads in Kremetart Street (Donkerhoek cemetery) | 02 hectares | Fencing done during 2022- 23 R1 000 000 – Development of internal roads. | Treated poles and razor mesh used to fence off the area. |
| Perimeter Wall of Marikana Cemetery | 20 hectares | R2 000 000 | Perimeter Wall fencing – Brick wall |
| Fencing of Tlhabane- Motsatsi Cemetery | 5 hectares | R2 500 000 | Perimeter Wall fencing – Brick wall |
| Fencing of Tlhabane - Moraka cemetery | 1 hectare | R1000 000 | Perimeter Wall fencing – Brick wall |
| Upgrade fencing - Monakato cemetery | 1 hectare | R800 000 | Treated wooden poles and razor mesh wire |
| Upgrade fencing & Additional Ablution - Phatsima cemetery | 6 hectares | R1 600 000 | Treated wooden poles and razor mesh wire, wall at the back. |
| Upgrade fencing- Lethabong cemetery 01 | 10 hectares | R1000 0000 | Treated wooden poles and razor mesh wire |
| Upgrade fencing- Lethabong cemetery 02 | 6 hectares | R1000 000 | Treated wooden poles and razor mesh wire |
| Upgrade fencing- Lethabong cemetery 03 | | | Treated wooden poles and razor mesh wire |
| Upgrade fencing - Donkerhoek cemetery | 12 hectares | | Fencing done during 2022-23 & 23/24 financial year |
| Fencing of Sunrise cemetery | 3 hectares | R400 000 | Treated wooden poles and razor mesh wire |

3.9.5 CONSOLIDATED BURIAL REPORT JULY 2023 – JUNE 2024

3.9.5.1 BURIALS

| MONTH | TOTAL NO OF BURIALS | AMOUNT |
|----------------|---------------------|---------------|
| | | |
| June 2023 | 91 | R104 028.00 |
| July 2023 | 104 | R132 197.00 |
| August 2023 | 86 | R110 016.00 |
| September 2023 | 98 | R129 214.00 |
| October 2023 | 129 | R61 793.00 |

3.9.6. PARKS AND OPEN SPACES

3.9.6.1. Status of Parks and Open Spaces in the Municipality

| Ward | Description | Status |
|------|---|---|
| 07 | Tlhabane park GG (Pule Street) | Needs overall development i.e., irrigation lawn, planting of new trees, Fencing, ablution block renovations new playing and gymnasium equipment, waste bins |
| 11 | Tlhabane park (new) | Vandalized. Needs proper fencing, repair of ablution facilities, upgrading, repair of irrigation system (pressure pumps, water tanks 10 000 lt x 4 renovations (install windows, full plumbing and electrification and replacing of all playing and gymnasium equipment, repair of braai area, waste bins |
| 09 | Bester Park | Partly developed. No fencing, playing equipments, fencing, ablution facilities, waste bins, bollards, irrigation system, planting of new trees and braai area(s) |
| 13 | Noord / Kloofspruit park | Vandalized. Needs repair of fence, ablution facilities, Repair of kiosk, installation of play equipment, new trees, waste bins and electrical components. |
| 15 | Paul Bodenstein Park | Vandalized. Needs fencing, repair of ablution facilities, dams, irrigation system, electricity, replacing play equipment and water feature, repair of mass lights and waste bins. Upgrading by business community in partnership with RLM started during 21/22 financial year |
| 14 | Joubert / Burgers Ford Park | Fenced with bollards. Irrigation system needs to be repaired, new trees, waste bins and ablution blocks |
| 18 | Dawes Park | Needs to be fenced with bollards. Needs play equipment, mass lights, ablution block, new trees and waste bins. New trees planted during 2021/22 financial year |
| 16 | Kruisbessie park | Well fenced. Needs development |
| 01 | Phatsima hall and fire station surroundings | Both needs garden development |

| Ward | Description | Status |
|------|-------------------------------|---|
| 14 | Main Library Garden | Well-developed |
| 15 | Civic centre | Well-developed but irrigation system needs upgrading |
| 14 | Fire department | Well-developed |
| 08 | Traffic department | Well-developed. Needs repair of irrigation system |
| 15 | Visitors Information centre | Needs upgrading of irrigation system |
| | garden | |
| 42 | Mpheni house and surroundings | Irrigation system is operational, and development of garden in |
| | garden | progress |
| 16 | Kremetart old age home garden | Well developed |
| 31 | Marikana RCC | Well maintained. Needs garden development |
| 32 | Kruger Park | Fencing, irrigation system, waste bins, ablution blocks, 3 mass |
| | | lights, new trees, walkways and playing equipment |
| 33 | Old Library RTB North | Garden development |
| 34 | Phatsima Fire dept | Garden development |

3.9.6.2. Staffing: Parks and Open Spaces

| Position | Gender | Number |
|---------------------------|--------|-----------------|
| Section Manager | M | 01 |
| Admin Assistant | M | 01 |
| Regional Supervisors | M | 03 (vacant x 1) |
| Assistant horticulturists | M | 01 |
| Horticulturist | M | 02 |
| Senior horticulturist | | 01 (vacant) |
| Generalist Worker | F | 17 |
| Generalist workers | M | 12 |
| Field ranger | M | 01 |
| Tractor drivers | M | 06 |
| Truck driver | M | 01 |
| Machine Operators | M | 20 |
| Team Leaders | M | 01 (vacant) |
| | Total | 62 |

3.9.6.3. Staffing: Cemeteries

| Position | Gender | Number |
|--------------------------|--------|-------------|
| Section Manager (same as | M | |
| Parks) | | |
| Admin Assistant | F | 01 |
| Aid clerk | M | 01 |
| Caretaker | M | 01 |
| Team leader | M | 01 (vacant) |
| Generalist Worker | M | 16 |
| Generalist Worker | F | 02 |
| TLB Operators | M | 02 |
| | Total | 23 |

3.9.7 . KEY FUNCTIONS CARRIED BY THE SECTION 2023/2024: PARKS AND CEMETERIES

Grass cutting on municipal premises, sidewalks, open spaces including cemeteries.

Removal of Alien Invaders species at municipal buildings, pathways, road reserves and open spaces

Tree pruning and branches collection.

Garden maintenance.

Digging and shaping of graves.

Allocation of grave numbers and monitoring of funerals.

Partnership with Day EPWP beneficiaries.

Adopt a park initiative

3.9.8. CHALLENGES FACED BY PARKS AND CEMETERIES SECTION

Unavailability of suitable land for cemetery development. The population is growing at a rapid pace, therefore there is huge residential and industrial demand for land to respond to the population growth.

Graves with high mounds should be stopped – Maintenance is also an issue if mound remains as you cannot use ordinary grass mowing machines.

High rate of theft and vandalism in cemeteries and parks.

Lack of security personnel and reaction forces in cemeteries and parks.

Poor turnaround time for repairs of fleet and equipment.

Lack of equipment and machinery for both Parks and Cemeteries

Shortage of staff due to retirement and resignations and position not filled.

3.9.9. CIVIL & FACILITIES MANAGEMENT UNIT

INTRODUCTION

The objective of the Civil & Facilities Management Unit is to ensure that the physical environment and infrastructure of a facility or building support the council's core business operations and the well-being of its occupants. The Unit encompasses a wide range of tasks and responsibilities aimed at optimizing the functionality, safety, efficiency, and overall performance of the workplace.

Some of the key objectives of Civil & Facilities Management Unit in the workplace include:

<u>Maintenance and Asset Management:</u> Ensuring that the facility's assets, including buildings, equipment, and systems, are well-maintained, efficient, and reliable. Regular maintenance and proactive asset management help prevent breakdowns, extend the life of assets, and minimize disruptions to business operations.

<u>Health and Safety:</u> Prioritizing the health, safety, and well-being of the occupants by creating and maintaining a safe and healthy work environment. This includes adherence to building codes, safety regulations, fire safety measures, emergency planning, and ergonomic considerations.

<u>Space Utilization and Optimization:</u> Maximizing the effective use of available space within the workplace. The Head of Civil & Facilities Management analyzes space requirements, plan layouts, and optimizes office configurations to enhance productivity and accommodate the changing needs of the organization.

<u>Cost Efficiency:</u> Managing facilities in a cost-effective manner by optimizing energy consumption, implementing sustainable practices, and identifying cost-saving opportunities without compromising on quality and safety.

<u>Environmental Sustainability:</u> Incorporating environmentally sustainable practices to reduce the facility's ecological footprint. This may include energy-efficient lighting, waste management, water conservation, and promoting eco-friendly initiatives throughout the workplace.

<u>Workplace Experience:</u> Fostering a positive workplace experience for employees, visitors, and clients by providing a clean, comfortable, and well-maintained environment. This can contribute to employee satisfaction, productivity, and overall organizational success.

<u>Compliance and Regulatory Adherence:</u> Ensuring compliance with relevant laws, regulations, and industry standards related to facility management, workplace safety, accessibility, and environmental impact.

<u>Emergency Preparedness:</u> Working together with Disaster and Emergency Unit in developing and implementing emergency response plans to handle various crises, such as natural disasters, security incidents, and medical emergencies, ensuring the safety and well-being of occupants.

Overall, Civil & Facilities Management in the workplace aims to create a conducive and efficient work environment that supports the organization's objectives, enhances productivity, promotes employee well-being, and aligns with sustainable and ethical practices.

BACKGROUND

The Civil & Facilities Management Unit is responsible for providing building maintenance to all buildings under the custodianship of the Rustenburg Local Municipality. There are more than 90 facilities that the Unit is responsible for, and these facilities comprises of 14 Libraries, 14 Office Buildings, 3 Traffic Departments, 16 Halls, 22 Sport Facilities, 3 Fire Fighting Stations, 6 Parks, 9 Cemeteries, 9 Regional Community Centre (RCC).

MAINTENANCE TEAM

The Building Maintenance Team which is responsible for all the buildings consist of the Foreman, Special-workman, Artisan Electrician, Artisan Plumber and two Generalist Workers. The recorded maintenance request received and addressed per quarter were as follows:

| QUARTER | COMPLAINT RECEIVED | JOBS COMPLETED | % ACHIEVED |
|-------------------------|--------------------|----------------|------------|
| Q1 (July – September) | 300 | 259 | 86% |
| Q2 (October – December) | 237 | 205 | 86.5% |
| Q3 (January – March) | 257 | 230 | 88% |
| Q4 (April – June) | 130 | 125 | 96% |

MAINTENANCE BUDGET

The Unit needs more budget to accommodate all facilities, but due to financial constraint only a few facilities can be prioritized. The allocated budget for maintenance tabled below:

| TYPE | VOTE NUMBER | DESCRIPTION | ALLOCATED BUDGET |
|-------|--|--------------------------|------------------|
| OPEX | O0001/IE00649/F2496/X055/R0332/001/305 | Maintenance of | 13 380 830 |
| | | Buildings | |
| | | | |
| CAPEX | C0306- | Revamp of | 1 000 000 |
| | 2/IA00032/F0002/X057/R0333/001/305 | Mpheni | |
| | | | |
| CAPEX | C0327-3/IA00092/F0002/X006/R0333/001/305 | Installation of | 1 060 000 |
| | | fencing at various | |
| | | municipal facilities | |
| | | | |
| CAPEX | C0306-2/IA00032/F0002/X006/R0332/001/305 | Renovation of East End | 600 000 |
| | | Sport Facility Buildings | |
| CAPEX | C0306-1/IA00032/F0002/X057/R0333/001/305 | Refurbishment of the | 950 000 |
| | | Civic Centre | |
| CAPEX | C0245-3/IA06473/F0002/X006/R0333/001/305 | Backup Water Supply | 800 000 |

ACHIEVEMENTS

| NO: | PROJECTS DESCRIPTION | STATUS |
|-----|--|---|
| 1 | Servicing of firefighting equipment for a period of 36 month - RLM Facilities | The project is ongoing. The project will be completed in January 2025 |
| 2 | Appointment of a service provider to repair and maintain Waste Staff Ablution Facilities | The project was completed in March 2024. |

| NO: | PROJECTS DESCRIPTION | STATUS |
|-----|--|--|
| 3 | Appointment of a service provider to repair and maintain the basement staff restroom and showers | The project was completed in June 2024 |
| 4 | Appointment of the service provider to supply and install pumps at Mpheni Flood Tunnels and Basement | The project was completed in May 2024 |
| 5 | Installation of a new windows at Mpheni Building | The project is ongoing. The project will be completed in November 2025 |

CHALLENGES

The Civil & Facilities Management Unit faces a range of challenges, particularly as buildings become more complex, organizations demand higher efficiency, and expectations for employee experience and sustainability increase. Some of the key challenges experienced by the Unit are, but not limited to:

- Bid Committee Delays: Bidder could not be appointed due to delays at Supply Chain Management leading to validity period expiring. These delays had serious consequences for the organization as projects for 2023/24 will need to be funded under the 2024/25 financial year.
- Cost Management: Balancing the need to maintain and improve facility performance while operating within budget constraints can be challenging. Rising operating costs, fluctuating energy prices, and maintenance expenses make it crucial for the Head of Civil & Facilities Management Unit to find cost-effective solutions without compromising on service quality.
- Aging Infrastructure: Many facilities and buildings have aging infrastructure, which requires constant
 maintenance and upgrades. Dealing with older systems can be challenging, as it may involve managing
 obsolete equipment, sourcing spare parts, and making retrofitting decisions.
- *Understaffed:* Maintenance of buildings is a day-to-day activity which needs personnel who are well equipped with vast experience in the construction industry to deliver services expected by the clients. The Unit, through engagement with the Corporate Support Services, will review the current structure to ensure that it is aligned with the status qou.
- Sustainability and Environmental Compliance: Civil & Facilities Management Unit must address increasing expectations for sustainable practices and environmental compliance. This includes reducing energy consumption, implementing green building practices, waste management, and meeting regulatory requirements for environmental protection.
- Safety and Security: Most buildings/facilities lack access control as it is easy to visit anyone without an appointment which poses the risk of officials being attacked. Ensuring the safety and security of employees and clients is a top priority for the Rustenburg Local Municipality. This involves implementing robust safety measures, emergency planning, and addressing security threats.
- Workplace Experience: As workplaces become more focused on employee well-being and productivity,
 the Head of the Civil & Facilities Management Unit must create spaces that provide a positive user
 experience. This involves considering elements such as office layout, lighting, acoustics, temperature,
 and amenities that contribute to a conducive work environment.
- Talent and Skills Gap: The industry faces a shortage of skilled professionals, especially with the growing complexity of buildings and the integration of technology. Attracting and retaining qualified talent becomes a challenge, requiring investments in training and development programs.

• Regulatory Compliance: Compliance with building codes, safety standards, environmental regulations, and other legal requirements is essential. Keeping track of ever-changing regulations and ensuring adherence can be time-consuming and complex.

Addressing these challenges requires strategic planning, consequence management, adequate funding, collaboration with stakeholders, continuous learning, vacant positions being filled and a proactive approach to Facilities Management.

COMPONENT C: PLANNING AND HUMAN SETTLEMENT

3.10 PLANNING AND HUMAN SETTLEMENT (DPHS)

3.10.1 INTRODUCTION PLANNING AND HUMAN SETTLEMENT

The Directorate Planning and Human Settlement consists of four Units: Estate Administration and Land Sales; Building Control and Regulations, Development Planning and Housing Provision. The directorate's main function is to ensure that development occurs in line with the Spatial Development Framework, Land Use Management Scheme and Rustenburg Land Disposal Policy. Further it contributes to ensuring that there is a conducive environment for the creation of sustainable human settlements.

3.11 ESTATE ADMINISTATION AND LAND SALES UNIT PURPOSE

The purpose of the Unit Estates Administration and Land Sales is to ensure success in all administration of land transactions by providing precise information and understanding of the physical characteristics of the capital assets including applications management and analysis, land specific data compilation, facilitation of land surveys, report writing, and most importantly, compliance to all legislative prescripts.

FUNCTIONS

The Unit's primary function is to initiate, manage and co-ordinate the administration of real estates and land management within the municipal area; to provide strategic advisory role relating to activities of land capital investment, disposal of single asset and /or entire portfolios and identification of possible scenarios for the positioning of municipal land portfolio in the open property market.

This function involves obtaining and maintaining value from the property portfolio by effectively administering and leasing, acquiring and selling, and ensuring maintenance of the property register. Ensure continued success in all asset management operations by providing precise information and understanding of the physical characteristics of the portfolio or the assets.

3. LAND DISPOSAL

The council may alienate land or rights on land by means of direct sale, public tender, auction, or donation once it is satisfied that such property or right is not required to provide the minimum level of basic Municipal service.

The Land Disposal section is tasked with the following responsibilities (but not limited to):-

Manage all Council owned land

Manage the lease of land to private parties, the mines, telecommunications, government and other organisations

Issue rights to use land for servitudes and wayleaves; and regulate the use of the land

Make sure that all land is sold for development purposes and not to third party

Ensure that conditions of sale are being complied with

Keep and maintain the asset register

Manage availing land to government institutions and NGOs for social amenities

Liaise with conveyancing attorneys to administer land sale transfers

Meet development planners and interested parties for land availability discussions

Analyse the development proposals and direct development when land is sold for development purposes.

Legislative Framework

The following legislative framework is what informs the disposal of land:

Municipal Finance Management Act (Act 56 of 2003)

Sections 14 read with 90 of the Local Government: Municipal Finance Management Act No 56 of 2003 ("the MFMA") provide that the Municipality may not dispose of any of its capital assets needed to provide a minimum level of basic municipal services, unless in a meeting open to the public, has decided on reasonable grounds that the asset is not needed to provide such minimum level of basic municipal services. The fair market value of the asset and the economic and community value to be received in exchange for the asset must be considered. The transfer of ownership must be fair, equitable, transparent, competitive, and consistent with the Municipality Supply Chain Management Policy.

Rustenburg Land Disposal Policy

The objective of this policy is to provide a framework for the disposal or transfer of immovable assets or rights thereof and the management and use of Council's immovable property in the event that the property is not subject to disposal, in a manner that would support the strategic objective of the municipality contained in its Integrated Development Plan and the needs and aspirations of the community that it serves.

Municipal Asset Transfer Regulations

The regulation would apply to all municipalities and municipal entities, transfers and disposals of all municipal capital assets, as well as hiring out arrangements. The legislation would also provide clarity on the governing principles, the definition of assets, the issue surrounding functions and service, the transfer or disposal of non-exempt capital assets, and a listing of the capital assets that were not exempted.

Alienation of Land Act (Act No. 68 of 1981)

Broad Based Black Economic Empowerment Act (Act No. 53 of 2003).

Development Facilitation Act (Act No. 67 of 1995).

Extension of Security of Tenure Act (Act No. 62 of 1997).

Land Use Management Bill.

Local Government: Municipal Finance Management Act (Act No. 56 of 2003) and its regulation no. 31346 of 22 August 2008, the Municipal Asset Transfer Regulations.

Municipal Supply Chain Management Policy Regulations (Act No. No. 27636).

Property Rates Act (Act No. 6 of 2004).

The Constitution of the Republic of South Africa (Act. No. 108 of 1996).

Spatial Planning and Land Use Management Act (Act16 of 2013

3.9.3 Disposal Projects/Programmes

3.9.3.1 Rapid Land Release Programme

The programme plans for the municipality's intended Program of residential, mixed use, community land releases with particular emphasis on the previously disadvantaged communities, within a well-planned environment. The programme is indicative and subject to change as forecasts population changes, demand for land and the capacity to cost effectively deliver key infrastructure and services.

The programme seeks to assist effective communication of the municipality's intentions or actions thereby avoiding the pitfalls of desperate people who would be vulnerable to exploitation and encourage people to be wary of land grabbers.

Through the land release strategy, legitimate beneficiaries would be able to get legal access to the property through transfer. The programme seeks to verify and quantify the total number of properties owned by the municipality. The process would provide economic incentives to invest in strategic parcels of land and thereby identify specific precincts that stimulate economic and social development.

The following is the number of stands that have been issued with regards to the rapid land release programme in the following townships:

Lethabong: A total of 1871 beneficiaries have been allocated. The total number of stands was 2000.

Monnakato: There are 500 stands identified for allocation, 485 beneficiaries have been identified.

Phatsima: There are a total of 291 unserviced stands that are to be allocated. A list of beneficiaries for Phatsima Extension 3 has already been fanalised and to date, a total of 123 stands have been allocated to qualifying beneficiaries.

Plot 50: a total of 367 beneficiaries have been allocated the stands to date.

3.9.4. LAND ACQUISITION

The Rustenburg Local Municipality requires land for Integrated Human Settlement. Economic expansion in the city, as a result of mining in the area resulted in high population growth and in turn the sprawl of informal settlements. There were 40 profiled informal settlements in the Municipality and various requests for assistance have been sent to Government entities such as HDA.

Land availability is a big challenge within the Rustenburg Local Municipality, with land ownership being vested in the hands of Traditional Authorities, Mines, Private owners, and Government. Another issue is that of the concentration of mining rights within the jurisdiction, preventing any form of development on that land. These aspects impact on housing development activities within the jurisdiction. Portion 8 of the farm Boschoek 103 JQ in the extent of 34 hectares was acquired by the Rustenburg Local Municipality.

Acquisitions have been initiated as a means of securing tenure and creating sustainable human settlements in the Rietvly, Marikana, Boitekong Cluster, Tlhabane (Yizo-yizo), Ikemeleng and Kroondal areas.

Portions 26 and 109 and of the farm Paardekraal 279 JQ was donated to the Rustenburg Local Municipality and is registered in the Council's name.

Acquisitions have been initiated as a means of securing tenure and creating sustainable human settlements in the Rietvlei, Marikana, Boitekong Cluster, Tlhabane (Yizo-yizo), Ikemeleng and Kroondal areas and is illustrated as follows:

Acquisition of Portions 5,7, 9, 28, (unregistered portions 289-294), 66, 67, 69, 70, 74,80,81,82,83,269,273, 274, 275, 344 and 345 of the farm Rooikoppies 297 JQ by NW COGHSTA for Rustenburg Local Municipality. Transfer documents to be signed after Council has accepted the land parcels. The transfer of these portions is to allow for the development of a township Marikana Extension 13 and the Greater Marikana, which will contribute to the formalization of informal settlements in the Marikana

Acquisition of Portion 9 of the farm Boschoek 103 JQ by NW COGHSTA for Rustenburg Local Municipality. Transfer documents to be signed after Council has accepted the land parcels. The transfer of these portions is to allow for the upliftment of Boschoek and to accommodate land invaders.

Agreements signed with regard to Portions 15, 39, 112 and 148 of the farm Paarkderkaal 279 JQ. These properties are for the upgrading of Popo Molefi/Mbeki Sun

The council signed contracts with regard to a donation on Portion 16, Portion 194 - 196, Portions 198 - 207, Portion 57, Portion 58 and Portion 135 of the farm Rooikoppies 297. These properties will be used for the upgrading of the informal settlements within Marikana.

Contracts signed on Portions 53, 99, 129, 157, Remaining extent of Portion 164, a portion of Portion 185 of the farm Kroondal 304 JQ. These properties are for the proclamation of Ikemeleng.

Expropriation of land:

Council is in the process with the following expropriations:

The council is in the process of new negotiations with private landowners concerning the location of a servitude to provide water and electricity to Waterkloof East Extension 31.

Council with the assistance of HDA in progress with regard to the expropriation of Portion 45 of the farm Paardekraal 279 JQ.

Expropriation of Portion 55 and Portion 184 of the Farm Rooikoppies 297 JQ 4 was registered at the Deeds Office on the 2nd of November 2023. These properties are for the establishment of Marikana Extension 13.

Payments regarding the Service Level Agreements on the provision of Roads:

During the Service Level Agreement certain costs are written off against the total bulk contribution that usually entertain the construction of roads for the cost of the developer and not for the council.

Two such applications were in the process:

Waterkloof East Extension 43: Portion 363 of the farm Waterkloof 305 JQ: Waterval East x 40

ADMINISTRATION OF MUNICIPAL FACILITIES

The Unit Estates Administration and Land Sales has recently taken over the functions of contract management for the following municipal facilities: Kloof Resort, Rustenburg Aerodrome, Rustenburg Golf Course and Bojanala District Municipality Offices. This entails checking for compliance in terms of the lease for the municipal facilities, this includes adherence to clauses in the lease agreement as well as timely payment of the

rental amount. These facilities are assets of the Municipality and through effective contract management can generate considerable revenue for the Municipality.

BUILDING CONTROL AND REGULATIONS

All work must be executed in accordance with the provisions of the National Building Regulations and the Building Standards Act 1977 (Act 103 of 1977), the Town Planning scheme and/or any other applicable legislation. Under the rule no person may erect, alter add to, or convert any building without the prior approval of the Local Authority.

Amendment on the Regulation came into effect on 11 November 2011 to incorporate the eco or green building standard such as energy efficiency in buildings.

Core functions

Provide client orientation (establish innovative operational methods).

Consideration and approval of site development plans for erection of buildings. Evaluation of building plans to ensure compliance with the policy.

Conducting site inspections to regularly monitor processes and compliance (Building & drainage inspections). Law Enforcement serving contravention notices and fines. (ensure public awareness).

Evaluate and approve demolition applications. Building plans were received and circulated to another technical department measured as follows:

Table 3.15 Building Plans

| Financial Year | 2023/2024 | |
|--------------------------------------|--------------------------|--|
| | Number of Plans Received | |
| 1 st Quarter | 178 | |
| 2 nd Quarter | 123 | |
| 3 rd Quarter | 148 | |
| 4 th Quarter | 150 | |
| Total no. of Plans received per year | 599 | |

Income generating activities:

Building plan fees and legal fines issued to contraveners.

Monitoring and evaluating trends in income generated and operating expenditure.

Reviewing tariff increase annually.

Ensuring that annual income targets are achieved.

Rand value for building plans application submitted by 30 June 2024.

Table 3.16 Rand Value for Building Plans

| Vote Number | Vote description | Original budget | Income generated |
|--------------|--------------------|-----------------|----------------------------------|
| 165 017 1032 | Building Plan fees | R116 0429 | R1 240 369 (as at end June 2024) |

3.12 DEVELOPMENT PLANNING

Unit Purpose

The purpose of the Unit Development Planning is to provide strategic guidance in respect of the location and nature of development within the Municipality and guide the objective of creation and management of sustainable human settlements within a well-planned spatial structure. The Unit Development Planning is an umbrella that amalgamates the three sections which are Urban Renewal and Future Planning, Law Enforcement and Tribunal and Land Use Management.

Functions of the Unit

Ensure that spatial planning, land development and land use management adheres to the development principles as stipulated in Section 7 of the Spatial Planning and Land Use Management Act, 2013 (Act No. 16 of 2013).

Ensuring access to accurate and reliable strategies and spatial information to inform development and decision-making through effective and efficient Geographic Information System (GIS).

Provide town planning information and developmental advice to municipal stakeholders (internal and external).

Section: Urban Renewal and Future Planning

Facilitate future planning to the advantage of the entire population of the area.

Manage all aspects relating to spatial forward planning within the area of jurisdiction such as identifying forward planning projects.

Provide short, medium and long-term spatial direction to municipal development through coordinating, developing and monitoring spatial development frameworks, policies, precinct plans, local area plans, etc.

Establishment of sound Municipal Spatial Development Framework, precinct plans, urban renewal strategies

and development guidelines.

Section: Land Use Management

Determines and regulates the use of land within the municipality.

Responsible for the evaluation and processing of land use and land development applications.

Responsible for the evaluation and assessment of building plans and site development plans (SDP)

To ensure an effective, efficient and integrated Geographic Information Management System

Facilitation of land development through more active participation of the municipality in the land development

process, especially through public-private partnerships

Section: Law Enforcement and Tribunal

Ensures land use compliance with the land use scheme and municipal planning policies.

Investigates and monitors the alleged contraventions of the land use scheme.

Manage the promotion of law enforcement in the municipal area.

Enforce all legal requirements in line with Section 32 of the Spatial Planning and Land Use Management Act 16

of 2013.

Facilitate the Municipal Planning Tribunals to ensure effective and efficient proceedings.

Municipal Planning Tribunal

A committee established by Council in line with Section 35 of the Spatial Planning and Land Use Management

Act 16 of 2013. Members were appointed by the Council on 29 September 2020 for a period of 5 years.

Responsible to consider and take decision on Category 1 application in terms of Section 16(2) of the Rustenburg

Local Municipality Spatial Planning and Land Use Management By-law, 2018. Members:

Chairperson: Mr. Moketla Mamabolo

Deputy Chairperson: Mr. Peter Hoffmann

Mr. Phuti Mokobane

Mr. Thato Molwantwa

MS Kelebogile Mekgoe

73

Mr. Pierre Bergh

Director Planning and Human Settlement

Legal Advisor from the Office of the Municipal Manager

Legislative Framework

Spatial Planning and Land Use Management Act 16 of 2013 (SPLUMA)

The Spatial Planning and Land Use Management Act 16 of 2013 (SPLUMA) is a national law that was passed by Parliament in 2013. The objectives of the Act are to:

provide for a uniform, effective and comprehensive system of spatial planning and land use management for the Republic.

(Ensure that the system of spatial planning and land use management promotes social and economic inclusion.

provide for development principles and norms and standards.

provide for the sustainable and efficient use of land.

provide for cooperative government and intergovernmental relations amongst the national, provincial, and local spheres of government; and

redress the imbalances of the past and to ensure that there is equity in the application of spatial development planning and land use management systems.

Rustenburg Local Municipality Spatial Planning and Land Use Management By-law.2018 (SPLUM By-law)

The Rustenburg Local Municipality approved its Spatial Planning and Land Use Management By-law in 2015, the By-law was reviewed in 2018. In line with Section 35(3) of the Spatial Planning and Land Use Management Act,2013 (Act 16 of 2013) the SPLUM By-law categories land use and land developments applications into 2 (two) categories, Category 1 being land use and land development applications referred to the Municipal Planning Tribunal and Category 2 being land use and land development applications referred to the Authorized Official/Land Development Officer. The Rustenburg Municipal Council has authorized the amendment of the Rustenburg Local Municipality Spatial Planning and Land Use Management By-law, 2018 as per Council resolutions on Item 251, Council meeting of the 30th of November 2022.

Spatial Development Framework, 2010

The current Spatial Development Framework,2010 is outdated, the Rustenburg Local Municipality has appointed a service provider in June 2023 for a period of 12 months to develop a Municipal Spatial Development Framework in line with the provisions of the Spatial Planning and Land Use Management Act,2013 (Act 16 of 2013)

Rustenburg Land Use Scheme 2021

The Rustenburg Local Municipality compiled with the provisions of the Spatial Planning and Land Use Management Act,2013 (Act 16 of 2013) by approving the Rustenburg Land Use Scheme 2021. The Rustenburg Land Use Scheme 2021 was proclaimed on the 20^{th of} July 2021.

SERVICE STATISTICS: TOWN PLANNING

The table below illustrate land use and land developments applications in terms of rezoning and township establishment that were approved or finalised during the financial year:

| CATEGORY | Quarter 1 | Quarter 2 | Quarter 3 | Quarter4 | TOTAL |
|------------------------|-----------|-----------|-----------|----------|-------|
| Rezoning | 12 | 09 | 15 | 21 | 57 |

HUMAN SETTLEMENT

Housing Provision

The Unit Housing Provision has four sections, namely:

Subsidy Programme and Beneficiary Administration

Planning Implementation and Research

Urban Renewal and Human Settlement Redevelopment, and

Monitoring and Control of Informal Settlement Housing

The key functions of the Unit are the administration of Municipal Housing rental stock, facilitation of the development of government sponsored housing, housing research & planning, and monitoring and upgrading of Informal Settlements.

Progress of the existing Housing Development Projects

COMPONENT G: ROAD TRANSPORT

This component includes Roads and Storm Water; and Public Transport.

3.13 ROADS AND STORMWATER

The roads strategy of the municipality generally focuses on the following:

- The upgrading of gravel to paved/tarred roads, focusing on specific areas where there is greater need to improve mobility and quality of life in those areas;
- The maintenance of gravel roads in formal and informal settlements to enhance access to these areas;
- The execution of the patching strategy, rehabilitation and resurfacing of paved/tarred roads to prevent the deterioration of the existing infrastructure; and
- The improvement or construction of major roads to reduce traffic congestion and facilitate economic development.
- Implementation of an integrated public transport network
- Regulation and management of public transport services

Table 3.20 Roads and Stormwater Objectives

| Strategic Objectives | Key | 2022/23 | | 2022/23 | | |
|--|---|---------|--------|----------|----------|--|
| | Performance | Target | Actual | Original | Adjusted | Actual |
| | Indicators | | | Target | Target | Performance |
| Accelerated delivery and maintenance of quality basic and essential services to all Communities | Kilometers of municipal roads built | 30km | 22Km | 30km | 30km | 10,050 km under construction by 30 June 2023 |

The municipality implemented roads and stormwater projects through the Municipal Infrastructure Grant in various wards

COMMENTS ON THE PERFORMANCE OF ROADS AND STORMWATER

ROADS AND STORMWATER

RLM has a total road network distance of **1,911.732** km of which **1052.598** km are tarred (paved) and **859.134** km are gravel (unpaved). The road network distance excludes the Provincial and National roads.

The majority of the paved roads range from good to fair surface conditions implying that these roads have fair motorable condition. The gravel or earth roads range from fair to poor gravel quality and quantity implying that these roads have poor motorable condition. The need for Re-gravelling is therefore found to be very high. Roads with poor profiles are without Camber and this results in water ponding.

MAINTENANCE

The Unit is divided into Four Main focal activities:

- 1-Tar Patching & Resealing of Roads (Surface maintenance)
- 2-Regravelling & Blading of roads (Rural roads)
- 3-Stormwater Maintenance
- 4-Road Markings and Road Signage

Staffing: Roads and Stormwater

| Position | Gender | Number |

ACHIEVEMENTS

| NO: | PROJECTS DESCRIPTION | STATUS |
|-----|--|---|
| 1 | Rehabilitation and Resealing of road surfaces as and when required for a period of 3 years | This is a maintenance project and is for as and when required. The project is ongoing and will be completed in January 2025 The current Financial year – only intersections were resurfaced and added up to 2,5 km |

CHALLENGES

| # | MAJOR CHALLENGES | ROOT CAUSES (NOT MORE THAN 2) | EFFECTS | PRACTICAL INTERVENTION OR SOLUTIONS |
|---|-----------------------------|--|--|--|
| 1 | Budget/ Cost to maintain | Rising costs, fluctuating energy prices, and maintenance expenses makes it challenging for the Unit Roads & Stormwater to find cost-effective solutions without compromising on service quality. | Balancing the increasing cost to maintain and improve the infrastructure performance while operating within budget constraints is a major challenge. | Increase the budget to sufficient as our budget keeps going down yearly while more roads are being built every financial year. |
| 2 | Aging Infrastructure | Using older techniques/ systems can be challenging, as it may involve | Most roads infrastructure has aged, which requires constant | Allocate more funds into maintenance projects to refurbish/ rehabilitate the infrastructure and extend the life expectancy of some |

| # | MAJOR CHALLENGES | ROOT CAUSES (NOT MORE THAN 2) | EFFECTS | PRACTICAL INTERVENTION OR SOLUTIONS |
|---|---------------------|---|---|--|
| | | maintaining small portions with old or aged machinery, plant and equipment, and does not yield much results. | maintenance and upgrades. | while we rebuild others that need reconstruction. |
| 3 | Skills/ Personnel | Maintenance operations are day-to-day activities which needs skills as well as personnel with vast experience in the construction industry to deliver services expected by the communities. | The Unit, through engagement with the Corporate Support Services, will review the current structure to ensure that it is aligned with the status quo. | Skills development be prioritised with necessary trainings offered to interested workers |
| 4 | Ageing of resources | Municipal plant and fleet need to be replaced as old or aged machinery, plant and equipment, and does not yield much results. | Most machinery are constantly experiencing breakdowns, which often leaves the workers and the communities stranded | Hire plant from service providers (finance give orders in time) and transport be serviced by the mechanical workshop |
| 5 | Compliance | Compliance with labor laws, safety standards, environmental regulations, and other building requirements is essential. | Keeping track of ever- changing regulations and ensuring adherence can be complex and | Unit Civil & Facilities Management to intervene with the structural issues of Asbestos at the Roads Depot and all environmental concerns of the workers conditions |

3.14 PUBLIC TRANSPORT SYSTEM

The Rustenburg Rapid Transport (RRT) project also locally known as "Yarona™" is a flagship national public transport initiative being implemented by Rustenburg Local Municipality. Over the past financial year, the Municipality was constructing 6 Stations on the Tlhabane corridor and daily commuter numbers increased to 5 000 passengers per day. In August 2022, operations of Phase 1A started in Tlhabane corridor. The RRT has been operating Phase 1A since the launch with 10 buses and 35 Yarona branded mini-bus taxis running on 10 routes. The RRT further achieved the successful rollout of a Automated Fare Collection system, delivery of Yarona Cards, roll-out of and completion of the vehicle depot at the Rustenburg showgrounds. About 258 taxi vehicles have been removed and compensation was paid to operators who have surrendered their vehicles and permits. The plan is to launch part of Phase 1C by December 2024 followed by partial implementation of Phase 1B. Over the next 3 years, services would cover 50% of commuters in Rustenburg, with full Phase 1 and 2 rolled out.

The funding of the **Public Transport Network Grant (PTNG)** for the **Poject remains critical**. The RLM remains committed to achieving the objective of providing a quality municipal wide public transport system while transforming the spatial development of the Municipality. Through the grant and Project, the RLM strives to make an impact in the local economy, through the provision of employment opportunities, involvement of small, micro and medium enterprises (SMMEs) or any other spin-off it may create.

The intention is to implement Phase 1 and 2 within the medium term and to ensure the system components of a *quality public transport system*, based on the current amounts allocated, even though preliminary projections over the coming number of years proved to be much less than originally anticipated and designed for during the platinum mining boom in Rustenburg in 2008.

The Municipality approved that the phasing needs to be packaged per area in the sense that it can be **implemented in autonomy** whilst making an impact but also serve as building blocks towards the implementation of the RLM IPTN. The phases of the system need to have services that are attractive to users. The system must have the basic elements that are characteristic of a quality public transport system. Therefore, even for the minimum scenario the following will apply:

- ✓ buses on segregated lanes in certain designated areas of high traffic volumes;
- ✓ combination of open and closed stations;
- ✓ ABT/AFC System;
- ✓ APTMS-lite solution is implemented which includes the tracking of vehicles, basic passenger information display in vehicles
- ✓ Vehicle Control Centre and Depot.
- ✓ When using the system, passengers should find, amongst others: clean vehicles; and a reliable service (fixed frequencies and headways).
- ✓ Universal accessibility of vehicles and infrastructure is considered as part of each phase.

Furthermore, with regards to *industry transition and the buyout of current operators, the phasing needs* to be packaged in cost-effective contracts. The implementation of the system has been designed according to an adequate number of users, short-distance operation, fleet optimisation, and a high Index Passenger-Kilometre. The distributions of future contracts for the Integrated Public Transport Operator (IPTOC) have been taken into count.

Infrastructure that supports each phase or sub-phase needs to be ready when implementing operations for that particular phase without compromising subsequent phases' operation and/or construction.

The RLM has been able to delay non-critical elements of the project to consider the availability of Grant funding without significant disruption to packages already under construction or exposing the RLM to negative consequences resulting from contractual delays beyond RLM's control.

Summary of Project Expenditure for 2023/24 Financial Year

COMMENT ON THE PERFORMANCE OF ROADS AND TRANSPORT

The RLM remains committed to the transformation of our public transport infrastructure through the implementation of the integrated public transport system, Yarona. Initial operations started in first quarter of the previous financial year 2022/23. Key components completed include the Showground depot, buses, Automated Fare Collection System, and compensation of affected operators, which have been completed for Phase 1A.

COMPONENT E: PUBLIC SAFETY AND SECURITY

This component includes Law Enforcement, Traffic, Security, Fire and Disaster Management

3.15 LICENSING AND TESTING SERVICES

STEPS TAKEN TOWARDS THE IMPLEMENTATION OF THE STRATEGY, THE MAJOR SUCCESSES ACHIEVED AND CHALLENGES FACED

Background

The Rustenburg Local Municipality has entered into a Service Level Agreement with the Northwest Provincial Department of Community Safety and Transport Management with services rendered at a Registering Authority (Agency of 80/20).

The Unit is having two sections namely Registering Authority and Testing Services.

Registration and Licensing is rendering the following basic services; not limited to the following,

Register and license motor vehicle as sanctioned by National Road Traffic Act '93 of '96, National Road Regulations 2000, eNatis Security Policy, Registration manual.

- Renewal of Motor vehicles license registration.
- Scraping and issuing of Vehicle clearance.
- Update details of motor vehicle.
- Introduce built-up vehicles and trailers.
- Introducing Natural persons, register bodies and companies.
- Issuing Traffic Register certificate to foreign nationals.
- Issuing of Temporary /Special permits to vehicles and Car dealership.
- Driving License Testing Centre (DLTC) and Vehicles Testing Stations (VTS) renders basic services; not limited to the following:
 - Examination of Vehicles for Roadworthiness and certificate of fitness (both Light & Heavy motor vehicles); as the station is a Grade A).
 - Renewal of Professional Driving Permits (for Dangerous Goods & Passengers) and Card Type Driving Licenses.
 - Test of Applicants for Learners and Driving Licenses (Categories; codes A, A1, B, EB, C1, C, EC1 & EC.

Successes

- Marikana Registering Authority was finally launched and operationalised on the 12 April 2019 by the Honourable M.E.C of Community Safety & Transport Management, Mpho Motlhabane & Executive Mayor Mpho Khunou.
- The station rendered services with four Licensing Clerks/Cashiers appointed late 2019 under supervision of Acting Supervisor from Rustenburg Registering Authority. One Examiner & one Management Representative and one (1) filing clerk were also permanently employed. One eye-testing officer was appointed to assist applicants for learner's license class.
- Learners License Appointment (class) finally resumed from the 07 June 2021 at Marikana Driving License Testing Centre (DLTC) testing two classes per day ,10 per class.
- RTMC installed 20X computerized tablets on the 14-15 March 2022 replacing manual learner's license
 testing method for both Marikana & Charora during this financial year. This was to improve service
 efficiency and prevent any corrupt activities.
- Two Live Capturing Unit (LCU) and 26 X tablets backup batteries were supplied to Charora & Marikana stations to improve service efficiency, but the network delayed the implementation of renewal of driving licenses during this period.
- The old fragile Computerised Learners Licenses Class computer equipments were also replaced with 20X tablets at Rustenburg station by Road Traffic Management Corporations (RTMC) end of June 2022 to accommodate more clients and resolve persisting problems.
- eNatis training was conducted for 3X management Representative and cashiers by the Administrator, Northwest Department of Community Safety.
- Additional Supervisor (Licensing Clerk/Cashier) was appointed for Rustenburg Registering Authority.
- RTMC supplied and installed new 33X mini-CPU's and monitors,

Challenges Faced

- Filing space in all stations to secure the processed documents for auditing.
- Vandalism of network infrastructure (Telkom & Vodacom) is a major challenge which negatively affects eNatis system frequently and sometimes for a week or even more.
- Load-shedding, water shortages and network error impact negatively on revenue collection and service delivery in general, due to forced downtime and temporary closures.
- Robega Station is constantly experiencing water shedding which hampers smooth service delivery.
- An estimated amount of R750 000.00 is needed for the construction of Public Toilets and Parking Shelter at the Marikana Registering Authority. This will be placed for consideration in the 2023/24 budget.
- Two more examiners are yet to be appointed for Marikana DLTC to handle applicants for the renewal of the driver's license cards.
- The replacement of Weigh bridge was successful after Bafokeng Rasimone Platinum Mine sponsored the
 entire project. It was operationalized mid-April 2023 and was handed over to Traffic Services as Law
 Enforcement equipment.

- Appointment of Two (2) Supervisors for Marikana Station, are yet to be advertised by Corporate Support Services within the Licensing and Testing Unit.
- Construction of shelter for clients waiting area for both Marikana and Robega.
- Two standby generators for Marikana and Robega stations to be acquired for 2023/2024 financial year.
- The Life Enrollment Unit (LCU, eye-test machine) at the Rustenburg DLTC is constantly losing network which affects service delivery negatively. Site Technician to be placed full permanently for speedy assistance.

The following presents statistics of operations at the Rustenburg Registering Authority, which includes:

3.16. LAW ENFORCEMENT AND SECURITY SERVICES, TRAFFIC SERVICES EMERGENCY AND DISASTER MANAGEMENT AND MUNICIPAL COURT

One of the main pillars for the realization of the municipality's vision of "A smart and environmentally friendly city where all communities enjoy a high quality of life and diversity" is the creation of a safe environment. Collaboration and cooperation with all law enforcement agencies in the municipal area is critical for the success of the directorate. Success depends largely on joint operations, which bring together expertise and resources for fighting and combating crime. Key collaborators in these joint operations are the Immigration Officers from the Department Home Affairs, members of the South African Police Services and the Provincial Department of Community Safety and Liaison.

NUMBER FIRE SAFETY COMPLAINCE INSPECTIONS CONDUCTED DURING 2023/24

Fire safety inspections are conducted in business premises to prevent the phenomenon of fires and disasters within the jurisdiction of Rustenburg LM. Inspections are conducted in the following categories: Building Plans, Flammables Permits, Transport Permits, Hydrant Inspections, Inspections on request, Information release and Fire by-law enforcement.

| CATEGORY | NUMBER |
|--------------------------|--------|
| Fire by-laws | 38 |
| General Fire Inspections | 837 |
| Transport Permit | 200 |
| Fire Plans | 88 |
| Fire Hydrants | 91 |
| Information Release | 02 |
| Flammable Registrations | 192 |
| TOTAL | 1 448 |

Fire safety inspections conducted during 2023-2024 financial year are calculated at one thousand four hundred and forty-eight (1448).

Enforcement of compliance through inspections plays a significant role in the reduction of the phenomenon of fires, that may escalate to disaster situation.

REVENUE FOR JULY 2023- JUNE 2024

3.18 DISASTER MANAGEMENT

The disaster management function is regulated by the Disaster Management Act, 2002 (Act No. 57 of 2002). The municipality has a Disaster Management Plan that was reviewed and included in the IDP, in terms of Section 26(g) of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000).

Objectives of the Disaster Management Services

Disaster Management Act provides a platform from which all spheres of government and communities can work together to prevent or reduce the risks of disasters including steps which are aimed at—

Preventing or reducing the risk of disasters.

Taking measures to reduce the impact or consequences of a disaster.

Emergency preparedness.

Rapid and effective responses to disasters; and

Post-disaster recovery and rehabilitation.

Disaster Management Services Data

Performed the following activities during Disaster Management Services activities undertaken during the period under review (2023/2024):

ACTIVITIES PERFORMED DURING DISASTER MANAGEMENT SERVICES DURING THE PERIOD OF (2023/2024):

| Number Risk Assessments Conducted | 32 |
|-----------------------------------|-----|
| Rapid Incidents Assessment | 208 |
| Education & Awareness Campaigns | 51 |
| Evacuation Drills | 10 |
| Advisory Forums & Ad-Hoc Meetings | 40 |

Emergency and Disaster Management attend to all categories of fire and rescue call in its jurisdiction. Call statistics are recorded in the Control Centre that operates 24 hours and information released upon request.

| Total | 98 | 114 | 101 | 99 | 53 | 38 | 74 | 31 | 49 | 47 | 58 | 74 | 836 |

Emergency and disaster management attend to all categories of fire and disaster calls within the jurisdiction of Rustenburg LM. The total number of calls attended to, during July – June 2023/24 financial years are calculated at eight hundred and thirty-six (836) as compared to six hundred and forty-seven (672) of 2022/23 financial year.

The statistics reveal that, a high number of calls were experienced during June, July, August, September and October months of each financial year with a huge count of one hundred and fourteen (114) during August 2023, followed by one hundred and one (101) of September 2023. The phenomenon and a pattern of high rate of call can be associated with increase in vegetation fires during winter season. The least of calls were experienced during the month of February at thirty-one (31). High rate of vegetation fires necessitates a need to procure, additional grass units, mounted with specialised fire equipment.

The following are five main service delivery key performance areas for disaster management:

Service Delivery Key Performance Areas

Table 3.31 Financial Performance

|----|--|---|---|
| | | of the Rustenburg municipal jurisdiction. All relevant stakeholders such as: SAPS, Fire Department, Work on Fire Community Development, Community Policing Forum, NGO's, Ward Committee members and community members attended the sessions. | |
| 4. | Response and recover & Enabler 1 | Local communities who experienced emergencies like floods and shack fires were also assisted during the period under review through the provision of emergency accommodation, food parcels and blankets, while waiting for their damaged homes to be repaired | Communities who were affected by the Disasters e.g., Fire, storms and floods were assisted and referred to the relevant stakeholders for further assistance. E.g., Home Affairs, SASSA and Traffic and Licensing. |
| 5. | Safety at Sports and Recreational Events | Disaster Management Services monitor and measure performance and evaluate disaster management plans for prevention, mitigation and response activities at the events according to Section 47 (1) & (2) and 48 of Disaster Management Act (Act 57 of 2002). | The following types of events are catered for sports, music, festivals, political rallies etc |

COMMENTS ON PERFORMANCE OF LAW ENFORCEMENT, TRAFFIC & SECURITY SERVICES, FIRE & DISASTER MANAGEMENT

Table 3.33 Performance of Law Enforcement

| OPERATION | ACHIEVEMENTS |
|---------------------------|--|
| Community Policing Forums | Forty-four (44) community policing forums were evaluated by 30 June 2024. |
| Road Safety campaigns | Road safety campaigns are conducted to promote the safety of road users. Fifty-seven (57) road safety campaigns were conducted during 2023/24. |

| OPERATION | ACHIEVEMENTS |
|---------------------------------------|---|
| Stop and register | Over 12 000 prosecutions for both traffic and law enforcement contraventions have been made |
| Fire Fighting Services | Decentralization of the firefighting service where fire stations were established at Marikana and Phatsima. Achieve golden hour response time. |
| By-laws, campaigns and projects | Crime Prevention through Environmental Design / Safe and Clean City campaign: Multi-disciplinary Operations |
| | Execution of illegal trading in the CBD and Taxi Rank on daily basis: |
| | Enforcement of Impoundment By-Law |
| | Execution on non-compliance on Fire by-laws |
| | Regulation of point duties on R510 and R24 road on daily basis |
| | Issuing of parking offences in the CBD |
| | Removal of illegal advertisement on municipal land. |
| | Rendering of security and escorts during mayoral outreach visits and VIP'S, International, National and Local events |
| | Enforcement of illegal connection of water and electricity. |
| | Enforcement of illegal dumping by-law |
| | Mine Crime Combating Forum (MCCF) |
| | Municipal Intervention Scheme and Patrols (MISAP) and Community Safety Patrollers Programme |
| | Enforcement of Public Gathering's Act |
| | Inspectors of Licenses at motor vehicle dealerships |
| | Conflict Resolution Committee |
| | Land use by-law enforcement |
| | Establishment of Community Policing Forum |
| | Joint Crime Prevention/ Multi-disciplinary operations |
| | Serving in various Joint Operating Coordinating Committee, Cluster Joint Operating Coordinating Committee and Priority Committees for Special events. |

| OPERATION | ACHIEVEMENTS | | | |
|------------------------|---|--|--|--|
| Valuation Services | Valuation in this instance may take two forms i.e., Ad hoc and Valuation in terms of the Municipal Property Act. The purpose for the former valuation is to determine the market value of the municipal property to be disposed of or leased. | | | |
| | In this regard the Unit: Legal and Valuation assists Directorates in the facilitation of the appointment of professional valuers as well as providing all the information to the Valuer. | | | |
| | With regard to valuation in terms of the Municipal Property Act, the Municipality has already appointed a municipal valuer who is responsible for the compilation of the valuation roll as well as the supplementary roll. | | | |
| | In terms of the case law on Macssand matter that was before the Supreme Court of Appeal, the Unit Legal and valuation has advised the Valuer to conduct valuation on all the mining properties in order to enhance our revenue. Previously the mines were evaluated on the value of agricultural land and not on the type of business that they are running. | | | |
| By Law Services | The Unit: Legal and Valuation is also assisting the Municipality in discharging its legislative obligation. In this regard, the unit has been developing and reviewing bylaws for the purpose of enforcement by the Law Enforcement Unit as well as other Units. | | | |
| | During the period under review, the unit managed to introduce new bylaws (4) of which one was approved and promulgated, and the three by-laws are to be approved by the Council. A total number of 6 bylaws (water supply by-law, electricity by-law, waste management by-law, cemetery by-law, Parks and Open Space by-law and Swimming Pool bylaws have been reviewed and four of these by-laws have been approved and promulgated. | | | |
| Safe and Clean City | The Vision of the municipality says, "A world class city where all communities enjoy a high quality of life". The aim of the programme is to achieve the above mission. IGR has been engaging with different stakeholders such as Taxi Associations, Business Forums, Government Departments, NGO's CBO's Church Organisations etc. to discuss roles and responsibilities of each stakeholder to achieve the mission. | | | |
| Community Outreach | IGR has embarked on many community outreaches for Government departments to bring services closer to the people. | | | |

3.19 EXECUTIVE AND COUNCIL

This component includes the executive offices (Office of the Speaker, Office of the Executive Mayor, Office of the Single Whip, Office of MPAC and Municipal Manager).

INTRODUCTION TO EXECUTIVE AND COUNCIL

In terms of chapter 7, section 151 (2) of the Constitution of the Republic of South Africa, of 1996, the executive and legislative authority is vested in its municipal council.

The municipal council of the Rustenburg Local Municipality is established as a municipality with a mayoral executive system which is combined with a ward participatory system in terms of Chapter 12 of the Municipal Structures Act, 117 of 1998. Section 152 of the Constitution categorically and clearly spells out the objectives of local government, and the powers and functions of municipalities are determined in section 156 of the Constitution.

| Section 79 and other Committees | Section 80 Committees |
|-------------------------------------|--|
| Municipal Planning Tribunal | Budget and Treasury Office; |
| Municipal Public Accounts Committee | Community Development; |
| Rules of Order Committee; | Corporate Support Services; |
| IDP/Budget Steering Committee | Planning and Human Settlements |
| Local Labour Forum | IDP/PMS, Legal and Valuations; |
| performance Audit Committee | Intergovernmental Relations and Traditional Affairs; |
| Risk Management Committee | Local Economic Development; |
| | Roads and Transport; |
| | Public Safety; |
| | Technical and Infrastructure Services |

3.20 HUMAN RESOURCE SERVICES

INTRODUCTION TO HUMAN RESOURCE SERVICES

The directorate provides human capital strategies, advisory and support services to the municipality. It is composed of the following sections for it to be effective:

Organisational Development

Employee Relations

Training and Development

Table 3.42 Core Functions of Corporate Support Services

| Section | Core Function |
|--|---|
| Section 1: Recruitment | The core function of this section is to ensure optimal human resources management value chain, through effective strategic planning, implementation and alignment of organizational strategy and individual employee performance agreements. It is also responsible for the facilitation and coordination of the recruitment and placement processes, management of the HR information system as well as employee benefits administration. To develop and maintain organizational structures. Provide organizational development and work-study services for the entire municipality. |
| Section 2: Employee Relations | The section manages matters of disciplinary nature, disputes and grievances within the municipality. One of the key functional areas of the section is to facilitate or coordinate the speedy and amicable resolution of disputes or grievances and disciplinary matters. It is also responsible for collective bargaining, conflict management, and cordial interpersonal relations. |
| Section 3: Training and Development | The section provides the following employee capability management services: Identification of training needs. Development and implementation of the workplace skills plan; and The management of financial assistance programme for capacity building and training |
| | purposes/study aid assistance. |
| Section 4: Occupational Health and Safety | •The section ensures the maintenance of a healthy and safe work environment. •It provides employee wellness services, such as employee assistance, medical surveillance, compensation for occupational injuries and diseases (COID) and wellness education (i.e., healthy lifestyle). |
| Section 5: Information Technology | To provide reliable, secure, innovative, and cost-efficient ICT systems to RLM Directorates in support of business operations and service delivery programs and ensuring secured access to new technology, efficient storage of data, and a high level of cyber security and information controls. |
| | ICT Governance |

| | To define and set ICT standards, norms, and policies around all ICT operational domains of RLM to maintain best practice standards, implementation of policies, and maximize the utilization of ICTs to reduce duplication of effort and improve operational inefficiencies |
|----------------------------------|---|
| | ICT Financial Systems Management |
| | To maintain and manage the data and information resources of the RLM to ensure reliable and up to date information is available for strategic management and operations. To manage the information systems of the municipality and ensure the reliability and integrity of information across all departments. To plan and execute the integration of all business systems and applications in the municipality to improve and increase the efficient use of systems in the municipality. |
| | ICT Infrastructure Management |
| | To manage all converged ICT Infrastructure and operations daily to ensure the availability of systems to support the RLM's services delivery objectives |
| Section 6: | |
| Administrative Support | To provide secretariat function to Council and its committees. |
| Services | To provide Administrative support to the Municipality through: |
| | Management of Municipal cell phones |
| | Development and management of the policy register |
| Section 7: Records Management | To ensure proper records keeping in compliance with Records Management Legislation. |

The employee reported back on duty on the 14/07/2023 after the award against the municipality that the employee should report on duty with immediate effect. The disciplinary hearing is still pending. The employee is resuspended on the 31/08/2023. | The matter is still pending. |
| Official 7 | Portrayal of rude, abusive and provocative conduct by uttering unwanted and unwelcomed words against fellow employee | 12/01/2023- 05/10/2023 | The employee suspended on the 12/01/2023 and extended further for three months. The disciplinary hearing proceeded on several dates and concluded on the 05/10/2023 and sanctioned with final written warning. | 05/10/2023 |
| Official 8 | No charges formulated | 12/01/2023- date | The employee suspended on the 12/01/2023 and extended further for three months. The disciplinary hearing is still pending and not finalized. | The disciplinary hearing hasn't commenced since the employee was placed on suspension. |

3.21 INTERNAL AUDIT UNIT

The purpose of the Internal Audit Activity (IAA) is to provide an independent, objective assurance and consulting services designed to add value and improve the municipality's operations. The IAA performs internal audit reviews to evaluate the adequacy and effectiveness of the controls put in place by management, based on the strategic operational plan that is risk-based and approved by the Performance Audit Committee (PAC), as well as internal audit reviews of the results of performance measures of the municipality.

The unit also advises and performs ad-hoc assignments from the Municipal Council, PAC and or Management. The IAA of the municipality renders the following services:

- (a) Prepare a risk-based audit plan and an internal audit program for each financial year.
- (b) Advise the accounting officer and report to the audit committee on the implementation of the internal audit plan and matters relating to-
 - (i) internal auditing.
 - (ii) internal controls.
 - (iii) accounting procedures and practices.
 - (iv) risk & risk management.
 - (v) performance management.
 - (vi) loss control; and
 - (vii) compliance with this Act, the Annual Division of Revenue Act and any other applicable legislation; and

The following services due to its nature are outsourced:

- ✓ Forensic and investigations
- ✓ Information System Auditing
- ✓ Three E's audit Efficiency, Effective, Economical

The scope of work of the IAA is to determine whether the municipality's network of risk management, general controls, and governance processes, as designed and represented by management, is adequate and functioning in a manner to ensure amongst others that:

- ✓ Risks are appropriately identified and managed.
- ✓ Significant financial, managerial and operating information is accurate, reliable and timely.
- ✓ Resources are acquired economically, used efficiently, and adequately protected; and
- ✓ Municipal priorities, plans and objectives are achieved.

Internal Audit Activity (IAA) conducted audits in accordance with the approved Annual Operational Plan for the year 2023/24 as per the Risk-based Three (3) Year Rolling Strategic Operational 2021-2024. The audits conducted were for Rustenburg Local Municipality (RLM) and Rustenburg Water Services Trust (RWST) including advisories and consulting services.

COMPONENT F: LOCAL ECONOMIC DEVELOPMENT

3.22 LOCAL ECONOMIC DEVELOPMENT

INTRODUCTION TO ECONOMIC DEVELOPMENT.

Platinum Group Metals mining forms the backbone of the economic activities and output of Rustenburg Local Municipality. This creates opportunities as well as threats for the long-term economic sustainability of the area. Over-reliance on mining creates complacency that may negatively impact the future economic prospects of the city. It is on these grounds that the municipality has envisaged "A Rustenburg beyond mining" with a primary objective to "drive diversified economic development and job creation". To succeed in the effort in diversification; economic sectors like Tourism, Agriculture, Manufacturing, Green Economy; and Education and Skills Development have been identified and targeted for growth.

Unit: Rural Development

The Unit Rural Development is responsible for the coordination of specialized economic development support in rural communities of the Municipality. The unit is responsible for Agricultural and Agro-processing Development, Tourism promotion and development, and promotion of Arts, Culture and Heritage.

These focus areas have been supported through the following projects:

Agriculture Development Support Programme

The first season of the Agricultural Development Support Programme that was approved by Council in 2018/2019 financial year was a clear demonstration of the principles of cooperative governance where a consolidation of support available through the Municipality's own resources, including those by other Government Departments and Private Sector stakeholders in agriculture, ensured implementation of agricultural support initiatives in Rustenburg.

The following projects were identified as flagships to support local farmers in developing the agricultural sector:

Sunflower Production

Farmers received support for feed to improve the condition of the livestock which were affected due to veld fires farmers experienced. Twenty (20) Grain farmers were supported with seeds through partnership with Department: Agriculture, Land Reform and Rural Development. Local farmers were also supported with transport to attend the Provincial Market /Farmers Day. Resources (equipment, inputs and implements) – 10 dorpers, 20 grain seeds, 1 container, 1 saffron, 19 diesel.

In addition to the technical skill transfer to ensure precision farming, the following production inputs and assistance were provided support:

- Strengthening Horticulture Education and Training
- Business Development (precision farming training, business linkages and market development) – 10 dorpers, 36 SU/Orbit/RLM, 40 NAMPO
- Trainee Dorpers breeders were not handed certificates at the time of completion because there were errors in the copies of the certificates
- University of Stellenbosch and Orbit TVET College provided agriculture training (Crop Strategy and Crop Rotation)

Ten (10) farmers were provided with specialist training on breeding of Dorpers (sheep) by Plenty Dorpers (PTY) LTD. Mining Stakeholder (RCM) still awaiting confirmation of the date from the DMRE for the handover ceremony for the certificates and other resources, to the farmer beneficiaries. Market Linkages and Financial compliance interventions provided to twenty-nine (29) Farmers. DLED facilitated the hosting of the Farmers Market at the Farmer Production Support Unit. Fourty (40) local farmers were supported with transport to attend the annual Nampo Agricultural Show in Bothaville.

Distribution list for diesel:

A total of 40 000 litres Diesel procurement finalized. The first batch of 20 000 litres delivered on 11 June 2024 and the second batch on 24 June 2024.

Nineteen (19) crop farmers were supported with diesel through the Agricultural Development Support Programme.

Farmer Production Support Unit (FPSU)

The Rustenburg Local Municipality Council approved the establishment of the Rustenburg Farmers Production Support Unit at the Rustenburg show grounds. The Department of Rural development through the Agri-Parks programme is the driver of the FPSU and funding is sourced from various stakeholders within government and the private sector. The FPSU seeks to resuscitate the agricultural activities and create a One stop shop for farmers. The farming community has been able to benefit from the FPSU in many ways through attending agricultural events such as monthly Farmers Market days, livestock shows, trainings, and study groups and information sessions on different aspects of farming. Farmers markets held from November 2023 to June 2024. Market and Information access to local farmers attending the events.

Tourism Promotion and Development

The Tourism Sector Development has identified numerous activities supporting the Municipality's vision of developing Tourism as one of the key sectors to diversify the local economy. The key areas of focus in developing tourism included the following:

- Operationalisation of the Visitors Information Centre (VIC), Tourism Information Development (TIDC)
 Centre
- Resuscitation of relationships with the Tourism facilities owners and tourist tour operators
- Rebuilding the crafters database to enable ease of access to support offered by the Municipality and key stakeholders
- Promoting Rustenburg as a host city for different types of events and programmes for both government and private sector

To this end, consultative meetings have been held with the various players in the tourism space and including the Rustenburg Adventure Tourism and Accommodation association and Tour operators' association. These engagements have been very instrumental in ensuring that Rustenburg becomes a tourist destination of choice. Through various partnerships and collaborations, the following events were supported by the RLM in 2023/24 financial year: Below is a list of events supported by the directorate through the unity Rural Development in 2023/24 financial year.

Rustenburg Film Festival-September 2023

Rustenburg Film Festival is an annual film festival implemented by Rustenburg Film Festival (NPC), a registered Non-Profit Company which has entered into a partnership with the Municipality to promote and develop the film and create the arts sector.

- The main objective of the organization is to run the Rustenburg Film Festival and other film related events close to its mandate.
- Develop and promote filmmakers in Northwest through practical interventions
- Audience development through evoking appetite for local movies
- Foster networks amongst key stakeholders in film
- Promote Northwest as a film destination (film tourism)

RUSTENBURG Platinum Pride Festival December 2023

The Rustenburg Platinum Pride is about embracing diversity, celebrating true liberation and acknowledging the rights and lives of the concerned community. It's about freely expressing your true self, educating and empowering society at large. The RLM supported this event held at the Rustenburg Visitors Information Centre, the event was deemed a huge success as it had increased in the numbers of patrons, exhibitors, crafters, speakers, DJs, local artists etc. its motorcade was well coordinated with colour, music and dancing, the city was abuzz with entertainment.

Rustenburg Unplugged Sessions-May 2024

Rustenburg Unplugged Session was held at a theme park, Ten Flags, located in Rustenburg. It was sold out and filled to capacity. A resounding success it was for national and local artists, crafters, exhibitors and patrons as they all got exposure, networked with likeminded people and fully enjoyed the entertainment and the environment. The crafters whom the RLM had supported at this event also reported that they derived great value from their participation as business was good.

COMFESA- February 2024

A Music Federation, Choral Orchestra and Opera Music Federation of South Africa (COMFESA) in hosting the City of Rustenburg COMFESA International Choral Symposium as an Artist Development programme and a premium Tourist event. This event is much more than a choral music event as it is also a vehicle for social impact and economic recovery of the Tourism industry.

All White Party Annual Public Workers Party December 2024

It is in this view that we have selected to partner with NS Productions in hosting the Rustenburg White Party as an annual Tourism Musical attraction event. This event is much more than a Musical event as it is also a vehicle for social impact and economic recovery of the Tourism industry

Farmers Market Days -September 2023 to June 2024

In promoting Agri Tourism, the RLM, through its partnership with Plenty Dorpers, has been hosting Farmers Market Days monthly since September 2022 to date. In excess of 30 stalls with various local products have been booked monthly including e.g., fresh vegetables local baristas, local craft beer, eggs etc etc. Kids have been entertained with kids play area and local sweet and toy manufacturers, Jumping Castle, Face painting and Pony rides are very popular.

Investment Promotions: Catalytic Projects Programme

The Municipality continues to promote and facilitate catalytic projects aimed at supporting the development and diversification of the local economy. During the reporting period, the Directorate Local Economic Development received numerous enquiries on various catalytic projects namely the Rustenburg ICC and Hotel, University Development, Fresh Produce, Housing development (Boitekong Ext. 35 and Geelhoutpark Extension 10), aerodrome, Solar farm project and the Industrial Area development (SEZ). The Municipality prioritized the University precinct as a key catalytic project that will enable diversification of the economy in the education sector. The A letter of intent was received from the North-the Counciliversity (NWU)requesting allocation of land for the purpose of establishing the School of Sustainable Mining in Rustenburg, as Council has resolved on the land to donate to NWU for the development of the school of Mining facility.

The Council had allocated land for the establishment of the NWU School of Mining in Rustenburg per item 231 of 17 November 2023. There was an objection registered after the Council resolution was taken. That objection was tabled at Council per item 29 of 26 March 2024. The Municipality then submitted the objection to the Office of the Premier on 2 April 2024; for his consideration. The decision on the matter is awaited.

In terms of core local economic development functions, there are four (4) Units within the directorate that are tasked with implementation of the local economic development diversification strategy, focusing on Enterprise Development; Policy and Research; Industrial Development & Investment Facilitation and Rural Development. The four units work in collaboration to provide cohesive project implementation for the Directorate with support from other Directorates.

Unit: Enterprise Development

The Unit is responsible for the development and support of enterprises (small medium and micro enterprises, co-operatives and informal traders) operating within the Rustenburg Local Municipality in all business sectors. The unit focuses on Business Development Support, Informal Trading Support, Co-operative Development and Job Creation.

In facilitating access to employment opportunities for local residents, a number of job opportunities were created through various Municipal and private sector programmes, these included job opportunities for general workers appointed through the different Infrastructure Projects which include general construction work and EPWP job opportunities, cleaning Municipal facilities, sidewalks, grass cutting and pruning of trees. The private sector fiber infrastructure rollout programme has created at work opportunities during construction; other jobs opportunities have been created by tourism promotion and events that have been hosted in collaboration with RLM and different sector stakeholders.

Under Business Development Support, local SMMEs have been assisted with market development and linkages for sub-contracting through the Municipal and Private Sector capital projects. The unit is continuously engaging with internal departments and private development investors to sub-contract and develop SMMEs and cooperatives in the construction sector. The unit has succeeded in the implementation of the sub-contracting allocation for upgrading of Tlhabane Outfall Sewer Roads & Stormwater project in ward 11. The Municipality has recruited learner contractors for development in partnership with the Department of Public Works and Infrastructure. The Unit continues to assist SMMEs with compliance readiness to access opportunities, the support provided include facilitation of SARS appointments, CSD registration, CIDB registration, bank account referrals and the registrations of companies and co-operatives.

The unit continues to ensure that it supports the informal sector with various business interventions which include training and development; business equipment purchasing and even ensuring that they operate in an environment that is conducive. During the financial year SMMEs have enjoyed support from the private sector; the NYDA Young Entrepreneurs Business Pitch funding.

The Enterprise Development programme, local enterprises have also been offered other business support services which includes compliance registration, business advisory, capacity building and networking platforms. The interventions for the Co-operatives, SMMEs and informal traders were in collaboration with multiple stakeholders including South African Revenue Services (SARS); Small Enterprise Development Agency (SEDA); Construction Industry Development Board (CIDB); ABSA; Northwest Development Corporation (NWDC); SALGA, National Home Builders Registration Council (NHRBC), Department of Small Business Development, Small Enterprise Development Agency, Nation Youth Development Agency (NYDA), Lepharo, Department of Public Works and Infrastructure, Plenty Dopers, Department of Agriculture, Land Reform and Rural Development and DEDECT amongst others. The Directorate relies highly on the collaboration with other stakeholders to support the emerging local enterprises. Collaborating on enterprise development initiatives allows the directorate to leverage on professional, technical and capital resources that the Municipality does not have, in order to achieve the set goals of developing sustainable business and create work opportunities.

The unit has also been organizing and facilitating Enterprise Days in various Municipal Wards.

Unit: Policy and Research

The unit is responsible for two overall functions, i.e., the implementation of legislation and development of strategies, research concepts, economic sector programmes and initiatives.

Development, implementation and monitoring of policies, by-laws and other regulations

National and provincial government craft legislation that regulates governance, financial and economic related activities of the Republic. In response, local government must develop policies, programmes and strategies in alignment with these acts. The function of the unit is to ensure that these pieces of legislation are implemented and in turn must develop municipal economic related policies, by-laws, strategies and programmes that align with these government priorities, to ensure seamless implementation and monitoring.

Policies, By-Laws and other regulations

Formulation of economic related municipal policies and by-laws

Investment attraction, retention and expansion of local businesses to diversify the local economy and enhance job creation is a challenge that requires policy interventions at the municipal level. Therefore, the unit developed the following:

- RLM Investment Incentives Policy of 2018
- RLM Outdoor Advertising By-Law, No. 1 of 2019, was under review. The review By-Law will be subjected to new public participation processes before tabling at Council for adoption.
- Informal Trading By-Law of 2022

As indicated above, the unit is responsible for the implementation of the above municipal policies, by-laws and regulations including national and provincial Acts that affect the Directorate. In this instance, the Northwest Business Licensing Act, No.3 of 2019 directly impacts on the operations of the Municipality by repealing the status of the Municipality as a business licensing authority. Authority to issue business licenses was based on the NW Business Act, No. 6 of 1997 and accorded by the NW Provincial Gazette No. 6581 of 2009.

Implementation and monitoring of economic related policies

However, before the repeal of the latter Act, the Accounting Officer had established the Business Regulations Committee (BRC) in terms of section 55(1)(p) of the Municipal Systems Act, No. 32 of 2000; comprising of members from various Municipal units and a representative from the Bojanala Platinum District Municipality in 2018, as policy implementation and good governance demanded collaboration and full participation of each member to enhance successful outcomes.

The Accounting Officer delegated Director: Local Economic Development to chair the BRC on his behalf to ensure that the affected Municipal (RLM Outdoor Advertising By-Law), provincial (NW Business Licensing Act) and any other national legislation are implemented and monitored effectively. In the BRC, each participating unit ensures that its functions, regulations and by-laws operate in sync with the objectives of respective regulations, provides advice on each application and contributes to the drafting of recommendations for approval by the Accounting Officer. Each component of affected regulations is considered and applied to ensure that there is governance, good record-keeping and accountability.

Implementation of the Business Licensing Policy

Background

The North-West Business Act No. 6 of 1997 was transferred to municipalities on September 3, 2010, authorizing them to issue business licenses. However, a Memorandum of Understanding (MOU) was not signed at the time of delegation, resulting in most municipalities failing to issue licenses, except for Mahikeng, Matlosana, and Dr. Ruth. Consequently, the new Business Licensing Act No. 3 of 2019 is set to repeal the Business Act No. 6 of 1997. In response, the MEC is revoking the powers granted to municipalities and consolidating business licensing authority at the provincial level

Delegation as a Licensing Authority

When the Municipality is ready to assume business licensing authority, they can submit a request to the Department. Considering previous experiences, a Memorandum of Agreement (MOA) will be mandatory to establish clear terms and responsibilities. Once the MOA is signed, the Municipality will assume full responsibility for business licensing, transitioning the authority from the province to the local level

Business Licensing Authority

The designated municipality is mandated to establish and support a Business Licensing Authority, as outlined in Section 6 of the North-West Business Licensing Act No. 3 of 2019. The Authority will be responsible for reviewing and adjudicating business license applications, as well as providing expert advice to the responsible member on related matters arising from the implementation of the Act and in this regard, unfortunately we haven't started the Business Licensing Authority, but we have the Business Regulations Committee in place.

Licensing Issuing System

We have allocated a budget for software that will enhance our business licensing process, enabling us to efficiently issue legitimate licenses while reducing the risk of fraudulent licenses being issued. An Electronic Information Management System (EIMS) for regulation of business licensing and other regulatory services is a digital platform that streamlines and automates the process of managing business licenses, permits, and other regulatory requirements. Our goal is to:

Goals:

- 1. Simplify and Streamline Regulatory Processes
- 2. Improve Regulatory Compliance
- 3. Enhance Customer Experience

- 4. Increase Transparency and Accountability
- 5. Support Data-Driven Decision Making

Here are some key features & benefits:

Key Features:

- 1. Online Application and Submission
- 2. Automated Workflow and Approval Processes
- 3. Digital Storage and Management of Documents
- 4. Real-time Tracking and Monitoring
- 5. Reporting and Analytics
- 6. Integration with Payment Gateways
- 7. Secure Access and User Authentication

Benefits:

- 1. Improved Efficiency and Reduced Processing Time
- 2. Enhanced Transparency and Accountability
- 3. Better Compliance and Enforcement
- 4. Increased Accessibility and Convenience for Businesses
- 5. Data-Driven Decision Making
- 6. Reduced Costs and Improved Resource Allocation
- 7. Enhanced Customer Service and Support

Modules:

- 1. Business Licensing
- 2. Permitting and Approvals
- 3. Compliance Monitoring
- 4. Enforcement and Inspections
- 5. Reporting and Analytics
- 6. Customer Relationship Management

Business Licensing Authority Checklist: ANNEXURE A (ATTACHED)

Business Licensing Policy

Effective business licensing is vital for the Municipality's revenue generation and regulatory functions, ensuring that businesses operate within established parameters. Yet, despite its importance, the Municipality was unable to issue licenses, as indicated by the NorthWest Provincial Government (Department: Economic Development, Environment, Conservation and Tourism). To overcome this obstacle and achieve South Africa's national objectives of economic expansion, employment generation, and poverty alleviation, a comprehensive Business Licensing Policy was established, guiding us towards readiness and compliance.

The objectives of the policy are:

- i. To provide a uniform approach to the issuing of business licenses, having regard to the principles set out in the The Business Licensing Act, no. 3 of 2019 and in The Constitution of the Republic of South Africa Act, no. 108 of 1996 (The Constitution).
- ii. To provide preferential business licensing for SMMEs thus increasing their opportunities to participate in the economy and contribute to economic growth.
- iii. To affirm the guaranteed rights of citizens as per section 22 of The Constitution, that states that every citizen has the right to choose trade freely and that practice of trade may be regulated by law.
- iv. To provide for fair, transparent, and ethical allocations of business operating licenses in a particular jurisdiction, in a manner that enables the citizens to actively participate in the economic life in that jurisdiction and ensuring the protection of the environment. The health and safety of all other citizens is critical in ensuring social and economic growth in all local communities.
- v. To provide for measures to mitigate (reduce/alleviate) the effects emanating from economic shocks, crises, or disasters through the easing and emergency adjustments of business licensing regulations, procedures, and requirements as well as any other financial and non-financial relief.

Research, strategies, programmes and initiatives

Research is crucial in understanding the local economy's dynamics, identifying opportunities, and addressing challenges. However, the ever-changing economic landscape can impact research, making it essential to stay up to date with the latest trends, data, and insight.

Some potential research areas to explore for Rustenburg's economic growth and development could include:

- 1. Industry analysis (e.g., mining, agriculture, tourism)
- 2. Labor market trends and skills development
- 3. Infrastructure development and investment opportunities
- 4. Entrepreneurship and small business support
- 5. Innovation and technology adoption
- 6. Regional and international trade opportunities
- 7. Socio-economic impact assessments
- 8. Best practices from similar municipalities

As we understand that the landscape of the economy changes, we as the Department makes sure that we stay ahead of the changing economy, by making sure that we:

- 1. Regularly review relevant literature and reports
- 2. Engage with local stakeholders, businesses, and experts
- 3. Monitor economic indicators and data
- 4. Participate in conferences, workshops, and training
- 5. Collaborate with other departments and organizations

But as we all know, mining and quarrying dominate the economic activities in the municipality. It is a recurring challenge for the Municipality because any event in the sector directly affects the Municipality. To mitigate this risk, the Municipality mandated the Directorate to develop interventions to diversify the local economy and enhance job creation. Supporting the municipal strategic goal of economic diversification and job creation requires careful analysis of the existing economic sectors like Manufacturing, Agriculture, Tourism and related services. The unit was tasked with the responsibility of analysing these existing sectors to find ways of incorporating new perspectives and trends in the economic environment to augment the economic output. In response, the unit proposed through research concepts to investigate additional potential/new economic sectors to assist the local enterprises and job seekers to participate in the economy.

New programmes for local economic diversification and job creation included the Green Economy Development and the enhancement of the Education and Skills Development. The Green Economy Development Programme aims to develop sustainable and commercial enterprises that use engineering processes to generate energy from renewable sources and/or various waste products as inputs into manufacturing new consumer products. The role of the Directorate will be to stimulate government and private stakeholders to support Green Economy projects in Rustenburg. The programme requires specific collaboration with the Directorate: Community Development to ensure that entrepreneurs access Municipal and other industry/corporates waste products. Directorates: Planning and Human Settlements, Technical and Infrastructure Services, Budget and Treasury Office shall be approached for technical support and advice when needed. The Directorate has established a Green Economy Development Technical Committee in collaboration with Directorate: Community Development, to receive, analyse the size/scope/feasibility of proposals and prioritise project proposals prior to implementation or submission to the Catalytic Projects Fast Tracking Committee.

Council approved the concept as item 127 of 29 May 2018. An information brochure was developed to inform and attract interested registered enterprises to participate in the programme. The role of the Directorate will be to stimulate government and private stakeholders to support Green Economy projects in Rustenburg. The programme requires specific collaboration with the Directorate: Community Development to ensure that entrepreneurs access municipal and other industry/corporates waste products. Directorates: Planning and Human Settlements, Technical and Infrastructure Services, Budget and Treasury Office shall be approached for technical support and advice when needed. The Directorate has established a Green Economy Development Technical Committee in collaboration with Directorate: Community Development, to receive, analyse the size/scope/feasibility of proposals and prioritise project proposals prior to implementation or submission to the Catalytic Projects Fast Tracking Committee.

Strategies might include:

- 1. Incentivizing green businesses and investments
- 2. Developing green infrastructure (e.g., green buildings, parks)
- 3. Supporting research and development in green technologies
- 4. Creating training programs for green jobs
- 5. Encouraging sustainable practices in existing industries

Green Economy SMME Support: DDE Trading

On March 23, 2023, we facilitated a meet-and-greet between Mr. Molefe and Mr. Mtsweni from the DTIC (Department of Trade, Industry, and Competition) and our Green Economy SMMEs, including DDE Trading, for a pitching session. Site visits were arranged to explore funding opportunities for equipment and application support. Although most SMMEs were unprepared, DDE Trading stood out as a women-led group excelling in Lethabong.

To enhance their readiness, The Unit facilitated training with Lepharo in January 2024, focusing on business management and paperwork. This led to a successful IDC funding application, resulting in a grant award in April 2024.

The achievements of DDE Trading between April 2024 and June 2024 include:

- Constructing a new manufacturing facility for plastic products, boosting efficiency
- Procuring raw materials in bulk, expanding client reach
- Acquiring new equipment, increasing production capacity
- Enhancing product competitiveness through revamped packaging
- Utilizing the IDC grant to expand staff, hiring youth and increasing personnel to 6 members and 3 directors

Successful projects include re-engaging with old customers, delivering product presentations to local schools, and receiving interest from additional schools.

Operations and improvements include promoting young individuals to administrative roles, acquiring office equipment, and demonstrating remarkable progress in customer growth, financial growth, and product reintroduce

Skills Development

The DLED considers education and skills commodities as people need these to access opportunities in the economy. As a result, the directorate aims to facilitate the establishment of new academic, vocational, and technical educational facilities to provide accessible and affordable services for the local stakeholders including businesses as many of the opportunities for local enterprises and job seekers rely on the availability of relevant skills. Facilities identified are the establishment of the University of Technology, additional vocational schools to offer practical skills that can be converted into sustainable income generating activities like innovative and value-adding into agricultural, mining, artefacts, waste, and other products to create manufactured products to provide services to local mines, businesses, and consumers. Agro-processing, engineering, manufacturing,

and other additional value-adding activities are enablers of SMME growth and sustainable job creation in the local economy. Emerging local enterprises were identified and assisted with the drafting of business profiles. These enterprises participated in virtual workshops on the Black Industrialists Programme. The Unit further invited officials from the Industrial Financing; and the Innovation and Technology branches, to provide one-on-one consultations with the six identified enterprises on how to access funding for manufacturing and innovation enterprises. Three of the SMMEs were enrolled in the Lepharo Incubator.

The monitoring component of the unit requires collection of SMME and job creation activities from LED programmes and initiatives. Monitoring and research interventions rely on the collaboration within the units of the DLED and cooperation received from other municipal directorates. Each project implemented within the directorate must keep records of the enterprises involved and the job opportunities created through that event using the tool created by the unit. That information is analysed and reported on to ensure that the interventions of the directorate are effective and developments in each economic sector are measured progressively over periods.

With this program the Directorate has managed to Focus on:

- 1. Upskilling and reskilling the local workforce
- 2. Addressing skills gaps in emerging industries (e.g., green economy, tech)
- 3. Improving education quality and relevance
- 4. Enhancing vocational training and apprenticeships
- 5. Promoting lifelong learning and professional development

The Unit managed to implement strategies like:

- 1. Collaborating with educational institutions and industry partners
- 2. Developing tailored training programs for in-demand skills
- 3. Establishing mentorship and internship initiatives
- 4. Encouraging entrepreneurship and innovation training
- 5. Fostering a culture of continuous learning and skill acquisition

Studies indicate that by continuing and integrating these initiatives, our local government can achieve the following benefits:

1. Foster a thriving and sustainable economy

2. Generate employment opportunities in cutting-edge industries

3. Elevate the skills and competitiveness of our local workforce

4. Advance environmental stewardship and conservation

5. Enhance the overall well-being and quality of life for our citizens

By combining these programs, we can create a synergistic effect that amplifies their impact and drives

meaningful progress in our community

Business Retention and Expansion

Business Retention and Expansion (BR&E) is an economic development strategy that focuses on supporting

and growing existing businesses within a community, rather than solely pursuing new business attraction. The

goal is to:

1. Retain: Keep existing businesses operating and thriving in the area.

2. Expand: Encourage businesses to grow and expand their operations, leading to increased investment, job

creation, and economic activity.

Implementation of the Business Retention & Expansion Survey

The Council already approved the Business Retention and Expansion Survey, which seeks to gather insights on

the local business environment and regulatory landscape. The purpose of this survey is to:

- Understand our experiences and perspectives on local conditions and regulations impacting businesses

- Identify policies and practices that may be hindering business growth and development

- Uncover key opportunities and challenges facing local businesses

By participating in this survey, we will be able to help inform initiatives that support business success, drive

economic growth, and enhance the overall business climate in our community.

Upcoming Activities: Business Retention and Expansion Survey

The survey will be conducted in two phases:

124

Phase 1: Business Listing and Data Collection which STATSA has already been identified to assist

- Collecting and recording basic business information (addresses, particulars) of which we already have in our database

Phase 2: Survey and Interviews

Following our discussion with STATSA, we decided to adopt a more collaborative approach. Instead of hiring fieldworkers, we will invite local businesses and stakeholders to meet with us at our local halls. This will provide a platform for them to share their concerns, challenges, and suggestions on how the Municipality can better support them. By listening to their needs, we can tailor our assistance to make a stakeholders to meet with us at our local halls. This will provide a platform for them to share their concerns, challenges, and suggestions on how the Municipality can better support them.

3.23 LEGAL AND VALUATION UNIT

INTRODUCTION

The Unit: Legal and Valuation Services is situated within the Office of the Municipal Manager to enable the smooth workflow of information and timeous response to all legal matters and or labour disputes

The primary objectives for the existence of this Unit is inter alia to render and provide an efficient and effective legal advisory service to the municipality including the municipal council for the purpose of enhancing compliance with the prevailing legislation.

In giving effect to the above objectives, the Unit plays a supportive, complementary and advisory role to strengthen the capacity of the municipality departments to fulfil Constitutional mandate. This is done by providing on regular basis legal advice, settling documents, and rendering legal support to committees of the council and the council as well as supporting the Office of the Executive Mayor, Office of the Speaker and Office of the Single Whip.

In pursuit to the realization of its Constitutional mandate, the Legal and Valuation Unit is providing the following legal support services as required by Legislation:

Litigation including case Management.

Legal advisory services. (legal opinions, legal comments, legal reports)

Labour Law.(Disciplinary hearings and Appeals , Bargaining Council disputes and CCMA disputes and Labour Court cases)

Compilation of By-law and Policies for enforcement after being approved by Municipal Council.

Drafting of service level agreements or Agreement; and

Facilitating for obtaining of Valuation Report from the appointed Municipal Valuer .

Due to the reason that the municipality is a creature of statute, it was important that there should be a culture of legal compliance with the prevailing legislation for the purpose of protecting the municipality interest.

3.25 ORGANISATIONAL STRATEGY & PLANNING

INTRODUCTION

The Strategy and Planning Unit is responsible for the following key performance areas: Integrated Development Planning; and Organisational Performance Management

Integrated Development Planning

The process of reviewing the IDP was followed in terms of the requirements of section 34 of the Local Government: Municipal Systems Act, 2000. It is coordinated and facilitated with all directorates and stakeholders to ensure that the Reviewed IDP is approved on time by the council. The municipality was using the review process to ensure that the IDP moves beyond focusing on outputs and becomes more outcomes and results oriented. The change in focus will assist the directorates to begin to measure the impact of their programmes and change the implementation of their respective plans to deliver better services to local communities.

Organisational Performance Management

The role of the Organisational Performance Management Unit is outlined in Chapter Six of the Local Government: Municipal Systems Act, 2000. The unit coordinates the process of performance reporting on Service Delivery and Budget Implementation Plan (SDBIP). It further coordinates the quarterly, mid-year reviews and compilation of the annual report.

3.26 ANNUAL PERFORMANCE REPORT (SECTION 46 REPORT: 2023/2024)

3.26.1 INTRODUCTION

The Annual Performance Report is hereby submitted to the Rustenburg Municipal Council in terms of the Municipal Systems Act (MSA), 32 of 2000, section 46(1) and (2), as well as the MFMA Circular 63 on annual reporting. This report covers the performance information from 01 July 2023 to 30 June 2024 and focuses on the implementation of the Service Delivery Budget and Implementation Plan (SDBIP) as amended following the approval of the adjustment budget on the 29 February 2024.

This Report reflects actual performance of the Municipality as measured against the performance indicators and targets in its 2023/2024 Service Delivery and Budget Implementation Plan (SDBIP).

This part of the report endeavours to provide account to the Municipal Council in line with the following six (6) National Government's Strategic key Performance Areas for local government, which are:

- (1) Municipal Institutional Transformation and Development;
- (2) Good Governance and Public Participation
- (3) Municipal Financial Viability and Management
- (4) Local Economic Development and Job Creation
- (5) Basic Service Delivery; and
- (6) Spatial Rationale and Municipal Planning Alignment

The format of the report will reflect the Municipality's Key Performance Indicators (KPI) per Municipal Key Performance Area.

3.26.2. LEGISLATIVE REQUIREMENTS

This Annual Performance Report has been compiled in compliance with the requirements of section 46 (1) of the Local Government: Municipal Systems Act, 2000; which stipulates as follows:

- (1) (1) A municipality must prepare for each financial year a performance report reflecting—
 (a) the performance of the Municipality and each external service provider during that financial year.
 - (b) a comparison of the performance referred to in paragraph (a) with targets set for performance in the previous financial year; and
 - (c) measures taken to improve performance.

In addition, Regulation 7 (1) of the Local Government: Municipal Planning and Performance Management Regulations, 2001 states that "A Municipality's Performance Management System entails a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organised and managed, including determining the roles of the different role players." Performance management is not only relevant to the organisation, but also to the individuals employed within the organization, external service providers and the Municipal Entities. This framework, *inter alia*, reflects the linkage between the IDP, Budget, SDBIP, individual and service providers' performance.

3.26.3 PERFORMANCE MANAGEMENT OVERVIEW AND PROCESS

To improve on performance planning, implementation, reporting and measurement, the institution implemented the following actions:

At the beginning of the 2023/2024 financial year, there were 46 KPIs in the SDBIP. During the adjustment period, KPI's remained the same.

The scorecards table in the SDBIP provides for Portfolio of Evidence which must accompany the report to ensure each KPI is supported by relevant proof of achievement.

The Municipality endeavoured during the development of the Top Layer to adhere to the "SMART" principle in setting of indicators and objectives. Emphasis was placed on ensuring that targets were specific and time bound, thus making them measurable.

3.26.4 COMPARATIVE ANALYSIS OF THE 2022/2023 AND 2023/2024 PERFORMANCE

The municipality's performance by the end June 2023 was at **50%.** Based on confirmation through the internal audit process and confirmation by the assessment panel Performance for the financial year under review overall performance was at **59%.**

Comment on Achievement of the KPI and Remedial Measures

Status of Performance

For the year under review 12 disaster recovery site test were conducted. Tests were conducted to ensure the data of the municipality is protected. The testing includes backup of the information which was processed and replicated to remote and cloud servers' servers. Considering the sensitivity and volume of financial data, the PAC recommended that tests be conducted monthly hence reported achievement has exceeded the target.

Ref: DCS 2

Municipal Strategic Objective: Develop and implement internal capability model (institutional core and critical competencies, scarce skills, maintenance skills) that enhance institutional and external stakeholders' development communities and institutional capability

Comment on Achievement of the KPI and Remedial Measures

Status of Performance

The actual annual budget for training of personnel was R 3 394 076.00. An expenditure of R 586 502.00 was incurred against the budget which translates to 17.3% spending.

Reasons for Non achievement.

The tender served before the Bid Specification Committee for the appointment of the panel of service providers on the 23 November 2023. An advertisement was published on the 08 December and the closing date was set for 06 February 2024. The report served before the Bid Evaluation Committee (BEC) for the first time 26 March 2024 and could not be finalized. During the subsequent meeting of the BEC, the bid was recommended for readvertisement.

Remedial Measures

Since there was a challenge of finding one training provider with accreditation on all required modules. Quotations were requested. Thirteen (13) were advertised on a Seven (7) days quotation and only two programmes were implemented due to time constraints.

Comment on Achievement of the KPI and Remedial Measures

Status of Performance

A total number of 1062 Council Resolutions were registered within 2023/2024 financial year. Nine (9) Council Resolutions were withdrawn which decreased the number to 1053.

802 were implemented which translate to 76%

109 are in progress and 11 were referred.

132 Council resolutions has not been addressed yet.

Number of Council resolutions implemented: 802 x 100.

Number of Council resolution taken : 1053 1 = 76%

Reasons for non-achievement

Non implementation of resolutions and non-submissions of reports or progress thereof to Council by directorates.

Remedial plan

Develop and implement an intensive monitoring tool on implementation of Council Resolutions.

3.26.5.3 Key Performance Area (KPA 3): Municipal Financial Viability and Management

MUNICIPAL STRATEGIC PRIORITY: Ensure a sustainable municipal financial viability and management

Municipal Strategic Objective: Implement integrated capital funding model

| | provider | | | | | | | | | |

Status of Performance

The bid for the MSCOA system was re- advertised and closed. The scheduled closing date was the 31 January 2024. As at the end of the financial year under review, the system vendor was not yet appointed. The delay in finalization of the process were due to a court interdict by one of the previous bidders. The process was paused for two months. As at 30 June 2024 the system for mSCOA financial system was not appointed.

Reason for non achievement.

The court order by previous bidder held the process in abaeyance.

Remedial Measure

The lifting of the interdict by the court.

BTO 1

Municipal Strategic Objective: Implement revenue management strategy to enhance municipal financial viability and sustainability

| KPI 8: | 2022/202 | 3 | | | | 2023/2024 | | | | | |

| | | | | | | | | financial | | | |
| | | | | | | | | system | | | |

Comment on Achievement of the KPI and Remedial Measures

Comparing the budget and actual after the budget adjustment.

Original budget inclusive of grants: R 8 287 072 000

Minus Transfers and Subsidies: R 2 013 959 000

Targeted revenue: R 6 273 113 000

Year to date actual revenue: R 6 140 573 000

Minus Grants received: R 1 880 814 000

Internally generated revenue: R 4 259 859 000

4 259 859 000 x 100 = 68%

6 273 113 000

Reason for variance

Year to date budget for electricity was 4 049 322 000 and the year-to-date actual was 2 054 300 000 as per AFS 2024. The big variance on electricity revenue has negatively influenced the performance for the period under review.

Remedial Measure

To tap on the DBSA intervention to implement prepaid smart water and electricity meters in areas not metered to enhance collection.

Develop and implement reduction strategy on expenditure managements.

| KPI 9: | 2022/202 | 23 | | | | 2023/2024 | | | | |

| submission by | | | | | | invoce submission | | | | |
| June 2024 | | | | | | by June 2024 | | | | |

Performance: Not-Achieved

The Cumulative creditors payment for the period up to 30 June 2024 was 36 days.

Reasons for non-achievement

The invoice submission system had internal control deficiencies.

Remedial Measures

Internal control systems were assessed. A monitoring system will be put in place in the 2024/25 finacial year. An official will be identified and assigned to perform the monitoring of the controls in payments of service providers.

Status of Performance

The Ratio is used to assess the Municipality's or Municipal Entity's ability to pay back its short-term Liabilities (Debt and Payables) with its Short-term Assets (Cash, Inventory, Receivables).

Formula: Current Assets/Current Liabilities

Current Assets : R910 731 000 Current Liabilities: R1 901 339 000

Current Ratio : 0.48:1 against the target of 1:1.5

Reason for non-achievement

Inadequate cash reserves and lower payment levels.

Remedial Measures

Debt collectors appointed

Implementation of debt collection plan.

Continue to intensify credit control measures and resolved all the impediments.

Comment on Achievement of the KPI and Remedial Measures

Status of Performance

A letter of intent received from the North-West University requesting allocation of land for the purpose of establishing the School of Sustainable Mining in Rustenburg.

The Council has resolved on the land to donate to NW university for the development of the Mining and Engineering Facility RLM has identified that project as part of its integrated Masterplan and has made land(erf 2263 Geelhoutpark ext. 6) available for such as development. Land donation resolution was passed by Council. A challenge was an objection on land donation which was later resolved through item 29 of the 26 March 2024. A preliminary feasibility study was concluded and found the idea was viable and implementable.

| 30 June 2024 | | 6.1 | report | | | | | | | |

Status of Performance

The non-revenue water is calculated by subtracting the system input (46 520 509 units or 100%) which is the amount of water purchased from the bulk supply minus the billed authorised consumption (22 529 142 units or 52%), the difference between the two is the water losses (23 991 367 units or 48%) for 2022/2023 financial year.

Non-revenue water or water losses is the distributed volume of water that is not reflected in customer billing which is the sum of unbilled authorised consumption for example water that is lost from the hydrant when flushing or filling water tankers, plus apparent losses which are caused by customer inaccuracies when their meters are not functioning well plus real losses which are caused by pipe bursts and pipe leaks or storage tanks overflows. The non-revenue water is calculated by subtracting the system input (44 608 047 units or 100%) which is the amount of water purchased from the bulk supply minus the billed authorised consumption (20 824 734 units or 59%), the difference between the two is the water losses (23 783 313 units or 41%) for 2023/2024 financial year.

The difference between the two financial years 2022/2023 (48%) and 2023/2024 (41%) is = 7% water losses.

| | | | | | | | | | | | |

Status of Performance

The anticipated connection was based on estimated individual applications. There was no direct projects with budget that was linked to the target. 61 houses connected with water within the Rustenburg jurisdiction.

Reason for non-achievement

This is an extension of service to premises that were not developed. The projection was based on the anticipated applications.

Remedial Measure

In future the KPI must be linked to the deliverables of the specific projects not anticipated projects.

Status of Performance

Boitekong Electrical substation has registered 85 % progress. The following items were completed.

Substation Building

First Phase Primary Plant

Engineering Designs for the Primary and Secondary Plant

The budgetd amount for the projects was R31m and an expenditure of R31m was incurred towards the project translating to 100% spending on the allocation for the 2023/2024. The remaining items as at the end of the financial year were, Supply and Installation of 20MVA Transformers and MV Switchgears. Factory Acceptance Test were conducted towards the end June 2024. As at the end of the financial year 2024, The shipment was released, and delivery was anticipated.

The 3 high mast lights projects for Kanana A & C and Robega were evaluated and adjudicated. The bids were recommended for readvertisement.

Reasons for non-achievement Non responsiveness of bidders

Remedial Measures

Readvertisenment of the bid, the specification committee has reprossed the bid and advert will be placed in the new financial year.

| | | | Standards | | | | | | | |
| | | | | | | | | | | |

Status of Performance

11 informal settlements received waste collection and 10 informal settlements received Illegal dumping clearance services

Reason for non achievement

Access to informal settlements was a challenge due to the shortage of low beds, as a result, this impacted service delivery, especially at the Informal settlements. In addition to the Plan, RLM Tipper Trucks and FEL are at the Service Provider appointed by WESBANK for repairs. Skips are stolen in some informal settlements. The Directorate struggled to get two of the Front End Loader's services repaired for a longer period, which resulted in illegal dumping activities not being executed properly. In addition to these informal settlements, 11 hotspots including Strumosa Waste Drop-Off Facility were serviced.

Remedial Action: Speed up the repairs of yellow fleet and inclusion of all informal settlement into the Waste collection system (Communal collection or Drop off).

| | | | | | | June 2024 | | | | |

Status of Performance

Deliverables were for the projects were: Construction of new paved roads 3.2km with v-drains, refurbishment of four buildings (3 x ablutions and a guardhouse), installation of razor wire fence 2,8km and 800m clearvu fencing. Fencing at Donkerhoek cemetery 1.5km. R2 006 130.03 was spend against the budgeted amount of R3 000 000 translating to 67% expenditure on the project. Due to Vandalism that took place consensus was reached with the service providers that the situation was outside of control of both parties. Completion certificate was issued.

| | | | | | | June 2024 | | | | |

Status of Performance

As at the end June 2024, the project had registered 94% progress and spending on the project was at R16 002 463.80 against the Budget of R19 000 000 translating into 84% expenditure.

Construction of 2 combination courts 100% completed.

Construction of 6 aside soccer court 100%

Construction of pavilion with change house 84%

Installation of 780m Clearview fence. 95% (gates to be installed last when movement of construction vehicles ends)

Construction of Guard House 95%

Construction of standard soccer pitch 90%

Agreegated deliverable were at 94% and the contractor was on site at the end of June 2024.

Reason for Non achievement

Under performance of the service provider led to project not being completed by June 2024.

Remedial Measure

The contractor has since been put on terms and was on penalties.

Comment on Achievement of the KPI and Remedial Measures

Status of Performance

The Municipality was in a process of acquiring Portion 45 (a Portion of Portion 26) of the farm Paardekraal 279 JQ. for the purpose of human settlement (Informal settlement upgrading). The property is owned by private individual. Anglo Platinum assisted with the finalization of the subdivision application. The was to be subdivided into 2 portions of which Portion A (37hectares) was already invaded. Portion B, was approximately 6 hectares.

With standards stands of 250m2 it was estimated that the property would provide 180 stands. A letter dated 30/1/2024 was received from Department of Agriculture, land reform and rural development indicating that the property was not subject to the provisions of the Subdivision of Agricultural Land Act, Act 70 of 1970.

The Deed of Donation was requested on 22 May 2024 from the Housing Development Agency and forwarded to F Grobler, the attorney of the seller for his signature on the 26th of June 2024 by the HDA. The seller changed conditions and acquisition could not be finalized as anticipated. Annual Budget was R1 500 00 additional funding was supposed to be donated by Northwest DEPARTMENT OF Human settlements/ HDA, there was no expdentiture incurred.

Reason for non-achievement:

The seller came up with new conditions which were not agreed upon during the negotiation process and refused to sign.

The new conditions requiring bRLM to construct a boundary wall between the his portion and the one that municipality intended to acquire. The conditions were found unreasobable and unaffordable/

Remedial Action:

The meeting has been arranged with HDA to conduct feasibility study to determined whether to continue with acquisition since the land was already invaded.

Status of Performance

The Spatial Development Framework for the Rustenburg Local Municipality served before Council of 28 November 2023. Council has resolved per item 235 of the Ordinary Council meeting that: the draft reviewed Rustenburg Municipal Spatial Development Framework review be made available for public participation. The call for comments and/or inputs for the revision of the Rustenburg Municipal Spatial Development Framework was published on Provincial Gazette of 30 January 2024. Public participation period commenced from 24 January 2024 to 25 March 2024 (period of 60 days). The project was not completed, and an extension of time was granted.

Reason for Non- Achievement:

Draft SDF was approved by Council on 28/11/2023 and had to be circulated and published for public inputs for 60 days period from second week of December onwards. But due to the closure of local newspapers and request to move advertisement to the period outside of the festive season the first date that the advertisement could be published was 23/01/24 which resulted in the delay planned schedule.

Remedial Action:

Extension of project end date.

| | been completed | |
| 3 | The total number of supply chain management officials employed | 25 |
| 4 | The total number of supply chain management officials whose competency | 3 |
| | assessments have been completed | |
| 5 | The total number of financial officials and supply chain management officials | 3 |
| | that meet the prescribed competency levels | |
| 6 | The total number of financial officials and supply chain management officials | 2 |
| | whose performance agreements comply with regulation 16. | |

COMPONENT B: MANAGING THE MUNICIPAL WORKFORCE EXPENDITURE

4.6 EMPLOYEE EXPENDITURE

INTRODUCTION

The finalisation of the organisational review process will assist the municipality to identify critical skills and competencies required for effective service delivery. The implementation of the organisational review results (organisational restructuring) will affect the workforce expenditure trends, which should be provided for in the operating budget in the medium term.

The most important asset of the municipality is the workforce, i.e., employees who are directly or indirectly responsible for service delivery. The acquisition, maintenance and management of employees have direct correlation with the cost and quality of service delivery in the municipality.

In determining the municipality's actual workforce capacity, an attempt is made to ensure that talented people with the right competencies and skills are correctly placed. The table below, therefore, presents the trend of total personnel expenditure over the past five years:

Number of Employees whose Salaries were increased:

Table 4.9 Salary Increases

| No | Beneficiaries | Male | Female | Total |
|----|---|------|--------|-------|
| | | | | No. |
| 1 | Lower skilled | 0 | 0 | 0 |
| 2 | Semi-skilled | 0 | 0 | 0 |
| 3 | Skilled | 0 | 0 | 0 |
| 4 | Middle management | 0 | 0 | 0 |
| 5 | Senior Management | 0 | 0 | 0 |
| 6 | Municipal Manager & Section 56 Managers | 0 | 0 | 0 |

COMPONENT C: HEALTH

3.27 OCCUPATIONAL HEALTH AND SAFETY

In terms of the Occupational Health and Safety Act, 85 of 1993, employers are required to take all reasonable measures to ensure that the requirements of the Act are complied with. This includes provision of training, inspections and risk assessments to their employees to ensure their health and safety and those of visitors. Below are the services that were provided regarding occupational health and safety during the 2023/2024 financial year:

Table 3.38 Number of Services Provided

| No | Service Provided | No: of Cases/Programmes | Total |
|----|---|--|--|
| 1. | Employee Wellness | Employee Assistance Interventions: | 131 Cases |
| | Management Program | 131 cases | |

| | | | |

3.28 EXECUTIVE AND COUNCIL

This component includes the executive offices (Office of the Speaker, Office of the Executive Mayor, Office of the Single Whip, Office of MPAC and Municipal Manager).

INTRODUCTION TO EXECUTIVE AND COUNCIL

In terms of chapter 7, section 151 (2) of the Constitution of the Republic of South Africa, of 1996, the executive and legislative authority is vested in its municipal council.

The municipal council of the Rustenburg Local Municipality is established as a municipality with a mayoral executive system which is combined with a ward participatory system in terms of Chapter 12 of the Municipal Structures Act, 117 of 1998. Section 152 of the Constitution categorically and clearly spells out the objectives of local government, and the powers and functions of municipalities are determined in section 156 of the Constitution.

Table 3.38 Council Meetings

| DETAIL | 20 | 23/2024 |
|---------|-------------------|------------------|
| | Ordinary Meetings | Special Meetings |
| Council | 4 | 11 |

Council Committees

The Municipal Council established the following committees in terms of the Local Government: Municipal Structures Act, 1998 (Act No 117 of 1998) for the effective and efficient performance of the Municipal Council's powers and functions:

Table 3.39 Council Committees

| Section 79 and other Committees | Section 80 Committees |
|-------------------------------------|--|
| Municipal Planning Tribunal | Budget and Treasury Office; |
| Municipal Public Accounts Committee | Community Development; |
| Rules of Order Committee; | Corporate Support Services; |
| IDP/Budget Steering Committee | Planning and Human Settlements |
| Local Labour Forum | IDP/PMS, Legal and Valuations; |
| Performance Audit Committee | Intergovernmental Relations and Traditional Affairs; |
| Risk Management Committee | Local Economic Development; |
| | Roads and Transport; |
| | Public Safety; |
| | Technical and Infrastructure Services |

3.29 HUMAN RESOURCE SERVICES

INTRODUCTION TO HUMAN RESOURCE SERVICES

The directorate provides human capital strategies, advisory and support services to the municipality. It is composed of the following sections in order for it to be effective:

- Recruitment and Selection
- Employee Relations
- Training and Development

Employment Statistics:

Employees appointed from 01/07/2023-30/06/2024 through the normal recruitment process.

Fixed Term Employee = 4

Permanent Employee = 3

Promotions = **14**

Performance:

There were no performance bonuses paid as there were no Senior Managers who achieved the minimum performance score of 130%.

Leave days:

Annual leave total from 01/07/2023 – 30/06/2024: The leave register indicates that a total number of **42 080** working days were taken by municipal employees.

Annual Leave = **25 767**

Sick Leave = **8 888**

Maternity Leave = 1519

Study Leave = 875

Family responsibility = 742

Long Service = 3 450

Special leave = 116

Unpaid leave = 209

Injury-on-duty = 514

Table 3.43

Workplace Skills Plan

The tender served before the BID Specification Committee for the appointment of the panel of service providers on the 23 November 2023. The advert was published on the 08 December and the closing date is 06 February 2024.16 Service providers submitted their tender documents. The Bid Evaluation Committee meeting took place on 26 March 2024 and 30 April 2024. Service providers were not appointed. The item was referred back for re advertisement by the Bid Adjudication Committee.

A memo was written to the Municipal Manager requesting that programmes be advertised on a Seven Day quotation. The Municipal Manger approved, and 13 programmes were advertised. Only two programmes were implemented due to time constraints.

- The actual annual budget for training of personnel is R 3 394 076.00. Expenditure to date is R 586 502.00 which translates to 17.3% spending.

Table 3.44 Statistical Information

| No | Detail | Total Number |
|----|---------------------------------|--------------|
| | | 2023/2024 |
| 1 | Disciplinary cases: Handled | 8 |
| | Disciplinary cases: Finalized | 0 |

| | Grievances: Finalized | |
| | Grievances: Outstanding | |

COMMENTS ON THE OVERALL PERFORMANCE OF HUMAN RESOURCES

Council managed to appoint **21** new employees during 2023/24 financial Year.

CHAPTER FIVE: STATEMENT OF FINANCIAL PERFORMANCE (BTO)

To be populated after receipt of the AG Report

COMPONENT A: FINANCIAL PERFORMANCE

Sound financial management practices are essential to the long-term sustainability of municipalities. They underpin the process of democratic accountability. Weak or opaque financial management practices and reports result in misdirected and under-utilization of resources. The key objective of the Municipal Finance Management Act (2003) (MFMA) is to modernize municipal financial management. Effective municipal financial management has interrelated components:

- planning and budgeting
- asset and liability management
- revenue and expenditure management
- supply chain management
- other financial management
- accounting and reporting, and
- oversight & operational continuity

Each of these components contribute to ensuring that government financial expenditure is developmental, effective and efficient and that municipalities / municipal entities are held accountable for the effective management of their funds.

The aim of this chapter is to provide an overview of the financial performance of the municipality through measuring of results. It further provides an opportunity for planning, so as to ensure that future budgetary allocations are brought in line with IDP and functional area activities and outputs.

To be populated after receipt of the Auditor General's Report

CHAPTER SIX: AUDITOR GENERAL'S FINDINGS

(To be populated after receipt of the Auditor General's Report)

- 6.1 AUDITOR GENERAL'S REPORT 2023/2024
- 6.2 ANNUAL FINANCIAL STATEMENTS OF THE RUSTENBURG LOCAL MUNICIPALITY
- 6.3 ANNUAL PERFORMANCE REPORT OF THE RUSTENBURG WATER SERVICES TRUST
- 6.4 ANNUAL FINANCIAL STATEMENTS OF THE RUSTENBURG WATER SERVICES TRUST
- 6.5 POST AUDIT ACTION PLAN (PAAP) AUDIT REPORT FINDINGS 2023-2024

APPENDICES A - T

APPENDIX A

The following table depicts all councilors in the Municipal Council, the political parties they represent, their standing in the council (Ward or Proportional Representative), number of meetings planned and attended.

APPENDIX C: THIRD TIER ADMINISTRATIVE STRUCTURE (INCLUDING MUNICIPAL ENTITY)

APPENDIX D: POWERS AND FUNCTIONS ALLOCATED TO THE MUNICIPALITY

| POWERS AND | DESCRIPTION | Performed/ |
|--|---|------------------|
| FUNCTIONS | | Not Performed |
| Air Pollution | Management of the air quality that affects human health. | Р |
| Building Regulations | Regulations through by-laws that provide for approval of building plans, building inspections and control of operations and enforcement of contraventions of building regulations. | P |
| Child Care Facilities | Facilities for early childhood care and development which fall outside the competence of national and provincial government. | NP |
| Electricity Reticulation | Bulk supply of electricity which includes for the purposes of supply, transmission, distribution and where applicable generation of electricity to areas where the municipality has been providing these services prior to authorisation. | P |
| Fire Fighting Services | Planning, coordination and regulation of fire services. | Р |
| Local Tourism | Promotion, marketing and development of tourist attraction within the municipal area in order to grow the local economy. | Р |
| Municipal Airport | A demarcated area on land or water or a building which is used for the arrival or departure of aircraft. | NP |
| Municipal Planning | Compilation and implementation of integrated development plan. | P |
| Municipal Public Transport (only with regard to taxis) | The regulation and control of services for the carriage of passengers. | P |
| Storm Water Management Systems | Management of systems to deal with storm water in built-up areas | Р |
| Trading Regulations | Regulation of any area or facility dealing with trade in goods or services. | P |

| Water | Establishment, operation, management and regulation of a | Р |
|----------------------------|---|----|
| | portable water supply system, including the services and | |
| | infrastructure required. | |
| Sanitation | Establishment, operation, management and regulation of a | Р |
| | potable water supply system, including the services and | |
| | infrastructure required. | |
| Amusement Facilities | Management and control of a public places for | NP |
| | entertainment. | |
| Billboards and Display of | Display of written or visual descriptive material which | Р |
| Advertisement in Public | promotes the sale and encourages the use of goods and | |
| Places | services found in streets, roads, etc. | |
| Cemeteries, Funeral | Establishment, conduct and control of facilities for the | Р |
| Parlours and Crematoria | purpose of disposing of human and animal remains. | |
| Control of Public Nuisance | Cleaning of public streets, roads, and other public spaces. | Р |
| Control of Undertakings | Includes inspection service to monitor liquor outlets for | NP |
| that sell Liquor to the | compliance to license requirements. | |
| Public | | |
| Facilities for the | Control and monitoring of facilities which provide care for the | NP |
| accommodation, Care and | animals and their burial or cremation | |
| Burial of Animals | | |
| Fencing and Fences | Provision and maintenance or regulation of any boundary or | NP |
| | deterrents to animals and pedestrians along a street or road. | |
| Licensing of Dogs | Control over the number and health status of dogs through a | NP |
| | licensing mechanism. | |
| Licensing and control of | Maintenance of environmental health standards through | P |
| Undertakings that sell | regulation, licensing and monitoring of any place that supply | |
| Food to the Public | refreshments or food for consumption to the public. | |
| Local Amenities | Provision, maintenance and control of any municipal land or | P |
| | building reserved for the protection of places or scenic | |
| | objects, historical and cultural value or interest. | |
| Local Sport Facilities | Provision, management and control of any sport facility | Р |
| | within the municipal area. | |
| | | |

| Markets | Establishment operation or management of markets other than fresh produce markets. | NP | | |
|---|--|----|--|--|
| Municipal Abattoirs | Establishment, conduct and control of facilities for the slaughtering of livestock. | NP | | |
| Municipal Parks and Recreation | Provision, management and control of any land or gardens set aside for recreation, sightseeing and or tourism. | P | | |
| Municipal Roads | Construction, maintenance and control of a roads. | Р | | |
| Noise Pollution | Noise Pollution Control and monitoring of any noise that might affect human health or wellbeing. | | | |
| Pounds The provision, management and maintenance of a facility set aside for securing animals confiscated by the municipality. | | | | |
| Public Places | Management, maintenance and control of any land or facility for public use. | P | | |
| Refuse Removal, Refuse Dumps and Solid Waste Disposal | Removal of any household or other waste and the disposal of such waste in an area. | P | | |
| Street Trading | Control, regulation and monitoring of eth selling of goods and services along public pavement or road reserve. | P | | |
| Street Lighting | Provision and maintenance of lighting for illuminating of streets. | P | | |
| Traffic and Parking | Management and regulation of traffic and parking within the area of the municipality. | P | | |
| Municipal Public Works | Any supporting infrastructure or services to empower a municipality to perform its functions. | P | | |
| Cleansing | Cleaning of public places. | P | | |

APPENDIX E: WARD REPORTING

WARD COMMITTEES' ROLES AND FUNCTIONS

From a broader view of community participation, the legislation on local government set clear mechanisms for the establishment of the ward committees as a structure to liaise with the municipalities. Establishing ward committee was not mandatory for municipality and thus not all municipalities have to have them. However, legislation makes it mandatory for municipalities to develop mechanisms to consult and involve communities in the affairs of the municipality and its processes.

Municipalities are obliged to develop a lasting and successful model by ensuring that participation takes place through these established structured and as are institutionalized. They are creation of legislation, the Municipal Structure act, giving effect to the Constitution of South Africa. Ward Committees are a part of local government and an important way of achieving the aims of local governance and democracy as mentioned in the constitution, 1996. These structures are a committee of not more than 10 members of a ward and ward Councilor is the chairperson.

Its role is to facilitate participatory democracy; disseminate information; help rebuild partnership for better service delivery; and assist with problems experienced by the people at ward level. A general understanding has emerged that the ward committee is an area-based committee whose boundaries coincide with the boundaries. Ward committee resource book (2005:20) provide this information of a particular ward:

Are made up of representatives of a particular ward

Are made up of members who represent various interests within a ward

Are chaired by the Ward Councilor

Give the community members the opportunity to express their needs, opinions on issues that affect their lives and to have them heard at the municipal level via ward Councilor.

Are advisory bodies created within the sphere of the community to assist the ward in carrying out his or her mandate in the most democratic manner.

CHALLENGES EXPERIENCED AND MEASURES TAKEN TO ADDRESS THEM

| Ward | Challenges | Remedial Measures |
|--------|---|--|
| 1 - 45 | In most wards the Ward committee system is politicized. | Trainings were proposed to induct members of the ward committees on their roles and responsibilities and to remain apolitical as per the guidelines of the ward committee policy as amended and the Municipal Systems Act. |

| Ward | Challenges | Remedial Measures |
|------|---|---|
| | Members of the Ward committees alleged to be participating in unlawful activities, which includes inter alia land grab and selling of municipal stands. | The Office of the Speaker has on a number of occasions tried to intervene on this issue, which is why we amended the Ward Committee Policy |
| | Lack of proper reporting methods on service delivery related issues | We implemented a reporting system, which is linked to the call center. Once the matter is reported, the client gets a reference number in order to track progress |

APPENDIX F: MANAGEMENT OF WARD COMMITTEES

| NUMBER OF FUNCTIONAL WARD COMMITTEES | NUMBER OF MONTHLY MEETINGS CONDUCTED | NUMBER OF RECOMMENDATIONS MADE TO COUNCIL | NUMBER OF FEEDBACK SESSIONS |
|--------------------------------------|---|---|--------------------------------|
| 44 | 528 | 0 | 0 |

APPENDIX I: MUNICIPAL ENTITY/SERVICE PROVIDER PERFORMANCE SCHEDULE

Addressed with Section 46 Report paragraph

APPENDIX J: DISCLOSURE OF FINANCIAL INTEREST (SENIOR MANAGERS)

To be inserted

APPENDIX K: REVENUE COLLECTION PERFORMANCE

| Comparing the budget and actual after the budget adjustment. | |
|--|---------------|
| Original budget inclusive of grants: | 8 287 072 000 |
| Minus Transfers and Subsidies: | 2 013 959 000 |
| Targeted revenue: | 6 273 113 000 |
| | |
| Year to date actual revenue: | 6 140 673 000 |
| Minus Grants received: | 1 880 814 000 |
| Internally generated revenue: | 4 259 859 000 |
| | |
| 4 259 859 000 | 68% |
| 6 273 113 000 | |
| | |
| Reason for variance | |

Year to date budget for electricity was 4 049 322 000 and the year-to-date actual was 2 054 300 000 as per AFS 2024. The big variance on electricity revenue has negatively influenced the performance for the period under review.

APPENDIX L: CONDITIONAL GRANTS 2023/2024 FINANCIAL YEAR

| Name of Grant | Opening Balance | Grants Received | Grants Withheld | Grants Utilized | Closing Balance |
|-----------------|--------------------|--------------------|--------------------|--------------------|--------------------|
